

County Executive Marc Elrich's Signature Initiatives

- **Preserving & Increasing Affordable Housing** – focus on eviction and homelessness --prevention, tenant education, limitations on rental increases, and rental assistance.
- **Building Bus Rapid Transit System** – a high quality, frequent, reliable transit plan for the 21st Century.
- **Fighting Climate Change** – goal to reduce greenhouse gas emissions

Countywide 80% by 2027 and achieve zero greenhouse gas emissions by 2035 – while prioritizing racial equity, social justice, and public health.

- **Expanding Early Care and Education** – develop a comprehensive system of high-quality, accessible, and affordable early childhood education.
- **Improving Economic & Community Development** – focus on economic growth and workforce development.
 - Institute for Health Computing
 - Montgomery County Green Bank
 - Montgomery County Economic Development Corporation
 - WorkSource Montgomery
- **Reimagining Public Safety** – improve interaction with public safety system through greater understanding of how mental and behavioral health, addiction, poverty, and other conditions are affecting our residents.
- **Advancing Racial Equity & Social Justice** – through legislation, budget appropriations, supplemental appropriations, training for employees.

About Montgomery County

Montgomery County was established by the State Convention in 1776, and from its establishment until 1948, the Montgomery County Government functioned under the County Commission system. In 1948, the voters adopted a charter giving the County home rule and a council-manager form of government. In 1968, the voters approved a new charter providing for separate legislative and executive branches of government, with legislative power vested in an elected County Council and executive power in an elected County Executive. The new charter became effective with the election of the County Executive and Council in November 1970. Currently, the Montgomery County Council is composed of eleven members, four of whom are elected by all voters in the County. The remaining seven Councilmembers are each elected from one of seven Councilmanic districts.

Montgomery County contains 491 square miles (or 317,000 acres) of land area. The County population was 1,052,521 as of July 2023, consisting of 41.4 percent White (non-Hispanic) and 58.6 percent cultural minorities. About 32.7 percent of the population is foreign-born.

The 2022 median household income was \$118,323. According to the Maryland Department of Labor, the County's estimated labor force for October 2023 was 550,371 with an unemployment rate of 1.9 percent. Montgomery County is an employment center with 35.1 percent of persons residing in the County also working in the County. For the 2022 fall enrollment, 160,554 pupils were registered in the County's schools.

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**Montgomery County
Maryland**

For the Fiscal Year Beginning

July 1, 2023

Christopher P. Morrill

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented an award of Distinguished Budget Presentation to Montgomery County Government for its annual budget for the fiscal year beginning July 1, 2023.

In order to receive this award a governmental unit must publish a document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communication device.

The award is valid for the period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

How to Read the Budget

INTRODUCTION

The County's Approved Capital Budget and Capital Improvements Program (CIP) contains a comprehensive picture of the budget year beginning July 1, including the approved Project Description Forms (PDFs), summary schedules, and approval resolutions. This document is published biennially. This entire budget document section is available on the County's web site:

<http://www.montgomerycountymd.gov/omb/>

OPEN BUDGET

Montgomery County, Maryland offers a comprehensive Open Data Budget Publication that takes the very complex and detailed data found in the traditional budget publication and transforms it into an intuitive, accessible and shareable format. Features included are:

- Interactive charts, tables, maps, and videos;
- A Custom Google Search Engine;
- Archiving Previous Years' Data / Content;
- Unlimited Sharing/Discovery of data, tables, and visualizations;
- Mobility (works on smartphones, tablets, and desktops);
- American with Disabilities Act (ADA) Compliance; and
- Instantly translatable into 90+ languages.

For more, please visit the following website: <http://www.montgomerycountymd.gov/omb/openbudget.html>

CONTENTS OF THE CAPITAL BUDGET/CIP DOCUMENT

County Executive's Budget Message

The County Executive's message summarizes the financial status of the County, conveying the Council's approved expenditures for the upcoming year and six-year period.

County Council President's Budget Message

The Council President's message summarizes the Council's approval of the approved expenditures for the upcoming year and six-year period.

Department/Agency Budgets

Sections 3 through 32 contain a Council approved Project Description Form (PDF) for every new or active project with expenditures in the six-year period and/or beyond six years for Montgomery County Government, Montgomery County Public Schools (MCPS), Maryland-National Capital Park and Planning Commission (M-NCPPC), Montgomery College, the Housing Opportunities Commission (HOC), Revenue Authority, and WSSC Water (Washington Suburban Sanitary Commission).

A PDF provides the following information: project number, title, and other identifiers (e.g., category, subcategory, administering agency, status, planning area, and relocation impact); estimated expenditure and funding schedules; annual operating budget impact; appropriation, expenditure, and capitalization data (for MCPS only); description, justification, and other explanatory text, including:

coordination and planning information required with and by other agencies; and location. If a project has been identified by the Planning Board as a Required Adequate Public Facility to support planned and approved development in a particular area, a "YES" is shown in this area. PDFs for Revenue Authority projects will portray all the information previously listed with the exception of actual and estimated expenditures prior to the six-year period.

The columns at the top of the PDF represent information on project expenditures and funding for a project. The expenditure and funding schedules are a reasonable approximation of the timing of work on the project.

The middle section of the PDF provides data on past and proposed appropriations, which are authorizations for expenditures. An appropriation is the permission - not a requirement - to perform work and expend money. Therefore, if proposed expenditures are acceptable, then sufficient appropriation should be granted to permit contracts to be signed and work to be performed in the upcoming fiscal year.

Depending on the project, expenditure estimates beyond the first year can include inflation, other extraordinary adjustments such as an anticipated rise in price for energy or steel, and contingencies. A project status of "Ongoing" indicates that the project is likely to continue indefinitely at a similar annual amount in future years (e.g. sidewalk repair).

Budget Summary Schedules

The countywide interagency summaries provide integrated expenditure and funding data for County government program categories and all other agencies. Also, charts are included summarizing general obligation (GO) bond and tax supported current revenue use and comparisons to last year's approved budget.

Approved Resolutions

The resolutions specify appropriations for Montgomery County Government and agencies. Resolutions are adopted to express the policy of the Council on certain items or programs; or are adopted to direct certain types of administrative action. Capital Budget Resolutions may contain all or some of the following:

Part I - FY2025 Capital Budget, which are appropriations to implement the projects in the Capital Improvements Program. For Revenue Authority, all new Council approved projects with expenditures in the six-year with changes from the County Executive's FY25 Recommended Budget and FY25-30 Capital Improvements Program.

Part II - New or Active Council approved projects for Montgomery County Government. Projects with changes from the agency's request are included in this resolution for the following agencies: Montgomery County Public Schools, Maryland-National Capital Parks and Planning Commission, Montgomery College, Housing Opportunities Commission, Revenue Authority, and WSSC Water (Washington Suburban Sanitary Commission).

Part III - Capital Improvements Projects to be Closed Out effective June 30, 2024, and the appropriation for each project is decreased by the amount of the project's unencumbered balance (with the exception of Revenue Authority and WSSC Water).

Part IV - For Montgomery County Government and M-NCPPC projects, a ten percent transferability calculation is provided for Level of Effort projects which is the maximum cumulative appropriation that can be transferred to other projects for FY25. For MCPS, Part IV displays the partial closeout amounts for Level of Effort projects effective as of June 30, 2024.

Glossary and Acronyms

A glossary of the budget and other technical terms and acronyms commonly used in the CIP is provided for the reader (published only on the web).

Index of Capital Projects

Indices sorted by project name, project number, and geographical planning area are provided.

HOW TO FIND A SPECIFIC PROJECT

If you are interested in information about a specific project, locate the section for the Project Description Form (PDF) in one of the three indices at the back of the publication. Indices are sorted alphabetically by project name, numerically by project number, and geographically by planning area. Information regarding Council approved projects can also be found on the County's Open Budget web site: <http://www.montgomerycountymd.gov/omb/>

PROJECT DESCRIPTION

This program provides for an on-going comprehensive effort to ensure that County buildings and other facilities are built and maintained in compliance with Title II of the Americans with Disabilities Act (ADA) and the ADA 2010 Standards for Accessible Design. This program includes both the correction of deficiencies identified by the United States Department of Justice (DOJ) during its proactive Project Civic Access (PCA) assessment of County facilities, an assessment by the County of all County government buildings and facilities not included in the PCA assessment, and remediation of any deficiencies identified by those assessments. The program also includes policy development, advanced technical training for County architects and engineers to ensure that ADA compliance and accessibility are incorporated throughout the County's planning, staff training, design, and construction process in order to ensure that County facilities are fully compliant with Title II of the ADA. In September 2010 revised Title II ADA regulations, including the 2010 Standards, were issued by DOJ. The new 2010 Standards include revisions to the 1991 ADA Accessibility Guideline (ADAAG) standards and supplemental standards for features not addressed in the 1991 ADAAG including pools, recreation facilities, ball fields, locker rooms, exercise rooms, picnic areas, golf courses, playgrounds and residential housing. The Title II ADA regulations require jurisdictions to proactively address the supplemental standards by bringing all features addressed in the supplemental standards into compliance with the 2010 Standards.

ESTIMATED SCHEDULE

FY25: MLK Outdoor Pool, Germantown Outdoor Pool, Sandy Spring Fire Station, Coffield Community Center
 FY26: Bethesda Outdoor Pool, 401 Hungerford Drive, 8818 Georgia Avenue

COST CHANGE

Cost increase is due to the addition of expenditures in FY29 and FY30 for this ongoing project. FY24 reflects a \$180k transfer in current revenue general funds to Facility Site Selection.

PROJECT JUSTIFICATION

Montgomery County was selected by DOJ for a Project Civic Access review in 2006. Project Civic Access is a proactive, ongoing initiative of the Disability Rights Section (DRS) of the DOJ Civil Rights Division to ensure ADA compliance in local and state governments throughout the country. DOJ has completed reviews and signed settlement agreements with over 150 jurisdictions to date. DOJ has inspected approximately 112 County government buildings and facilities. In addition, they have inspected polling places, ballfields, golf courses, and local parks. Montgomery County signed a legally binding settlement agreement to address the findings in August 2011. M-NCPPC was a co-signer of the agreement. The agreement requires the County to remediate all problems identified by DOJ within a negotiated timeline and to survey all remaining buildings, facilities, and programs not surveyed by DOJ. Programs and facilities must be surveyed within a three-year time frame, with approximately 80 completed each year. Prior to FY20, the County was required to send a report of its findings to DOJ each year with a proposed remediation plan and timeline.

FISCAL NOTE

FY24: \$180k transfer in current revenue general funds to Facility Site Selection.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

United States Department of Justice, Department of Health and Human Services, Department of Transportation, Office of the County Attorney, Montgomery County Public Schools, Revenue Authority, Maryland-National Capital Park and Planning Commission, and Department of General Services.

Expenditure / Encumbrances	1,073		
Unencumbered Balance	121		

PROJECT DESCRIPTION

This project provides for the identification, management, control, and if required, removal of asbestos containing materials (ACM) from County facilities. Also included are costs associated with the removal of these materials, such as material replacement and facility repairs, when required. This project also provides for the removal of other environmental hazards such as lead based paint.

ESTIMATED SCHEDULE

Several projects will be completed in FY25 and FY26.

COST CHANGE

Cost increase is due to the addition of expenditures in FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

Asbestos containing materials which have become damaged, or may be disturbed during building renovation or demolition, must be removed or abated. If these materials are not removed, they may become friable, releasing asbestos fibers into the air. Inhaled asbestos fibers may cause health impairments, such as asbestosis, lung, and other types of cancers. Therefore, removing the asbestos-containing materials prior to a renovation eliminates the release of asbestos fibers into the building ventilation system and inhalation of asbestos fibers by building occupants or renovation contractors. Neither contractors nor workers will perform renovations until asbestos is removed because of the health risk to the workers and the associated liability risk to the contractors. Asbestos and other hazardous materials abatement is performed only by specialty contractors, donning protective clothing, and respiratory protection. Asbestos abatement workers are also required to attend specialized training and follow decontamination procedures. The asbestos removal must be performed within an isolated airtight plastic containment vessel, under negative air pressure, as required by Federal and State regulation. Estimated project costs reflect these requirements and removal procedures. The primary targets of this project are County-owned facilities constructed prior to 1978. Bulk material samples and air samples are taken to verify that removal actions are in compliance with regulatory guidelines. Asbestos Abatement is currently also being included in stand-alone renovation projects and in the roof replacement project for County Government. The asbestos survey of County facilities, conducted in FY88, was the basis of the work program. Revisions have and are being made based on periodic ACM inspection, in support of facility renovation, or in response to any unidentified ACM which may be encountered in the course of a maintenance activity.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of General Services and PLAR: Planned Lifecycle Asset Replacement.

PROJECT DESCRIPTION

This level-of-effort project is needed to maintain the County's building infrastructure. This project funds the wholesale replacement of aged and outdated building envelope systems including the replacement of windows, exterior doors, siding, exterior walls, and weatherproofing. This project provides for a systematic replacement to maintain the building envelope, protect the building integrity, and allow for continued full and efficient use of County buildings.

ESTIMATED SCHEDULE

Several projects will be completed during FY25 and FY26.

Community Corrections windows

Replace windows at two County libraries

Replace three front/back rolling doors at three County fire stations.

COST CHANGE

Cost increases due to the addition of expenditures in FY29 and FY30 for this ongoing project, as well as additional expenditures to complete improvements at the Pre-Release Center in FY25.

PROJECT JUSTIFICATION

Window replacements, siding replacements, and exterior door replacements are critical to protect the life of a facility. Windows and doors can eliminate drafts to improve both comfort and energy efficiency. Siding protects the facility by eliminating potential leaks that can lead to damage of other facility components as well as creating health issues such as mold growth.

OTHER

Building envelope repairs have been neglected for many years. Many facilities still have single and/or double pane glass windows and are poorly sealed, leading to energy loss. Many exterior metal doors are rusted and frequently fail to close and latch which creates a safety hazard. Renovations will address leaks around windows and doors and will provide improved energy efficiency.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of General Services and departments affected by building envelope repair projects.

PROJECT DESCRIPTION

This project is in four phases. The first phase, completed in 2009, renovated the hearing room, conference room, and anteroom on the third floor of the Council Office Building (COB) which had not been renovated in at least twenty-five years. Phase II replaces the HVAC system, the lighting systems, windows in the rest of the COB, upgrades restrooms to ADA standards, renovates the auditorium on the first floor, provides improved signage inside and outside the buildings, refreshes common areas, and reconfigures space on the fourth, fifth, and sixth floors for the Council Office and the Office of Legislative Oversight (OLO) staff. Phase III provides code compliance renovations and building envelope corrections. Phase IV will include limited interior modifications to provide two new councilmember suites and ancillary spaces (e.g. hearing/conference rooms). Phase IV - Part B includes a reevaluation and assessment of the cafeteria/kitchen and potential renovations. The project will also fund accessibility and other improvements to the first floor public entrance area and seventh floor hearing rooms.

ESTIMATED SCHEDULE

The project was completed in FY24 with the exception of the added scope of the cafeteria renovation and renovations to the first floor public entrance area and seventh floor hearing room.

COST CHANGE

Cost increase reflects increased project scope.

PROJECT JUSTIFICATION

Heating, ventilation, and air conditioning in the COB function poorly, and most of the restrooms are not compliant with updated ADA standards or high performance building standards. The Council Office and OLO have far outgrown their space since it was last reconfigured more than 25 years ago. The 1st Floor Auditorium, which is used regularly for County Government staff training and as a meeting place by civic organizations, was extremely substandard.

FISCAL NOTE

The second phase of the project is partially funded with a \$184,000 unencumbered balance from the first phase and an FY15 transfer of \$2,993,000 in G.O. Bonds from the Montgomery County Government Complex (360901). An FY15 supplemental of \$296,000 in G.O. Bonds was approved. An audit by Energy Service Company (ESCO) has been conducted, and it has determined that \$4 million in savings can be anticipated from this project. An Energy Savings Performance Contract (ESPC) will allow for third-party funding to cover this portion of the contract, so that G.O. Bonds are not required for funding. A financing mechanism is in place to cover the cost of the contract and the repayment of debt is guaranteed through the energy savings. An FY17 transfer of \$700,000 in long-term financing from Energy Systems Modernization was approved. An FY21 supplemental in G.O. Bonds for the amount of \$92,000 was approved.

FY22 supplemental in G.O. Bonds for the amount of \$3,600,000.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

County Council, Department of General Services, Department of Technology and Enterprise Business Solutions, Legislative Branch Offices, Office of Consumer Protection, and Department of Housing and Community Affairs. Special Capital Projects Legislation was enacted on June 23, 2015, and signed into law on July 6, 2015 (Bill No. 27-15).

PROJECT DESCRIPTION

This project provides for the orderly replacement/renovation of aging and outdated elevator systems in County-owned buildings. This project also includes periodic condition assessments of elevator systems in County buildings.

ESTIMATED SCHEDULE

Several projects will be completed in FY25 and FY26.

COST CHANGE

Cost increase is due to the addition of expenditures in FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

Many elevator systems in County buildings are inefficient, outdated, and beyond economic repair. The useful life of heavy use equipment (hoist, machine motor generation set, governor, controls, car safety devices, door operator, rails, air conditioning pump units, car buffers, door hardware, etc.) has been exhausted. The existing maintenance program is only capable of keeping the elevator operational, since spare parts are not always readily available in the market, resulting in increased shut down time, greater energy consumption, and higher maintenance costs. Renovation/replacement of aging and outdated elevator systems improves reliability, energy conservation, safety, and code compliance. A new survey is in progress.

FISCAL NOTE

In FY18, \$100,000 was transferred to Planned Life Cycle Asset Replacement project for the Data Center's Uninterruptible Power Supply (UPS) system.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Departments affected by Elevator Modernization projects, and Department of General Services.

PROJECT DESCRIPTION

The project supports efforts yielding financial returns to the County or substantial progress towards established environmental goals, such as energy savings, renewable energy installations, installation of resilient facility microgrids and resilient facility hubs, and greenhouse gas reductions. The County conducts energy assessments and other analyses to identify resource and cost savings opportunities in County facilities that will inform project scheduling. In addition, the County is preparing a comprehensive sustainability plan with specific programs and actions to reduce the environmental footprint of County operations and reduce costs. This project will provide funds to target return on investment energy conservation projects; provide ancillary funds to support the installation of solar photovoltaic systems, installation of resilient facility microgrids and facility resiliency hubs on County facilities; augment other energy conservation projects (e.g., funding incremental costs of higher efficiency equipment); support energy and sustainability master planning for County facilities and operations, including facility benchmarking; leverage Federal, State, and local grant funding; and provide funds to leverage public-private partnerships and third-party resources.

ESTIMATED SCHEDULE

Projects are identified and scheduled based on energy savings potential, reduced maintenance costs, overall cost savings, improved facility resiliency, and quantifiable environmental benefits.

COST CHANGE

Cost increase supports facility projects to comply with Building Energy Performance Standards in County buildings, to continue efforts to meet the County's 2035 zero greenhouse gas emissions goal, and the addition of expenditures in FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

This program is integral to the County's cost-containment efforts. Generally, projects will pay for themselves in one to ten years, with short payback initiatives being targeted to reduce pressure on the operating budget. The program also funds incremental costs in staff, planning, contractor support, analytics and other efforts to increase the impact of the County's overall energy and sustainability projects. The program is necessary to fulfill mandates of the County's Building Energy Design Standards (8-14a), Council Bill 2-14 Energy Performance Benchmarking, Council Bill 5-14 Social Cost of Carbon, Council Bill 6-14 Office of Sustainability, and Council Bill 8-14 Renewable Energy Technology, Council Bill 16-21 Building Energy Performance Standards, and Council Bill 13-22 Comprehensive Building Decarbonization. Reductions in energy consumption, greenhouse gas emissions, and maintenance are expected.

FISCAL NOTE

FY24 supplemental in Utility Incentives for the amount of \$861,844.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of General Services, Department of Environmental Protection, Office of Management and Budget, and Department of Finance.

PROJECT DESCRIPTION

This project develops and implements plans for the prevention of pollution and the abatement and containment of potential pollution sources at County facilities - including the Department of Transportation and the Department of General Services depots and maintenance shops, and other County facilities and offices. This project provides for the design and construction of structural covered areas to ensure appropriate storage of hazardous materials and potential pollution sources at County depots. Work will also include replacement of the salt barns at County depots and addressing environmental compliance issues of petroleum underground storage tanks (USTs) and associated piping at County facilities. This program also addresses environmental concerns such as indoor air quality issues, mold, radon, lead paint and lead in drinking water.

ESTIMATED SCHEDULE

Several projects will be completed during FY25 and FY26.

COST CHANGE

Cost increases reflect the addition of expenditures in FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

This project is supported by the Pollution Prevention Plan (P2) for County facilities and the Storm Water Pollution Prevention Plans (SWPPP) for County facilities to comply with aspects of the Federal Clean Water Act National Pollutant Discharge Elimination System (NPDES) Notice of Intent (NOI). Each of the County maintenance facilities must implement appropriate pollution prevention techniques to reduce contamination of stormwater runoff. Covered areas are required under the NPDES for all hazardous products and liquid drums that are stored outside to avoid the potential of drum deterioration, leakage, and/or runoff contamination. Structural improvements of covered areas and salt barn structures are scheduled at the Silver Spring, Poolesville, and Bethesda Depots. This project also includes efforts to address environmental compliance issues of UST's and associated piping at County facilities.

FISCAL NOTE

In FY18, \$140,000 was transferred to Planned Lifecycle Asset Replacement for the Data Center UPS system.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of General Services, Department of Transportation, Department of Permitting Services, Department of Environmental Protection, and Maryland Department of the Environment.

PROJECT DESCRIPTION

This project provides for site selection for candidate public safety, recreation, libraries, housing, health, and human services and other general government projects as well as land for facility reforestation, and other site selection activities such as appraisals, geotechnical services, environmental studies, title reports and surveys.

COST CHANGE

Cost increase reflects the addition of expenditures in FY29 and FY30 for this ongoing project in addition to a FY24 \$180k transfer in current revenue general funds from Americans with Disabilities Act: Compliance.

OTHER

These funds will be used for site selection only. No land will be purchased without notice to the County Council that must include the reasons why the proposed site is appropriate for the specific project being planned, including the expected size of the facility, and how the site is responsive to community needs. Any land acquisition will be funded initially through Advanced Land Acquisition Revolving Fund (ALARF): MCG, then reimbursed by a future appropriation from the specific project. The County Executive will work with the Maryland-National Capital Park and Planning Commission staff to review future facility needs in master plans and department strategic plans to identify sites beyond those for projects in facility planning and the current CIP for acquisition.

FISCAL NOTE

FY24: \$180k transfer of current revenue general funds from Americans with Disabilities Act (ADA): Compliance.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of Police, Department of Public Libraries, Department of General Services, Department of Recreation, Montgomery County Fire Rescue Service, Department of Transportation, Maryland-National Capital Park and Planning Commission, Office of Management and Budget, and Regional Services Centers.

PROJECT DESCRIPTION

This project provides for general government facility planning studies for a variety of projects under consideration in the CIP. In addition, facility planning serves as a transition stage for a project between the master plan or conceptual stage and its inclusion as a stand-alone project in the CIP. Prior to the establishment of a stand-alone project, Montgomery County develops a Program of Requirements (POR) that outlines the general and specific features required on the project. Selected projects range in type including: new buildings, renovation of existing buildings, stormwater management, and recycling centers. Facility planning is a decision making process that includes the determination of the purpose of and need for a candidate project, a rigorous investigation of non-County sources of funding, and an estimate of the cost of the design and an estimated range of the cost of construction of the project. Facility planning represents feasibility analysis, planning and preliminary design and develops a POR in advance of full programming of a project in the CIP. Depending upon the results of a facility planning determination of purpose and need, a project may or may not proceed to design and construction. For a full description of the facility planning process, see the CIP Planning Section.

COST CHANGE

Cost increase is due to the addition of expenditures in FY29 and FY30 for this ongoing project. Funding added in FY25 to accommodate an additional project.

PROJECT JUSTIFICATION

Facility planning costs for projects which ultimately become stand-alone projects are included here. These costs will not be reflected in the resulting individual project.

OTHER

The study proposals under this program are developed in conjunction with program departments, the Department of General Services, the Office of Management and Budget, and consultants to ensure accurate program requirements. Planning studies are underway or to be completed are listed on the next page. This list includes projects that will potentially be considered for inclusion as stand-alone projects in the future years. Other projects not listed may be planned under urgent situations. Planning for future fire stations will be considered if response time or population data warrant such a need.

FISCAL NOTE

Funds may also be used to explore opportunities in the event a private developer expresses interest in County property.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of Environmental Protection, Department of General Services, Department of Correction and Rehabilitation, Montgomery County Fire and Rescue Service, Department of Police, Department of Health and Human Services, Department of Recreation, Department of Public Libraries, Circuit Court, Office of Management and Budget, Commission on People with Disabilities, and Montgomery County Pedestrian Safety Advisory Committee.

Unencumbered Balance	11,715		

PROJECT DESCRIPTION

This project provides for the orderly replacement/renovation of outdated heating, ventilation, and air conditioning (HVAC) systems and electrical systems in County buildings. The Department of General Services currently oversees, monitors, and provides services for operation of the mechanical, electrical, and fire protection systems of 250 County facilities with approximately 12 million square feet of occupied space. The project requires periodic condition assessments and renovation of the HVAC, plumbing, electrical, and control systems and equipment; overhauling the air distribution systems; and electrical service upgrades.

ESTIMATED SCHEDULE

Through the fiscal year, the Division of Facilities Maintenance will update controls, dampers, systems, HVAC systems and water heaters.

COST CHANGE

Cost increase reflects the addition of expenditures in FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

Many HVAC, plumbing, and electrical systems in County-owned buildings are outdated and well beyond economical repair, particularly in buildings which have not been renovated in many years. In the life of the buildings, the HVAC, plumbing, and electrical systems require major renovation or replacement at least once every 25 years. These renovations will not only significantly extend the life of the County buildings, but convert the old mechanical/electrical systems to state-of-the-art energy efficient systems which improves indoor air quality. It conserves energy and saves resources. The criteria for selecting the County facilities for systems renovation or replacement include: mechanical/electrical systems degradation, high maintenance costs, high energy consumption, current code compliance, indoor air quality, and major change of the functional use of the building. The Occupational Safety and Health Administration (OSHA) has issued proposed rules for providing quality of indoor air in the workplace (OSHA 29 CFR parts 1910, 1915, and 1926). The rules require indoor air quality compliance plans to be implemented. The results of a facility condition assessment of 73 County facilities completed by a consultant in FY05, FY06 and FY07 have been used to prioritize the program. The February 2020 Report of the Infrastructure Maintenance Task Force identified an annual level of effort for HVAC/electrical replacement based on a 25 year life span.

FISCAL NOTE

FY23 Supplemental G.O. Bonds for \$9,737,000. In FY23, \$339,000 in G.O. Bonds was transferred to this project from the Energy Systems Modernization project.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of General Services.

PROJECT DESCRIPTION

This project provides funding for installation of modern life-safety systems to protect the County's facilities and to protect buildings in the event of fire emergencies. Implementation of this project will help to minimize the dangers to life from fire, including smoke and fumes. The scope of the project encompasses fire alarms with voice addressable capabilities, sprinklers for fire suppression, fire and smoke detection, smoke control systems, and emergency generators.

ESTIMATED SCHEDULE

Several projects will be completed during FY25 and FY26.

COST CHANGE

Cost increase is due to the addition of expenditures in FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

Numerous existing facilities are in need of modern, basic life-safety systems. In many older facilities, there are no emergency generators, fire alarms, or sprinklers. Emergency generators are critical to support fire alarms and fire pumps during power outages. Some facilities are 24-hour residential facilities. In case of fire, there could be a significant potential exposure to loss of life and property. Most of the facilities do not meet code and have outdated fire alarm systems for which spare parts are no longer available and which can no longer be kept in reliable operation. Many of these County facilities were built years ago, and thus, were grandfathered under the fire code since the occupancy category has not changed. The outdated systems need to be replaced and upgraded to provide improved protection to County employees and County properties. The February 2020 Report of the Infrastructure Maintenance Task Force identified an annual level of effort for life safety systems based on a 25-year lifespan.

FISCAL NOTE

In FY19, \$326,500 was transferred to Planned Life Cycle Asset Replacement for the Data Center UPS system.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

The former Lincoln High School is a landmark in Montgomery County's Black education history. Opened in 1935, it is the oldest remaining high school building and the only junior high school constructed for Black students in Montgomery County. The renovation includes roof replacement, some building envelope repair, and design and construction of interior improvements of a warm lit shell.

LOCATION

595 N Stonestreet Ave, Rockville, MD 20850.

ESTIMATED SCHEDULE

Work is expected to be completed in FY25.

COST CHANGE

Cost increase reflects the addition of funds to complete design and construction of interior improvements of a warm lit shell.

PROJECT JUSTIFICATION

The former Lincoln High School, located in Rockville, is a landmark in Montgomery County's Black education history. Opened in 1935, it is the oldest remaining high school building and the only junior high school constructed for Black students in Montgomery County. The building was most recently occupied by Crusader Baptist Church of God. A structural and environmental assessment of the facility was performed in March 2020 by O'Connell and Lawrence at DGS's request and revealed a wide array of structural issues that indicated property maintenance code violations for the existing building that warranted timely abatement. The report indicated that a renovation would correct structural problems (the roof is in danger of severe failure), correct code violations (the plumbing, mechanical and electrical systems are noncompliant), and mitigate environmental issues by removing lead and asbestos. The report also stated that the structural and water damage cannot be fully determined without removal of the roof/ceiling assembly as well and plaster and drywall at the exterior load bearing walls and interior columns. In March 2020, the City of Rockville issued a notice that the facility should not be occupied in its current state.

PROJECT DESCRIPTION

This project provides for a comprehensive feasibility study and planning for the relocation of the Montgomery County Public Schools (MCPS) Bus Depot from the County Service Park on Crabbs Branch Way. Previous plans to acquire several sites for MCPS bus parking facilities to accommodate displaced buses when the site is redeveloped have been put on hold until an agreement can be reached on a project plan. It also includes staff supervision, consultant costs, demolition of existing improvements, and environmental clean up of the east side of Crabbs Branch Way.

LOCATION

East side of Crabbs Branch Way north of Shady Grove.

ESTIMATED SCHEDULE

Environmental clean up of the Maryland-National Capital Park and Planning Commission facilities occurred in FY17, and demolition was completed in FY19. The Council intends that the Executive branch continue to work with MCPS to conduct a renewed site selection study for possible locations to replace the multiple functions on the current Shady Grove MCPS Transportation site. These include the central heavy maintenance facility and repair bays, MVA driver training course, and parking sufficient to replace the over 400 buses currently housed at the Shady Grove location. Site identification should include multiple options and an implementation plan and timeline to transition that maintains continuity of services for MCPS. The implementation plan should also reflect the initiative to transition the MCPS fleet to electric over the next 12-15 years.

COST CHANGE

Cost increase to add funding for community outreach, concept development, and preliminary design.

PROJECT JUSTIFICATION

In order to implement the County's Shady Grove Sector Plan which would capitalize on the existing investment in mass transit by creating a transit-oriented development community, the County Service Park must be relocated. Relocation of the facilities at the County Service Park will enable the County to realize both the transit-oriented development intended for the area and to address unmet needs. The County is faced with aging facilities that require extensive investment of funds to meet our needs. With the age of some of the facilities, the extent of the required investment must be weighed against the long-term ability of the facilities to satisfy current and future County needs. Plans and studies for this project include: M-NCPPC Shady Grove Sector Plan, approved by the Montgomery County Council, January 2006, adopted by the M-NCPPC, March 15, 2006; Montgomery County Property Use Study Updated Briefing to County Council, April 29, 2008 (based on Staubach Reports); Montgomery County Smart Growth Initiative Update to County Council, September 23, 2008.

OTHER

Planning funds in this project are programmed in conjunction with planning funds in the New Transit Maintenance Depot project (CIP No. 502402). Planning funds in these projects support community engagement, project scoping, and preliminary design for a shared use transit facility, central maintenance, and associated bus parking for Montgomery County Public Schools school buses and Ride-On transit buses. The shared facility is planned to be built on a portion of the Jeremiah Park parcel on Crabbs Branch Way in Derwood. The Department of General Services will provide monthly written progress reports to the Chairs of the Transportation and Environment and Education and Culture Committees. In addition to this shared use facility, other locations for bus parking and operations will need to be identified to fully house expanded operations of both fleets in the future.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Department of General Services, Department of Transportation, Montgomery County Public Schools, Maryland-National Capital Park and Planning Commission, Department of Permitting Services, Department of Finance, Department of Technology and Enterprise Business Solutions, Office of Management and Budget, and WSSC Water.

PROJECT DESCRIPTION

This project provides for a comprehensive lifecycle replacement program to protect the County's investment in facilities and to sustain efficient and reliable facility operation. The project is targeted at slowing the deterioration of key facility and site components based on an inventory of their age and condition. The project includes: mechanical/plumbing equipment; lighting system replacement not covered under the Energy Conservation CIP program; and reconstruction of sidewalks and curbs adjacent to County facilities. The scope of this project parallels approved CIP projects of Montgomery County Public Schools, Montgomery College, and the Maryland-National Capital Park and Planning Commission.

ESTIMATED SCHEDULE

Several projects will be completed during FY25 and FY26.

COST CHANGE

Cost increase is due to the addition of expenditures in FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

The County currently has a significant backlog of facility and site components that result from facility age and past deferrals of deficiencies. Various components are outdated, inefficient, and costly to repair. The replacement of components significantly extends the useful life of County facilities. In FY05, FY06, and FY07, the County engaged a consultant to conduct a comprehensive facility condition assessment survey of 73 County facilities, or approximately 30 percent of the County's facility inventory. Based upon the age and condition of each component and industry-accepted component lifetimes, a priority listing of component replacement was developed. The results of the facility condition assessment of 73 County facilities have been used to prioritize the six-year program.

FISCAL NOTE

In FY19, \$566,000 was transferred for the Data Center UPS system.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

Phase I of this project provided for the rehabilitation of the flooring system in the Red Brick Courthouse at 29 Courthouse Square in Rockville. The structural integrity of the flooring system was weakened by modifications made over the years to accommodate various electrical, mechanical, and plumbing systems. Phase II will provide for a limited historic rehabilitation of the Courthouse and preserve the building exterior. Work will include the replacement of life safety systems; modifications to make the facility compliant with the requirements for the Americans with Disabilities Act (ADA); repair for moisture infiltration issues; and repair and replacement of the building exterior masonry, copper fittings, and roofing. All work will be performed in compliance with requirements and oversight of the Maryland Historical Society and per existing County regulation and easements.

LOCATION

29 Courthouse Square Rockville, Maryland 20850.

ESTIMATED SCHEDULE

Construction to begin in F29.

COST CHANGE

Project scope adjusted for affordability.

PROJECT JUSTIFICATION

For Phase I, a structural engineer determined that some areas of the terra cotta arch and beam flooring system have been compromised by modifications that have been made for various electrical, mechanical, and plumbing systems. Access to certain areas on the first and second floors will be restricted until the problem is resolved. Phase II is the historic renovation of the building, which dates back to the 1800's. In 1995, the Courthouse had a small renovation to upgrade the HVAC and to provide an elevator. Currently, the slate roofing is deteriorating, as is the copper metal roofing on the steeple (both of which have reached the end of service life). The masonry joints need to be tuck-pointed on the exterior walls and parapets. This deterioration has allowed moisture infiltration, which has damaged the building, with repair efforts slowing but not stopping the problems. Along with accessibility issues, the HVAC, plumbing, and electrical systems are at the end of useful life. The fire prevention systems require redesign and installation to provide for better safeguards to prevent potential loss of the historic wood structure.

OTHER

This facility has been designated as a historic structure.

COORDINATION

Department of General Services, Circuit Court, Department of Technology and Enterprise Business Solutions, City of Rockville, Montgomery County Sheriff's Office, Department of Human Resources, Peerless Rockville, Maryland Historical Society, and Montgomery County Historical Society.

Cumulative Appropriation	12,880		
Expenditure / Encumbrances	12,194		
Unencumbered Balance	686		

PROJECT DESCRIPTION

This project provides for the design and major rehabilitation of existing asphalt parking lots and associated drainage structures. Work includes milling and re-paving, full depth reconstruction of failed areas, and re-establishing positive drainage.

COST CHANGE

Cost increase is due to the addition of expenditures in FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

The age and condition of paved surfaces (primarily parking lots) at County facilities creates the need for this project. The deterioration of bituminous pavement occurs because of bitumen evaporation, infiltration of moisture, exposure to the environment, and disintegration due to salt and other compounds used during the winter. The maintenance and repair of paved surfaces is managed through the County's facilities maintenance program. A facility planning approach to major repair and resurfacing of paved surfaces has established a validated inventory of paved surfaces requiring major work; allowed for systematic planning and execution to eliminate the inventory of major work; and begun to arrest the continuing deterioration of paved surfaces, preventing more costly total reconstruction. This project implements an annual major repair and resurfacing program for paved surfaces as they reach the end of their useful life. The February 2020 Report of the Infrastructure Maintenance Task Force, identified an annual level of effort for parking lot resurfacing based on an average 20 year life for parking lots.

FISCAL NOTE

FY23 supplemental in G.O. Bonds for the amount of \$125,000.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of General Services.

Expenditure / Encumbrances	24,159		
Unencumbered Balance	3,615		

PROJECT DESCRIPTION

This project delivers major roof replacement for the County buildings.

ESTIMATED SCHEDULE

Several projects will be completed during FY25 and FY26.

COST CHANGE

Cost increase is due to scope increase for the addition of Lone Oak project and the addition of expenditures in FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

The age of many County buildings creates the need for this project. Factors determining the need for replacement include poor condition, age, long-term utilization, and probability of continued repairs. The project consists of an annual replacement schedule for those roofs which have reached the end of their useful service life. Asbestos abatement is an important component of the roof replacement effort and will be performed when required. The roof replacements covered under this program are prioritized based upon an in-house priority schedule. Information generated in that condition survey will be the basis for future roof replacement projects. The February 2020 Report of the Infrastructure Maintenance Task Force identified an annual level of effort funding for roof replacement based on an average 20-year life for roof systems.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

Maryland Senate Bills 291 and Maryland House Bill 200 approved grants totaling \$7,000,000 by the State of Maryland to support the acquisition, design, planning, engineering, construction, repair, renovation, reconstruction, and site improvement of the property at the Burtonsville Crossing Shopping Center. Burtonsville Crossing is an existing, largely vacant shopping center constructed circa 1988 and consists of approximately 130,000 SF of commercial space on approximately 12 acres. The project aims to revitalize the property through its renovation and re-tenanting.

The overall project scope to be undertaken by the shopping center owners, includes the following: architecturally renovated building facades and breezeways; the interior fitout and exterior facade of a new grocery store anchor; structural repairs and upgrades to the existing buildings; replacement of HVAC equipment; new roof; refurbished parking lot; refreshed and enhanced landscaping and additional trees; improved site and common area lighting and LED retrofit; demolition of approximately 7,000 square feet of the building at the center of the property; construction of a new community space and green with pedestrian connectivity to the park-and-ride and Bus Rapid Transit station at the rear of the property; and sitework to create two pads for future new buildings.

LOCATION

15179 Old Columbia Pike, Burtonsville

ESTIMATED SCHEDULE

Project implementation to begin in FY24.

COST CHANGE

Additional State Aid of \$2,000,000 granted for FY25.

PROJECT JUSTIFICATION

The project leverages significant State aid and supports economic development of the Burtonsville area. The project supports the redevelopment of retail properties to contribute to the tax base and to employment in Montgomery County.

FISCAL NOTE

State Aid reflects state grants for capital projects in Montgomery County programmed during the 2023 and 2024 Maryland General Assembly sessions.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project supports the acquisition of property at the Glenmont Shopping Center. The funding is needed to acquire surplus property from the Maryland Department of Transportation (MDOT) that will be aggregated with the shopping center parcels for the purpose of realizing the Sector Plan.

LOCATION

Approximately 20-acre site, bound by Randolph Road, Georgia Avenue, Layhill Road, and the Glen Way Gardens condominium development.

ESTIMATED SCHEDULE

Land acquisition anticipated in FY25

PROJECT JUSTIFICATION

The Glenmont Shopping Center is an appropriate location for a mixed-use town center with urban amenities such as a central open space, restaurants, and professional offices to achieve a dense urban node near the Metro station. The 1978 Sector Plan discussed the need for a physical upgrade of the shopping center structures to develop a "positive image" for the community. The 1997 Sector Plan characterized the center as poorly configured and unattractive with a confusing circulation pattern. To date, the recommendations of both plans have not been implemented. The center currently includes approximately 196,380 square feet of commercial space. Although it is fully leased, the physical structure is worn, and it lacks retail and entertainment services desired by the surrounding community. Fragmented ownership and lack of market demand for redevelopment have inhibited redevelopment and will continue to be a major challenge in the foreseeable future. Landowners cite the lack of sufficient economic incentive (private or public) for reinvestment in the property. Any significant redevelopment would require assembling all or some of the parcels. The 2013 Sector Plan supports a phased development where assembly and redevelopment occur over time.

PROJECT DESCRIPTION

HJF Innovation Labs at Montgomery County is a co-branded innovation facility affiliated with the Montgomery County Business Center Innovation Network (BCIN). This partnership between Montgomery County and the Henry M. Jackson Foundation for the Advancement of Military Medicine, Inc. (HJF) will accelerate the resources, expertise and investment required to advance HJF-developed technologies from concept to point-of-care for military service members and their families.

Funding will support buildout of 4,300 square feet of flexible "mini" wet labs, shared lab and equipment areas, an engineering space, business offices, and workspace, in the Foundation's headquarters office building to leverage HJF's other existing infrastructure and capabilities, which includes a state-of-the-art auditorium, meeting rooms and business expertise that spans intellectual property, information technology, commercialization, proposal development, clinical trial protocol drafting and management.

LOCATION

6720A Rockledge Drive, Bethesda, Maryland 20817

ESTIMATED SCHEDULE

Build out is anticipated to begin in Fall 2024. Occupancy is expected in Winter 2025.

PROJECT JUSTIFICATION

Demand for smaller-sized lab space, with shared equipment and services and easy access to meaningful innovation support and community resources currently exceeds supply. The new co-branded HJF Innovation Labs at Montgomery County, housed at the Foundation's Headquarters in Bethesda, will provide physical infrastructure supporting a broader framework for the delivery of high-value resources to accelerate the translation of medical innovations developed within the HJF or Montgomery County innovation networks to the marketplace for the dual-use fields. It will serve as a resource for Montgomery County health innovators and others in the region to spur the development of more innovation and jobs within Montgomery County. The ability for Montgomery County to collaborate with HJF as a founding partner of a co-branded HJF Innovation Labs at Montgomery County as HJF is launching its strategic initiative to strengthen the military medical innovation ecosystem, is a unique opportunity to leverage HFJ-supported federal, academic, and industry sponsored research programs to advance biohealth technologies.

COORDINATION

Office of the County Executive, Montgomery County Business Center Innovation Network, Henry M. Jackson Foundation for the Advancement of Military Medicine, Inc.

PROJECT DESCRIPTION

This project has supported a myriad of enhancements related to the County's life sciences and entrepreneurial climate. This project originally provided funds to design and construct the public amenities at the Shady Grove Life Sciences Center. The project has supported the development and land use plans for the Germantown Life Sciences Park (GLSP) and the Site II development. Additionally, the project has supported the development of the Germantown and Rockville business incubators and upgrades to the Silver Spring Incubator. Specific tasks included feasibility studies, due diligence, refining Programs of Requirements (PORs), design and construction. Additions to the original project scope included: revised development and subdivision plans to increase site density (FY00); subdivision plans for prospective Life Sciences and Technology Centers (FY03); planning for the Rockville Incubator (FY07); and the pursuit of all needed steps for Site II to be accepted into the Maryland Voluntary Clean-Up Program (FY11). This project may also be used for incubator renovations, the preliminary development of other incubators, tech parks, or other economic development capital projects should future new opportunities become available. In FY22, funds are provided for the conversion of excess office space into wet labs in the lab corridor of the Germantown Incubator. In FY25, the project added funds to support the continued conversion of vacant offices at the Germantown center into wet labs, including the partitioning of labs into bench space. This funding also supports the refresh of the co-working space at the Rockville center, and the branding and technology improvements of the centers.

ESTIMATED SCHEDULE

Work is expected to begin in the latter half of FY25.

COST CHANGE

Costs increase to convert additional office space at the Germantown Center into wet labs and to provide interior and technology improvements to the Rockville, Silver Spring, and Germantown centers.

PROJECT JUSTIFICATION

For the past five years the Germantown Incubator has had excess office space and insufficient wet lab space to meet the demand of small life science companies. The labs are routinely at 100 percent occupancy while the office space is routinely 28-44 percent vacant. Generally each lab company also occupies office space. By increasing the number of available wet labs the incubator can serve more emerging life science companies by providing both lab and office space, thereby reducing the current office space vacancy. Improving the County's facilities will maximize potential use of space, including innovation, collaboration spaces, shared labs with bench rentals and shared equipment, etc. to transition the facilities to experienced globally recognized innovation ecosystem activators incorporating expanded programming and technical assistance.

OTHER

Economic Development

The original component of the CIP project, the construction of all required amenities and improvements to meet M-NCPPC's subdivision requirement for the SGLSC property, is complete. The Rockville Innovation Center and the Germantown Innovation Center have been open for business. Site II was accepted into the Maryland Voluntary Clean-Up Program and has been conveyed to Percontee. The Silver Spring Innovation Center has been renovated.

FISCAL NOTE

The project assumes receipt of \$1,000,000 in State Aid through the Build Our Future Grant Pilot Program.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

State of Maryland, TEDCO, Maryland Department of Public Works and Transportation - Division of Capital Development, the Maryland-National Capital Park and Planning Commission, Montgomery County Economic Development Corporation, and tenants of the Germantown Innovation Center. Facility Planning: Montgomery County Government, Montgomery College, WSSC Water, and private developers.

PROJECT DESCRIPTION

The FY23 State operating budget provided \$10 million in the Governor's supplemental budget for projects in the White Flint North Bethesda area to support infrastructure for the redevelopment of that area as a Life Science/mixed use development hub. The State also authorized \$6 million for FY24 for the same redevelopment purposes. The focus on life science is in alignment with the JLL market feasibility report commissioned by WMATA for the WMATA property at the North Bethesda/White Flint Metro Station, which determined that "based on market research, physical capacity of the site, and current zoning and financial feasibility, a life science development is the highest and best use" for this property. The project will fund infrastructure that is designed to spur private sector redevelopment. These improvements will include investments to make the WMATA North Bethesda/White Flint Metro Station site pad ready, improvements to street grids and pedestrian and bicycle facilities and other placemaking investments.

LOCATION

Rockville / White Flint North Bethesda

ESTIMATED SCHEDULE

Road infrastructure and site improvements to ready the site for development will commence in FY24.

PROJECT JUSTIFICATION

The undeveloped WMATA site is at the core of the North Bethesda/White Flint redevelopment area and is a key to spurring further development of the entire White Flint area. The JLL Market Feasibility report analysis noted that land values reflected the cost of development and construction of pad-ready sites. Similarly, the JLL White Flint Station Joint Development Initiative study looked at the specifics of development for the WMATA site and concluded that "life science supports residual land value to WMATA only if "pad-ready" sites are offered (e.g. - infrastructure funded outside the project). Based on these studies, the top priority for WMATA and the County for the use of the supplemental budget funds is site work on the WMATA property at the North Bethesda/White Flint Metro station to make that currently unimproved site more "development ready" for an expected solicitation of a master developer.

FISCAL NOTE

\$10 million approved in the FY23 State budget; \$6 million approved in the FY24 State budget.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Washington Metropolitan Area Transit Authority (WMATA), Maryland National Capital Park and Planning Commission (MNCPPC), Montgomery County Economic Development Corporation (MCEDC), Department of Transportation, local community advisory groups such as the White Flint Downtown Advisory Committee, White Flint Planning Advisory Group, and the North Bethesda Transportation Management District. Studies include: WMATA White Flint Market Feasibility Report completed December 2021/released March 2022; WMATA-commission JLL, White Flint Station Joint Development Initiative study (November 2021); 2010 White Flint segment Master Plan; Pike District Placemaking Report (Maier and Warner, March 2019), and Advancing the Pike District study (Dec 2022).

PROJECT DESCRIPTION

This project funds the design and construction of retail space at the Wheaton M-NCPPC Headquarters Building to either attract a retail tenant or build out the space for community use.

LOCATION

2425 Reddie Drive, Wheaton, MD 20902

ESTIMATED SCHEDULE

Design and construction to occur in FY25.

PROJECT JUSTIFICATION

The retail space at the Wheaton Headquarters Building was delivered to the County as a cold, dark shell. The County has been unsuccessful in leasing the space due to its unfinished state since potential tenants do not have funding to build out the space. In order to build out the space for community use or to attract a retail tenant, funding is needed for either basic buildout or tenant improvements funds.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

PROJECT DESCRIPTION

This program provides for the planning and development coordination activities by the County necessary to implement the redevelopment of the 110-acre previously County-owned parcel on Industrial Parkway in White Oak (Site II). The site will be redeveloped in conjunction with the adjacent 170-acre parcel in a public-private partnership as one, comprehensive and coordinated 280-acre bioscience-focused mixed-use community per the approved White Oak Science Gateway (WOSG) Master Plan. The project includes \$40 million to assist with the funding needed to construct master-planned roads A-106, B-5 and improvements to FDA Boulevard. Additionally, funds for demolition of existing structures and site clearing activities, as well as costs for County staff to coordinate multiple activities, are included in the project.

LOCATION

White Oak area of Silver Spring, Maryland

ESTIMATED SCHEDULE

The County completed demolition of the existing structures and site clearing activities. The County's development partner presented a development schedule to Council in July 2019. Construction schedule is delayed based on project progress to date.

PROJECT JUSTIFICATION

In 2014, the Montgomery County Council approved the new White Oak Science Gateway Master Plan. The Plan establishes a vision for transforming what has been an industrial area into a denser, mixed-use commercial and residential center in which people can walk to work, shops, and transit. The County's initiative includes using both previously County-owned property (Site II) and privately-owned property as a public-private partnership and leveraging existing relationships with the adjacent Food and Drug Administration (FDA) campus to advance development activities in the Master Plan. Specialized services are required for the complex land assemblage and disposition actions associated with implementation of Stage I development requirements. Staff time and services are required to manage and coordinate efforts to develop detailed staging plans, manage demolition and clean-up activities, design infrastructure, and to negotiate transactions with development partners. The proposed 280-acre development is large-scale, long-term and transformational. It will be a catalyst for desired revitalization and redevelopment in the White Oak sector area and elsewhere in the Eastern portion of Montgomery County. The project will create job opportunities throughout White Oak and the Eastern portion of Montgomery County and will expand the tax base.

FISCAL NOTE

In FY17, a supplemental appropriation for \$47.2M in G.O. Bonds was approved for this project. Project schedule has been adjusted to reflect implementation schedule.

Cumulative Appropriation	-		
Expenditure / Encumbrances	-		
Unencumbered Balance	-		

PROJECT DESCRIPTION

This project is intended to upgrade the current conveyor system in the Alcohol Beverage Services (ABS) warehouse to improve efficiency, accuracy and employee health and safety. The upgraded system would automate the checking process to confirm accurate picking and selection of products which will allow for continuous flow before orders are loaded on up to six trucks at a time for delivery versus its current maximum of three trucks. The new system will also establish the ability to create hybrid routes in the future which would allow ABS to combine all three available product lines (liquor/wine, beer, and kegs).

LOCATION

ABS Warehouse 201 Edison Park Drive, Gaithersburg, MD 20878

ESTIMATED SCHEDULE

The upgrade will take place over approximately 40 weeks during FY25.

PROJECT JUSTIFICATION

The current conveyor system's design, which was not built for beer, liquor and wine distribution, has been in use since ABS acquired the warehouse in 2014. The limitations of the current conveyor system include frequent repairs and maintenance to restore the system in response to stoppages, backups and product damage. ABS is limited in its efficiency due to the conveyor system design and how trucks are loaded.

FISCAL NOTE

This project will be debt financed using the County's Master Lease program with a term of 10 years.

COORDINATION

Department of Finance

PROJECT DESCRIPTION

This project provides for the purchase of five (5) Alcohol Beverage Services (ABS) replacement delivery trucks in the ABS fleet. These vehicles directly support delivery operations to all ABS licensees.

LOCATION

ABS Warehouse 201 Edison Park Drive, Gaithersburg, MD 20878

ESTIMATED SCHEDULE

A total of 5 delivery trucks, 4 standard and 1 refrigerated, will be purchased in FY25.

PROJECT JUSTIFICATION

A large percentage of ABS's current delivery fleet is comprised of vehicles beyond their expected life and/or mileage. They are also in need of repairs at a cost near or exceeding the replacement cost.

FISCAL NOTE

This project will be debt financed via the Master Lease program.

COORDINATION

Department of General Services, Department of Transportation, Department of Finance

Cumulative Appropriation	7,132		
Expenditure / Encumbrances	3,194		
Unencumbered Balance	3,938		

PROJECT DESCRIPTION

This level of effort project is intended to provide a structured process to ensure that all Alcohol Beverage Services (ABS) retail store locations are modernized and updated to provide customers with a friendlier shopping experience in well merchandised stores that offer choice, convenience, and knowledgeable staff. Once a retail store has been refreshed, it could offer tasting rooms, growler stations, wider shopping aisles, pairing dinners, other special events, and a more aesthetically pleasing and safer shopping experience. Flooring, painting, shelving, updating restrooms, and work identified for major building systems (including the roof, mechanical/heating, ventilation, and air conditioning (HVAC), and windows) will be included to "freshen up" the retail stores and ensure working and efficient operating systems.

ESTIMATED SCHEDULE

ABS started remodeling stores in FY20 within the operating budget, with four refurbishment projects at the Darnestown, Cabin John, Montrose, and Wheaton retail store locations. The remodel schedule will align with lease expirations with stores being remodeled in the year in which their lease is negotiated for renewal with the understanding that all stores will be evaluated and refurbished prior to the end of the CIP project. ABS identifies the stores to be refreshed approximately 18 months before planning and design work begins.

COST CHANGE

There was an increase due to an underestimation of the original costs and a subsequent increase in materials and rental costs.

PROJECT JUSTIFICATION

This project is a vital piece of ABS's Five-Year Financial Plan to increase its transfer to the County. Further, this project will give ABS the ability to leverage external funding that will eliminate the need to use debt financing or tax dollars. Many of the retail stores have not been updated for 20 years. Ensuring that ABS is able to execute its multi-year plan to renovate/upgrade its 20 outdated retail stores is key to providing better service to its clientele. This project will also allow ABS to leverage contributions from landlords who will match, and in some cases, exceed the investment ABS will make in each store remodel - an investment the landlords will not commit to without the County funding appropriation.

PROJECT DESCRIPTION

The Advance Land Acquisition Revolving Fund (ALARF) was established to support the implementation of capital projects and facility programs in the County. Acquisition of land in advance of actual construction saves money in the inevitability of rising land prices and enables suitable locations for libraries, fire stations, and similar facilities to be secured before development begins. By waiting for actual construction plans begin to start the acquisition process eliminates choice and forces acceptance of a less desirable and accessible site. The revolving fund works in the following way: the unencumbered revolving appropriation balance in the fund is used to purchase land for various public facilities which are either approved in the capital program or which appear in adopted area master plans. Later, the revolving fund is reimbursed by appropriations to the specific facility project accounts; then, the associated expenditures are transferred from the ALARF project to the facility project, thereby freeing up the appropriation for future expenditures. The reimbursement is desirable for accounting purposes in order to make the cost of the site clearly a part of the total cost of a specific project. Reimbursement also maintains the balance in the revolving fund. As needed, reimbursements are scheduled in the capital program. Cost estimates are not given for possible acquisitions since any estimates would be speculative. Immediately prior to initiating acquisition proceedings on any site, independent professional appraisals are prepared. When projected land costs appear to be considerably greater than anticipated, consultation with the County Council is useful. Consultation with County Council is useful in the event the County Executive proceeds with advance land acquisition in years before those are shown on project description forms. The cumulative appropriation is the amount of the revolving fund, as well as certain special appropriations to this project as described below. Costs shown for prior years include the land acquisition reimbursable to the fund and other charges incurred in site selection, such as appraisal, legal costs, and other required actions. Also displayed, as appropriate, are expenditures associated with special appropriations, not to be reimbursed. The nonreimbursable amounts are considered sunk costs. ALARF acquisitions are typically reimbursed by appropriations from projects with various revenue sources.

OTHER

Expenditures to buy land using ALARF appropriations made after October 5, 1998, must be reimbursed to the revolving fund. If the County does not intend to reimburse the fund, then the land cannot be purchased from the fund's appropriation and must be purchased in a separate project. This restriction does not apply to land already purchased. To ensure that the County does not lose the opportunity to acquire sites for future projects, the Council encourages the Executive to acquire more sites and to acquire sites earlier than previously assumed. The Council also urges the County Executive to work with Maryland-National Capital Park and Planning Commission staff to review future facility needs in master plans and department strategic plans to identify sites beyond those for projects in facility planning and the current CIP for acquisition. If more sites are acquired, the existing balance may not be sufficient, and the Council encourages the Executive to recommend a supplemental appropriation if necessary.

FISCAL NOTE

Expenditures and resources for Silver Spring ALARF (as part of the Silver Spring Redevelopment Project) previously shown here have been closed out.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

State budget legislation has directed funding to Montgomery County Government to fund Maryland County Public School playgrounds throughout the County. FY23 State Aid will be used for playgrounds at the following elementary schools: Burning Tree, Burtonsville, Gaithersburg, JoAnn Leleck, Kemp Mill, New Hampshire Estates, Ronald McNair, Sargent Shriver, and Stedwick Elementary Schools. FY25 State Aid will be used for projects at the following schools: Bel Pre Elementary School, Damascus High School, Eilson Wims Elementary School, Farmland Elementary School, Gaithersburg Elementary School, Little Bennett Elementary School, Oakland Terrace, Sherwood High School, Springbrook High School, and Watkins Mill Elementary School.

COST CHANGE

Additional State Aid provided for FY25.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project provides funding to upgrade aging internal wiring in County buildings to enable full use of the County's FiberNet3 technology. The Department of Technology and Enterprise Business Solutions (TEBS) will perform an audit of over 300 County owned buildings (and any additional buildings with critical cable wiring needs).

ESTIMATED SCHEDULE

FY25-26 will begin with an audit of all County owned buildings and any additional identified leased buildings with critical wiring needs. Wiring will be replaced in the buildings based on the criticality of operations and building network performance assessments.

PROJECT JUSTIFICATION

FiberNet is a critical infrastructure asset that provides carrier-class voice, video, internet access, and data network services for County government. The County has already invested and continues to invest millions of dollars for the installation of FiberNet3 and FiberNet edge equipment throughout the County. Wiring within a building ("inside wiring") connects all county employees and equipment within that building to the upgraded FiberNet backbone ("core") network. Old wiring restricts the amount of data that can be transmitted over it and increases the frequency and magnitude of service impacting issues. This old wiring is a bottleneck which inhibits employees' ability to access county Information Technology and digital resources in a timely, efficient and reliable manner. Upgrading and modernizing this outdated wiring with new wiring will greatly increase the bandwidth and throughput capabilities of this infrastructure and improve service levels and reliability.

COORDINATION

All County Government Departments.

Unencumbered Balance	14,165		

PROJECT DESCRIPTION

This program will provide for the phased replacement of voice radio systems used primarily by the County's public safety first responder agencies including Police, Fire and Rescue, Sheriff, Correction and Rehabilitation, the Department of Transportation, and the Maryland-National Capital Park and Planning Commission that have reached the end of their expected 10-year service life.

ESTIMATED SCHEDULE

In FY25, the following are scheduled to be replaced: 510 units for Fire and Rescue Services; 1,287 units for Police; 84 units for Sheriff; 129 units for M-NCPPC. In FY26, the following are scheduled to be replaced: 111 units for Fire and Rescue Services; 303 units for Police.

COST CHANGE

The cost increase is mainly due to inflation adjustments, and the addition of two fiscal years to this ongoing project. Additionally, this project includes \$148,000 for a pilot program to test 20 non-public safety radios from an alternative manufacturer to determine if they meet the County's needs.

COORDINATION

Technology and Enterprise Business Solutions (TEBS), Department of Correction and Rehabilitation, Fire and Rescue Services, Police, Sheriff, Department of Transportation and Maryland National Capital Park and Planning Commission.

PROJECT DESCRIPTION

This project is intended to replace the Dense-Wave-Division Multiplexing (DWDM) equipment that provides optical broadband network backbone communications between County FiberNet hub sites. The equipment has reached the end of its useful life and is nearing end of support. In FY24, TEBS will conduct an analysis to evaluate the replacement options for this equipment. In FY25, TEBS will order and begin installing the new equipment at all 20 FiberNet hub sites.

ESTIMATED SCHEDULE

Purchase and installation of equipment for all 20 DWDM sites is expected to begin in FY25.

PROJECT JUSTIFICATION

The County's 10-year-old DWDM network needs to be replaced due to the sale of Garage 2 to United Therapeutics and the FiberNet hub relocation. The County has a 20 site DWDM network. The existing DWDM network was manufactured more than 10 years ago. This DWDM equipment is no longer manufactured or supported by manufacturers, and is not compatible with new DWDM systems. The DWDM network supports public safety sites, the 911 center traffic, WSSC Water, and Montgomery College among other sites and applications. United Therapeutics will contribute the cost of replacing the equipment currently located in Garage 2.

PROJECT DESCRIPTION

This project supports the installation of a 450-foot communications tower near the Public Safety Radio System (PSRS) equipment shelter to replace the GenOn smokestack. The tower will support the antennas and microwave dishes for the PSRS.

ESTIMATED SCHEDULE

Installation is anticipated in calendar year 2026 pending negotiations to remain on the existing smokestack with a long-term lease agreement.

PROJECT JUSTIFICATION

The Public Safety Radio System (PSRS) has 22 antenna sites located around the County to optimize coverage for all Public Safety workers. One of the sites covers the Dickerson area of the County. The PSRS communication site is located on the GenOn property, which is in the process of shutting down. At the time of planning and construction (years 2016 - 2018), information was not available about the GenOn location closing. The PSRS antennas (4) and microwave dishes (2) are located at the 420-foot mark on the 700-foot-tall smoke stack.

For over 20 years, the County has operated at the Dickerson power plant's smoke tower on Martinsburg Road because it was an optimum site for mounting antennas and providing the coverage needed in this portion of the County including the Potomac River. Additionally, the new communications equipment shelter is located at that site as part of the recent activation of the P25 radio system.

FISCAL NOTE

In FY22, \$100,000 in Current Revenue: General and \$1,900,000 in G.O. Bonds was transferred from the Public Safety System Modernization (PSSM) project to this project.

PROJECT DESCRIPTION

The Digital Equity - Montgomery Connects project provides for capital funding to support Montgomery County's digital equity initiatives. Internet service accessibility, affordability, and adoption are critical factors in addressing equity disparities. Funding will support planning, design, and construction of: MoCoNet residential broadband in affordable housing developments to close the digital equity gap through the provision of free or low cost, reliable and robust residential Internet services, and devices, at affordable housing throughout the County; Public WiFi and Advanced Wireless Conduit Networks to provide conduit and fiber to support public WiFi and wireline and wireless broadband networks in commercial and community gathering areas of Montgomery County. Innovation Testbeds to spur development and expansion of traffic, transit, and pedestrian sensors, Internet of Things (IoT), advanced robotic, and cybersecurity IoT applications and innovation in Montgomery County; Purple Line Fiber to connect Montgomery County research and higher education facilities to MAX and Internet2 at the University of Maryland, College Park; and White Oak Science Gateway Conduit Network to provide broadband conduit infrastructure in Viva White Oak and other White Oak commercial development projects.

ESTIMATED SCHEDULE

Digital equity installations began in FY21 and will continue through FY30. White Oak Science Gateway conduit construction will be performed concurrently with Viva White Oak construction. Design for public WiFi, advanced wireless, conduit, and testbeds in commercial and community gathering areas are underway and outreach to potential private partners is in development. Purple Line fiber connections are dependent on the Purple Line and third-party construction.

COST CHANGE

The increase is due to the addition of FY29 and FY30 to this ongoing project. State Aid for FY23 has been shifted to the operating budget.

PROJECT JUSTIFICATION

Digital Equity - Montgomery Connects is a digital equity program, designed to ensure that businesses and underserved residents of affordable housing units in Montgomery County have as much reliable, secure, and robust broadband service as they need to live, work, learn, and keep our economy moving at the speed of our ideas. Digital Equity - Montgomery Connects also supports the County's racial equity and social justice goals by focusing our digital equity deployment of devices and residential broadband in affordable housing developments and underserved communities. Digital Equity - Montgomery Connects helps ensure that all residents have the broadband service and devices to participate in the digital world; expanding access to competitive broadband services in commercial buildings to support small and large businesses; and by leveraging infrastructure development and strategic conduit network deployment to create robust public WiFi and public private partnerships to support leasing of County broadband assets. Access to reliable broadband infrastructure throughout the County supports business growth and innovation in biotech bio-health, cybersecurity, IT services, financial services, media and similar high-bandwidth-consuming sectors, and for federal and state government, research and higher education institutions. Ensuring that all businesses can access reliable broadband services is essential to ensuring equity.

OTHER

This project was previously named ultraMontgomery until 2023 when it was renamed to Digital Equity - Montgomery Connects. This change was made to better describe the purpose of the project.

In 2021, the Great Seneca Fiber Highway was completed to provide the shortest distance, low latency connection between Great Seneca and Ashburn, Virginia data centers. Phase 2 of the East County Fiber Highway to provide regional north-south interconnections between White Oak and Howard County and east-west connections between Burtonsville and WSSC Water in Laurel is in planning. In response to COVID-19, funding for rural broadband is being provided through state and federal broadband grants and the Digital Equity - Montgomery Connects project pivoted to focus County broadband deployment on providing service to low-income affordable housing developments where residents do not have access to or have difficulty affording robust broadband service. Engineering, planning, and design work provided by the Digital Equity - Montgomery Connects CIP has been instrumental in preparing state grant applications. Because other resources can support rural broadband deployment, funding from the Digital Equity - Montgomery Connects CIP for low-income affordable housing is being prioritized over rural broadband.

FISCAL NOTE

State Aid in FY23 was shifted from the capital budget to the operating budget.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

FiberNet (P509651); Technology and Enterprise Business Solutions (TEBS); Purple Line Department of Transportation; Maryland-National Capital Park and Planning Commission; Montgomery College; WSSC Water; Information Technology Policy Coordination Committee; Montgomery County Economic Development Corporation; and affordable housing developers in Montgomery County.

This map shows the location of affordable housing developments in the County that would be served if ultraMontgomery receives the requested funding.

PROJECT DESCRIPTION

FiberNet CIP provides for the planning, design, and installation of a countywide electro-optical fiber communication network with the capacity to support voice, public-safety, traffic management, data, Internet access, wireless networking (including public WiFi), and video transmissions among Montgomery County Government (MCG), Montgomery County Public Schools (MCPS), Montgomery College (MC), Maryland National Capital Park and Planning Commission (M-NCPPC), Housing Opportunities Commission (HOC), and WSSC Water facilities. FiberNet is the communications backbone for the Public Safety Radio and Public Safety Mobile Data Systems (collectively, Public Safety Communications System (PSCS), DOT's Advanced Traffic Management System (ATMS), and other technology implementations (including the 800 MHz IP public safety radio). Upgrades and replacements to electronic components in the core and at user sites extend the usefulness of outside fiber facilities. Core and user equipment must be periodically replaced and upgraded to harness the capabilities of technological evolution and to meet the expanding networking demands of FiberNet customers. FiberNet3 investments exponentially increased FiberNet's ability to support cloud services, resilient data storage and retrieval, and cost effective access to high speed broadband service. Video transmission will include distribution of public, education, government access channel, and selected cable programming.

ESTIMATED SCHEDULE

Previous CIPs focused on expansion of the FiberNet footprint to existing Montgomery County Government, MCPS, Montgomery College, Housing Opportunities Commission, and WSSC Water locations and installing the majority of third-generation FiberNet3 equipment and integration, including upgraded core and hub equipment and establishment of Ashburn data center connections, refreshed past end of life routing and firewall equipment, and installed and implemented an encrypted private cloud, failover recovery equipment, and ransomware recovery capability. FY25-FY30 activities will focus on implementing Phases 2 and 3 of the Business Continuity Strategic Plan and replacement of other critically vulnerable FiberNet edge equipment.

COST CHANGE

Increase reflects the addition of FY29 and FY30 level of effort costs to this ongoing project.

PROJECT JUSTIFICATION

FiberNet is a critical infrastructure asset providing communication services and applications to every agency in Montgomery County. As more services are offered electronically (e-applications, e-payment, e-document, e-storage, e-learning), and more services require cloud-access, it is critical that every County location has

robust access to FiberNet, and that FiberNet be secure, reliable, and always-on, and that sufficient equipment be in place to enable data recovery in the event of major power outages, natural disasters, or cybersecurity events. In addition, aging internal building wiring; public WiFi access points; external fiber; and end point routers, switches, and firewalls need to be upgraded to enable use of newer IT services and technology. A large amount of equipment is beyond End of Life or End of Support and some has been identified as critical to replace to prevent cybersecurity intrusions.

FISCAL NOTE

A supplemental appropriation request for \$7.2 million in Current Revenue: General was approved in FY22. Ongoing General Fund support was added beginning in FY23 due to declining Cable Fund revenues.

FY23-FY25: Montgomery Municipal Cable (MMC) will give the County \$1M in capital funds towards FiberNet in return for \$500k in operating funds to MMC. Additional funds were added as an Enhancement in FY23, 24, and 25 to fund Construction - Business Continuity - Equipment Modernization.

During FY24 to FY30, Current Revenue: Cable TV is being replaced with Current Revenue: General. This change is necessary because Cable Fund revenues are declining as consumers switch from cable to streaming services.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Technology and Enterprise Business Solutions (TEBS), Department of Transportation, Advanced Transportation Management System Project, Montgomery County Public Schools, Maryland National Capital Park and Planning Commission, Montgomery College, Housing Opportunities Commission, WSSC Water, Information Technology Policy Coordination Committee (ITPCC), ITPCC CIO Subcommittee, and Interagency Technology Advisory Group (ITAG); and supports ATMS, Traffic Signal System Modernization (TSSM) and Traffic Signal CIPs.

PROJECT DESCRIPTION

The Correction and Rehabilitation Information Management System (CRIMS) was initially designed to be implemented as a third-party Commercial-Off-The-Shelf (COTS) solution. As a result of the vendor's failure to perform, the County acquired the solution to be maintained by the Department of Technology Enterprise and Business Solutions. The existing solution has reached a point where it requires an upgrade to meet County enterprise security standards and remain useful to the 20+ local, state and federal agencies that utilize the application including the Montgomery County Police, Sheriff and Fire departments. CRIMS is a critical 24x7 system that allows all jurisdictions that have arrest power in Montgomery County to process arrests and warrants in a timely fashion within Maryland statutory requirements.

ESTIMATED SCHEDULE

FY24-25: A contractor was brought in mid-August of 2023 to work on the low-code solution. This project is expected to be completed within 1 year.

PROJECT JUSTIFICATION

Without CRIMS or an Arrest-Booking System, all jurisdictions would go back to manual processing of arrests and bookings which would create a significant delay in processing arrests, keeping law enforcement officers from their patrols and other duties, directly impacting public safety and the County Executive's Vision of Safe Neighborhoods.

