

DHHS PULSE REPORT

December 1, 2021

COVID-19 IMPACT AND RECOVERY

Note: This presentation includes preliminary assessments based on rapidly changing conditions. Estimates are based on best available information on dates noted on each slide.

DHHS is actively working to make this report ADA compliant.

RESPONSE: EMERGENCY ASSISTANCE AND DEMAND

Estimates are based on best available information on 11.29.2021 for the prior week (Monday-Sunday) unless otherwise noted.

2021 COVID-19 RENTAL RELIEF UPDATE: WEEK OF NOV 22-NOV 28

APPLICATIONS RECEIVED

APPLICANT CHARACTERISTICS

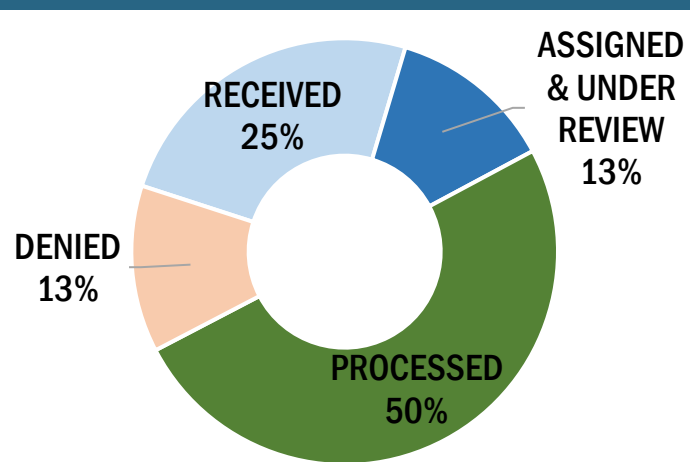

HOUSEHOLD SIZE

% OF AREA MEDIAN INCOME

APPLICATION STATUS

Denials are primarily due to applicants not having a covid financial hardship, seeking mortgage support, exceeding income requirements or not demonstrating county residence.

SELF-REPORTED CHARACTERISTICS

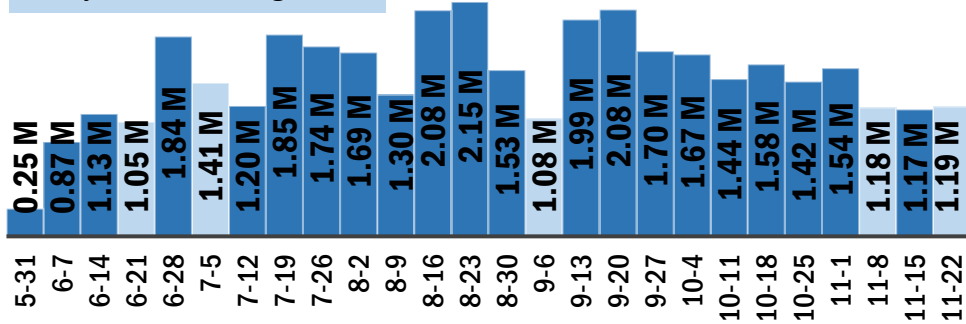

- **49%** OF TENANT APPLICANTS MATCHED WITH LANDLORD APPLICATION
- **54%** UNEMPLOYED PAST 90 DAYS
- **27%** NEEDED TO CARE FOR SELF/OTHERS
- **25%** RECEIVED EVICTION NOTICE (SELF-REPORTED)

2021 COVID-19 RENTAL RELIEF UPDATE: WEEK OF NOV 22-NOV 28

APPROVED PAYMENTS

TOTAL \$38.2M

4-day work week in light blue

The current round of funding adds to 2 previous rounds of COVID19 assistance.

