DESCRIPTION

This project provides for improvements at Poolesville Golf Course. The stream stabilization project originally scheduled for FY06 will now be completed in FY09. Modification of the current golf shop building to include new food and beverage operations is scheduled for FY10. Long range planning includes a new irrigation system in FY13 and new parking lot in FY14.

COST CHANGE

Increase due to costs associated with upgrades of the golf shop building to include new food and beverage operations.

JUSTIFICATION

The public daily fee golf course must cater to the diverse abilities of many golfers, from low to high handicappers, by providing both appropriate level of strategy and challenge and an interesting and pleasant setting in which to play the game. The objective of the improvements is to provide maximum playability, enhance visual quality, and allow for the most efficient maintenance of the golf course. The project proposes required improvements for stream stabilization, new food and beverage operations, and long term infrastructure needs.

OTHER

The existing 18-hole golf course is operational.