COORDINATION

Technology and Enterprise Business Solutions (TEBS), Criminal Justice Coordinating Commission and member agencies, Office of Management and Budget, Office of Intergovernmental Relations, State of Maryland, United States Department of Justice, Federal Bureau of Investigation, Public Safety Communications Systems, Montgomery County Police, Sheriffs Department, and Fire & Rescue Services.

PROJECT DESCRIPTION

The Public Safety Data Systems Server Hardware is no longer supported by the Server team. As a result, the servers and the data storage must be replaced. These servers are used to support the Public Safety Virtual Private Network and provide services for Public Safety clients.

ESTIMATED SCHEDULE

Replacement will be completed in FY25.

PROJECT JUSTIFICATION

Some servers supporting the Public Safety Communication Center (PSCC) and Alternate Emergency 911 Communications Center (AECC) are nearly a decade old and component failure is increasing significantly. Replacement is critical to ensure uninterrupted service to the PSCC and AECC.

COORDINATION

Technology and Enterprise Business Solutions (TEBS), Department of Police, Montgomery County Fire and Rescue Service, Sheriff's Office, Department of Correction and Rehabilitation, Office of Emergency Management and Homeland Security

PROJECT DESCRIPTION

This program will provide for phased upgrades and modernization of computer aided dispatch (CAD), law enforcement records management system (RMS), and voice radio systems used primarily by the County's public safety first responder agencies including Police, Fire and Rescue, Sheriff, Corrections and Rehabilitation, and Emergency Management and Homeland Security. The modernization will include replacement of the current CAD/RMS system, replacement of public safety mobile and portable radios, upgrade of non-public safety mobile and portable radios, and replacement of core voice radio communications infrastructure. The previously approved Fire Station Alerting System Upgrades project (CIP #451000) was transferred to this project in order to coordinate the upgrades with the new CAD system. The alerting system upgrades will modernize the fire station alerting systems at 43 existing work sites, maintaining the ability to notify fire and rescue stations of emergencies. The alerting system, including audible and data signals, is essential for the notification of an emergency and the dispatch of appropriate response units from the County. As voice, data, and video are beginning to converge to a single platform, this project will provide a pathway to a modern public safety support infrastructure that will enable the County to leverage technology advances and provide efficient and reliable systems for first responders. This project will follow the methodologies and strategies presented in the Public Safety Systems Modernization (PSSM) plan completed in July 2009.

ESTIMATED SCHEDULE

The infrastructure update for the Public Safety Radio System was completed in March 2021. The installation of the desktop radio consoles for the Alternate Emergency Communications Center and CAD A3 integration will be completed by the end of FY24. The Law Enforcement Records Management System (LE-RMS) is in the preliminary implementation stages.

PROJECT JUSTIFICATION

The public safety systems require modernization. Prior to replacement, the CAD system was reaching the end of useful life and did not meet the County's current operational requirements, impacting the response time of first responders to 9-1-1 calls. The CAD Roadmap Study, completed in March 2009, recommended replacement of the system to address existing shortcomings and prepare for the next generation 9-1-1 systems. The manufacturer's support for the voice radio system had to be phased out as of December 31, 2009. Beyond that date, the manufacturer will only continue to provide system support on an as available basis, but will not guarantee the availability of parts or technical resources. The CAD modernization initiated a detailed planning phase that included the use of industry experts to

assist with business process analysis and to develop detailed business and technical requirements for the new CAD system. This process allowed the County to incorporate lessons learned and best practices from other jurisdictions. As more of the County's regional partners migrate to newer voice technologies, it will affect interoperable voice communications. To ensure that the County maintains reliable and effective public safety (voice radio) communications for the operations of its first responders and to sustain communications interoperability for seamless mutual aid among its regional partners, the County needed to implement a project to upgrade and modernize its portable and mobile radio units and subsequently the radio voice communications infrastructure. Acceleration of the public safety radio purchases was initiated to take advantage of a Partial Payment in Lieu of Re-Banding offer from Sprint/Nextel toward the financing of new, upgraded, P-25 compliant public safety radios and to meet the Federal Communications Commission (FCC) mandated 800 MHz frequency rebanding requirements for nationwide public safety radio frequency interoperability. Now, the installation of the new core radio communication infrastructure is needed. The fire station alerting system upgrades were identified as a need under Section 5 of the MCFRS Master Plan (adopted by the County Council in October 2005) and detailed in the Station Alerting and Public Address (SA/PA) System for Fire/Rescue Stations, Rev 1, 2006. This project allows for the continuous and seamless functioning of the alerting systems within each fire station. A preliminary survey by DTS of existing conditions at all stations revealed system-wide concerns, including inadequate spare parts inventory and lack of available maintenance support for alerting systems.

OTHER

This project was previously located in the County Offices Sub-Category prior to FY25.

FISCAL NOTE

Funding in FY09 included Urban Area Security Initiative (UASI) grant funding of \$2.055 million and Fire Act grant funding of \$988,000. Funding schedule reflects FY18 supplemental adding \$32,000 in Contributions for additional equipment required for Local Fire Rescue Departments (LFRDs). FY18 funding switch is due to a transfer of Current Revenue General for \$283,000 from Technology Modernization (MCG) project offset by an equal reduction in Short-term Financing. In FY22, a \$2 million transfer was made to a new Dickerson Radio Tower project. In FY23, there was a funding switch of \$293K in FY22 Short-term Financing to FY22 Recordation Tax Premium and \$2.366 million in FY23 Short-term Financing switched to FY23 Current revenue since Software as a Service is not financeable.

COORDINATION

PSSM Executive Steering Committee, Executive Program Directors, Technology and Enterprise Business Solutions (TEBS), Department of Police, Montgomery County Fire and Rescue Service, Sheriff's Office, Department of Correction and Rehabilitation, Office of Emergency Management and Homeland Security, Department of Transportation, Department of Liquor Control, Montgomery County Public Schools (MCPS), Maryland-National Park and Planning Commission (M-NCPPC) Park Police, Washington Metropolitan Area Transit Authority (WMATA)

PROJECT DESCRIPTION

This project provides for the purchase and installation of electric vehicle (EV) charging stations and associated infrastructure improvements at county facilities. EVs in the county fleet have electric motors powered by rechargeable batteries, with most EVs able to travel over 200 miles on a charge.

Level II EV charging adds twenty to thirty miles of driving range per hour of charging. Level III DC fast charging can charge a vehicle to 80% in as little as 20 minutes.

Electric vehicle charging infrastructure will be installed and operated on County-owned sites, including the Executive Office Building garage, Public Safety Headquarters, Wheaton Headquarters, and the Seven Locks Road maintenance facility. Level III chargers will be installed at county-owned fuel sites to support county vehicles that need to charge outside of their designated storage location.

ESTIMATED SCHEDULE

In FY25, six level II chargers and four level III chargers will be installed at various county facilities. The Department of General Services is currently working to identify the additional charging needs and infrastructure improvements needed to support the full transition of the county fleet to zero emissions.

PROJECT JUSTIFICATION

The county's Climate Action Plan calls for the county to reach zero greenhouse gas (GHG) emissions by 2035. To achieve the zero GHG emissions 2035 goal and fully transition the county's non-transit fleet, the county will need to purchase approximately 2,000 zero-emission light-duty vehicles, 250 medium/heavy-duty trucks, and 240 pieces of motorized equipment along with the electric charging equipment and infrastructure to support them.

OTHER

The Department of General Services is working to examine county facilities, existing infrastructure, and the county vehicle fleet and develop a plan to build a comprehensive vehicle charging network. In addition to highlighting future funding needs, the plan will serve as a guide for future grant applications and opportunities. The plan will also help to identify ongoing operating costs for maintenance of EV charging infrastructure.

COORDINATION

Department of Environmental Protection, Department of Transportation, Department of Recreation, Montgomery County Public Libraries, Montgomery County public safety agencies, Pepco, First Energy/Potomac Edison, BG&E, City of Rockville.

PROJECT DESCRIPTION

This project provides for the design and construction of a new Justice Center on the County property north of Wootton Parkway and East of Seven Locks Road. The new facility will include a Central Processing/Detention component to support processing new arrestees and detaining remanded individuals for up to 72 hours. Other uses include District Court Commissioners; Department of Health and Human Services Mental Health Assessment and Placement Unit; Pre-Trial Services Assessment Unit; Public Defenders Unit; and the Police Warrants and Fugitive Unit. The project incorporates technical requirements from the Detention Center Reuse project in addition to updated space requirements developed by an interagency working group. The facility will be constructed in close proximity to the planned Diversion Center to maximize diversion and deflection opportunities.

LOCATION

1451 Seven Locks Road, Rockville, MD 20854

COST CHANGE

Project costs increased due to escalation, technical adjustments to the space program, and updates to planned inmate housing.

PROJECT JUSTIFICATION

This project is consistent with Council Resolution 13-356 passed by the County Council on December 5, 1995, which approved two jail facilities at two locations - Rockville and Clarksburg - as priority public safety uses. The renovation of the existing Montgomery County Detention Center facility (Detention Center Reuse Project No. 429755) was determined not to be cost effective due to the need for significant capital expenditures, life cycle costs, and continued maintenance as a result of aging systems. It was determined to be cost effective to replace the Montgomery County Detention Center with a new Justice Center facility.

OTHER

Racial Equity Impact Assessment: When considering the location and design of building(s) that would offer pre-booking diversion services, the Department of Correction and Rehabilitation, along with other stakeholder agencies, will conduct a Racial Equity Impact Assessment that looks at the following:

-
- What is the proposal and what is it seeking to accomplish?
 - How might the proposal impact communities and people of color differently?
 - What do the data tell us?
 - Who is impacted by the proposal?
 - What are the recommended strategies to address unintended consequences and adverse impacts to promote racial equity with this proposal?

FISCAL NOTE

The project assumes that fifty percent of project expenditures will be supported by State Aid.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

County Council, Department of Correction and Rehabilitation, Department of General Services, Department of Technology and Enterprise Business Solutions, Office of Management and Budget, Department of Police, Sheriff's Office, District Court of Maryland, Fire and Rescue Service, Department of Health and Human Services, Office of Racial Equity and Social Justice, Washington Gas, PEPCO, City of Rockville, State of Maryland, and Community Representatives. Special Capital Projects Legislation will be proposed by the County Executive.

PROJECT DESCRIPTION

This project provides for the design and implementation of wireless internet at the Montgomery County Correctional Facility (MCCF) and Community Corrections (CC). The project also supports installation of wireless internet upgrades at the Montgomery County Detention Center (MCDC). The project scope includes replacing aged MCCF network switches and installing Wi-Fi throughout the MCCF facility including the common areas of housing pods, medical suite, and administrative areas. Wi-Fi will also be installed throughout the CC facility. Implementing Wi-Fi at MCCF and CC will enhance implementation of the new Electronic Health Records (EHR) system, improve work productivity, and provide advanced learning technology for the staff and inmate population

ESTIMATED SCHEDULE

MCCF administrative areas and MCDC Wi-Fi upgrades are programmed for FY24; CC is programmed for FY25.

PROJECT JUSTIFICATION

The lack of wireless internet at MCCF and CC limits the implementation of the EHR system, restricts how staff can work and train, limits inmate programming, and reduces efficiencies. Without wireless internet, employees must use network cables to connect to the internet and access files where a network cable is available. Voice Over Internet Protocol (VOIP) also cannot be implemented in these facilities due to the outdated technology infrastructure. Without wireless internet, EHR capabilities would be limited; providers would be required to record medical information on a mobile device for visits and medication administered in housing areas and then perform a daily data download. This delays the recording of medical information which could result in adverse health outcomes. The EHR system will be implemented in all three Department of Correction and Rehabilitation facilities (MCCF, CC, and MCDC).

COORDINATION

Department of Technology and Enterprise Business Solutions.

PROJECT DESCRIPTION

This project provides for the planning of a Montgomery County Correctional Facility (MCCF) Refresh project to include medical unit modifications and remediation of clogged vents in inmate cells. Medical unit modifications include moving a nurse and correctional officer station to improve sight lines, increase female inmate capacity, increase inmate holding cell space, and other adjustments needed to accommodate implementation of the new State mandated Medication Assisted Treatment program. The project also provides for paint throughout the facility and carpet replacement in administrative areas.

LOCATION

22880 Whelan Lane, Boyds, MD, 20841

ESTIMATED SCHEDULE

Funding to support medical unit modification and vent remediation implementation is programmed in FY24 and FY25. Repainting the facility and carpeting is programmed for FY26 and FY27.

PROJECT JUSTIFICATION

MCCF opened in 2003 and has had limited capital improvements despite significant wear and tear. The proposed improvements are required to maintain the facility in good repair and address operational needs. Medical modifications are required to provide a safe and secure environment for inmates receiving medical services to include adequate medical and security supervision. Medical modifications are also required to accommodate new treatment requirements associated with the State mandated Medication Assisted Treatment program. Vent remediation is required to provide adequate air quality for the inmate population.

COORDINATION

Department of Correction and Rehabilitation, Department of General Services, Department of Technology Enterprise Business Solutions, State of Maryland.

Cumulative Appropriation	87,698		
Expenditure / Encumbrances	72,032		
Unencumbered Balance	15,666		

PROJECT DESCRIPTION

This project provides for ongoing replacement of fire apparatus and Emergency Medical Service (EMS) vehicles. The regular acquisition of replacement fire apparatus is an integral component of the Montgomery County Fire and Rescue Service (MCFRS) Master Plan, MCFRS Accreditation, and National Fire Protection Association (NFPA) 1901 Annex D.

ESTIMATED SCHEDULE

The following units are anticipated to be replaced over the six-year period: six aerial trucks, 40 EMS units (ambulances), 13 engines, two all-wheel drive brush trucks, four rescue squad/hazmat units, two tankers, one air supply unit, two boat support units, four box trucks, one medical care support unit, two medical ambulance buses, and three fleet service trucks. These are approximate quantities and may require slight adjustment as costs and departmental needs are determined on an annual basis.

COST CHANGE

Cost increase due to addition of FY29-30 to this level of effort project and cost adjustments based on updated replacement schedule and prices.

PROJECT JUSTIFICATION

The 2016 edition of the NFPA 1901 Standard for Automotive Fire Apparatus advises the following: "changes, upgrades, and fine tuning to NFPA 1901, Standard for Automotive Fire Apparatus, have been truly significant, especially in the area of safety. Fire departments should seriously consider the value (or risk) to firefighters of keeping fire apparatus older than 15 years in first-line service." Regular apparatus replacement is identified in the current Fire, Rescue, Emergency Medical Services, and Community Risk Reduction Master Plan as approved by the County Council. It is also a requirement of the Commission on Fire Accreditation International. Replacement fire apparatus includes enhanced safety features as well as decreased downtime for maintenance and repairs.

FISCAL NOTE

This project is funded with short-term financing and the Consolidated Fire Tax District Fund which includes Emergency Medical Service Transport (EMST) revenue. Fire Consolidated current revenue shown above reflects the outright purchase of some apparatus and required non-financeable equipment. Debt service will be paid for in the operating budget with EMST revenue as a primary funding source. FY23 supplemental in Short-Term Financing for the amount of \$4,234,000.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Local Volunteer Fire and Rescue Departments.

PROJECT DESCRIPTION

This project supports replacement of breathing air compressor systems which have reached or are approaching the end of their service life. Breathing air compressor systems provide breathing air to self contained breathing apparatus worn by firefighters, which is a critical component of the personal protective equipment used by fire and rescue personnel.

ESTIMATED SCHEDULE

This project supports replacement of breathing air compressor equipment at four stations in FY25, two stations in FY26, three stations in FY27, and three stations in FY28.

PROJECT JUSTIFICATION

Many of the compressors slated for replacement have been or will be in service for 20 years or more and are approaching or have reached the end of their useful life. Replacement of such units is required to ensure consistent system performance and reliability for this equipment which supports the life safety of fire and rescue personnel. Factors such as use and location are also considered in evaluating which units require replacement rather than repair. Systems planned for replacement through this project represent the oldest units in service.

COORDINATION

Montgomery County Fire and Rescue Service, Local Volunteer Fire Departments, Department of General Services

Unencumbered Balance	474		

PROJECT DESCRIPTION

This project provides for the design and construction of locker, shower, and rest rooms for selected fire stations to accommodate the use of these facilities for both male and female staff.

ESTIMATED SCHEDULE

Design and Construction at Gaithersburg FS #8 will be completed by end of FY24. Work at Silver Spring FS 16 is programmed to occur in FY30.

COST CHANGE

Cost increase reflects a revised cost estimate for work at Gaithersburg FS8 and the addition of Silver Spring FS16 to the project scope.

PROJECT JUSTIFICATION

Female facilities are needed at fire stations due to the increase of female personnel in fire rescue operations. Related plans include a study by Peck, Peck & Associates, May, 2002.

FISCAL NOTE

Debt service for this project will be financed with Consolidated Fire Tax District Funds.

COORDINATION

Montgomery County Fire and Rescue Service, Local Volunteer Fire and Rescue Departments, Department of General Services, Department of Permitting Services.

Appropriation FY 26 Request	-	Last FY's Cost Estimate	-
Cumulative Appropriation	-		
Expenditure / Encumbrances	-		
Unencumbered Balance	-		

PROJECT DESCRIPTION

This project funds development a of Program of Requirements (POR) for a potential new Level of Effort project to support refurbishment of existing fire stations at much lower cost than full-scale renovation or replacement. Improvements to be considered may include flooring, paint, cabinetry, furniture, lighting systems replacement, exterior envelope reconstruction, reconfiguration of interior building components, and exterior site amenities for fire stations.

ESTIMATED SCHEDULE

Development of the POR is expected to begin in FY25.

PROJECT JUSTIFICATION

Many fire stations have not received significant updates in decades. Capacity to support full renovation and tear down/rebuilds of existing fire stations is limited. Assuming capacity to replace two stations every six years, existing stations would be rebuilt every 111 years. This project supports development of a POR to explore the feasibility of a new Fire Station Refurbishment project, aligned with the facilities refurbishment model successfully implemented for Public Libraries to improve facilities at a lower cost. This model allows the County to address facility needs at a greater number of sites then can be reached using more expensive approaches.

COORDINATION

PROJECT DESCRIPTION

This project provides funding for the design and construction of modern life safety systems to protect fire/rescue stations and their occupants in the event of fire emergencies. Implementation of this project will help to minimize the dangers to life from fire, including smoke and fumes. The scope of the project encompasses fire alarms with voice capabilities, sprinkler activation for fire suppression, fire and smoke detection flow and tamper switches, and smoke control systems.

ESTIMATED SCHEDULE

Funding will support one station in each fiscal year.

COST CHANGE

Increase due to the addition of FY29 and FY30 for this ongoing project.

PROJECT JUSTIFICATION

Numerous fire/rescue stations are in need of modern, basic life safety systems. In many older fire/rescue stations, there are no fire alarms or sprinklers. In case of fire, there could be significant exposure to loss of life and property. Several fire and rescue stations do not meet codes and have outdated fire alarm systems for which spare parts are no longer available and which can no longer be kept in reliable operation. Many of these fire/rescue stations were built years ago, and thus, were grandfathered under the fire code since the occupancy category has not changed. The outdated systems need to be replaced and updated to provide improved protection and comply with current codes.

FISCAL NOTE

Debt service for this project will be financed with Consolidated Fire Tax District Funds. Project costs are not escalated and represent present value costs for future year projects.

COORDINATION

Montgomery County Fire and Rescue Service, Local Volunteer Fire and Rescue Departments, and Department of General Services.

Appropriation FY 25 Request	4,350	Year First Appropriation	FY87
Appropriation FY 26 Request	1,650	Last FY's Cost Estimate	18,777
Cumulative Appropriation	13,774		
Expenditure / Encumbrances	10,879		
Unencumbered Balance	2,895		

PROJECT DESCRIPTION

This project provides funding for the replacement and renovation of heating, ventilation, and air-conditioning (HVAC) and electrical systems that are in poor and deteriorating condition at various fire stations.

ESTIMATED SCHEDULE

Funding will support one station in each fiscal year.

COST CHANGE

Increase supports updated cost estimates for work programmed in FY25, revised cost estimates for future work based on recent cost experience, FY24 cost increases, and the addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

The replacement and repair of HVAC systems at fire stations reduces the need for expensive emergency repairs and increases energy efficiency. The design of the HVAC system is unique in each facility; therefore, the scope and cost for each station varies. Current candidate projects were identified through a HVAC and electrical systems condition assessment study for 20 fire stations in June 2019 with Montgomery County Fire and Rescue Service concurrence. The study recommends that HVAC and electrical systems at 20 fire stations be renovated.

FISCAL NOTE

Debt service for this project will be financed with Consolidated Fire Tax District Funds. Project costs are not escalated and represent present value costs for future year projects. FY24 Supplemental in the amount of \$397,000 in GO Bonds.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Montgomery County Fire and Rescue Service, Local Volunteer Fire and Rescue Departments, Department General Services (Division of Building Design & Construction), Department of Permitting Services, Office of Management and Budget.

Expenditure / Encumbrances	2,605		
Unencumbered Balance	824		

PROJECT DESCRIPTION

This project provides for the repair and replacement of paved surfaces at fire and rescue stations where existing paved surfaces are in poor and deteriorating condition.

ESTIMATED SCHEDULE

Scheduling is determined through annual inspections performed by the Department of General Services, Division of Building Design and Construction, in consultation with the Montgomery County Fire and Rescue Service. The station schedule displays anticipated priorities only and may be amended, if required, due to fire station pavement safety considerations.

COST CHANGE

The funding level for this project has been increased to account for inflation and to add FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

The current candidate project list was determined by a survey conducted by the Department of General Services, Division of Building Design and Construction. The ongoing need for exterior resurfacing at fire and rescue stations is due to the continuous use by heavy equipment such as pumpers and ladder trucks. While surfaces at some stations have lasted many years, others have deteriorated and failed in less than seven years.

FISCAL NOTE

Related expenditures of \$140,000 for Kensington FS #25 (P450903) are supported by this project. Funds have been shifted from the ADA: MCG project to support the additional cost of new ADA requirements. Debt service for this project will be financed with Consolidated Fire Tax District Funds. Project costs are not escalated and represent present value costs for future year projects.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Montgomery County Fire and Rescue Service, Local Volunteer Fire and Rescue Departments, Department of General Services, and Maryland State Highway Administration.

PROJECT DESCRIPTION

This project provides partial funding for the renovation and enhancement of Rockville Fire Station 3, which was constructed in 1965. The scope of work includes: structural repairs; Americans with Disabilities Act (ADA) accessibility improvements; an addition to increased living and bunk space; maintenance bay reconfiguration and conversion to locker area; and improvements in kitchen, living area, administrative area, and bunk rooms. Other facility repairs include replacement of the existing roof and paved parking lot surface.

LOCATION

380 Hungerford Drive, Rockville, Maryland.

ESTIMATED SCHEDULE

Funds are deferred to FY26 due to project delays.

PROJECT JUSTIFICATION

The present facility does not comply with current building or ADA code requirements for fire suppression sprinklers, Heating Ventilation and Air Conditioning, electrical systems, personnel living quarters, and work space. The consulting structural engineer recommended that a complete renovation to the existing facility would be more cost effective in the long-run than multi-year partial repairs.

OTHER

This PDF reflects a one-time County contribution of \$500,000 for this project. The remaining expenditures will be mostly funded with non-tax funds provided by the RVFD. Partial funding may also be provided through the State of Maryland Senator William H. Amoss Fire, Rescue, and Ambulance fund. The RVFD developed cost estimates for this project through an independent cost estimator.

COORDINATION

City of Rockville; Montgomery County Fire and Rescue Service; Department of General Services, Division of Building Design and Construction; and Rockville Volunteer Fire Department.

PROJECT DESCRIPTION

This project provides for the replacement of roofs at fire and rescue stations where existing roofs are in poor and deteriorating condition. Routine roof maintenance and minor repairs are funded in the Operating Budget. One station roof replacement is programmed annually. Roof replacements are coordinated with Montgomery County Fire and Rescue Service and are consistent with the roof condition survey and facility assessment information to establish priorities.

ESTIMATED SCHEDULE

Funding will support one station in each fiscal year.

COST CHANGE

The funding level for this project has been increased to account for inflation and to add FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

The age of many fire and rescue stations creates the need for this ongoing project. Additional factors determining the need for roof replacement are: design life span of roof materials, present roof condition, long-term utilization plans for the facility, and the probability of continued repairs. A roof condition survey was completed in Spring 2005.

FISCAL NOTE

Debt service for this project will be financed with Consolidated Fire Tax District Funds. Project costs are not escalated and represent present value costs for future year projects.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Montgomery County Fire and Rescue Service, Local Volunteer Fire and Rescue Departments, and Department of General Services.

PROJECT DESCRIPTION

This project provides for a new five bay Fire and Rescue Station in the Rockville/White Flint area and the purchase of associated apparatus. The new facility will be located on an acquired site at the south-east quadrant of Route 355 and Randolph Road. The northern border of the site has frontage along Randolph Road and the eastern border fronts Chapman Avenue. The new station will be constructed in accordance with the general square footage specifications of the prototype program of requirements (POR) for a Class I Fire Station, with adjustments made to meet these specific site conditions and additional uses. This Fire Station will include apparatus bays, dormitory and support space, personnel living quarters, administrative offices, and meeting/training rooms. Parking requirements will be accommodated on site to the greatest extent possible. Fire/Rescue apparatus to be purchased for this station includes a new Emergency Medical Services unit and related equipment. Space has been added to co-locate a future Police Substation at the fire station. Site constraints for this project include a significant Washington Metropolitan Area Transit Authority easement which bisects the site running north/south through the mid-parcel. A Phase 1 Environmental Site Assessment has been performed.

LOCATION

Southeast quadrant of Route 355 and Randolph Road at Maple Avenue.

ESTIMATED SCHEDULE

Design began in October 2023 and is expected to be complete in December 2024. Construction is expected to begin in FY27 and complete in FY28.

COST CHANGE

Cost increases reflect updated escalation assumptions and updated land acquisition costs.

PROJECT JUSTIFICATION

The existing Rockville Fire Station #23, located at 121 Rollins Avenue, has only three bays and is extremely undersized to meet the current response time requirements. A new station is necessary in this area due to the present and projected population density for the Rockville and White Flint areas. The White Flint sector is envisioned to include a mix of housing, commercial, retail, recreation, and civic uses with the White Flint District as the focal point. White Flint is experiencing fast growth and the population is expected to increase with a significant amount of residential and commercial development, including 5,938 new proposed dwelling units and nearly 3 million square feet of new non-residential/commercial space. Relocation of Rockville Station #23 operations to the new White Flint location is needed to better position MCFRS services in relation to the high-density development in the approved White Flint Sector Plan and to minimize response time to the highest incident call load area. The new site is of sufficient size to accommodate the construction of a larger station which can house additional

needed apparatus and other public safety services.

OTHER

A number of test fits have been conducted at the proposed site located at the south-east quadrant of Route 355 and Randolph Road for the fire station and co-location of a Police substation. Land Acquisition was funded initially through the Advanced Land Acquisition Revolving Fund, and then reimbursed from this project.

FISCAL NOTE

Debt service for this project will be financed with Consolidate Fire Tax District Funds.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Montgomery County Fire and Rescue Service, Department of General Services, Montgomery County Police Department, Regional Service Centers and Department of Housing and Community Affairs. Special Capital Projects Legislation will be proposed by the County Executive.

PROJECT DESCRIPTION

This project provides for the installation of new glass security doors at each level of the North Tower Courthouse to restrict access to 2 elevators on each floor for judicial use, leaving four elevators on each floor for public access. Work includes installation of card readers, intercom, and a fire alarm pull station on each floor.

LOCATION

50 Maryland Ave, Rockville MD

PROJECT JUSTIFICATION

The Judicial Center Annex opened in April 2014. Currently, all 17 Circuit Court Judge Chambers, four Appellate Judge chambers, ten Senior Judges are located in hallways that are not secure. The Judges, Register of Wills, Clerk of Court, Chief Deputy Clerk, Court Administrator, and Deputy Court Administrator must travel through the public hallway and use one of the public elevators or use the public stairwell to access their vehicle which is parked in a secured garage. The lack of secured spaces puts these individuals at risk.

FISCAL NOTE

FY24 supplemental in G.O. Bonds for the amount of \$500,000.

COORDINATION

Circuit Court, Sheriff's Office, State Attorney's Office, Register of Wills, Clerk of the Circuit Court, Department of General Services, Technology and Enterprise Business Solutions, County Council, Criminal Justice Coordinating Commission

PROJECT DESCRIPTION

Design and deploy replacement of audio-visual (AV) systems in 18 South Tower courtrooms and provide two years of warranty and support with options to renew. These systems support remote hearings, assisted listening for individuals with hearing loss, translation technology for non-English speakers, and allow for electronic capture of the Court record. The system will be integrated within each room to facilitate effective communication, evidence display, and collaboration during court hearings, trials, and remote interactions.

LOCATION

50 Maryland Ave, Rockville, MD 20850

ESTIMATED SCHEDULE

Implementation to begin in FY 2025.

PROJECT JUSTIFICATION

The Circuit Court's South Tower opened in 2014 and included built in audio-visual systems in each of the 18 courtrooms. The existing support from the manufacturer and other information technology contracted resources is limited and outdated. Over the past two years, the AV systems have encountered persistent failures, exacerbated by the unavailability of replacement parts for the system. Given that 16 of the 18 courtrooms are in active use, the failing components and wiring pose a significant challenge. The court relies on the AV system to conduct multiple hearings and trials a day, and the frequent breakdowns have become a hinderance.

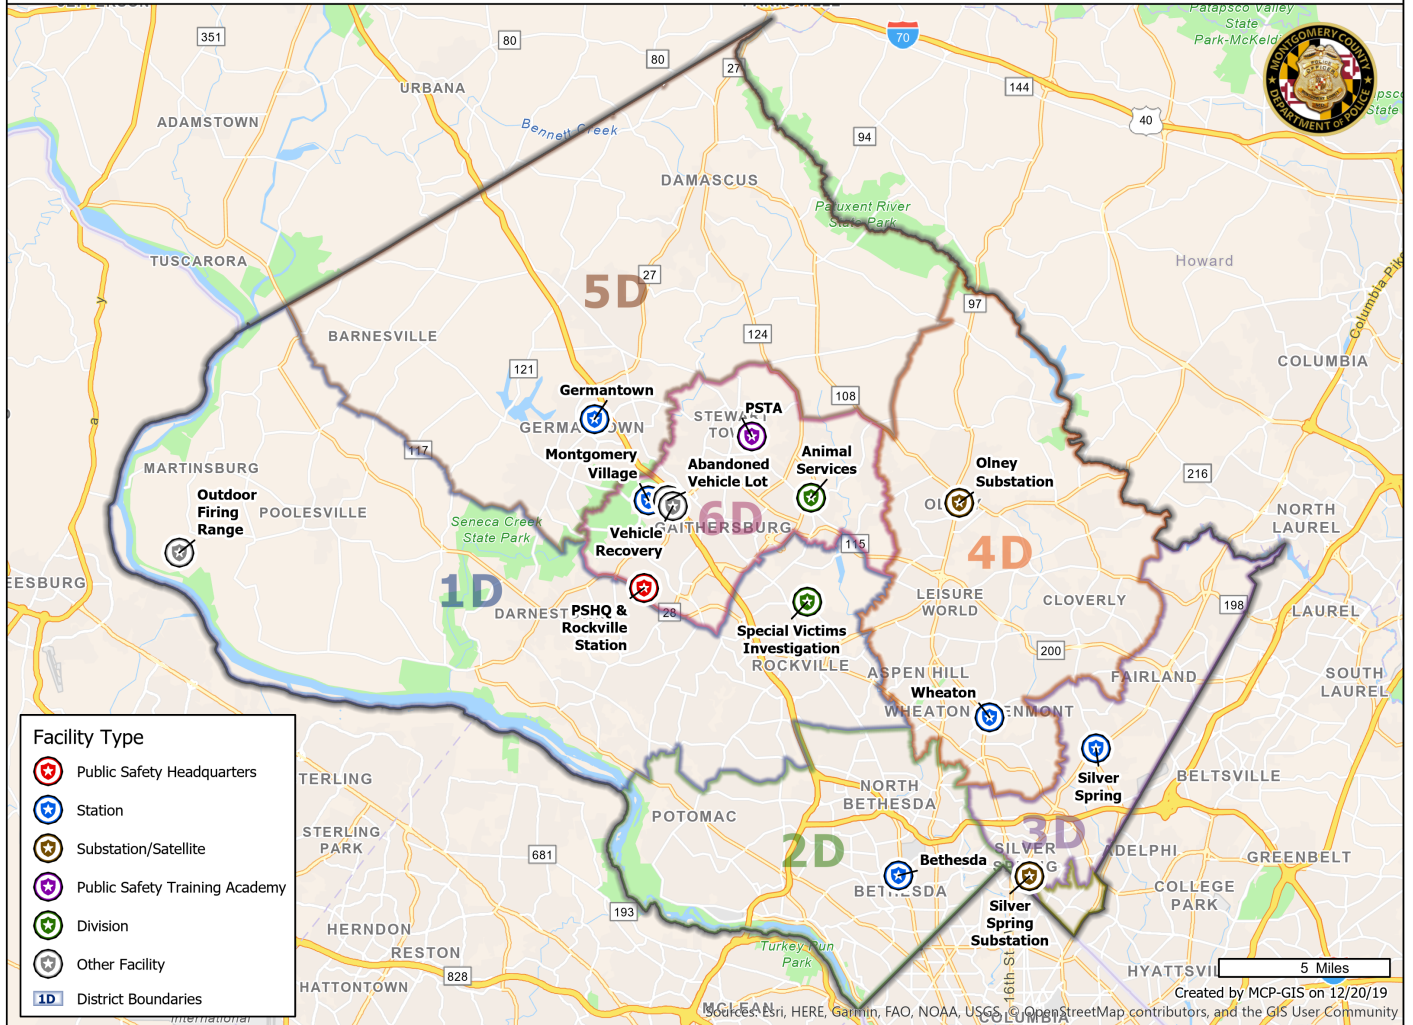

COORDINATION

Circuit Court, Department of General Services, Sheriff's Office, Technology and Enterprise Business Solutions, State Judiciary's Department of Judicial Information Systems

PROJECT DESCRIPTION

This project provides for planning, design and construction of a new 28,294 gross square feet 6th District Police Station and a new parking garage of 59,526 gross square feet in two levels to serve Gaithersburg/Montgomery Village and vicinity. The Station will be in a new development located on extended Watkins Mill Road between I-270 and MD-355. The district station is a facility consisting of two floors and parking for the public and staff. The first floor houses the public access area, operations, patrol and support functions, and a small prisoner holding area. The station will serve as the base for the Central Traffic Unit that was established in July 2021. The second floor houses four special teams, including investigative units, patrol sergeant offices, staff support, administration, and an exercise room. Besides a surface parking lot that will provide 30 parking spaces in the non-secured area, a two-level parking garage to accommodate 148 cars will be constructed inside the secured area. This parking garage will house a large evidence room, a vehicle service bay, a flare storage, a bicycle storage, and a storage room for the Central Traffic Unit's 29 motorcycles. The district station is a 24-hour per day, seven-day per week operation and provides support for beat teams. It is the command center for any satellite facilities within the police district. The district station will accommodate up to 178 department staff and volunteers. It has been sized to meet the needs projected in the Police Chief's Staffing Plan. A public meeting room on the first floor will be available to facilitate outreach with the community.

LOCATION

Watkins Mill Road between I-270 and MD-355.

ESTIMATED SCHEDULE

A code compliance review and update has been done in FY22. This project is scheduled to start construction in FY23 and finish in FY26.

PROJECT JUSTIFICATION

The current facility is in rented space and lacks several features of a modern police station, including reinforced interview rooms and a dedicated sally port.

FISCAL NOTE

FY23 supplemental appropriation of \$5.941 million in G.O. Bonds. Funding switch between GO Bonds and GO Bond Premium in the prior to the 6-year period for \$9.0 million.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Department of Police, Department of General Services, Department of Permitting Services, Department of Technology and Enterprise Business Solutions, Upcounty Regional Services Center, Police Facilities Plan, Local Law Enforcement Agencies, State Highway Administration, Department of Environmental Protection, Verizon, Maryland Department of Natural Resources, City of Gaithersburg, WSSC Water, Pepco, Washington Gas, Special Capital Projects Legislation [Bill No. 13-05] was adopted by Council June 28, 2005. PROJECT DESCRIPTION

This project provides for the renovation, upgrade, expansion, and enhancement of the Outdoor Firing Range and its support facilities. The Montgomery County Police Department (MCPD) Outdoor Firing Range and its support facilities is a multipurpose tactical training facility that serves as the primary MCPD training area for open-air environments and scenarios. The primary purpose of the Outdoor Firing Range and its support facilities is to train MCPD Police personnel along with other municipalities and agencies in the area. The facility is strategically important and heavily used because the site is large and isolated from the County's residential and commercial development within the Agricultural Reserve. The facility provides the rare opportunity to provide realistic advanced training that is increasingly difficult to obtain and provides beneficial joint training with multiple area agencies including: Montgomery County Fire Marshal Office, Montgomery County Sheriff's Office, Montgomery County Department of Correction and Rehabilitation, Gaithersburg City Police, Rockville City Police, and other law enforcement agencies.

The project scope intends to: increase and refurbish the earthen protection berms on both sides and at the end of the rifle and pistol ranges; increase the number of lanes in the rifle range with an appropriate target system; increase the distance of the pistol range lanes with an appropriate target system; provide an open air pavilion for weapons cleaning; and provide a new explosive bunker.

LOCATION

16680 Elmer School Road, Poolesville, Maryland.

ESTIMATED SCHEDULE

Design is scheduled to begin in FY26 and construction is scheduled for completion in FY30.

COST CHANGE

Increase in escalation.

PROJECT JUSTIFICATION

The project scope reflects needs based on current and projected police staff growth, the increasing demands and challenges of meeting certification and best practice training requirements, as well as the need for improved training.

FISCAL NOTE

During the course of the project development of the design and construction, MCPD will pursue potential grant and partner funding to augment and potentially reduce the overall project cost to the County.

COORDINATION

Department of General Services, Office of Management and Budget, Department of Technology and Enterprise Business Solutions, and Department of Police.

Unencumbered Balance	16,936		

PROJECT DESCRIPTION

The project provides for the renovation and upgrade of the electrical distribution and Heating, Ventilation, and Air Conditioning (HVAC) systems within the Public Safety Communication Center (PSCC). Specific upgrades include emergency generators replacement, redundant electrical distribution, condenser water distribution upgrade, rooftop units upgrade, and heat pumps replacements.

ESTIMATED SCHEDULE

Design began in March 2022. Construction is scheduled to be completed in October 2025.

COST CHANGE

Cost increase is related to escalation.

PROJECT JUSTIFICATION

The PSCC is a two story office building built in 1981. The building had major renovations in 2003 and further renovations in 2013 and 2016. The mission critical HVAC systems were replaced in 2019. The remaining building HVAC systems are either original or 19 years old. An assessment report that focused on mechanical, electrical, and plumbing systems was conducted in 2018 which prioritized the building system replacement.

FISCAL NOTE

9-1-1 center staff will present this project to the Maryland Emergency Number Systems Board (ENSB) to request funding from the 9-1-1 Trust Fund. Emergency/backup power is considered a necessary element of a 9-1-1 center and components of these systems are eligible for funding through the ENSB. FY23 Supplementals in G.O. Bonds in the amount of \$4,804,000 and \$1,000,000. FY24 Funding switch between GO Bonds and GO Bond Premium in the prior to the 6-year period for \$3.0 million.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of General Services, Department of Technology and Enterprise Business Solutions, Office of Management and Budget, Department of Transportation, Fire and Rescue Services, Department of Police, Office of Emergency Management and Homeland Security, Pepco, WSSC Water, Washington Gas, and the City of

PROJECT DESCRIPTION

This project will provide a permanent stream crossing in the form of a pedestrian bridge to facilitate movement between Auth Lane and Kersey Road. In September of 2020, members of the Kemp Mill community requested a pedestrian bridge to increase safety and to facilitate the use of an existing natural path by any individuals who are unable to ford the stream. Community members currently use the natural path on a section of unimproved public right-of-way as a short cut between Auth Lane and Kersey Road. The path includes an "at grade" stream crossing which is hazardous due to the presence of rocks and steep slopes and cannot be crossed during high stream flow events.

LOCATION

The project will be located within existing County owned right-of-way between Auth Lane and Kersey Road.

ESTIMATED SCHEDULE

This project will be constructed in FY25.

PROJECT JUSTIFICATION

The objective of this project is to provide a pedestrian bridge over a stream which bisects an existing natural path currently used by the public. The pedestrian bridge will eliminate hazards typically associated with fording an active stream and will increase pedestrian safety. A feasibility study and associated engineering work for this project was initiated in Fiscal Year 2023 to determine the project scope, cost, as well as potential environmental and property impacts. The feasibility study concluded that construction of a pedestrian bridge to facilitate pedestrian movement between Auth Lane and Kersey Road is feasible.

OTHER

Feasibility study and engineering design for this project was completed in FY23 and FY24 under CIP No. 502303 (Transportation Feasibility Studies).

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland-National Capital Park and Planning Commission, Montgomery County Department of Environmental Protection, Montgomery County Department of Permitting Services, Maryland Department of the Environment, Maryland Department of Natural Resources, United States Army Corps of Engineers

PROJECT DESCRIPTION

This ongoing project provides studies for bridge projects under consideration for inclusion in the capital improvements program (CIP). Bridge Design serves as a transition stage for a project between identification of need and its inclusion as a stand-alone construction project in the CIP. Prior to the establishment of a stand-alone project, the Department of Transportation will complete a design which outlines the general and specific features required on the project. Selected projects range in type, but typically consist of upgrading deficient bridges so that they can safely carry all legal loads which must be accommodated while providing a minimum of two travel lanes. Candidate projects currently included are listed below (Other).

COST CHANGE

Cost increase due to inflation and addition of FY29-30 to level of effort project.

PROJECT JUSTIFICATION

There is continuing need for the development of accurate cost estimates and an exploration of alternatives for proposed projects. Bridge Design costs for all projects which ultimately become stand-alone CIP projects are included here. These costs will not be reflected in the resulting individual project. Future individual CIP projects, which result from Bridge Design, will each benefit from reduced planning and design costs. Biennial inspections performed since 1987 have consistently shown that the bridges currently included in the project for design studies are in need of major rehabilitation or replacement.

OTHER

Candidates for this program are identified through the County Biennial Bridge Inspection Program as being deficient, load restricted, or geometrically substandard. The Planning, Design, and Supervision (PD&S) costs for all bridge designs include all costs up to contract preparation. At that point, future costs and Federal aid will be included in stand-alone projects. Candidate Projects: Brink Rd Bridge #M-0064, Garrett Pk Rd Bridge #M-0352, Dennis Avenue Bridge #M-0194, Glen Rd Bridge #M-0148, Glen Rd Bridge #M-0015, Mouth of Monocacy Rd Bridge #M-0043, Zion Rd Bridge #M-0121, Schaeffer Rd Bridge #M-0137, Parklawn Entr Bridge #MPK-17, Baltimore Rd Bridge #M-0201, Brighton Dam Rd Bridge #M-0108, Redland Rd Bridge #M-0057, Brookeville Rd Bridge #M-0083, Greentree Rd Bridge #M-0180, Whites Ferry Rd Bridge #M-0186, Glen Rd Bridge #M-0013, Barnes Rd Bridge #M-0008, Barnesville Rd Bridge #M-0045, Randolph Rd Bridge #M-0080-3, Shady Grove Rd Bridge #M-0191-3, Beach Dr Bridge #MPK-05, Beach Dr Bridge #MPK-08, Bel Pre Rd Bridge #M-0092, Little Falls Pkwy Bridge #MPK-01-2, Cattail Rd Bridge #M-0155, Harris Rd Bridge #M-0046, Valleywood Dr Bridge #M-0254, Hawkins Landing Dr Bridge #M-0317, Kensington Parkway Bridge #M-0073, Midcounty Hwy Bridge #M-0219, Southlawn Rd Bridge #M-0050, Martinsburg Rd Bridge #M-0042, Burnt Hill Rd Bridge #M-0157, and Gregg Rd Bridge #M-0119.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Federal Highway Administration - Federal Aid Bridge Replacement/Rehabilitation Program, Maryland State Highway Administration, Maryland Department of the Environment, Maryland Department of Natural Resources, Maryland Historic Trust, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Utilities, U.S. Army Corps of Engineers, CSX Transportation, Washington Metropolitan Area Transit Authority, and Rural/Rustic Roads Legislation.

PROJECT DESCRIPTION

This project includes actions or strategies that prevent, delay, or reduce deterioration of bridge elements, restore the function of existing bridges, keep bridges in good condition, and extend their useful life. Preservation actions may be preventive or condition driven. This project provides for removal of corrosion and installation of protective coatings on existing County steel bridges that have been identified as needing surface recoating through the Biennial Bridge Inspection Program. In addition, this project provides for the repair or replacement of leaking deck joints to minimize the deterioration and corrosion of bridge superstructure and substructure elements beneath the joints as identified through the Biennial Bridge Inspection Program. Bridge preservation field operations include removal of the existing coating system which may contain hazardous materials; containment of blast cleaning and waste paint particles; disposal of the hazardous materials at a pre-approved disposal site, as required by Maryland and Federal environmental regulations; installation of a protective coating system; joint repair or replacement; and inspection to ensure compliance with environmental and contract requirements.

COST CHANGE

Cost increase due to inflation and the addition of FY29-30 to this level of effort project.

PROJECT JUSTIFICATION

The benefits of this program will include extending the useful service life of existing steel bridges, prevention of long-term structural deficiencies, decreases in vehicle load restrictions, and reduced potential road closures and public inconvenience. The long-term goal of this program will be to protect existing bridges and keep them in good condition to reduce bridge renovation/replacement costs. The expected life cycle of a coating system is 15 years. Candidate bridges for each year are identified based on the bridge coating evaluations under the Biennial Bridge Inspection Program and the availability of funding. The County currently has 113 Highway and 29 Pedestrian steel girder, beam, and truss structures in its bridge inventory. These numbers will change when steel highway or pedestrian bridges are added into or dropped from the County's bridge inventory. The degree of specialized work required to restore the protective coatings to in-service bridges is beyond the scope of routine operations. Proper protective coating systems are an essential component of bridge maintenance to prevent long-term structural steel deterioration. The County currently has 50 bridges with deck joints in its inventory. Damage both to the joint and to the portion of the bridge beneath the joint that is exposed to debris, water, and deicing salts must be addressed and prevented to prolong the life of the bridge. Many defects identified through the Biennial Bridge Inspection Program are the direct result of bridges not being properly protected to withstand chemical and environmental elements. These defects include frozen and deteriorated steel bearings, corroded structural steel, and steel beam section loss.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Maryland Department of Natural Resources, Maryland State Highway Administration, Occupational Safety and Health Administration, Maryland-National Capital

PROJECT DESCRIPTION

This project provides for the renovation of County roadway and pedestrian bridges that have been identified as needing repair work beyond routine maintenance levels to assure continued safe functioning. Renovation work involves planning, preliminary engineering, project management, inspection, and construction. Construction is performed on various components of the bridge structures. Superstructure repair or replacement items include decking, support beams, bearing assemblies, and expansion joints. Substructure repair or replacement items include concrete abutments, backwalls, and wingwalls. Culvert repairs include concrete headwalls, structural steel plate pipe arch replacements, installation of concrete inverts, and placement of stream scour protection. Other renovation work includes paving of bridge deck surfaces, bolted connection replacements, stone slope protection, reconstruction of approach roadways, concrete crack injection, deck joint material replacement, scour protection, and installation of traffic safety barriers. The community outreach program informs the public when road closures or major lane shifts are necessary. Projects are reviewed and scheduled to reduce community impacts as much as possible, especially to school bus routes.

COST CHANGE

Cost increase due to addition of FY29 and FY30 to this level of effort project. Total funding in FY25-28 reduced for fiscal capacity. Cost decrease in FY24 due to shifting funds for Seven Locks Road Culvert Replacement to a standalone CIP project.

PROJECT JUSTIFICATION

The Biennial Bridge Inspection Program, a Federally mandated program, provides specific information to identify deficient bridge elements. Bridge renovation also provides the ability for quick response and resolution to public concerns for highway and pedestrian bridges throughout the County.

OTHER

The objective of this program is to identify bridges requiring extensive structural repairs and perform the work in a timely manner to avoid emergency situations and major public inconvenience. Construction work under this project is typically performed by the County's Division of Highway Services.

FISCAL NOTE

Federal aid includes American Rescue Plan Act State and Local Fiscal Recovery Funds.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of Transportation, Maryland State Highway Administration, Maryland Department of Natural Resources, Maryland Historic Trust, U.S. Fish and Wildlife Service, CSX Transportation

PROJECT DESCRIPTION

This project provides for the rehabilitation of the existing Brighton Dam Road Bridge No. M-0229 over Brighton Dam of Triadelphia Reservoir. This 602-foot long 15-span bridge, which is supported by Brighton Dam, is in need of repairs to the parapets, bridge deck joints, prestressed concrete beams, abutment backwalls, streetlights, and approach roadways and sidewalks to enhance the safety of the traveling public and the integrity of the dam. The existing storm inlets on the approach roadways at both ends of the bridge will be improved as needed. A new permanent turnaround site for fire trucks on the Howard County side will be constructed at the entrance to the existing WSSC Water maintenance yard, approximately 1,000 feet east of the bridge and next to the existing tanker fire truck water refill site. The existing diagonal crosswalk at the entrance of the Brighton Dam Azalea Garden on the Montgomery County side, approximately 320 feet west of the bridge, will be relocated to be perpendicular to Brighton Dam Road. An additional streetlight will be installed at each end of the relocated crosswalk.

LOCATION

The project site is located at the Montgomery/Howard County Line approximately 1.2 miles east of the intersection of Brighton Dam Road and New Hampshire Avenue (MD 650) in Brookeville.

CAPACITY

Upon completion, the Average Daily Traffic (ADT) on the Brighton Dam Road Bridge will remain approximately 6,000 vehicles per day.

ESTIMATED SCHEDULE

Design was completed 2023. Construction is scheduled to start in the spring of 2024 and be completed in the fall of 2024.

COST CHANGE

Cost increase is due to inflation and additional tasks including construction of a new turnaround site, relocation of the existing diagonal crosswalk and installation of additional streetlights at the relocated crosswalk.

PROJECT JUSTIFICATION

This bridge, reconstructed in 1999, requires repairs to the 1,002-foot long west parapets, 642-foot long east parapets, sixteen bridge deck joints, prestressed concrete beams, abutment backwalls, street lights, and approach roadways and sidewalks. The parapets have severe concrete spalling at many parapet joints. Prestressed concrete beams and abutment backwalls have spalling and cracking. The approach roadways and sidewalks have settlement at both ends of the bridge. The bridge deck joints have failed, allowing water and deicing chemicals to flow through the bridge deck which resulted in corrosion and deterioration to the mechanized equipment for the dam operations. Some streetlights and pole supports are damaged. The bridge rehabilitation was requested by WSSC Water to protect the newly reconstructed dam operating equipment. The improvement of storm inlets was requested by WSSC Water to minimize storm runoff entering into the bridge deck surface from the approach roadways.

OTHER

The 2005 Olney Master Plan designates Brighton Dam Road as Arterial Road (A-15) with a minimum right-of-way of 80 feet. The December 2018 Montgomery

County Bicycle Master Plan recommends bikeable shoulders. The deterioration of the bridge was identified through the County's 2021 biennial inspection program. The construction management and construction costs for the new fire truck turnaround site will be shared equally by Montgomery County and Howard County, and the remaining of the project costs will be shared equally by Montgomery County, Howard County and WSSC Water. WSSC Water will grant Howard County a perpetual maintenance easement for the new turnaround site at no cost. Streetlights, crosswalks, sidewalk ramps, bikeways, and other pertinent issues are included in the design of the project to ensure pedestrian safety.

FISCAL NOTE

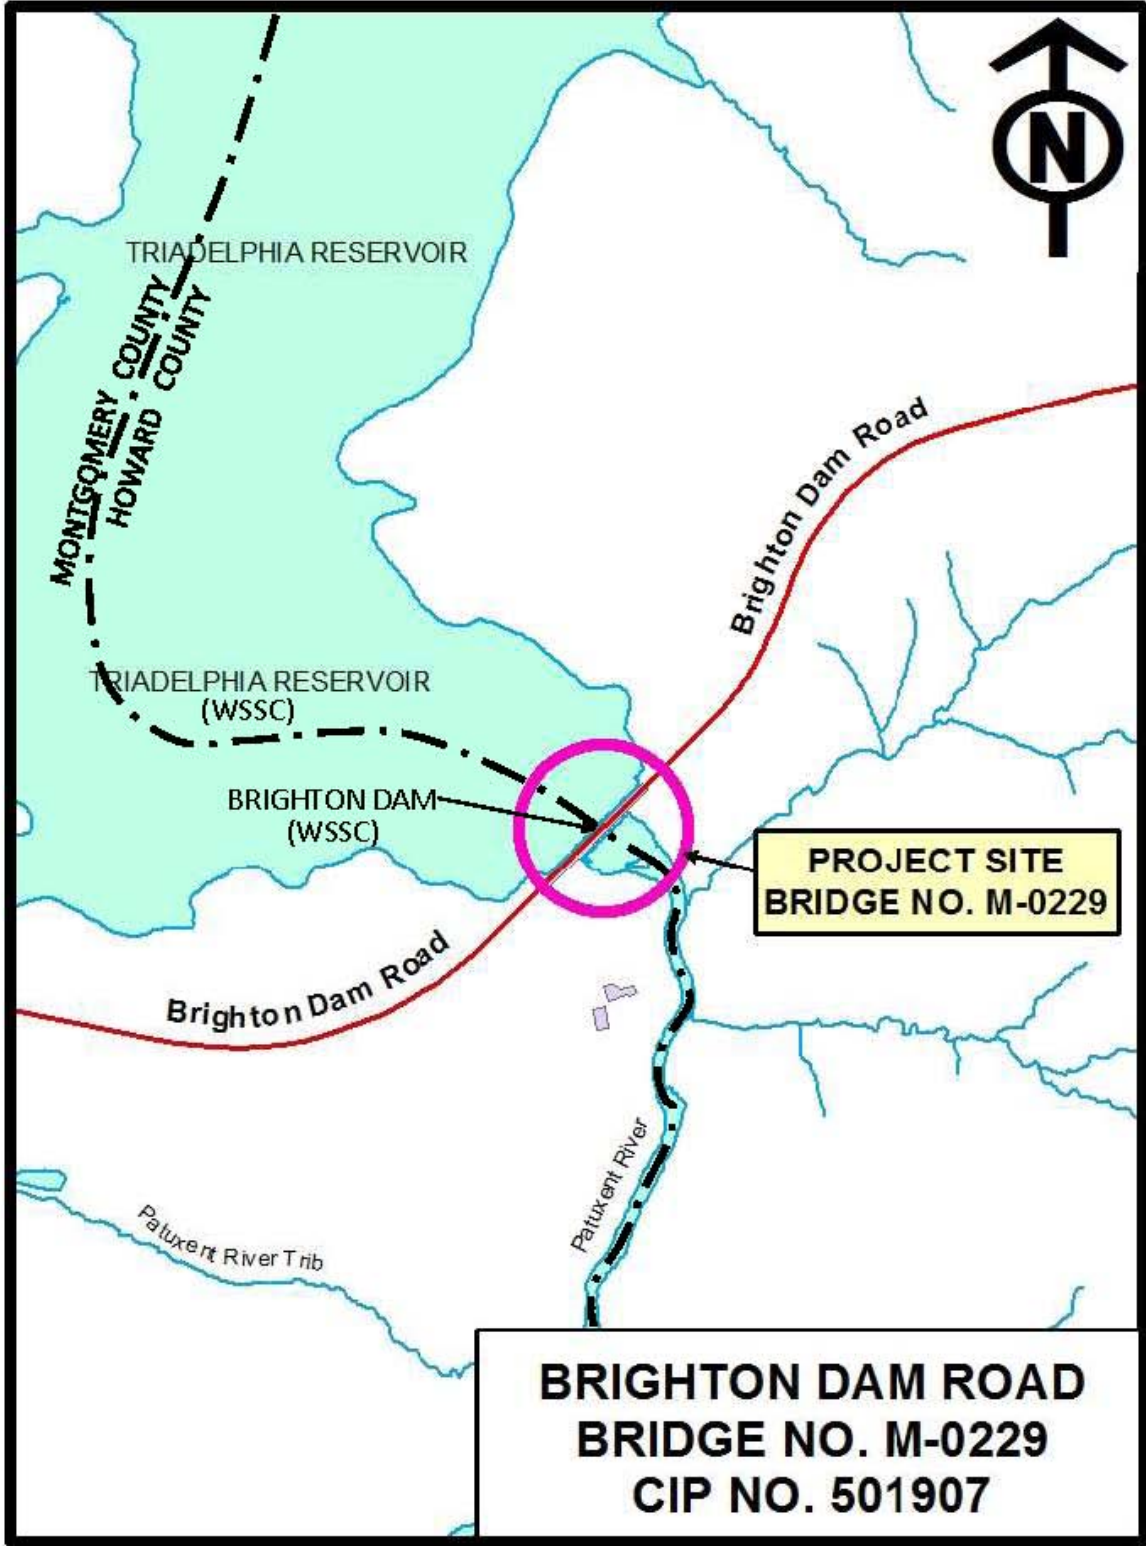

The funding shown as "Intergovernmental" is from Howard County and WSSC Water for their share of the project cost.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

WSSC Water, Howard County, Maryland Department of the Environment, Maryland Department of Natural Resources, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Montgomery County Fire and Rescue Services, Montgomery County Police Department, Montgomery County Public Schools, Montgomery County Ride On Bus, Howard County Fire and Rescue Services, Howard County Police Department, Howard County Public Schools, Baltimore Gas and Electric Company, and U.S. Army Corps of Engineers.

PROJECT DESCRIPTION

This project provides for the replacement of the existing Brink Road Bridge over Great Seneca Creek. The existing bridge, built in 1972, is a one span 58'-3" steel beam with an asphalt filled corrugated metal deck structure carrying a 23'-6" clear roadway with W-beam guardrail on each side. The proposed replacement bridge includes a one span 58' prestressed NEXT beam structure with a 34'-0" clear roadway width. The project includes 400-feet of approach roadway work west of the bridge to reduce flooding frequency and improvements to the intersection with Wightman Road approximately 20' east of the bridge. In addition, the Maryland-National Capital Park and Planning Commission (M-NCPPC) Seneca Creek Green hiker-biker trail crossing will be improved at the intersection. The new bridge will carry two lanes of traffic with two 11' travel lanes and 6' wide shoulders for a clear roadway width of 34'. A traffic signal will be constructed at the intersection of Wightman Road and Brink Road. To meet Program Open Space (POS) land conversion requirements land needs to be purchased at the corner of Wightman Road and Brink Road and a parking lot constructed for trail users.

LOCATION

The project is located approximately 2.1 miles east of the intersection of Brink Road and Ridge Road (MD 27) in Germantown, Maryland.

CAPACITY

The roadway Average Daily Traffic (ADT) is approximately 12,000 and the roadway capacity will not change as a result of this project.

ESTIMATED SCHEDULE

Design is expected to be completed in summer 2025. Site improvements and utility work will begin in FY25. Construction is scheduled to begin in summer 2026 and be completed in the winter of 2026. The bridge will be closed to traffic from June 2026 to August 2026.

COST CHANGE

Costs increase due to rising construction costs caused by material and labor shortages, as well as scope increase to include a parking lot for trail users as required by the Program Open Space (POS) land conversion law and the need for a traffic signal at the intersection of Brink Road and Wightman Road.

PROJECT JUSTIFICATION

The proposed replacement work is necessary to provide a safe roadway condition for the travelling public. The 2022 bridge inspection report for Bridge No. M-0064 indicates that the bridge steel beams are in poor condition with areas of 100 percent section loss. As a result, the bridge is inspected on a 12-month frequency. The bridge is functionally obsolete with a clear roadway width of 24' and carries approximately 12,000 vehicles per day. The bridge is closed two to three times a year due to flooding of the Great Seneca Creek. The project will reduce the flooding frequency to once every five years.

FISCAL NOTE

The costs of bridge construction and construction management for this project are eligible for up to 80 percent Federal Aid. The design costs for this project are

covered in the Bridge Design project (CIP No. 509132).

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Federal Highway Administration - Federal Aid Bridge Replacement/Rehabilitation Program, Maryland State Highway Administration, Maryland Department of the Environment, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Utilities, and Bridge Design PDF (CIP 509132).

PROJECT DESCRIPTION

This project provides for the rehabilitation of the existing Brookville Road Bridge over CSX Railroad. The existing Brookville Road Bridge, built in 1976, is a 123'-6" long, three-span, four steel rigid frame concrete deck structure carrying a 50-foot clear roadway with one 19'-6" lane in each direction and one 11' center-left-turn lane, plus a 7' concrete sidewalk and a one-foot concrete parapet with anti-climb chain link on both sides, for a total out-to-out bridge width of 66'. The structure is supported by two concrete abutments and eight concrete pier pedestals. The existing concrete deck will be reconstructed. The new concrete deck will carry a 41' clear roadway with two 11' lanes, one 7' striped median and two 6' shoulders, plus a 9' concrete sidewalk on the north side and a 14' concrete shared use path on the south side and a 1'-2" concrete parapet with anti-climb chain link on both sides, for a total out-to-out bridge width of 66'-4". The existing concrete abutments and slope protections and steel frames and bearings will be repaired. A 14' asphalt shared use path on the south side and a 1'-2" concrete barrier with moment slab on both sides will be constructed along the approaches between Talbot Avenue and Warren Street. Approximately 875 feet of asphalt approach roadway will be repaved to tie the bridge into the existing roadway.

LOCATION

The project site is located approximately 1,900 feet west of the intersection of Brookville Road and Linden Lane in Silver Spring.

CAPACITY

The roadway Average Daily Traffic (ADT) is approximately 11,500 vehicles per day.

ESTIMATED SCHEDULE

Design of the project is scheduled to be completed in FY26. Construction is scheduled to start in FY26 and be completed in FY28.

PROJECT JUSTIFICATION

The 2021 inspection revealed spalls and cracks at the concrete deck, abutments and slope protections, and pack rust, corrosion and delamination at the steel frames and bearings. The 2022 corrosion and chloride testing revealed high chlorides within the top 2" of the deck. This bridge is not considered structurally deficient. The proposed bridge rehabilitation is necessary to enhance the safety of the public and reduce future maintenance costs. The 2017 Greater Lyttonsville Sector Plan designates Brookville Road from Lyttonsville Place to Warren Street as a minor arterial road (MA-3). The 2018 Montgomery County Bicycle Master Plan proposes a sidepath on the south side.

OTHER

The Brookville Road Bridge is listed in the Maryland Inventory of Historic Properties (MIHP) as No. M: 36-31 and is not eligible for the National Register of Historic Places. The reconstruction of the deck will be implemented in two phases and traffic will be maintained through construction. Temporary construction easements within adjacent properties are required for accessing the CSX Transportation right-of-way underneath the bridge. Streetlights, crosswalks, sidewalk ramps, bikeways, and other pertinent issues are being considered in the design of the project to ensure pedestrian safety.

FISCAL NOTE

The construction and construction management costs are eligible for up to 80 percent Federal Aid. The design costs are covered in the Bridge Design project (C.I.P. No. 509132).

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Federal Highway Administration - Federal Aid Bridge Replacement/Rehabilitation Program, Maryland Department of Transportation State Highway Administration, Maryland Department of the Environment, Maryland Historical Trust, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, CSX Transportation, Utilities, and Bridge Design PDF (CIP 509132).

PROJECT DESCRIPTION

This project provides for the replacement of the existing Dennis Avenue Bridge M-0194 over a tributary to Sligo Creek. The existing bridge, built in 1961, is a single 30-foot span structure composed of prestressed concrete voided slab beams carrying a 24-foot roadway, two six-foot shoulders, and two 4'-8" sidewalks. The proposed replacement bridge will be a 80-foot overall span three-cell precast concrete arch culvert carrying a 22-foot roadway, two five-foot bicycle compatible shoulders, two two-foot striped buffers, a 13-foot shared-use path on the north side and a seven-foot sidewalk on the south side, for a total clear bridge width of 56 feet. The project includes utility relocations and approach roadway work at each end of the bridge as necessary to tie into the existing roadway and sidewalks. The bridge will be closed to traffic during construction. Accelerated bridge construction techniques will be utilized to minimize the disruption to the traveling public and local community.

LOCATION

The project is located on Dennis Avenue approximately 1,800 feet east of the intersection of Georgia Avenue and Dennis Avenue.

CAPACITY

The roadway Average Daily Traffic (ADT) is approximately 14,000 vehicles per day.

ESTIMATED SCHEDULE

The design of the project is expected to finish in the summer of 2024. Land acquisition will be complete in FY25. The construction is scheduled to start in the spring of 2025 and be completed in the fall of 2025. The bridge will be closed to traffic during the school summer break of 2025.

COST CHANGE

Cost increase due to inflation, newly identified subsurface debris/trash landfill, additional utility coordination, and extra erosion and sediment control to fulfill new stormwater permitting requirements.

PROJECT JUSTIFICATION

The proposed replacement work will mitigate the frequent flooding of five residential properties and local streets upstream of the bridge; mitigate occasional roadway flooding on Dennis Avenue that causes significant traffic delays; and eliminate annual maintenance repairs required for this deteriorating structure. The existing bridge is rapidly deteriorating and is nearing the end of its estimated service life.

OTHER

The December 2018 Technical Update to the Master Plan of Highways and Transitways designates Dennis Avenue as Minor Arterial Road (MA-17) with a minimum right-of-way of 80 feet. The December 2018 Montgomery County Bicycle Master Plan recommends a sidepath (shared use path) on the north side.

Streetlights, crosswalks, sidewalk ramps, bikeways, and other pertinent issues are being considered in the design of the project to ensure pedestrian safety. The funding shown as "Intergovernmental" is from WSSC Water for its share of the project cost.

FISCAL NOTE

In FY23, this project received transfers totaling \$438,000 from P502006 Davis Mill Road Emergency Stabilization (\$7,000), P500717 Montrose Parkway East (\$337,000), and P501200 Platt Ridge Drive Extended (\$94,000).

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Federal Highway Administration - Federal Aid Bridge Replacement/Rehabilitation Program, Maryland State Highway Administration, Maryland Department of the Environment, Montgomery County Department of Environmental Protection, Montgomery County Department of Permitting Services, Montgomery County Public Schools, Montgomery County Department of Police, Montgomery County Fire and Rescue Service, Montgomery County Ride On Bus, Maryland-National Capital Park and Planning Commission, Utilities, and Wheaton Regional Dam Flooding Mitigation (CIP Project #801710).

PROJECT DESCRIPTION

This project provides for the extension of Dorsey Mill Road from Century Boulevard to Milestone Center Drive for approximately 1,500 feet including a bridge over I-270, the reconstruction of Dorsey Mill Road from Milestone Center Drive to Observation Drive for approximately 1,000 feet, and the widening of Village Green Circle at the east of the Dorsey Mill Road/Observation Drive/Village Green Circle intersection for approximately 160 feet to add a westbound left-turn lane. The improvements will provide a new four-lane divided roadway (one 11-foot outside lane and one 10.5-foot inside lane in each direction) along Dorsey Mill Road, a distance of approximately 0.5-miles, within a 150' minimum right-of-way. A ten-foot shared use path on the north side and an eight-foot two-way separated bike lane with a six-foot sidewalk on the south side along Dorsey Mill Road, in compliance with ADA requirements, will provide connectivity for the existing sidewalks and shared use paths along Century Boulevard, Milestone Center Drive, Observation Drive, Waters Hollow Road and Found Stone Road that intersect with Dorsey Mill Road. An eight-foot parking lane is proposed on both sides along the Dorsey Mill Road from Milestone Center Drive to Observation Drive to accommodate the existing condition that outside lanes are being used for parking by the adjacent townhouse communities. Protected intersections will be provided as appropriate. Traffic signals will be installed at the intersection with Century Boulevard and the intersection with Observation Drive respectively. The scope also includes the reinterment for existing burials within the Dorsey Mill Road right-of-way.

LOCATION

Dorsey Mill Road from Century Boulevard to Observation Drive for approximately 2,500 feet and Village Green Circle east of Observation Drive for approximately 160 feet in Germantown.

ESTIMATED SCHEDULE

Most of the design including application for permits by Black Hills Germantown, LLLP (BHG), the developer of the Black Hills subdivision, under an agreement (MOU) with the County was completed in December 2018. Burial reinterment is projected for FY30. Design, land acquisition and construction will occur beyond FY30.

COST CHANGE

Cost increase due to inflation.

PROJECT JUSTIFICATION

The vision of the project is to provide multi-modal access, improve mobility and safety for local travel, and enhance pedestrian, bicycle, and vehicular access and connectivity to existing residential, commercial, parks, and recreational areas and planned mixed-use developments on both sides of I-270 in the vicinity of the Germantown Town Center urban area. This project is needed to provide the east-west transportation improvement completing the master planned Dorsey Mill Road that will connect Century Boulevard on the west side I-270 with Observation Drive on the east side of I-270. The latest planned mixed-use developments in the vicinity (the Black Hills subdivision, Poplar Grove subdivision, FFC at Cloverleaf Center subdivision and Century subdivision on the west side of I-270 and the Milestone subdivision on the east side of I-270) provide for a total of 364 units of single family dwellings, 1,435 units of multi-family dwellings, 1,374,182 square feet of commercial space, and 140 assisted living facility units.

OTHER

The 2009 Germantown Employment Area Sector Plan designates Dorsey Mill Road from Century Boulevard to Observation Drive as a 4-lane Business District Road B-14 and Corridor Cities Transitway with 150' right-of-way and shared use path SP-66. The December 2018 Montgomery County Bicycle Master Plan recommends a two-way separated bike lane on the south side of Dorsey Mill Road. Four potential existing burials within the Dorsey Mill Road right-of-way were identified by a field investigation in 2018. Corridor Cities Transitway proposes a station at the median of the Dorsey Mill Road between Milestone Center Drive and Observation Drive. BHG has completed design and permit applications at its expense under terms of an MOU. The County agreed to certify impact tax credits to BHG for all design and permit costs eligible for impact tax credits pursuant to Section 52-55 of the Montgomery County Code ("Impact Tax Credits"). The County is responsible for the design changes, permit revisions, land acquisition, construction, and burial reinterment.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland State Highway Administration, Maryland Transit Administration, Maryland Department of the Environment, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Montgomery County Department of Environmental Protection, Utilities, Lerner (Managing Agent for BHG), Maryland Historical Trust, Maryland State's Attorney, Waters Family, Germantown Historical Society, and Symmetry at Cloverleaf, LLC. Special Capital Projects Legislation will be proposed by the County Executive.

Expenditure / Encumbrances	-		
Unencumbered Balance	8,406		

PROJECT DESCRIPTION

This project provides for the replacement of the existing Garrett Park Road Bridge over Rock Creek. The existing bridge, built in 1965, is a three span (39'-75.5'-34') steel beam with concrete deck structure carrying a 24'-0" clear roadway with a 5'-0" sidewalk. The proposed replacement includes the removal and replacement of the concrete piers, abutments, and the replacement of the superstructure with prestressed NEXT beams. The proposed work includes new street lighting along Garrett Park Road, new approach slabs, and less than 100 feet of approach roadway work at each end of the bridge with modifications made to the intersection with Beach Drive. The road and bridge will be completely closed to vehicular traffic during construction and a temporary pedestrian bridge will be constructed over Rock Creek to maintain the high volume of pedestrian/bicycle traffic that use the bridge.

LOCATION

The project is located approximately 1.0 miles south of the intersection of Dewey Road and Randolph Road in Garrett Park, Maryland.

