

Correction and Rehabilitation

RECOMMENDED FY21 BUDGET \$72,673,907

FULL TIME EQUIVALENTS
541.57

****** ANGELA TALLEY, DIRECTOR

MISSION STATEMENT

The mission of the Department of Correction and Rehabilitation (DOCR) is to protect and serve the residents of Montgomery County and the general public by providing progressive and comprehensive correctional, rehabilitative, and community re-entry services. These functions are achieved through the operation of well-managed and effective correctional programs, including: the use of pre-trial supervision; secure incarceration; community treatment; reintegration programs; highly accountable security methods and procedures in each operating unit and program; and effective, progressive administration and management oversight.

BUDGET OVERVIEW

The total recommended FY21 Operating Budget for the Department of Correction and Rehabilitation is \$72,673,907, an increase of \$2,058,837 or 2.92 percent from the FY20 Approved Budget of \$70,615,070. Personnel Costs comprise 89.10 percent of the budget for 539 full-time position(s) and no part-time position(s), and a total of 541.57 FTEs. Total FTEs may include seasonal or temporary positions and may also reflect workforce charged to or from other departments or funds. Operating Expenses account for the remaining 10.90 percent of the FY21 budget.

COUNTY PRIORITY OUTCOMES

While this program area supports all seven of the County Executive's Priority Outcomes, the following is emphasized:

Safe Neighborhoods

INITIATIVES

- Begin phased initiative to retrofit cell vents, bunks, and doors to reduce opportunities for self harm. Highest priority areas will be addressed first.
- Implement electronic health records to modernize the correctional health records system.
- Add six correctional officers to support new mandates and legal requirements related to the management of inmates located in restrictive housing per Maryland Chapters 526 and 324 of 2019.
- Correct a structural budget deficiency in funding for sanitation, hygiene, and disease control. Vents at the Montgomery County Correctional Facility will also be cleaned.

- In collaboration with Department of Health and Human Services, institute a Medication Assisted Treatment program for Opioid Disorders for inmates within DOCR.
- Expand General Education Diploma (GED) services to include Spanish speaking classes.
- Install new all-in-one recycling stations at the Montgomery County Correctional Facility and the Montgomery County Detention Center to promote a greener County.
- Continue to develop Departmental dashboards to produce timely and accessible critical information for the purpose of improved monitoring and analysis of operational issues, tracking outcomes, creating priorities, and making substantive decisions.

INNOVATIONS AND PRODUCTIVITY IMPROVEMENTS

- ** In collaboration with Department of General Services, implement the Montgomery County Detention Center (MCDC) Stabilization project to reduce the facility's existing footprint by demolishing unused space that will save on building maintenance, repairs and energy costs.
- ** Replaced kitchen equipment at the Montgomery County Correctional Facility (MCCF) that was beyond useful life to reduce maintenance and repair costs for aging and obsolete equipment, eliminate service disruptions, and provide safer more efficient food service operations.
- Implemented Telestaff system to create efficiencies in scheduling and staff deployment.
- ** In collaboration with Department of Technology Services, completed several modules of the DOCR Jail Management System to improve efficiencies throughout the department. The new modules eliminate the manual diminution process and streamlines business systems to process sentence diminution and restitution payment in a real-time.

PROGRAM CONTACTS

PROGRAM PERFORMANCE MEASURES

Performance measures for this department are included below (where applicable), with multi-program measures displayed at the front of this section and program-specific measures shown with the relevant program. The FY20 estimates reflect funding based on the FY20 Approved Budget. The FY21 and FY22 figures are performance targets based on the FY21 Recommended Budget and funding for comparable service levels in FY22.

PROGRAM DESCRIPTIONS

** Administration and Support

Management Services and the Director's Office serve an advisory function to Department of Correction and Rehabilitation (DOCR) and implement performance accountability programs and general management practices. The program is comprised of the Director's Office; Accreditations and Professional Standards; Human Resources; Training; Procurement; Employee Health, Welfare and Safety; Fiscal Management; Information Technology; Capital Improvement Projects (CIP); and Special Projects.

Detention Services

Under the supervision of the Warden, Detention Services is responsible for the operation of two detention facilities, the Montgomery County Detention Center (MCDC) located in Rockville, and the Montgomery County Correctional Facility (MCCF) located in Clarksburg.

MCDC is responsible for the intake, reception, and diagnostic functions of the Department including law enforcement processing of adult offenders arrested in Montgomery County. The facility has the capacity to accommodate approximately 200 inmates. Over 12,000 offenders annually arrive at MCDC's Central Processing Unit (CPU) for arrest processing.

MCDC conducts psychological screening, medical screening, and risk assessment to determine the appropriate classification level of inmates and provides for the initial care, custody, and security of inmates for up to 72 hours prior to transfer to MCCF. At MCDC, bond hearings are conducted by the Maryland District Court Commissioners. They also determine eligibility of offenders for legal representation by the Public Defender's Office.

Following an initial intake at MCDC, inmates may transfer to the 1,029-bed Montgomery County Correctional Facility (MCCF), normally within 72 hours. MCCF is responsible for the custody and care of male and female offenders who are either in a pre-trial status or serving sentences of up to 18 months. Progressive and comprehensive correctional services and programs are provided to all inmates covering substance abuse treatment, mental health issues, cognitive behavioral modification programs, education, life skills, and workforce development.

Pre-Release and Re-entry Services

The Pre-Release and Re-entry Services (PRRS) is a correctional program that provides community-based residential and non-residential alternatives to secure confinement for sentenced adult offenders in which they engage in work, treatment, education, family involvement, and other services as they transition back into the community. The program primarily serves inmates who are within one year of release and are sentenced to Department of Correction and Rehabilitation (DOCR). In addition, the program provides re-entry services to federal- and state-sentenced inmates and federal probationers who are within one year of release and who are returning to Montgomery County and the greater Washington Metro area upon release.

The residential program, located in Rockville, is a 144-bed 24/7 community corrections facility that houses female and male offenders. The non-residential Home Confinement program allows individuals to live in their homes, although they are required to report to the Pre-Release Center several times a week for drug testing and other required programming. The program provides for all aspects of care, custody, and security of all offenders on the program. Staff provide rehabilitative and case management services, as well as perform security responsibilities to maintain operations, offender accountability, and to ensure safe clean and orderly program operations.

Pre-Trial Services

There are four independent programs within Pre-Trial Services (PTS): Pre-Trial Assessment Unit, Pre-Trial Supervision Unit, Alternative Community Service Program (ACS), and Intervention Program for Substance Abusers (IPSA).

The Pre-Trial Assessment Unit is housed at the Montgomery County Detention Center and is responsible for assessing those who have been newly arrested and have been unable to make bond. Staff verifies personal information, analyzes criminal histories, and formulates recommendations to the Court to enable the Judge to make informed bond decisions. Recommendations are made with public safety as the main priority following the national models of assessment for pre-trial programs.

The Pre-Trial Supervision Unit provides monitoring of court-ordered conditions to offenders released to the community while awaiting trial. Advanced technology such as GPS tracking and Radio Frequency Curfew equipment are used to monitor offenders' movements in the community. Drug testing is also performed. Violations of release conditions are immediately reported to the Court for possible re-incarceration.

The diversion programs, ACS and IPSA, are predominantly for first-time misdemeanant offenders who will ultimately have their charges expunged following successful completion of one of these programs. Community service, drug education, and treatment are core functions of these programs.
