# IMPACT OF COVID-19: UNEMPLOYMENT RATE IN MONTGOMERY COUNTY

# COVID-19 VACCINATIONS, CASES & TESTING

## DEC 15 UPDATE

**MONTGOMERY COUNTY DHHS**

NOTE: Due to recent technical issues at the Maryland Department of Health, there are no updated case counts for last week and detailed vaccine information is not available. This section has been modified to show as much information as available. More detailed analyses will resume as soon as possible.

# COVID-19 VACCINATION SUMMARY

As of 12.14.21, DHHS has limited access to information on COVID cases and vaccinations other than publicly available data due to the security incident at the Maryland Department of Health last week. Depicted below are vaccination data from the CDC, extracted on 12.14.21.

## % OF ALL COUNTY RESIDENTS VACCINATED

### AT LEAST 1 DOSE

**95%**

OF TOTAL  
POPULATION

**994,439**

### FULLY VACCINATED

**82%**

OF TOTAL  
POPULATION

**859,657**

Data points above posted on CDC site on 12.14.21

- Montgomery County continues to rank **#1 nationwide** for % of 12+ population fully vaccinated among all US counties with >300K residents.
- The county ranks 7<sup>th</sup> among all US counties with >300K residents for % of 5+ population fully vaccinated.

## % OF COUNTY RESIDENTS VACCINATED BY AGE

**NOTE:** The CDC now caps vaccination rates at 95%. Previously, these rates were capped at 99.9%. The modified cap accounts for data entry errors and margins of error associated with census population data.

The percentages of 12-17 year olds and 5-11 year olds vaccinated are reported as 90% confidence range because of higher margin of errors within these age groups. According to the CDC, as of 12.14.21, 85,937 12-17 year olds received at least 1 dose, and 75,881 received a complete series. Among 5-11 year olds, 42,944 received at least one dose, and 25,219 received a complete series.