CAPACITY

The roadway Average Daily Traffic (ADT) is approximately 9,400 and the roadway capacity will not change as a result of this project.

ESTIMATED SCHEDULE

Project design has been delayed one year due to WSSC Water sewer variance and is expected to be complete in the spring of 2024. Construction is scheduled to begin in summer 2025 and be completed in the winter of 2025. The bridge will be closed to traffic from June 2025 to August 2025.

COST CHANGE

Cost increases due to rising construction costs caused by material and labor shortages. Also, utility costs have increased due to the addition of a recently identified task to relocate WSSC Water utilities.

PROJECT JUSTIFICATION

The proposed replacement work is necessary to provide a safe roadway condition for the travelling public. The 2018 bridge inspection report indicates that the bridge concrete piers are in serious condition with large areas of cracked, spalled, and delaminated concrete. The bridge is considered structurally deficient and functionally obsolete. The bridge is currently posted for a 10,000 lb. limit for a single-unit truck and a 10,000 lb. limit for a combination unit truck. School buses and Ride-on bus #38 exceed the load posting, however MCDOT granted a waiver for school buses to cross the bridge. For safety reasons, MCDOT increased the frequency of inspection to three months instead of the Federal requirement of 24 months.

FISCAL NOTE

The costs of bridge construction and construction management for this project are eligible for up to 80 percent Federal Aid. The design costs for this project are

covered in the Bridge Design project (CIP No. 509132). Intergovernmental funding represents WSSC Water contributions for utility relocation.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Federal Highway Administration - Federal Aid Bridge Replacement/Rehabilitation Program , Maryland State Highway Administration, Maryland Department of the Environment, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Utilities, and Bridge Design PDF (CIP 509132).

PROJECT DESCRIPTION

This project provides for the replacement of the existing Glen Road Bridge over Sandy Branch. The existing bridge, built in 1930 and repaired in 1992, is a 12-foot-long single-span concrete slab structure with concrete abutments and wingwalls. The bridge provides a 21'-7" wide clear roadway. The proposed replacement bridge includes a two-cell 10'x10' box culvert carrying an 18'-0" roadway and a 2'-0" shoulder on each side. The project includes approach roadway work at each end of the bridge to tie into the existing roadway. The project also includes 360 feet of stream restoration. The area of stream restoration on the upstream side is increased, thus increasing the limit of disturbance of the project. The bridge and road will be closed to traffic during construction. Accelerated bridge construction techniques will be utilized to minimize the disruption to the traveling public and local community.

LOCATION

The project site is located approximately 0.5 miles east of the intersection of Glen Road and Travilah Road in Potomac, Maryland. It is immediately adjacent to land owned by The Glenstone Foundation.

CAPACITY

The roadway Average Daily Traffic (ADT) is approximately 3,846.

ESTIMATED SCHEDULE

Design is expected to be completed in the summer of 2024. Construction is scheduled to begin in the summer of 2025 and complete in the fall of 2025. The bridge will be closed to traffic during the school summer break of 2025.

COST CHANGE

Cost increases due to increased stream restoration on the upstream side of the bridge requested by The Glenstone Foundation, plus inflation, and escalation of bid prices.

PROJECT JUSTIFICATION

The proposed replacement work is necessary to provide a safe roadway condition for the travelling public. The 2015 bridge inspection report for Bridge No. M-0148X01 indicates that there are concrete spalls on the north fascia, and at the northeast corner of the soffit. There is a 6" diameter x 2" deep spall with exposed reinforcement adjacent to the west abutment. There is a 3'-0" long hairline crack with minor spalling up to 2" high and delamination in the northwest wing wall interface with the north fascia. There is a 2.5" deep spall and full height vertical fracture in the southeast wing wall interface with the east abutment. The bridge is currently posted for a 26,000 lbs. limit for a single-unit truck and a 26,000 lbs. limit for a combination-unit truck. Implementation of this project would allow the bridge to be restored to full capacity. The 2002 Potomac Subregion Master Plan designates Glen Road as Rustic Road (R-2) from Query Mill Rd to Piney Meetinghouse Rd with two travel lanes and minimum right-of-way width 70 of feet.

OTHER

The design costs for this project are partially covered in the "Bridge Design" project (CIP No. 509132).

FISCAL NOTE

Since the existing bridge is less than 20 feet long, construction and construction management costs for this project are not eligible for Federal Aid. Stream restoration work in this project is partially funded with Water Quality Protection Fund revenues.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland State Highway Administration, Maryland Department of the Environment, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Utilities, and Bridge Design Project CIP 509132.

PROJECT DESCRIPTION

This project provides for the replacement of the existing Mouth of Monocacy Road Bridge over Little Monocacy River. The existing bridge, built in 1971, is a 49-foot long single span structure with steel beams and corrugated metal deck. The existing clear roadway width is 14'-9" with one lane on the bridge carrying two-way traffic. The proposed replacement bridge includes a single span steel beam structure carrying a 14'-9" roadway. The Scope of Work is being revised to a full structure replacement rather than a superstructure replacement due to the existing abutments are not founded on rock and have experienced undermining and re-sedimentation during the life of the bridge. The proposed structure will utilize drilled shaft supported abutments behind the existing cantilever abutments to support a slightly longer steel superstructure. The project includes approach roadway work at each end of the bridge to tie into the existing roadway. The bridge and road will be closed to traffic during construction. Accelerated bridge construction techniques will be utilized to minimize the disruption to the traveling public and local community.

LOCATION

The project site is located approximately 0.5 miles east of Mt. Ephraim Road in Dickerson, Maryland. This bridge is along a single point of access to the community.

CAPACITY

The Average Daily Traffic (ADT) is approximately 75 and the roadway capacity will not change as a result of this project.

ESTIMATED SCHEDULE

The design is expected to be completed in the winter of 2025. Construction is scheduled to begin in summer of 2026 and be complete in winter of 2026. The bridge will be closed to traffic from September 2026 to December 2026.

PROJECT JUSTIFICATION

The proposed replacement work is necessary to provide a safe roadway condition for the travelling public. Mouth of Monocacy Road Bridge M-0043 is defined as structurally deficient due to the condition of the superstructure. Recent inspections revealed that the steel beams and bearings are in poor condition. The top and bottom flange of the exterior beam have severe pitting with up to 33 percent section loss over most of the length. The bottom flanges of exterior beams have up to 66 percent section loss at both abutments up to 1'-0" from the bearing locations. The bottom flanges and the full-height of the web at each end of the interior beams have severe section loss with pitting up to 2.5" in diameter at the beam ends. The bearings have over 50 percent section loss to the bearing plates. The bridge has posted load limits of 56,000 Gross Vehicle Weight (GVW) and 66,000 Gross Combined Weight (GCW). Implementation of this project would allow the bridge to be restored to full capacity. The 1996 approved and adopted Rustic Roads Functional Master Plan designates Mouth of Monocacy Road as Exceptional Rustic Road (E-6) from Mt. Ephraim Road to the bridge over Little Monocacy River with minimum right-of-way width of 80 feet. The bridge provides the only means of access to about ten homes.

OTHER

The design costs for this project are covered in the "Bridge Design" project (CIP No. 509132).

FISCAL NOTE

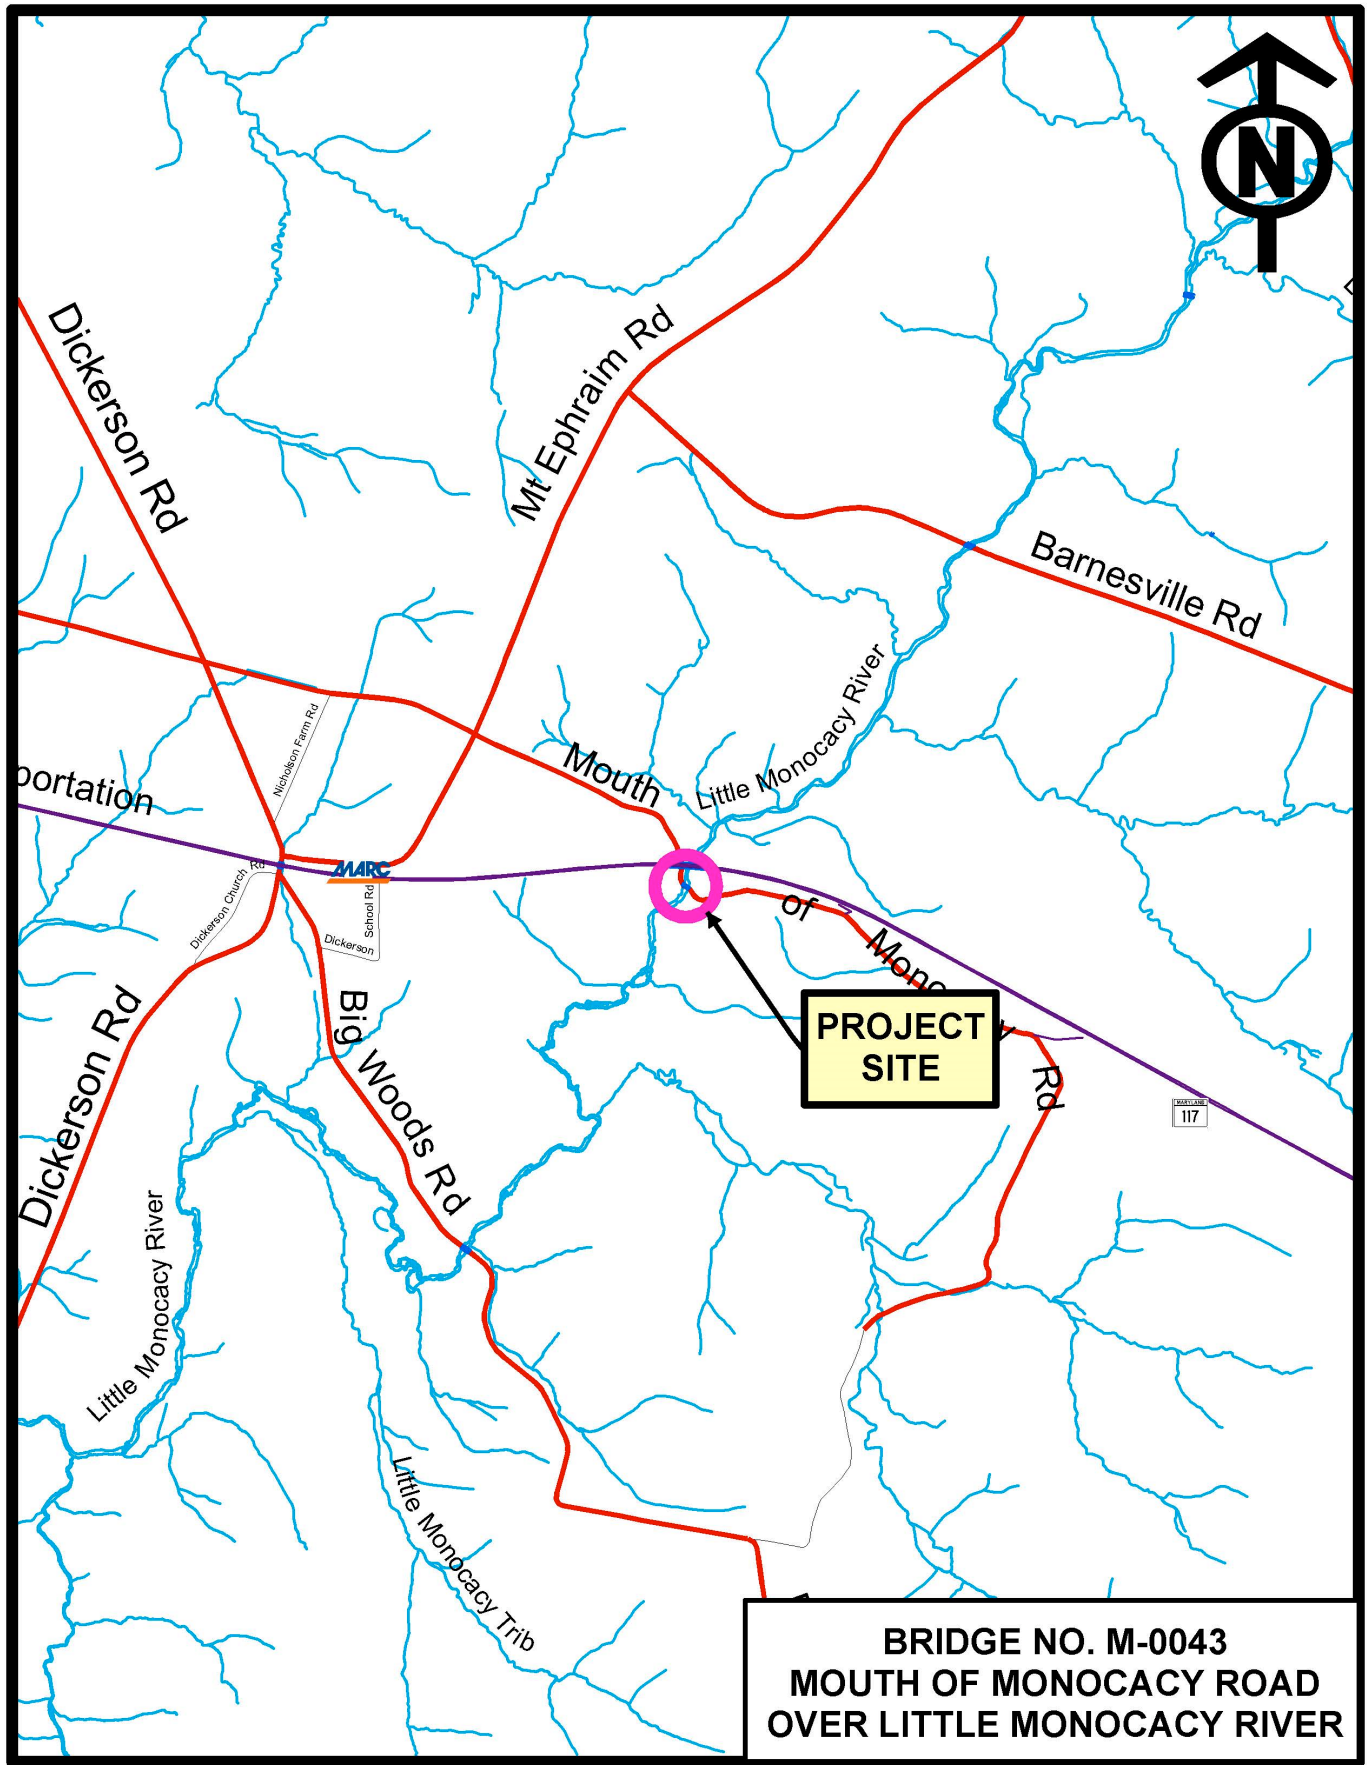

The costs of bridge construction and construction management costs for this project are eligible for up to 80 percent Federal Aid.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Federal Highway Administration - Federal Aid Bridge Replacement/ Rehabilitation Program, Maryland State Highway Administration, Maryland Department of the Environment, Maryland National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Rustic Road Advisory Committee, CSX Transportation, Utilities, and Bridge Design Project CIP 509132.

PROJECT DESCRIPTION

This project provides for the replacement of the existing bridge (M-0056) on Redland Road over Mill Creek. The existing single-span concrete slab bridge will be removed and replaced with a new prestressed concrete box beam superstructure and precast concrete abutments and wing walls. The new superstructure will be constructed in the same location. The project also includes approach roadway work at each end of the bridge as necessary to tie into the existing roadway. The bridge and road will be closed to traffic during construction. Accelerated bridge construction techniques will be utilized to minimize the disruption to the traveling public and local community.

LOCATION

This project is located on Redland Road over Mill Creek, approximately 900 feet north of the intersection of Redland Road and Briardale Road.

ESTIMATED SCHEDULE

The design of the project is expected to be completed in 2024. The construction is scheduled to start in the spring of 2025 and be completed in the fall of 2025. The bridge and road will be closed to traffic from June 2025 to August 2025 during construction while schools are out of session.

PROJECT JUSTIFICATION

The existing concrete deck is in need of reconstruction and the existing concrete abutments and slope protections and steel frames and bearings are in need of repairs. The 2019 inspection revealed spalls and cracks at the concrete deck, abutments and slope protections, and pack rust, corrosion, and delamination at the steel frames and bearings. The proposed bridge replacement is necessary to provide a safe roadway condition for the traveling public.

OTHER

The design costs for this project are covered in the "Bridge Design" project (CIP No. 509132).

FISCAL NOTE

Intergovernmental funding contribution from WSSC Water for water line relocation is anticipated. Relocation cost and contribution amount will be updated during the final design phase.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

PROJECT DESCRIPTION

This project provides for the replacement of the existing Schaeffer Road Bridge over Little Seneca Creek. The existing Schaeffer Road Bridge, constructed in 1925, is a 44 feet 8 inches long single span steel beam with concrete deck structure carrying a 16-foot clear roadway and a one-foot 3-inch combined W-beam railing and two-strand-steel-pipe-rail concrete post barriers on both sides for a total out-to-out bridge width of 18 feet 6 inches. The structure is supported by two stone masonry abutments encased in concrete. The replacement Schaeffer Road Bridge will be an approximately 42 feet 6 inches long single span simply supported prestressed concrete slab beam structure carrying a 16-foot clear roadway and one 2 feet 6 inches wide, 3 feet 6 inches high CalTrans Type 85 concrete parapet with two steel pipe rails on both sides, for a total out-to-out bridge width of 21 feet. The proposed bridge will be supported by two concrete abutments with concrete footing and drilled shaft foundations. Approximately 194 feet long asphalt approach roadway will be repaved to tie the bridge to the existing roadway. The existing gravel parking area at the southeast corner of the bridge will be reconstructed to be an asphalt parking area.

LOCATION

The project site is located approximately 2,100 feet east of the intersection of Schaeffer Road and White Ground Road in Boyds.

CAPACITY

The roadway Average Daily Traffic (ADT) is approximately 420 vehicles per day on weekdays and approximately 500 vehicles per day on weekends.

ESTIMATED SCHEDULE

Design of the project is expected to be completed in FY25. Construction is scheduled to start in FY26 and be completed in FY27. The bridge will be closed to traffic during the school summer break of 2026.

PROJECT JUSTIFICATION

The 2021 inspection revealed that the stone masonry abutments encased in concrete are in poor condition. This bridge is considered structurally deficient. The bridge is posted for a weight restriction of 50,000 lbs. for single unit trucks and 64,000 lbs. for combination unit trucks due to the live load rating analysis for the bridge. The proposed bridge replacement is necessary to continue to ensure a safe roadway condition for the traveling public.

OTHER

The 2023 Rustic Roads Functional Master Plan designates Schaeffer Road from White Ground Road to Burdette Lane as a rustic Road. The 2018 Montgomery County Bicycle Master Plan does not recommend a bicycle facility. The Schaeffer Road Bridge is listed in the Maryland Inventory of Historic Properties as MIHP No. M: 18-47 and is eligible for the National Register of Historic Places. Accelerated bridge construction techniques will be utilized to minimize the disruption to the traveling public and local community. Right-of-way acquisition is not required. Streetlights, crosswalks, sidewalk ramps, bikeways, and other pertinent issues are being considered in the design of the project to ensure pedestrian safety.

FISCAL NOTE

The construction and construction management costs are eligible for up to 80 percent Federal Aid. The design costs are covered in the Bridge Design project (CIP No. 509132).

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

PROJECT DESCRIPTION

This project provides for the replacement of two failing culverts under Seven Locks Road in front of the historic Scotland AME Zion Church. Work was originally initiated under the Bridge Renovation project (P509753). The existing culverts to be replaced are twin 44" by 72" structural plate pipe arch (SPPA) and a 36" by 56" corrugated metal pipe (CMP). The replacement culverts will be upsized to allow for significantly more flow and mitigate flooding risk to the church property.

ESTIMATED SCHEDULE

Design and construction will be completed in 2025.

PROJECT JUSTIFICATION

The proposed replacement work provides safe roadway condition for the travelling public. The 2023 Bridge inspection report indicates that the steel culverts have 100% invert section loss and are in poor condition.

In the past, the historic Scotland AME Church suffered multiple instances of severe flooding resulting in damage to the property. The church is currently undergoing restoration and renovation, including improvements to protect the building from flooding.

In 2024, the Montgomery County Departments of Transportation and Permitting Services conducted further study of the area and concluded that increasing conveyance capacity of culverts in front of the church from the current design criteria of a 25-year storm to a 100-year storm would further mitigate risk of flooding to the Church property.

FISCAL NOTE

\$1.8 million in G.O. Bonds was shifted to this project from Bridge Renovation (P509753).

COORDINATION

Maryland Department of the Environment, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, and utilities.

PROJECT DESCRIPTION

This project provides for permanent patching of residential/rural roads in older residential communities. This permanent patching program provides for deep patching of residential and rural roads to restore limited structural integrity and prolong pavement performance. This program will ensure structural viability of older residential pavements until such a time that road rehabilitation occurs. Based on current funding trends, many residential roads identified as needing reconstruction may not be addressed for 40 years or longer. The permanent patching program is designed to address this problem. Pavement reconstruction involves either total removal and reconstruction of the pavement section or extensive deep patching followed by grinding along with a thick structural hot mix asphalt overlay. Permanent patching may improve the pavement rating such that total rehabilitation may be considered in lieu of total reconstruction, at significant overall savings.

COST CHANGE

Cost increase is due to inflation and the addition of funding in FY29 and FY30.

PROJECT JUSTIFICATION

In FY09, the Department of Transportation instituted a pavement management system. This system provides for systematic physical condition surveys. The physical condition surveys note the type, level, and extent of residential pavement deterioration combined with average daily traffic and other usage characteristics. This information is used to calculate specific pavement ratings, types of repair strategies needed, and associated repair costs, as well as the overall Pavement Condition Index (PCI) of the entire residential network. The system also provides for budget optimization and a systematic approach to maintaining a healthy residential pavement inventory. The updated 2022 pavement condition survey indicated that 702 lane-miles (16 percent) of residential pavement have fallen into the lowest possible category and are in need of structural patching. Typically, pavements rated in this category require between 15-20 percent permanent patching per lane-mile. Physical condition inspections of residential pavements will occur on a 2-3 year cycle.

FISCAL NOTE

\$63.0 million is the annual cost required to maintain the current Countywide Pavement Condition Index of 67 for residential and rural roads. \$66.0 million is the annual requirement to achieve a Countywide Pavement Condition Index of 70 for residential and rural roads. Related CIP projects include Residential and Rural Road Rehabilitation (No. 500914) and Resurfacing: Residential/Rural Roads (No. 500511). In FY21, there was a funding switch utilizing GO Bonds, of which, \$1 million was allocated in GO Bond Premium.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland State Highway Administration, Utility Companies, Montgomery County Department of

Appropriation FY 25 Request	8,760	Year First Appropriation	FY09
Appropriation FY 26 Request	8,760	Last FY's Cost Estimate	128,697
Cumulative Appropriation	96,297		
Expenditure / Encumbrances	88,099		
Unencumbered Balance	8,198		

PROJECT DESCRIPTION

This project provides for the major rehabilitation of residential and rural roadways in older communities to include extensive pavement rehabilitation and reconstruction including the associated rehabilitation of ancillary elements such as under drains, sub-grade drains, and installation and replacement of curbs and gutters. This project will not make major changes to the location or size of existing drainage structures, if any. Pavement rehabilitation includes the replacement of existing failed pavement sections by the placement of an equivalent or increased pavement section. The rehabilitation usually requires the total removal and replacement of failed pavement exhibiting widespread areas of fatigue related distress, base failures and sub-grade failures.

COST CHANGE

Cost increase is due to inflation and the addition of funding in FY29 and FY30.

PROJECT JUSTIFICATION

In FY09, the Department of Transportation instituted a contemporary pavement management system. This system provides for systematic physical condition surveys. The physical condition surveys note the type, level, and extent of residential pavement deterioration combined with average daily traffic and other usage characteristics. This information is used to calculate specific pavement ratings, types of repair strategies needed, and associated repair costs, as well as the overall Pavement Condition Index (PCI) of the entire residential network. The system also provides for budget optimization for a systematic approach to maintaining a healthy residential pavement inventory. The updated 2022 pavement condition survey indicated that 302 lane-miles (or 7 percent) of residential pavement have fallen into the lowest possible category and are in need of structural reconstruction. Physical condition inspections of residential pavements will occur on a 2-3 year cycle.

OTHER

Hot mix asphalt pavements have a finite life of approximately 20 years based upon a number of factors including but not limited to: original construction materials, means and methods, underlying soil conditions, drainage, daily traffic volume, other loading such as construction traffic and heavy truck traffic, age, and maintenance history. A well maintained residential road carrying low to moderate traffic levels is likely to provide a service life of 20 years or more. Conversely, lack of programmed maintenance will shorten the service life of residential roads considerably, in many cases to less than 15 years before rehabilitation is needed.

FISCAL NOTE

\$56.9 million is the annual cost required to maintain the current Countywide Pavement Condition Index of 67 on residential and rural roads. \$59.4 million is the annual requirement to achieve a Countywide Pavement Condition Index of 70 for residential and rural roads. Related CIP projects include Permanent Patching: Residential/Rural Roads (No. 501106) and Residential and Rural Road Rehabilitation (No. 500914). In FY24, FY25 and FY27, there was a switch in funding between GO Bonds and Land Sale Proceeds.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely.

COORDINATION

WSSC Water, Washington Gas Light Company, Montgomery County Department of Permitting Services, PEPCO, Cable TV, Verizon, Montgomery County Public Schools, Regional Services Centers, Community Associations, Commission on People with Disabilities.

PROJECT DESCRIPTION

This project provides for the rehabilitation and/or renovation of park roads and associated bridges. Park roads are roadways which serve as public transportation routes in stream valley parks, e.g., Sligo Creek Parkway, Beach Drive, Little Falls Parkway, etc. Park bridges are vehicular bridges owned by Maryland-National Capital Park and Planning Commission (M-NCPPC) and are identified in the periodic bridge inspection report prepared by the Montgomery County Department of Transportation (DOT). There are approximately 14 miles of park roads and 13 associated bridges within the park system. The program includes pavement renovation, drainage improvements, structural and nonstructural bridge repairs, and roadside safety improvements.

COST CHANGE

Cost increase is due to inflation and the addition of funding in FY29 and FY30.

PROJECT JUSTIFICATION

Generally, park roads should be resurfaced every 12 years based on condition and safety factors, and park bridges should be repaired per DOT's biennial inspection reports. Park road conditions have been evaluated according to DOT's Pavement Surface Condition Rating Manual.

OTHER

This project was previously managed by M-NCPPC through its Resurfacing Park Roads and Bridge Improvements project. Transfer to DOT leverages the functional, technical, and contracting expertise within DOT to provide the most efficient and economical infrastructure support.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Maryland-National Capital Park and Planning Commission (M-NCPPC), Little Falls Parkway Bridge (No. 038704), Resurfacing Park Roads and Bridge Improvements (M-NCPPC) (No. 868700).

PROJECT DESCRIPTION

The County maintains approximately 1,099 lane-miles of primary and arterial roadways. This project provides for the systematic milling, pavement repair, and bituminous concrete resurfacing of selected primary and arterial roads and revitalization of others. This project provides for a systematic, full-service, and coordinated revitalization of the primary and arterial road infrastructure to ensure viability of the primary transportation network and enhance safety and ease of use for all users. Mileage of primary/arterial roads has been adjusted to conform with the inventory maintained by the State Highway Administration; this inventory is updated annually.

COST CHANGE

Cost increase is due to inflation and the addition of funding in FY29 and FY30.

PROJECT JUSTIFICATION

Primary and arterial roadways provide transport support for tens of thousands of trips each day. Primary and arterial roads connect diverse origins and destinations that include commercial, retail, industrial, residential, places of worship, recreation, and community facilities. The repair of the County's primary and arterial roadway infrastructure is critical to mobility throughout the County. In addition, the state of disrepair of the primary and arterial roadway system causes travel delays, increased traffic congestion, and compromises the safety and ease of travel along all primary and arterial roads for drivers, pedestrians, and bicyclists. Well maintained road surfaces increase safety and assist in the relief of traffic congestion. In FY09, the Department of Transportation instituted a contemporary pavement management system. This system provides for systematic physical condition surveys and subsequent ratings of all primary/arterial pavements as well as calculating the rating health of the primary roadway network as a whole. Physical condition inspections of the pavements will occur on a two-to-three year cycle. The physical condition surveys note the type, level, and extent of primary/arterial pavement deterioration combined with average daily traffic and other usage characteristics. The 2022 pavement condition survey is used to calculate specific pavement ratings, types of repair strategies needed, and associated repair costs, as well as the overall Pavement Condition Index (PCI) of the entire primary/arterial network. The system also provides for budget optimization and recommends annual budgets for a systematic approach to maintaining a healthy primary/arterial pavement inventory.

OTHER

One aspect of this project will focus on improving pedestrian mobility by creating a safer walking and biking environment, utilizing selected engineering technologies, and ensuring Americans with Disabilities Act (ADA) compliance. The design and planning stages, as well as final completion of the project will comply with the Department of Transportation (DOT), Maryland State Highway Administration (MSHA), Manual on Uniform Traffic Control Devices (MUTCD), American Association of State Highway Officials (AASHTO), and ADA standards.

FISCAL NOTE

\$17.6 million is the annual requirement to achieve a Countywide Pavement Condition Index of 80 for Primary/Arterial roads.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely.

COORDINATION

WSSC Water, Other Utilities, Montgomery County Department of Housing and Community Affairs, Montgomery County Public Schools, Maryland - National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Regional Services Centers, Community Associations, Montgomery County Pedestrian Safety Advisory Committee, Commission on People with Disabilities.

PROJECT DESCRIPTION

This project provides for the permanent patching and resurfacing of rural and residential roadways using durable hot mix asphalt to restore long-term structural integrity to the aging rural and residential roadway infrastructure. The County maintains a combined total of 4,363 lane-miles of rural and residential roads. Preventative maintenance includes full-depth patching of distressed areas of pavement in combination with a new hot mix asphalt wearing surface of 1-inch to 2-inches depending on the levels of observed distress. A portion of this work will be performed by the County in-house paving crew.

COST CHANGE

Cost increase is due to inflation and the addition of funding in FY29 and FY30.

PROJECT JUSTIFICATION

In FY09, the Department of Transportation instituted a contemporary pavement management system. This system provides for systematic physical condition surveys. The surveys note the type, level, and extent of residential pavement deterioration combined with average daily traffic and other usage characteristics. The 2022 pavement condition survey is used to calculate specific pavement ratings, types of repair strategies needed, and associated repair cost, as well as the overall Pavement Condition Index (PCI) of the entire primary/arterial network. The system also provides for budget optimization and recommending annual budgets for a systematic approach to maintaining a healthy primary/arterial pavement inventory.

OTHER

The design and planning stages, as well as project construction, will comply with the Department of Transportation (DOT), Maryland State Highway Administration (MSHA), Manual on Uniform Traffic Control Devices (MUTCD), American Association of State Highway and Transportation Officials (AASHTO), and American with Disabilities Act (ADA). Rural/residential road mileage has been adjusted to conform with the State inventory of road mileage maintained by the State Highway Administration (SHA). This inventory is updated annually.

FISCAL NOTE

\$56.9 million is the annual cost required to achieve the current Countywide Pavement Condition Index of 67 for Residential and rural roads. \$59.4 million is the annual requirement to achieve a Countywide Pavement Condition Index of 70 for residential rural roads. FY24 supplemental in GO Bonds for the amount of \$2,000,000.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

WSSC Water, Washington Gas Light Company, PEPCO, Cable TV, Verizon, United States Postal Service.

Unencumbered Balance	6,332		

PROJECT DESCRIPTION

This project provides for the removal and replacement of damaged or deteriorated sidewalks, curbs, and gutters in business districts and residential communities. Per the 2019 sidewalk survey, the County maintains about 1,668 miles of sidewalks and about 3,336 miles of curbs and gutters. Many years of paving overlays have left some curb faces of two inches or less. Paving is milled, and new construction provides for a standard six-inch curb face. The project includes: overlay of existing sidewalks with asphalt; base failure repair and new construction of curbs; and new sidewalks with handicapped ramps to fill in missing sections. No changes will be made to existing structures unless necessary to eliminate erosion, assure drainage, and improve safety as determined by a County engineer. A significant aspect of this project has been and will be to provide safe pedestrian access and to ensure Americans with Disabilities Act (ADA) compliance. Mileage of sidewalks and curb/gutters has been updated to reflect the annual acceptance of new infrastructure to the County's inventory.

COST CHANGE

Cost increase is due to inflation and the addition of funding in FY29 and FY30.

PROJECT JUSTIFICATION

Curbs, gutters, and sidewalks have a service life of 30 years. Freeze/thaw cycles, de-icing materials, tree roots, and vehicle loads accelerate concrete failure. The County should replace 111 miles of curbs and gutters and 56 miles of sidewalks annually to provide for a 30 year cycle. Deteriorated curbs, gutters, and sidewalks are safety hazards to pedestrians and motorists, increase liability risks, and allow water to infiltrate into the sub-base causing damage to roadway pavements. Settled or heaved concrete can trap water and provide breeding places for mosquitoes. A Countywide inventory of deteriorated concrete was performed in the late 1980's. Portions of the Countywide survey are updated during the winter season. The March 2020 Report of the Infrastructure Maintenance Task Force identified an annual replacement program level of effort based on a 30-year life for curbs and gutters.

OTHER

The Department of Transportation (DOT) maintains a list of candidate projects requiring construction of curbs and gutters based on need and available funding. The design and planning stages, as well as final completion of the project will comply with the DOT, Maryland State Highway Administration (MSHA), Manual on Uniform Traffic Control Devices (MUTCD), American Association of State Highway and Transportation Officials (AASHTO), and ADA standards.

FISCAL NOTE

Since FY87, the County has offered to replace deteriorated driveway aprons at the property owner's expense when working on a project in their neighborhood. The County will continue to offer apron replacement and has appropriated \$100,000 in FY24 for this activity. Payments received will be appropriated and reflected on the PDF. Funding switch replacing Contributions and a portion of GO Bonds with Land Sale Proceeds in FY25.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

WSSC Water, Other Utilities, Montgomery County Public Schools, Homeowners, Montgomery County Pedestrian Safety Advisory Committee, Commission on People with Disabilities.

Cumulative Appropriation		43,700		
Expenditure / Encumbrances		40,593		
Unencumbered Balance		3,107		

PROJECT DESCRIPTION

This project provides for the preservation of the street tree canopy through tree maintenance that will reduce hazardous situations to pedestrians and motorists, help reduce outages in the County, preserve health and longevity of trees, decrease property damage incurred from tree debris during storms, reduce property damage claims, correct structural imbalances/defects that cause future hazardous conditions and that shorten the lifespan of the trees, improve aesthetics and adjacent property values, improve sight distance for increased safety, and provide clearance from street lights for a safer environment.

COST CHANGE

FY25-30 adjusted for inflation. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

In FY97, the County eliminated the Suburban District Tax and expanded its street tree maintenance program from the old Suburban District to include the entire County. The street tree population has now increased from an estimated 200,000 trees to about 350,000 trees, with a typical life span of 60 years. Since that time, only pruning in reaction to emergency/safety concerns has been provided. The preservation of the street tree canopy through tree maintenance provides a reduction in hazardous situations and a healthier urban forest canopy. Tree maintenance will decrease storm damage and cleanup costs, right-of-way obstruction and safety hazards to pedestrians and motorists, strengthen structural integrity, decrease public security risk, and decrease liability claims. The Forest Preservation Task Force Report (October, 2000) recommended the development of a green infrastructure CIP project for street tree maintenance. The Forest Preservation Strategy Update (July, 2004) reinforced the need for a CIP project that addresses street trees (Recommendations in the inter-agency study of tree management practices by the Office of Legislative Oversight (Report #2004-8 - September, 2004) and the Tree Inventory Report and Management Plan by Appraisal, Consulting, Research, and Training Inc. (November, 1995). Studies have shown that healthy trees provide significant year-round energy saving. Winter windbreaks can lower heating costs by 10 to 20 percent, and summer shade can lower cooling costs by 15 to 35 percent. Every tree that is planted and maintained saves \$150 to \$250 in energy costs per year. In addition, a healthy street tree canopy captures the first 0.5 inch of rainfall reducing the need for storm water management facilities.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

PROJECT DESCRIPTION

This project provides funds through a cooperative agreement with the US Department of Transportation's Build America Bureau to form a Regional Infrastructure Accelerator called AccelerateMC in Montgomery County. AccelerateMC will:

- Evaluate innovative funding strategies, including project bundling as strategy to accelerate delivery and secure federal funds, and crowd funding for disadvantaged communities;
- Develop a financial strategy, including preparing the County to apply for federal TIFIA loans and determining how to leverage funding streams committed to the Bus Rapid Transit (BRT) program;
- Evaluate delivery methods and conduct risk assessment for projects within the BRT program, including opportunities to deliver a bus depot as a public private partnership;
- Advance programmatic third party agreements with the State, municipalities, developers, utility companies, and other stakeholders;
- Develop a strategic approach to accelerate the acquisition and lower the cost of right-of-way;
- Explore ways to develop the workforce and resources necessary to manage and advance the program; and
- Share experiences, strategies and lessons learned regionally through knowledge transfer strategies such as transit roundtables, technical papers, presentations and engagement of students.

ESTIMATED SCHEDULE

A cooperative agreement with USDOT's Build America Bureau will be finalized and executed in late FY24, with work to commence immediately thereafter. Work funded through the agreement will be completed in FY26.

PROJECT JUSTIFICATION

AccelerateMC will look at ways to enhance the speed and efficiency of delivering the county's BRT system. The proposed BRT will reduce congestion on County and State roadways, increase transit ridership, and improve air quality. The BRT will enhance the County's ability to meet transportation demands for existing and future land uses. Plans & Studies: MCDOT Countywide Bus Rapid Transit Study, Final Report (July 2011); County Executive's Transit Task Force (May 2012); and Countywide Transit Corridors Functional Master Plan (November 2013); MCDOT US 29 Bus Rapid Transit Project Description Report (March 2017); Maryland Transit Administration, MD 355 Bus Rapid Transit Corridor Planning Study (April 2017); Maryland Transit Administration, US 29 Bus Rapid Transit Corridor Planning Study (April 2017); MDOT MD 586 (Veirs Mill Road) Draft Corridor Study Report (September 2016); MD 355 Phase 2 Corridor Study Report (June 2019); Corridor Forward: The I-270 Transit Plan (Spring 2022).

FISCAL NOTE

This project is Federally funded with no local match required. FY24 supplemental in Federal Aid for the amount of \$2,000,000.

COORDINATION

Maryland Department of Transportation, Washington Metropolitan Area Transit Authority, Maryland-National Capital Park and Planning Commission, City of Rockville, City of Gaithersburg, Prince George's County.

PROJECT DESCRIPTION

This project provides access from Elm Street west of Wisconsin Avenue to the southern end of the Bethesda Metrorail station and ultimately integrates the Metro system with the new light rail system, allowing the completion of the connection between the new Purple Line light rail system and the existing Metrorail Red Line. The Metrorail Red Line runs below Wisconsin Avenue through Bethesda more than 120 feet below the surface, considerably deeper than the Purple Line right-of-way. The Bethesda Metrorail station has one entrance, near East West Highway. The Metrorail station was built with accommodations for a future southern entrance. The Bethesda light rail transit (LRT) station would have platforms located just west of Wisconsin Avenue on the Georgetown Branch right-of-way. This platform allows a direct connection between LRT and Metrorail, making transfers as convenient as possible. Six station elevators would be located in the Elm Street right-of-way, which would require narrowing the street and extending the sidewalk. The station would include a new south entrance to the Metrorail station, including a new mezzanine above the Metrorail platform, similar to the existing mezzanine at the present station's north end. The mezzanine would use the existing knock-out panel in the arch of the station and the passageway that was partially excavated when the station was built in anticipation of the future construction of a south entrance.

ESTIMATED SCHEDULE

Construction started in FY18. Construction will be coordinated and implemented as part of the State Purple Line Project and will be completed when the Purple Line construction is complete. In FY22, the concessionaire and the Maryland Transit Administration (MTA) selected an entity to complete construction. The project is expected to be completed in 2027.

COST CHANGE

Cost increase due to updated cost estimate from WMATA for the new mezzanine and additional year of funding in FY27 for project management to align with revised Purple Line completion schedule.

OTHER

Part of Elm Street west of Wisconsin Avenue will be closed for a period during construction.

FISCAL NOTE

The funds for this project were initially programmed in the State Transportation Participation project. Appropriation of \$5 million for design was transferred from the State Transportation Participation project in FY09. In FY18, a funding switch was made to increase Revenue Bonds: Liquor Fund appropriation and decrease G.O. Bonds appropriation by \$7.992 million. In FY19, a shift in \$3.5 million in G.O. Bonds from FY21 to FY19 was done to reflect an updated MTA billing schedule. In FY21, \$29,374,000 was shifted from prior years and distributed across FY21-FY26 to further reflect actual progress, a new estimated billing schedule, and to account for delays associated with the Purple Line. In the FY23-FY28 CIP, \$8 million was added to fill a funding gap in the project to allow for the completion of the Bethesda South Metro Entrance mezzanine project element as planned. This consists of \$6 million in G.O. bonds and \$2 million in Federal Aid,

reflecting a \$2 million earmark in the FY23 Omnibus Appropriations Bill. WMATA received an additional \$12M in state aid for this project during the 2022 State General Assembly Session. WMATA will pay for \$12M in mezzanine costs directly, and the remainder of the cost will be paid by the County.

COORDINATION

Maryland Transit Administration, Washington Metropolitan Area Transit Authority (WMATA), Maryland-National Capital Park and Planning Commission, Bethesda Lot 31 Parking Garage project, Department of Transportation, Department of General Services, Special Capital Projects Legislation [Bill No. 31-14] was adopted by Council June 17, 2014.

PROJECT DESCRIPTION

This project provides the site remediation followed by design and construction for a new bus loop, a parking lot and a comfort station for bus operators on the former Anderson property at the Boyds MARC station. The project will also include stabilization of the historic Hoyles Mill structure which is adjacent to the transit center.

LOCATION

15100 Barnesville Road, Boyds

ESTIMATED SCHEDULE

The site remediation was completed in FY22. Design for the bus loop and parking lot began in FY22 with construction completion in FY26.

COST CHANGE

Cost increase due to additional cost for stabilization of Hoyles Mill, comfort station for bus operators and inflation in the construction cost. Construction for Hoyles Mill stabilization will be funded by a grant from the State of Maryland.

PROJECT JUSTIFICATION

As part of its facility planning process, the County has been working towards the preliminary design of a future transit center in close proximity to the Boyds MARC station. The existing station is popular among commuters but parking is limited. In addition, providing Ride On bus service to the station is difficult due to the road network and lack of space for buses to turn around. In the summer of 2017, the County learned that the owners of the property adjacent to the MARC station (the Anderson Family) had listed the property for sale. In FY19, the County purchased the property. The County's acquisition of the Anderson property is supported by the Boyds Civic Association and the Maryland-National Capital Park and Planning Commission. As the design of the transit station continues to develop, the County intends to seek participation from the State of Maryland.

FISCAL NOTE

State aid includes a \$90,000 Maryland Heritage Areas Authority (MHAA) grant for developing a structural design for stabilizing Hoyles Mill in FY24, and

\$500,000 awarded during the 2024 Maryland General Assembly session to fund stabilization work. FY24 funding switch of \$361,000 from G.O. Bonds to Impact Tax to reflect prior year actuals. FY24 supplemental in State Aid for the amount of \$45,000 for the first payment of the \$90,000 MHAA grant.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland Transit Administration, CSX Transportation, Historic Preservation Program of Maryland-National Capital Park and Planning Commission, Department of Permitting Services, Maryland Historical Trust, and Heritage Montgomery.

PROJECT DESCRIPTION

This project provides for planning, design, permitting, and construction of a parking garage and other improvements at the Burtonsville Park and Ride Lot in support of Flash service on the US 29 corridor and to facilitate reactivation or redevelopment of the adjacent commercial property. The County is partnering with a private developer who will design and construct a shared parking garage. The shared garage will include approximately 250 parking spaces for the park and ride which will be funded by the County. The Burtonsville Station is the northernmost FLASH station in Montgomery County and is well-situated for park-and-ride access with direct ramps to US 29 and strong east-west connections via MD 198. With this strategic location, the park-and-ride can serve residents of Montgomery, Prince George's and Howard Counties, increasing transit ridership and lowering traffic demands on US 29 through Montgomery County. Expansion of this park-and-ride is needed to accommodate future ridership at this station and is part of longer-term plans to extend Flash service into Howard County and to provide all-day service in Burtonsville. The location can also serve as a hub for interconnecting local services to nearby communities like Cloverly, Ashton, Laurel and Maple Lawn. Expansion of public parking capacity at this location may also facilitate a more compelling development vision for County, State and privately owned properties in this part of Burtonsville. The redevelopment will reserve space for an additional parking garage to be constructed by the County at a later date.

ESTIMATED SCHEDULE

The Department of General Services issued a request for proposals for development of the site in FY21 and executed a developer agreement. Design and permitting of the garage will start in FY24. Construction will start in FY26 and be completed in FY27.

PROJECT JUSTIFICATION

It is estimated that by 2040 there will be a need for 1,000 park-and-ride spaces at the Burtonsville Park-and-Ride to serve the Flash service and the current capacity of the park-and-ride lot is only 475 spaces. This parking also serves Metrobus and MTA bus services and supports County employee commuting. The park and ride lot has strong access to US 29, but access from Old Columbia Pike and Maryland 198 relies upon connections through the adjacent commercial development. The Burtonsville Crossing Shopping Center is immediately adjacent to the park-and-ride lot and the rear of the center faces the Flash station. The Burtonsville Crossing Shopping Center has struggled to retain and attract tenants since the opening of the Burtonsville Town Center, directly across Old Columbia Pike, and the completion of the Burtonsville overpass on US 29. Due to low occupancy, the shopping center has become a source of community concern. Reconfiguration of the park-and-ride lot and its access routes, may be an important element of reactivating or redeveloping the Burtonsville Crossing Shopping Center and better integrating development on the approximately 36 acres of land between Old Columbia Pike, US 29, MD 198 and the Pepco transmission lines.

FISCAL NOTE

State aid reflects State grants for capital projects in Montgomery County programmed or preauthorized during the 2020, 2021, and 2023 State General Assembly Sessions.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of

relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of General Services, Department of Transportation, Office of Intergovernmental Relations, Office of the County Executive, Community Engagement Cluster.

PROJECT DESCRIPTION

This program provides for the planning, design, and construction of improvements such as bus lanes; queue jumps; passenger boarding and alighting improvements; implementation of transit signal priority; enhanced bus stops; and other similar capital improvements that will result in improved bus operations throughout Montgomery County. These improvements will advance the transit network specified by master plans. Potential improvements may also be identified through other planning and transit operations studies or requested by community members.

ESTIMATED SCHEDULE

Sub-projects include: Veirs Mill Road, near the Wheaton Metrorail Station; Century Boulevard, Crystal Rock Drive and Aircraft Road near the Germantown Transit Center; and University Boulevard from Dennis Avenue to Amherst Avenue. Projects will be coordinated with the Washington Metropolitan Area Transit Authority's Bus Priority Program, which will provide design for bus reliability improvements for up to two corridors in Montgomery County, with the intention that the improvements would be implemented by the County.

COST CHANGE

Cost increase due to the addition of FY29-30 in this level of effort project.

PROJECT JUSTIFICATION

Montgomery County is working towards implementation of a 102-mile bus rapid transit (BRT) network that will dramatically improve transit and support the County's economic development, equity, and environmental goals. This network is focused on ten primary corridors within Montgomery County and is an ambitious plan to improve bus transit service and refocus how people travel in Montgomery County. Individual corridor projects are complex, costly, and take several years to implement. Recognizing the importance of improving bus performance in the shorter term, the Montgomery County Department of Transportation is advancing the Bus Priority Program to provide targeted and quickly implementable improvements that will result in improved bus reliability and travel time.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely.

COORDINATION

Maryland Department of Transportation, Washington Metropolitan Area Transit Authority, Maryland-National Capital Park and Planning Commission, City of Rockville, City of Gaithersburg, State Highway Administration

PROJECT DESCRIPTION

This project will design and construct a new bus rapid transit (BRT) line on MD 355 between Rockville and Germantown. The project includes dedicated BRT lanes, new BRT stations with level boarding and off-board payment, Transit Signal Priority (TSP), purchase of new zero-emission BRT buses, and other associated pedestrian and bicycle improvements along the corridor. In addition, the project includes the planning and design of a new transit center near the Montgomery College Rockville Campus and a relocated and expanded Lakeforest Transit Center to support the project. Planning conducted by the Maryland Department of Transportation Maryland Transit Administration (MDOT MTA) resulted in several alternatives retained for detailed study in 2017 for BRT along MD 355 from Bethesda to Clarksburg. Final design and construction of the North and South segments will occur as a separate project.

LOCATION

The MD 355 BRT corridor spans Clarksburg to Bethesda. The Central phase of this project will include the master plan areas of Shady Grove and Germantown, as well as the cities of Rockville and Gaithersburg. A subsequent phase will provide service to the master plan areas of Bethesda, North Bethesda, Garrett Park, White Flint and Clarksburg.

ESTIMATED SCHEDULE

Project planning was completed in FY19. Preliminary engineering of the busway began in FY20 and will be completed in FY24. Environmental documentation for the purposes of submitting for federal funding is underway and should also be complete in FY24. Final design will be procured in FY25 and is estimated to last approximately two years. Construction activities, including right-of-way acquisition and utility relocations, may begin as early as FY25. Construction of the BRT is estimated to be completed in FY29.

PROJECT JUSTIFICATION

MD 355 Flash will transform mobility options with the implementation of a 22-mile, premium, branded, limited-stop BRT service along MD 355 between Clarksburg and Bethesda. This new service will improve transit travel time and increase opportunity for a broad range of users along a highly congested corridor. MD 355 Flash will improve passenger transit mobility by connecting riders to high density housing and employment centers. MD 355 Flash is being phased to accelerate delivery. This phase will implement BRT between Rockville and Germantown. Extensions to Bethesda and Clarksburg will follow. A new transit center

near the Montgomery College Rockville Campus will provide increased space to accommodate both the MD 355 BRT and Veirs Mill Road BRT operations as well as improve overall transit access and operations at this location. The Lakeforest Transit Center is currently undersized for existing operations. Relocation of the transit center closer to MD 355 will allow the critical connection between MD 355 BRT and the numerous local bus routes that stop there, while reducing the diversion for MD 355 BRT and saving passengers travel time. Redevelopment of the former Lakeforest Mall creates an opportunity for joint development considerations that should be explored in the near-term.

FISCAL NOTE

The County intends to secure federal funding for this project through the Federal Transit Administration's (FTA) Capital Investment Grant (CIG) New Starts program. Programming of funds through final design and construction improves the project's eligibility for earlier entry into New Starts. This project will utilize Op Lanes Maryland revenue proceeds, which have been pledged by the Maryland Department of Transportation to fund high priority public transit projects in Montgomery County. The amended FY21-26 CIP added \$6 M in State grants. Additional State aid in FY23-25 includes State grants for capital projects in Montgomery County programmed and/or preauthorized during the 2022 and 2023 Maryland General Assembly sessions, including \$150,000 in the 2023 session specifically identified to support planning and design of a new transit center near Montgomery College in Rockville. Op Lanes Maryland funding was deferred in FY23 to allow the new State administration time to move the project forward. FY24 funding switch from Recordation Tax Premium to Impact Tax to reflect prior year actuals and other adjustments.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland Department of Transportation State Highway Administration & Maryland Transit Administration, Department of Environmental Protection, Department of Permitting Services, Washington Gas, Pepco, Verizon, Comcast, Maryland Department of Natural Resources, Federal Transit Administration, City of Gaithersburg, City of Rockville, Washington Metropolitan Area Transit Authority, Commission on People with Disabilities, Transit Advisory Group, Neighborhood and Civic Associations, MD 355 BRT Corridor Advisory Committee.

PROJECT DESCRIPTION

This project will complete design for the Southern and Northern segments of the MD 355 Bus Rapid Transit (BRT) corridor. The Southern segment is from the Montgomery College Rockville Campus to Bethesda Metro station. The Northern segment is from the Montgomery College Germantown Campus to Clarksburg. This is part of the larger MD 355 BRT corridor that extends from Bethesda to Clarksburg. The Central segment will be designed and constructed as a separate project. Planning conducted by the Maryland Department of Transportation Maryland Transit Administration (MDOT MTA) resulted in several alternatives retained for detailed study in 2017. The project includes dedicated BRT lanes, new BRT stations with level boarding and off-board payment, Transit Signal Priority (TSP), purchase of new zero-emission BRT buses, and other associated pedestrian and bicycle improvements along the corridor. In addition, the project will consider the inclusion of a new transit center in the Clarksburg area to facilitate connections between different transit services as demand increases.

LOCATION

MD 355 between Rockville and Bethesda in the south and Germantown and Clarksburg in the north. Master plan areas include: Bethesda, North Bethesda, Garrett Park, White Flint, Germantown, and Clarksburg. The project also includes the City of Rockville.

ESTIMATED SCHEDULE

Preliminary engineering was completed in FY24 (see fiscal note). Final design will begin in FY25 and is anticipated to be completed by FY26. Planning and design for the Clarksburg Transit Center will occur in FY27 and 28. The construction schedule is unknown at this time and is dependent on funding availability.

PROJECT JUSTIFICATION

The project will transform mobility options with the completed implementation of a 22-mile, premium, branded, limited-stop BRT service along MD 355 between Clarksburg and Bethesda. This new service will improve transit travel time and increase opportunity for a broad range of users along a highly congested corridor. The project will improve passenger transit mobility by connecting riders to high density housing and employment centers. The project is being phased to accelerate delivery. The first phase will implement BRT between Rockville and Germantown. Extensions to Bethesda and Clarksburg will be completed as a second phase.

FISCAL NOTE

Programming of funds through final design improves the project's eligibility for potential entry into the Federal Transit Administration's Capital Investment Grant program. Preliminary engineering for this phase is funded in the MD 355 Central project (P502005). This project will utilize Op Lanes Maryland revenue proceeds, which have been pledged by the Maryland Department of Transportation to fund high priority public transit projects in Montgomery County. State aid in FY24-25 includes State grants for capital projects in Montgomery County programmed during the 2023 Maryland General Assembly session. Op Lanes Maryland funding was deferred in FY23 to allow the new State administration time to move the project forward.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

PROJECT DESCRIPTION

This project provides for the initial steps and supporting studies for Bus Rapid Transit (BRT) corridors in the County, supplementing the Metrorail Red Line and MTA Purple Line currently under construction. The County Council approved the Countywide Transit Corridors Functional Master Plan, an amendment to the Master Plan of Highways and Transportation, on November 26, 2013. The amendment authorizes the Department of Transportation to study enhanced transit options and Bus Rapid Transit for ten transit corridors, including: Georgia Avenue North, Georgia Avenue South, MD 355 North, MD 355 South, New Hampshire Avenue, North Bethesda Transitway, Randolph Road, University Boulevard, US 29, and Veirs Mill Road. The project also funds programmatic efforts needed to advance the BRT system.

ESTIMATED SCHEDULE

No additional corridor concept development studies are proposed in this six-year CIP. Efforts will focus on supporting the implementation of existing standalone projects.

COST CHANGE

Cost change due to addition of FY29 and FY30 to this level of effort project, net of cost savings in North Bethesda Transitway and New Hampshire Avenue BRT planning studies.

PROJECT JUSTIFICATION

The proposed BRT will reduce congestion on County and State roadways, increase transit ridership, and improve air quality. The BRT will enhance the County's ability to meet transportation demands for existing and future land uses. Plans & Studies: MCDOT Countywide Bus Rapid Transit Study, Final Report (July 2011); County Executive's Transit Task Force (May 2012); and Countywide Transit Corridors Functional Master Plan (November 2013); MCDOT US 29 Bus Rapid Transit Project Description Report (March 2017); Maryland Transit Administration, MD 355 Bus Rapid Transit Corridor Planning Study (April 2017); Maryland Transit Administration, US 29 Bus Rapid Transit Corridor Planning Study (April 2017); MDOT MD 586 (Veirs Mill Road) Draft Corridor Study Report (September 2016); MD 355 Phase 2 Corridor Study Report (June 2019).

FISCAL NOTE

Expenditures will continue as necessary to advance bus rapid transit implementation on master planned transit corridors.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland Department of Transportation, Washington Metropolitan Area Transit Authority, Maryland-National Capital Park and Planning Commission, City of Rockville, City of Gaithersburg, Prince George's County.

PROJECT DESCRIPTION

This project will design and implement a dedicated lane for Bus Rapid Transit in the median of US 29 between Tech Road and Sligo Creek Parkway to improve travel time and service reliability. The project will also include an additional lane on the ramp from southbound US 29 to westbound I-495 and feasibility assessments for master planned bicycle facilities along US 29 within the project study limits.

LOCATION

Master plans: Silver Spring, North and West Silver Spring, Four Corners, White Oak, White Oak Science Gateway, and Fairland. Route US 29 from Burtonsville to downtown Silver Spring.

ESTIMATED SCHEDULE

Preliminary engineering began in the fourth quarter of FY23 and will be completed in FY25.

PROJECT JUSTIFICATION

This project will complement the investment in US 29 Flash and improve transit travel time, reliability, performance, and person throughput from MD 198 to the Silver Spring Transit Center. These efforts will support master plan non-auto-driver mode share (NADMS) goals. The project supports the following Countywide vision goals: Easier Commutes and a Growing Economy. Approved land use plans in the corridor recommend the implementation of transit lanes along with US 29 Flash. The project is consistent with the Countywide Transit Corridors Functional Master Plan.

FISCAL NOTE

State aid reflects State grants for capital projects in Montgomery County programmed or preauthorized during the 2022 Maryland General Assembly Session. FY24 State Aid of \$3,500,000 was preauthorized in 2022. FY23 supplemental in Impact Tax for the amount of \$4,500,000 and State aid for the amount of \$5,000,000 to advance the project to preliminary engineering.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland Department of Transportation, Washington Metropolitan Area Transit Authority, Maryland-National Capital Park and Planning Commission

PROJECT DESCRIPTION

This project will design and construct a new Bus Rapid Transit (BRT) line on Veirs Mill Road (MD 586) between the Wheaton Metro Station and Montgomery College in Rockville. Planning conducted by the Maryland Department of Transportation State Highway Administration (MDOT SHA) resulted in a recommended alternative in late 2017. The recommended alternative includes queue jumps for use by BRT and other buses at congested intersections along the corridor, new BRT stations with level boarding and off-board payment, Transit Signal Priority, purchase of new, zero-emission BRT buses, and other associated pedestrian and bicycle improvements along the corridor. The study retains curbside dedicated lanes as the long-term BRT alternative for Veirs Mill Road. In addition, MCDOT intends to accelerate the Veirs Mill and Randolph Road BiPPA project to provide expanded pedestrian and bicycle facilities along the corridor. The addition of a shared use path along the north side of Veirs Mill Road, completing sidewalk gaps along the south side, and improving pedestrian crossings along Veirs Mill Road will improve access to Flash stations.

LOCATION

Veirs Mill Road and Hungerford Drive between Wheaton and Rockville

ESTIMATED SCHEDULE

Project planning was completed in FY18 and preliminary engineering was completed in FY22. Final design began in FY23 and will be completed by mid FY25. Property acquisition activities are estimated to begin in FY24 and construction is anticipated to start in FY25. Construction of the transit facilities will be completed in 2027, and completion of the supporting pedestrian and bicycle infrastructure will be completed by 2028. Flash service is scheduled to open in 2027 following completion of transit facilities.

COST CHANGE

Cost increase due to updated cost estimate following 65 percent design milestone. Vehicle costs are updated to reflect actual contract unit costs.

PROJECT JUSTIFICATION

The project will transform mobility options with the implementation of a seven-mile, premium, branded, limited-stop BRT service along Veirs Mill Road. This new service will improve transit travel time and increase opportunity for a broad range of users, including a significant number of minority and low-income riders living along a highly congested corridor. The project will improve passenger transit mobility by connecting riders to high density housing and employment centers. The incorporation of bicycle and pedestrian access and safety improvements will facilitate improved access to stations and improve overall corridor safety.

Plans and Studies: MCDOT Countywide Bus Rapid Transit Study, Final Report (July 2011); County Executive's Transit Task Force (May 2012); Countywide Transit Corridors Functional Master Plan (November 2013); Maryland Department of Transportation/Maryland State Highway Administration MD 586/Veirs Mill Road Draft Corridor Planning Study (September 2016); Veirs Mill Corridor Master Plan (April 2019).

FISCAL NOTE

The County intends to secure federal funding for this project through the Federal Transit Administration's (FTA) Capital Investment Grant (CIG) Small Starts program. The project was accepted into Small Starts in September 2022. Vehicles are excluded from the scope of the CIG project due to cost limits of the CIG Small Starts program. The CIG eligible project is estimated at approximately \$169 million. It is assumed that 80% of the CIG project will be eligible for federal funds. Federal funding assumptions will be fine-tuned once the project is rated and the County enters into a fully funded grant agreement with FTA.

State Aid reflects state grants for capital projects in Montgomery County programmed during the 2022 and 2023 Maryland General Assembly sessions. The State Bus Rapid Transit Fund was created by the MD General Assembly using lottery proceeds, and is available to Maryland to fund eligible BRT projects in Maryland. The funds programmed were made available to Montgomery County in 2023.

Vehicles are being procured using a combination of local County funds, State Aid, and a Low and No Emission (Low-No) federal grant. Federal aid in this project includes funding from the Low-No grant, the remainder of which is programmed in the Hydrogen Fuel Cell Buses and Fueling Site project (P502408).

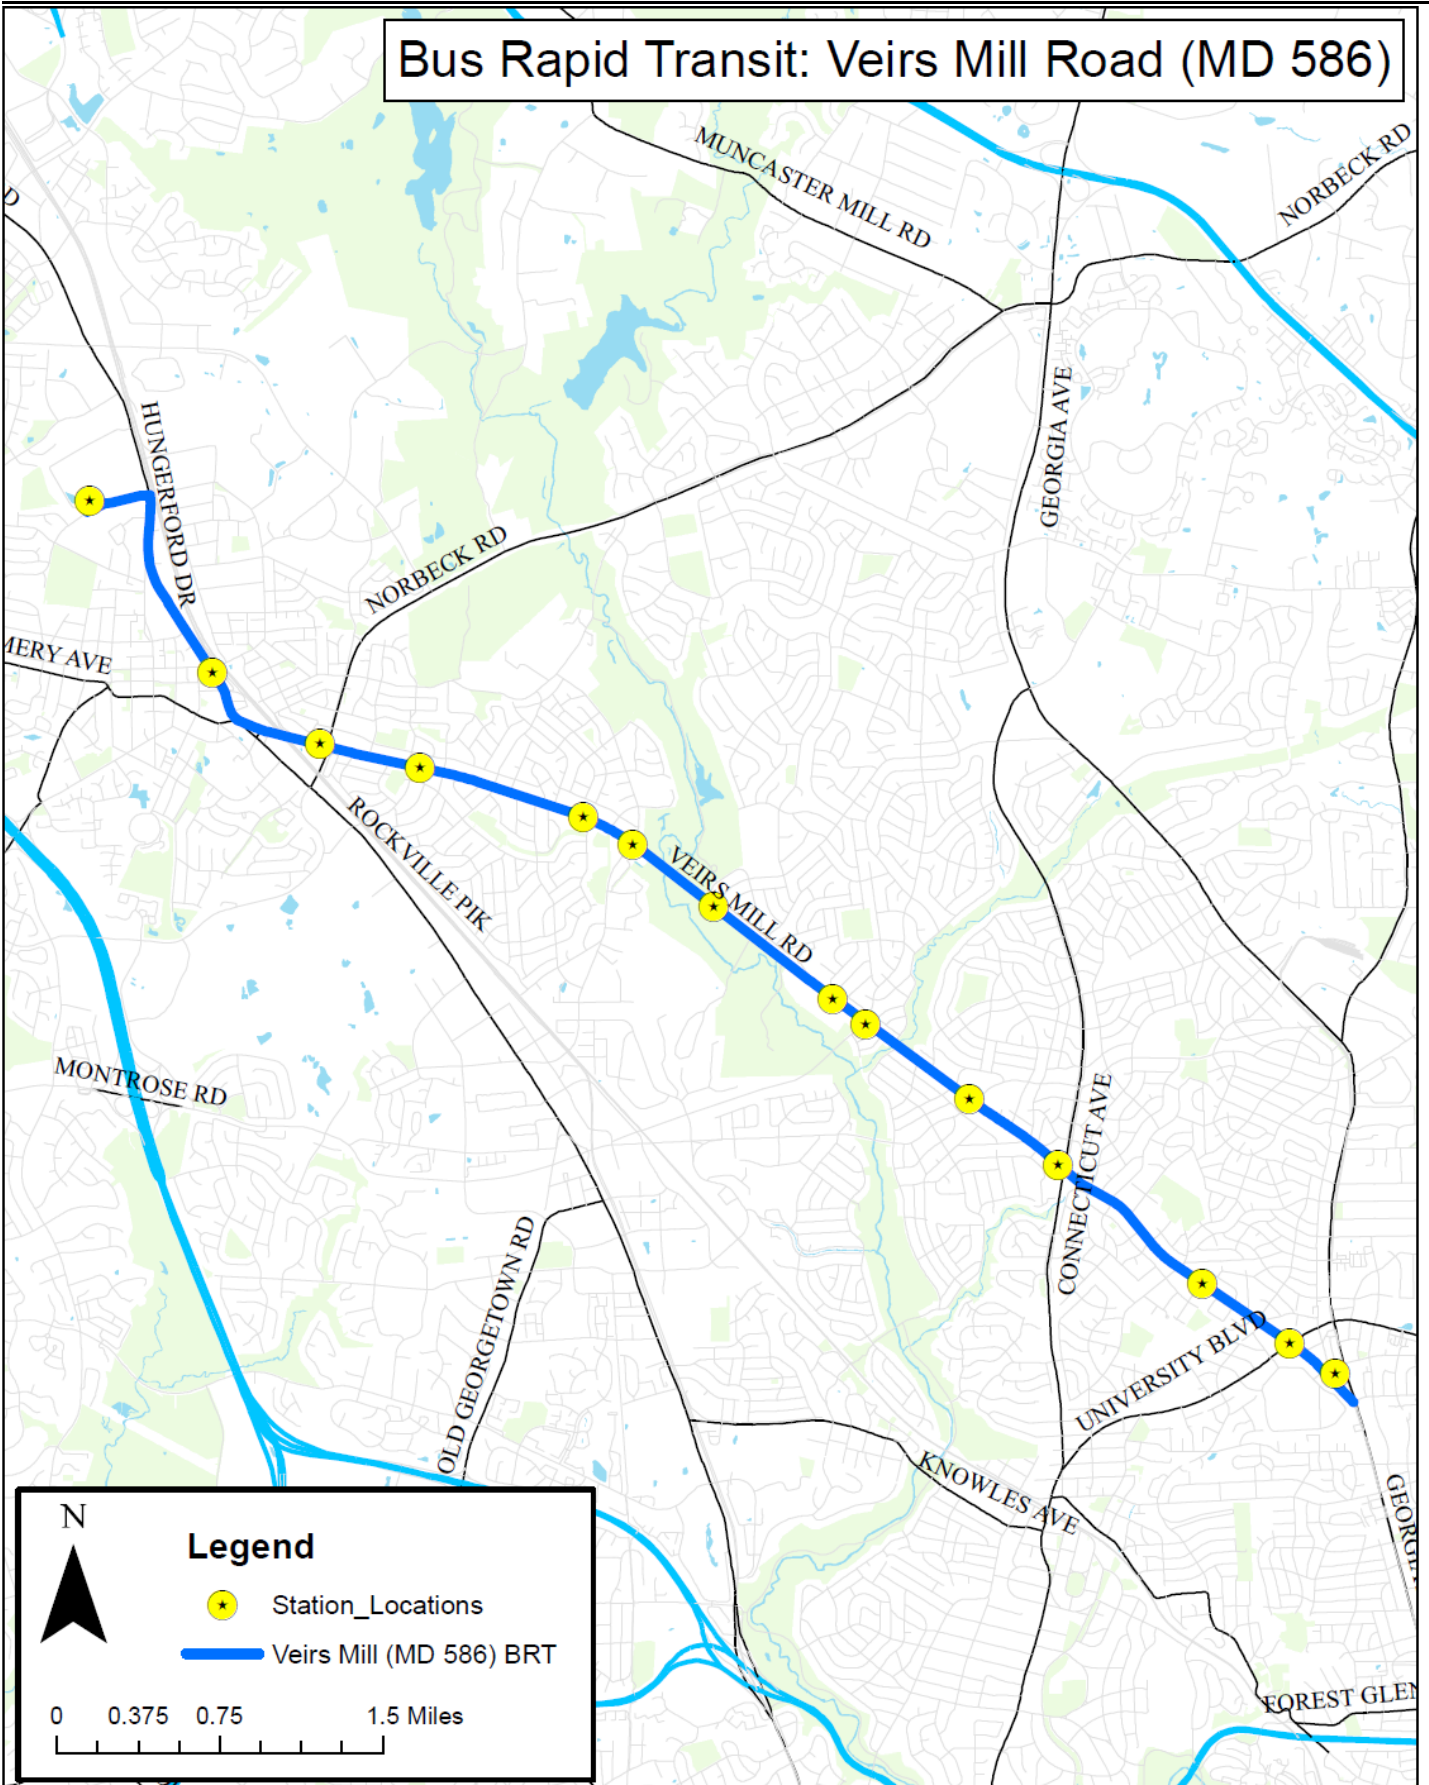

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland Department of Transportation State Highway Administration and Maryland Transit Administration, Washington Metropolitan Area Transit Authority, Maryland-National Capital Park and Planning Commission, City of Rockville, Commission on People with Disabilities, Transit Advisory Group, Neighborhood and Civic Associations, and Veirs Mill Road BRT Corridor Advisory Committee, Federal Transit Administration

Unencumbered Balance	1,218		

PROJECT DESCRIPTION

This project provides for the installation and improvement of capital amenities at bus stops in Montgomery County to make them safer, more accessible and attractive to users, and improve pedestrian safety for County transit passengers. These enhancements can include items such as sidewalk connections, improved pedestrian access, bus shelters, benches, area lighting, paved passenger standing areas, and other safety upgrades. In prior years, bus shelters were provided through an advertising franchise agreement which ended in June 2019. The County was unable to solicit a vendor under similar terms and now has to fund bus shelter replacement and maintenance directly. Therefore this project will now include funding for the installation and replacement of bus shelters and benches along Ride On and County Metrobus routes. Construction began in October 2006. Through FY22, approximately 3,700 stops with 1,333 curb ramps; 422 concrete kneewalls for safety and seating; 89,957 linear feet of sidewalk; and 179,531 linear feet of ADA concrete pads have been modified or installed. However, due to the age of improvements, many need to be reconstructed. Additionally, remaining improvements require property acquisition or easements which were previously deferred due to funding constraints. Lastly, the Ride On Reimagined Study will result in significant bus stop changes that will require rapid upgrades within the right of way to safely accommodate passengers.

COST CHANGE

Cost increase due to the addition of FY29-30, inflation in material and labor costs, and to additional funding to address a backlog of needed improvements.