ALL-TIME PAYMENTS

\$56.1M

ALL-TIME HOUSEHOLDS

8,230

- AVERAGE CLIENT PAYMENT: **\$10.2K**
- **64%** OF PAYMENTS ARREARS; **36%** PROSPECTIVE
- **47%** OF AWARDED HOUSEHOLDS LOCATED IN HIGH-NEED AREAS AS DEFINED BY HOMELESS PREVENTION INDEX

APPROVED HOUSEHOLDS

IMPACT OF COVID-19: UNEMPLOYMENT RATE IN MONTGOMERY COUNTY

COVID-19 VACCINATIONS, CASES & TESTING

DEC 1 UPDATE

MONTGOMERY COUNTY DHHS

COVID-19 VACCINATIONS: CDC

Montgomery County continues to rank **#1 nationwide** for % of 12+ population **fully vaccinated** among all US Counties with > 300K residents.

% OF ALL COUNTY RESIDENTS VACCINATED

AT LEAST 1 DOSE

93%

OF TOTAL
POPULATION

970,146

BOTH DOSES OR SINGLE J&J

80%

OF TOTAL
POPULATION

827,948

Data reflect vaccinations up to 11.29.21

CONTEXT: CONFIRMED COVID CASES PER 100K RESIDENTS

Number of cases per 100,000 persons in the past seven days

% OF COUNTY RESIDENTS VACCINATED BY AGE

The CDC has not yet made available estimates of county-level vaccinated population age 5+. For information on pediatric vaccinations in Montgomery County, see slide 15.

*The number of vaccinated may exceed the estimated population by age group due to margin of errors associated with population estimates and vaccine data entry issues. For these reasons, the CDC caps percentages at 99.9%.

Percentage of 12-17 year olds vaccinated reported as 90% confidence range because of higher margin of error. In this age group, 85,239 have received their first dose and 75,006 have received their second dose as of 11.30.2021.

WEEKLY VACCINATION TOTALS

Charts below reflect only complete weeks of data, i.e., up to 11.26.2021. Data were pulled from ImmUNET on 11.30.2021 and are subject to retroactive changes.

NOTE: These data do not include county residents vaccinated outside of Maryland.

WEEKLY VOLUME

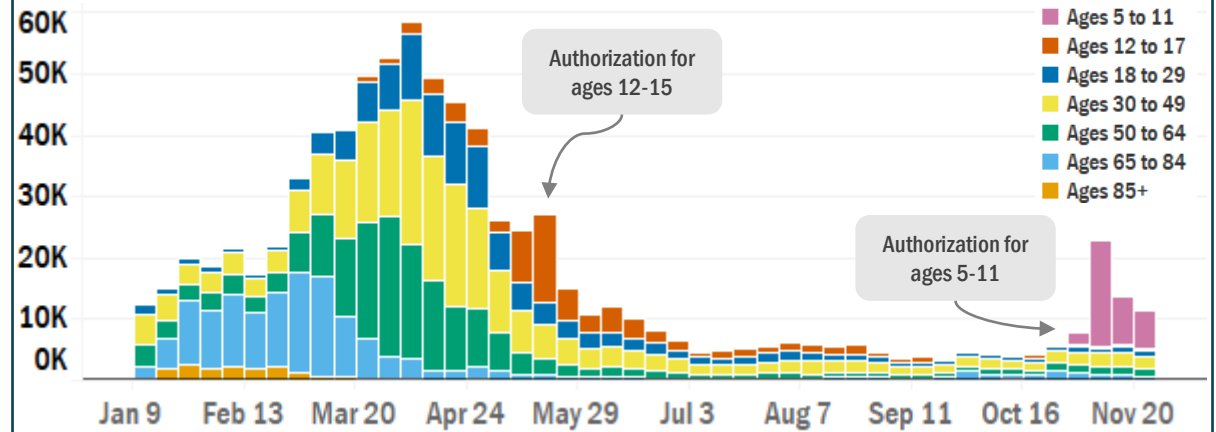

Note: An additional dose is considered any dose beyond two administered to an individual on or after 8.13.2021.

