Open to everyone, not just members. EFMP is a military program that identifies active duty military families with a member who has special medical needs and/or special education needs. Coordinates with other military and civilian agencies to provide medical, dental, mental health, developmental, educational, and community support to families with special needs. The program seeks to ensure that there are suitable services available for family members within their region and assist the service member in identifying available services at their next assignment, confirm the availability of medical and educational support at overseas locations, and identify the need for assignment within major medical areas. For more information about EFMP, contact your nearest military facility and ask for the EFMP coordinator. WRNMMC serves Montgomery County and Washington, DC.

TAPS Care Groups

www.taps.org/survivors/caregroups.aspx

For all those grieving the loss of a loved one who served in the Armed Forces regardless of circumstance of death or relationship to the deceased. Groups bring together fellow survivors to help each other find hope and purpose. It is a safe place to share stories about your loved one and experiences about your loss.