PROJECT JUSTIFICATION

Many of the County's bus stops have safety, security, or right-of-way deficiencies since they are located on roads which were not originally built to accommodate pedestrians. Problems include: lack of drainage around the site, sidewalk connections, adequate passenger waiting areas or pads, lighting or pedestrian access, and unsafe street crossings to get to the bus stop. This project addresses significant bus stop safety issues to ease access to transit service. Correction of these deficiencies will result in fewer pedestrian accidents related to bus riders, improved accessibility of the system, increased attractiveness of transit as a means of transportation, and greater ridership. Making transit a more viable option than the automobile requires enhanced facilities as well as increased frequency and level of service. Getting riders to the bus and providing an adequate and safe facility to wait for the bus will help to achieve this goal. The County has approximately 5,400 bus stops. The completed inventory and assessment of each bus stop has determined what is needed at each location to render the stop safe and accessible to all transit passengers. In FY05, a contractor developed a GIS-referenced bus stop inventory and condition assessment for all bus stops in the County, criteria to determine which bus stops need improvements, and a prioritized listing of bus stop relocations, improvements, and passenger amenities. The survey and review of bus stop data have been completed and work is on-going.

OTHER

Expenditures will continue indefinitely.

FISCAL NOTE

Funding for this project includes general obligation bonds with debt service financed from the Mass Transit Facilities Fund.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

MCDOT-Highway Services, Civic Associations, Municipalities, Maryland State Highway Administration, Maryland Transit Administration, Washington Metropolitan Area Transit Authority, Commission on Aging, Commission on People with Disabilities, Montgomery County Pedestrian Safety Advisory Committee, Citizen Advisory Boards.

PROJECT DESCRIPTION

This project provides for planning and preliminary engineering design for new and reconstructed mass transit projects under consideration for inclusion in the Capital Improvements Program (CIP). Prior to the establishment of a stand-alone project in the CIP, the Department of Transportation will perform Phase I of facility planning, a rigorous planning-level investigation of the following critical project elements: purpose and need; usage forecasts; traffic operational analysis; community, economic, social, environmental, historic impact analyses; and consideration of the recommended concept design and public feedback. At the end of Phase I, the Transportation, Infrastructure, Energy and Environment (T&E) Committee of the County Council reviews the work and determines if the project has the merits to advance to Phase II of facility planning: preliminary (35 percent level of completion) engineering design. In preliminary engineering design, construction plans are developed to specify detailed features of the project, from which its impacts and costs can be more accurately assessed. At the completion of Phase II, the County Executive and County Council hold project-specific public hearings to determine if the candidate project merits consideration in the CIP as a funded stand-alone project.

ESTIMATED SCHEDULE

The White Oak Transit Center study was completed in FY24, with additional planning and design work to be done in coordination with the planned New Hampshire Avenue BRT project. Planning for Metropolitan Grove Park and Ride will begin in FY28. Other funding in FY25 to FY30 supports small planning studies to assess the feasibility or respond to questions from stakeholders regarding mass transit.

COST CHANGE

Cost increase is due to inflation.

PROJECT JUSTIFICATION

There is a continuing need to define the scope and determine need, benefits, implementation feasibility, horizontal and vertical alignments, typical sections, impacts, community support/opposition, preliminary costs, and alternatives for master-planned mass transit recommendations. This Facility Planning project provides decision makers with reliable information to determine whether a master-planned mass transit facility recommendation merits inclusion in the CIP as a stand-alone project.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland Department of Transportation, Maryland Department of the Environment, Maryland Department of Natural Resources, Washington Metropolitan Area Transit Authority, Department of Permitting Services, Utilities, Municipalities, affected communities, Commission on Aging, Commission on People with Disabilities, Montgomery County Pedestrian Safety Advisory Committee.

PROJECT DESCRIPTION

This project is advancing the planning, design, and implementation of the Great Seneca Transit Network (GSTN). The GSTN is a four route network intended to provide improved transit connections to and around the Life Sciences Center. There are two phases of this overall network; Phase 1 includes implementation of the Pink and Lime routes. Phase 2 includes 2 additional routes (Cobalt and Gray). The project includes new, upgraded transit stations, dedicated bus and bus + bike lanes, transit signal priority, upgrades to transit centers, as well as pedestrian and bicycle improvements. These transit services will provide frequent and reliable connections between Kentlands, Crown Farm, King Farm, the Universities at Shady Grove, Adventist Shady Grove Hospital, Shady Grove Metro Station, Rockville, and other key destinations in support of the Great Seneca Science Corridor Master Plan.

LOCATION

Great Seneca Science Corridor master plan including Shady Grove, King Farm, Falls Grove, Crown Farm, Rio, Kentlands, Adventist Shady Grove Hospital, Universities at Shady Grove, and Rockville

ESTIMATED SCHEDULE

Planning was completed in FY21 in the Bus Rapid Transit: Development CIP project. Preliminary design began in FY22 for Phase 1. Construction of improvements for the Pink line linking Shady Grove Metro Station to the Life Science Center near Shady Grove Hospital and the Lime line using I-370 from Shady Grove Metro Station to Rio, Crown Farm and the heart of the Life Science Center was completed in FY24.

PROJECT JUSTIFICATION

The continued delay of the Corridor Cities Transitway (CCT) has limited the ability for land use plans in the Great Seneca Science Corridor area to be realized. While the CCT is still identified as the long-term transit priority for this area, a vision for enhanced transit improvements has been identified for quicker implementation to help the County achieve its non-auto-driver mode share (NADMS) goals.

FISCAL NOTE

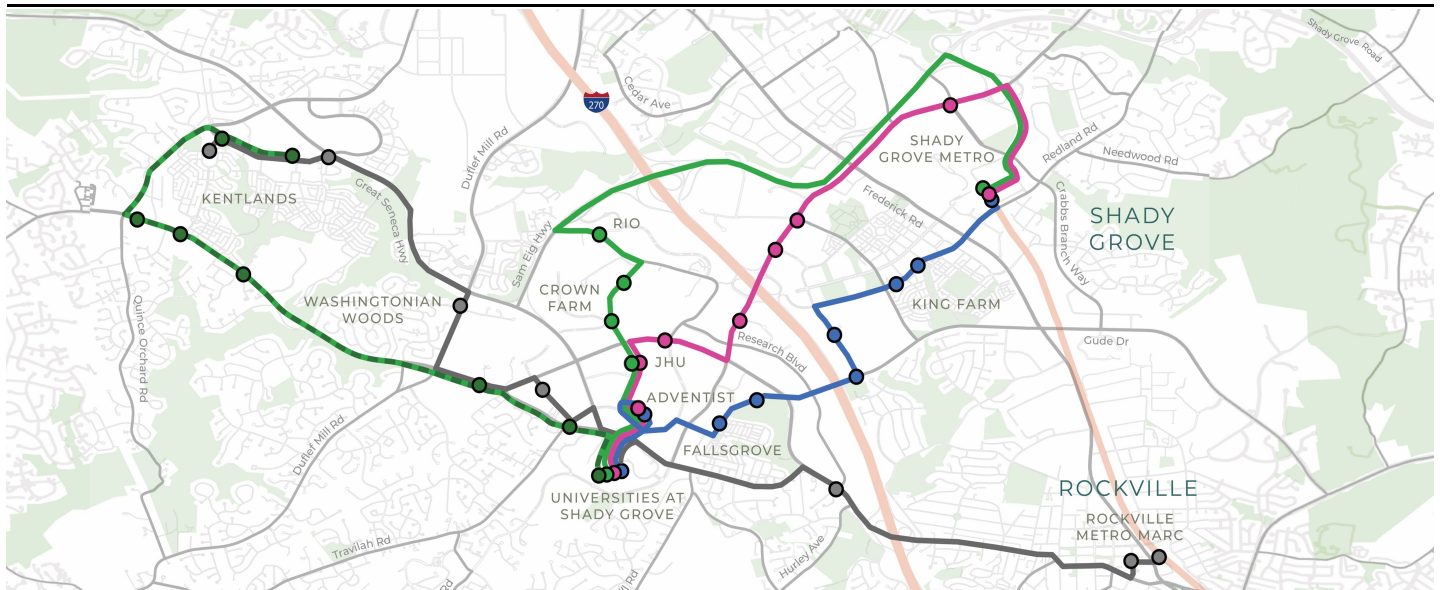

FY23 Impact Tax funding will be available pending a Memorandum of Understanding with the Cities of Gaithersburg and Rockville. State aid in FY23 reflects State grants for capital projects in Montgomery County programmed or preauthorized during the 2022 Maryland General Assembly session and will support the acquisition of 13 buses needed to operate this service.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland Department of Transportation, Washington Metropolitan Area Transit Authority, Maryland-National Capital Park and Planning Commission, City of Gaithersburg, and City of Rockville.

PROJECT DESCRIPTION

This project implements green hydrogen technology in transit for the first time in the State of Maryland. The new hydrogen fuel production and fueling station will operate at the County's David F. Bone Equipment Maintenance and Transit Operations Center (EMTOC) in Gaithersburg. This facility will power the County's first 13 hydrogen fuel cell electric buses (FCEBs), which will be procured as part of the Veirs Mill Road Bus Rapid Transit (BRT) project. The County will partner with industry experts, the Center for Transportation and the Environment (CTE) and Trillium, to implement the project.

ESTIMATED SCHEDULE

Initial planning, including a Program of Requirements, was completed as part of the County's Zero Emissions Transition Plan in FY23. Preliminary design will begin in FY24 and the facility will be completed in FY26.

COST CHANGE

Cost decrease due to shifting funding for hydrogen buses to Bus Rapid Transit: Veirs Mill Road (P501913).

PROJECT JUSTIFICATION

This project will reduce carbon emissions, increase the reliability and sustainability of the bus fleet, and is an essential step in the transition to a zero-emissions fleet to reach the goals in the County's Climate Action Plan. The new hydrogen fuel production facility will produce hydrogen fuel that is greener than traditional fossil fuel-based hydrogen, as the fuel will be produced from water using zero-emission electrolysis. Similarly, fuel cell electric buses can provide uninterrupted service on bus routes that have a standard daily range of over 150 miles, which is beyond the maximum range currently allowed by zero-emission battery-electric buses.

OTHER

Electricity needed to produce hydrogen fuel at this facility will be generated by a solar microgrid to be constructed at the David F. Bone Equipment Maintenance and Transit Operations Center.

FISCAL NOTE

Funding for this project includes a Low or No Emission Grant from the Federal Transit Administration, appropriated via an FY24 supplemental in Federal Aid for the amount of \$14,875,975. In FY25, grant funding in this project was shifted to Bus Rapid Transit: Veirs Mill Road (P501913) to reflect funds from this grant and the county's required match to be used to purchase fuel cell electric buses for the new BRT service.

COORDINATION

Federal Transit Administration, Department of General Services, Department of Finance, Department of Permitting Services, Utility Companies, Industry Expert

PROJECT DESCRIPTION

The purpose of this project is to replace vital transit technology systems, enhance system accountability, and maintain electronic information signs throughout the County. This is part of the Division of Transit Services IT plan to maintain and expand our intelligent transit systems for compatibility, accountability, and safety.

ESTIMATED SCHEDULE

Enhancement of the Computer Aided Dispatch/Automatic Vehicle Location system and maintenance and upgrades of Real Time informational signs and other systems in FY24-30.

COST CHANGE

Cost increase due to addition of FY29-30 and additional funding for the replacement of outdated CAD/AVL system routers.

PROJECT JUSTIFICATION

The Computer Aided Dispatch/Automatic Vehicle Location system is a key operational management tool which is critical to providing real time schedules of bus arrivals and departures to our customers at each station on all routes. These tools also assist our central dispatch staff in their effort identify the location of each bus and successfully communicate with the operators when any incidents occur, such as accidents, road closures, or safety issues and events that may require the presence of fire rescue, EMS, and/or police.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of Technology and Enterprise Business Solutions, Washington Metropolitan Area Transit Authority, and regional local transit operators.

PROJECT DESCRIPTION

This project will provide for planning, design and construction of a new transit bus depot to support growth of the Ride On bus fleet and the County's ongoing transition to a zero emissions fleet. The new depot will accommodate up to 255 buses, and include capabilities for bus maintenance and repair, washing, vaulting, charging/fueling, storage and employee parking. Design and construction may proceed utilizing a phased approach.

ESTIMATED SCHEDULE

Initial planning, including a Program of Requirements, was completed in FY23 as part of the County's Zero Emissions Bus Transition Plan. Preliminary concept planning and community outreach will occur in FY24. Environmental assessment will start in FY24.

COST CHANGE

Cost increase to add funding for community outreach, concept development, and preliminary design.

PROJECT JUSTIFICATION

Ride On is experiencing significant fleet growth due to the introduction of Flex, Extra and Bus Rapid Transit (Flash) services. The Nicholson Court bus depot is in the last 5-year term of a multiyear lease, which expires in 2027. Extending the lease is not an option as the current site cannot accommodate projected fleet growth, nor can the facility accommodate the maintenance and refueling infrastructure necessary to meet the County's commitment to a zero emission bus fleet.

OTHER

Planning funds in this project are programmed in conjunction with planning funds in the MCPS Bus Depot and Maintenance Relocation project (CIP No. 360903). Planning funds in these projects support community engagement, project scoping, and preliminary design for a shared use transit facility, central maintenance, and associated bus parking for Montgomery County Public Schools school buses and Ride-On transit buses. The shared facility is planned to be built on a portion of the Jeremiah Park parcel on Crabbs Branch Way in Derwood.

The Department of General Services will provide monthly written progress reports to the Chairs of the Transportation and Environment and Education and Culture Committees. In addition to this shared use facility, other locations for bus parking and operations will need to be identified to fully house expanded operations of both fleets in the future.

FISCAL NOTE

Federal funding for a portion of the cost may be available.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

PROJECT DESCRIPTION

This project provides for the County's contribution to the north entrance to the North Bethesda Metro Station (formerly known as the White Flint Metro Station). Access is currently limited to the southern end of the platform. Metro has conducted a feasibility study of providing additional access at the northern end of the platform, including potential pedestrian underpass connections of MD 355 (Rockville Pike). Construction of northern access to the station will reduce walk times to the Metro Platform. If included, the pedestrian underpasses would reduce conflicts with motor vehicle traffic at the intersection of Old Georgetown Road and MD 355. The scope, schedule, and budget will be revised once WMATA selects a development partner in FY24.

LOCATION

MD355 (Rockville Pike) at Old Georgetown Road/North Bethesda Metro Station.

ESTIMATED SCHEDULE

WMATA is seeking a development partner and will issue a request for proposals in FY24. It is expected that WMATA will select a development partner and initiate design in FY24, and will be ready to commence construction in FY26.

PROJECT JUSTIFICATION

This project is needed to improve mobility and safety for all facility users within the project area by reducing walking distances and times to the Metro station platforms. The project may also reduce existing conflicts between pedestrians and vehicles. Currently, transit users, pedestrians, and bicyclists cross MD 355 (Rockville Pike) and Old Georgetown Road to access the Metro station. If the underpasses are included, this project reduces the need for at-grade pedestrian crossings. Traffic volumes and speeds on MD 355 can be high and pedestrians must cross over seven lanes of traffic.

FISCAL NOTE

The total cost estimated in WMATA's 2019 feasibility study was approximately \$34.8 million, not including the underpass. The County's contribution will be revised once WMATA updates its cost estimate. The remaining funds will be solicited from WMATA, Maryland Department of Transportation, and developer contributions. State aid of \$12.6 million dollars was awarded to WMATA during the 2023 Maryland General Assembly session (\$2.6 million in FY24 and \$10 million pre-authorized in FY25). It is assumed that this State funding will be used to advance the project beginning in FY24.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland State Highway Administration, Washington Metropolitan Area Transit Authority

PROJECT DESCRIPTION

This project provides funding for County coordination and oversight of the Purple Line project, including the three County-funded projects [Capital Crescent Trail (P501316), Bethesda Metro South Entrance (P500929), and Silver Spring Green Trail (P509975)] that are being included with the construction of the Purple Line. The Purple Line is a 16-mile light rail line being constructed by the Maryland Transit Administration (MTA) between Bethesda Metrorail station in Montgomery County and New Carrollton Metrorail station in Prince George's County. The project will include the construction of 21 light rail stations, 10 of which are located in Montgomery County. The Purple Line, which is estimated to serve more than 65,000 daily riders, will operate both in its own right-of-way and in mixed traffic and provides a critical east-west connection linking Montgomery and Prince George's Counties. The new rail line will result in many benefits, including faster and more reliable service for the region's east-west travel market, improved connectivity and access to existing and planned activity centers, increased service for transit-dependent populations, traffic congestion relief, and economic development, including Transit-oriented development, along the corridor. The project is being bid out by the State as a Public-Private Partnership (PPP), with a selected concessionaire responsible for final design and construction of the project, as well as the system operation and maintenance for the first 30 years of service. The County's role in the project is defined in a Memorandum of Agreement between the Maryland Transit Administration (MTA) and the County.

ESTIMATED SCHEDULE

MTA reached an agreement with a concessionaire in 2016. Final design began during spring/summer 2016 and construction began in 2017. The design-builder and the concessionaire filed claims to terminate the contract in 2020. A settlement agreement was reached; this resulted in the design-builder, also a member firm of the concessionaire, leaving the project. The concessionaire and the MTA have selected a new entity to complete the construction. The project is expected to be open for revenue service in spring 2027.

COST CHANGE

Cost increase for additional project management and supervision to align with MTA's revised the completion date.

PROJECT JUSTIFICATION

Montgomery County supports the Purple Line project due to its economic and mobility benefits. As with any large infrastructure project, significant impacts to the community - on both residents and businesses along the corridor - are anticipated during the construction period. MTA has plans for a robust public engagement effort during design and construction; nevertheless, the County has embarked on its own community engagement effort through the Purple Line Implementation Advisory Group (PLIAG) and expects to be actively engaged with the community throughout the various project stages. The County will also be required to provide technical review and oversight of both the County-funded projects and the overall Purple Line project to ensure that they are in keeping with County standards.

OTHER

Certain County properties will be impacted by the construction of the Purple Line. To facilitate the construction and long term maintenance of the system, certain County properties will need to be transferred to MTA, in part or in entirety. Properties include (address and tax account identification number): 8710 Brookville Road (971041), Brookville Road (983094), 8717 Brookville Road (972728), 1160 Bonifant Street (1043367), 1114 Bonifant Street (1045696), 1170 Bonifant Street (1046100), 734 E University Boulevard - for roadway widening and utility relocation (975345), 734 E University Boulevard - for use as parkland mitigation agreement with M-NCPPC (975345), vicinity of 25 East Wayne.

FISCAL NOTE

FY17 supplemental appropriation for \$8,000,000 in Recordation Tax Premium required per a Memorandum of Understanding with Carr properties. This will facilitate development of the Apex Building to provide an improved Bethesda Purple Line Station that includes a more prominent entrance and wider platform, thereby improving ADA accessibility and eliminating the need for patrons to cross the tracks, and an easement and tunnel under the building for the future underground segment of the Capital Crescent Trail, enhancing safety and user experience. FY18 funding switch of \$367,000 between GO Bonds and Impact Tax. FY23 funding switch of \$10,000,000 from GO Bonds to GO Bond Premium.

COORDINATION

Maryland Transit Administration, Maryland Department of Transportation, Washington Metropolitan Area Transit Authority, State Highway Administration, Office of the County Executive, Maryland-National Capital Park and Planning Commission, Bethesda Bikeway and Pedestrian Facilities, CSX Transportation, Purple Line NOW, Coalition for the Capital Crescent Trail, Department of General Services, Department of Permitting Services, Silver Spring Transportation Management District, Bethesda Transportation Management District, Silver Spring Chamber of Commerce, Bethesda Chamber of Commerce

Appropriation FY 25 Request	(1,225)	Year First Appropriation	FY09
Appropriation FY 26 Request	100	Last FY's Cost Estimate	422,233
Cumulative Appropriation	307,083		
Expenditure / Encumbrances	224,845		
Unencumbered Balance	82,238		

PROJECT DESCRIPTION

This project provides for the purchase of replacement and additional buses in the Ride On fleet in accordance with the Division of Transit Services' bus replacement plan and the Federal Transportation Administration's service guidelines.

ESTIMATED SCHEDULE

The funding schedule provides for the replacement of 182 heavy transit buses in FY25-30. All buses will be replaced with zero-emissions models with the goal of transitioning to a 100% zero-emission fleet.

COST CHANGE

The cost increase is due to the addition of FY29-30, higher prices for zero-emission buses in the bus replacement plan, and added funding for project planning and supervision. Decreased cost in FY24 reflects Current Revenue shifted from this project to Bus Rapid Transit: Veirs Mill Road (P501913).

PROJECT JUSTIFICATION

The full-size transit buses have an expected useful life of twelve years. Smaller buses have an expected useful life of ten years. Microtransit buses have an expected life of four years.

OTHER

MCDOT will continue to apply for grants to cover the cost of additional zero emission buses and associated infrastructure. By deploying zero emission buses in lieu of clean diesel and natural gas buses, Ride On will reduce harmful emissions of greenhouse gases associated with its fleet.

Ride On, through its commitment to have all future purchases zero-emission buses, is exceeding standards compared to most other transit agencies. For example, California, considered a leader in zero bus emissions implementation, enacted a regulation that will require all large transit agencies to include at least 25 percent zero emission buses in their new bus purchases beginning in 2023. In 2026, the California regulation requires that 50 percent of the total number of new buses purchased by large transit agencies must buy zero-emission buses.

Planned bus procurements assume that complimentary and required maintenance and charging/fueling infrastructure projects will be in place as needed. Planning for the development and further implementation of these projects will be funded primarily through this CIP. Due to infrastructure constraints, 61 small diesel buses are being refurbished to extend their service lives and delay replacement until zero-emission charging/fueling infrastructure plans are developed for all depots.

FISCAL NOTE

FY24 supplemental in Current Revenue: Mass Transit for the amount of \$42,024,000, Federal aid for the amount of \$3,200,000, State aid for the amount of \$800,000.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of General Services, Maryland Transit Administration

PROJECT DESCRIPTION

This project provides for the purchase and replacement of fare collection equipment including vaults, bins, fareboxes, and validators for buses in the Ride On fleet. Farebox replacements under this project are in addition to those acquired and installed through bus fleet replacement and bus fleet expansion and are in accordance with the Federal Transportation Administration's guidelines.

ESTIMATED SCHEDULE

FY25 funding provides for four vaults, eight bins and 60 fareboxes. FY26 funds replacement of 85 fareboxes and 74 fareboxes will be replaced in FY27.

COST CHANGE

Cost increase provides for farebox replacements in FY25 through FY27.

PROJECT JUSTIFICATION

MCDOT Ride On, Ride On Extra, and Ride On Flex buses have fareboxes that are old and at end of life and need to be replaced. New depot fare collection equipment (e.g. vaults, bins) will also need to be ordered. The new fareboxes will allow customers to pay fares as they do today. Fareboxes need to be replaced in fiscal years 2025 through 2027 based upon the planned replacement schedule.

PROJECT DESCRIPTION

To meet changing safety and security surveillance needs, Montgomery County Department of Transportation (MCDOT), Montgomery County Police Department (MCPD) and County Security recommends the installation of additional cameras within the 9 MCDOT parking garages to include coverage of all stairwells, lobbies, decks, rooftops and all pedestrian and vehicular entrances/exits to the garage. This will require the use of additional camera types such as 360-degree field of view cameras for parking deck coverage, 180-degree field of view cameras for rooftop coverage and License Plate Recognition (LPR) cameras at entrances and exits. This project will fund security installation in the Bethesda Parking Lot District.

MCDOT will conduct a security audit through the County's contracted parking consultation service to ensure that phasing is in line with best industry and safety/security practices. The MCDOT phasing of the enhancement of electronic security measures into the existing garage surveillance system will be spread out over a 7-year plan. This will phase installation and upgrades to focus on high-incident, high-traffic areas and to deter criminal and behavioral issues.

LOCATION

Bethesda Parking Lot District, Maryland

ESTIMATED SCHEDULE

In the first two years, this plan will prioritize placement of LPR cameras and 1st Floor stair landings in all locations as well as placing improved network and facility infrastructure to support future enhancements. In phase II, installations on the highest occupancy decks and garages, elevator car and further stair landings, followed by low occupancy but high vagrancy decks and roofs and lastly, any remaining areas that may need improved coverage. In the final year of the plan, the existing 150 cameras that are at or beyond useful life will be upgraded.

PROJECT JUSTIFICATION

Parking Lot districts (PLDs) have camera surveillance equipment that records 24 hours a day, 7 days a week, and 365 days a year. The original purpose of installing the camera surveillance system that includes 290 cameras, was to protect County property. These camera systems are focused primarily on the pedestrian and vehicular access points, ground level elevator lobbies and payment stations located within the parking garages.

Over the past few years there has been an increase in security incidents reported by MCDOT's contracted security patrol officers and increased requests for video footage from Montgomery County Police Department (MCPD) to investigate criminal incidents that have occurred in parking garages. The number of MCPD cases supported by video footage obtained from MCDOT parking garages has increased 115% over two years.

Additionally, camera surveillance equipment and systems in many parking garages are aging and are beyond useful life, resulting in increased repair, replacement, and general maintenance costs. The majority of the 290 cameras currently installed in PLD garages are older analog and/or IP cameras, with an image quality range that is limited to between 1.3 - 4 megapixels. These cameras operate on a legacy ViconNet and Valerus software system that is connected and accessible only on the County fibernet.

It is anticipated that newer cameras will have enhanced features such as expanded fields of view, increased storage, cloud-based access to cameras, remote access from any browser or device, automatic security and software updates, person of interest and motion sensing alerts, and vehicle and people analytics, which make it easier and less time-consuming to identify relevant incidents and download video.

MCDOT projects that enhancing the existing surveillance system to extend coverage into these areas in the Bethesda PLD would require approximately 206 additional cameras to include coverage of every stairwell landing and elevator lobby, 120 deck cameras, 20LPR cameras for entrances and exits, and upgrading the existing 124 cameras that are at or beyond useful life.

FISCAL NOTE

FY24 supplemental in Current Revenue: General for the amount of \$2,008,000.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely.

COORDINATION

Bethesda Parking Lot District, Montgomery County Police Department, County Security.

PROJECT DESCRIPTION

This project provides for parking facility planning studies for a variety of projects under consideration for possible inclusion in the CIP. Facility planning serves as a transition stage for a project between the master plan or conceptual stage and its inclusion as a stand-alone project in the CIP. Prior to the establishment of a stand-alone project, the Department of Transportation (DOT) will develop a Parking Facility Project Requirement (PFPR) that outlines the general and specific features required for the project. Facility planning is a decision-making process to determine the purpose, need and feasibility of a candidate project through a rigorous investigation of the following critical project elements: usage forecasts; economic, social, environmental, and historic impact analysis; public participation; investigation of non-County sources of funding; and detailed project cost estimates. Facility planning represents feasibility analysis, planning and preliminary design and develops a PFPR in advance of full programming of a project in the CIP. Depending upon results of a facility planning determination of purpose and need, a project may or may not proceed to construction. For a full description of the facility planning process, see the CIP Planning Section.

LOCATION

Bethesda Parking Lot District.

COST CHANGE

FY29 and FY30 added to this Level of Effort project.

PROJECT JUSTIFICATION

There is a continuing need to study and evaluate the public and private parking supply and demand in order to ensure an adequate amount of parking. The timing and magnitude of such studies is usually dictated by the interests of private developers. Facility planning costs for projects which ultimately become stand-alone projects are included here. These costs will not be reflected in the resulting individual project.

OTHER

Projects are generated by staff, Maryland-National Capital Park and Planning Commission (M-NCPPC), public agencies, citizens, developers, etc. Analysis conducted under this project may be accomplished by consultants or in-house staff, with the cooperation of M-NCPPC, other County agencies, Washington Metropolitan Area Transit Authority (WMATA), or private development interests. The MNCPPC re-evaluation of Bethesda Zoning and Development Potential along with announcements of major corporate headquarters relocation to Bethesda is adding to the level of analysis that is required in this District.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

M-NCPPC, WMATA, Parking Bethesda Facility Renovations, Bethesda CBD Sector Plan, and Developers.

Appropriation FY 26 Request	7,459	Last FY's Cost Estimate	10,293
Cumulative Appropriation	1,766		
Expenditure / Encumbrances	-		
Unencumbered Balance	1,766		

PROJECT DESCRIPTION

The project is a part of the redevelopment of the historic property known as the Farm Women's Market which will include Lot 24, and Lot 10. This redevelopment will renovate the existing Farm Women's Market and include the construction of new homes, retail space, outdoor park space, and an underground parking garage. The Parking Lot District will purchase the garage from the developer with milestone payments made during construction of the garage.

LOCATION

4601 Leland Street, Chevy Chase, MD 20815

ESTIMATED SCHEDULE

Depending on the development approval process, the current proposed plan has preliminary design completion in FY25 with a construction completion in FY26.

COST CHANGE

Project cost updated to reflect the removal of intergovernmental funding.

PROJECT JUSTIFICATION

The Farm Women's market and the area adjacent (including Lot 24 and Lot 10) have been underutilized and the redevelopment would reposition the market and the surrounding areas as a 'destination' for visitors. It would also provide needed housing and green space to be used by the community. The purchase of the underground parking garage would allow the PLD the ability to provide adequate spaces for visitors and residents to use in this newly developed area.

FISCAL NOTE

In addition to the developer and Town of Chevy Chase (TOCC), DOT is coordinating with M-NCPPC (872302) for redevelopment of Lots 10 and 24 which will result in an underground parking garage and outdoor space. The following funding plan is contingent upon executed agreements with the developer and TOCC as well as Council approval of related property disposition actions. The underlying expenditure schedule assumes the County purchases the underground garage from the developer. The total purchase price for the DOT portion of the project is estimated to be \$18.268 million. The expenditure schedule reflects the balance of the purchase price after the cost contributions from the fair market value of the density of Lot 10 and 24 in the amount of \$7 million as well as cost contributions from the developer of \$975,000. The County Executive exempts the 25% Housing Fund Initiative Fund contribution based on Section 11B-45(f) of the County Code. The purchase of the underground public parking garage using the sales proceeds from Lots 24 and 10 meets the waiver criteria under Section 11-45(f) of the County Code because the sales proceeds from Lots 24 and 10 will be used for a related purchase of real property - replacement parking for the parking lost on Lots 24 and 10. FY23 supplemental in G.O. Bonds for the amount of \$400,000. Project cost updated to reflect the removal of intergovernmental funding, instead contributions from the TOCC in the amount of \$1,068,000 will be paid directly to the Developer in support of this project. Additional appropriation will be requested once an agreement has been reached with the Developer.

PROJECT DESCRIPTION

This project provides for the renovation of or improvements to Bethesda parking facilities. This is a continuing program of contractual improvements or renovations, with changing priorities depending upon the type of deterioration and corrections required, that will protect or improve the physical infrastructure to assure safe and reliable parking facilities and to preserve the County's investment. The scope of this project will vary depending on the results of studies conducted under the Facility Planning Parking project. Included are annual consultant services to provide investigation, analysis, recommended repair methods, contract documents, inspection, and testing, if required.

LOCATION

Bethesda Parking Lot District.

COST CHANGE

Cost change reflects ability to afford additional facility investments and the inclusion of FY29 and FY30 to this level of effort project.

PROJECT JUSTIFICATION

Staff inspection and condition surveys by County inspectors and consultants indicate that facilities in the Bethesda Parking Lot District (PLD) are in need of rehabilitation and repair work. Not performing this restoration work within the time and scope specified may result in serious structural integrity problems to the subject parking facilities as well as possible public safety hazards.

OTHER

Major sub-projects within this ongoing effort are as follows:

- Repair the sinkhole and ramp spalling at Garage 35 Woodmont/Rugby.
- Waterproofing, drainage repair, concrete repair, and Paystation improvements at Garage 49 Metropolitan.
- Address flooding, storm and sanitary valve replacement, and concrete facade at Garage 11, Woodmont Corner.
- Maintenance program for FY25 will include repairs, painting/stripping, and cost-effective strategies to enhance security.

DISCLOSURES

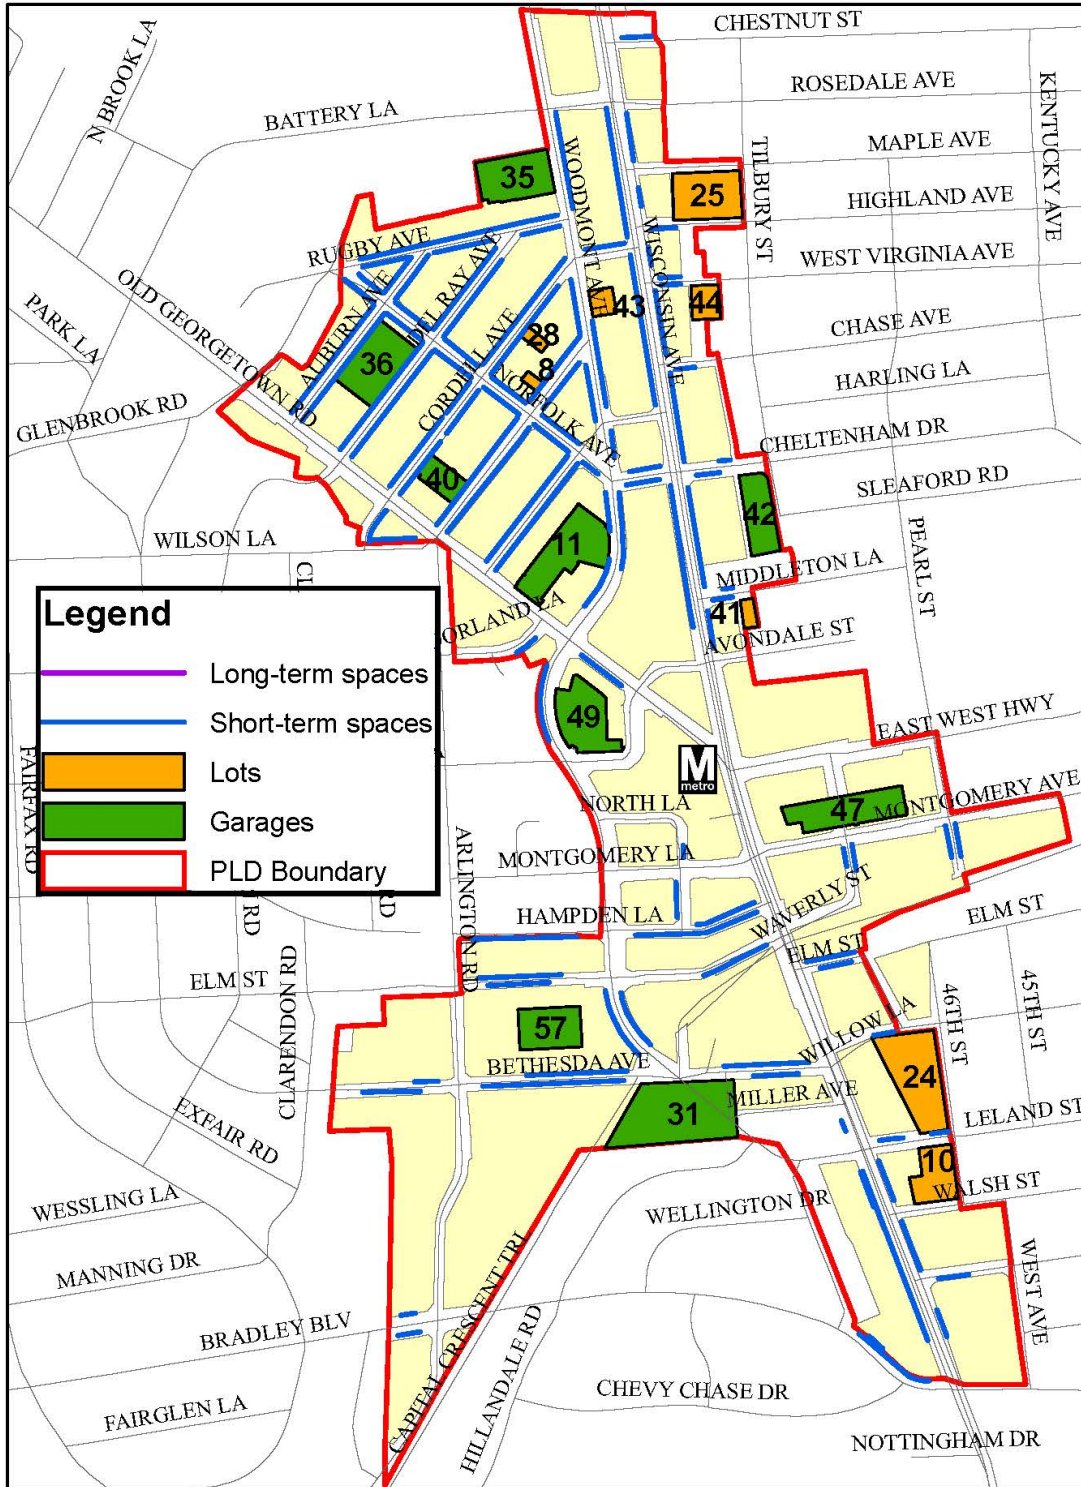

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project provides for the restoration of, or improvements to, Silver Spring parking facilities to address deterioration due to use and age. This is a continuing program of contractual improvements or restorations, with changing priorities depending upon the types of deterioration and corrections required. Corrective measures are required to ensure adequate and proper serviceability over the design life of the facilities and to preserve the County's investment. The scope of this project may vary depending on the results of the studies conducted under facility planning. The project will protect or improve the physical infrastructure to assure continuation of safe and reliable parking facilities. Included are annual consultant services to provide investigation, analysis, recommend repair methods, contract documents, inspection, and testing, if required.

LOCATION

Silver Spring Parking Lot District.

COST CHANGE

FY29 and FY30 added to this Level of Effort project.

PROJECT JUSTIFICATION

PROJECT DESCRIPTION

This project provides for the restoration of, or improvements to, Wheaton parking facilities to address deterioration due to use and age. This is a continuing program of contractual improvements or restorations, with changing priorities depending upon the types of deterioration and corrections required. Corrective measures are required to ensure adequate and proper serviceability over the design life of the facilities and to preserve the County's investment. The scope of this project may vary depending on the results of the studies conducted under Facility Planning: Parking.

LOCATION

Wheaton Parking Lot District, Maryland.

COST CHANGE

FY29 and FY30 added to this Level of Effort project.

PROJECT JUSTIFICATION

Staff inspection and condition surveys by County inspectors and consultants indicate that facilities at the Wheaton Parking Lot District (PLD) are in need of rehabilitation and repair work. Not performing this restoration work within the time and scope specified may result in serious structural integrity problems to the subject parking facilities as well as possible public safety hazards.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Facility Planning Parking: Wheaton PLD.

PROJECT DESCRIPTION

To meet changing safety and security surveillance needs, Montgomery County Department of Transportation (MCDOT), Montgomery County Police Department (MCPD) and County Security recommend the installation of additional cameras within the 10 MCDOT parking garages to include coverage of all stairwells, lobbies, decks, rooftops and all pedestrian and vehicular entrances/exits to the garage. This will require the use of additional camera types such as 360-degree field of view cameras for parking deck coverage, 180-degree field of view cameras for rooftop coverage and License Plate Recognition (LPR) cameras at entrances and exits. This project will fund security installation in the Silver Spring Parking Lot District.

MCDOT will conduct a security audit through the County's contracted parking consultation service to ensure that phasing is in line with best industry and safety/security practices. The MCDOT phasing of the enhancement of electronic security measures into the existing garage surveillance system will be spread out over a 7-year plan. This will phase installation and upgrades with a focus on high-incident, high-traffic areas and to deter criminal and behavioral issues.

LOCATION

Silver Spring Parking Lot District, Maryland

ESTIMATED SCHEDULE

In the first two years, this plan will prioritize placement of LPR cameras and 1st Floor stair landings in all locations as well as placing improved network and facility infrastructure to support future enhancements. In phase II, installations on the highest occupancy decks and garages, elevator car and further stair landings, followed by low occupancy but high vagrancy decks and roofs and lastly, any remaining areas that may need improved coverage. In the final year of the plan, the existing 150 cameras that are at or beyond useful life will be upgraded.

PROJECT JUSTIFICATION

Parking Lot districts (PLDs) have camera surveillance equipment that records 24 hours a day, 7 days a week, and 365 days a year. The original purpose of installing the camera surveillance system that includes 290 cameras, was to protect County property. These camera systems are focused primarily on the pedestrian and vehicular access points, ground level elevator lobbies and payment stations located within the parking garages.

Over the past few years there has been an increase in security incidents reported by MCDOT's contracted security patrol officers and increased requests for video footage from Montgomery County Police Department (MCPD) to investigate criminal incidents that have occurred in parking garages. The number of MCPD cases supported by video footage obtained from MCDOT parking garages has increased 115% over two years.

Additionally, camera surveillance equipment and systems in many parking garages are aging and are beyond useful life, resulting in increased repair, replacement, and general maintenance costs. The majority of the 290 cameras currently installed in PLD garages are older analog and/or IP cameras, with an image quality range that is limited to between 1.3 - 4 megapixels. These cameras operate on a legacy ViconNet and Valerus software system that is connected and accessible only on the County fibernet.

It is anticipated that newer cameras will have enhanced features such as expanded fields of view, increased storage, cloud-based access to cameras, remote access from any browser or device, automatic security and software updates, person of interest and motion sensing alerts, and vehicle and people analytics, which make it easier and less time-consuming to identify relevant incidents and download video.

MCDOT projects that enhancing the existing surveillance system to extend coverage into these areas in the Silver Spring PLD would require approximately 286 additional cameras to include coverage of every stairwell landing and elevator lobby, 120 deck cameras, 23 LPR cameras for entrances and exits, and upgrading the existing 150 cameras that are at or beyond useful life.

FISCAL NOTE

FY24 supplemental in Current Revenue: General for the amount of \$2,418,000.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely.

PROJECT DESCRIPTION

To meet changing safety and security surveillance needs, Montgomery County Department of Transportation (MCDOT), Montgomery County Police Department (MCPD) and County Security recommends the installation of additional cameras within the 3 MCDOT parking garages to include coverage of all stairwells, lobbies, decks, rooftops and all pedestrian and vehicular entrances/exits to the garage. This will require the use of additional camera types such as 360-degree field of view cameras for parking deck coverage, 180-degree field of view cameras for rooftop coverage and License Plate Recognition (LPR) cameras at entrances and exits. This project will fund security installation in the Wheaton Parking Lot District.

MCDOT will conduct a security audit through the County's contracted parking consultation service to ensure that phasing is in line with best industry and safety/security practices. The MCDOT phasing of the enhancement of electronic security measures into the existing garage surveillance system will be spread out over a 7-year plan. This will phase installation and upgrades to focus on high-incident, high-traffic areas and to deter criminal and behavioral issues.

PROJECT DESCRIPTION

This project provides for both curb ramps for sidewalks and new transportation accessibility construction in compliance with the requirements of the Americans with Disabilities Act of 1991 (ADA). This improvement program provides for planning, design, and reconstruction of existing Countywide infrastructure to enable obstruction-free access to public facilities, public transportation, Central Business Districts (CBDs), health facilities, shopping centers, and recreation. Curb ramp installation at intersections along residential roads will be constructed based on population density. Funds are provided for the removal of barriers to wheelchair users such as signs, poles, and fences, and for intersection improvements such as the reconstruction of median breaks and new curb ramps, crosswalks, and sidewalk connectors to bus stops. Curb ramps are needed to enable mobility for physically-impaired citizens, for the on-call transit program Accessible Ride On, and for County-owned and leased facilities. A portion of this project will support the Renew Montgomery program. One aspect of this project will focus on improving pedestrian walkability by creating a safer walking environment, utilizing selected engineering technologies, and ensuring ADA compliance.

COST CHANGE

Cost increase due to inflation in FY25-28. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

Areas served by Metrorail and other densely populated areas have existing infrastructure which was constructed without adequate consideration of the specialized needs of persons with disabilities or impaired mobility. This project improves access to public facilities and services throughout the County in compliance with ADA.

OTHER

The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero by 2030.

FISCAL NOTE

Additional funds earmarked from developers (\$150k per year in FY21-FY22).

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely.

COORDINATION

Maryland Department of Transportation, Washington Metropolitan Area Transit Authority, Department of Housing and Community Affairs, Department of Health and Human Services, Commission on People with Disabilities, Pedestrian Safety Advisory Committee, Commission on Aging, Maryland State Highway Administration, MARC Rail, Sidewalk and Infrastructure Revitalization Project, Sidewalk Program - Minor Projects, U.S. Department of Justice, BIPPA

PROJECT DESCRIPTION

This project includes construction of separated bike facilities on several roadways in downtown Bethesda as planned in the 2017 Bethesda Downtown Plan and the 2018 Bicycle Master Plan. Included is the Capital Crescent Surface Trail Phase 1; the Woodmont Avenue Cycletrack Phases 1, 2A, 2B, and 2C ; the Montgomery Lane/Montgomery Avenue Cycletrack Phases 1, 2A, 2B, and 2C; and the Norfolk/Cheltenham Bikeway.

LOCATION

Bethesda Central Business District

ESTIMATED SCHEDULE

Construction on the Capital Crescent Surface Trail - Phase 1, and the Woodmont Avenue Cycletrack - Phase 1 was completed in FY23. Construction of the Montgomery Ave Cycletrack - Phases 1, 2A, and 2B will be completed in FY24. Design and construction of Phase 2 of the Woodmont Avenue Cycletrack and Phase 2C of the Montgomery Avenue Cycletrack will be completed in FY24 and construction is expected in FY25. The design of the Norfolk/Cheltenham Bikeway will be completed in FY24 with construction expected in FY25.

PROJECT JUSTIFICATION

The project implements improvements recommended in the Bethesda Downtown Plan (2017) and Bicycle Master Plan (2018). Additionally, it will help the County achieve its non-auto-driver mode share (NADMS) goals and the goals under the County Executive's Vision Zero initiative to reduce roadway crashes with severe injury and death to zero by 2030. These pedestrian and bike facilities will also help the County address the climate action plan.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

PROJECT DESCRIPTION

This project provides for the design and construction of pedestrian and bicyclist capital improvements across the County's Bicycle and Pedestrian Priority Areas (BiPPAs) identified in County master plans. Examples of such improvements include, but are not limited to: sidewalk, curb, and curb ramp reconstruction to meet ADA best practices, bulb-outs, cycle tracks, street lighting, and relocation of utility poles. This project specifically funds improvements in the following BiPPAs, in addition to general BiPPA spending: Silver Spring CBD, Grosvenor, and Glenmont.

LOCATION

This project will fund improvements in Silver Spring CBD, Grosvenor, and Glenmont in addition to improvements in other designated BiPPA areas.

ESTIMATED SCHEDULE

Design and construction of projects in Silver Spring CBD began in FY16 and will continue into FY27. Design of projects in the Grosvenor BiPPA began in FY17 and will extend into FY24. Design of projects in Glenmont will occur in FY25-28.

COST CHANGE

Cost increase due to inflation in FY25-28. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

This project will enhance efforts in other projects to improve pedestrian and bicyclist mobility, safety, and access in those areas of the County where walking and biking are most prevalent. These efforts will also help meet master plan non-auto-driver mode share (NADMS) goals. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero by 2030.

FISCAL NOTE

The cost of this project is based on concept level estimates. The cost will be updated as design progresses.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project provides for the design and construction of high priority bicycle and pedestrian capital improvements in areas adjacent to future Purple Line Stations from Bethesda to Takoma Park within 1/2-mile radius of each station. Proposed projects include: 1) Area-wide improvements; 2) Bicycle lanes, cycle tracks, sidepath, or sharrows as needed and appropriate for each station's 1/2-mile area; 3) Signage and wayfinding improvements; 4) Sidewalk gap closure near Purple Line Stations; 5) Improved trail connections; 6) Construction of a neighborhood greenway; and 7) Additional improvements to enhance purple line accessibility.

LOCATION

Purple Line corridor within 1/2-mile of each station

ESTIMATED SCHEDULE

Throughout the Purple Line BiPPAs, area-wide improvements began in FY22 and continue on an annual basis for design and construction through FY28.

COST CHANGE

Increase due to inflation.

PROJECT JUSTIFICATION

This project will enhance efforts to improve pedestrian and bicyclist mobility, safety, and access within 1/2-mile of all Purple Line Stations. Efforts include the design and construction of cycle tracks, bicycle lanes, trail connections, and neighborhood greenways as well as pedestrian improvements including sidewalks and ADA-upgrades. These improvements will help improve connectivity for people walking and biking to important community amenities such as schools, retail, and commercial centers as well as accessibility to each of the Purple Line stations. These efforts will also meet master plan non-auto-driver mode share (NADMS) goals. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero.

FISCAL NOTE

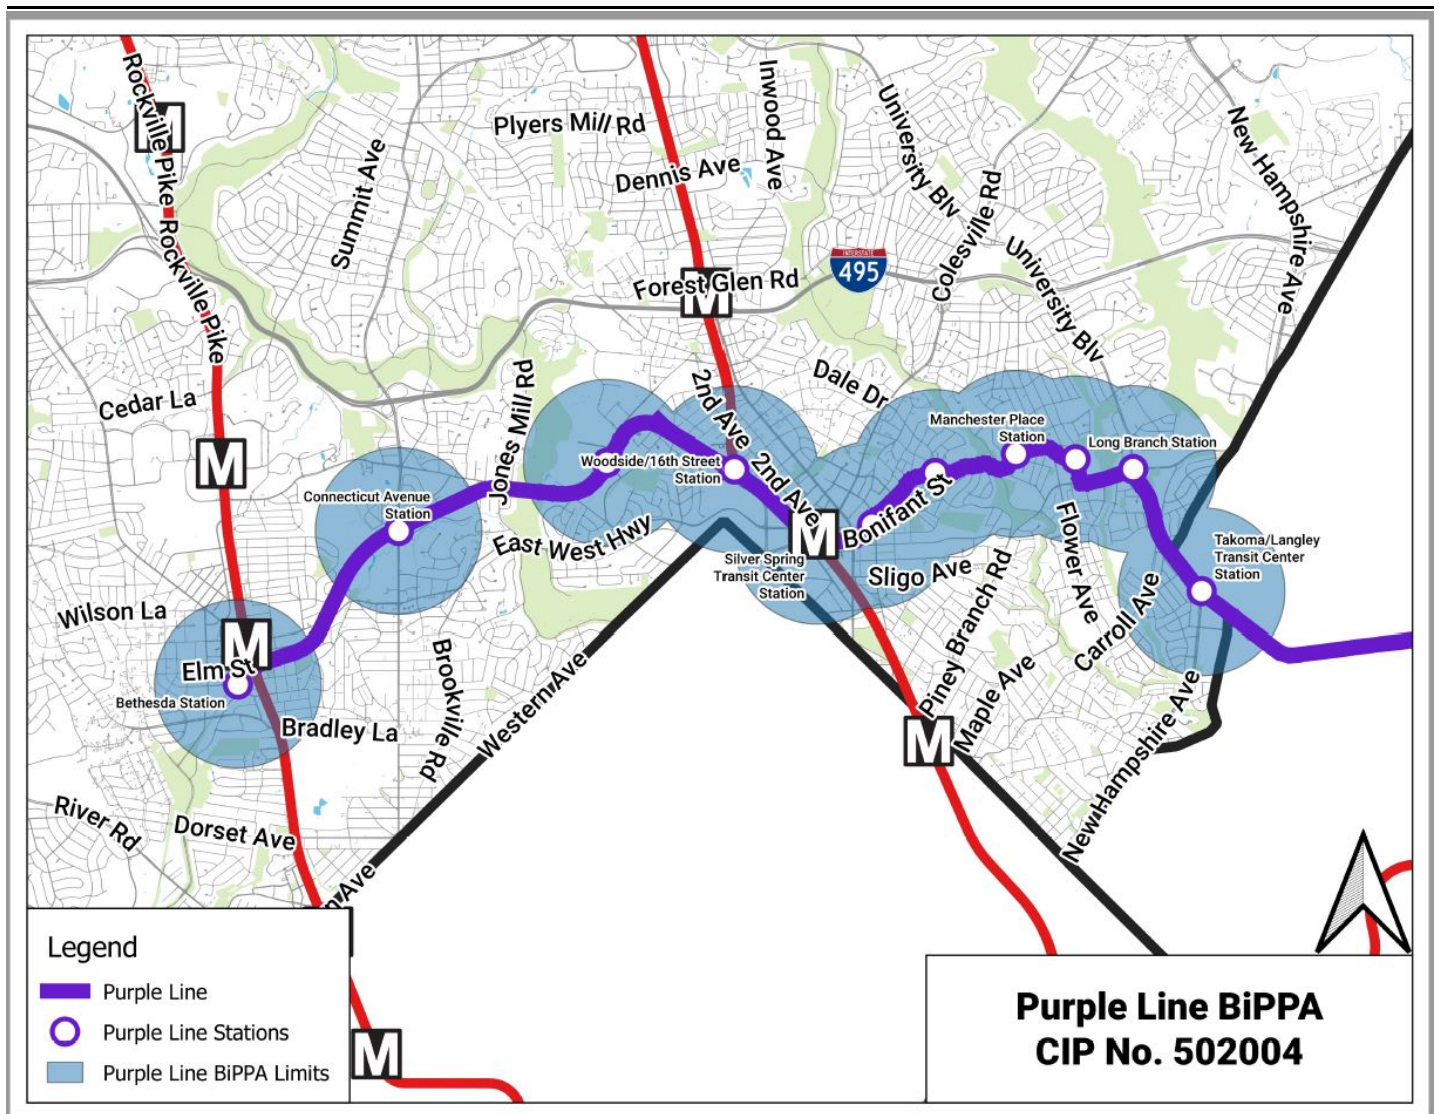

The cost of this project is based on concept level estimates. The cost will be updated as design progresses. The list of projects have not been fully costed.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Department of Permitting Services, Maryland-National Capital Park and Planning Commission, Maryland DOT State Highway Administration, Regional Service Centers, Urban Districts, Utility companies, Washington Metropolitan Area Transit Authority

PROJECT DESCRIPTION

This project funds the design and construction of bicycle and pedestrian capital infrastructure in the Wheaton Central Business District (CBD) Bicycle and Pedestrian Priority Area (BiPPA) and identified in the Wheaton Central Business District (CBD) and Vicinity Sector Plan. Recommended improvements will include new sidewalks, separated bikeways, shared-use paths, streetscape improvements, lighting, signal and accessibility upgrades, intersection safety improvements, bike parking, bicyclist and pedestrian wayfinding, and other treatments intended to improve safety and mobility for cyclists and pedestrians. Future projects include intersection safety improvements identified as high priority and near-term in the Wheaton BiPPA Study.

LOCATION

Wheaton CBD and Vicinity

ESTIMATED SCHEDULE

Final Design for Amherst Avenue Bikeway, a two-way separated bikeway on the west side of Amherst Avenue from Arcola Avenue to Windham Lane, is currently underway and anticipated to be completed in FY24. Construction of Amherst Avenue Bikeway is anticipated to begin in FY25. Design of the Upton Drive Neighborhood Greenway will be completed in FY24, and construction is anticipated to be completed in FY25. Design of the McComas Avenue Neighborhood Greenway will be completed in FY24, and construction is anticipated to be completed in FY25.

COST CHANGE

Cost increase due to inflation in FY25-28. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

This project will enhance and promote accessibility, safety, mobility and comfort for people walking and biking in the Wheaton CBD. The primary purpose of this project is to build better and safer facilities. In urban areas, walking and bicycling are among the most affordable forms of transportation, providing safe and efficient access to transit. Providing safe, convenient and attractive bicycle and pedestrian access, along with modernizing aging infrastructure is essential to ensure equity for all and provide access to jobs, education, public services and the social network. The Wheaton CBD and Vicinity includes the Wheaton Metro Station and Bus Transfer Center, the Wheaton CBD, town square and adjacent public park and government office building, high-density housing, commercial and retail uses including small businesses and Westfield Wheaton (mall), employment areas, entertainment venues, Wheaton Regional Park, connections to the Sligo Creek Trail, Wheaton Library, Recreation and Community Center, fire and police stations, the Mid-County Regional Services Center, MNCPPC and multiple County agencies, Proyecto Salud Clinic, the Gilchrist Immigration Resource Center, and the Adult Behavioral Health Program. This project supports the ongoing redevelopment of the Wheaton CBD, and will help meet master planned Non-Auto Driver Mode Share (NADMS) goals.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland National Capital Park and Planning Commission (M-NCPPC), Wheaton Urban District Advisory Committee, Maryland DOT State Highway Administration, Washington Metropolitan Area Transit Authority (WMATA), Department of Permitting Services and utilities.

PROJECT DESCRIPTION

This program provides for the planning, design, and construction of bikeways, trails, neighborhood greenways and directional route signs throughout the County to develop the bikeway network specified by master plans and those requested by the community to provide access to commuter rail, mass transit, major employment centers, recreational and educational facilities, and other major attractions. The program will construct bicycle facilities that typically cost less than \$1,000,000 including shared use paths, on-road bicycle facilities, wayfinding, and signed shared routes. This project includes the Brown Street Trail improvements in the Washington Grove Connector sub-project.

COST CHANGE

Cost increase due to inflation in FY25-28. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

There is a continuing and increasing need to develop a viable and effective bikeway and trail network throughout the County to increase bicyclist safety and mobility, provide an alternative to the use of automobiles, reduce traffic congestion, reduce air pollution, conserve energy, enhance quality of life, provide recreational opportunities, and encourage healthy life styles. This program implements the bikeways recommended in local area master plans, in the November 2018 Approved and Adopted Montgomery County Bicycle Master Plan, and those identified by individuals, communities, the Montgomery County Bicycle Action Group, and bikeway segments and connectors necessitated by the subdivision process. Projects identified by individuals and communities will be used as an ongoing project guide which will be implemented in accordance with the funds available in each fiscal year. This program also complements and augments the bikeways that are included in road projects and supports the County Executive's Vision Zero initiative which aims to reduce injuries and fatalities to zero on all roads by 2030.

FISCAL NOTE

In FY23, FY24, and FY25, \$2 million of the State Aid reflects state grants for capital projects in Montgomery County programmed during the 2022 State General Assembly Session. The remainder of the State Aid reflects competitive grants from various funding sources.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland Department of Transportation State Highway Administration, Maryland-National Capital Park and Planning Commission, Department of Police, Citizen Advisory Boards, Montgomery County Bicycle Action Group, Coalition for the Capital Crescent Trail, Montgomery Bicycle Advocates, Washington Area Bicyclist Association, Washington Metropolitan Area Transit Authority, Department of Permitting Services and Utility Companies.

Expenditure / Encumbrances	1,691		
Unencumbered Balance	554		

PROJECT DESCRIPTION

This project provides for the design and construction of a new eight to ten-foot wide sidepath for 3.3 miles along Bowie Mill Road from Olney Laytonsville Road (MD 108) to Muncaster Mill Road (MD 115) and continues along Muncaster Mill Road to Needwood Road. The project also provides a new pedestrian bridge over Rock Creek North Branch for continuation of the sidepath along Bowie Mill Road.

LOCATION

Olney and Upper Rock Creek Planning Areas

ESTIMATED SCHEDULE

Design started in FY23 and will be completed in FY25. Land acquisition will be completed in FY27 and utility relocation and construction will be completed in FY29 assuming additional State Aid is available.

COST CHANGE

Cost increase due to inflation for construction materials and land.

PROJECT JUSTIFICATION

The Montgomery County Bicycle Master Plan, approved in November 2018, recommends a sidepath along Bowie Mill Road. The project is a critical connection in the existing bicycle network between the existing trails and important destinations including Needwood Road Bike Path, North Branch Trail, the Inter-County Connector (ICC) Trail, Shady Grove Metro Station, Sequoyah Elementary School, Colonel Zadok Magruder High School, and Olney Town Center.

OTHER

This project also supports the County Executive's Vision Zero initiative which aims to reduce injuries and fatalities on all roads.

FISCAL NOTE

\$1.5M was approved in the FY22 Maryland General Assembly. State Aid of \$5.7M substituted for GO Bonds in FY23-FY28 reflects State grants for capital projects obtained during the 2022, 2023 and 2024 Maryland General Assembly sessions. An additional \$2.1M is pre-authorized for FY26. An additional \$2M in State Aid is being pursued through future Maryland General Assembly sessions. Funding switches between GO Bonds and State Aid in FY28 and FY29.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland State Highway Administration, Maryland-National Capital Park and Planning Commission, Department of Permitting Services, Greater Olney Civic Association (GOCA), and utility companies

Cumulative Appropriation	3,741		
Expenditure / Encumbrances	1,303		
Unencumbered Balance	2,438		

PROJECT DESCRIPTION

This project provides for completing final design and construction for the master planned dual bikeway along Bradley Boulevard (MD 191) which includes two 11' traffic lanes, two 4' on-road bike lanes, a 10' off-road shared use path on the north side of the road, and a 5' sidewalk on the south side of the road. The project limits extend approximately one mile from about 450' south of Wilson Lane to Glenbrook Road. The project will coordinate with a separate MCDOT intersection improvement project to connect the existing sidewalk on Bradley Boulevard east of Goldsboro Road and an existing sidewalk on Wilson Lane to improve pedestrian safety and provide access to transit stops and the Bethesda Central Business District. The project also includes two additional un-signalized crosswalks across Bradley Boulevard at Durbin Road and Pembroke Road, drainage improvements, and pedestrian lighting. This project also includes the land acquisitions and utility relocations that support the roadway improvements.

ESTIMATED SCHEDULE

Design, land acquisition, site utilities and improvements, and construction are expected to be completed beyond six years.

COST CHANGE

Cost increases due to inflation in construction materials and increases in the cost of utility relocations.

PROJECT JUSTIFICATION

The Montgomery County Bikeway Master Plan, adopted in November 2018, recommends a north-side sidepath and conventional bike lanes in this segment of Bradley Boulevard. The service area is predominantly residential with several schools (Landon, Whitman HS, and Pyle MS) that could potentially generate bike-trips. Bethesda Row and other shopping centers are located a half mile to the east. There are 17 Montgomery County Ride-On bus stops (8 westbound and 9 eastbound) within the project area. This project will comply with area master plans, improve bicycle and pedestrian facilities, encourage bicycle usage, and improve safety for all users. It will improve access to major destinations in and beyond the project area and ultimately connect to other sidewalk and bicycle facilities.

OTHER

The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero by 2030.

FISCAL NOTE

The cost estimate is based on preliminary design and inflation. A more accurate cost estimate will be prepared upon completion of the final design.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

Cumulative Appropriation	61,662		
Expenditure / Encumbrances	40,234		
Unencumbered Balance	21,428		

PROJECT DESCRIPTION

This project provides for the funding of the Capital Crescent trail, including the main trail from Woodmont Avenue in Bethesda to Silver Spring as a largely 12-foot-wide hard surface hiker-biker path, connector paths at several locations, a new bridge over Connecticut Avenue, a connection from 47th Street through Elm Street Park to the surface trail adjacent to the Purple Line, a new underpass beneath Jones Mill Road, planning and design for a new tunnel beneath Wisconsin Avenue, Phase 2 of the Capital Crescent Surface Trail Project along 47th Street which was previously included in CIP No. 500119, supplemental landscaping and amenities, and lighting at trail junctions, underpasses, and other critical locations.

ESTIMATED SCHEDULE

Construction completion of the main trail along the Purple Line alignment is expected by Spring 2027 per MTA's revised schedule. Construction of the 47th Street surface trail will be completed in FY25. The Elm Street Park connection from 47th Street to the Capital Crescent Trail will be completed in FY27.

COST CHANGE

Added \$140K for PDS in FY27 for one more year of project management based on MTA's revised completion schedule. Added \$2.6M for the surface trail connections along 47th Street (\$900k) and Elm Street Park (\$1.7M). Shifted costs for the tunnel to a new Capital Crescent Trail Tunnel (CIP #502512) project.

PROJECT JUSTIFICATION

This trail will be part of a larger system to enable non-motorized traffic in the Washington, DC region. This trail will connect to the existing Capital Crescent Trail from Bethesda to Georgetown, the Metropolitan Branch Trail from Silver Spring to Union Station, and the Rock Creek Bike Trail from northern Montgomery County to Georgetown. The trail will serve pedestrians, bicyclists, joggers, and skaters, and will be compliant with the Americans with Disabilities Act of 1990 (ADA), the Bethesda CBD Sector Plan, and the Purple Line Functional Master Plan. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero.

FISCAL NOTE

In March of 2021, the schedule was adjusted to shift funding from each year to the next year from FY21 through FY25 to further reflect the expected construction progress and estimated billing schedule based on the Purple Line's plan to re-solicit a new general contractor to complete the project. In FY25 funding for the construction of the tunnel under Wisconsin Avenue was shifted to a separate CIP project (CIP #502512).

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland Transit Administration, Maryland Department of Transportation, State Highway Administration, Maryland-National Capital Park and Planning Commission, Bethesda Bikeway and Pedestrian Facilities, Coalition for the Capital Crescent Trail, CSX Transportation, Washington Metropolitan Area Transit Authority. Special Capital Projects Legislation [Bill No. 32-14] was adopted by Council by June 17, 2014.

PROJECT DESCRIPTION

The project provides for design of life safety code requirements, construction bid preparation documents and construction for the pedestrian and bicycle tunnel beneath Wisconsin Avenue (MD 355) and Elm Street. The tunnel provides a connection from the Capital Crescent Trail at Elm Street Park to the Bethesda Purple Line Station.

ESTIMATED SCHEDULE

Bid document preparation, utility relocation and construction will be beyond six years.

PROJECT JUSTIFICATION

This tunnel will provide for a grade separated crossing of MD 355 and will serve pedestrians, bicyclists, joggers, and skaters, and will be compliant with the Americans with Disabilities Act of 1990 (ADA), the Bethesda CBD Sector Plan, and the Purple Line Functional Master Plan. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero.

FISCAL NOTE

Construction and life/safety design costs were previously included in the Capital Crescent Trail project (CIP #501316) and have been relocated to this project. Costs associated with construction of the tunnel have been adjusted for inflation to beyond six years.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

PROJECT DESCRIPTION

This project provides for State-funded planning, design, and construction of bike facilities along Randolph and Cherry Hill Road from Old Columbia Pike to the Montgomery/Prince George's County line. The project will upgrade existing facilities and complete missing segments in line with the County Bicycle Master Plan. The Master Plan recommends a separated bikeway. Where feasible, drainage, intersection safety, and lighting improvements will be included in the scope of the project.

Since no facility planning has been completed, the Department of Transportation will identify logical segments that can be built within the constraints of available state funding during preliminary design.

LOCATION

Cherry Hill Road between Old Columbia Pike and P.G. County Line.

COST CHANGE

Cost increase to account for staff charges that are an ineligible expense for state aid.

PROJECT JUSTIFICATION

This bikeway facility was identified as a Tier 1 recommendation of the Bicycle Master Plan that is located within an Equity Focus Area. Additionally, developments such as Viva White Oak, the new Adventist Healthcare White Oak Medical Center, and expansion of the FDA campus warrant efforts to improve pedestrian and bicyclist facilities to increase transportation options.

FISCAL NOTE

State Aid reflects state grants for capital projects in Montgomery County programmed during the 2022 State General Assembly Session.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland DOT State Highway Administration, Maryland Department of the Environment, Maryland Department of Natural Resources, Department of Permitting Services, Utilities, affected communities, Commission on Aging, Commission on People with

PROJECT DESCRIPTION

This project provides for the design and construction of a new eight-foot wide shared use path approximately 1 mile of length along the north side of Dale Drive from Georgia Avenue (MD 97) to Colesville Road (US 29). The project also provides minor intersection safety improvements within the project limits to improve existing sight distance and crosswalks.

ESTIMATED SCHEDULE

Design, land acquisition, and construction will be completed in FY24, FY25, and FY27, respectively. The construction will have a duration of 2 years.

COST CHANGE

Increase due to inflation and utility relocations.

PROJECT JUSTIFICATION

There are only short segments of sidewalk scattered within the project limits but no continuous pedestrian facilities on this section of Dale Drive, where several school bus stops are located. This section of Dale Drive is also the last missing link of pedestrian facilities on Dale Drive and a connection to the future Purple Line Station on Dale Drive and Wayne Avenue, as well as the Sligo Creek Trail. The Montgomery County Bicycle Master Plan, approved in November 2018, recommends a shared use path or sidewalk to be added for this section of Dale Drive.

OTHER

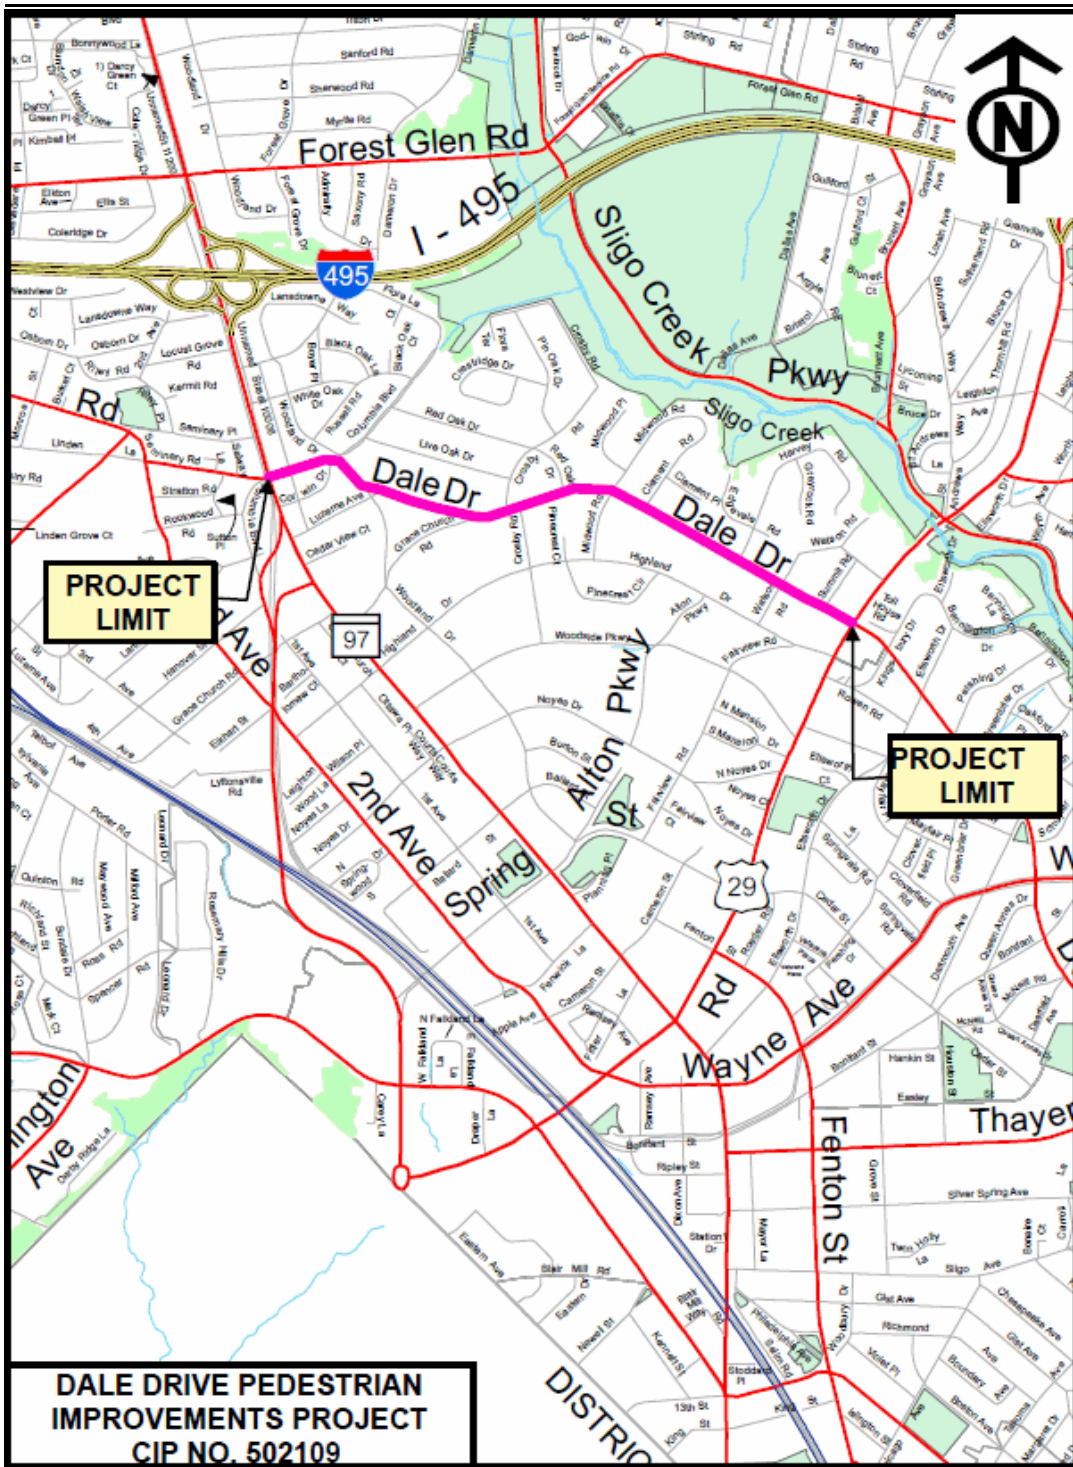

This project supports the County Executive's Vision Zero initiative which aims to reduce injuries and fatalities on all roads.