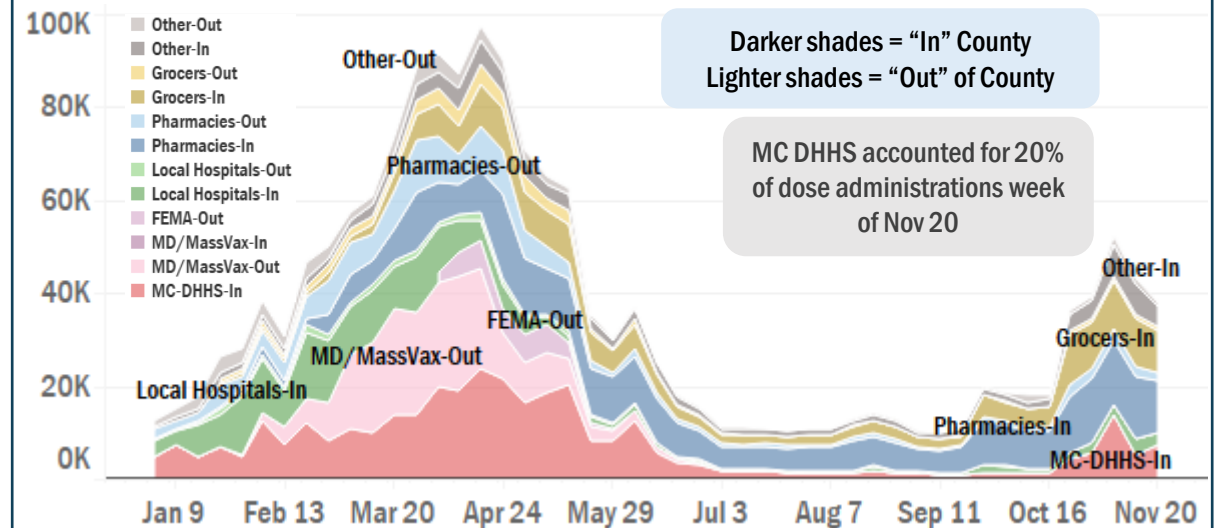

First dose vaccine manufacturer

WEEKLY VOLUME BY AGE (FIRST DOSES ONLY)

