

Continuous Improvement, Institutionalization, and Accountability

As long as we continue to hold our current beliefs as immutable, we cannot change the basic patterns of life that have become unsustainable.

-- John R. Ehrenfeld

Success of the Climate Action Plan (CAP) hinges on creating and maintaining broad-based, systemic change that transcends traditional divisions and disciplines and goes beyond government. To help catalyze this change, the County must facilitate integrated efforts that cut across sectors, institutionalize formal processes and structures that ensure continuous improvement and accountability, and leverage its purchasing power, budgeting, and workforce.