FISCAL NOTE

Intergovernmental funding contribution from WSSC for sewer line and fire hydrants relocation is anticipated. Relocation cost and contribution amount will be updated during the final design phase.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

Facility Planning - Pedestrian Facilities and Bikeways (P502312)

Unencumbered Balance	1,119		

PROJECT DESCRIPTION

This project provides for planning and preliminary engineering design for new and reconstructed pedestrian facility and bikeway projects under consideration for inclusion in the Capital Improvements Program (CIP). Prior to the establishment of a stand-alone project in the CIP, the Department of Transportation will perform Phase I of facility planning, a rigorous planning-level investigation of the following critical project elements: purpose and need; usage forecasts; traffic operational analysis; community, economic, social, environmental, and historic impact analyses; recommended concept design and public participation are considered. At the end of Phase I, the Transportation, Infrastructure, Energy and Environment (T&E) Committee of the County Council reviews the work and determines if the project has the merits to advance to Phase II of facility planning: preliminary (35 percent level of completion) engineering design. In preliminary engineering design, construction plans are developed showing specific and detailed features of the project, from which its impacts and costs can be more accurately assessed. At the completion of Phase II, the County Executive and County Council hold project-specific public hearings to determine if the candidate project merits consideration in the CIP as a funded stand-alone project.

COST CHANGE

FY25-30 adjusted to account for inflation. FY29 and FY30 added to this Level of Effort project

PROJECT JUSTIFICATION

There is a continuing need to define the scope and determine need, benefits, implementation feasibility, horizontal and vertical alignments, typical sections, impacts, community support/opposition, preliminary costs, and alternatives for master planned transportation recommendations. Facility Planning provides decision makers with reliable information to determine if a master-planned transportation recommendation merits inclusion in the CIP as a stand-alone project. The sidewalk and bikeway projects in Facility Planning specifically address pedestrian needs.

FISCAL NOTE

Beginning in FY23, this project splits the original Facility Planning - Transportation (P509337) into three separate facility planning projects by mode: Facility Planning - Roads (P509337), Facility Planning - Mass Transit (P502308), and Facility Planning - Pedestrian Facilities and Bikeways (P502312).

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland DOT State Highway Administration, Maryland Department of the Environment, Maryland Department of Natural Resources, U.S. Army Corps of Engineers, Department of Permitting Services, Utilities, Municipalities, affected communities, Commission on Aging, Commission on People with Disabilities, Montgomery County Pedestrian Safety Advisory Committee

FACILITY PLANNING PEDESTRIAN FACILITIES AND BIKEWAYS - No. 502312

FY25-30 PDF Project List (* New as of FY25-FY30)

Studies Underway or to Start in FY24-25:

- Middlebrook Road/Wisteria Drive Multi-Modal Improvements (MD118 - Great Seneca Highway) - Phase 1 Planning Only
- Sandy Spring Bikeway (MD108 - MD182 - Norwood Road)
- Capitol View Ave/Metropolitan Ave (MD192) Sidewalk/Bikeway (Forest Glen Road - Ferndale Street) - Phase 1 Planning Only
- ADA Design Guidelines
- Shady Grove Road Ped/Bike Improvements
- MacArthur Boulevard Bikeway (Falls/Fawsett Road - Old Anglers Inn) - Phase 1 Planning Only
- Streateries (Woodmont, Price Ave/Elkins Ave, & Newell Street)
- Facility Planning - Equitable Bikeways

Candidate Studies to Start in FY26-30:

- Germantown MARC Station Bicycle & Pedestrian Improvements
- Westlake/Rock Springs Complete Streets - Phase 1 Planning Only
- Grosvenor Lane Sidepath*

APPROPRIATION AND EXPENDITURE DATA (\$000s)

Appropriation FY 25 Request	(1,230)	Year First Appropriation	FY16
Appropriation FY 26 Request	-	Last FY's Cost Estimate	27,111
Cumulative Appropriation	1,640		
Expenditure / Encumbrances	2		
Unencumbered Balance	1,638		

PROJECT DESCRIPTION

This project provides funds to develop final design plans, acquire right-of-way, and construct approximately 4 miles of an 8-10 foot bituminous hiker/biker path along the east side of Falls Road from River Road to Dunster Road. Falls Road is classified as a major highway and has a number of side street connections along the project corridor. The path will provide pedestrians and cyclists safe access to communities along this project corridor, and will provide a connection to existing pedestrian facilities to the north (Rockville) and to the south (Potomac).

LOCATION

Falls Road from River Road to Dunster Road

ESTIMATED SCHEDULE

Design and other project components will be discontinued.

COST CHANGE

Cost decrease due to discontinuation of the project.

PROJECT JUSTIFICATION

This path provides access to public transportation along Falls Road. The path will provide pedestrian access to the following destinations: bus stops along Falls Road, Bullis School, Ritchie Park Elementary School, Potomac Community Center, Potomac Library, Potomac Village Shopping Center, Potomac Promenade Shopping Center, Heritage Farm Park, Falls Road Golf Club, Falls Road Park, and a number of religious facilities along Falls Road. The 2002 Potomac Subregion Master Plan calls for a Class I (off-road) bike path along Falls Road from the Rockville City limit to MacArthur Boulevard. The path is a missing link between existing bicycle facilities within the City of Rockville and existing path along Falls Road south of River Road.

OTHER

Montgomery County Department of Transportation has completed Phase 2 facility planning, preliminary design, with funds from the annual bikeway program. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero.

FISCAL NOTE

Construction cost estimate is based on design that was completed in 2009. Final construction cost will be determined after final design is completed. Federal Aid in FY23-FY24 includes the Transportation Alternative Program (TAP) grant in the amount of \$1.23M. Total expenditures reflect the County's required match of \$410k for the TAP grant managed by the State.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland-National Capital Park and Planning Commission (M-NCPPC), State Highway Administration, Utility Companies, Department of Environmental Protection, Department of Permitting Services, Washington Gas, Pepco, Verizon, Maryland Department of Natural Resources; Special Capital Projects Legislation will be proposed by the County Executive.

PROJECT DESCRIPTION

This project provides for the design and construction of the Fenton Street Cycletrack in the Silver Spring CBD Bicycle and Pedestrian Priority Area (BiPPA). Recommended improvements include the construction of a separated bikeway between King Street and Planning Place along Fenton Street and will include wayfinding, stormwater management, ADA-improvements, and other treatments intended to improve safety and mobility for people walking and biking. While this project was initially anticipated to be phased to allow portions to open sooner, it has taken longer to receive permits than expected for Phase 1 and therefore that segment is no longer ahead of Phase 2 in the process, so it now makes sense to build this as one phase.

LOCATION

Silver Spring CBD BiPPA

ESTIMATED SCHEDULE

Design is underway and is expected to be complete in late 2023. Utility relocation is expected to begin in late 2023 (FY24). Construction is anticipated to begin in late Summer 2024 (FY25).

COST CHANGE

The cost increase is due to higher than expected utility relocation costs, updated construction estimates, and to incorporate the addition of best-practice design elements for bikeway safety and stormwater management.

PROJECT JUSTIFICATION

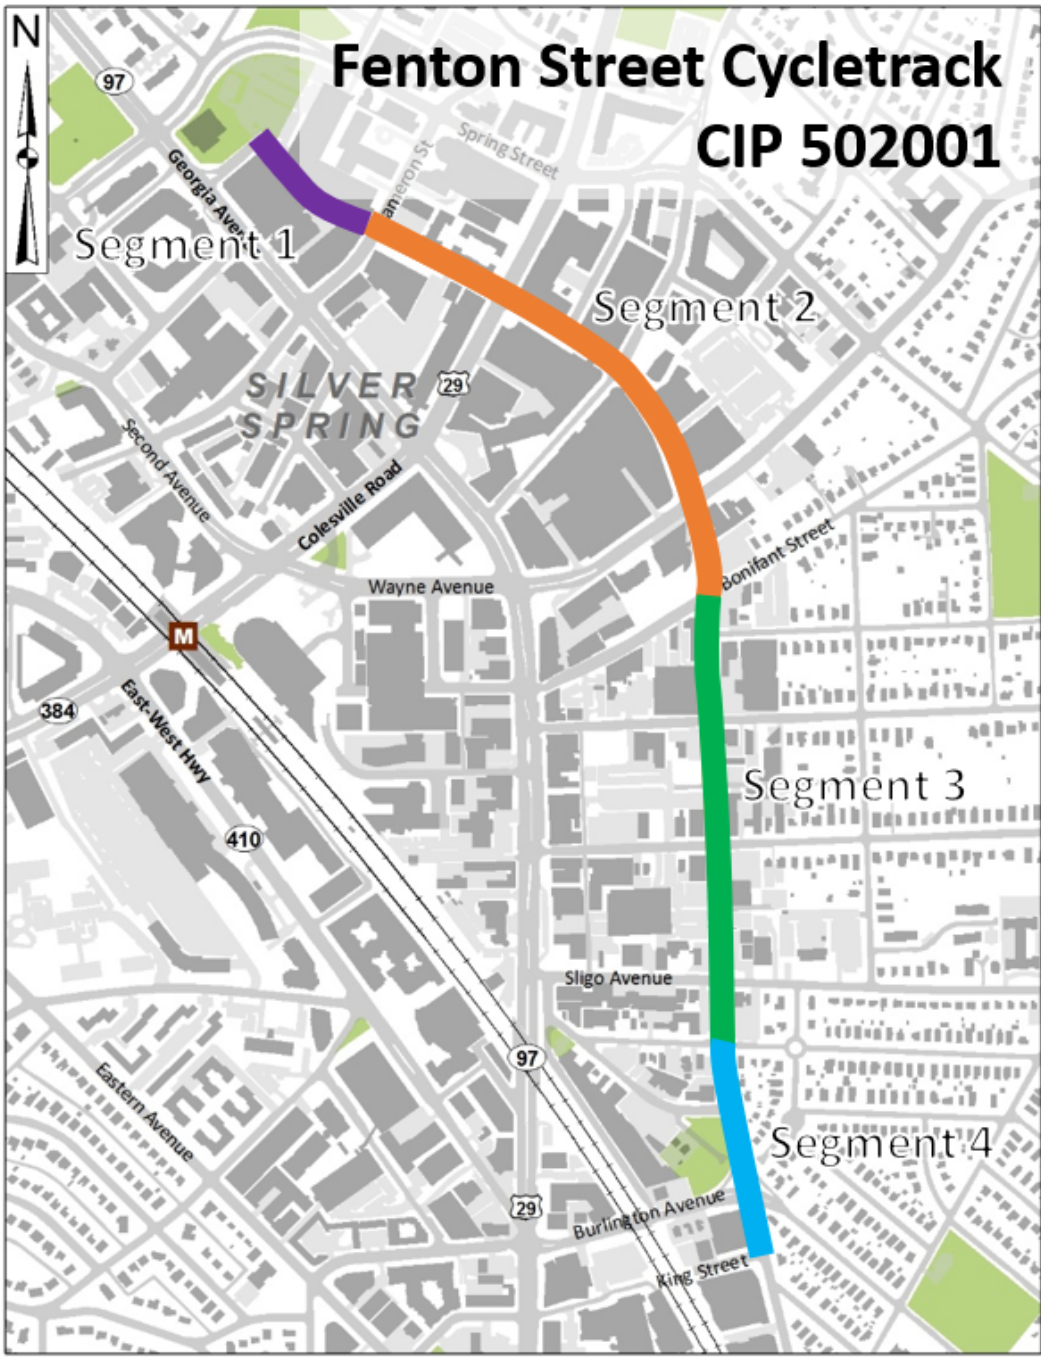

This project will create a low-stress bicycle route along Fenton Street from King Street to Planning Place, connecting the future purple line station with businesses, restaurants, and residential development along Fenton Street. The Bicycle Master Plan calls for separated bike lanes which will provide a high-quality low-stress route which connects to the Green Trail, Wayne Ave / Second Avenue, and Spring Street / Cedar Street separated bikeway. Pedestrian safety treatments are also included in the project. These efforts will also meet master planned non-auto-driver mode share (NADMS) goals. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero by 2030. Additional elements have been added to the project to improve accessibility for people with disabilities. Stormwater management best practices will be incorporated to the maximum extent practical.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Department of Permitting Services, Maryland-National Capital Park and Planning Commission, Maryland DOT State Highway Administration, Silver Spring Regional Service Center, Silver Spring Urban District, Utility companies, Washington Metropolitan Area Transit Authority

Cumulative Appropriation	2,752		
Expenditure / Encumbrances	1,319		
Unencumbered Balance	1,433		

PROJECT DESCRIPTION

This project provides for design, right-of-way acquisition, utility relocations, and construction of a new grade separated connection under Georgia Avenue to improve access to the Forest Glen Metro Station from neighborhoods and institutions located on the east side of Georgia Avenue. There is currently an underground walkway from the parking and bus area on the northwest quadrant of the intersection to the southwest quadrant. A new connection would be made to this passageway connecting the southwest quadrant to the northeast quadrant. A ramp connection and elevators bring the underground connection to grade on the northeast corner of the intersection.

LOCATION

MD97 (Georgia Avenue) at Forest Glen Road/Forest Glen Metro Station.

ESTIMATED SCHEDULE

Design started in FY22 and will be completed in FY25. Land acquisition is scheduled for FY27. Utility relocations and construction are scheduled to commence in FY28 and be completed in FY30.

COST CHANGE

Cost increase due to construction inflation.

PROJECT JUSTIFICATION

This project is needed to improve the mobility and safety for all facility users within the project area by reducing existing conflicts between pedestrians and vehicles. Currently, transit users, pedestrians, and bicyclists cross MD 97 (Georgia Avenue) and Forest Glen Road to access the Metro Station. This project will eliminate the need for these at-grade pedestrian crossings and will also facilitate crossing of the road for community members who are not using Metro. Traffic volumes and speeds on MD 97 can be very high and pedestrians must cross over eight lanes of traffic. These crossings can be very intimidating, reducing community connectivity and use of the Forest Glen Metro Station. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero.

OTHER

Site improvements and utilities funding has been adjusted to FY26 on the front end of construction because the utility relocations will need to come early on to allow for excavation.

FISCAL NOTE

Construction costs are based on conceptual plans and will be updated as design progresses.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland State Highway Administration, Washington Metropolitan Area Transit Authority.

PROJECT DESCRIPTION

This project provides for the final design and construction of two 11-foot travel lanes for a one mile segment of Goldsboro Road (MD 614) from MacArthur Boulevard to River Road (MD 190), a shared use path along the north side, a 5-foot sidewalk on the south side at selected locations. Where feasible, drainage improvements are included in the scope of the project. The existing pedestrian bridge over Minnehaha Branch on the south side of Goldsboro Road near Wedgewood Road is proposed to be replaced.

LOCATION

Goldsboro Road (MD 614) from MacArthur Boulevard to River Road (MD 190)

ESTIMATED SCHEDULE

All project components are scheduled to commence beyond six years.

PROJECT JUSTIFICATION

This project will comply with the 1990 Bethesda-Chevy Chase Master Plan and the 2018 Countywide Bikeways Master Plan to improve pedestrian and bicycle facilities, encourage usage and improve safety for all users. It will improve access to major destinations in and beyond the project area and ultimately connect to other sidewalk and bicycle facilities.

OTHER

The preliminary design costs for this project are covered in the "Facility Planning - Transportation" project (#509337). Right-of-way acquisition is required. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County Roadways to zero by 2030.

FISCAL NOTE

Construction cost estimates will be updated during the final design phase.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

PROJECT DESCRIPTION

This project provides for the design and construction of a new eight-foot wide sidepath along the west side of Good Hope Road over 4,500 feet of length from Windmill Lane to Rainbow Drive in Cloverly. The project also provides a pedestrian bridge that is 40-foot long and eight-foot wide at the intersection of Good Hope Road and Hopefield Road. The project site is located within the Upper Paint Branch Special Protection Area.

LOCATION

Cloverly

ESTIMATED SCHEDULE

Design was completed in FY21. Land acquisition will be completed in FY24. Construction will be completed in FY25.

COST CHANGE

Project reflects FY24 supplemental to cover cost increases.

PROJECT JUSTIFICATION

The project enhances the pedestrian safety along Good Hope Road from Windmill Lane to Rainbow Drive. The pedestrian bridge addresses a section of the road where there is no sidewalk or shoulder for pedestrians. The Cloverly Master Plan, adopted in July 1997, recommends a sidewalk along Good Hope Road. The project was also requested by the Good Hope Estates Civic Association.

OTHER

The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County Roadways to zero by 2030.

FISCAL NOTE

A supplemental appropriation was approved in FY24 for \$562k for additional construction and construction management costs.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland-National Capital Park and Planning Commission, Department of Permitting Services, Maryland Department of the Environment

Unencumbered Balance	14		

PROJECT DESCRIPTION

The project provides for the planning and construction of the of 3.5 mile Life Sciences Center Loop Trail, a 12-foot wide shared use path that is a central feature of the Life Sciences Center (LSC) area of the Great Seneca Science Corridor Master Plan. The Life Sciences Center Loop Trail is a critical staging element to increasing the non-auto driver mode share (NADMS) prior to the expansion of stage 2 of the master plan's development. The shared use path will widen existing sidewalks along certain existing or planned streets in the Life Science Center (Omega Drive, Medical Center Drive, Johns Hopkins Drive, Belward Campus Drive, Decoverly Drive) as well as new roadways through the Public Safety Training Academy (PSTA) property and Crown Farm. The planning and design will create a trail design that is able to respond to varying right-of-way widths and other local conditions while providing a trail system that is recognizable and will attract walkers, runners and bicycle riders and will contribute to the LSC's sense of place. The design will enable both private developers and the county to build their respective pieces of the LSC loop in a consistent manner.

ESTIMATED SCHEDULE

Preliminary design began in FY17 and was completed in FY18. Final design started in FY21 and will be completed by FY25. Land acquisition will start in FY27 and construction in FY29-FY30.

COST CHANGE

Cost changes are due to inflation, updated construction costs and ROW impacts.

PROJECT JUSTIFICATION

This project will enhance and improve pedestrian and bicycle mobility, help meet master plan non-auto-driver mode share (NADMS) goals and support the critical staging element to advance to stage 2 of the master plan's development.

OTHER

The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County Roadways to zero by 2030.

FISCAL NOTE

Portions of trail to built by developers will be identified.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

PROJECT DESCRIPTION

This project provides shared use path improvements along 4.7 miles of MacArthur Boulevard from I-495 to the District of Columbia. To increase capacity and enhance safety for users, the existing shared-use path along the south side of MacArthur Boulevard will be widened, wherever feasible, to an eight-foot paved width with a five-foot wide grass buffer provided between the path and the roadway. In addition, to encourage alternate modes of travel and to accommodate the needs of on-road commuters and experienced bicyclists, the roadway itself will be widened, wherever feasible, to a consistent 26-foot pavement width, essentially adding a three-foot wide shoulder to each side of the existing 20-foot pavement width. The project will also provide safety improvements along MacArthur Boulevard to enhance overall safety for pedestrians, cyclists and motorists alike.

LOCATION

MacArthur Boulevard between I-495 and the District of Columbia

ESTIMATED SCHEDULE

I-495 to Oberlin Avenue (Segment II): Construction of approximately 2.6 miles of shared-use path completed in FY15. Oberlin Avenue to the District line (Segment III): Final Design started in FY22 and will be completed in FY24. Construction will start in FY25 and will be completed in FY26.

PROJECT JUSTIFICATION

This project improves safety and accessibility for pedestrians and bicyclists of all experience levels and enhances connectivity with other bikeways in the vicinity. In addition, spot improvements will improve deficiencies and immediate safety on MacArthur Boulevard. The Department of Transportation (DOT) prepared a Transportation Facility Planning Study document entitled "MacArthur Boulevard Bike Path/Lane Improvements". Project Prospectus in February 2004, is consistent with the October 2004 Potomac Subregion Master Plan and the 2018 Bicycle Master Plan.

OTHER

Preliminary design costs were funded through Facility Planning: Transportation (CIP #509337). The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County Roadways to zero by 2030.

FISCAL NOTE

Stable Lane to I-495 (Segment I): Final design and construction is not currently funded.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

U.S. Army Corps of Engineers (Washington Aqueduct Division), National Park Service (NPS), Maryland Department Of Natural Resources (DNR), Maryland-National Capital Park and Planning Commission (M-NCPPC), Town Of Glen Echo, Washington Suburban Sanitary Commission (WSSC), PEPCO, Verizon, Comcast; Special Capital Projects Legislation will be proposed by the County Executive.

PROJECT DESCRIPTION

Sidewalk improvements along Maryland Route 198 (Sandy Spring Road) in Burtonsville from Dino Drive to McKnew Road.

LOCATION

Burtonsville

ESTIMATED SCHEDULE

Design to begin in FY24 and be completed in FY25. Land acquisition, utility relocation and construction are scheduled for FY25.

COST CHANGE

Cost increase to account for staff charges that are an ineligible expense for State Aid.

PROJECT JUSTIFICATION

The project will provide sidewalk connections along MD 198 (Sandy Spring Road) between Dino Drive and McKnew Road to the business district in Burtonsville. The sidewalk provides ADA access to residential neighborhoods, transit, churches, and public facilities.

FISCAL NOTE

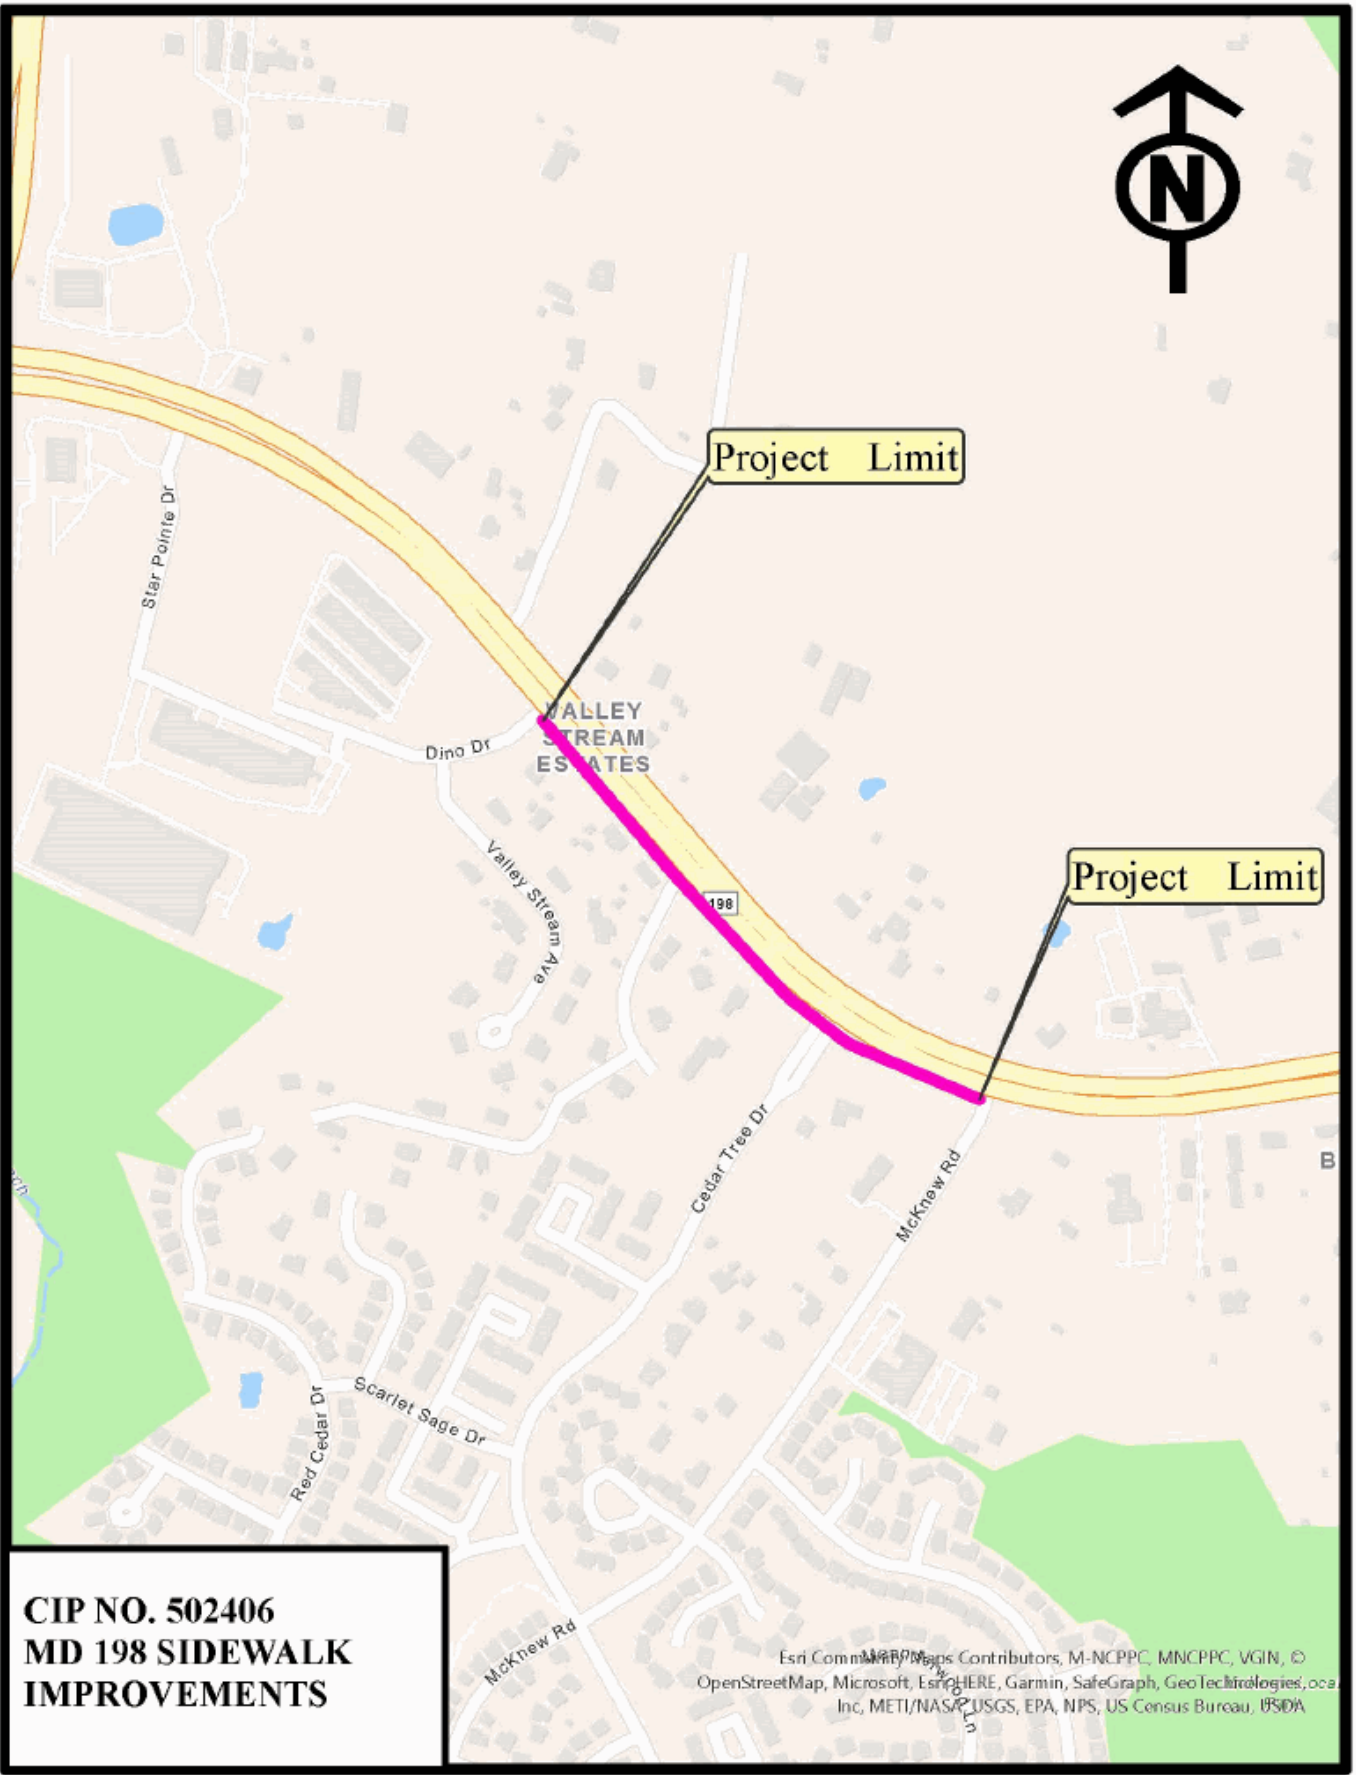

State aid in FY24 and FY25 reflects \$1M in State grants for capital projects in Montgomery County obtained during the 2023 State General Assembly session.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland State Highway Administration, Maryland-National Capital Planning Commission, Department of Permitting Services, and Office of the County Executive.

PROJECT DESCRIPTION

This project is to provide design, land acquisition, utility relocations, and construction of a new 8 to 10- foot wide shared use bike path along the eastern side of Frederick Road (MD 355) from Snowden Farm Parkway to 430 feet north of Clarksburg Road (MD 121) and from 670 feet south of the intersection to Stringtown Road. The total length of the project is approximately 2,500 linear feet. The segment of the shared use path between Spire Street and 430 feet north of Clarksburg Road is to be constructed as part of the Clarksburg at MD 355 Intersection Improvement Project. This project also provides construction of approximately 550 feet of retaining walls to reduce impacts to adjacent properties.

LOCATION

Frederick Road from Snowden Farm Parkway to Stringtown Road.

ESTIMATED SCHEDULE

Final design completed in FY24. Land acquisition scheduled to start in FY23 or FY24 and finish in FY25. Construction is to commence in FY25 and be completed in FY26.

COST CHANGE

Cost increases due to increase in land cost and construction inflation.

PROJECT JUSTIFICATION

This project provides links between the northern limits of the Frederick Road Bike Path, CIP #501118, and the southern limits of the Little Bennett Regional Park Trail Connector. The planned facilities will improve pedestrian and bicyclist safety and access to the Clarksburg Town Center, Clarksburg High School, and Little Bennett Regional Park. The project leverages State Aid.

OTHER

The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County Roadways to zero by 2030.

FISCAL NOTE

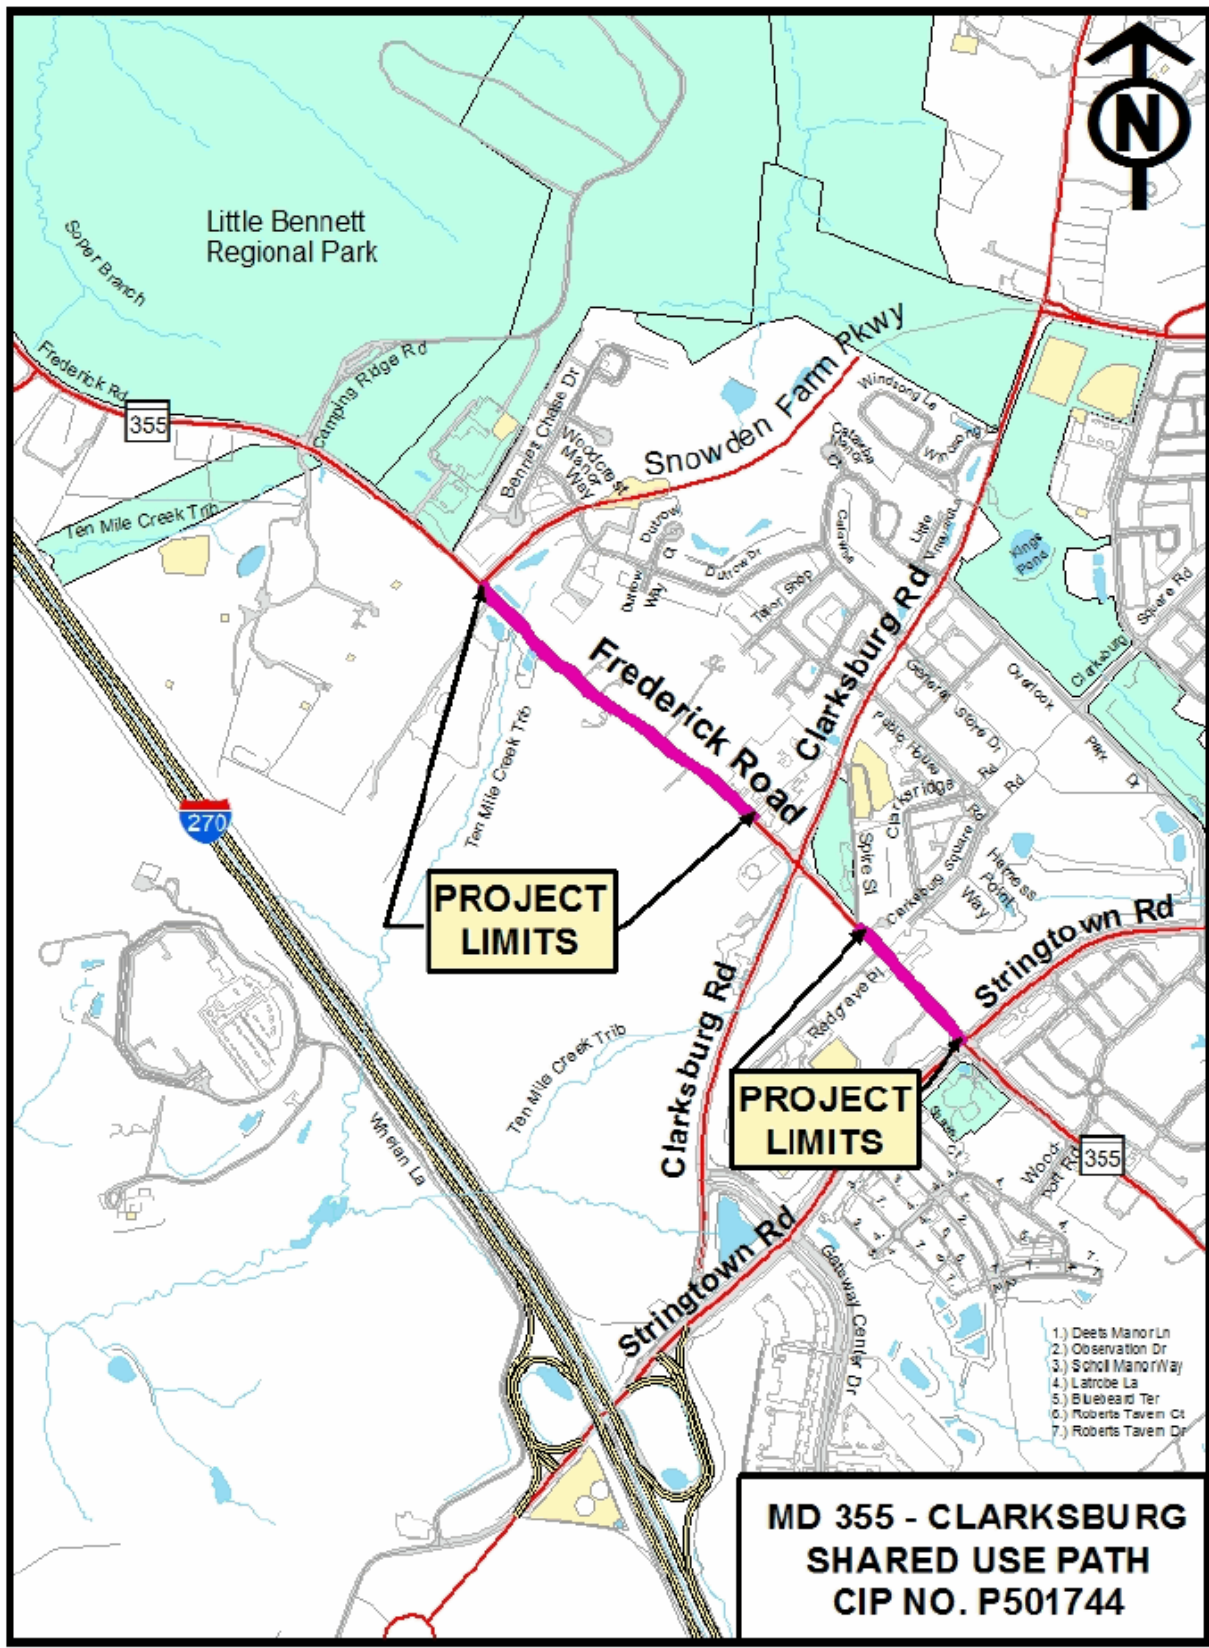

This project was awarded \$523,000 in State Aid in FY19 and an additional \$127,000 in FY21 to fund design. The project was also awarded 3,673,000 in State aid to fund construction. The project was originally programmed in Public Facilities Roads CIP # 5071310.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Frederick Road Bike C.I.P. Project No. 501118. Little Bennett Regional Park Trail Connector, Clarksburg Road/MD355/MD 121 Intersection Improvement Project C.I.P. No. 508000, Maryland National Park & Planning Commission.

PROJECT DESCRIPTION

This project provides for the design, land acquisition, utility relocations, and construction of the 0.6 mile segment of the trail in Montgomery County between the end of the existing trail in Takoma Park and the Silver Spring Transit Center. The trail will be designed to be 8 feet to 12 feet in width. The construction will be performed in three phases: the initial phase will construct the trail segment along Fenton Street and King Street; the second phase will extend the trail to Georgia Avenue; the final phase will construct a new bridge over Georgia Avenue and extend the trail to Ripley Street. Two sections of the trail north of the B&O train station will be constructed by a developer during the development of the new Progress Place and the redevelopment of the existing Progress Place sites. This project's scope of work includes connecting the two developer installed trail segments and widening the existing section at Ripley Street. Construction of Phase II-A will be from Ripley Street to Burlington Avenue, including the bridge over Georgia Avenue. A sidepath along Burlington Avenue from Selim Road to Fenton Street will be designed under CIP 501532, Bicycle-Pedestrian Priority Area Improvements (BiPPA). This is done to preserve continuity in design and construction of the Burlington Avenue/13th Street BiPPA project.

ESTIMATED SCHEDULE

Schedule delays due to delayed approval from WMATA, CSX, and MPI. Phase I construction was completed in 2018. Phase II design and property acquisition was completed in FY22. Utility relocations to start and end in summer 2025. Construction of Phase II-A is expected to commence in winter FY24 and will be completed in 18 months.

COST CHANGE

Scope modified to eliminate underpass at Burlington Avenue due to fiscal constraints and opportunity to leverage new County Trail Connections.

PROJECT JUSTIFICATION

The Metropolitan Branch Trail is to be part of a larger system of trails to enable non-motorized travel around the Washington region. The overall goal for these trails is to create a bicycle beltway that links Union Station and the Mall in Washington, D.C. to Takoma Park, Silver Spring, and Bethesda in Maryland. The trail will serve pedestrians, bicyclists, joggers, and skaters, and will be Americans with Disabilities Act of 1990 (ADA) accessible. Plans & Studies: 2000 Silver Spring Central Business District Sector Plan. Disabilities Act of 1990 (ADA).

OTHER

The initial design for the project was funded through Facility Planning: Transportation (CIP#509337). The expenditures reflect the previously approved FY13-18 alignment over Georgia Avenue, which provides a crossing that is safe, cost-effective, and has a more limited visual impact than other proposed alternatives. This

project will be coordinated with the redevelopment of Progress Place and other construction activity in the Ripley district of Silver Spring to minimize impacts to surrounding property owners. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County Roadways to zero by 2030.

FISCAL NOTE

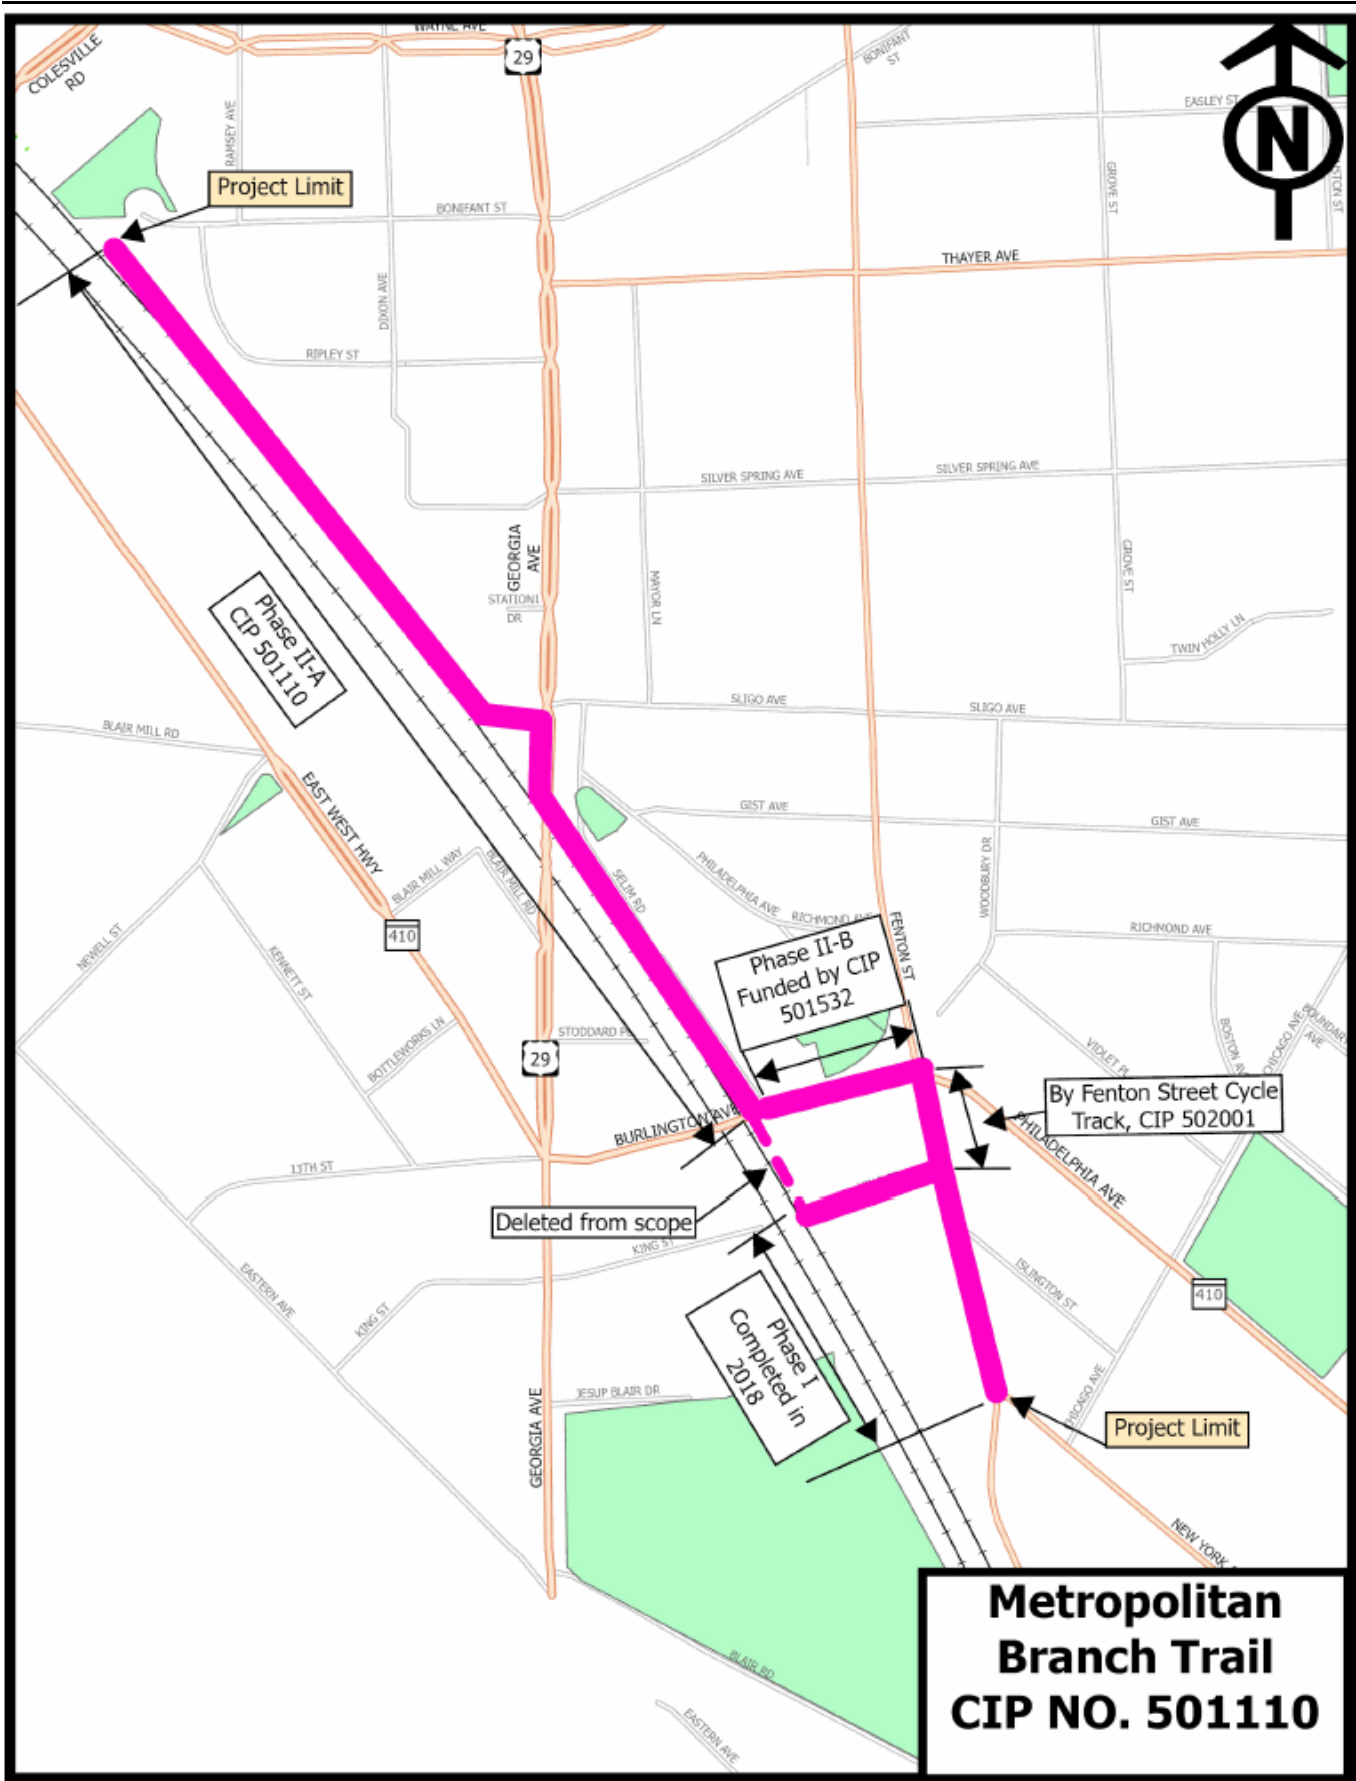

FY24 funding switch between GO Bonds and Impact Taxes.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Washington Metropolitan Area Transit Authority, CSX-Transportation, Maryland DOT State Highway Administration, Montgomery College, Maryland Historical Trust, Purple Line Project, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Health and Human Services. Special Capital Projects Legislation was enacted on June 23, 2015 and signed into law on July 6, 2015 (Bill No. 29-15).

PROJECT DESCRIPTION

This project provides for the construction of a shared-use path along Norwood Rd from New Hampshire Ave (MD 650) to Norbeck Road. The proposed shared-use path will be along the west (southbound) side of Norwood Road from New Hampshire Avenue (MD 650) to approximately 600 feet north of Eubie Blake for a total length of approximately 6,300 linear feet. The proposed path will be 10-feet wide for typical applications and 8 feet wide where obstructions exist. A 2 to 6-foot grass buffer will be proposed between the back of the existing curb and the front of the shared-use path where possible and portions of the existing Norwood Road shoulder may be reduced/repurposed to minimize impacts to businesses and property owners.

LOCATION

Silver Spring. Between Norbeck Road and New Hampshire Avenue.

ESTIMATED SCHEDULE

The project design is delayed due to environmental impacts including stream restrictions. Land acquisitions will also add an additional six months to the project schedule. Anticipated design completion in FY25. Construction is scheduled to be completed in FY26.

COST CHANGE

Cost increase to account for staff charges that are an ineligible expense for state aid.

PROJECT JUSTIFICATION

This project will provide separate bicycle and pedestrian facilities, and improve safety and access to schools, places of worship and parks.

FISCAL NOTE

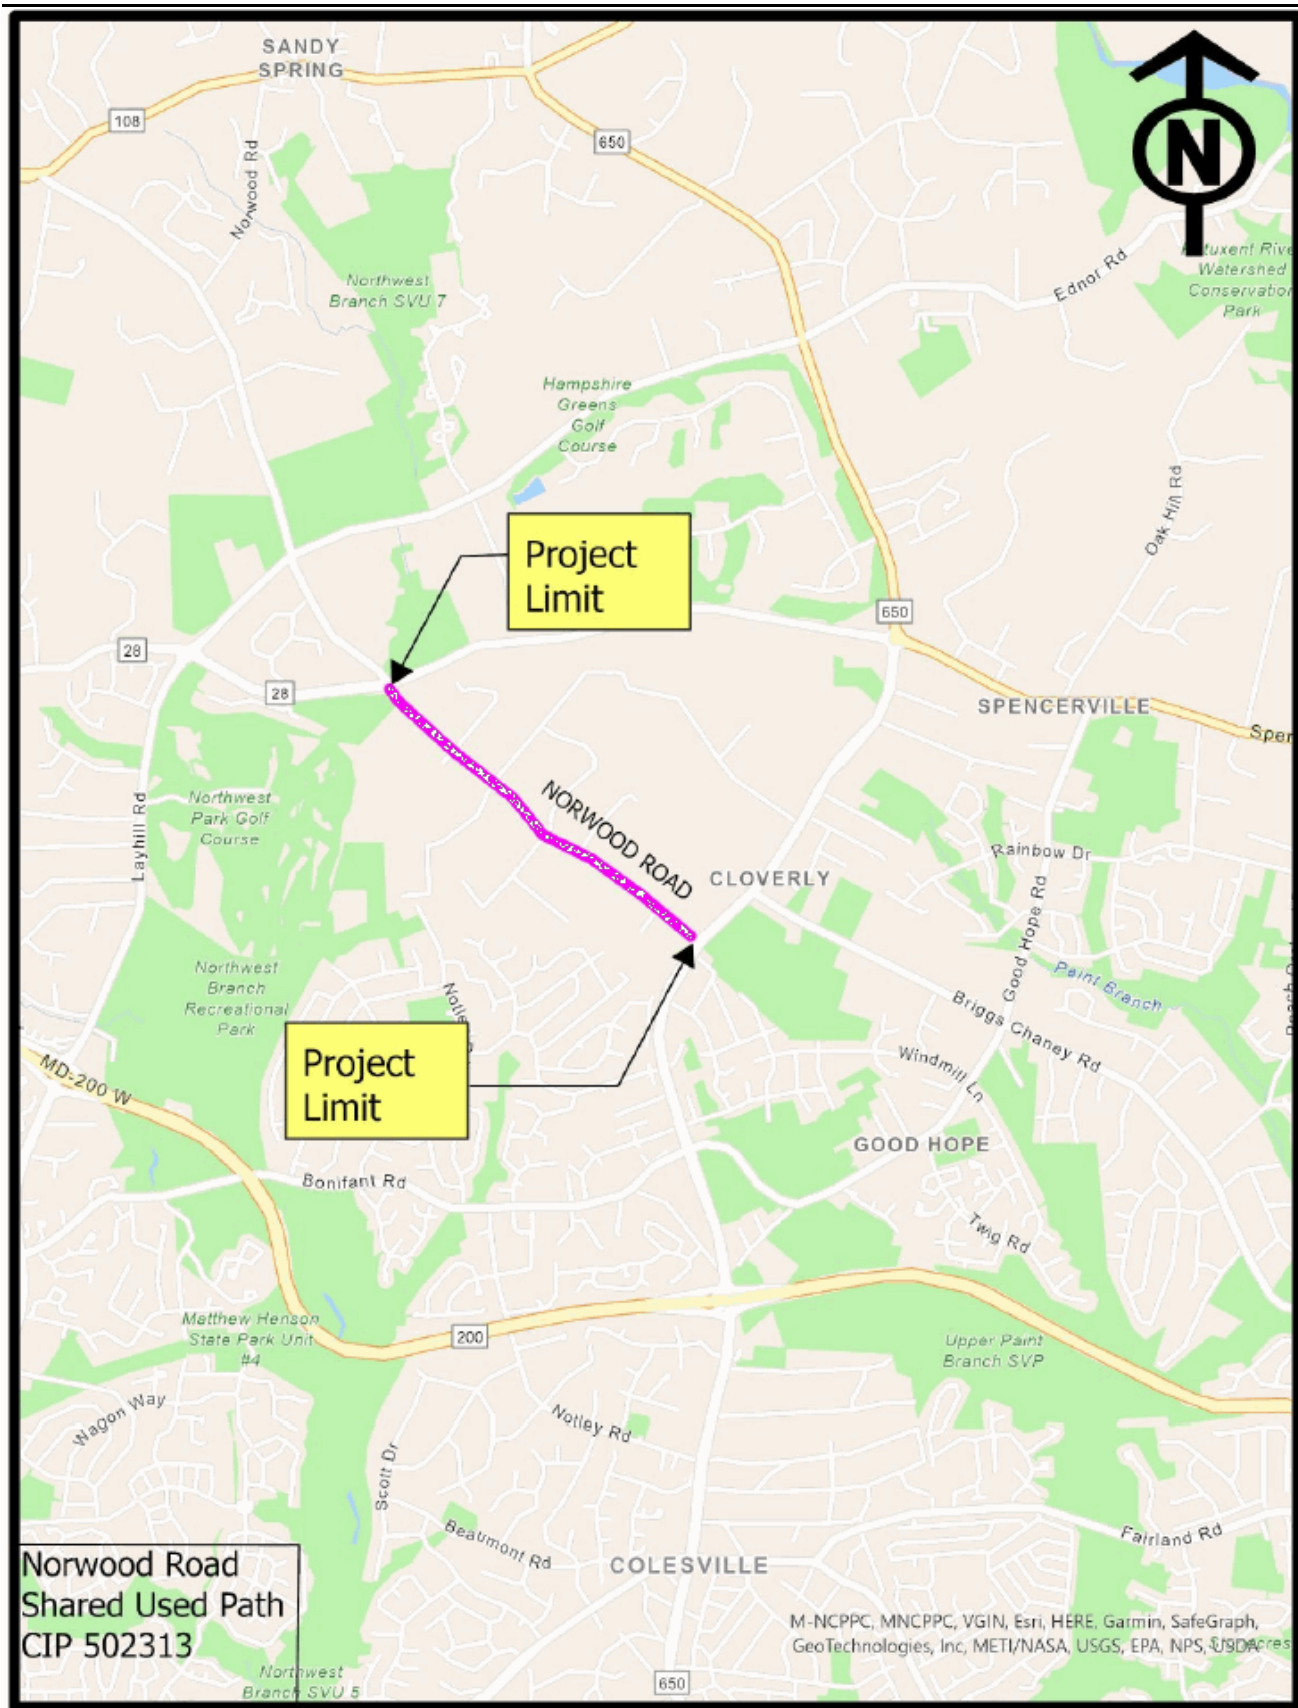

State Aid reflects state grants for capital projects in Montgomery County programmed during the 2022 State General Assembly Session. No cost estimate has been performed. Once design has advanced and a cost estimate has been prepared a determination will be made if the project can be completed with the available state aid. The scope may be reduced or the cost estimate may be revised at the 35% design stage.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland-National Capital Park and Planning Commission; Maryland DOT State Highway; Administration, Maryland Department of the Environment; Maryland Department of Natural Resources; U.S. Army Corps of Engineers; Department of Permitting Services; Utilities; Municipalities; affected communities; Commission on Aging; Commission on People with Disabilities; and Montgomery County Pedestrian Safety Advisory Committee.

PROJECT DESCRIPTION

The total project is comprised of 3 phases. Phase I, completed in FY22, includes a 4,200 foot segment of Oak Drive and a 350 foot segment of Kingstead road. This phase provides a 5' concrete sidewalk with green buffer along the west side of Oak Drive from its southern intersection with MD 27 to the John T. Baker Middle School. A 5' sidewalk is also provided along the south side of Kingstead Road from Oak Drive to the John Haines park. Phase II will include a 2,300 foot segment of MD 27 (Ridge Road) starting at the northern intersection with Oak Drive and ending at the existing sidewalk at Damascus High School. Phase III will include a 2,500 foot segment of MD 27 (Ridge Road) starting at the southern intersection with Oak Drive and ending at the existing sidewalk at Ridge Landing Place.

ESTIMATED SCHEDULE

Phase I was started in FY19 and was completed in FY22. Phases II and III Final Design will start in FY24. The construction implementation schedule is based on an estimate of 6 months to complete Phase 2 in FY27, followed by 12 months to complete Phase 3 in FY28.

COST CHANGE

Cost increase due to inflation and higher than anticipated construction bid; previous construction estimate did not include construction management costs.

PROJECT JUSTIFICATION

The project is needed to address the lack of continuous and safe pedestrian access to existing sidewalks and bikeways, transit stops, commercial areas, and community and public facilities in the Damascus area. The 2006 Damascus master plan and 2018 Countywide Bikeways Master Plan recommends sidewalk in the project area.

OTHER

The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County Roadways to zero by 2030.

FISCAL NOTE

Construction cost estimates for Phase II and Phase III will be updated during the final design. State Aid reflects state grants for capital projects in Montgomery County programmed during the 2022 State General Assembly Session.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The project provides for a cost share with the Maryland Department of Transportation State Highway Administration (MDOT SHA) for the final design and construction of a ten foot wide shared use path on the north side of MD 108 from Dr. Bird Road to Norwood Road. The project is approximately .86 of a mile and will complete missing segments of existing shared use paths along the MD 108 corridor. Where feasible, drainage improvements are included in the scope of the project.

LOCATION

Sandy Spring - Ashton area

ESTIMATED SCHEDULE

MDOT SHA started Design in FY 23. Construction, also by MDOT SHA, is anticipated in FY 25 and 26

COST CHANGE

Cost increase is due to the addition of land costs.

PROJECT JUSTIFICATION

Constructing these segments will help close a significant gap in Montgomery County's active transportation system. As a critical component of multi-modal infrastructure, these sidewalks and shared use paths will connect residents and visitors to destinations along the corridor such as the: Olney Theatre, Sherwood Elementary School and High School, area restaurants and retail, and transit in Sandy Spring. This project is part of the Heritage Triangle Trail, which will provide for a safe walkable and bikeable shared use path network to the existing cultural resources in the Sandy Spring/Ashton and Olney area. This project will comply with the 2018 Approved and Adopted Montgomery County Bicycle Master Plan, the Sandy Spring and Ashton Master Plans and the Vision Zero 2030 Plan goals.

OTHER

The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries within the County's roadways to zero by 2030 and to provide a safe, low stress and connected bicycle network.

FISCAL NOTE

The County is providing \$200,000 as part of its contribution to the final design to be completed by the Maryland Department of Transportation State Highway Administration through the Bicycle Retrofit Program. Additional County funding will be needed to provide a 25 percent match of the total construction cost and all of the land acquisition costs. Additional funding amounts will be determined at the conclusion of design.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Maryland DOT State Highway Administration, Maryland Department of the Environment, Maryland-National Capital Park and Planning Commission, Montgomery County Department of Permitting Services, Montgomery County Department of Environmental Protection, Utility Companies

PROJECT DESCRIPTION

This project provides for pedestrian and bicycle improvements for dual bicycle facilities (on-road and off-road) and enhanced, continuous pedestrian facilities along Seven Locks Road from Montrose Road to Bradley Boulevard (3.3 miles) plus a bike path on Montrose Road between Seven Locks Road and the I-270 ramp, plus northbound and eastbound auxiliary through lanes with on-road bike lanes at the intersection of Seven Locks Road and Tuckerman Lane. The project is broken down into three phases: Phase I provides dual bikeway and pedestrian facilities for the segment of Seven Locks Road from Montrose Road to Tuckerman Lane including the bike path on Montrose and the improvements to the Tuckerman Lane intersection. Phase II provides a dual bikeway and pedestrian facilities for the segment of Seven Locks Road from Tuckerman Lane to Democracy Boulevard. Phase III provides a dual bikeway and pedestrian facilities for the segment of Seven Locks Road from Democracy Boulevard to Bradley Boulevard.

LOCATION

Potomac-Travilah

ESTIMATED SCHEDULE

\$500,000 was provided in Facility Planning: Transportation CIP Project (#509337) in FY21 to refresh conceptual design to comply with the latest Complete Street Design Guide. Project components are scheduled to commence beyond six years.

PROJECT JUSTIFICATION

This project is needed to address bicycle facility disconnects along Seven Locks Road. The roadway lacks adequate north-south, on-road/off-road bicycle facilities necessary to provide continuity and connection between existing and future bike facilities. Continuous bicycle and pedestrian facilities are needed to allow safe access to residential, retail and commercial destinations, as well as existing religious and educational and facilities. Plans and studies include: 2002 Potomac Sub-Region Master Plan; 2018 Countywide Bikeways Master Plan and MCDOT Facility Planning Phase I & II

OTHER

Costs are based on preliminary design. Construction costs will be updated during the design phase. This project currently provides funding for Phase I improvements only. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County Roadways to zero by 2030. A facility planning refresh was completed in FY22 to determine changes needed to meet current pedestrian and bicycle guidelines. Though the proposed width of the roadway has decreased, the proposed width of the pedestrian and bicycle facilities has increased per the Complete Street Design Guide, and therefore, the overall typical section remains largely the same throughout the project limits.

FISCAL NOTE

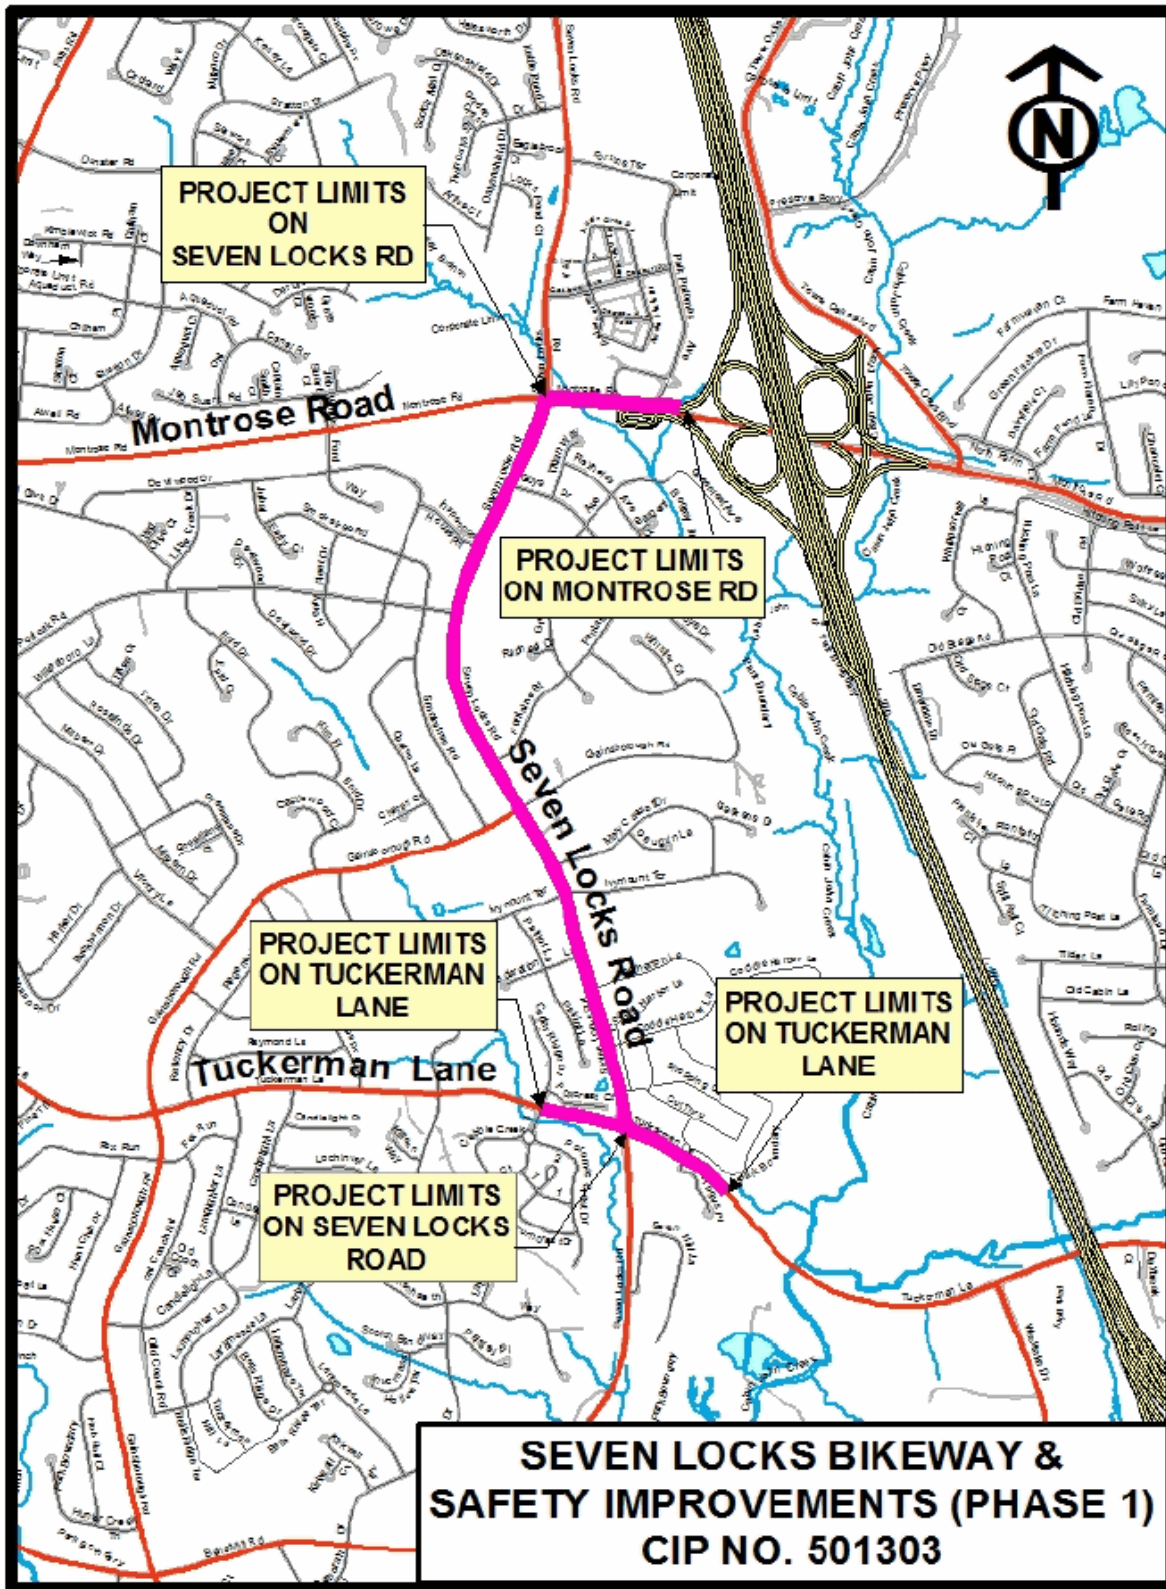

The total estimated cost of the project for all three phases is approximately \$70 million, including design, land acquisition, site improvements, utility relocation, and construction. The project can be built in phases to better absorb cost and financial constraints.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland-National Capital Park and Planning Commission, Department of Permitting Services, Pepco, Verizon, Washington Gas, Washington Suburban Sanitary Commission; Special Capital Projects Legislation will be proposed by the County Executive.

PROJECT DESCRIPTION

This pedestrian access improvement program provides sidewalks on County-owned roads and some State-maintained roadways. Some funds from this project will go to support the Renew Montgomery program. The Department of Transportation maintains an official list of all outstanding sidewalk requests. Future projects are evaluated and selected from this list, which is continually updated with new requests. In addition, projects identified by the Citizens' Advisory Boards are placed on the list. One aspect of this project will focus on improving pedestrian walkability by creating a safer walking environment, utilizing selected engineering technologies, and ensuring Americans with Disabilities Act of 1990 (ADA) compliance.

COST CHANGE

Cost change is due to inflation and the addition of FY29 and FY30.

PROJECT JUSTIFICATION

In addition to connecting existing sidewalks, these projects increase pedestrian safety and facilitate walking to: Metrorail stations, bus stops, shopping and medical centers, employment, recreational, and school sites. This program also complements and augments the bikeways that are included in road projects.

OTHER

Projects originate from requests by residents, civic associations, and public agencies. Requests are evaluated and scheduled using sidewalk prioritization procedures. The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County Roadways to zero by 2030. DOT is reviewing the GIS-based prioritization tool which will help evaluate the sidewalk requests based on safety, trip generators, and equity data.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Renew Montgomery Program, Maryland-National Capital Park and Planning Commission, Maryland DOT State Highway Administration, Montgomery County Public Schools, Washington Metropolitan Area Transit Authority, Sidewalk and Infrastructure Revitalization, Maryland Mass Transit Administration, Montgomery County Pedestrian Safety Advisory Committee, Commission on People with Disabilities

PROJECT DESCRIPTION

The Silver Spring and Bethesda Secure Bike Parking Facilities will be located at the Silver Spring and Bethesda Metro Stations and will provide a secure area for people biking to park. This will give them the peace-of-mind that their bikes will not be vandalized or stolen while they are parked. Similar facilities have been built at other Metro stations in the region, including College Park, East Falls Church, Wiehle-Reston East, and one is under construction at Grosvenor.

LOCATION

Downtown Silver Spring and downtown Bethesda

ESTIMATED SCHEDULE

The Silver Spring Secure Bike Parking Facility will be constructed in FY25. The Bethesda Secure Bike Parking Facility will be constructed in FY27 after Purple Line construction is completed.