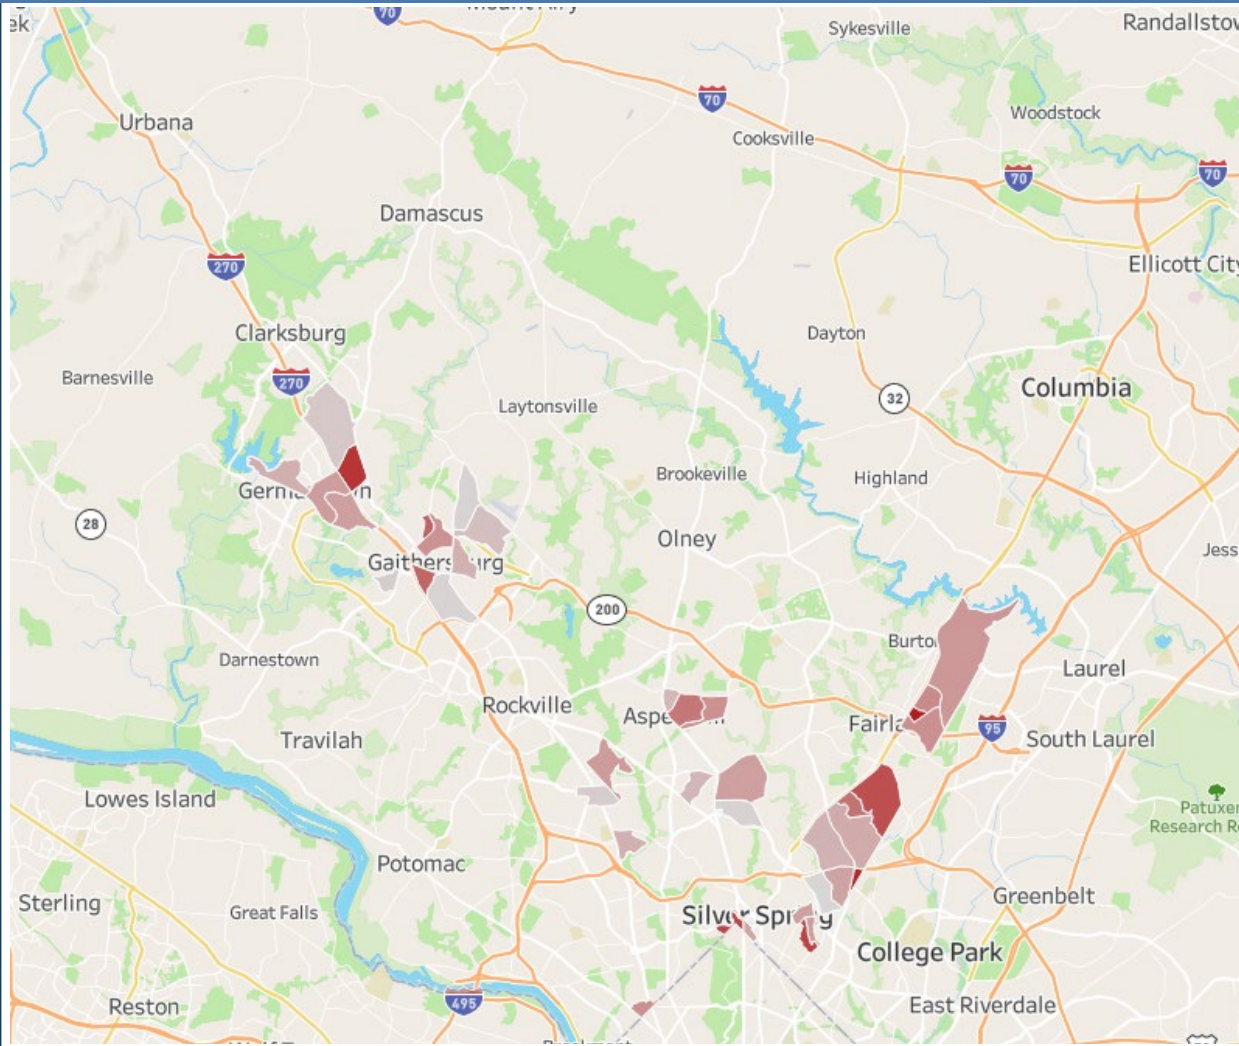

WEEKLY VOLUME BY PROVIDER (ALL DOSES)

