OFFICE USE ONLY

- This department has **no record** of percolation testing conducted on the property.
- Percolation testing was conducted on the property, but is not useable due to one of the following reasons:
 - Testing did not demonstrate the presence of suitable soils** for the installation of a conventional septic system.
 - Testing was conducted prior to Feb. 28th, 1979 and is no longer valid.**

No permits will be issued for the property until sufficient water table and percolation testing have been successfully completed and approved. Date(s) of percolation testing: _____
- Satisfactory percolation testing was conducted on the property; however, current regulations **require at least two sets of tests, each set to include a shallow and deep test** to define a minimum 10,000 square foot usable septic reserve area.
 - o Date(s) of percolation testing: _____
 - o Percolation test results (depths and rates): _____
 - o New Water table test required: No Yes (Must be conducted in a declared wet season)
 - o New Percolation test(s) required: No Yes
 - o Observation hole required: No Yes
- Satisfactory** percolation tests were conducted on the property. **Issuance of a septic permit will be dependent** upon review of an **updated site plan** that meets all current requirements.
 - o Date(s) of percolation testing: _____
 - o Percolation test results (depths and rates): _____
 - o Additional notes: _____
- Satisfactory** percolation tests were conducted on the property. A septic permit will be issued upon a complete septic permit application submission.
 - o Date(s) of percolation testing: _____
 - o Percolation test results (depths and rates): _____
 - o Additional notes: _____