PROJECT JUSTIFICATION

As the County builds out its low-stress bike network, providing convenient and secure bike parking facilities is critical. If people worry that their bike will be stolen or vandalized while parked, they will likely choose not to bike, even if the bikeways are comfortable and convenient. This project will add secure bike parking facilities at the Silver Spring Transit Center and the Bethesda Metro Station, both of which are served by the Metro Red Line and will soon be served by the Purple Line light rail.

FISCAL NOTE

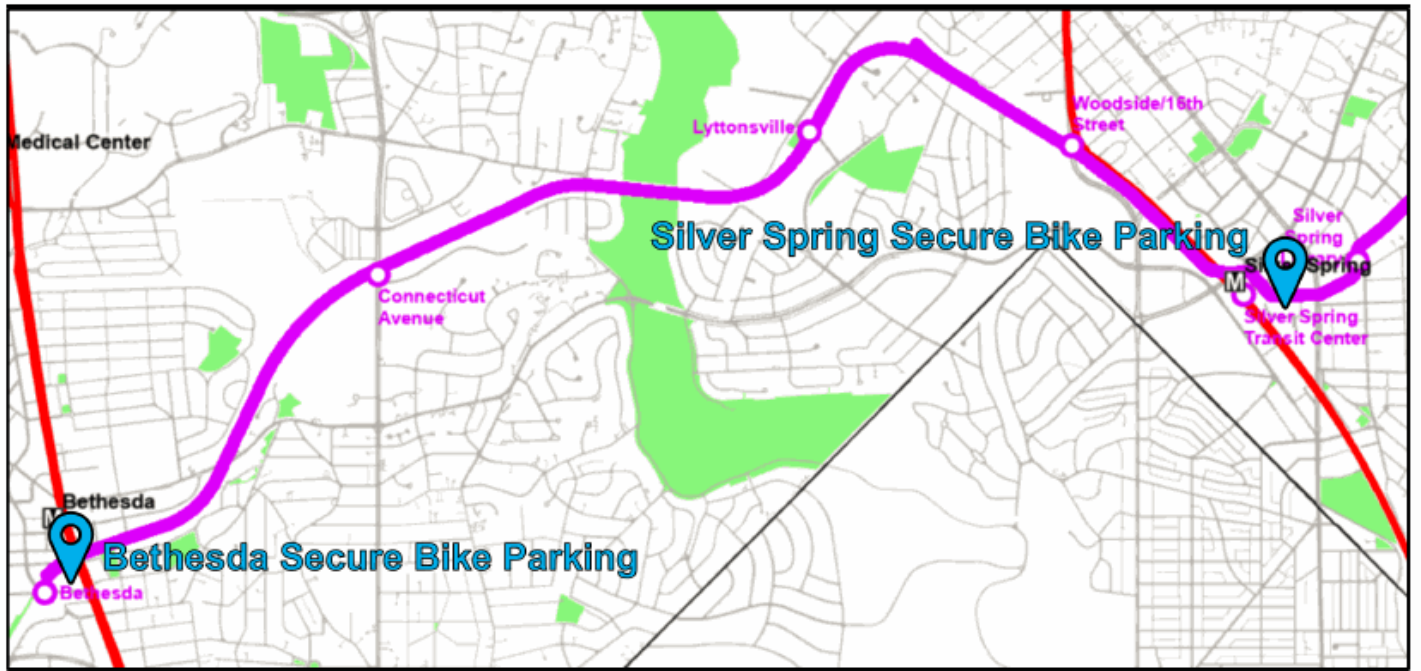

These projects are funded by a federal earmark covering 80% of the cost.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Coordination will be required with MTA Purple Line construction, the Silver Spring Urban District, the Bethesda Urban District, the Bethesda Urban Partnership, and the Montgomery County Parks Department.

PROJECT DESCRIPTION

This project provides for an urban trail along the selected Purple Line alignment along Wayne Avenue in Silver Spring. A Memorandum of Understanding (MOU) will be established between the County and the Maryland Transit Administration (MTA) to incorporate the design and construction of the trail as a part of the design and construction of the Purple Line. The pedestrian and bicycle use along this trail supplements the County transportation program. The funding provided for the trail includes the design, property acquisition, and construction of the trail through the Silver Spring Central Business District (CBD), along the northern side of Wayne Avenue from Fenton Street to the Sligo Creek Hiker-Biker Trail. This trail is part of a transportation corridor and is not a recreation area of State or local significance. The trail will include an 8 to 10 foot wide bituminous shared use path, lighting, and landscaping. The trail will provide access to the Silver Spring Transit Station via the Metropolitan Branch and the future Capital Crescent Trail.

ESTIMATED SCHEDULE

In FY21, the schedule was revised again based on actual progress and MTA's latest revised cash flow projection.

PROJECT JUSTIFICATION

This project will create an important link through Silver Spring to the Silver Spring Transit Center and will provide connectivity to other trails and mitigate congestion on area roads.

OTHER

This project also supports the County Executive's Vision Zero initiative which aims to reduce injuries and fatalities on all roads.

FISCAL NOTE

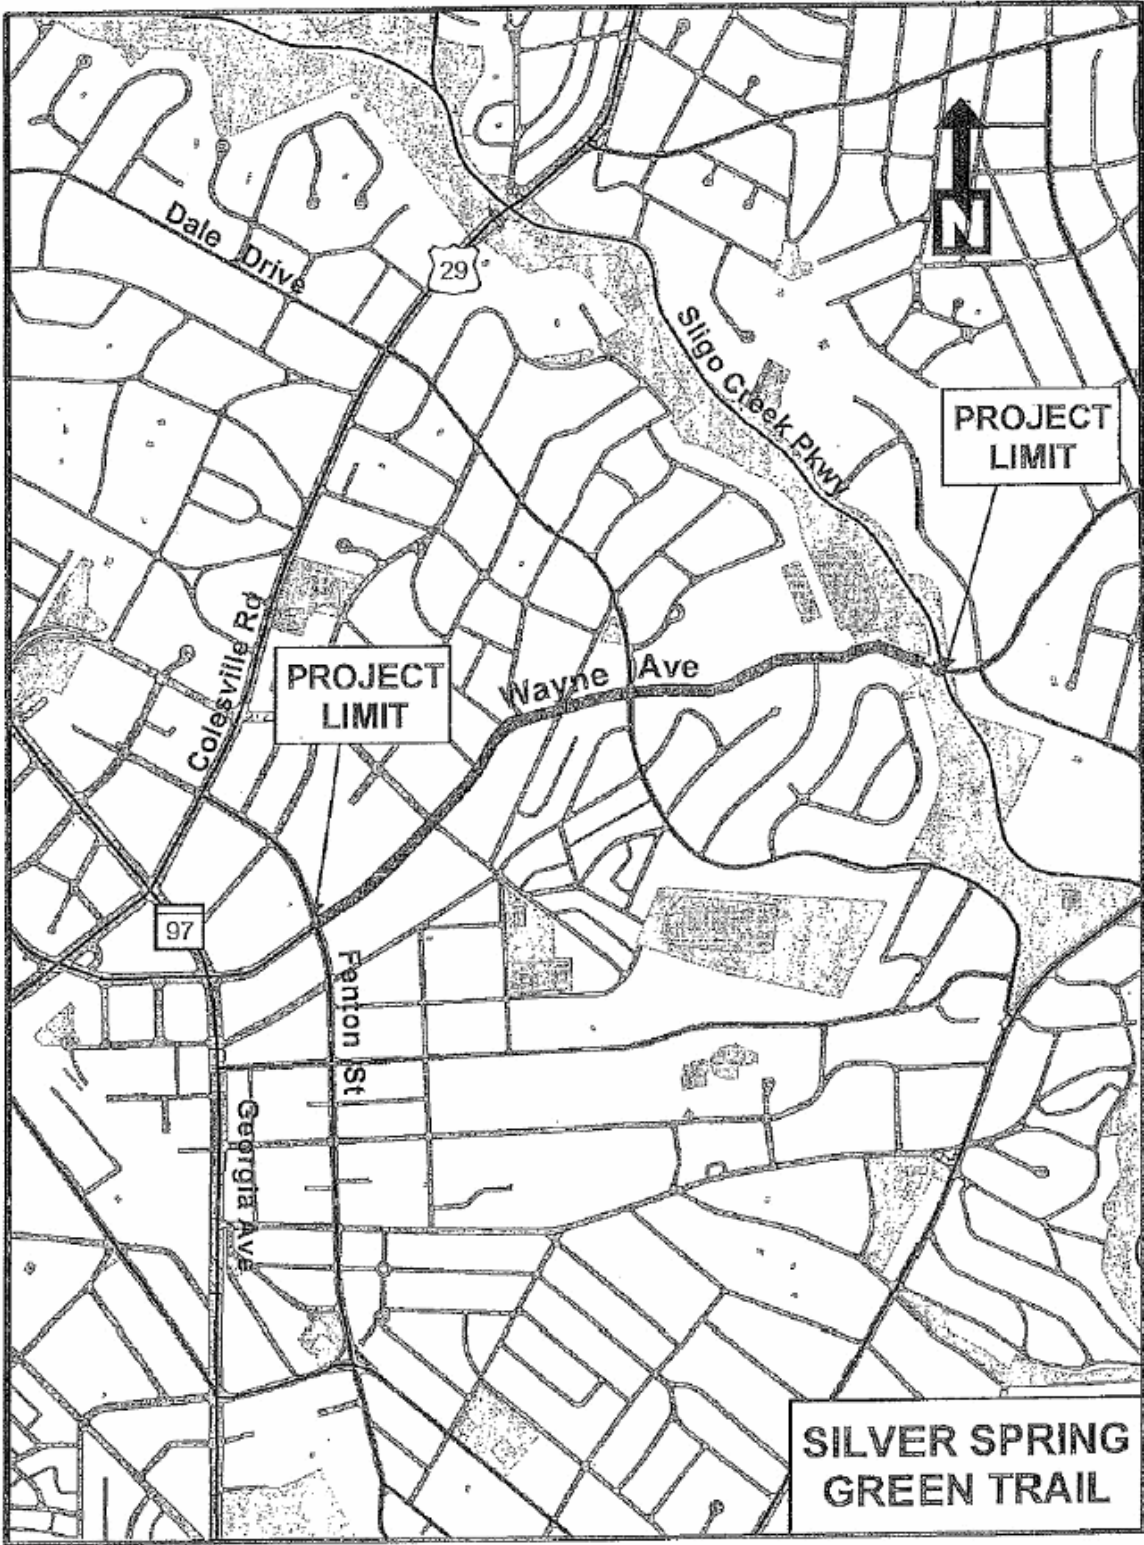

In March of 2021, the schedule was adjusted to shift funding from each year to the next year from FY21 through FY26 to further reflect the expected construction progress and estimated billing schedule based on the Purple Line's plan to re-solicit a new general contractor to complete the project.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

PROJECT DESCRIPTION

This project provides for transportation improvements such as intersection modifications, sidewalks, traffic signals, streetlights, etc., necessary for safe pedestrian and vehicular circulation for schools identified in the Montgomery County Public Schools (MCPS) Capital Program. One aspect of this project will focus on improving pedestrian walkability by creating a safer walking environment, utilizing selected engineering technologies, and ensuring ADA compliance.

COST CHANGE

Cost increase due to inflation in FY25-28. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

This project is the result of a task force which included representatives from the County Executive, County Council, MCPS, Maryland-National Capital Park and Planning Commission (M-NCPPC), and the Maryland State Highway Administration (MSHA). The construction of schools in the County must be supported by off-site transportation improvements to provide safe access. An individual study has been undertaken to identify requirements related to each new school.

OTHER

Projects included in this program are subject to Council-approved changes in the MCPS program. Safety assessments and studies as part of the Safe Routes to Schools Program are funded in the Department of Transportation's (DOT) operating budget. Recommendations from those studies can result in the need for capital improvements that are beyond the scope of the operating budget. Current/Planned Projects: William B. Gibbs Jr Elementary School, Northwest High School, Jones Lane Elementary School and Bradley Hills Elementary School.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely.

COORDINATION

Montgomery County Public Schools, Maryland-National Capital Park and Planning Commission, Department of Permitting Services, Maryland State Highway Administration, Montgomery County Pedestrian Safety Advisory Committee

PROJECT DESCRIPTION

This project provides for the design and construction of pedestrian and bicycle safety improvements along the 3.8-mile section of Tuckerman Lane between Falls Road (MD 189) to Old Georgetown Road (MD 187). The corridor improvements have been broken into four buildable segments so that projects can be initiated as funding becomes available. The four segments include: 1) Falls Road to Seven Locks Road, 2) Seven Locks Road to Angus Place, 3) Angus Place to Whisperwood Lane and 4) Whisperwood Lane to Old Georgetown Road. The potential improvements differ for each segment and were developed based on an effort to minimize potential impacts by remaining within the existing right-of-way (ROW), while optimizing pedestrian and on/off-road cyclist safety and connectivity along the corridor. Segment 1 includes eleven foot travel lanes in each direction, an eight foot parking lane on one side of Tuckerman Lane, a new six and a half foot and a new five and a half foot on-road bike lane in each direction, a ten foot shared use path on the north side and a five foot sidewalk on the south side. In addition, there are safety improvements and crosswalks being installed within the project limits.

LOCATION

Potomac-Cabin John Vicinity

ESTIMATED SCHEDULE

The first phase of this project provides for design and construction of a sidewalk along the south side of Tuckerman Lane from Gainsborough Road to the end of the existing sidewalk approximately 380 feet west of Potomac Crest Drive. The first phase of segment one will start construction in FY27 and finish in FY28. The second phase of this project provides for design and construction of a ten-foot wide sidepath on the north side of Tuckerman Lane and a new five-foot wide sidewalk on the south side of Tuckerman Lane for Segment 1. The limits are between Falls Road to Seven Locks Road, approximately 1.7 miles. The project also provides resurfacing and restriping of the existing roadway to maintain 11-foot travel lanes in both directions, an 8-foot parking lane on one side of Tuckerman Lane, a new 6.5-foot and a new 5.5-foot bike lanes in both directions of Tuckerman Lane, as well as minor safety intersection improvements and crosswalks within the project limits. Phase 2 final design, land acquisition, utility relocation and construction will be completed beyond the six year period.

COST CHANGE

Cost increases due to inflation in construction management and materials.

PROJECT JUSTIFICATION

The purpose of the project is to improve pedestrian and bicyclist safety along Tuckerman Lane. There are no pedestrian facilities on the south side of Tuckerman Lane within the project limits. This segment of Tuckerman Lane is mainly residential where several schools are located, including Herbert Hoover Middle School and Winston Churchill High School.

OTHER

This project supports the County Executive's Vision Zero initiative which aims to reduce injuries and fatalities on all roads.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

Twinbrook Connector Trail

PROJECT DESCRIPTION

This project will design and construct the relocation of the existing Parklawn North Connector Trail from the roadway shoulder to facilitate a new Bus Rapid Transit (BRT) line on Veirs Mill Road (MD 586) between Rock Creek and Aspen Hill Road in Rockville. The long-term BRT alternative for Veirs Mill Road includes curbside dedicated lanes, which will conflict with the existing trail location. The project will be managed by Montgomery Parks with the intention of relocating the trail prior to BRT construction in this vicinity.

ESTIMATED SCHEDULE

Design is scheduled to start in FY24. Construction will start in FY25 and be completed in FY26.

PROJECT JUSTIFICATION

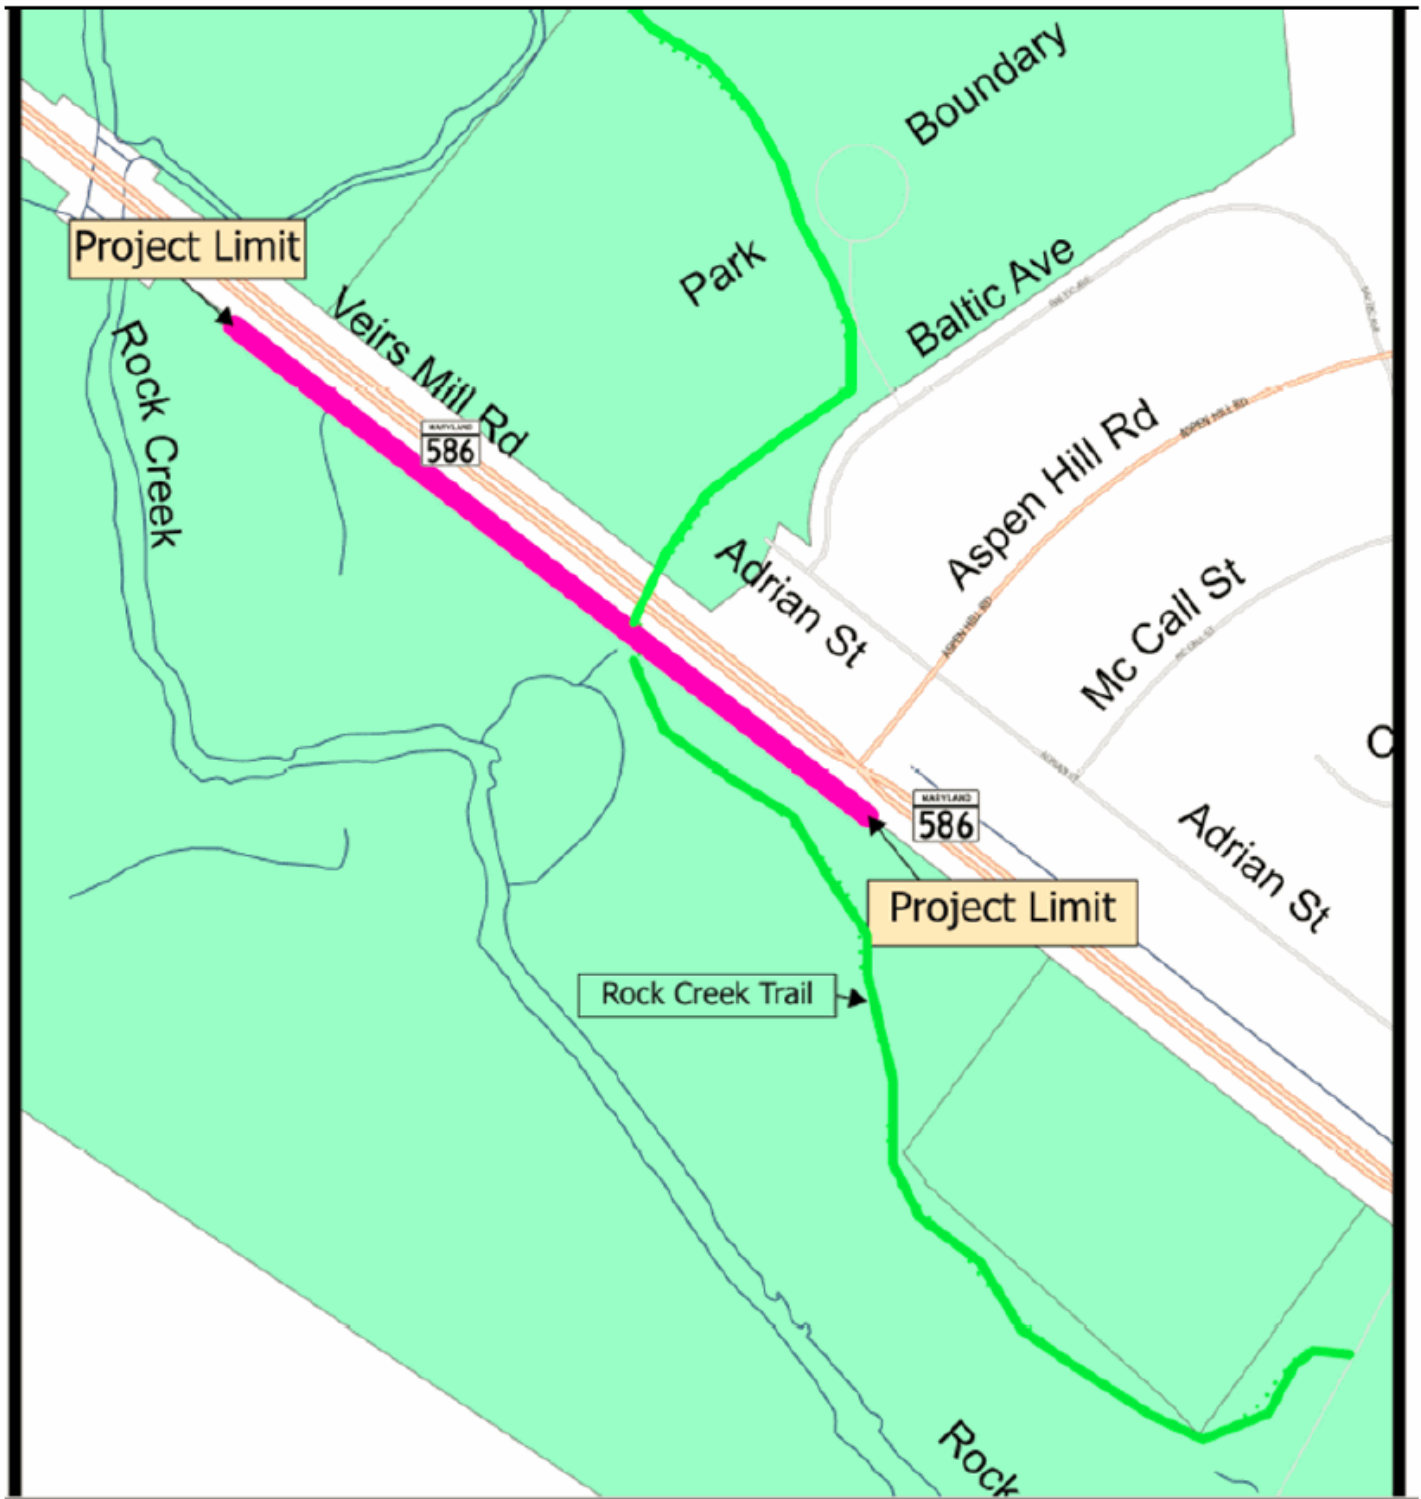

The project will maintain trail connectivity while allowing implementation of a BRT service along Veirs Mill Road. Maintaining this established trail connector will increase opportunity for a broad range of users, including a significant number of minority and low-income riders living along a highly congested corridor. The project will improve passenger transit mobility by connecting BRT riders to high density housing and employment centers.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Maryland Department of Transportation, Maryland Department of the Environment, Maryland-National Capital Park and Planning Commission.

PROJECT DESCRIPTION

This project funds the design and construction of pedestrian and bicycle improvements to Flash stations along the US 29 corridor. First and last mile connections to Flash BRT stations along US 29 were identified as part of the US 29 Mobility and Reliability Study effort. These sub projects would expand and improve the existing pedestrian and bicycle network by filling gaps and upgrading existing facilities. Potential projects could include new and upgraded crosswalks and pedestrian signals, new and upgraded curb ramps, new and upgraded sidewalks, and new and upgraded bicycle facilities. Projects that improve ADA access will be prioritized. Added State Aid will support improvements north of Randolph Road.

LOCATION

Areas around the US 29 Flash stations along US 29 Colesville Road/Columbia Pike, Lockwood Drive, Stewart Lane, Castle Boulevard, Briggs Chaney Park and Ride, and Burtonsville Park and Ride.

ESTIMATED SCHEDULE

Identification of improvements north of Randolph road started in FY23 and implementation of improvements such as sidewalk repairs, ADA repairs, and general maintenance occurred in FY24. Design and construction for projects south of Randolph Road would begin in FY25 and continue into future fiscal years. Initial improvements will be focused around the Four Corners southbound station.

COST CHANGE

Cost increase due to inflation in FY25-28. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

These projects will complement the initial investment the county and federal government made in the US 29 Flash service by expanding and improving access for pedestrians and cyclists to the stations. The projects will also improve pedestrian and bicyclist mobility and safety. Projects will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways. Improving access to US 29 Flash supports master plan efforts to increase the number of persons traveling by bike, on foot, and via transit. This is in line with the County's Climate Action Plan goals for reducing greenhouse gas emissions. The project supports the following countywide vision goals: Safe Neighborhoods, Easier Commutes, and a Growing Economy. Approved land use plans in the corridor recommend the implementation of transit lanes and new pedestrian and bicycle infrastructure along with US 29 Flash. The project is consistent with the Countywide Transit Corridors Functional Master Plan and County Bicycle Master Plan.

FISCAL NOTE

Construction cost estimates are based on facility planning conceptual cost estimates completed in FY21 of \$95 million. Construction costs will be updated as design progresses. State Aid reflects state grants for capital projects in Montgomery County programmed during the 2022 State General Assembly Session. It is intended to address first- and last-mile access for stations north of Randolph Road.

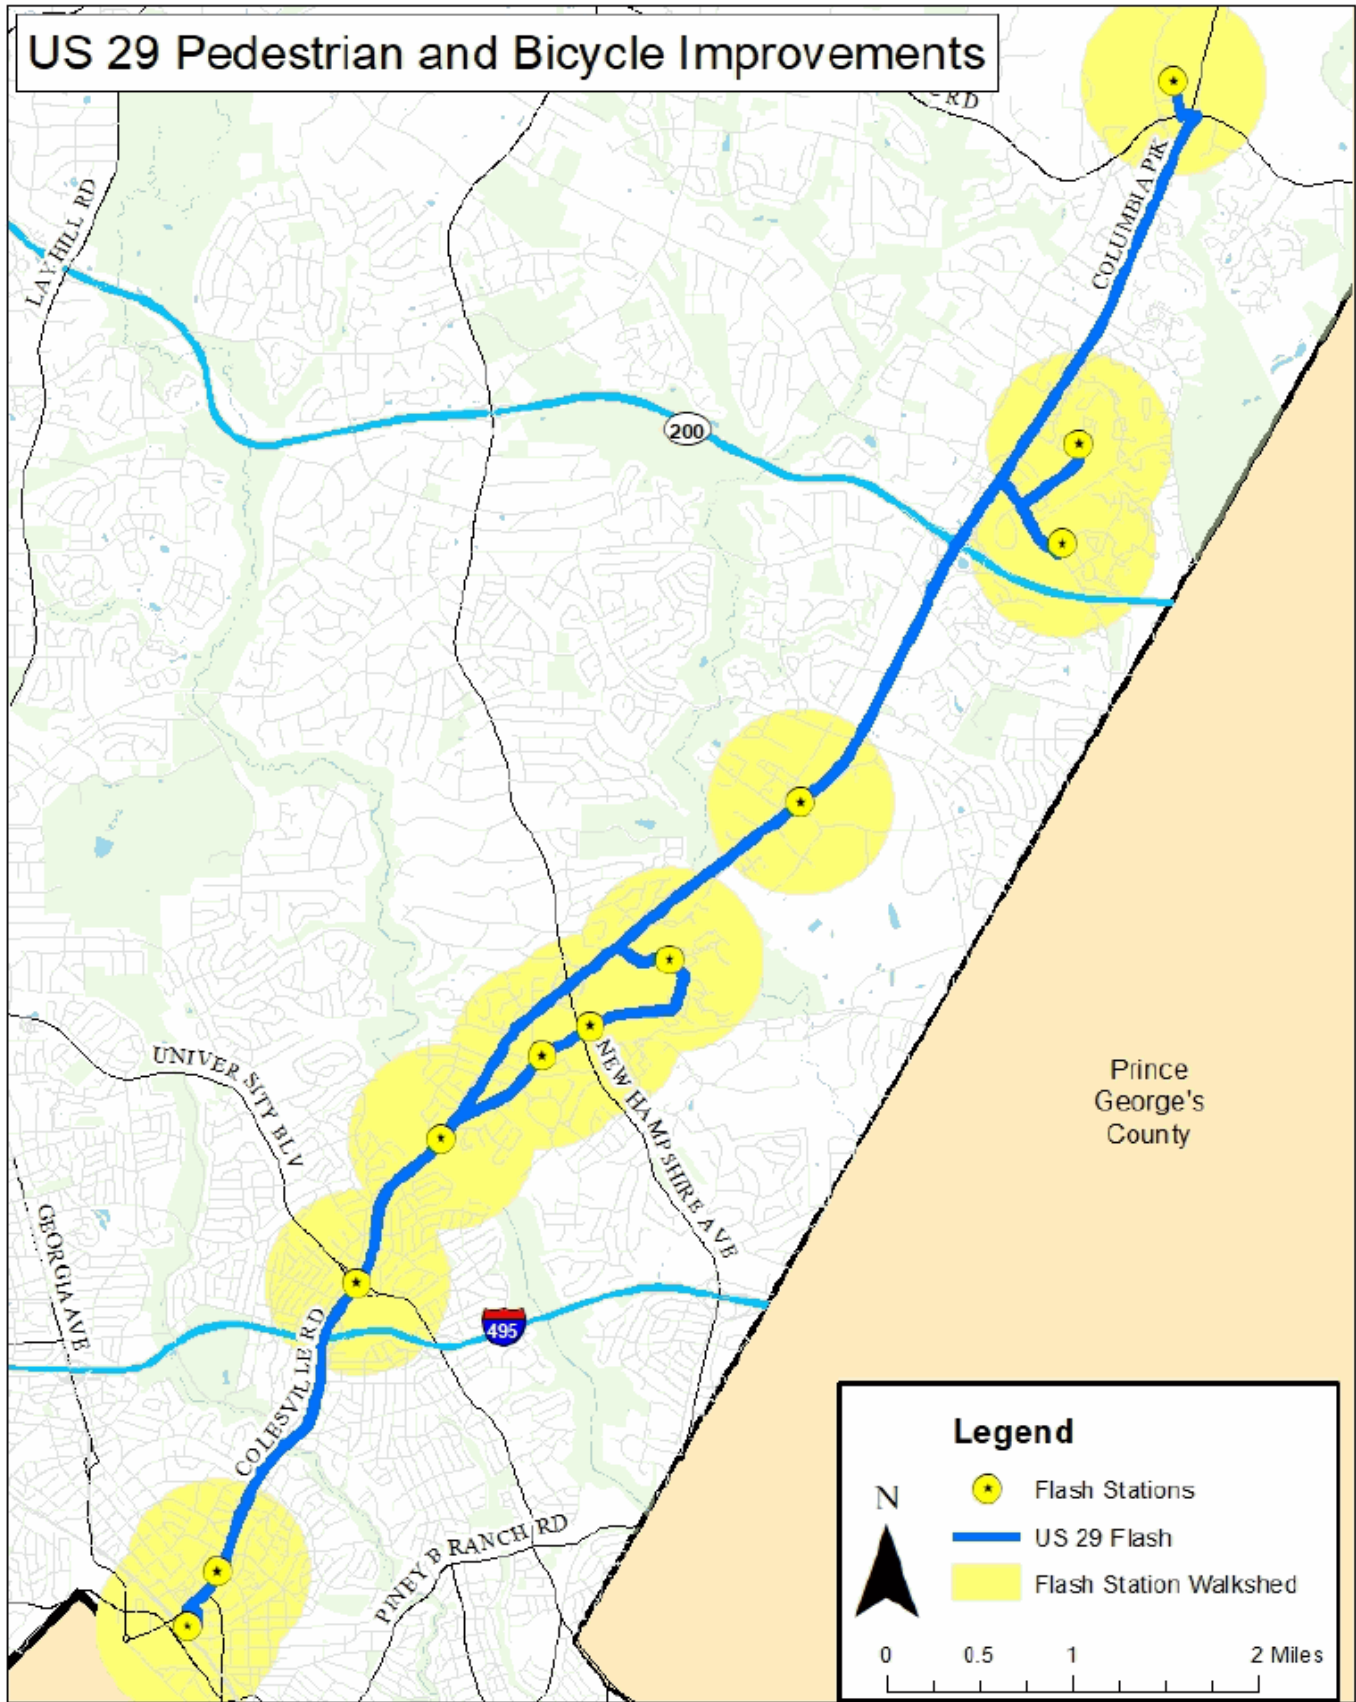

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland-National Capital Park and Planning Commission (M-NCPPC), Maryland DOT State Highway Administration & Maryland Transit Administration, Utility Companies, Department of Environmental Protection, Department of Permitting Services, Washington Gas, Pepco, Baltimore Gas & Electric (BG&E), Comcast, Verizon, Maryland Department of Natural Resources, Montgomery County Pedestrian Safety Advisory Committee, Commission on People with Disabilities, Citizen Advisory Boards, US 29 BRT Corridor Advisory Committee, Neighborhood and Civic Associations, Montgomery County Bicycle Action Group, Washington Area Bicycle Association, and Washington Metropolitan Area Transit Authority (WMATA).

PROJECT DESCRIPTION

This project provides a new roadway between Spencerville Road (MD 198) and the School Access Road in Burtonsville. This roadway will consist of two 12-foot lanes, closed section, for a length of approximately 1,000 linear feet. The project also includes an eight-foot parking lane, curb and gutter, a sidewalk, a sidepath, landscaping, and street lighting. Approximately 400 linear feet of the road has been built by a developer as access to the Burtonsville Town Square Shopping Center.

CAPACITY

The roadway and intersection capacities for year 2025 Average Daily Traffic (ADT) for MD 198 is projected to be 40,700 vehicles per day.

ESTIMATED SCHEDULE

Design completed FY23. Land acquisition to be completed in FY25. Construction starts and ends in FY25.

PROJECT JUSTIFICATION

This project implements the recommendations of the Fairland Master Plan. The proposed modifications to MD 198 (US 29 to Old Columbia Pike), which the Maryland Department of Transportation (MDOT) will undertake to correct the high incidence of accidents and improve capacity of the road, will eliminate access off MD 198 to the businesses along the north side of MD 198. The proposed roadway will provide rear access to businesses and will create a more unified and pedestrian-friendly downtown Burtonsville. The project has been developed based on a planning study for Burtonsville Access Road and was called for by the Fairland Master Plan.

FISCAL NOTE

Intergovernmental revenue represents WSSC Water's share of water and sewer relocation costs.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland DOT State Highway Administration, Montgomery County Public Schools, Facility Planning: Transportation, Department of Public Libraries, Department of Transportation, Technology and Enterprise Business Solutions, Department of Permitting Services, Department of Housing and Community Affairs, WSSC Water, Washington Gas, Pepco, Verizon, Developer

PROJECT DESCRIPTION

This project provides funds for the study and prioritization of improvements to Dedicated but Unmaintained (DBU) County Roads in order to accept them into the County's road maintenance system. Once the need and priority of the roadway improvements are established, funding will be provided for their design and construction. As stipulated in the DBU County Roads Policy, the County will fund planning, design and supervision costs up to 10 percent of the total cost of each project. The remaining costs for these projects will be recovered from the communities through a special tax assessment. The DBU County Roads Policy was developed by the DBU County Roads Working Group. The policy provides guidance for County officials in responding to requests from residents for improvements to, or maintenance of, DBU County Roads in a consistent manner and establishes criteria for evaluating the need for improvements to the DBU County Roads.

COST CHANGE

Cost decrease due to savings in prior years. FY29-30 added to this level of effort project.

PROJECT JUSTIFICATION

A total of 59 roads have currently been identified and inventoried as DBU County Roads. In the past, residents have requested that the County assume maintenance of various non-standard roads even though County policy prohibits acceptance of maintenance responsibilities for roadways that do not meet appropriate County standards. The purpose of this project is to respond to these requests in accordance with the recently adopted DBU County Roads Policy. Under the terms of the policy, citizen requests will result in comparative studies of the DBU County Roads being performed to determine the priority and ranking of the requested projects.

OTHER

DOT completed a re-evaluation report in FY22 and recommended maintaining this program.

FISCAL NOTE

Annual level of effort funding is provided to develop initial responses to community requests. Funding to complete studies beyond the current appropriation limit or for design and construction will be added as road improvement projects are identified and recommended through this program.

COORDINATION

Montgomery County Department of Permitting Services, Montgomery County Department of Finance, Montgomery County Civic Federation

PROJECT DESCRIPTION

This project provides for planning and preliminary engineering design for new and reconstructed highway projects under consideration for inclusion in the Capital Improvements Program (CIP). Prior to the establishment of a stand-alone project in the CIP, the Department of Transportation will perform Phase I of facility planning, a rigorous planning-level investigation of the following critical project elements: purpose and need; usage forecasts; traffic operational analysis; community, economic, social, environmental, and historic impact analyses; recommended concept design and public participation are considered. At the end of Phase I, the Transportation, Infrastructure, Energy and Environment (T&E) Committee of the County Council reviews the work and determines if the project has the merits to advance to Phase II of facility planning: preliminary (35 percent level of completion) engineering design. In preliminary engineering design, construction plans are developed showing specific and detailed features of the project, from which its impacts and costs can be more accurately assessed. At the completion of Phase II, the County Executive and County Council hold project-specific public hearings to determine if the candidate project merits consideration in the CIP as a funded stand-alone project.

COST CHANGE

Added funding in FY25 and FY26 for development of curbside management guidelines in coordination with Maryland-National Capital Park and Planning Commission and for candidate projects in FY29 and FY30.

PROJECT JUSTIFICATION

There is a continuing need to define the scope and determine need, benefits, implementation feasibility, horizontal and vertical alignments, typical sections, impacts, community support/opposition, preliminary costs, and alternatives for master planned transportation recommendations. Facility Planning provides decision makers with reliable information to determine if a master planned transportation recommendation merits inclusion in the CIP as a stand-alone project. The sidewalk and bikeway projects in Facility Planning specifically address pedestrian needs.

FISCAL NOTE

Starting in FY23, Mass Transit and Pedestrian/Bike related projects are funded in Facility Planning: Mass Transit (P502308) and Facility Planning: Pedestrian Facilities/Bikeways (P502312), respectively.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland DOT State Highway Administration, Maryland Department of the Environment, Maryland Department of Natural Resources, U.S. Army Corps of Engineers, Department of Permitting Services, Utilities, Municipalities, Affected communities, Commission on Aging, Commission on People with Disabilities, Montgomery County Pedestrian Safety Advisory Committee

PROJECT DESCRIPTION

This project provides for the design and implementation of spot improvements to address safety and capacity issues along Goshen Road. The project as originally planned provided for the design, land acquisition, utility relocations, and construction of roadway improvements along Goshen Road from south of Girard Street to 1,000 feet north of Warfield Road, a distance of approximately 3.5 miles. The improvements would have widened Goshen Road from the existing two-lane open section road to a four-lane divided, closed section road, and included sidewalks, shared use paths, bike lanes, storm drain improvements, street lighting and landscaping. Due to project costs and fiscal capacity outlook, the County Executive and County Council directed the Montgomery County Department of Transportation to explore spot roadway, pedestrian and bicycle improvements that would provide the safety and capacity needs of the corridor.

CAPACITY

The Average Daily Traffic (ADT) on Goshen Road for the year 2040 is forecasted to be about 30,350 (Midcounty Highway to Centerway Road).

ESTIMATED SCHEDULE

Design update to be completed in FY30, with implementation of spot improvements to follow.

COST CHANGE

Removed cost beyond 6 years for 4-lane option which is no longer recommended. Added funding in FY30 to update previous design to reflect the no-build alternative with spot improvements. Construction costs for the spot improvements will be developed and programmed after completion of design for specific improvements.

PROJECT JUSTIFICATION

This project is much needed to address safety issues and reduce existing and future congestion, to provide infrastructure for alternate modes of transportation, and resolve drainage deficiencies. In the existing condition (no-build) many intersections are already at or will reach failure (LOS-F) by year 2040. This project will address geometric deficiencies which contribute to crashes, thereby improving pedestrian and vehicular safety.

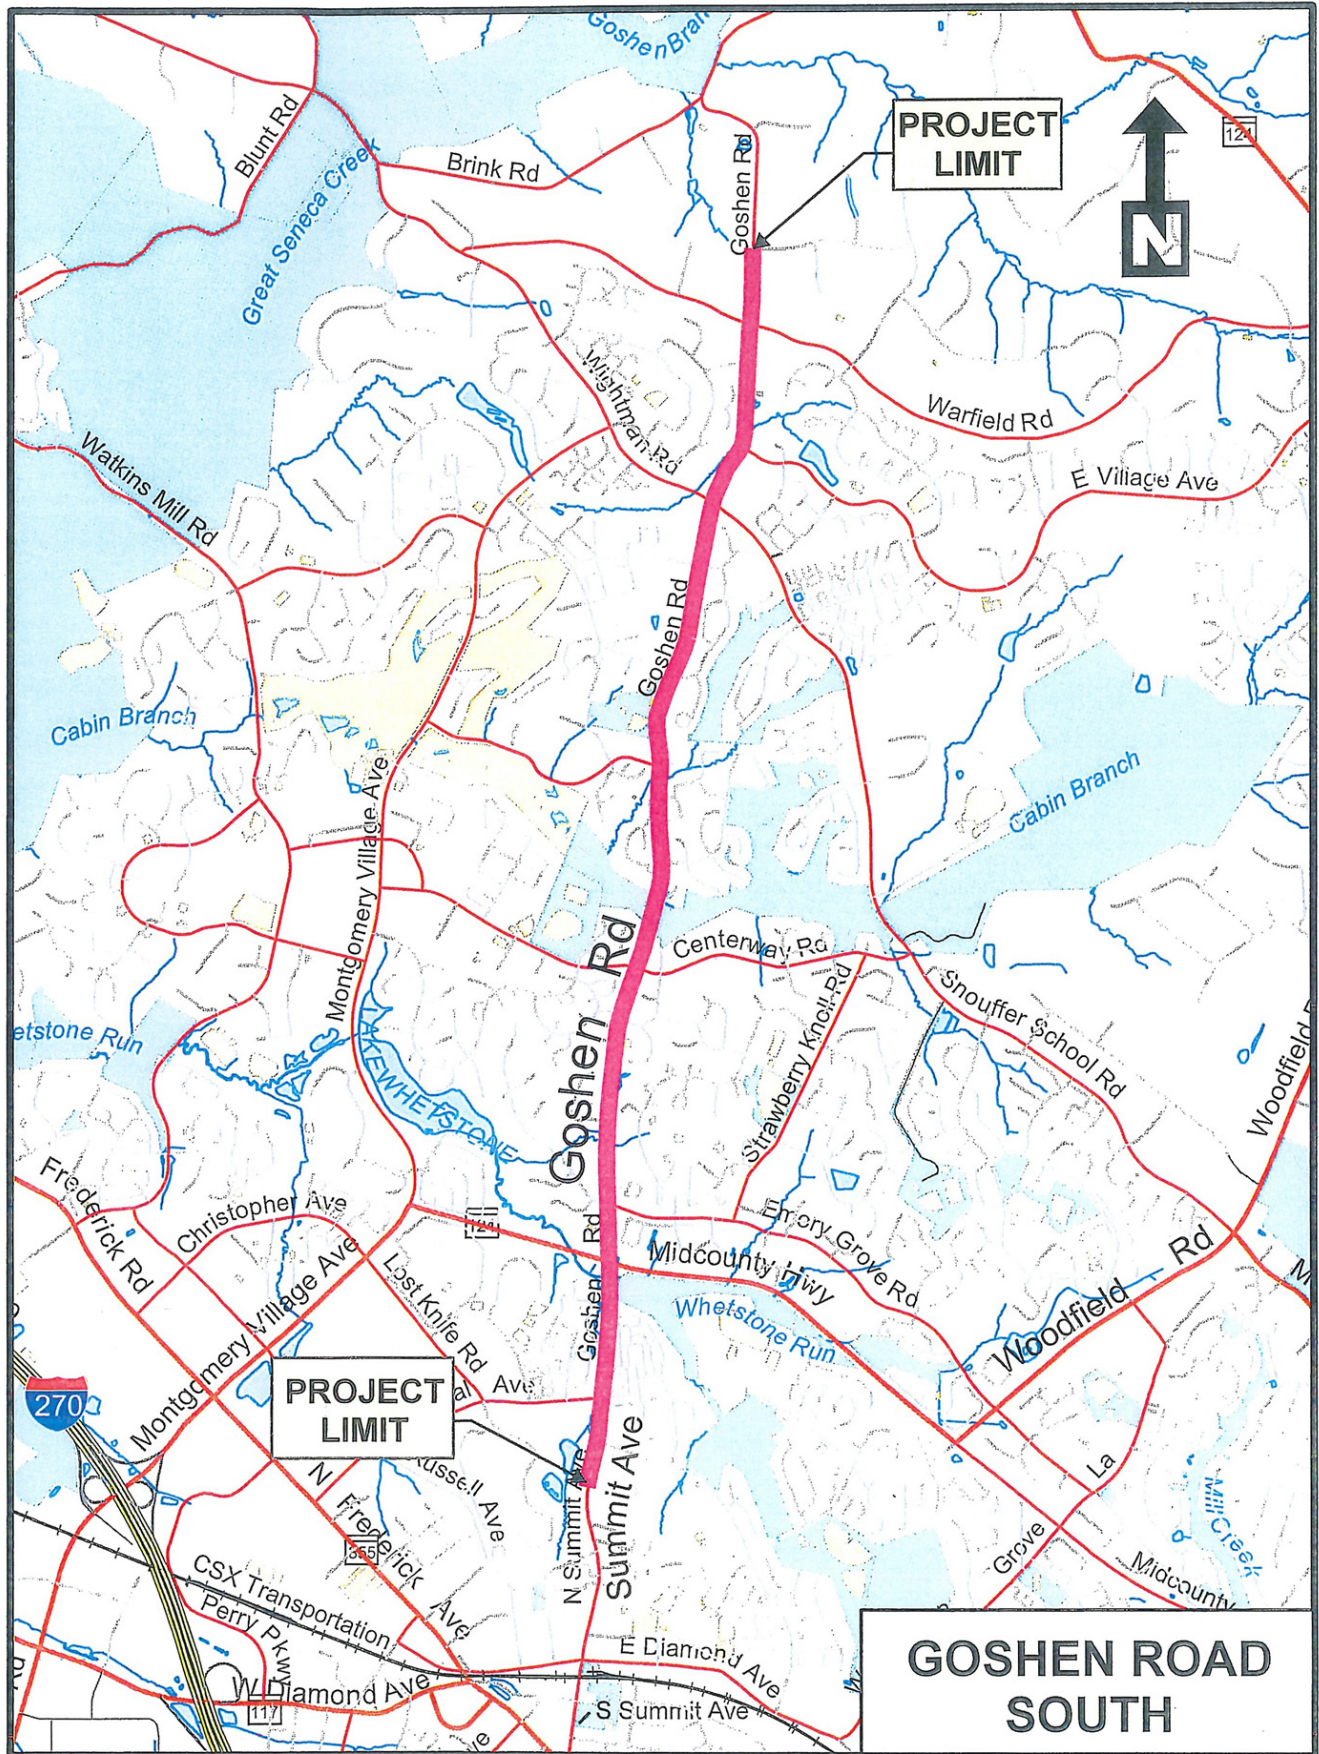

FISCAL NOTE

FY24 funding switch of \$88,000 from G.O. Bonds to Impact Tax to reflect prior year actuals.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

PROJECT DESCRIPTION

This project provides funds for the study and prioritization of noise abatement measures along publicly owned and maintained roads in Montgomery County, except freeways. Once the need and priority of the abatement measures are established, funding is provided for their design and construction.

COST CHANGE

Cost increase due to addition of FY29-30 to this level of effort program.

PROJECT JUSTIFICATION

Residents regularly request noise abatement measures along County and State roads. The purpose of this project is to respond to these requests in accordance with the Transportation Noise Abatement Policy. Requests would result in noise studies that would determine the need, whether the requested location meets the noise criteria for abatement measures, determination of its priority, and future design and construction. The Highway Noise Abatement Policy was developed by the Noise Abatement Task Force in 2001. The Policy establishes criteria for evaluating the need for noise abatement along publicly maintained roads.

OTHER

This project was conceived through participation on the Noise Abatement Task Force that developed a policy and criteria for evaluating the need and appropriateness of requests for noise abatement along publicly maintained roads in Montgomery County. The project allows for the implementation of the policy established through this Task Force by providing funds for the study and prioritization of requests and the implementation of noise abatement measures. In FY22, DOT completed a re-evaluation and recommended maintaining the program.

FISCAL NOTE

Annual level of effort funding is provided to develop initial responses to community requests. Funding to complete studies beyond the current appropriation limit or for design and construction will be added as noise abatement projects are identified and recommended through this program. There may be contributions from impacted and benefited property owners in the future as specified in the Policy. In FY12, \$21,000 was transferred to Advance Reforestation (CIP #500112).

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Maryland-National Capital Park and Planning Commission, Department of Environmental Protection, Department of Permitting Services, Maryland State Highway Administration

PROJECT DESCRIPTION

This project provides for the design and construction of a roadway extension of North High Street to Morningwood Drive in Olney. The project also provides a continuous 6-foot sidewalk on the south side of North High Street and ADA-compliant pedestrian access from Morningwood Drive.

ESTIMATED SCHEDULE

Design began in FY23 and will be completed in FY24. Land acquisition will begin in FY24 and construction will be completed in FY26.

COST CHANGE

Cost increase for design.

PROJECT JUSTIFICATION

The purpose of the project is to improve safety and enhance connectivity within the Olney town center vicinity. This project is supported by the Greater Olney Civic Association and will provide vehicular, pedestrian, and bicycle access to North High Street from Morningwood Drive instead of Georgia Avenue. This project also supports the County Executive's Vision Zero initiative which aims to reduce injuries and fatalities on all roads.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland-National Capital Park and Planning Commission, Department of Permitting Services, Greater Olney Civic Association (GOCA), Olney Town Center Advisory Committee (OTCAC).

Unencumbered Balance	3,886		

PROJECT DESCRIPTION

The project provides for the design and construction of a 2.2 mile long roadway within a minimum 150-foot right-of-way. The work will be constructed in two phases. Phase 1 includes a 4-lane divided roadway (two lanes in each direction) starting at existing Observation Drive near Waters Discovery Lane and continuing north beyond West Old Baltimore Road to the point where it meets the planned extension of Little Seneca Parkway, along with a 16-foot breezeway on the east side to provide Greenway connectivity. Phase 1 will also include the westward extension of two lanes of Little Seneca Parkway to Observation Drive. A bridge approximately 550 feet in length will be constructed near Waters Discovery Lane, ending at West Old Baltimore Road near the future MTA Comsat Station. A traffic signal will be provided at the West Old Baltimore Road intersection. In Phase 2, between Little Seneca Parkway and existing Observation Drive near Stringtown Road, the scope includes a two-lane roadway, along with an eight-foot wide shared-use path on the west side, with space for the two additional master-planned lanes and a five-foot wide sidewalk on the east side to be built in the future. Traffic signals will be provided at the Shawnee Lane and Little Seneca Parkway intersections.

LOCATION

Clarksburg and Germantown

ESTIMATED SCHEDULE

Pending issuance and adoption of new Master Plan, Phase I design will be completed in FY28. Property acquisition will begin in FY27 and construction will start beyond FY30.

COST CHANGE

Cost decrease due to scope reduction. The total project cost was updated and revised to only reflect Phase 1 based on the 35 percent design. Costs estimates will be refined as design progresses.

PROJECT JUSTIFICATION

This project is needed to provide a north-south corridor that links the existing Observation Drive to Stringtown Road, providing multi-modal access to a rapidly developing residential and business area between the I-270 and MD 355 corridors. The project improves mobility and safety for local travel and pedestrian, bicycle and vehicular access to residential, employment, commercial and recreational areas. The road design will consider incorporation of a bus rapid transit (BRT) transitway to be built at a future date.

OTHER

It is anticipated that the alignment for Phase 2 will be updated in the Clarksburg Gateway Sector Plan. Funding and implementation for Phase 2 will be reconsidered when the new alignment is determined.

Utility companies have not provided relocation estimates at this time and costs will be revised if necessary once conflicts are defined and costs are known.

FISCAL NOTE

FY24 funding switch of \$636,000 from G.O. Bonds to Impact Taxes to reflect prior year actuals.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Washington Suburban Sanitary Commission, Maryland-National Capital Park and Planning Commission, Verizon, Pepco, Washington Gas, Department of Permitting Services, Department of Environmental Protection; Special Capital Projects Legislation will be proposed by the County Executive.

PROJECT DESCRIPTION

This project provides funds to reimburse developers for street construction abutting County schools, Maryland-National Capital Park and Planning Commission (M-NCPPC) parks, or other County facilities. The County historically reimburses the developer for one-half of the cost of streets abutting parks, schools, and other County facilities. This project also funds minor roadway improvements.

COST CHANGE

Cost increase due to inflation and the addition of FY29 and FY30 to this ongoing level of effort project, net of cost savings prior to FY25.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely.

COORDINATION

Developers, Intersection Improvement Projects, Montgomery County Public Schools, Maryland-National Capital Park and Planning Commission, Transportation Improvements for Schools

PROJECT DESCRIPTION

This project provides for the County's participation for the funding of State and WMATA transportation projects that will add transportation capacity to the County's network, reduce traffic congestion in different areas of the County, and provide overall benefits to the public at large. Major projects to be funded will be selected from the most recent Joint Priorities letter signed by the County Executive and the President of the County Council and submitted to the Maryland Department of Transportation.

COST CHANGE

Cost decrease reflects estimated savings from the MD 355 and West Old Baltimore Road subproject.

PROJECT JUSTIFICATION

Montgomery County, as part of the Washington Region, has the highest level of traffic congestion in the nation. In order to directly address the congestion problems in Montgomery County, the County will participate in the construction of State projects to improve the quality of life for our residents, eliminate or reduce delays at major bottlenecks in our transportation system, improve safety, and improve air quality in the immediate vicinity of the projects.

OTHER

Through FY16, the County entered into various Memoranda of Understanding (MOUs) with the State for the following projects: • MD 355/Montrose Parkway interchange (Phase I and II) • I-270/Watkins Mill Road interchange • MD 97 at Randolph Road interchange • Bus Rapid Transit on Viers Mill Road between Wheaton and Rockville • MD 97 from Forest Glen through Montgomery Hills • MD 97/Brookville Bypass • MD 124 between Mid-County Highway and Airpark Road • Intersection Improvements of State-County roads (50%-50% cost share) Also included: Funding for the design and environmental analysis of the MD 355 Crossing (CIP #501209) and engineering design of a pedestrian tunnel beneath Georgia Avenue to access the Forest Glen Metro Rail Station. The State Highway Administration has agreed to perform the additional work for the Tapestry subdivision on West Old Baltimore Road as part of its improvements at the intersection of MD 355 and West Old Baltimore Road.

FISCAL NOTE

The funding schedule aligns with current MOU agreements with the State. \$14.463 million was originally advanced by the County to the State for the MD 355/Montrose Parkway interchange. The County received reimbursement from the State in FY10. \$2.0 million of State Aid programmed in FY11 has been moved to the Traffic System Signal Modernization project (CIP #500704) with repayment to this project in FY17. \$1.6 million in available liquor bond appropriation is reallocated to the Rapid Transit System CIP. In FY18, a funding switch was made to reduce Revenue Bonds: Liquor Fund appropriation and increase GO Bonds by \$ 7.5 million. Remaining funding in the program is anticipated for use as part of the MD 355 and West Old Baltimore Road intersection and sidewalk/sidepath

gaps in its immediate vicinity. FY19 funding switch of \$1,569,000 between GO Bonds and Impact Tax. FY19 funding switch of \$1,565,000 between GO Bonds and Impact Tax.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland State Highway Administration, Developers, Maryland-National Capital Park and Planning Commission, Montgomery County Fire and Rescue Service, Washington Metropolitan Area Transit Authority

PROJECT DESCRIPTION

This project provides for the design, review, and construction of roads or utility work that benefit new subdivisions and the public-at-large. The project may be used for land acquisition and construction of connections in primary and secondary residential roadways that cannot be made the responsibility of particular developers, County participation with developers in the construction of arterial and major highways by way of agreements, and completion of defaulted permit work to protect improvements that were completed prior to the default. Subsequent reimbursement will be sought for defaulted work.

ESTIMATED SCHEDULE

Clarksburg Road/Snowden Farm Parkway and Clarksburg Road/MD 121 both started construction in FY22 and will be completed in FY24.

COST CHANGE

Cost increase due to FY24 supplemental for Miles Coppola road participation agreement and addition of FY29-30.

PROJECT JUSTIFICATION

Several subdivisions have been approved based on this project. After a needs assessment has been made through the master plan process, roadways should be constructed as development occurs to ensure adequate public facilities.

FISCAL NOTE

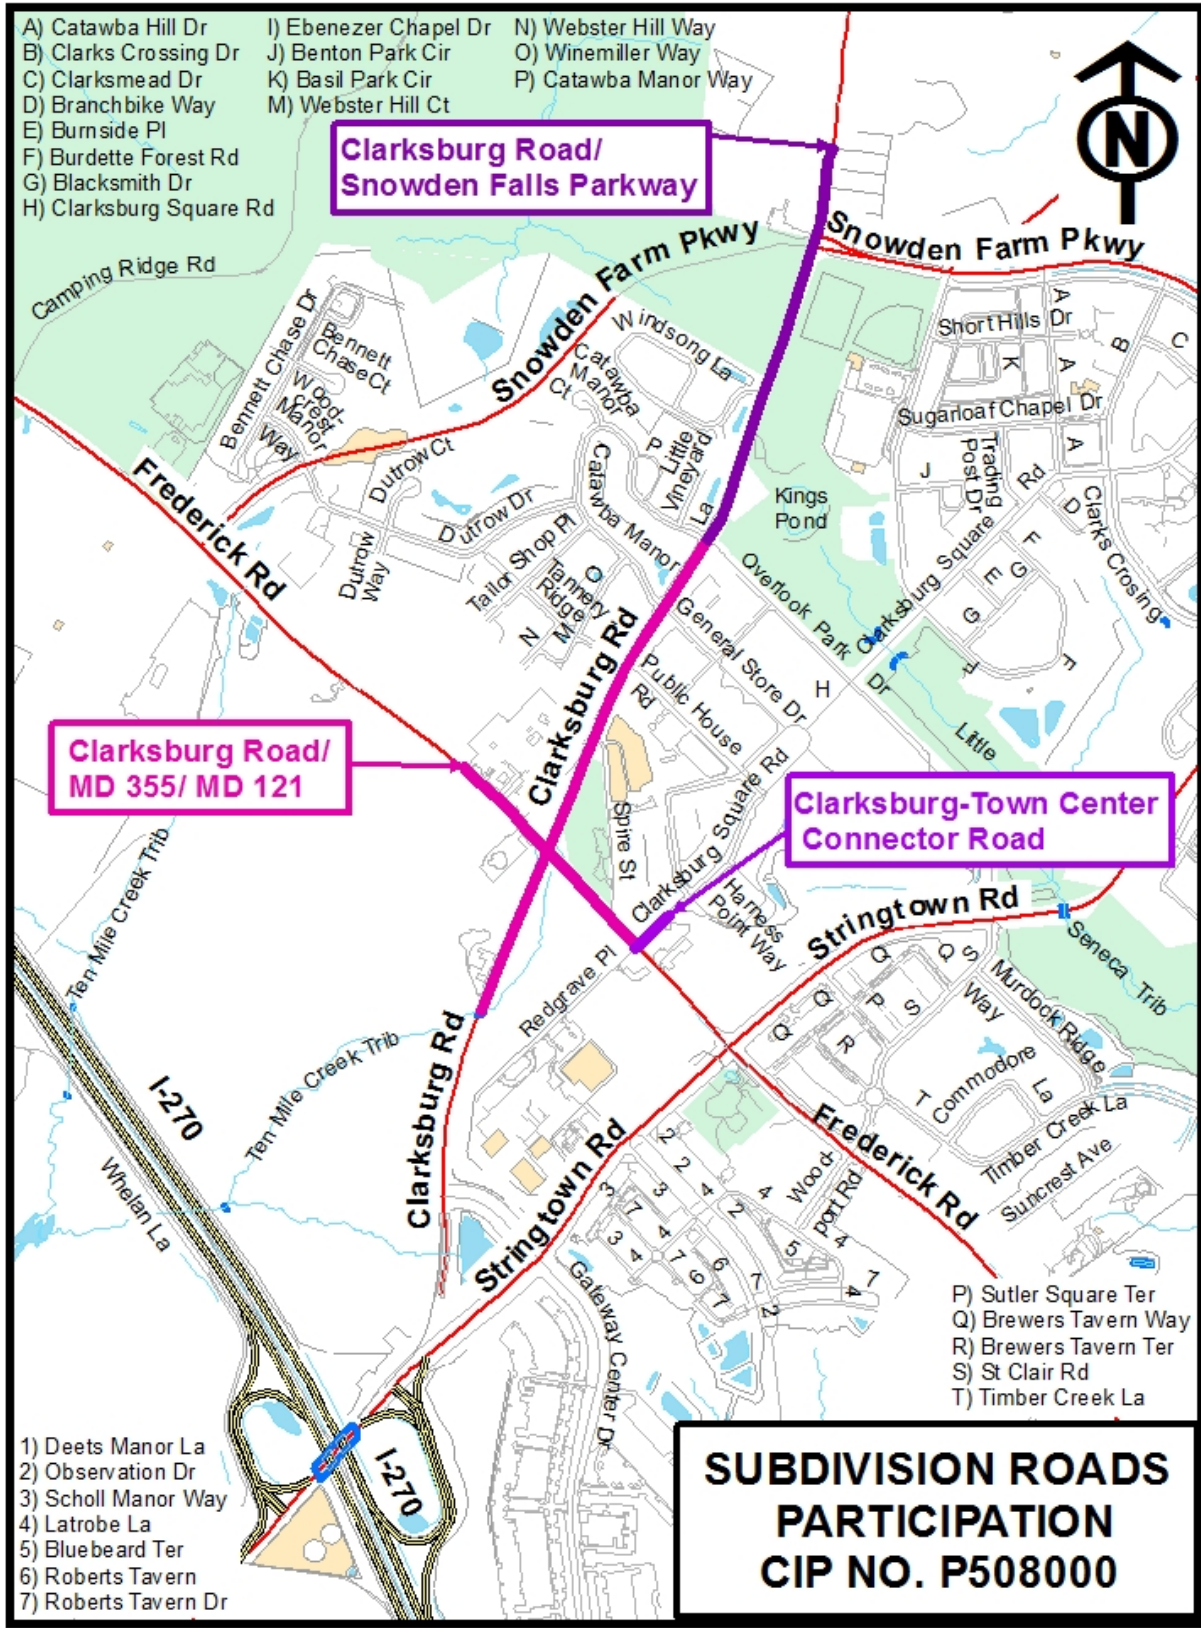

FY24 supplemental in Contributions for the amount of \$503,000. FY24 funding switch of \$3,634,000 from G.O. Bonds to Recordation Tax Premium to reflect prior year actuals.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely.

COORDINATION

Developers, Maryland-National Capital Park and Planning Commission, Maryland State Highway Administration, Required Adequate Public Facilities, Travilah Road (CIP #500101), Stringtown Road (CIP #501208)

PROJECT DESCRIPTION

This project provides for the extension of Summit Avenue in Kensington from Plyers Mill Road to Farragut Road, improvement of Farragut Road, and reconfiguration of the intersection of Connecticut Avenue (MD 185)/University Boulevard (MD 193)/Farragut Road.

ESTIMATED SCHEDULE

Final design will be completed and land acquisition will begin in FY28. Construction will start in FY29 and will be completed in FY30.

COST CHANGE

Cost increase due to increase in land costs.

PROJECT JUSTIFICATION

This project will provide an alternate route and improve mobility along Connecticut Ave, University Blvd and Plyers Mill Rd. The new roadway will provide easier access to local businesses, add bicycle and pedestrian facilities, and enhance community character.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland DOT State Highway Administration, Maryland Department of the Environment, Maryland Department of Natural Resources, U.S. Army Corps of Engineers, Department of Permitting Services, Utilities, Municipalities, affected communities, Commission on Aging, Commission on People with Disabilities, Montgomery County Pedestrian Safety Advisory Committee

Unencumbered Balance	252		

PROJECT DESCRIPTION

This project will quickly identify solutions for advancing transportation capital facilities to design and construction. Projects will include new or reconstructed roadway projects, pedestrian facilities, bike facilities, and mass transit projects. Projects selected for inclusion in this program will not require detailed alternatives analysis. Design solutions will be identified, including estimates for cost and right-of-way.

COST CHANGE

Cost increase due to addition of FY29-30 to this level of effort project

PROJECT JUSTIFICATION

There are many master plan projects and community requests for transportation improvements that do not warrant a detailed alternatives analysis because there is a limited set of viable solutions. The feasibility study process will seek to streamline project planning and design to develop solutions that can advance through design and construction faster.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project provides for design, engineering plans, and construction for three new roads, one new bridge and master planned bikeways in the White Flint District East area as follows: 1. Executive Boulevard Extended East (B-7)-Rockville Pike/MD 355 to a New Private Street - construct 1,100 feet of four-lane roadway. 2. Executive Boulevard Extended East (B-7)-New Private Street to new Nebel Street Extended - construct 600 feet of four-lane roadway. 3. Nebel Street (B-5)-Nicholson Lane South to a Combined Property site - construct 1,200 feet of four-lane roadway. 4. Bridge across Washington Metropolitan Area Transit Authority (WMATA) tracks adjacent to White Flint Metro Station - on future McGrath Boulevard between MD 355 and future Station Street - construct 80-foot-long three-lane bridge. Bikeway design and construction will be consistent with adopted master plan staging requirements. Various improvements to the roads will include new traffic lanes, shared-use paths, the undergrounding of overhead utility lines where required, other utility relocations, and streetscaping. These projects will become stand-alone projects once engineering is complete and final construction costs can be accurately determined. This project also assumes the developers will dedicate the land needed for these sub-projects in a timely manner.

LOCATION

North Bethesda

ESTIMATED SCHEDULE

Most design and all construction costs have been delayed to beyond the six-year period due to affordability and other factors. Design of all road projects began in FY12 and have been delayed due to coordination with stakeholders. Construction of Executive Boulevard Extended East from Rockville Pike/MD 355 to a New Private Street was delayed due to tax district affordability challenges. Design of Executive Boulevard East Extended was delayed due to coordination between the stakeholders over the road alignment. Design for the bridge across the WMATA tracks adjacent to the North Bethesda (White Flint) Metro Station has been delayed due to negotiations between WMATA, State Highway Administration (SHA), the County, and the developers. Bridge design will begin after a Memorandum of Understanding among the parties has been finalized.

PROJECT JUSTIFICATION

The vision for the White Flint District is for a more urban core with a walkable street grid, sidewalks, bikeways, trails, paths, public use space, parks and recreational facilities, mixed-use development, and enhanced streetscape to improve the areas for pedestrian circulation and transit-oriented development around the Metro station. These road improvements, along with other District roads proposed to be constructed by developers will fulfill the strategic program plan for a more effective and efficient transportation system. The proposed improvements are in conformance with the White Flint Sector Plan Resolution 16-1300 adopted March 23, 2010.

FISCAL NOTE

Funding Sources: The ultimate funding source for these projects will be White Flint Development District tax revenues and related special obligation bond issues. Debt service on the special obligation bond issues will be paid solely from White Flint Special Taxing District revenues. Cost Estimation: Construction cost estimates are based on concepts, projected from unit length costs of similar prior projects and are not based on quantity estimates or engineering designs. Final construction costs will be determined after the preliminary engineering (35 percent) phase. Cost for the bridge is still unknown since engineering plans are not

developed. The County is working with District stakeholders to finalize a long-term financing plan for the District's costs.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland-National Capital Park and Planning Commission, White Flint Sector Plan, Washington Metropolitan Area Transit Authority, Maryland State Highway Administration, Federal Agencies including the Nuclear Regulatory Commission, Developers, Department of Environmental Protection, Department of Permitting Services

PROJECT DESCRIPTION

This project provides for engineering, utility design, and land acquisition for one new road, one relocated road, improvements to three existing roads, and one new bikeway in the White Flint District area for Stage 1. The project also includes both design and future construction expenditures for the reconstruction of Rockville Pike. Various improvements to the roads will include new traffic lanes, shared-use paths, the undergrounding of overhead utility lines, other utility relocations and streetscaping. The new White Flint West Workaround project (CIP #501506) continues funding for several western workaround road projects. The following projects are funded through FY 18 for final design: 1. Main Street/Market Street (B-10)-Old Georgetown Road (MD 187) to Woodglen Drive: new two-lane 1,200 foot roadway. 2. Main Street/Market Street (LB-1)-Old Georgetown Rd (MD 187) to Woodglen Drive: new 1,200 foot bikeway. 3. Executive Blvd Extended (B-15)-Marinelli Road to Old Georgetown Road (MD 187): 900 feet of relocated four-lane roadway 4. Intersection of Towne Road (formerly Hoya Street) (M-4A), Old Georgetown Road, and Executive Boulevard, including the approaches to Old Georgetown Road. The following project is proposed for both design and construction Beyond 6-Years periods: Rockville Pike (MD 355) (M-6)-Flanders Avenue to Hubbard Drive: 6,300 feet of reconstructed six-to-eight-lane roadway. This project also provides for consulting fees for the analysis and studies necessary to implement the district.

LOCATION

North Bethesda

ESTIMATED SCHEDULE

Design on all projects in the western workaround, with the exception of the Rockville Pike segment, concluded in FY19. Design of the Rockville Pike section will begin Beyond 6 Years in order to coordinate with the implementation of the Bus Rapid Transit (BRT) (CIP#501318). The current expenditure/funding schedule assumes that land needed for road construction will be dedicated by the major developers in a timely manner. Design and construction cost have been delayed to beyond the six-year period due to affordability.

PROJECT JUSTIFICATION

The vision for the White Flint District is for a more urban core with a walkable street grid, sidewalks, bikeways, trails, paths, public use space, parks and recreational facilities, mixed-use development, and enhanced streetscape to improve the areas for pedestrian circulation and transit-oriented development around the Metro Station. These road improvements, along with other District roads proposed to be constructed by developers, will fulfill the strategic program plan for a more effective and efficient transportation system. The proposed improvements are in conformance with the White Flint Sector Plan Resolution 16-1300 adopted March 23, 2010.

FISCAL NOTE

Funding Sources: The ultimate funding source for these projects will be White Flint Special Taxing District tax revenues and related special obligation bond issues. Debt service on the special obligation bond issues will be paid solely from White Flint Special Taxing District revenues. Resolution No. 16-1570 states that "The County's goal is that the White Flint Special Taxing District special tax rate must not exceed ten percent of the total tax rate for the District, except that the rate must be sufficient to pay debt service on any bonds that are already outstanding." With an overall goal of providing infrastructure financing to allow implementation in a timely manner, the County will conduct feasibility studies to determine the affordability of special bond obligation issues prior to the funding of projects 1, 2, 3, and 4 listed in the Description section above. If White Flint Special Tax District revenues are not sufficient to fund these projects, the County will utilize forward

funding, advance funding, and management of debt issuance or repayment in a manner to comply with the goal. The County is working with District stakeholders to finalize a long-term financing plan for the districts costs.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

PROJECT DESCRIPTION

This project provides for the Advanced Transportation Management System (ATMS) in the County. The ATMS deploys the infrastructure elements to conduct real-time management and operations of the County's transportation system. Twenty-two National Intelligent Transportation Architecture market packages have been identified for deployment of the ATMS. Each of these market packages is considered a subsystem of the ATMS program and may include several elements. These subsystems are identified in the ATMS Strategic Deployment Plan dated February 2001, revised July 2011. One aspect of this project will focus on improving pedestrian walkability by creating a safer walking environment, utilizing selected technologies, and ensuring Americans with Disabilities Act (ADA) compliance.

COST CHANGE

Funding was added for FY29 and FY30.

PROJECT JUSTIFICATION

ATMS provides real-time monitoring, control, and traveler information in an effort to reduce traffic congestion and travel time, improve safety, and defer the need to construct new roads. ATMS emphasizes safety and efficiency of mobility to include mode, route, and travel time choices. ATMS supports public safety and directly impacts the movement of people and goods throughout the County's transportation system. This project was initiated in response to a growing demand to enhance options and amenities within the County's transportation network.

