This project provides for renovation of a 17.4-acre local park adjacent to Piney Branch Elementary School in Takoma Park. The renovated park will include a loop path, natural surface trails and pedestrian connections, improved entrance plaza and parking lot at Darwin Avenue, handicap parking at Grant Avenue and maintenance access, replaces existing basketball courts, replaces existing playground and adds another, reduces two volleyball courts to one, provides stormwater management for the parking lot and a wetland area in Takoma Woods, constructs a new shelter, replaces the existing restroom with portable toilets, and converts the two tennis courts to a skateboard park. The existing ballfields will remain unchanged. Design will begin in FY07. Construction will begin in FY08 and is scheduled for completion in FY09.

This park is 30 years old and serves a diverse population in the Takoma Park area. The Takoma Park City Council approved the plan and asked that it be given priority because it provides the only green space in a densely populated area. Once renovated, this park will provide an additional playground to serve the adjacent school and the many apartments in the area. If a skateboard park is constructed, it will help provide one of the many that the Draft 2005 Land Preservation, Parks and Recreation Plan indicates will be needed by 2020. The park will also provide walking paths to be used by the schools and community.

### Plans and Studies

Support for the renovation of the Takoma-Piney Branch Local Park may be found in the Takoma Park Master Plan adopted December 2000. The facility plan is also consistent with the 1998 PROS plan. The 2005 Draft Land Preservation, Parks and Recreation Plan (LPPRP) cites the need for fifteen skateboard parks in the County. The Takoma Piney Branch Local Park has Planning Board, City, and community approval for a small-scale, modular, neighborhood skateboard park. The Montgomery County Planning Board approved the Facility Plan in August 2005.

A review of impacts to pedestrians, bicycles and ADA (Americans with Disabilities Act 1991) will be performed and addressed by this project. Traffic signals, streetlights, crosswalks, bus stops, ADA ramps, bikeways, and other pertinent issues will be considered in the design of the project to ensure pedestrian safety.

# **Cost Change**

Not applicable.

## STATUS

Final design stage.