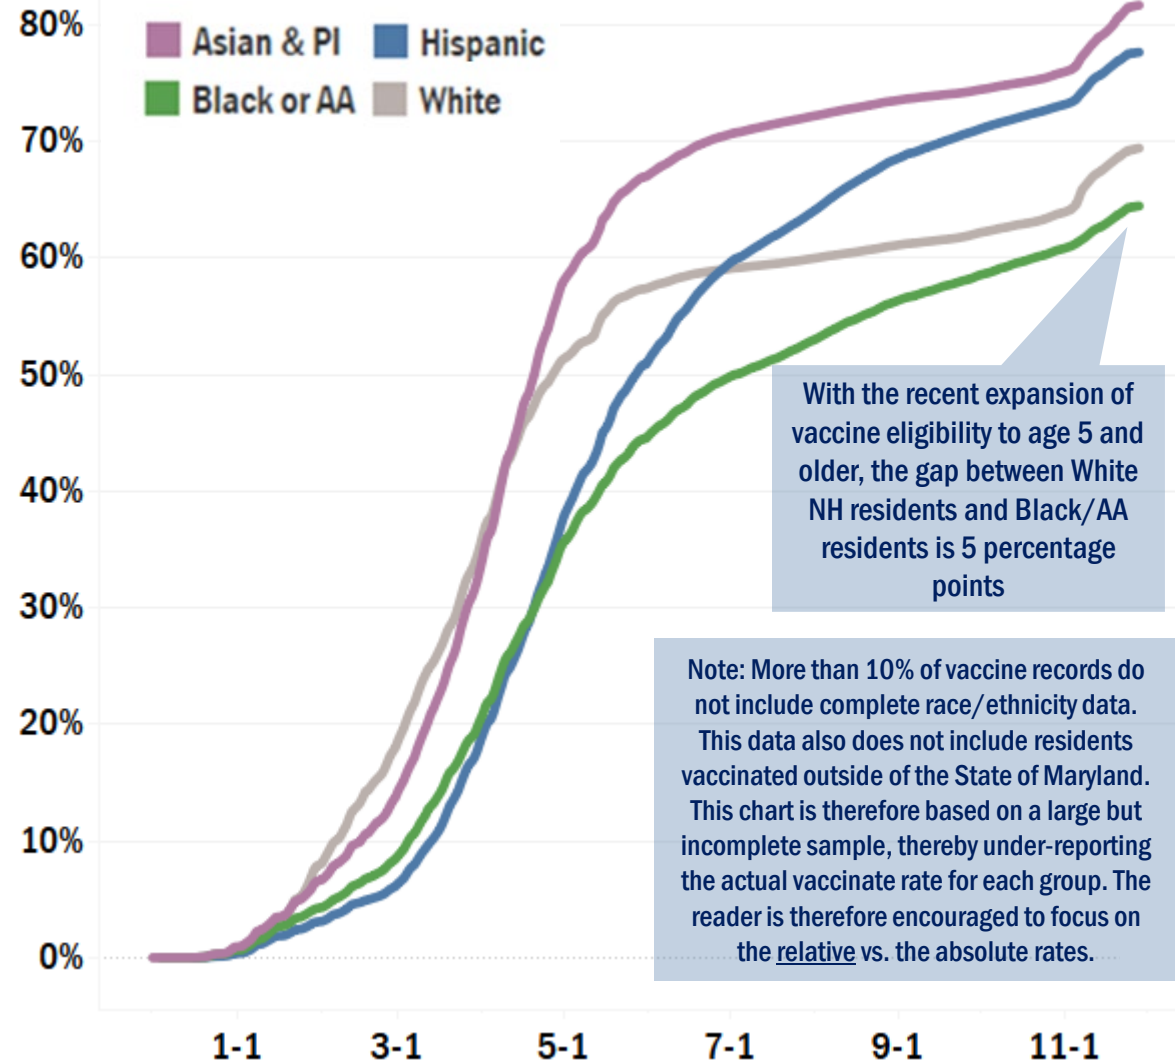

VACCINATION GAPS AND DIFFERENTIALS BY GEOGRAPHY AND RACE/ETH

TRACTS WITH BELOW-AVERAGE FIRST DOSE VAX RATES (ALL AGES)

Map has been adjusted since last week's Pulse report to reflect higher vaccination rates across the census tracts. The 70% benchmark is an estimation of the average first dose rate across census tracts; it accounts for some margin of error.

BY RACE/ETHNICITY: FIRST DOSE VACCINATION RATES

PEDIATRIC VACCINATIONS: RACE/ETHNICITY, LOCATION & DISTRIBUTION

FIRST DOSE BY RACE/ETHNICITY AMONG 5-11 YEAR OLDS

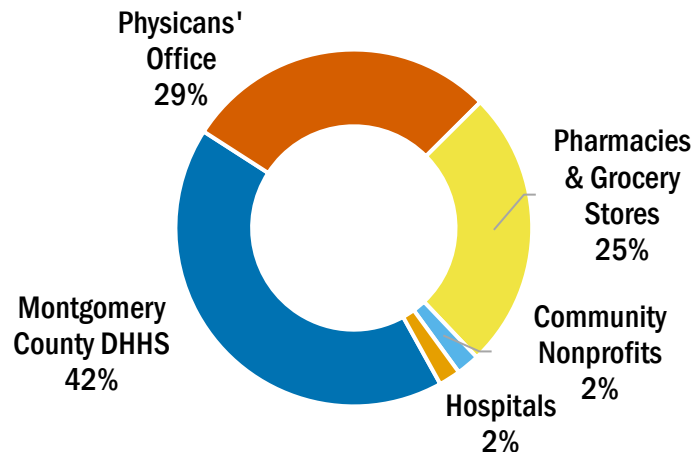

>33,000 children ages 5-11 have received their first dose since Oct. 30, approximately 35% of the estimated 5-11 population in Montgomery County.

