DESCRIPTION

This PDF includes planning, design, and construction and reconstruction of natural surface trails. Natural surface trails are usually located in stream valley parks. Surfaces include dirt, wood chip, soil mixtures, and sometimes gravel or stone, supplemented by boardwalk or other elevated surfaces when needed; they are generally narrower than hard surface trails. Natural surface trails accommodate pedestrians, equestrians and/or off-road (mountain) bicyclists, and generally do not meet Americans with Disabilities Act (ADA) requirements. The expenditure schedule does not include the value of work done by volunteers to assist with the construction of natural surface trails.

COST CHANGE

Increase due to the addition of FY15 and FY16 to this ongoing project.

JUSTIFICATION

Informal trails at Rachel Carson need realignment and drainage improvements in order to protect natural resources at the conservation park while allowing some trail use. Improvements address only the highest priority needs for each trail and presume some volunteer assistance for hand labor. Projects in Rock Creek, Rachel Carson, Little Bennett, and Black Hill implement park master plans. This CIP Project implements the natural surface recreational trail component of the Countywide Park Trails Plan and trail recommendations in area master plans.

Countywide Park Trails Plan approved by the Planning Board in July 1998. The Potomac Sub-region Master Plan was approved by the Planning Board in 2002.

2005 Land Preservation, Park and Recreation Plan.

FISCAL NOTE

In April 2011: Reduce current revenue by \$25,000 in FY12 for fiscal capacity

In April 2009, the Executive recommended and Council approved a reduction of \$15,000 in Current Revenue as part of the FY10 Savings Plan.

In January 2010, the Executive recommended and Council approved an additional reduction of \$97,000 in Current Revenue as part of the FY10 Savings Plan.

- * Expenditures will continue indefinitely.