OTHER

This project includes the traffic element that focuses on reducing traffic congestion and travel time and improving safety. This project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero by 2030.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Developers, Department of Technology and Enterprise Business Solutions, Department of Police, Federal Transit Administration (FTA), Federal Highway Administration (FHWA), Fibernet, Maryland State Highway Administration, Virginia Department of Transportation, Other Local Governments, Other Private Entities, Traffic Signals project, Traffic Signal System Modernization Project, Montgomery County Pedestrian Safety Advisory Committee, Citizen's Advisory Boards, and Montgomery County Planning Board.

PROJECT DESCRIPTION

Guardrails reduce the severity of run-off-the-road accidents, prevent collisions with fixed objects, and protect embankments. Damaged or missing guardrails and deficient end treatments present a hazard to motorists, cyclists, and pedestrians. Guardrails have a finite service life and must be replaced at the end of this service life or when damaged in order to continue to provide safety benefits for all users. The March 2010, Report of the Infrastructure Maintenance Task Force, confirmed this and identified the need for guardrail life-cycle replacement. The existing tapered and buried guardrail end treatments provide a ramp for errant vehicles and do not meet current MDOT SHA standards. Forty locations were identified for end treatment replacement - these locations were improved. Following this, a 2018 study was completed to identify 40 additional locations where substandard or deficient end treatments exist and to replace them to meet modern crash attenuation standards. These replacements have begun and are anticipated to be completed in FY25/26.

COST CHANGE

Cost increase due to inflation and the addition of FY29 and FY30.

PROJECT JUSTIFICATION

Guardrails reduce the severity of run-off-the-road accidents, prevent collisions with fixed objects, and protect embankments. Damaged or missing guardrails and deficient end treatments present a hazard to motorists, cyclists, and pedestrians. Guardrails have a finite service life and must be replaced at the end of this service life or when damaged in order to continue to provide safety benefits for all users. The March 2010, Report of the Infrastructure Maintenance Task Force, confirmed this and identified the need for guardrail life-cycle replacement. The existing tapered and buried guardrail end treatments provide a ramp for errant vehicles and do not meet current MSHA standards. A study was completed to identify these substandard or deficient end treatments and to replace them to meet modern crash attenuation standards.

PROJECT DESCRIPTION

This project provides for planning and reconstructing various existing intersections in Montgomery County to identify locations where there is an identified need for bicycle or motorist safety, and in particular, the identification and implementation of corridor modifications and traffic calming treatments to enhance pedestrian safety. This project aligns with such design and construction for safety improvement measures in support of the County's Vision Zero Initiative and the High Incident Network evaluation efforts. Construction at these identified locations may begin immediately for project efforts of lesser scope or may be delayed until detailed design plans are prepared and developed into future projects.

COST CHANGE

Cost increase due to inflation in FY25-28. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

Ongoing studies conducted by the Division of Traffic Engineering and Operations indicate that many corridors and intersections need traffic calming modifications as well as capacity and/or vehicular and pedestrian safety improvements.

OTHER

Examples of recently completed and soon to be completed projects: Cheshire Road at Old Georgetown Road, Montgomery Village at Lake Shore, Grandview Ave at Reddie Drive, Judson Road at Henderson Ave, Wildcat Road at Brink Road, Crabbs Branch Way, Newport at Denfeld, and Linden Lane at Old Georgetown Rd. Projects scheduled for completion in FY25 and Beyond include, Blue Ridge Ave at Georgia Ave, Grandview Ave, Randolph Road at Lindell St, Dennis Ave at Procter St, Great Seneca Highway at Muddy Branch Rd and Randolph Rd at Parklawn Dr. This project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero by 2030.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland State Highway Administration, U.S. Army Corps of Engineers, Washington Metropolitan Area Transit Authority, Developers, Montgomery County Pedestrian Safety Advisory Committee, and Citizen's Advisory Boards.

PROJECT DESCRIPTION

This project provides for the planning, design, and construction of physical traffic control features in residential neighborhoods. Traffic calming features such as traffic circles and islands, curb extensions, speed humps, physical and painted lane narrowing devices, etc., are used to maintain and improve the safety and livability of residential neighborhoods by addressing issues of aggressive driving and excessive speeds and volumes.

COST CHANGE

Cost increase due to inflation, increased level of effort to support increasing neighborhood requests, and the addition of FY29 and FY30.

PROJECT JUSTIFICATION

Montgomery County has developed justification criteria, implementation procedures, and construction standards for administering traffic calming improvements along neighborhood streets that are consistent with those recommended and/or adopted by the Federal Highway Administration, the Institute of Transportation Engineers, and the Maryland Traffic Engineers Council. Neighborhood traffic control has received significantly increasing emphasis, and the speeding and unsafe driving practices by motorists on residential streets in our neighborhoods continue to generate numerous requests for traffic calming measures by residents. The neighborhood traffic calming project enables the Department of Transportation (DOT) to evaluate requests for traffic calming actions, develop and design appropriate traffic calming measures, and fund the implementation of a variety of physical as well as control type traffic calming tools to encourage safer driving behavior in neighborhoods. These measures include the installation of speed humps, traffic circles, etc. Engineering investigations and the analysis of community support are conducted on a per-request basis to determine if the installation of traffic calming features on a street is warranted and appropriate.

OTHER

Projects originate with requests from citizens' associations, other neighborhood organizations, and/or public officials. Projects are constructed primarily by the Traffic Engineering and Operations Division, using contractors and/or in-house crews. Approximately 500 streets or neighborhoods are under study/review for future traffic calming projects each year. This project contributes to the County's Vision Zero goals to reduce deaths and serious injuries on County roadways to zero by 2030.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Citizens' Associations, Fire and Rescue Service, Intersection and Spot Improvements Project, Montgomery County Pedestrian Safety Advisory Committee, and Maryland-National Capital Park and Planning Commission.

PROJECT DESCRIPTION

This project provides for the review and analysis of existing physical infrastructure and traffic controls for improving pedestrian and bicycle safety and reaching the County's Vision Zero goal of eliminating serious and fatal crashes on our roadways by 2030. This project involves study, design, and construction of physical structures and/or installation of traffic control devices which include, but are not limited to: new crosswalks; pedestrian hybrid beacons (PHBs); pedestrian refuge islands; sidewalks; bus pull-off areas; fencing to channel pedestrians to safer crossing locations; bicycle signings and markings; relocating, adding, or eliminating bus stops; lane narrowing and road diets; accessible pedestrian signals (countdown) or warning beacons; improving signage, etc. Study and construction improvement projects are data driven and prioritized based on the Vision Zero Action Plan's High Injury Network and schools identified through the Safe Routes to School Program. The improvements will be made in compliance with the requirements of the Americans with Disabilities Act (ADA). This project combines infrastructure improvements with community engagement and education for traffic safety and Safe Routes to School outreach initiatives.

COST CHANGE

Funding for FY25-30 was adjusted to account for inflation. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

Montgomery County's history of prioritizing pedestrian and bicyclist safety includes the 2002 Blue Ribbon Panel, 2007 Pedestrian Safety Initiative, and most recently the Vision Zero 2030 Action Plan. This project improves safety for people walking and biking along Montgomery County roadways and areas such as school walksheds and along roadway corridors identified as high crash corridors in the Vision Zero Action Plan. The improvements proposed under this project will enhance and/or add to the County's existing infrastructure to increase the safety and comfort level for pedestrians, which in turn will encourage pedestrian activity and safer access to schools and mass transit. This project is intended to support the strategies for enhancing pedestrian safety by piloting new and innovative techniques for improving traffic control device compliance by pedestrians, cyclists, and motorists. Various studies for improvements will be done under this project with an emphasis on pedestrian safety and traffic circulation. Safe Routes to Schools walkability audits for Montgomery County schools are completed through this program, and studies identify needs and prioritize schools based on the need for signage, pavement markings, circulation, sidewalks, and pedestrian accessibility.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely. The County Executive asserts that this

project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Washington Metropolitan Area Transit Authority, Maryland-National Capital Park and Planning Commission, Mass Transit Administration, Maryland State Highway Administration, Wheaton Central Business District, Wheaton Regional Services Center, Commission on Aging, Commission on People with Disabilities, Montgomery County Pedestrian, Bicycle, Traffic Safety Advisory Committee, Citizen's Advisory Boards, and various CIP Projects.

PROJECT DESCRIPTION

This project provides for the evaluation and enhancement of streetlighting within and around Central Business Districts (CBD) and town centers where current lighting does not meet minimum Illuminating Engineering Society of North America (IESNA) standards. This project will fill in streetlighting; standardize streetlighting types; and replace sodium vapor lights with light-emitting diode (LED).

COST CHANGE

Cost increase due to inflation and the addition of FY29 and FY30.

PROJECT JUSTIFICATION

This project is needed to provide visibility and safety improvements in areas where there is a high concentration of pedestrians, bicyclists, and vehicles. Streetlighting to promote pedestrian safety is one of the items requested each year by the Citizens' Advisory Boards (CABs).

OTHER

Streetlighting in CBDs and town centers will also support the Montgomery County Planning Board (MCPB) priorities for County-wide pedestrian safety improvements and area specific lighting enhancements. Completed projects include: Long Branch (commercial area) - completed in FY10; Wheaton CBD - completed in FY11; Langley Park - completed in FY12; Odenthal Avenue - completed in FY13; Damascus Town Center - completed in FY14; Glenmont Metro Area - completed in FY15; Olney Town Center - completed in FY17; Bethesda is currently underway; Wheaton and Silver Spring are scheduled next. This project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero by 2030.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Potomac Electric Power Company, Baltimore Gas and Electric Company, Potomac Edison, Montgomery County Police Department, Community Associations, Urban Districts, Citizens' Advisory Boards, and Maryland-National Capital Park and Planning Commission.

Unencumbered Balance	1,341		

PROJECT DESCRIPTION

This project provides for the installation, maintenance and upgrading of streetlights countywide with an emphasis on residential fill in areas, high crime areas, pedestrian generator locations, and high accident locations. This project also provides for the replacement of streetlights that are knocked down, damaged, or have reached the end of service life. The Report of the Infrastructure Maintenance Task Force, identified streetlights in need of lifecycle replacement. Streetlights that pose safety concerns and are no longer functioning to the specifications of original installation are also replaced under this project.

COST CHANGE

Cost increase due to updated estimates, increased level of effort to support workload, and the addition of FY29 and FY30.

PROJECT JUSTIFICATION

A County Council resolution dated June 25, 1968, requires Montgomery County to provide for the installation of streetlights in those subdivisions that were platted prior to February 1, 1969, when the installation of streetlights was not a requirement of subdivision development. This project provides funds for these streetlight installations, as well as for lighting of the public right-of-way when the existing lighting is substandard to the extent that public safety is compromised. County residents regularly ask for the addition of streetlights to help improve safety and reduce crime within their communities. New streetlight plans are developed in conformance with established County streetlight standards and are normally implemented under contract with the pertinent local utility company.

OTHER

The project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways to zero by 2030.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Baltimore Gas and Electric Company, Potomac Edison, Verizon, Cable TV Montgomery, Maryland State Highway Administration, PEPCO, Washington Gas and

PROJECT DESCRIPTION

The Traffic Signal System Modernization (TSSM) program provides on-going, life-cycle replacement and maintenance of critical subsystems and equipment from the network communication paths throughout the County and is relayed to both Transportation Management Center (TMC) and traffic control equipment in the field. The life-cycle replacement plan ensures the transportation network system, communication network, and the hardware in the TMC (servers, workstations) remains up to date with industry and national standards and, new technologies employed by the Traffic Division.

ESTIMATED SCHEDULE

Phase I - completed FY07-08; Phase IIA - completed FY12; Phase IIB - FY13-16; ongoing Life Cycle Upgrades - FY17 and beyond.

COST CHANGE

FY25-30 adjusted for inflation. Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

The transportation systems remain highly reliable, but we must keep the system up to date through life cycle replacement. The technologies in the industry have advanced over the years which necessitates the modernization of equipment such as (aggregators, communication cables and modems, software, and servers) to interface with the current transportation control system. The life cycle replacement will provide stability and greater level flexibility to manage the transportation demands as well as take advantage of the newer technology that is being introduced to the industry.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Advanced Transportation Management System, Fibernet, State Transportation Participation, Traffic Signals Project, Department of Technology and Enterprise Business Solutions, and Maryland State Highway Administration.

Cumulative Appropriation	54,998		
Expenditure / Encumbrances	47,956		
Unencumbered Balance	7,042		

PROJECT DESCRIPTION

This project provides for the design, construction, and maintenance of vehicular and pedestrian traffic signals and signal systems including new and existing signals, reconstruction/replacement of aged and obsolete signals and components, auxiliary signs; accessible pedestrian signals (APS), upgrades of the County's centrally-controlled computerized traffic signal system, and communications and interconnect into the signal system. \$150,000 is included each fiscal year for the installation of accessible pedestrian signals at five intersections to improve pedestrian safety for persons with disabilities. This will provide more easily accessible, raised buttons to press when crossing the road and audio cues to indicate when it is safe to cross. The planning, design and construction of school beacons will provide a remote connection for the beacons that enhances communication so that equipment monitoring and programming changes for the flashers may be accomplished faster and remotely without having to physically access the devices.

COST CHANGE

Cost increase due to inflation and the addition of FY29 and FY30.

PROJECT JUSTIFICATION

The growth in County population and vehicular registrations continues to produce increasing traffic volumes. Additionally, population growth results in the need for goods and services, contributing to higher vehicle volumes. The resulting increases raise traffic congestion levels and contribute to the increase in the number of vehicle crashes. Managing traffic growth and operations on the County transportation network requires a continued investment in the traffic signal system to increase intersection safety; accommodate changes in traffic patterns and roadway geometry; reduce intersection delays, energy consumption, and air pollution; and provide coordinated movement on arterial routes through effective traffic management and control, by utilizing modern traffic signal technologies. Studies include the Traffic Signal Inspection and Assessment Program (2016), the Infrastructure Maintenance Task Force (2010), and the Pedestrian Safety Initiative (2007), which all identified traffic signals in need of life-cycle replacement as funding is available.

OTHER

This project will help the County achieve its Vision Zero goals to reduce deaths and serious injuries on County roadways resulting from vehicle crashes to zero by 2030. Approximately 60 projects are completed annually by a combination of contractual and County work crews. One aspect of this project focuses on improving pedestrian walkability by creating a safe walking environment, utilizing selected engineering technologies, and ensuring Americans with Disabilities Act (ADA) compliance. All new and reconstructed traffic signals are designed and constructed to include appropriate pedestrian features - crosswalks, curb ramps, accessible pedestrian/countdown pedestrian signals (APS/CPS), and applicable signing. Additionally, pedestrian hybrid beacons (PHB) are employed at midblock pedestrian crossings or designated intersections to provide a safe, protected crossing. A significant portion of the traffic signal work will continue to be in the central business districts and other commercial areas, where costs are higher due to more underground utilities and congested work areas. Likewise, new signals in outlying, developing areas are more expensive due to longer runs of communication cable. Since FY97, the fiber optic interconnection of traffic signals has been funded through the Fibernet project.

FISCAL NOTE

FY24 supplemental in State Aid for the amount of \$1,200,000. FY24 supplemental in CR: General for \$184,788.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Advanced Transportation Management System, Verizon, FiberNet CIP (No. 509651), Maryland State Highway Administration, Potomac Electric Power Company, Washington Gas and Light, Washington Suburban Sanitary Commission, Montgomery County Pedestrian Safety Advisory Committee, and Citizens Advisory Boards, and Maryland-National Capital Park and Planning Commission.

PROJECT DESCRIPTION

This project provides funding for County planning, design, installation, and energization of streetlights along US 29 (Columbia Pike) between I-495 and MD 198 (Sandy Spring Road).

LOCATION

US 29 from I-495 to MD 198

ESTIMATED SCHEDULE

Design is scheduled for FY24. Utility installation is scheduled for FY25 and FY26.

COST CHANGE

Cost increase reflects the addition of staff costs that are ineligible for State Aid.

PROJECT JUSTIFICATION

County resolution dated June 25, 1968 requires Montgomery County to provide for the installation of streetlights in those subdivisions that were platted prior to February 1, 1969, when the installation of streetlights was not a requirement of subdivision development. While a limited number of streetlights have been installed over time at most of the intersections within this stretch of US 29, this project will provide additional lighting, per current County standards, to help enhance traffic safety for the motorists and pedestrians alike.

FISCAL NOTE

\$2.8M in State aid reflects State grants for capital projects in Montgomery County awarded during the 2023 Maryland General Assembly session.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland Department of Transportation State Highway Administration (MDOT SHA) and PEPCO.

PROJECT DESCRIPTION

This project is in direct response to requirements of the approved White Flint Sector Plan. It is composed of three components with the overall goal of mitigating the traffic impacts on communities and major intersections outside of and surrounding the White Flint Sector Plan area that will occur as a result of redevelopment densities approved under the new White Flint Sector Plan. These components include: (A) Cut-through traffic monitoring and mitigation; (B) Capacity improvements to address congested intersections; and (C) A study of strategies and implementation techniques to achieve the Sector Plan's modal split goals. The modal split study will plan and implement specific infrastructure projects to create an improved transit, pedestrian, and biking infrastructure, and programs needed to accomplish the mode share goals; determine funding sources for these strategies; and determine the scope and cost of project components.

ESTIMATED SCHEDULE

Component A-access restrictions: ongoing bi-annual data collection: site specific studies are conducted when traffic data indicates need. Component B- Intersection Mitigation: site specific preliminary engineering and concept plan development commenced in FY12 based on M-NCPPC Comprehensive Local Area Transportation Review (CLATR) evaluation. Component C- Modal Split Activities: transit, pedestrian, bicycle access, and safety studies completed in FY 12; data collection and updating Transportation Demand Management (TDM) information completed in FY12-13.

COST CHANGE

Funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

Component A: The new White Flint Sector Plan area was approved on March 23, 2010. The plan allows for significantly higher density than the existing development. As a result neighborhoods surrounding the Sector Plan area could be potentially impacted by an increase in cut-through traffic. The approved Sector Plan states: Before any additional development can be approved, the following actions must be taken: Initiate development of plans for through-traffic access restrictions for the residential neighborhoods abutting the Sector Plan area, including traffic from future development in White Flint, and implement these plans if sufficient neighborhood consensus is attained. Component B: The approved plan did not address the possible negative impact on the roads/intersections outside of the Sector Plan boundary but the plan recognized that those impacts could occur. Therefore, major intersections along primary corridors leading into the Sector Plan area need to be evaluated and appropriate safety and capacity improvements identified and implemented to fulfill the vision of the plan. This component is not part of the phasing process but needs to be addressed to mitigate impacts from the Sector Plan. Component C: The plan also recognized that capacity improvements alone would not be sufficient to manage the increased traffic resulting from the higher densities within the Sector Plan area. The Sector Plan states: The following prerequisites must be met during Phase 1 before moving to Phase 2: Achieve thirty-four percent non-auto mode share for the Sector Plan area. Increasing the modal split within the White Flint Sector Plan boundary is an integral component to the overall success of the Plan's vision. Transit, pedestrian, bicycle access, safety improvements, and TDM planning and implementation efforts are required to facilitate White Flint's transition from a highly automobile oriented environment to a more transit, pedestrian, and bicycle friendly environment. A monitoring mechanism for the modal split will also be developed.

FISCAL NOTE

Programmed impact taxes have already been collected from the White Flint Metro Station Policy Area (MSPA).

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Maryland-National Capital Park and Planning Commission, Maryland State Highway Administration, U.S. Army Corps of Engineers, Montgomery County Department of Permitting Services, Montgomery County Department of Environmental Protection, Montgomery County Pedestrian and Traffic Safety Advisory Committee, Citizen's Advisory Boards, Neighborhood Homeowner's Associations, Utility Companies, Civic Associations, White Flint Transportation Management District (TMD)

Appropriation FY 26 Request	-	Last FY's Cost Estimate	101,550
Cumulative Appropriation	950		
Expenditure / Encumbrances	201		
Unencumbered Balance	749		

PROJECT DESCRIPTION

This project provides for the design and construction of facilities included in the Local Area Transportation Improvement Program (LATIP). The LATIP includes a variety of roadway, bikeway, pedestrian, and transit projects within the White Oak policy area, in addition to recurring cost updates and program reanalysis. The timing of implementation of the different elements will be coordinated in the future with specific proposed subdivision activity and the communities adjacent to and affected by the new development. The LATIP provides a funding source in the form of a per-trip fee levied upon new development within the policy area.

LOCATION

White Oak Planning Area.

ESTIMATED SCHEDULE

The LATIP is anticipated to last through the lifetime of the associated master plan (2040). Schedule is dependent on the rate at which LATIP fees are collected, as well as the programming of funds to advance projects.

PROJECT JUSTIFICATION

The 2014 White Oak Science Gateway Master Plan called for the development of one or more options that could fund the full buildout of the Plan's transportation infrastructure. The 2016 Subdivision Staging Policy and the 2020 Growth and Infrastructure Policy have since reaffirmed this approach Countywide via the structurally similar Unified Mobility Programs (UMPs). These studies provide the basis for future strategies to fund detailed engineering design and construction costs.

FISCAL NOTE

The revenue schedule is based on current estimates of when these revenues are expected, which is dependent on new development. The cost estimates provided here reflect the currently approved 2017 LATIP. Future updates to the program are expected to increase costs and the associated fee to reflect inflation and changes in master planned infrastructure needs. These updates will increase the revenues expected from new development as well as expenditures throughout the 2040 lifetime of the program.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Maryland State Highway Administration (MSHA), Maryland Mass Transit Administration (MTA), and Maryland National-Capital Park and Planning Commission.

Cumulative Appropriation	27,630		
Expenditure / Encumbrances	527		
Unencumbered Balance	27,103		

PROJECT DESCRIPTION

This project will update the existing Material Recycling Center (MRF) with state-of-the-art equipment to increase commingled processing capacity to 200 - 240 tons per day (TPD). This includes a minor modification of the existing MRF building to increase storage capacity for both incoming and baled material. Equipment will be substantially replaced because the existing equipment is incompatible with modern recycling processing technology. An updated facility will have higher operation uptime (90% rather than the current 83%) and produce higher quality product that can receive higher prices in the market.

Features of the renovated facility include removing glass at the beginning of sorting to reduce wear and tear on equipment, improved sorting screens, optical sorting, high efficiency electric motors, and reduced reliance on labor for sorting. An upgrade to the facility's electrical capacity may be added if it is determined that the current facility cannot handle the load needed after the renovation. This design will allow for the future addition of single stream processing equipment within the existing facility to receive and process

recyclables from other jurisdictions, if expansion to a regional concept is supported in an effort to improve the recycling program's cost-benefit ratio.

LOCATION

16103 Frederick Road, Derwood, Maryland

ESTIMATED SCHEDULE

A Facility Condition Assessment (FCA) revealed the need for a design change in the MRF project. Design of the upgrade continues in FY25. 30% design completion is expected to be completed in the fall. Equipment arrival and fabrication, as well as permitting will need to be complete prior to construction.

PROJECT JUSTIFICATION

The current commingled processing system at the MRF was installed in 1991 and upgraded in 2002 to process 10 tons per-hour (TPH) or 80 tons per day (TPD). Due to increased population, expanded material mix, and increased resident participation, the MRF currently receives 130 - 150 TPD of commingled material, almost double the current capacity. To keep up with the incoming volume, the MRF must export 40 - 45% of the commingled material received at an annual cost of approximately \$1.2 million.

After almost 30 years of operation, the majority of the current system components have operated beyond their useful life, causing frequent downtime and high repair and maintenance costs. Replacement parts are increasingly difficult to source for some equipment. This project's improvements will reduce operating costs, increase revenue from the sale of recyclables, increase processing efficiency, and continue to provide high quality recycling services to the County.

FISCAL NOTE

The Solid Waste Enterprise Fund is self-supporting through user fees, and revenue from the Solid Waste Enterprise Fund will be the source of repayment of the Solid Waste Revenue Bonds.

COORDINATION

Maryland Environmental Service, Department of Permitting Services. Special Capital Projects Legislation [Bill No. 23-21E] was adopted by Council in June 2021.

PROJECT DESCRIPTION

This project provides for the remediation of low-level environmental contamination at the Gude Landfill. The Maryland Department of the Environment (MDE) approved an Assessment of Corrective Measures (ACM) report for the Gude Landfill in July 2016 which specifically outlines the approved Corrective Measure Alternative (CMA) for this remediation project. The MDE approved CMA

will include toupee capping (regrading and capping the top of the landfill and selected slope areas with a synthetic liner and two feet of soil) and increased gas collection through the installation of additional gas extraction wells. These remediation measures will reduce infiltration of rainwater into the landfill resulting in the generation of less leachate, fewer leachate seeps, and better control of landfill gas migration.

LOCATION

600 E. Gude Drive, Rockville, Maryland

ESTIMATED SCHEDULE

The Gude Landfill Remediation project construction began in January 2023 and is scheduled to be completed in FY27.

PROJECT JUSTIFICATION

The County and MDE entered a consent order in May 2013 which outlined requirements for assessing low-level groundwater contamination, gas migration, and other problems at the Gude Landfill. The Consent Order included provisions requiring a Work Plan and schedule to be established for assessing potential risks to human health and the environment, and development of an ACM report and implementation schedule. After consultation with industry experts, community groups, MDE, and County government leadership, the Department of Environmental Protection's (DEP) initial proposal to MDE in 2014 addressed the low-level groundwater contamination at the site with installation of bioremediation wells on the property. MDE's assessment of this bioremediation corrective measure in April 2015 determined that additional corrective measures would need to be included in the bioremediation approach to address all of MDE's requirements. A revised ACM report was submitted to MDE in April 2016 addressing all of MDE's comments and selecting corrective measures consisting of a toupee cap, additional landfill gas collection, and stormwater drainage improvements. The County has been mandated to perform work outlined in the consent order. Moving forward with the remediation of Gude Landfill, as required by MDE, will also address concerns raised by the adjacent community and allow planning for future reuses of the property.

FISCAL NOTE

Solid Waste (Disposal Fund) Revenue Bonds will be issued to support this project. A mid-FY21 amendment reduced Current Revenue: Solid Waste Disposal by \$6,000,000 and increased Revenue Bonds by \$6,000,000.

COORDINATION

Northeast Maryland Waste Disposal Authority (NMWDA), Maryland Department of the Environment (MDE), Department of Permitting Services, Health and Human Services, the Maryland-National Capital Park and Planning Commission, the U.S. Army Corps of Engineers, the Gude Landfill Concerned Citizens (GLCC), County social service agencies, and adjacent property owners. Special Capital Projects Legislation [Bill No. 16-19E] was adopted by Council on October 20, 2020.

PROJECT DESCRIPTION

Currently the County does not have a facility capable of accepting food scraps and other compostable organics. The existing County

Yard Trim Compost Facility in Dickerson, MD could be modified to comply with MDE permit requirements. Modifications would include the installation of a Covered Aerated Static Pile ("CASP") system, improvements to storm water management structures and systems and the upgrade to the electrical service.

Any significant change in the operation of the Yard Trim Compost Facility would require an amendment of the Agreement of Settlement and Compromise between the County and Sugarloaf Citizens Association.

The construction dollars shown in this project are placeholder dollars based on initial information for modifying the County's Yard Trim Compost Facility to accept food scraps and other compostable organics.

FY25 Planning and Design expenditures may be used to develop potential scopes of work and cost estimates for building an organics processing facility at other locations in Montgomery County as well as to consider modifications needed at the Transfer Station to receive organics for transport to a future organics processing facility.

LOCATION

21210 Martinsburg Road, Dickerson, MD 20842

ESTIMATED SCHEDULE

Planning and design will begin in FY25.

PROJECT JUSTIFICATION

According to the 2023 Waste Composition Study, Compostable Organics make up 23% of the municipal solid waste (MSW) received at the transfer station. Of the 600,000 tons of MSW received at the transfer station each year, approximately 138,000 tons is compostable organics. Capturing the compostable organics and converting them into a high-quality soil amendment would reduce the total tons of waste processed at the Resource Recovery Facility and emit far less greenhouse gasses than landfilling.

FISCAL NOTE

The Solid Waste Enterprise Fund is self-supporting through user fees, and revenue from the Solid Waste Enterprise Fund will be the source of repayment of the Solid Waste Revenue Bonds.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Maryland Department of the Environment, Department of Permitting Services, Department of Finance, Department of Transportation, Office of the County Attorney, Office of Management and Budget, Sugarloaf Citizens Association

PROJECT DESCRIPTION

The Oaks Landfill is approximately 545 acres with a waste disposal footprint of 170 acres. The Oaks Landfill Leachate Pretreatment started operations in 1995, 28 years ago, and has not undergone any renovations or retrofitting since the original construction. It is now in need of new and upgraded pretreatment equipment as the existing equipment is at or beyond their intended useful life.

LOCATION

6001 Olney-Laytonville Road, Gaithersburg, MD 20882

ESTIMATED SCHEDULE

All design work, including permitting, will be completed in FY25. Construction will be completed in FY26.

PROJECT JUSTIFICATION

The Oaks landfill Leachate Pre-Treatment Plant still uses a 25-year-old processing system which is outdated and operating past its useful life. It also needs to be upgraded and retrofitted with new equipment to improve the wastewater treatment process and to accommodate the additional treatment capacity by expanding the existing oil/grit management facility to support the County's stormwater management maintenance.

This project is needed to protect public health and the environment through the pretreatment of landfill leachate that has the potential to negatively impact groundwater and surface water sources if not managed properly. The County is required to provide for post-closure care and maintenance of landfill facilities and their associated infrastructure, which includes the Leachate Pretreatment Plant.

FISCAL NOTE

Design for this project was funded in the FY23 and FY24 operating budgets.

COORDINATION

Maryland Department of the Environment (MDE), Washington Suburban Sanitary Commission, Department of Permitting Services, the Maryland National Capital Park and Planning Commission (MNCPPC).

PROJECT DESCRIPTION

This project provides for renovation or replacement of childcare facilities to ensure compliance with new laws pertaining to the Americans with Disabilities Act (ADA) and safety concerns.

The project addresses three major components:

1. Remedies ADA non-compliant features at childcare centers located in County buildings.
2. Provides for the design and construction of ADA compliant playgrounds at existing child care facilities while also incorporating other playground requirements included in State regulation, National Association for the Education of Young Children Early Learning Standards and Accreditation Criteria, and the Maryland Program Accreditation Standards for Implementing Quality Childhood Programs.
3. Provides for replacement of modular facilities.

COST CHANGE

For administrative and tracking purposes, funding for child care renovations has been shifted from this project to three new projects dedicated to each purpose. Please see project #602501, #602502, and #602503 for the allocation of funding among the three new projects. The use of funds is unchanged.

PROJECT JUSTIFICATION

This project is designed to bring childcare facilities and playgrounds into compliance with Federal ADA requirements and child care accreditation standards.

FISCAL NOTE

The Department is required to provide notice and information to Council in writing 60 days before construction funding is obligated or spent. The notice must identify each project programmed for construction with the anticipated scope of work, cost estimates, and an expenditure schedule. For administrative and tracking purposes, the FY25-30 CIP separates funding for each purpose into three new projects: for child care facility renovations associated with playgrounds, please see Project #602501; for child care facility renovations associated with ADA remediation, please see Project #602502; for child care facility renovations associated with facility replacement, please see Project #602503.

COORDINATION

Department of Health and Human Services, Montgomery County Public Schools, Department of General Services, Maryland National Capital Park and Planning Commission, and childcare center service providers.

PROJECT DESCRIPTION

This project provides for design and construction of the Diversion Center. The site planning will be designed to allow the remainder of the site to house a future Department of Correction and Rehabilitation Justice Complex. The master plan and construction of utility work and stormwater management for the Diversion Center will include the infrastructure to support the subsequent construction.

This facility will support the implementation of the Crisis Now model in Montgomery County and will provide alternatives to using hospital emergency departments or defaulting to criminal justice options for people experiencing a behavioral health crisis. This facility will be operated by the Department of Health and Human Services or a contractor. It will provide a variety of behavioral health services, to include triage, crisis stabilization, and warm hand off referrals to appropriate services for those experiencing mental health, substance use disorder, and/or other types of behavioral health crisis. The Diversion Center will provide an option to Police, Montgomery County Fire and Rescue Service, and community members and reduce the use of emergency rooms, hospitals, and jail detention. The Diversion Center will be staffed by a multidisciplinary team to include nursing staff, licensed mental health and addiction professionals, peer specialists, and resource navigators.

LOCATION

1451 Seven Locks Road, Rockville, Maryland

ESTIMATED SCHEDULE

Design completion expected in spring 2025. Construction completion expected in spring 2027. Final post-construction architect/engineer work expected in spring 2028.

COST CHANGE

Costs increase due to updated estimates.

PROJECT JUSTIFICATION

The Diversion Center will complement the "Crisis Now" model in Montgomery County by offering services to the population of Montgomery County that are in crisis and need behavioral health services such as mental health, substance use disorder, and/or other types of crisis. The Diversion Center is a less restrictive and a more clinically appropriate community-based setting. The Diversion Center will help reduce avoidable emergency room visits, hospitalizations, and incarceration.

OTHER

Formerly called the "Restoration Center," this project has been renamed the "Diversion Center" to better align with its purpose.

FISCAL NOTE

The State appropriated \$17.0 million in capital grants that do not require a match. The Maryland Department of Health allocated \$1.2 million for the project that will require a \$1.3 million County-funded match. In total, State Aid for the project is \$18.2 million.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

City of Rockville, Department of General Services, Department of Health and Human Services, Department of Correction and Rehabilitation, Department of Police, Montgomery County Fire and Rescue Service, Maryland Park and Planning, Department of Technology and Enterprise Business Solutions, PEPCO, and Washington Gas.

PROJECT DESCRIPTION

This project establishes the Early Care and Education (ECE) Facility Fund to provide financial resources and technical assistance to both family care providers and child care centers. The fund will support the expansion and enhancement of family care and child care facilities, thereby advancing the quality of early childhood education across Montgomery County. The fund will extend no-interest and forgivable loans to licensed EXCELS-rated child care providers, prioritizing those serving low-income and underserved communities within the County. A Community Development Financial Institution (CDFI) will be selected through a competitive process to create and manage the fund, ensuring that financial assistance and business support are delivered efficiently and effectively to eligible child care facilities. This strategic effort underscores Montgomery County's commitment to bolstering early childhood education infrastructure and making quality care accessible to all families across all income levels.

ESTIMATED SCHEDULE

Pilot loan program expected to be administered in FY25.

PROJECT JUSTIFICATION

Child care is not only crucial for the healthy development and well-being of children but also serves as a cornerstone for the economic stability and productivity of working families. The vital role of child care as an economic driver and its impact on the well-being of children and working families was never more evident than during the COVID-19 pandemic. This period highlighted the indispensable support child care providers offer to working families, ensuring parents can fulfill their employment responsibilities, particularly those in essential roles. It also cast a spotlight on the financial vulnerabilities within the sector; many providers operate on tight margins, significantly constraining their capacity for facility investments to expand and enhance service quality. This financial reality poses a direct challenge to the availability and improvement of child care services, crucial for early childhood development outcomes, such as kindergarten readiness.

Montgomery County's ECE Facility Fund will work to meet the urgent and growing demand for accessible, high-quality child care. This initiative is particularly focused on empowering providers who cater to low-income and underserved communities, enabling them to expand and upgrade their facilities. The fund aims to bridge the gap for low-income families, ensuring equitable access to high-quality child care options in underserved areas. Child care not only serves as a backbone for economic productivity but is also critical in shaping the educational and social foundations of the County's youngest citizens. This initiative aligns with Blueprint for Maryland's Future by supporting equitable access to quality care and education for children who are in economically challenged households, special needs children, and children where quality options are limited.

The ECE Facility Fund represents a strategic intervention to support the sector's growth, quality enhancement, and financial sustainability. By offering flexible financial solutions through no-interest and forgivable loans, the fund is designed to address the diverse needs of child care providers, enabling them to invest in their facilities without prohibitive financial strain. This initiative ensures that child care providers can continue to offer vital services to the community, support the County's broader goals of economic vitality, educational excellence, and social equity. Through this fund, Montgomery County invests in its future, recognizing the foundational role of child care in supporting working families and fostering a resilient, inclusive community.

FISCAL NOTE

The project will be funded with \$4 million current revenue available from unspent balance in the Early Care and Education nondepartmental account.

COORDINATION

Department of Health and Human Services, Office of Management and Budget, nonprofit partners, community stakeholders, and private consultants

PROJECT DESCRIPTION

This project provides for the placement of High School Wellness Centers (HSWC) at public schools. HSWCs provide physical health, mental health, and social services, as well as family support/youth development services which attempt to address the needs of youth and build their skills and strengths to be more successful in all sectors of their lives. The project also provides for spaces that offer nonsomatic mental health and youth development services. Services are targeted to meet the specific needs of the school. This project is recommended by the School Based Wellness Center Planning Group (SBWCPG), the Department of Health and Human Services (DHHS) and Montgomery County Public Schools (MCPS). The selection of the host school is based upon criteria recommended by the SBWCPG. MCPS will oversee the construction of the HSWC sites. The County will occupy the space with DHHS personnel and contractors. The HSWCs are similar in design to School Based Health Centers with modifications to accommodate the older student population's needs and services.

ESTIMATED SCHEDULE

Design and construction of interim mental health and social support service space at high schools without a wellness center in operation began in FY22. DHHS performed a comprehensive analysis of need to determine the priority order for constructing the centers and convened the SBWCPG to finalize priority recommendations. Projects identified by the SBWCPG that are programmed in the 6-year period include Woodward and Springbrook High Schools, which are programmed for full HSWC facilities with construction beginning in FY26; and Crown High School programmed for mental health and positive youth development space with construction beginning in FY25. The project includes additional fiscal capacity for full HSWC and/or mental health and positive development projects that may come online during the 6-year period.

COST CHANGE

Mental health and youth development spaces are expected to cost less than full HSWC spaces. Projects that coordinate with ongoing MCPS project schedules can realize substantial cost savings relative to standalone projects. Anticipating that some projects funded in the 6-year period will be able to coordinate with MCPS projects, less funding is needed than FY24 estimates.

PROJECT JUSTIFICATION

This project is recommended by the SBWCPG, DHHS, and MCPS. Full HSWC sites will provide somatic care, mental health services, and social services. Mental health and youth development focused centers will increase access to these essential services within high schools.

FISCAL NOTE

FY22 Special Appropriation (Resolution 19-1220) added \$750,000 in Current Revenue: General and \$1.25 million in G.O. Bonds to modify school spaces to accommodate the delivery of mental health and youth development services for the school year beginning August 2022. The Maryland General Assembly awarded \$1 million during the 2023 session.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project will allow the County to consider how a non-congregate shelter space for individuals that experience acute challenges in congregate shelters can add to the County's homeless services system. As part of the project analysis, a program of requirements will be developed and operating and capital costs will be analyzed.

ESTIMATED SCHEDULE

Program of Requirements (POR) development to take place in FY25.

PROJECT JUSTIFICATION

Some individuals seek emergency shelter but experience challenges in congregate settings. A facility with noncongregate shelter beds for a smaller number of individuals and on-site supports would improve outcomes for these individuals and improve operations in the County's congregate shelters.

FISCAL NOTE

The source of funds is a federal grant available from the American Rescue Plan Act. The U.S. Department of Housing and Urban Development (HUD) must approve the proposed use of funds prior to expenditure.

COORDINATION

Department of Health and Human Services, Department of Housing and Community Affairs, and Department of General Services.

PROJECT DESCRIPTION

This project provides for the placement of Linkages to Learning (LTL) sites and School Based Health Centers (SBHC) at public schools. LTL sites provide accessible services to at-risk children and their families to improve adjustment to and performance in school, home, and community. Services include mental health, social services, and related community school programming. SBHCs are expanded models of LTL sites that include comprehensive primary health services. Host schools are selected based on criteria recommended by the SBHC Interagency Planning Group and the LTL Advisory Group. Montgomery County Public Schools (MCPS) will oversee the construction of SBHC and LTL sites. The County will occupy the space with School Health Services and LTL personnel and contractors.

ESTIMATED SCHEDULE

Construction of a SBHC and LTL at South Lake Elementary School was completed in FY24. Construction of Neelsville Middle School LTL facility is expected to be completed in FY25. Construction of Greencastle Elementary School LTL facility and Silver Spring International Middle School LTL facility is expected to be completed in FY26. Construction of JoAnn Leleck Elementary School SBHC is expected to continue until FY27. Construction of LTL facilities in Eastern Middle School and Twinbrook and Whetstone Elementary Schools is expected to begin in FY29.

COST CHANGE

In coordination with the Board of Education's requested Capital Improvement Program, costs increase to construct new Linkage sites at Twinbrook and Whetstone Elementary Schools, and to expand an existing LTL space at Eastern Middle School. Some cost escalation is also anticipated for previously approved construction. Funding is also added for a feasibility study for a standalone Linkages to Learning project at Francis Scott Key Middle School.

PROJECT JUSTIFICATION

This project is recommended by the Department of Health and Human Services and MCPS.

OTHER

Cost estimates are based on per square foot costs for school construction, adjusted by additional health care facility requirements such as examination rooms, a laboratory, and medical equipment. MCPS will provide maintenance and utilities by a Memorandum of Understanding. Site specific factors are to be determined, and will be provided during construction.

FISCAL NOTE

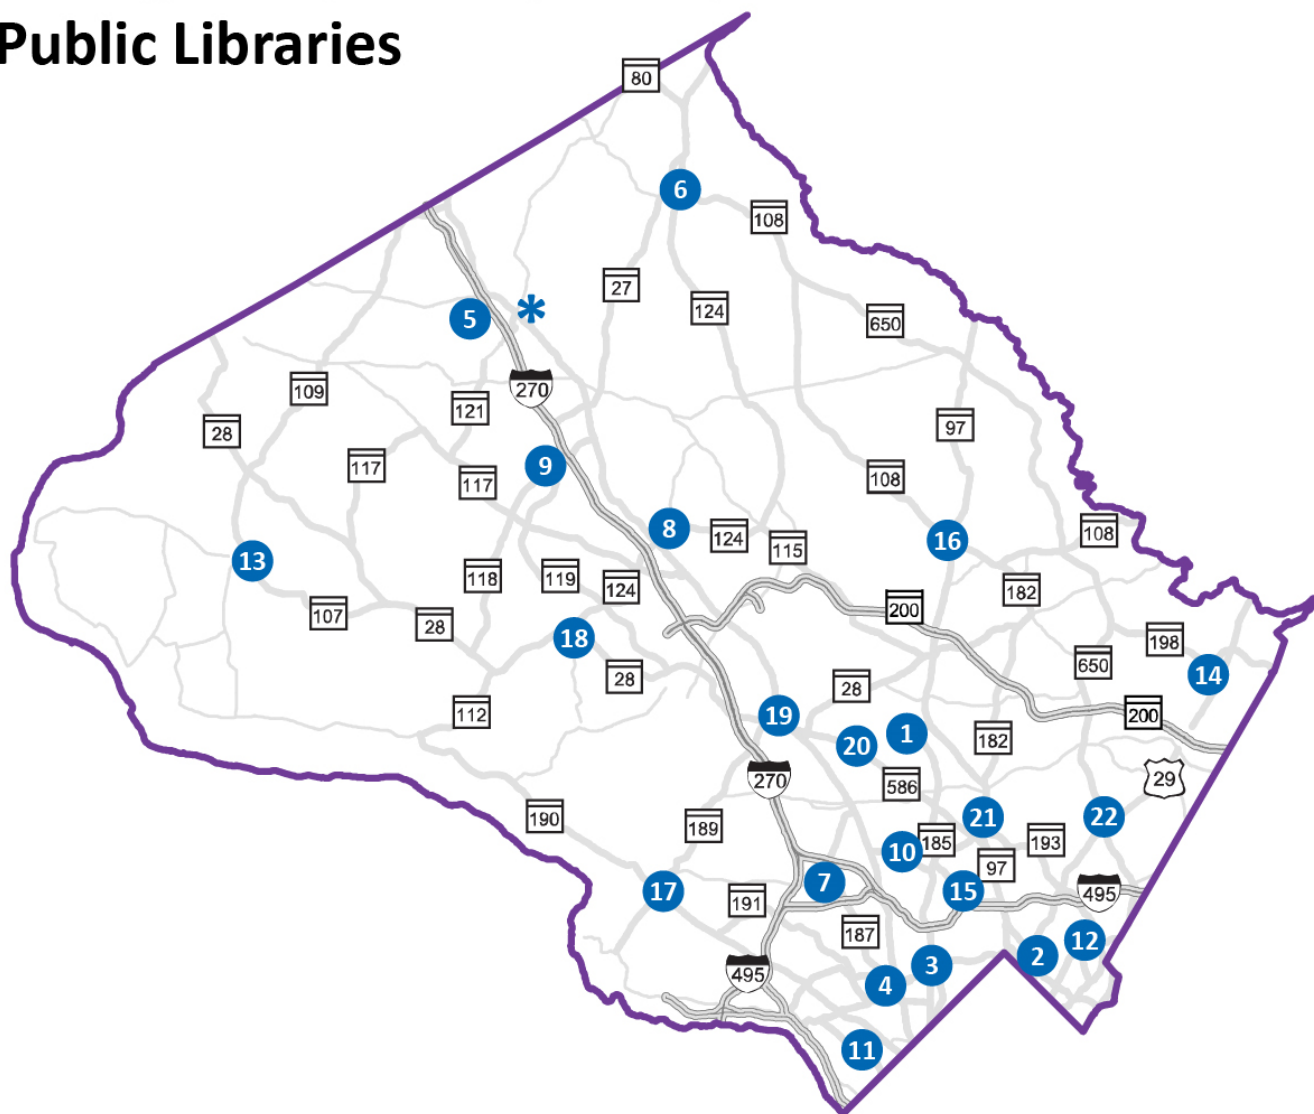

Reflects an FY15 transfer of \$65,000 in GO Bonds from the High School Wellness Center (P640902) project and a subsequent funding switch from GO Bonds to Recordation Tax Premium. FY23 supplemental in G.O. Bonds for the amount of \$850,000.

Unencumbered Balance	1,356		

PROJECT DESCRIPTION

This level of effort project is intended to maintain and keep technology current in existing libraries by updating technology and technology support systems. When appropriate, upgrades will be coordinated with Library Refurbishment project work.

ESTIMATED SCHEDULE

Project started in FY15 and work will progress on an as needed basis.

COST CHANGE

Added FY29 and FY30 costs to this level of effort project.

PROJECT JUSTIFICATION

This funding will allow the Department of Public Libraries, Department of General Services, and Department of Technology and Enterprise Business Solutions to respond to customer demands and library trends that require changes in the equipment and related furnishings of library buildings. This includes the provision of new equipment such as loanable laptops, upgraded self-checkout machines, security cameras, badge access doors, and modifying service desks to provide single points of service. It will also provide funding for necessary upgrades of electrical and data connections as improvements are made to the services and programs. This project will improve the level of service to the community by keeping the library system more current and responsive to the needs of the community. Rather than the current 30+ year cycle of renovations, funds will be available to modify technology on a much shorter timeframe.

FISCAL NOTE

Funds have occasionally been moved from this CIP budget to the Library operating budget to accommodate ongoing operating budget impacts from this project. Beginning in FY20, \$118,000 was shifted to the Library operating budget. Beginning in FY21, another \$156,000 was shifted to the Library operating budget. Beginning in FY23, \$93,000 was shifted to the Library operating budget. Beginning in FY24, \$164,000 was shifted to the Library operating budget. Beginning in FY25, \$48,000 will be shifted to the Library operating budget.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of General Services, Department of Public Libraries, and Department of Technology and Enterprise Business Solutions.

PROJECT DESCRIPTION

The Chevy Chase Library was originally included in the approved Library Refurbishment Level of Effort (LOE) Capital Improvement Project (CIP). This project will provide a new library with a mixed-use development at the site of the existing library.

LOCATION

8005 Connecticut Avenue, Chevy Chase, Maryland 20815

ESTIMATED SCHEDULE

Design development to begin in FY27 and construction in FY29.

FISCAL NOTE

Library Refurbishment Level of Effort (P711502) project costs are reduced in FY25 to FY28 since Chevy Chase Library costs were moved to this standalone project.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Department of General Services, Department of Public Libraries, Maryland State Department of Education, and Department of Technology and Enterprise Business Solutions.

Unencumbered Balance	7,275		

PROJECT DESCRIPTION

This project provides for the design and construction of a library located in Clarksburg, as outlined in the Clarksburg Master Plan, and appropriate to the needs of the community.

LOCATION

To be determined. The following Clarksburg locations are being considered: Clarksburg Square Road and Public House Road; and MD 355 and Stringtown Road.

ESTIMATED SCHEDULE

Design development will begin in FY24, and construction will start in FY26.

COST CHANGE

Updated cost estimate. Funding provided for evaluation and purchase of alternate site for this library.

PROJECT JUSTIFICATION

The Department's Strategic Facilities Plan (1998 - 2003) recognized the need for library services in the Clarksburg area, including a needs assessment completed in 2001. The Department confirms that the Clarksburg area continues to meet the criteria for a new facility, as outlined in the Department's Facilities Plan 2013-2016. The Clarksburg population is expected to increase from 13,766 in 2010 to almost 40,000 by 2025. The closest library is the Germantown branch, which opened in 2007. The library will serve as the community connection hub to ideas, learning, and the exchange of information. It will improve the community through facilitating knowledge creation, informing the community, and inspiring lifelong learning and collaboration.

FISCAL NOTE

Dedication of a 1.1 acre site was approved by the Montgomery County Planning Board on July 23, 2015, as part of the developer Third Try LLC's design for the site plan for the unbuilt portions of the Town Center on the east and west sides of the development. Associated parking was to be provided by the developer. Funding provided in an FY24 Supplemental for evaluation and purchase of an alternate site at the corner of MD 355 and Stringtown Road in Clarksburg. FY24 supplemental provides G.O. Bonds for the amount of \$3,624,000 and acceleration of FY25 appropriation in the amount of \$3,206,000 to sign design contract.

COORDINATION

Maryland-National Capital Park and Planning Commission, Department of General Services, Department of Technology and Enterprise Business Solutions, Department of Permitting Services, WSSC Water, Clarksburg Town Center Development District, Department of Public Libraries, Upcounty Regional Service Center, Department of Housing and Community Affairs. Special Capital Projects Legislation will be proposed by the County Executive.

PROJECT DESCRIPTION

The Library Refurbishment Level of Effort (LOE) project provides a structured process to modernize all 21 library branches over 20 years with new technologies and service delivery improvements that reflect the latest in 21st century library trends at much less costs than renovations. The improvements include renovated restrooms, creating group collaboration rooms, providing new sit / stand ergonomic service desks, prekindergarten early literacy display elements, new water fountains with bottle filling features, and a general esthetic refurbishment of new paint, carpet and other flooring, and some furnishings. With the addition of funding from the 21st Century Library Level of Effort project, electric connectivity at many tables and seating groups and loanable laptops are provided.

ESTIMATED SCHEDULE

The Library Refurbishment LOE started in FY15. Refurbishments per fiscal year are scheduled to complete the facility assessment of one library, design of one library, and the construction of one library per fiscal year. This will enable all 21 libraries to be refurbished by FY29 where the cycle would start over again. The Library Department identifies the libraries to be refurbished 18 months in advance before the planning and design begins, so that applications for state grant funding can be submitted. Notice identifying the specific library projects for the given fiscal year must be provided to Council at least 60 days before any funding is obligated or spent. The notice to Council includes the scope of work, cost estimate, and expenditure schedule for planning design and supervision, construction, and other costs by fiscal year.

COST CHANGE

Updated projects list, schedules, and escalation. Cost increase for Damascus Library refurbishment.

PROJECT JUSTIFICATION

Until the implementation of these projects, many of the County Libraries have not been updated in 20 years. The Library Refurbishment LOE will ensure that all libraries are refurbished and updated on a scheduled basis. This will ensure that the libraries continue to meet the community's needs for programs, services, and facilities. The Library Refurbishment projects enable the County to update more libraries over a shorter period with less money than the old approach of renovating only 1 or 2 libraries. Refurbishments also help avoid future major renovations on many buildings.

FISCAL NOTE

FY15 Supplemental in State Aid for \$387,000 was approved for this project for the refurbishment of Twinbrook (\$128,000) and Kensington Park (\$259,000) branches. FY16 Supplemental in State Aid for \$800,000 was approved for this project for the refurbishment of Davis (\$400,000) and Little Falls (\$400,000) branches. FY17 Supplemental in State Aid for \$1,500,000 was approved for this project for the refurbishment of the then Bethesda, now Connie Morella, (\$500,000), Quince Orchard (\$500,000), and White Oak (\$500,000) branches. Amended FY18 for State Aid of \$200,000 for the refurbishment of Long Branch (\$100,000) and Marilyn Praisner (\$100,000) branches. Cost estimates will be refined after facility assessments are completed. Recordation Tax Premium will be used to cover the costs to renovate the Maggie Nightingale Library. In FY23, FY25 to FY28 costs were reduced because the Chevy Chase Library refurbishment costs were reflected instead in the Chevy Chase Library and Redevelopment project. Amended FY24 for State Aid of \$500,000 for Damascus Library and Senior Center and \$555,600 for Long Branch Library Building and Site Improvements. Amended FY25 for State Aid of \$957,000 for Damascus Library Renovation.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of General Services, Department of Public Libraries, Maryland State Department of Education, and Department of Technology & Enterprise Business Solutions.

PROJECT DESCRIPTION

This project will provide for a comprehensive rehabilitation of this historic library to include conversion of the attic into a finished second floor, renovation of the first floor, and the addition of a finished basement, an elevator, Americans with Disabilities Act (ADA) compliant restrooms, and egress stairs. The rehabilitated facility will be able to accommodate more attendees and more types of programming and services than are possible in the current facility.

LOCATION

10237 Carroll Place, Kensington, Maryland 20895.

ESTIMATED SCHEDULE

Design is completed. Project is deferred for one year due to the need to rebid the project.

PROJECT JUSTIFICATION

The Noyes Library is a small, historically-designated library with services specifically focused on pre-kindergarten education and early childhood (infants through approximately age 8). The small scale and intimate setting of the library are unique and provide a signature experience for children, but the building is not ADA compliant. In 2010, the County proposed a modest effort that would have addressed the ADA issues in the most basic manner possible, as well as made small changes to the library layout that would have positively impacted programming and service offerings. Since that time, the County and the Foundation discussed a more comprehensive rehabilitation of the Noyes Library for Young Children that preserved the library's unique, small-scale, intimate experience, while making substantial improvements to the building that supported use by persons with disabilities, new space for program preparatory and collection work by staff, and additional space for programs. Via this project, the County Executive is proposing a partnership to support this enhanced vision of the Noyes Library for Young Children.

FISCAL NOTE

Originally, the project was to be funded by County General Obligation (GO) Bonds and private funds that would be raised by the Noyes Children's Library Foundation according to the requirements of the Memorandum of Understanding (MOU) between the County and the Noyes Children's Library Foundation which codified the fundraising and project plan. In addition, Current Revenue funding of \$300,000 in FY17 and \$200,000 in FY18 was moved from Capital Improvement Grants for the Arts and Humanities from Cost Sharing project P720601. The construction phase was not to begin until the Noyes Children's Library Foundation completed its fund raising and provided the construction funding in full to the County. An increased cost share related to the project's cost increase was required to be negotiated per the terms of the Memorandum of Understanding between the County and the Noyes Children's Library Foundation. In FY23, the County agreed to contribute an additional \$885,000 for the project. In concert with the Foundation's reported \$950,000 in fund raising proceeds and an additional \$525,000 in FY23 State Aid, this will fully fund the project.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Department of Public Libraries, Department of General Services, Noyes Children's Library Foundation, Maryland-National Capital Park and Planning Commission, Montgomery County Parks, Mid-County Regional Services Center, WSSC Water, Pepco, Town of Kensington Park, and Maryland Historic Trust.

PROJECT DESCRIPTION

This project provides funds for the development of non-governmental projects in conjunction with public agencies or the private sector. County participation leverages private and other public funds for these facilities. Prior to disbursing funds, the relevant County department or agency and the private organization will develop a Memorandum of Understanding, which specifies the requirements and responsibilities of each.

COST CHANGE

Funds added for FY29 and FY30 Arts Facility Grants. Additional funds added for Glen Echo Park Spanish Ballroom Capital Project, Sexual and Gender Minorities Health Center Project, and Identity Headquarters and Community Center as well as \$1,500,000 in Current Revenue: General for FY25 Capital Grants. These grants will maximize leverage of State matches for County non-Arts related capital projects and support other major priority community capital projects and non-Arts capital projects in underserved communities.

PROJECT JUSTIFICATION

The County has entered into or considered many public-private partnerships, which contribute to the excellence and diversity of facilities serving County residents.

OTHER

See attached for Community Grants and CIP Grants for Arts and Humanities Organizations.

FISCAL NOTE

The County Council approved an FY21 special appropriation, Resolution #19-593, that increased FY21 by \$250,000 for a total of \$2.330 million, reduced FY22 to \$603,000 from \$1 million, and reduced FY23 to \$250,000 from \$1 million. Approved FY18 supplemental appropriation 15-S18-CMCG-13 added \$100,000 in State Aid to recognize FY15 State Bond Bill. Amended project approved in FY18 designated a total of \$300,365 of the \$400,000 project balance to 32 individual faith-based organizations, leaving a remaining unallocated balance of \$99,635 in the project for emergency capital grants. Approved FY19 supplemental appropriation 3-S19-CMCG-3 added \$400,000 in Current Revenue for Manna Food Center, Inc. and \$300,000 in Current Revenue for Sunflower Bakery, Inc. See Cost Sharing Grants attachment for Historical Fiscal Note regarding the Fillmore venue in Silver Spring and Old Blair Auditorium Project, Inc.

FY23 supplemental in Current Revenue: General for the amount of \$5,000,000 for CASA for the Workforce Development Training Center. FY23 technical correction to eliminate duplicate State Aid cost of \$100,000.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Private organizations, State of Maryland, Municipalities, Montgomery County Public Schools, Community Use of Public Facilities, Department of General Services, and Arts and Humanities Council of Montgomery County.

COST SHARING GRANTS Grants:

In FY25 Glen Echo Park Spanish Ballroom Capital Project, Sexual and Gender Minorities Health Center Project, and Identity Headquarters and Community Center will receive funding through Federal Reimbursement for COVID-19 costs. In FY24 and FY25 Cost Sharing Grants will be awarded through a formal grants review and approval process overseen by the Office of Grants Management.

Supplemental Appropriation #23-13 for \$5,000,000 for the renovation of 14645 Rothgeb Drive, Rockville, MD for use as a workforce development and training center, thru a non-competitive contract with CASA.

As previously approved by Council, a FY23 CIP Grant for Arts and Humanities Organizations grant totaling \$250,000 is included for the following project: The Olney Theatre for the Arts, Inc.: \$250,000.

For FY23, County participation is for the following community grant projects totaling \$3,300,000: A Wider Circle, Inc.: \$115,000; Adventist Community Services of Greater Washington, Inc.: \$20,500; Adventist Health Care, Inc.: \$63,000; Aish Center of Greater Washington: \$5,200; American Diversity Group, Inc.: \$28,023; Artpreneurs, Inc. dba Arts on the Block: \$25,000; Audubon Naturalist Society of the Central Atlantic States, Inc.: \$170,000; Bender JCC of Greater Washington, Inc. For FY22, County Participation is for the following community grants projects totaling \$500,000 include: Easter Seals Serving DC|MD|VA, Inc.: \$100,000 and Family Services, Inc.: \$400,000.

For FY22, CIP Grants for Arts and Humanities Organizations totaling \$603,412 are approved for the following projects: Montgomery Community Television: \$103,412; Round House Theatre, Inc.: \$250,000; and The Olney Theatre Center for the Arts, Inc.: \$250,000.

For FY21, County participation is for the following community grant projects totaling \$1,583,362 include: A Wider Circle Inc.: \$100,000; Audubon Naturalist Society of the Central Atlantic States, Inc.: \$200,000; CASA: \$150,000; The Charles E. Smith Jewish Day School of Greater Washington, Inc.: \$100,000; Easter Seals Serving DC|MD|VA, Inc.: \$50,000; Family Services, Inc.: \$100,000; Friends House Retirement Community, Inc.: \$100,000; Great and Small: \$18,000; Hebrew Home of Greater Washington, Inc.: \$86,500; Islamic Center of Maryland: \$200,000; Jewish Foundation for Group Homes: \$100,000; National Capital Bnai Brith Assisted Housing Corporation: \$75,000; Organization For Advancement Of And Service For Individuals With Special Needs (OASIS), Inc.: \$13,862; Rebuilding Together Montgomery County, Inc.: \$30,000; Sugarland Ethno-History Project, Inc.: \$25,000; The First Baptist Church of KenGar, Kensington: \$10,000; The Ivymount School, Inc.: \$125,000; Warren Historic Site Committee, Inc.: \$50,000; and Warrior Canine Connection, Inc.: \$50,000.

For FY21, CIP Grants for Arts and Humanities Organizations totaling \$746,638 are approved for the following projects: CityDance School & Conservatory: \$200,000; VisArts: \$150,000; Glen Echo Park Partnership for Arts and Culture, Inc.: \$112,238; Sandy Spring Museum: \$34,400; Round House Theatre: \$250,000. For FY22, CIP Grants for Arts and Humanities Organizations totaling \$603,412 are approved for the following projects: Montgomery Community Television: \$103,412; The Olney Theatre for the Arts, Inc.: \$250,000; Round House Theatre: \$250,000.

For FY20, County participation is for the following community grant projects totaling \$1,689,000: 7th Generation Foundation, Inc.: \$25,000; A Wider Circle, Inc.: \$100,000; CASA de Maryland, Inc.: \$150,000; Charles E. Smith Jewish Day School of Greater Washington, Inc.: \$100,000; Cornerstone Montgomery, Inc.: \$50,000; Cura Personalis Project, Inc.: \$10,000; EveryMind, Inc.:

\$75,000; Friends House Retirement Community, Inc.: \$100,000; Jewish Foundation for Group Homes: \$100,000; Manna Food Center, Inc.: \$100,000; Potomac Community Resources, Inc.: \$25,000; The Olney Theatre for the Arts, Inc.: \$250,000; Round House Theatre: \$250,000; The Arc Montgomery County, Inc.: \$35,000; The Ivymount School, Inc.: \$125,000; The Menare Foundation, Inc.: \$19,000; Warrior Canine Connection, Inc.: \$50,000; YMCA of Metropolitan Washington: \$125,000. For FY20, CIP Grants for Arts and Humanities organizations totaling \$253,581 are approved for the following projects: Sandy Spring Museum, Inc.: \$80,000; Imagination Stage, Inc.: \$41,150; Glen Echo Park Partnership for Arts and Culture, Inc.: \$88,833; and Montgomery Community Television, Inc.: \$43,598. In addition, \$220,000 in FY20 funds allocated for CIP Grants for Arts and Humanities Organizations has been moved from this project to the Planned Lifecycle Asset Replacement: MCG project (P509514) in order to provide repairs for the County owned building leased by Germantown Cultural Arts Center, Inc. dba BlackRock Center for the Arts. Funds totaling \$400,000 became available mid-year when the following awardee subsequently declined its grants: Graceful Growing Together, Inc. (FY15: \$125,000; FY16: \$75,000; FY17: \$100,000; and FY18: \$100,000). Funds totaling \$69,859 also became available from previous year grants that were not fully spent.

For FY19, County participation is for the following community grant projects totaling \$2,359,958: 7th Generation Foundation, Inc.: \$25,000; A Wider Circle, Inc.: \$100,000; Bender JCC of Greater Washington: \$20,000; CASA de Maryland, Inc.: \$100,000; Charles E. Smith Jewish Day School of Greater Washington, Inc.: \$20,000; Cornerstone Montgomery, Inc.: \$350,000; Easter Seals Serving DC|MD|VA: \$50,000; Family Services, Inc.: \$100,000; First Baptist Church of KenGar: \$10,000; Grand United Order of Odd Fellows Sandy Spring Lodge #6430, Inc.: \$15,000; Hebrew Home of Greater Washington, Inc.: \$80,000; Jewish Foundation for Group Homes: \$75,000; Melvin J. Berman Hebrew Academy: \$75,000; Olney Theatre Corporation: \$650,000; Potomac Community Resources, Inc.: \$30,000; Round House Theatre: \$250,000; Sunflower Bakery: \$150,000; The Ivymount School, Inc.: \$50,000; The Menare Foundation, Inc.: \$9,958; TLC - The Treatment Learning Centers, Inc.: \$25,000; Warrior Canine Connection: \$50,000; YMCA of Metropolitan Washington: \$125,000. For FY19, CIP Grants for Arts and Humanities organizations totaling \$922,414 are approved for the following projects: Glen Echo Park Partnership for Arts and Culture, Inc.: \$250,000; Round House Theatre, Inc.: \$250,000; The Olney Theatre Center for the Arts, Inc.: \$100,000; Montgomery Community Television, Inc.: \$98,237; Metropolitan Ballet Theatre, Inc.: \$115,463; Glen Echo Park Partnership for Arts and Culture, Inc.: \$52,184; and Adventure Theatre, Inc.: \$56,530. For FY19, a Supplemental Appropriation totaling \$700,000 was approved for Manna Food Center, Inc.: \$400,000 and Sunflower Bakery, Inc.: \$300,000.

For FY18, County participation is for the following community grant projects totaling \$1,236,900: A Wider Circle, Inc.: \$50,000; Cornerstone Montgomery, Inc.: \$350,000; Friends House, Inc.: \$50,000; Graceful Growing Together, Inc.: \$100,000; Identity, Inc.: \$61,900; Jewish Council for the Aging of Greater Washington, Inc.: \$50,000; Jewish Foundation for Group Homes: \$100,000; Jewish Social Service Agency: \$250,000; Potomac Community Resources, Inc.: \$50,000; Warrior Canine Connection, Inc.: \$50,000; YMCA of Metropolitan Washington, Inc.: \$125,000. For FY18, CIP Grants for Arts and Humanities Organizations totaling \$192,283 are approved for the following projects: Glen Echo Park Partnership for Arts and Culture, Inc.: \$98,161; and Montgomery Community Television, Inc.: \$94,122. In addition, a non-competitive contract award of \$48,000 is approved in FY17 for Imagination Stage, Inc. Costs have been reduced since the remaining unspent balance on a FY14 Imagination Stage, Inc. grant (\$96,656) and a FY15 Family Services, Inc. grant (\$75,000) are no longer needed. For FY18, County participation is for the following Faith-based Facilities Security Improvement Grant projects totaling \$300,365: Alef Bet Montessori School, Inc.: \$12,000; Cambodian Buddhist Society: \$4,492; Cedar Lane Unitarian Universalist Church: \$10,600; Chabad Lubavitch of Upper Montgomery County, Inc.: \$8,000; Chabad - Lubavitch of BCC, Inc.: \$10,000; Chinmaya Mission (Washington Regional Center): \$11,500; Christ Congregational Church (United Church of Christ): \$7,000; Colesville Presbyterian Church: \$1,200; Colesville United Methodist Church: \$4,500; Congregation B'nai Tzedek: \$10,000; Guru Gobind Singh Foundation Trust: \$10,000; Guru Nanak Foundation of American: \$12,500; Islamic Supreme Council of America (dba Institute for Spiritual & Cultural Advancement): \$8,476; Islamic Center of Maryland, Inc.: \$19,620; Islamic Community Center of Potomac, Inc.: \$15,000; Islamic Education Center, Inc.: \$15,000; Islamic Society of Germantown, Inc.: \$15,000; Islamic Society of the Washington Area: \$15,000; Redeemer Lutheran Church: \$2,500; Melvin J. Berman Hebrew Academy: \$7,500; Muslim Community Center, Inc.: \$14,836; Ohev Sholom Talmud Torah Congregation of Olney, Maryland: \$1,800; Rockville United Church: \$7,500; Seneca Community Church: \$8,249; Shaare Tefila Congregation: \$2,914; Soorp Khatch Armenian Apostolic Church: \$2,325; Temple Beth Ami: \$8,353; Tikvat Israel Congregation: \$15,000; Torah School of Greater Washington: \$10,000; Yeshiva of Greater Washington, Inc.: \$10,000; Young Israel Shomrai Emunah of Greater Washington: \$12,000; Zoroastrian Association of Metropolitan Washington, Inc.: \$7,500.

For FY17, County participation is for the following community grant projects totaling \$1,178,000: A Wider Circle, Inc.: \$50,000; Congregation Beth El of Montgomery County, \$20,000; Cornerstone Montgomery, Inc.: \$350,000; Easter Seals Greater Washington-Baltimore Region, Inc.: \$50,000; Friends House, Inc.: \$50,000; Graceful Growing Together, Inc.: \$100,000; Hebrew Home of Greater Washington, Inc.: \$200,000; Jewish Community Center of Greater Washington, Inc.: \$25,000; Jewish Foundation for Group Homes, Inc.: \$100,000; Our House, Inc.: \$20,000; Potomac Community Resources, Inc.: \$50,000; Reginald S. Lourie Center for Infants and Young Children, \$68,000; Seven Locks Jewish Community Inc.: \$20,000; The Jewish Federation of Greater Washington, Inc.: \$25,000; Warrior Canine Connection, Inc.: \$50,000. Supplemental for FY17 for the following community grant projects totaling \$225,000: Bender JCC of Greater Washington, Inc.: \$25,000; Charles E. Smith Jewish Day School of Greater Washington, Inc.: \$16,000; Charles E. Smith Jewish Day School of Greater Washington, Inc.: \$24,000; Charles E. Smith Jewish Day School of Greater Washington, Inc.: \$12,000; and The Jewish Federation of Greater Washington, Inc.: \$148,000. For FY17, a CIP Grant for Arts and Humanities Organizations totaling \$1,398,000 is approved for the following project: Strathmore Hall Foundation, Inc.: \$1,398,000. The Department of General Services will be managing the Strathmore Mansion repair project. For FY17, CIP Grants for Arts and Humanities Organizations totaling \$377,217 are approved for the following projects: Glen Echo Park Partnership for Arts and Culture, Inc.: \$67,795; Montgomery Community Television, Inc.: \$159,422; and The Olney Theatre Center for the Arts, Inc.: \$150,000. For FY17, emergency CIP Grants for Arts and Humanities Organizations totaling \$224,677 are approved for the following projects: Glen Echo Park Partnership for Arts and Culture, Inc.: \$169,960; Montgomery Community Television, Inc.: \$29,717; and The Olney Theatre Center for the Arts, Inc.: \$25,000. In addition, \$300,000 in FY17 funds and \$200,000 in FY18 funds allocated for CIP Grants for Arts and Humanities Organizations have been moved from this project to the Noyes Library for Young Children Rehabilitation and Renovation project P711704.

For FY16, County participation is for the following community grant projects totaling \$865,000: Beth Shalom Congregation and Talmud Torah: \$60,000; Easter Seals Greater Washington-Baltimore Region: \$50,000; Graceful Growing Together, Inc.: \$75,000; Jewish Council for the Aging of Greater Washington, Inc.: \$50,000; Jewish Foundation for Group Homes: \$50,000; Latin American Youth Center, Inc.: \$25,000; Muslim Community Center Inc. DBA MCC Medical Clinic: \$25,000; Potomac Community Resources: \$25,000; Rockville Science Center, Inc.: \$15,000; Silver Spring United Methodist Church: \$50,000; The Jewish Federation of Greater Washington: \$40,000; Warrior Canine Connection: \$50,000; Cornerstone Montgomery, Inc.: \$350,000. For FY16, CIP Grants for Arts and Humanities Organizations totaling \$1,625,004 are approved for the following projects: The Writer's Center, Inc.: \$250,000; Montgomery Community Television, Inc.: \$119,181; Sandy Spring Museum, Inc.: \$30,170; Round House Theatre, Inc.: \$155,572; American Dance Institute, Inc.: \$70,081; and Strathmore Hall Foundation, Inc.: \$1,000,000. For FY16, emergency CIP Grants for Arts and Humanities Organizations totaling \$147,000 are approved for the following project: The Selma M Levine School of Music, Inc.: \$147,000. These funds became available mid-year when the following awardees subsequently declined their grants: American Dance Institute, Inc. (FY16: \$70,081); and The Dance Exchange Inc. (FY14: \$77,500).