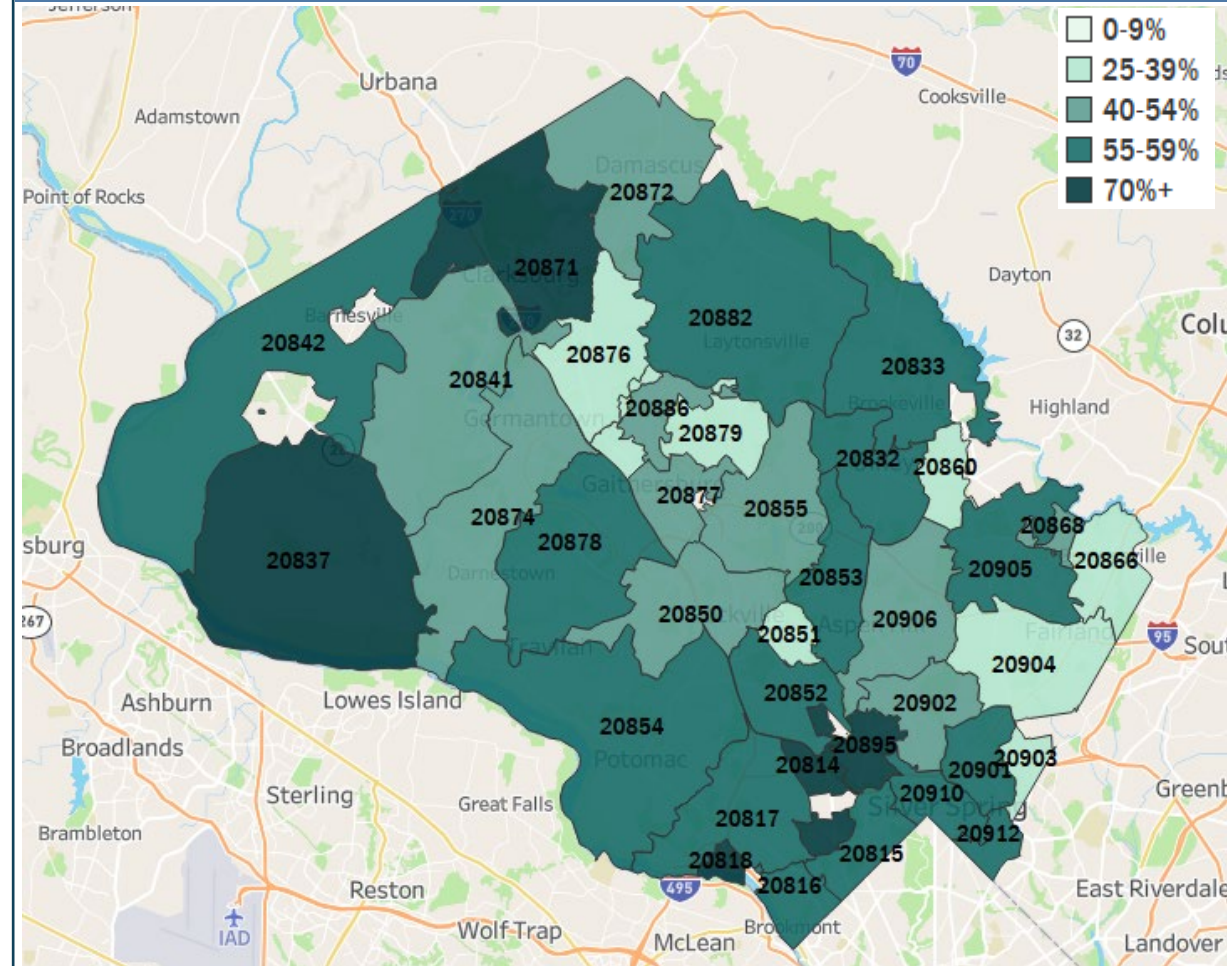

<1% of vaccinated currently identify as Native American; they are included in the "Other" category. Denominator of % who received first dose is the number of pediatric records with race/ethnicity information. Approximately 6% of current pediatric records do not have a race or ethnicity listed.

