VA Community Care Network: www.va.gov/COMMUNITYCARE/providers/Community_Care_Network.asp
Through the VA Community Care Network, VA medical staff will authorize and can schedule care from a community care provider with the Veteran's approval. Licensed health care providers will work together with VA physicians and practitioners to provide medical, surgical, Complementary and Integrative Health Services (CIHS), Durable Medical Equipment (DME), pharmacy, and dental services to eligible Veterans who are unable to receive care at local VA medical centers. VA staff will refer Veterans directly to community providers and will directly schedule community care appointments for Veterans through their local VA Medical Center. Veterans can also choose to schedule their own appointment with support from local VA staff.
