

JOIN THE VISION ZERO EQUITY TASK FORCE!

In Montgomery County, severe and fatal crashes are not distributed evenly across our neighborhoods. Communities with higher rates of poverty, persons of color, and younger residents have higher collision rates compared to the rest of the County.

Because of these disparities, Montgomery County is looking for residents to participate on a task force to recommend changes to policies and practices for engineering, education, and enforcement in order to close the gap and eventually eliminate traffic fatalities from our roadways.

Deadline to join is February 15th

VISION ZERO EQUITY TASK FORCE

As a member of the task force, you will:

- Attend five facilitated meetings where the task force will define equity for Vision Zero and review the County's current engineering, education, and enforcement activities.
- Develop recommendations for the County to create equitable investment in infrastructure.
- Provide input that will be the foundation for the County's long-term Vision Zero strategy.

We estimate the time commitment will be 5 hours a month over the next 6 months.