PEDIATRIC FIRST DOSE DISTRIBUTION BY PROVIDER

Montgomery County DHHS, in partnership with MCPS, is still the leading provider of pediatric vaccinations in the county since FDA approval three weeks ago. Physicians' offices, pharmacies and grocery stores are playing an increasing role in administering pediatric vaccines.

% OF 5-14 YEAR OLDS WHO RECEIVED FIRST DOSE BY ZIP CODE

Vaccination rates among residents ages 5-14 are used as a proxy for pediatric vaccination rates on this map due to the availability of population estimates only for certain age categories.

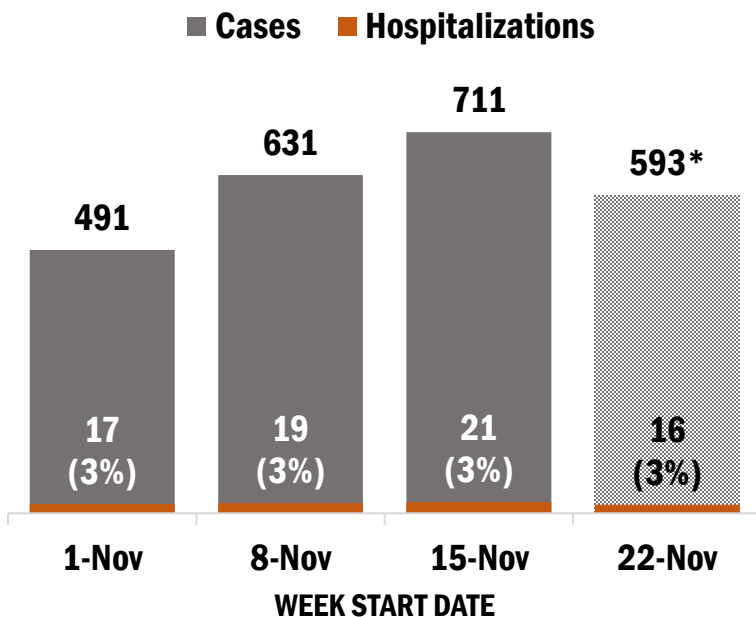

Zip codes with fewer than 100 residents ages 5-14 are excluded.

COVID-19 CASES AND HOSPITALIZATIONS: LAST FOUR WEEKS (11.1 to 11.28)

CASES AND HOSPITALIZATIONS

4-WEEK TOTAL CASES: 2,396

4-WEEK TOTAL HOSPITALIZATIONS: 73 (3% of cases)

*The number of cases and hospitalizations from the prior week are especially subject to change due to data lags and should be interpreted with caution.

RATES PER 100,000 BY AGE GROUP

The highest case rates over the last 4 weeks are among children ages 5-11. The highest hospitalization rates are among the older population, ages 50 and older.

Case rate is calculated for the four-week period noted above.
* Hospitalization data for these age categories must be interpreted with caution due to count <10 affecting reliability.

RATES PER 100,000 BY RACE/ETHNICITY

There is no longer a gap in hospitalization rates between the Hispanic, Black, and White populations, but there is a higher case rate among the Hispanic population. The Asian population continues to have the lowest case and hospitalization rates.

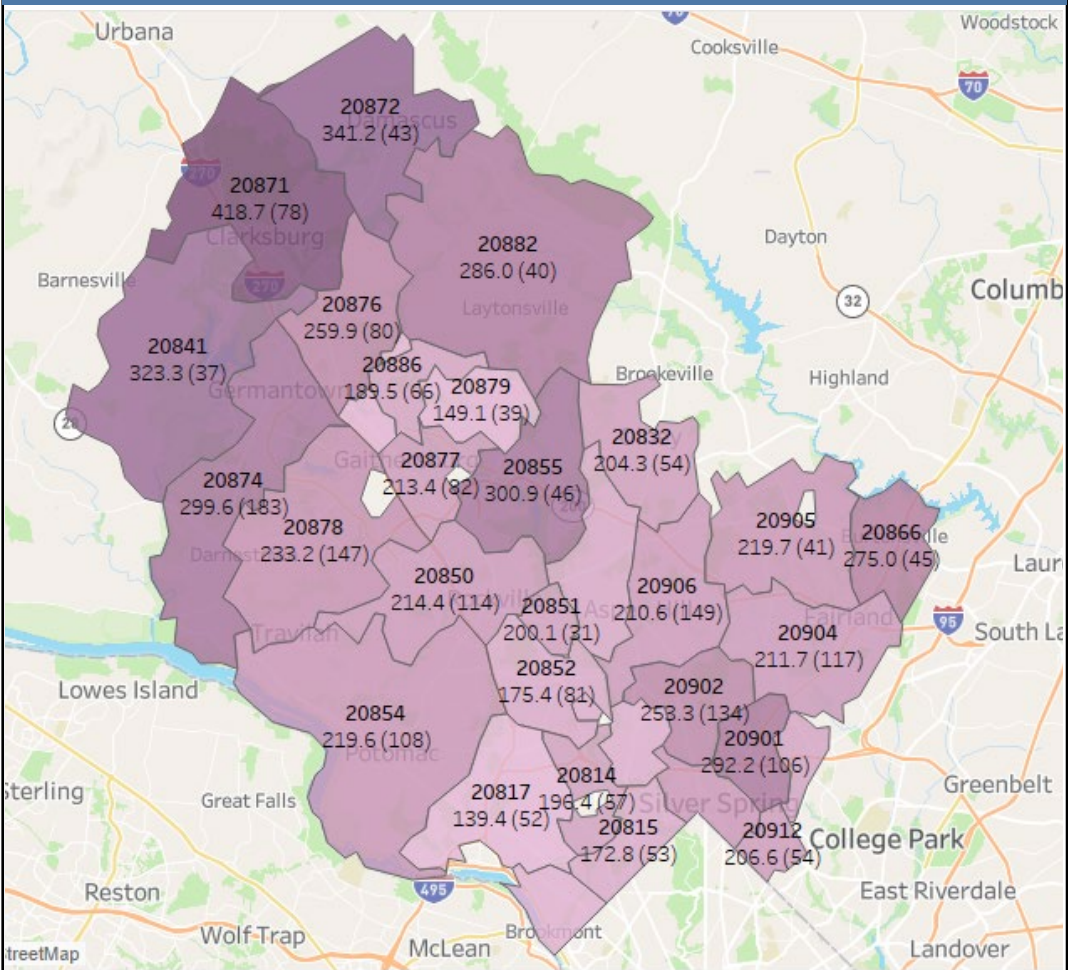

Note: Data on race and ethnicity is not always collected. In the past 4 weeks, 18% of cases were entered as "Other" and 10% were "Unknown."

Case rate is calculated for the four-week period noted above.
* Hospitalization data for this race/ethnicity must be interpreted with caution due to count <10 affecting reliability.

COVID-19 CASES AND HOSPITALIZATIONS: LAST FOUR WEEKS (11.1 to 11.28)

CASES PER 100,000 BY ZIP CODE

Case rate is calculated for the four-week period noted above. Number of cases are noted in parentheses.

Excludes zip codes with populations under 10,000.

Note: Not all case data include zip code information.

BREAKTHROUGH CASES & HOSPITALIZATIONS

4-WEEK TOTAL BREAKTHROUGH CASES	1,055
4-WEEK TOTAL BREAKTHROUGH HOSPITALIZATIONS	32

Breakthrough hospitalizations by age group cannot be published due to small counts (<10) per age group category. Twenty-five of the 32 breakthrough hospitalizations were among those older than 50.

Breakthrough Cases by Age Group

*Age unknown for 1 cases.

CASES & HOSPITALIZATIONS BY VACCINATION STATUS

Vaccinations, Cases, and Hospitalizations Among Population Ages 12+ *

The population aged 12+ is considered the vaccine-eligible segment of the population for which enough time has passed since vaccine authorization for these individuals to become fully vaccinated. We will adjust the population in this analysis to ages 5+ in a few weeks.

Calculations are based on cases and hospitalizations in the four-week period noted above.