For FY15, County participation was for the following projects: Easter Seals Greater Washington-Baltimore Region, Inc.: \$100,000; Graceful Growing Together, Inc.: \$125,000; Jewish Community Center of Greater Washington: \$150,000; Muslim Community Center, Inc.: \$250,000; Potomac Community Resources, Inc.: \$150,000; The Arc of Montgomery County, Inc.: \$17,973; Catholic Charities of the Archdiocese of Washington, Inc.: \$11,395; Melvin J. Berman Hebrew Academy: \$33,000; Jewish Social Service Agency: \$75,000; Warrior Canine Connection, Inc.: \$75,000; Jewish Council for the Aging of Greater Washington, Inc.: \$125,000; The Jewish Federation of Greater Washington, Inc.: \$100,000; Family Services, Inc.: \$75,000. For FY15, CIP Grants for Arts and Humanities Organizations totaling \$849,080 are approved for the following projects: Germantown Cultural Arts Center, Inc.: \$75,000; Jewish Community Center of Greater Washington, Inc.: \$134,000; Montgomery Community Television, Inc.: \$50,080; The Olney Theatre Center for the Arts, Inc.: \$150,000; Sandy Spring Museum, Inc.: \$90,000; and The Writer's Center, Inc.: \$250,000. \$100,000 of these funds will also be used to provide a State bond bill match for Silver Spring Black Box Theater. For FY15, emergency CIP Grants for Arts and Humanities Organizations totaling \$143,116 are approved for the following projects: Montgomery Community Television, Inc.: \$127,179; and Sandy Spring Museum, Inc.: \$15,937.

For FY14, County participation was for the following projects: Easter Seals Greater Washington-Baltimore Region: \$100,000; Jewish Foundation for Group Homes, Inc.: \$125,000; Muslim Community Center: \$100,000; Potomac Community Resources, Inc.: \$50,000; Sandy Spring Museum: \$65,000; St. Luke's House and Threshold Services United: \$50,000; and Takoma Park Presbyterian Church: \$75,000. Prior to disbursement of funds, Takoma Park Presbyterian Church must provide a final Business Plan to the Executive and

Council that includes the proposed fee schedule and letters of interest from potential entrepreneurs with expected revenues from each user. The Church must agree to use the facility for the expressed purposes for a period of ten years from the time the facility is complete or repay the pro rata portion of County funds. The following Capital Improvement Grants for the Arts and Humanities were awarded to Friends of the Library, Montgomery County, Inc.: \$25,100; Imagination Stage, Inc.: \$190,000; The Washington Conservatory: \$26,875; Strathmore Hall Foundation, Inc.: \$26,000; The Puppet Company: \$25,000; The Writers Center, Inc.: \$250,000; Glen Echo Park Partnership for Arts and Culture: \$45,000; American Dance Institute, Inc.: \$34,889; Olney Theatre Corp: \$25,000; Montgomery Community Television dba Montgomery Community Media: \$62,469; The Dance Exchange Inc.: \$77,500; and Metropolitan Ballet Theatre, Inc.: \$100,850.

For FY13, County participation was for the following projects: ArtPreneurs, Inc.: \$80,000; Muslim Community Center, Inc.: \$120,000; Muslim Community Center, Inc.: \$175,000; Potomac Community Resources, Inc.: \$50,000; Sheppard Pratt Health System, Inc.: \$50,000; and The Menare Foundation, Inc.: \$80,000.

For FY12, County participation was for the following projects: Catholic Charities of the Archdiocese of Washington, Inc.: \$125,000; CHI Centers Inc.: \$200,000; and Ivymount School, Inc.: \$100,000.

For FY11, County participation was for the following projects: Girl Scout Council of the Nation's Capital: \$100,000; Jewish Foundation for Group Homes, Inc.: \$50,000; and Ivymount School, Inc.: \$100,000.

For FY10, County participation was for the following project: Aunt Hattie's Place, Inc.: \$100,000. Disbursement of FY09 and FY10 County funds is conditioned on the owner of the property giving the County an appropriate covenant restricting the use of the leased property to a foster home for boys for a period of ten years from the time the facility commences to operate as a foster home. Boys and Girls Club of Greater Washington: \$38,000; CASA de Maryland, Inc.: \$100,000; Jewish Council for the Aging of Greater Washington, Inc.: \$50,000; and Warren Historic Site Committee, Inc.: \$150,000.

For FY09, County participation was for the following projects: Aunt Hattie's Place, Inc.: \$250,000; Boys and Girls Club of Greater Washington: \$250,000; CASA de Maryland, Inc.: \$150,000; CHI Centers: \$50,000; and Institute for Family Development Inc., doing business as Centro Familia: \$75,000 (The organization had to demonstrate to the County's satisfaction that it had commitments for the entire funding needed to construct the project before the \$75,000 in County funds could be spent.); Jewish Council for the Aging of Greater Washington, Inc.: \$250,000; Montgomery General Hospital: \$500,000; Nonprofit Village, Inc.: \$200,000; and YMCA of Metropolitan Washington and Youth and Family Services Branch: \$200,000.

Occasionally, contracts are not executed or are terminated. For more information, contact the Chief Operating Officer from the Department of General Services at 240.777.6194.

HISTORICAL FISCAL NOTE:

The State approved \$4,000,000 in State Aid from FY07 to FY09 for the Fillmore venue in Silver Spring. The County's required match of \$4,000,000 and \$6,511,000 was programmed. The venue operator agreed to purchase certain furniture, fixtures, and equipment for the project; \$150,000 of which would be used as the required County match. An agreement between the development partners and the County was executed. The Fillmore is now operational.

Old Blair Auditorium Project, Inc., in FY06-07 the County provided \$190,000 as a partial match for the State funds with \$50,000 in current revenue for the Department of Transportation (DOT) to develop a program of requirements and cost estimate for the project, and bond funded expenditure of \$140,000 to pay for part of the construction. These funds were budgeted in the MCG: Cost Sharing project (No. 720601). In FY11, the funds were transferred to a new CIP Old Blair Auditorium Reuse project (No. 361113).

PROJECT DESCRIPTION

This project provides for the design and construction of an improved building facade which includes window replacement and a new building exterior for Holiday Park Senior Center. The purpose of this project is to improve life expectancy of the facility and to support the County's 2035 goal of zero greenhouse gas (GHG) emissions for the operation of the County facility. Holiday Park is centrally located in Montgomery County and serves as a resource facility and wellness support for many diverse and varied interest groups. Seniors that use the Recreation sponsored center find social and life enrichment activities open to all. Holiday Park is Montgomery County's largest senior center, serving more than 500 adults over the age of 55 daily. There are numerous drop-in and

pre-registration programs offered, including but not limited to health and wellness lectures, travelogues, financial management counseling, and musical performances.

LOCATION

3950 Ferrara Dr, Silver Spring, MD 20906

ESTIMATED SCHEDULE

Design work began in 2023 with construction scheduled in summer 2025 for a period of 18 months. This project will also coordinate the schedule for Americans with Disabilities Act (ADA) improvements and the Recreation Facility Refurbishment-Centers (P722507) project.

COST CHANGE

Project cost increases reflect revised cost estimates and market escalation funded in part by new State Aid.

PROJECT JUSTIFICATION

The Holiday Park Senior Center Facility was built in 1960 and has original windows and facade. Windows are old and require replacement. The facade needs improvement to protect the building structure and reduce energy loss. Currently installed photovoltaic (PV) panels provides roughly 75% of the energy for the facility. With building facade improvements and additional PV panel installation under the current Energy Saving program, the facility will meet the County's 2035 goal of zero GHG emissions for the facility operation.

FISCAL NOTE

FY26 reflects the addition of State Aid.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Mid-County Regional Services Center, Department of Permitting Services, Department of General Services, Department of Recreation.

PROJECT DESCRIPTION

The Kennedy Shriver Aquatic Center opened in 1989. It consists of a 50-meter competitive swimming and diving pool, a 200-foot water flume, a separate leisure pool with two hydrotherapy areas, and a diving tower. Since its opening, the center has had problems

related to the movement and condensation of moist indoor air through the building's exterior masonry walls, resulting in roof leakage throughout the building. The original scope of the project was to remove and restore existing windows and louvers; remove the 4-inch masonry veneer block throughout the facility, and correct louvers, windows, and penetration flashings; install spray-applied wall insulation functioning as both air/vapor barrier system; install new exterior masonry veneer wall system; and replace the existing roof. During the design evaluation of the entire facility, a structural review was performed for the existing conditions, and it was determined that the existing exterior walls will require significantly greater structural modifications than known prior to the evaluation, which has increased the project scope, budget, and schedule to complete the work. In addition, it was determined that the pool equipment and the HVAC systems were at the end of useful life and also require full system replacements. The Office for Americans with Disabilities Act (ADA) Compliance in the Department of General Services (DGS) also conducted a full review and design for implementation and remediation of all non-compliance issues at the Kennedy Shriver Aquatic Center. Taken in totality, the facility will require closure for a minimum of (18) months. Closure of the aquatic center is being coordinated with the Department of Recreation and other CIP projects, including MLK Aquatic Center and the anticipated opening of the Silver Spring Recreation and Aquatic Center, to limit the impact of closed indoor facilities on Recreation patrons. In order to facilitate a longer closure period for the Kennedy Shriver Aquatic Center project, a water heating system will be installed and weatherization of the shower rooms will be improved at the Glenmont Outdoor Pool to allow for extended season use of the outdoor pool both prior to Memorial Day and after Labor Day. These improvements will facilitate swim and revenue generating activities that would otherwise be eliminated or harmed by the extended closure of the Kennedy Shriver Aquatics Center.

LOCATION

5900 Executive Boulevard, North Bethesda, Maryland.

ESTIMATED SCHEDULE

Design work started in FY22 with some construction investigation continuing in FY24. Construction is scheduled to start in FY25 to coordinate with the completion of the Silver Spring Recreation and Aquatic Center that must be fully operational before closing the Kennedy Shriver Aquatic Center for renovation.

COST CHANGE

Costs increase due to updated estimates.

PROJECT JUSTIFICATION

During the design evaluation of the entire facility, a structural review was performed for the existing conditions, and it was determined that the existing exterior walls will require significantly greater structural modifications than known prior to the evaluation, which has increased the project scope, budget, and schedule to complete the work. In addition, it was determined that the pool equipment and the HVAC systems were also at the end of useful life and require full system replacements. The Office for Americans with Disabilities Act (ADA) Compliance in DGS also conducted a full review and design for implementation and remediation of all non-compliance issues at the Kennedy Shriver Aquatic Center.

OTHER

The refurbishment part of this project will be funded by Recreation Facilities Refurbishment - Centers project (P722507).

COORDINATION

Department of General Services, Department of Recreation, Office of Management and Budget, Bethesda-Chevy Chase Regional

Services Center, and Maryland-National Capital Park and Planning Commission. Special Capital Projects Legislation [Bill No. 15-22] was adopted by Council July 25, 2022.

Cumulative Appropriation	13,472		
Expenditure / Encumbrances	9,710		
Unencumbered Balance	3,762		

PROJECT DESCRIPTION

The main natatorium includes a 60-foot wide by 120-foot long competition pool with a movable bulkhead. The main pool volume is 361,000 gallons, with a flow rate of 1,050 gallons per minute (GPM), a surface area of 7,200 feet, and a turnover rate of six hours. There is also a diving pool and diving tower with one meter and three meter diving boards and a diving platform. Additional space within the structure contains the entrance lobby, spectator areas, shower/restroom/locker facilities, leisure, teaching, and hydrotherapy pools along with extensive mechanical, electrical, and plumbing facilities. Martin Luther King, Jr. (MLK) Indoor Swim Center has been in operation for over 35 years without any major renovation/modernization initiatives, and many of the building components and systems are at the end of their useful life. Multiple evaluations of building systems have been performed and extensive upgrades to, if not outright replacement of, entire building systems are recommended. If any of these systems fail, the facility will be unable to continue operating. The purpose of this project is to accomplish required renovations to protect the capital asset and to allow the facility to continue providing regular service to its customers.

LOCATION

1201 Jackson Road, Silver Spring, Maryland.

ESTIMATED SCHEDULE

Design work scheduled to begin in FY25, and construction is expected to begin in FY26.

COST CHANGE

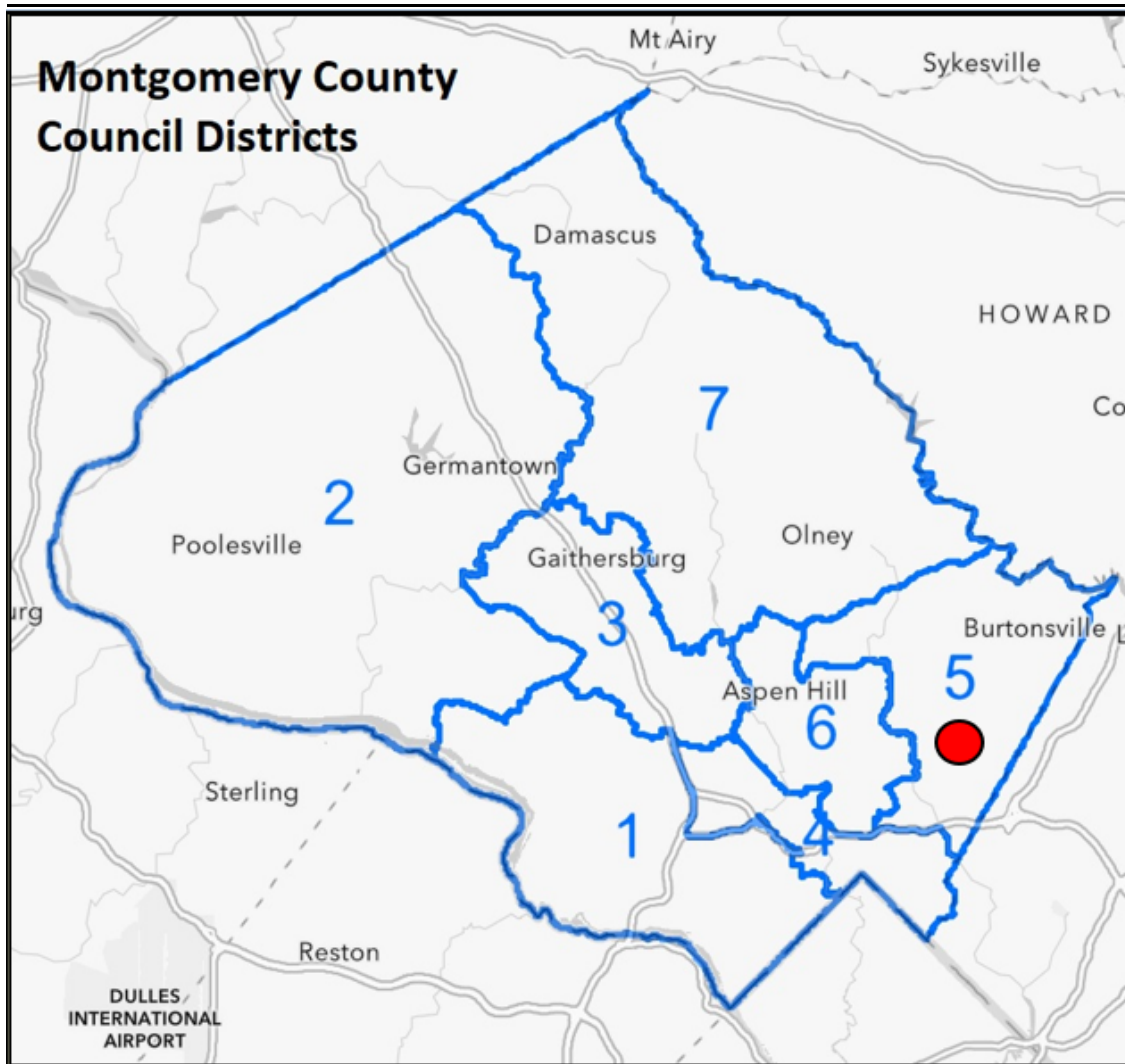

Costs increase due to updated estimates.

PROJECT JUSTIFICATION

Initiating this project and completing the renovations/replacement in a planned, methodical approach is preferable to a system failure that would close the pool for extended emergency repairs. Many building systems will be affected, including roof, HVAC, pool filtration, and pumps along with accessibility and operating program elements. This renovation will require that the entire facility be closed.

COORDINATION

East County Regional Services Center, Department of Permitting Services, Department of General Services, Department of Health and Human Services, Department of Recreation, Department of Technology and Enterprise Business Solutions, WSSC Water, and Pepco.

PROJECT DESCRIPTION

This project will include an approximately 46,200 gross square foot community recreation center. This building will include typical elements, such as, a gymnasium, exercise room, social hall, kitchen, senior/community lounge, arts/kiln room, game room, vending space, conference room, offices, lobby, restrooms, and storage space in association with the development of the Kennedy Shriver Aquatic Center and Wall Park.

ESTIMATED SCHEDULE

The project schedule is dependent upon the implementation of the White Flint Sector plan and affordability considerations.

PROJECT JUSTIFICATION

This region, with a population approaching 100,000, is currently served by one community recreation center located in Chevy Chase, which is designed to serve a community of 30,000. Residential development in the northern sector of this region has been significant in recent years, and additional development is in process.

COORDINATION

Bethesda-Chevy Chase Regional Services Center, Department of Permitting Services, Department of General Services, Department of Recreation, Department of Technology and Enterprise Business Solutions, WSSC Water, and PEPCO.

PROJECT DESCRIPTION

Effective April 12, 1995, the County Council enacted legislation providing for the creation of a Public Arts Trust. The purpose of this program is to incorporate art into public facilities and sponsor privately-funded temporary or permanent displays of art on public property. As written, the Montgomery County' County Chief Administrative Officer (CAO) administers the trust in consultation with the Arts and Humanities Council of Montgomery County (AHCMC), Montgomery County Public Schools, Montgomery College, and the Maryland-National Capital Park and Planning Commission. The request for County funds for this project will be determined annually. The guidelines state that the annual request for the next fiscal year will be 0.05 percent of the total approved programmed capital expenditures for the current year Capital Improvements Program of the County Government, Public Schools, Montgomery College, and the Maryland-National Capital Park and Planning Commission. Each year, the County Council should consider appropriating this amount but may appropriate any amount.

COST CHANGE

Funds added for FY29 and FY30.

PROJECT JUSTIFICATION

Bill 12-94, a revision to the Art in Public Architecture law, provides for the creation of a Public Arts Trust. The Public Arts Trust is administered by the County's CAO.

FISCAL NOTE

FY22 supplemental in Current Revenue: General for the amount of \$109,000. FY21 funding updated to reflect Resolution 19-592 that added an additional \$218,000 in appropriation to FY21. Due to fiscal constraints, FY21 was reduced by \$109,000 which is half of the approved FY21 Council supplemental increase. \$50,000 FY18 Special Appropriation approved by Council in July 2017. The Public Arts Trust is implemented through the Department of Recreation via an outside contract with the AHCMC.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Arts and Humanities Council of Montgomery County, Montgomery County Public Schools, Montgomery College, Maryland-National Capital Park and Planning Commission, Department of General Services, County Executive, and Chief Administrative Officer.

PROJECT DESCRIPTION

This project provides for replacement of key facility and program components based on their age and condition at Recreation facilities. Improvements may include, but are not limited to, gym bleachers, operable partition walls/curtains, kitchen equipment, building marquees, etc. Many of the Department of Recreation's facilities, along with key facility and program components, have not been updated for a long time and will not be addressed through the Recreation Facilities Refurbishment projects. This project will assist in ensuring that key program equipment/components are replaced.

ESTIMATED SCHEDULE

Each year the department will implement replacement of a backlog of assets as needed based on the priority and condition of the asset.

PROJECT JUSTIFICATION

The existing equipment is in poor condition and does not comply with national guidelines, standards, and regulations. In order to

maintain a safe, useable environment for facility patrons, it is key that equipment be in good repair.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of Recreation and Department of General Services.

PROJECT DESCRIPTION

This project provides for replacement and modernization of playgrounds at recreation centers. Improvements may include, but are not limited to, playground and recreational equipment, safety surfacing, site amenities, accessibility and drainage improvements, edging, site work, signage, etc.

ESTIMATED SCHEDULE

This project provides for design and construction of up to 7 playgrounds.

PROJECT JUSTIFICATION

The existing playground equipment is in poor condition and does not comply with national guidelines, standards, and regulations. National standards highly recommend replacement of playground equipment every 10-15 years. As components are exposed to weather elements, utilization, and external elements, the durability and hence safety become a serious safety consideration. Parts are no

longer available so off market parts often are needed to complete the component which also then include risk. This project will provide improvements to playground and recreational equipment to ensure that these recreational assets are well maintained and comply with national standards.

FISCAL NOTE

FY25 and FY26 reflect the addition of State Aid.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

PROJECT DESCRIPTION

This level of effort project is intended to provide a structured process to ensure that all recreation center facilities are refurbished through repair or replacement of facility components. A facility assessment will be conducted to evaluate the level of repair or replacement for each facility and create a program of requirements with an associated construction cost estimate.

ESTIMATED SCHEDULE

The project started in FY22. The Department of Recreation will identify the facilities and scope of the work through a facility assessment prior to the design and construction process. Projects will be prioritized based on facility assessment results and programmatic needs. In FY25, this project will be put in pending closeout and funding shifted to the Recreation Facility Refurbishment-Indoor Pools (722506), Outdoor Pools (722505) and Centers (722507) projects to facilitate improved project tracking.

COST CHANGE

This project was split into three separate projects: Recreation Facility Refurbishment-Indoor Pools (722506), Outdoor Pools (722505) and Centers (722507) projects.

PROJECT JUSTIFICATION

Several Recreation facilities have not been updated for a long time. This project will ensure that: 1) the County's capital investments are protected by maintaining the Department of Recreation's building infrastructure, 2) all new and required construction codes are addressed and implemented, 3) critical equipment and building systems are overhauled or replaced prior to failure, and 4) reorganization of internal space is completed to ensure that space is fully utilized based on the community's needs for programs and services.

FISCAL NOTE

Beginning in FY25, The Recreation Facilities Refurbishment project (722105) was separated and realigned funding into the Recreation Facility Refurbishment- Indoor Pools (722506), Outdoor Pools (722505) and Centers (722507) projects.

PROJECT DESCRIPTION

This level of effort project is intended to provide a structured process to ensure that all recreation indoor pool facilities are refurbished through repair or replacement of facility components. A facility assessment will be conducted to evaluate the level of repair or replacement for each facility and create a program of requirements with an associated construction cost estimate.

ESTIMATED SCHEDULE

The Department of Recreation will identify the facilities and scope of the work through a facility assessment prior to the design and construction process. Projects will be prioritized based on facility assessment results and programmatic needs.

PROJECT JUSTIFICATION

Some of the Department of Recreation's indoor pool facilities have not been updated for a long time. This project will ensure that: 1) the County's capital investments are protected by maintaining the Department's infrastructure, 2) all new and required construction codes are addressed and implemented, 3) critical equipment and building systems are overhauled or replaced prior to failure, and 4) reorganization of internal space is completed to ensure that space is fully utilized based on the community's needs for programs and services.

OTHER

Notice identifying the specific recreation projects that will be refurbished must be provided to the Council at least 60 days before any funding is obligated or spent. The notice to Council must include the scope of work, cost estimate, and expenditure schedule for planning, design, and supervision, construction and other costs by fiscal year.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project provides for the County's estimated costs for a new regional recreation and aquatic center in the Central Business District of Silver Spring. This project will include approximately 133,183 gross square feet (GSF) of public recreation space within the Housing Opportunities Commission's (HOC's) larger housing project. The facility will include typical recreation and leisure activities, such as pools for swimming and low-level diving, exercise, aquatic play, high school competitions, training, and teaching. A gymnasium, exercise and weight room spaces, movement and dance studios, multipurpose activity rooms, public use space, and social space with a culinary arts kitchen will also be included. Senior programs will be coordinated with Holy Cross Hospital's "Senior Source."

LOCATION

This amenity will be located on the Elizabeth Square site, bordered by Apple Avenue to the south and Fenwick Lane to the north, with the CSX railroad right-of-way on the west.

ESTIMATED SCHEDULE

Construction began in 2019 with completion expected Spring 2024.

PROJECT JUSTIFICATION

This project has been included in long-range planning by the County in its Montgomery County Recreation Facility Development Plan, 2010-2030 as one of four regional recreation facilities to serve the County. This plan is based on the results of the County's Vision 2030 assessment, completed and published in 2011. The Southern Region, around the Greater Silver Spring Area, was found to be significantly under served for recreation and park amenities when compared against total population. Only two smaller community recreation centers, one small indoor pool, and one seasonal outdoor pool serve this area currently and no services are available in downtown Silver Spring. The project achieves a County goal of co-locating affordable housing with other County services. Through co-location, the County will achieve cost savings, program efficiencies, and improved service to residents.

OTHER

The Elizabeth Square Development project is a public-private partnership between the Housing Opportunities Commission (HOC) and Lee Development Group. The proposed plan is to redevelop the existing Elizabeth House, a senior public housing property, and the Alexander House Apartments, a mixed-income multifamily property, in downtown Silver Spring. At full completion of the redevelopment, Elizabeth Square Development will provide for a combined 326 moderately priced dwelling units (MPDU), Work Force Housing Units (WFHU), and other affordable housing units out of a total 906 units, with the inclusion of the new aquatic and recreational facility within the footprint of the larger construction. Housing costs are not a part of this project. Formally known as South County Regional Recreation and Aquatic Center.

FISCAL NOTE

The County's contribution will pay for the design of the recreation and aquatic center facility, tenant fit out, furniture, fixtures, equipment for the new facility, and staff time during design and construction. FY17 supplemental appropriation of \$3,800,000 in GO Bonds was approved for this project. FY19 supplemental for \$17,016,000 in GO Bonds. In FY19, this project received a transfer of

\$500,000 in GO Bonds from North Potomac Community Recreation Center, P720102 and a transfer of \$170,000 in GO Bonds from Western County Outdoor Pool Renovation and Modernization, P721501.

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Housing Opportunity Commission, Silver Spring Regional Services Center, Department of Permitting Services, Department of General Services, Department of Recreation, Department of Technology and Enterprise Business Solutions, Maryland-National Capital Park and Planning Commission (M-NCPPC), WSSC Water, and Pepco. Special Capital Projects Legislation Bill No. 18-17 was adopted by Council June 29, 2017.

Unencumbered Balance	2,851		

PROJECT DESCRIPTION

This level of effort project is intended to provide a structured process to ensure safe pool operations through the repair or replacement of slides. A facilities assessment has been conducted to evaluate the needed level of repair or replacement and to create a priority list.

ESTIMATED SCHEDULE

Slide repairs will be coordinated with the annual closure of indoor and outdoor pools to minimize the impact of construction on pool operations. The tentative replacement schedule is: FY25: Eunice Kennedy/Sargent Shriver Indoor Pool, FY26: Germantown Outdoor Pool, FY27: Martin Luther King, Jr. Indoor Pool, FY28: Bethesda Outdoor Pool, FY29: Long Branch Outdoor Pool, FY30: Germantown Indoor Pool.

COST CHANGE

Project cost increase reflects updated schedule and market escalations.

PROJECT JUSTIFICATION

Most slides were constructed many years ago and many have disintegrated slide surfaces or rusted structural elements which could create safety issues if not repaired. This project ensures that slides are repaired in a systematic sequence based on their condition. The exact cost of slide repair or replacement will be determined based on more detailed studies that will be performed during the design and engineering phase of each slide.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of Recreation and Department of General Services.

PROJECT DESCRIPTION

This project provides for the relocation of surface parking from Wall Local Park and the Kennedy Shriver Aquatic Center (KSAC) to an adjacent parking garage on private property and the development on an interim park, as suggested in the White Flint Sector Plan. The adjacent property owner, Stonebridge, has an approved Sketch Plan, Preliminary Plan and Phase 1 Site Plan for a project that will include three life sciences buildings totaling approximately 660,000 square feet and a parking garage. As a condition of their approvals, Stonebridge is required to construct and lease to Montgomery County for 50 years 104 parking spaces within the proposed parking garage, to be used by visitors to KSAC, Wall Local Park and the Josiah Henson Museum. The County will have access to an additional 150 parking spaces as needed for special events. The parking garage will be linked to KSAC and Wall Park through a public drive and pedestrian paths. Once the garage is completed, Stonebridge will remove the surface parking area and create an interim park with large green spaces and loop trails. An urban park with varied amenities will be planned by Maryland-National Capital Park and Planning Commission (M-NCPPC) in a future CIP.

LOCATION

The parking will be located on the Stonebridge life sciences site which is immediately adjacent to KSAC at 5900 Executive Boulevard, North Bethesda, MD and will be accessed from KSAC's current entrance on Executive Boulevard. The interim park will be located at Wall Local Park at 5900 Executive Boulevard.

ESTIMATED SCHEDULE

The developer plans to start construction late FY24/early FY25.

COST CHANGE

The original residential developer was replaced with a new developer, Stonebridge/Evolution Labs. The new developer has a revised vision for the site to include 600,000 square feet of life science and employment uses. The reduction in expenditures is attributable to a restructuring of business terms.

PROJECT JUSTIFICATION

The White Flint Sector Plan was approved by Council in 2010. This plan allows for significantly higher density than the existing development. Along with providing a more walkable area through newly programmed capital roads, streetscape, and biking facilities projects, there is a great need for open space that can be easily accessed by both the urban dwellers moving into this dense redevelopment area and by the local community. Wall Park could provide that open space now and will eventually provide an urban park with varied amenities, but only if the surface parking is removed. The roads adjacent to this site have been reconfigured. As part of the Stonebridge project, there is an opportunity to have the surface parking relocated within their garage.

FISCAL NOTE

FY18 supplemental for Wall Park Garage and Park Improvements approved \$6,582,000 in FY18 appropriation.

COORDINATION

Department of General Services, Department of Transportation, Department of Permitting Services, Department of Recreation and Maryland-National Capital Park and Planning Commission.

PROJECT DESCRIPTION

This project provides for design and construction for a new community facility to serve the Town of Poolesville and neighboring communities in Western Montgomery County. The facility will include recreation and health and human services uses developed in coordination with representatives from the Town and surrounding communities.

ESTIMATED SCHEDULE

Site selection will occur in FY25. Design is anticipated to begin in FY28 with construction in FY29 and FY30.

PROJECT JUSTIFICATION

The Town of Poolesville and neighboring communities in Western Montgomery County are located in the Agricultural Reserve, a vast region covering nearly one-third of the County's land area but with only just over one percent of the County's total population. Consequently, residents in this area have limited access to County services that are commonly available in more densely populated

settings. These services include recreation classes, medical/clinical services, mental health services, social services, senior living services, and rentable space for social events. There is a great need for the envisioned facility as no such facility currently exists in Western Montgomery County. Many groups in the area must rent space from private entities, which often do not meet needs in terms of size, amenities, hours, and availability, therefore limiting activities. The facility will allow local community groups and County departments to improve and expand programming and participation to better address the needs of these communities.

COORDINATION

Department of General Services, Department of Recreation, Department of Health and Human Services, and the Town of Poolesville.

PROJECT DESCRIPTION

This project provides for planning, site feasibility, design and construction for a new arts and cultural facility to be located in the Wheaton Arts and Entertainment District. The project is proposed to be co-located with a project to be developed by Montgomery Housing Partnership (MHP) at 11507 Georgia Avenue, Wheaton. MHP proposes to develop a mixed-income, affordable, multi-family development containing up to 320 multi-family units in 2 buildings, 39 townhomes, 15,000 square feet of office space and the arts and cultural center. The Wheaton Arts and Cultural Center will be located on the ground floor of the first multi-family building fronting on Georgia Avenue. The arts center will be approximately 40,000 square feet.

LOCATION

11507 Georgia Avenue, Wheaton.

ESTIMATED SCHEDULE

Planning, site feasibility work and initial design work will continue through FY26, and construction expected to begin in FY27.

PROJECT JUSTIFICATION

A Program of Requirements (POR) funded out of the Facility Planning: MCG project was completed in FY20. The POR specifications provide for requirements for the facility.

FISCAL NOTE

FY23 supplemental in Current Revenue: General for the amount of \$75,000. FY24 updated to include \$1,000,000 in State Aid awarded during the 2023 Maryland General Assembly Session.

Funding for this project was shifted from the Facility Planning: MCG (P508768) project.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of General Services and Department of Recreation.

PROJECT DESCRIPTION

This project provides funds for the purchase of agricultural and conservation easements under the County Agricultural Land Preservation legislation, effective November 25, 2008, for local participation in Maryland's Agricultural and Conservation programs and through Executive Regulation 3-09 AM, adopted July 27, 2010. The County Agricultural Easement Program (AEP) enables the County to purchase preservation easements on farmland in the agricultural zones and in other zones approved by the County Council to preserve farmland not entirely protected by Transferable Development Rights (TDR) easements or State agricultural land

preservation easements. The Maryland Agricultural Land Preservation Foundation (MALPF) enables the State to purchase preservation easements on farmland jointly by the County and State. The Rural Legacy Program (RLP) enables the State to purchase conservation easements to preserve large contiguous tracts of agricultural land. The sale of development rights easements are proffered voluntarily by the farmland owner. The project receives funding from the Agricultural Transfer Tax, which is levied when farmland is sold and removed from agricultural status. Montgomery County is a State-Certified County under the provisions of State legislation, which enables the County to retain 75 percent of the taxes for local use. The County uses a portion of its share of the tax to provide matching funds for State easements. In FY10, the Building Lot Termination (BLT) program was initiated. This program represents an enhanced farmland preservation program tool to further protect land where development rights have been retained in the Agricultural Reserve (AR) zone. This program utilizes a variety of revenue sources that include Agricultural Transfer Tax revenues, Contributions, Developer Payments, Investment Income, and State Aid.

COST CHANGE

Reflects Developer Payments, Contributions, Investment Income, and Agriculture Transfer Tax adjustments.

PROJECT JUSTIFICATION

Annotated Code of Maryland Agriculture Article 2-501 to 2-515, Maryland Agricultural Land Preservation Foundation; Annotated Code of Maryland Tax-Property Article 13-301 to 13-308, Agricultural Land Transfer Tax; and Montgomery County Code, Chapter 2B, Agricultural Land Preservation; and Executive Regulation 3-09 AM.

OTHER

FY25 estimated Planning, Design and Supervision expenditures are \$150,000. This amount includes funding for 1.0 FTE Business Development Specialist. Appropriations are based upon a projection of Montgomery County's portion of the total amount of Agricultural Transfer Tax, Investment Income, Contributions, and Developer Payments. The Agricultural Transfer Taxes are deposited into an investment income fund, the interest from which is used to fund direct administrative expenses, the purchase of easements, and other agricultural initiatives carried out by the Office of Agriculture. The program permits the County to take title to the TDRs. These TDRs are an asset that the County may sell in the future, generating revenues for the Agricultural Land Preservation Fund. The County can use unexpended appropriations for this project to pay its share (40 percent) of the cost of easements purchased by the State. Since FY99, the County has received State RLP grant funds to purchase easements for the State through the County. The State allows County reimbursement of three percent for direct administrative costs such as appraisals, title searches, surveys, and legal fees. Easement acquisition opportunities will be considered on a case-by-case basis while alternative funding sources are identified.

FISCAL NOTE

Land costs are for the purchasing of easements. An FY20 supplemental appropriation was approved to recognize the availability of additional FY19 Agricultural Transfer Tax revenue (\$744,000) and an FY20 Rural Legacy State grant (\$2,705,000). The Office of Agriculture was able to settle easements from the Rural Legacy State grant received in FY21, of which \$2,497,047.65 has been spent. An FY22 supplemental was approved to recognize contributions from Maryland-National Capital Park and Planning Commission for the acquisition of a farm encumbered by a County Agricultural Preservation easement (\$953,055), as well as a Rural Legacy Program grant (State Aide) for the amount of \$2,722,761. The Council added \$500,000 in general fund current revenue in FY23 to support agricultural easement purchases. An FY23 supplemental appropriation was approved to recognize the availability of additional Agricultural Transfer Tax revenue (\$1,336,000) and a Rural Legacy Program grant (State Aid) for the amount of \$1,306,000.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

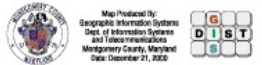

Montgomery County Office of Agriculture, State of Maryland Agricultural Land Preservation Foundation, State of Maryland Department of Natural Resources, Maryland-National Capital Park and Planning Commission, and Landowners.

PROJECT DESCRIPTION

This project provides for the investigation and analysis of various storm drainage assistance requests initiated by private citizens and public agencies. These requests are related to the design, construction, and operation of public drainage facilities where flooding and erosion occur. This project includes expenditures for the preliminary and final design and land acquisition for storm drain projects prior to inclusion in the Storm Drain General project, or as a stand-alone project in the Capital Improvements Program (CIP). Prior to its inclusion in the CIP, the Department of Transportation (DOT) will conduct a feasibility study to determine the general and specific features required for the project. Candidate projects currently are evaluated from the Drainage Assistance Request list. As part of the facility planning process, DOT considers citizen and public agency requests and undertakes a comprehensive analysis of storm

drainage issues and problems being experienced in the County. This analysis is used to select areas where a comprehensive long-term plan for the remediation of a problem may be required. No construction activities are performed in this project. When a design is 35 percent complete, an evaluation is performed to determine if right-of-way is needed. Based on the need for right-of-way, the project may proceed to final design and the preparation of right-of-way plats under this project. The cost of right-of-way acquisition will be charged to the Advanced Land Acquisition Revolving Fund (ALARF). When designs are complete, projects with a construction cost under \$500,000 will be constructed in the Storm Drain General project. Projects with a construction cost over \$500,000 will be constructed in stand-alone projects.

CAPACITY

Projects will be designed to accommodate the ten year storm frequency interval.

COST CHANGE

FY25-FY30 adjusted to account for inflation. FY29 and FY30 added to this Level of Effort project.

PROJECT JUSTIFICATION

Evaluation, justification, and cost-benefit analysis are completed by DOT as necessary. In the case of participation projects, drainage studies and preliminary plans will be prepared by the requestor's engineer and reviewed by DOT. Traffic signals, streetlights, crosswalks, bus stops, ADA ramps, bikeways and other pertinent issues are being considered in the design of the project to ensure pedestrian safety.

OTHER

Before being added as a sub-project, concept studies are evaluated based on the following factors: public safety; damage to private property; frequency of event; damage to public right-of-way; environmental factors such as erosion, general public benefit, availability of right-of-way; and 5:1 cost-benefit damage prevented ratio. In the case of public safety or severe damage to private property, the 5:1 cost-benefit damage prevented ratio can be waived. Drainage assistance requests are evaluated on a continuing basis in response to public requests. DOT maintains a database of complaints. Recent construction projects completed include: Railroad Street, Saul Road, Lucas Lane, MacArthur Blvd at Persimmon Tree Road, Holly Oak Court, Wildwood Road at Parkwood, Melbourne Avenue, Williamsburg Drive, Woodcrest Drive, Fox Run, Democracy Lane, Fairfax Road. Candidate Projects for FY24 and FY25: Reading Road, Kenilworth Driveway, Conway Drive, Parkwood Drive, Highview Drive, Gardiner Avenue.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely.

COORDINATION

Montgomery County Department of Environmental Protection, Maryland-National Capital Park and Planning Commission, Maryland Department of the Environment, United States Army Corps of Engineers, Montgomery County Department of Permitting Services, Utility Companies, and Sidewalk Program - Minor Projects (CIP No. 506747).

PROJECT DESCRIPTION

This project provides for the repair of existing storm drain outfalls into stream valleys. Design of corrective measures is included when in-kind replacement of original outfall structures is not feasible. Candidate outfall repairs are selected from citizen and public agency requests. The Department of Environmental Protection's (DEP) Miscellaneous Stream Valley Improvements project generates and assists in rating the outfalls, which are identified as that project expands into additional watersheds.

COST CHANGE

The funding level for this project has been increased to account for inflation and to add FY29 and FY30 to this on-going program.

PROJECT JUSTIFICATION

Collapsed storm drain pipe sections, undermined endwalls, and eroded outfall channels create hazardous conditions throughout the County. The course of drainage could be altered, endangering private property or public roads and speeding the erosion of stream channels. Erosion from damaged outfalls results in heavy sediment load being carried downstream that can severely impact aquatic ecosystems and exacerbate existing downstream channel erosion. As part of its watershed restoration inventories, DEP identifies storm drain outfalls that are in need of repair in County stream valleys and respective watersheds. As this program expands to include additional watersheds, each outfall is categorized and, where damaged, rated. A functional rating and evaluation process is used to prioritize each outfall.

OTHER

The number of outfall locations being repaired per year varies based on the severity of the erosion and damage, the complexity of the design, and the complexity of the needed restorative construction work. Completed outfalls in FY22-23: Georgian Forest Park, Crosby Road, Vandever Street, and Littleton Street. Potential outfall projects FY24-25: Garrett Park Road, Lily Stone Drive, Howard Avenue, MacArthur Boulevard, and Kerry Court.

FISCAL NOTE

Funding switches in FY25 to fund all programmed spending in this fiscal year with Current Revenue: Water Quality Protection Charge (CR: WQPC) and in FY26 to fund all programmed spending with Water Quality Protection Bonds (WQPC Bonds). In FY23-FY28, long-term financing based on the Maryland Water Quality Revolving Loan Fund (WQRLF) from the Maryland Department of Environment (MDE) was replaced with WQP Bonds due to limited eligibility of projects within this CIP under the revolving fund. FY22 amendment to reduce Long-Term Financing and replace it with WQP Bonds. FY23 funding switch between Long-Term Financing and CR: WQPC to fund expenditures incurred in FY19 under the MDE loan that will not materialize and reprogramming of expenditures originally under CR: WQPC with WQP Bonds.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Expenditures will continue indefinitely.

COORDINATION

Montgomery County Department of Environmental Protection, Maryland-National Capital Park and Planning Commission, Maryland Department of the Environment, United States Army Corps of Engineers, Montgomery County Department of Permitting Services, Utility Companies, and Miscellaneous Stream Valley Improvements (CIP No. 807359).

PROJECT DESCRIPTION

This project provides for the design of the storm drain improvements in the River Falls neighborhood to reduce the risk of flooding. The area is between Brickyard Road to the west and north, and MacArthur Boulevard to the west and south. The storm drain improvements will provide increased capacity at strategic locations. This project will also include bioretention storm water management facilities for water quality improvements.

LOCATION

Potomac, MD

ESTIMATED SCHEDULE

Preliminary engineering was initiated in FY24 under the Storm Drain General CIP (No. 500320). Final design will be initiated in FY25

and completed in FY26.

FISCAL NOTE

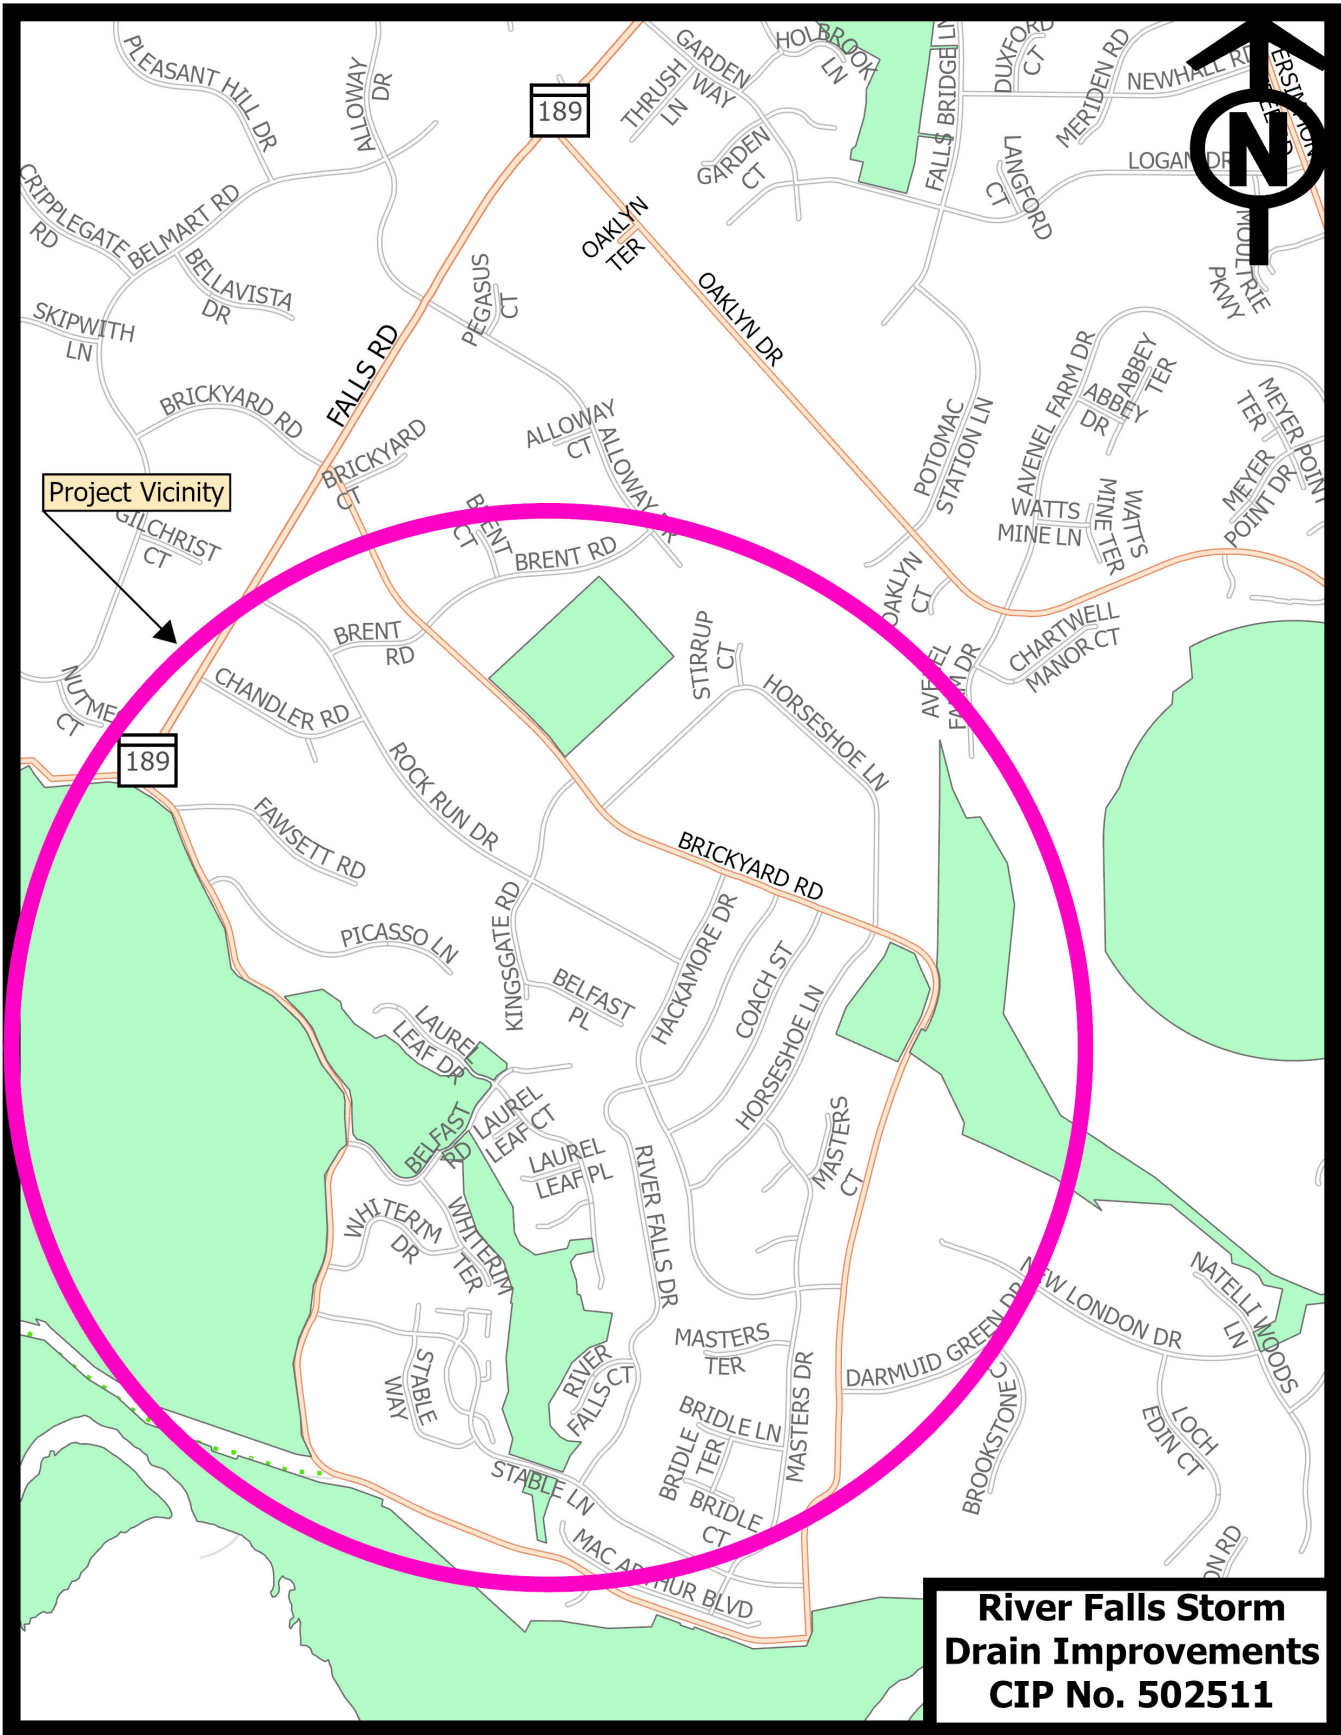

The design of the storm water management facilities will consider implementation costs for improvements to the existing storm drain to a 10-year storm design capacity. In addition, the design will investigate additional mitigation opportunities to reduce the risk of flooding to existing structure. The order of magnitude construction cost for the storm drains improvements to meet the 10-year design standard is \$8 million. Once mitigation options are identified then a construction cost will be prepared.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Montgomery County Department of Environmental Protection, Montgomery County Department of Permitting Services, River Falls community

PROJECT DESCRIPTION

This program will provide for the replacement of failed storm drain pipes and culverts. The County's storm drain infrastructure is aging and many of the metal pipe culverts installed from 1960 through the 1990's have reached the end of their service life. An asset inventory with condition assessments has been developed to better forecast future replacement needs. Going forward, funding will be programmed for both systematic and emergency replacement of these pipes and culverts. Program scope includes: storm water pipe and culvert replacement of both metal and concrete less than six (6) feet in roadway longitudinal length; headwalls, end sections, replacement, or extension of culverts to assure positive flow of stormwater and channeling of stormwater into existing ditch lines or structures. Repairs also include roadside pipe and culvert end treatment safety improvements to eliminate safety hazards. This project will not make major changes to the location or size of existing storm drainage facilities. Structures greater than six-foot-roadway-longitudinal length are repaired under the Bridge Renovation Program (CIP No. 509753).

COST CHANGE

The funding level for this level of effort project has been increased to account for inflation and to add FY29 and FY30 funding to this ongoing program.

PROJECT JUSTIFICATION

This program will address emergency pipe replacements of aging metal and concrete pipes that have reached the end-of-their-service life. The result of these pipe failures has been deep depressions, sinkholes, sediment build-up, open pipe joints, and metal pipe inverts to an unacceptable levels. Existing storm drain conditions are extremely poor. Repairs are needed to improve safety and reduce the potential for hazards and associated public inconvenience. Failure of a storm drain pipe will precipitate emergency repairs at much higher prices. Furthermore, this program provided funding towards developing an asset inventory of the storm drain system including pipe and culvert conditions that helps forecast future funding requirements.

FISCAL NOTE

Funding switches in FY25 and FY26 between Water Quality Protection Bonds and Current Revenue Water Quality Protection Charge to use available fund balance. Maryland Water Quality Revolving Loan Fund (WQRLF) from the Maryland Department of Environment (MDE) was replaced with Water Quality Protection Bonds due to limited eligibility of projects within this CIP under the revolving fund.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

WSSC Water, Washington Gas, Montgomery County Department of Permitting Services, Pepco, Cable TV, Verizon, Montgomery County Public Schools, Regional Service Centers, Community Association's, Commission on People With Disabilities, Maryland Department of Environment, Montgomery County Department of Environmental Protection, and United States Army Corps of Engineers.

PROJECT DESCRIPTION

This project provides the flexibility to construct various sub-projects that might otherwise be delayed for lack of funds or difficulty in acquiring right-of-way. This project provides for right-of-way acquisition and construction for storm drain projects resulting from the

Drainage Assistance Request Program. Individual projects range from retrofitting existing storm drainage systems to developing new drainage systems required to upgrade the existing systems in older subdivisions. Projects formerly handled through the Neighborhood Storm Drain Improvements Project are usually small, unanticipated projects initiated by requests from citizens whose homes and properties are subject to severe flooding or erosion and where there is a demonstrated need for early relief. Potential new storm drain projects are studied under the Facility Planning: Storm Drain project. Concept studies are evaluated based on the following factors: public safety, damage to private property and frequency of event, damage to public right-of-way, environmental factors such as erosion, general public benefit, availability of right-of-way and 5:1 cost-benefit damage prevented ratio. After the completion of facility planning, projects with construction estimated to cost less than \$500,000 are included in this project. Prompt relief is frequently achieved by the use of Department of Transportation (DOT) personnel to construct and provide construction management. The project also facilitates financial participation with developers up to 50 percent share of construction cost for storm drainage projects where such construction would yield a public benefit to properties other than that of homeowner or developers.

CAPACITY

Projects will be designed to accommodate the ten-year storm frequency interval.

COST CHANGE

The funding level for this project has been increased to account for inflation and to add FY29 & FY30 funding to this on-going program.

OTHER

On participation projects, cost sharing between the County and either homeowners or developers varies and is based upon a signed Letter of Understanding. Completed Projects in FY22 and FY23: Reading Road, Kenilworth Driveway, Railroad Street, Conway Drive, Easley Street, Saul Road, Lucas Lane, Parkwood Drive, Fairfax Road, Highview Drive, Gardiner Avenue, MacArthur Boulevard at Persimmon Tree Road. Candidate Projects for FY24 and FY25: Glenwood Road, Glenallen Avenue, Walhonding Road, Jamestown Road, and Windham Lane.

FISCAL NOTE

Funding switch in FY24 to move \$1 million from WQPC Bonds to CR WQPC to use available cash balance. Funding switches in FY25 and FY26 between WQPC Bonds and CR WQPC. In FY23-FY28, long-term financing based on the Maryland Water Quality Revolving Loan Fund (WQRLF) from the Maryland Department of Environment (MDE) and Current Revenue: Water Quality Protection Charge were replaced with Water Quality Protection Bonds due to limited eligibility of projects within this CIP under the revolving fund. Funding switch in the upload of actuals between Intergovernmental and Stormwater Management Waiver Fees for \$101,000. FY22 amendment and funding switch to reduce Long-Term Financing and replace it with Water Quality Protection Bonds. FY23 Federal Aid for \$2,275,000 includes American Rescue Plan Act State and Local Fiscal Recovery Funds to fund 10 storm drain projects. FY23 funding switch between Current Revenue: WQPC and Long-Term Financing to record a small credit received from MDE related to FY19 expenditures and funding switch between Current Revenue and Bonds from the WQPC fund.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Montgomery County Department of Environmental Protection, Maryland-National Capital Park and Planning Commission, Maryland Department of the Environment, United States Army Corps of Engineers, Montgomery County Department of Permitting Services, Utility Companies, and Sidewalk Program - Minor Projects (CIP No. 506747).

PROJECT DESCRIPTION

This project provides for the design and construction of an Anacostia Streams Restoration Project which will provide restoration in Sligo Creek and Bel Pre Creek, under the County's Municipal Separate Storm Sewer System (MS4) Permit. The Anacostia Stream Restoration Project is a cost sharing project with the US Army Corps of Engineers under Section 206 authority, and will restore ecological function, structure, and stream improvements.

ESTIMATED SCHEDULE

The Anacostia Stream Restoration Project is scheduled to conclude engineering and design at the end of 2026 for Bel Pre Creek and at the end of the third quarter of 2027 for Sligo Creek. Construction is scheduled to be complete by the end of the second quarter of 2028 for Bel Pre Creek and at the end of the first quarter of 2029 for Sligo Creek.

PROJECT JUSTIFICATION

This project is needed to comply with the County's MS4 permitting requirements and to implement the County's adopted water quality goals (COMCOR Chapter 19, Article IV) and to protect habitat conditions in local streams. In addition, the project supports the goals of the Anacostia Watershed Restoration Agreement.

FISCAL NOTE

The Anacostia Stream Restoration project was previously under the Countywide Project. It is now in its own dedicated project number, though some initial design costs are still reflected in the Countywide project (\$24,000 in FY24). Cost sharing with the US Army Corps of Engineers is based on CAP Section 206 authority. The feasibility study is cost shared 50 percent federal, 50 percent County after the first \$100,000 in study costs. The first \$100,000 in study cost is federally funded. Design and construction costs are shared 65 percent federal and 35 percent County.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

United States Army Corps of Engineers, Maryland-National Capital Park and Planning Commission

PROJECT DESCRIPTION

This project supports the development of a Comprehensive Flood Management Plan (CFMP) for Montgomery County.

The CFPM will improve the County's ability to address flooding based on scientific and engineering data and use a comprehensive, coordinated approach to identify potentially affected residents and businesses, particularly underserved communities and businesses that are least prepared to respond to and recover from flooding events. The CFPM will, among other things:

- gather data on historic flooding in the County, including input from affected communities;
- examine the potential impacts of climate change and other significant factors that can cause flooding in the County, including the effect of updated rainfall predictions;
- provide recommendations for regulatory, policy, and organizational changes necessary for the County to comprehensively plan for, respond to, and recover from flooding events; and

-
- include detailed hydrologic and hydraulic modeling, vulnerability assessments, and the development of adaptation/mitigation design plans.

Typical tasks in the development of specific watershed/sub-watershed assessments may include evaluations of current risk, future risk due to climate change, and assessment of risk due to aging assets. More specifically, the effort will include identifying areas at risk of flooding, quantifying that risk, developing mitigation alternatives, and conducting cost-benefit analyses, including evaluation of impacts to disadvantaged communities. Additional results will include development of prioritized CIP projects and implementation schedules. The level of detail and budget required to accomplish these tasks will vary by watershed. There are 8 major watersheds and almost 150 smaller watersheds in the County.

This study will complement the state's efforts under Stormwater Management Law, Environment Article 4-201.1, which requires the Maryland Department of the Environment (MDE) to report on the most recent precipitation data available, investigate flooding events since 2000, and update Maryland's stormwater quantity management standards for flood control.

ESTIMATED SCHEDULE

Phase 1 will identify watersheds for detailed modeling in Phase 2 and provide an assessment of current County programs, policies, budgets, and other components of the County's flood management activities. Phase I will be completed in early FY24. Modeling of specific watersheds and continued analysis of the County's flood-related programs, policies, etc. began in FY24.

COST CHANGE

Additional funding added in order to complete Phase 2 work.

PROJECT JUSTIFICATION

Flooding incidents in Montgomery County have been increasing in frequency and severity for several years. The built environment also affects flooding. An April 2021 report from the Office of Legislative Oversight (OLO) identified an upward trend of urban flooding in the County, from two to four occurrences a year before 2010 to 11 to 39 occurrences per-year since 2010; and that the severity has increased in terms of property damage and loss of life. According to the U.S. Environmental Protection Agency, precipitation in Maryland has increased by about 5 percent in the last century but precipitation from extremely heavy storms has increased in the eastern United States by more than 25 percent since 1958.

To determine the best way to address flooding problems, the County needs a systematic watershed and subwatershed-based analysis of flooding, a better understanding of the impact the County will experience from increased rainfall linked to climate change, and other significant contributing factors.

FISCAL NOTE

In addition to County support, the Department of Environmental Protection will pursue outside funding to fund these efforts. FY22 supplemental added Current Revenue: General for the amount of \$1,300,000. FY25 includes a funding switch to reduce Intergovernmental and increase Current Revenue: WQP, including \$75,000 from prior appropriation.

COORDINATION

Department of Permitting Services, Office of Emergency Management and Homeland Security, Department of Transportation, Montgomery County Fire and Rescue Service, Maryland-National Capital Park and Planning Commission, Maryland Department of the Environment, United States Army Corps of Engineers

PROJECT DESCRIPTION

This project provides for facility planning, Municipal Separate Storm Sewer System (MS4) Permit program implementation and water quality monitoring, watershed assessments, and Total Maximum Daily Load (TMDL) Implementation Planning to evaluate watershed conditions, stream health, water quality, and pollution sources to assist with the planning and programming of restoration projects for stormwater management, stormwater retrofit, Environmental Site Design (ESD)/Low Impact Development (LID), stream restoration projects, tree planting and reforestation, and other alternative best management practices. This project supports the regulatory

requirements in the MS4 permit for water quality improvements through management programs, stormwater restoration, TMDL implementation planning, and assessment of controls. Watershed assessment plans are developed to comprehensively understand the changes that have taken place in the County's watersheds, to evaluate the current understanding of watershed conditions, and are used to support the planning to identify potential restoration opportunities for in the County's current and future MS4 Permit. The project also provides for development of the annual Comprehensive TMDL Implementation Plan required by the MS4 permit. The plan lays out the County's progress toward reducing pollutants through past, current, and future planned restoration projects and is used to support the planning to identify potential pollutant reductions from potential restoration opportunities. Restoration projects are implemented in the Stormwater Management Retrofit Countywide project (No. 808726). Facility planning represents planning, monitoring, and programming to support concept and project opportunities in advance of full programming of a restoration project for stormwater management, stormwater retrofit, ESD/LID, stream restoration projects.

COST CHANGE

Funds from a class action settlement with the Monsanto Corporation were added to the six-year period, and funding for FY29 and FY30 was added.

PROJECT JUSTIFICATION

The facility planning products support the requirements outlined in the County's MS4 Permit. This project establishes the facilities planning data and opportunities and alternatives analysis needed to identify and set priorities for individual capital projects. Facility planning costs for projects which are ultimately included in stand-alone Project Description Forms (PDFs) are reflected here and not in the resulting individual project. Future individual CIP projects which result from facility planning will reflect reduced planning and design costs.

FISCAL NOTE

In FY25, \$4.26 million in contributions from the Monsanto National Class Action settlement payment to Montgomery County was added to Facility Planning: Stormwater Management. Expenditures in the outyears include expected monitoring, assessment, and TMDL implementation planning to meet the requirements of the Polychlorinated biphenyls (PCB) TMDL and MS4 permit. In FY24, there was a shift of \$778,000 from the operating budget to Current Revenue: WQP in this PDF to consolidate stream monitoring and gauge costs in the capital budget while also relieving debt service coverage ratio pressure in the operating budget. In FY23, \$200,000 in Stormwater Management Waiver Fees was transferred to Stormwater Management: Countywide (P808726). In addition, there was a FY21 supplemental in Intergovernmental funding for the amount of \$67,509.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland-National Capital Park and Planning Commission, U. S. Army Corps of Engineers, WSSC Water, Department of Transportation, Montgomery County Public Schools, Stormwater Management Retrofit Countywide (No. 808726).

PROJECT DESCRIPTION

This project is intended to fund repair sub-projects for stormwater management (SWM) facilities and stream restoration assets that are beyond the scope of the routine maintenance funded by the operating budget programs but are not so large or extensive as to be prioritized under the Major Structural Repair project (P800700). These repairs generally require engineered design and sediment control plans and other permitting like Major Structural Repair sub-projects, but the scope of work is greatly reduced in scale.

The intent of this project is to protect and enhance the functioning of these assets to protect water quality, increase the asset's useful life, and avoid costly repairs in the future. Work on the SWM facilities includes small scale dredging projects that increase the useful life of the asset and ensure that it functions as designed. Work is identified through DEP's triennial inspection program which assures that all SWM facilities under County jurisdiction are inspected and maintained, as required by State law, County law, and the County's MS4 Permit. Stream restoration smaller scale repairs are also identified in inspections which rank severity and issues with erosion, installed structures, and riparian vegetation. Repairs may include removing debris blockages negatively impacting stream banks, or

design, permitting, and construction management of small spot repairs to protect stream banks, infrastructure, and stream habitat. This work takes place in all areas of the County, assuring water resources protection for all Montgomery County citizens. This work will also provide some climate change resiliency by addressing the sediment erosion impacts of more severe storms.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project provides for implementation of Phase III of the County's Comprehensive Flood Management Plan, developed under the Comprehensive Flood Management Plan (P802202) project. Phase I and II studied watersheds throughout the County and identified areas most prone to flooding and areas that will become prone to flooding in the future. Phase III constructs improvements in areas with identified needs.

PROJECT JUSTIFICATION

Flooding incidents in Montgomery County have been increasing in frequency and severity for several years. The built environment also affects flooding. An April 2021 report from the Office of Legislative Oversight (OLO) identified an upward trend of urban flooding in the County, from two to four occurrences a year before 2010 to 11 to 39 occurrences per year since 2010; and, the severity has

increased in terms of property damage and loss of life. According to the U.S. Environmental Protection Agency, precipitation in Maryland has increased by about 5 percent in the last century but precipitation from extremely heavy storms has increased in the eastern United States by more than 25 percent since 1958.

FISCAL NOTE

This PDF is intended as a central funding source. As individual projects are identified, funds will be transferred to the administering department, which could include the the Department of Transportation, Department of General Services, the Department of Environmental Protection, and the Maryland-National Capital Park and Planning Commission. The funding levels are starting points for Phase III work. The current budget figures are placeholders. Better cost estimates will be available as Phase III projects complete design.

In addition to County support, the Department of Environmental Protection will pursue outside funding to fund these efforts.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Department of Permitting Services, Office of Emergency Management and Homeland Security, Department of Transportation, Montgomery County Fire and Rescue Service, Maryland-National Capital Park and Planning Commission, Maryland Department of the Environment, United States Army Corps of Engineers

PROJECT DESCRIPTION

This project provides for the design and construction of major structural repairs to County maintained stormwater management facilities. The County is responsible for structural maintenance of over 6,800 stormwater management facilities. Major structural repairs can include dredging and removing sediment, removal and replacement or relining of failing pipes and principal spillways, replacing failing riser structures, and repairing failing dam embankments. The major work completed under this project is more significant than routine maintenance and requires engineering analysis and design and application for Federal, State, and/or local permitting. Some small scale dredging and maintenance work is also funded in this project as a preventative measure, to keep minor

issues from becoming major structural repair work.

COST CHANGE

Funding for the Turkey Branch Stream Repair project is shifted from the Countywide PDF (P808726), and funding for FY29 and FY30 has been added.

PROJECT JUSTIFICATION

This project provides for major structural repairs in order to comply with the County's municipal separate storm sewer system (MS4) permit. It is limited to funding repairs at facilities that require extensive engineering design and permitting that cannot be accomplished within a single fiscal year due to the time required to obtain State and Federal permits.

Current projects include: Wheaton Branch Overtopping Protection, Railroad Branch Dam, Lake Hallowell Dredging Project, Lake Whetstone Toe Drain Repair, Clearspring Manor Road, Norbeck Manor Pond, Quail Valley Pond, Rossmoor Leisure World Pond, and Gunners Lake Erosion Repair.

FISCAL NOTE

In FY25, Current Revenue: WQP partially replaces funds that had previously been programmed as Water Quality Protection Bonds in the six-year period. Funding sources updated in FY23 to include Water Quality Protection Fund bonds in FY23-FY28. FY21 supplemental in Contributions for the amount of \$600,000.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of Transportation, Maryland-National Capital Park and Planning Commission, Department of Permitting Services, Homeowners Associations, Montgomery County Public Schools, Department of General Services, Maryland State Highway Administration, Stormwater Management Retrofit: Countywide (No. 808726), and Maryland Department of Natural Resources.

PROJECT DESCRIPTION

This project provides for the design and construction of new and upgraded stormwater management facilities throughout the County under the County's Municipal Separate Storm Sewer System (MS4) Permit. Facilities include but are not limited to new or upgraded stormwater management ponds, Environmental Site Design (ESD) / Low-Impact Development (LID) facilities, and stream restorations.

COST CHANGE

Funds for the Turkey Branch Stream Repair project was shifted to Major Structure Repair and funds for Anacostia Streams Restoration was shifted to a new PDF, which were offset by funding added for FY29 and FY30.

PROJECT JUSTIFICATION

This project is needed to comply with the County's MS4 permitting requirements and to implement the County's adopted water quality goals (COMCOR Chapter 19, Article IV) and protect habitat conditions in local streams. In addition, the project supports the goals of the Anacostia Watershed Restoration Agreement.

OTHER

This project utilizes Maryland Water Quality Revolving Loan Funds (long-term financing). Expenditures in the out-years include expected costs to meet the requirements of the County's next MS4 permit. The scope of the next permit is subject to negotiation with the Maryland Department of Environment.

FISCAL NOTE

Funding sources updated in FY23 to include Water Quality Protection Bonds. There was also a transfer of \$200,000 in Stormwater Management Waiver Fees in FY23 from Misc. Stream Valley Improvements (P809319). In FY21, a supplemental added \$93,773 in Intergovernmental and a fund switch removed \$200,748 in State Aid and added Federal Aid for the Chesapeake Bay Trust Green Streets, Green Jobs, Green Towns grant. This project utilizes Maryland Water Quality Revolving Loan Funds (long-term financing).

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of Transportation, Maryland National Capital Park and Planning Commission, Department of Permitting Services, Maryland Department of the Environment, Natural Resources Conservation Service, U.S. Army Corps of Engineers, Facility Planning: Stormwater Management (No. 809319), and Maryland Department of Natural Resources.

Unencumbered Balance	3,854		

PROJECT DESCRIPTION

This flood mitigation project, located along Glenhaven Drive and Dennis Avenue in Wheaton, will excavate and expand the stream channel upstream of the Wheaton Regional Pond and modify the pond's riser structure. This project will be constructed in parallel with the Department of Transportation's (DOT) Dennis Avenue bridge replacement. The two projects will modify the current 100-year floodplain boundary just upstream of the pond. The post-project 100-year floodplain will not include the residential properties located in the current 100-year floodplain.

ESTIMATED SCHEDULE

The riser modification and channel design began in FY18 with the riser repair construction expected to start in FY24 and conclude in FY25. The excavation of the channel will occur in coordination with DOT's culvert replacement in FY23 and FY24.

PROJECT JUSTIFICATION

An engineering analysis by the Department of Environmental Protection indicates that the effect of the riser structure associated with the Wheaton Regional Pond, the Dennis Avenue Culvert, and an undersized stream channel along Glenhaven Drive, cumulatively, will cause flooding of roads and private property upstream of the pond during a 100-year storm event. Flooding of adjacent roads and private property has already occurred in 2006 and 2010.

FISCAL NOTE

In FY25, \$989,000 in Current Revenue: Water Quality Protection replaces that amount of Water Quality Bonds. In FY24, State Aid increased \$96,000 to reflect a State grant for tree planting, with an offsetting reduction in Water Quality Protection bonds. Funding sources updated in FY23 to include Water Quality Protection Fund bonds in FY23-FY28. The County intends for a portion of long term financing in FY22 to also be paid for with Water Quality Protection Fund bonds. This project will be done in conjunction with the DOT Dennis Avenue bridge replacement project (P501701).

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of Transportation, Federal Emergency Management Agency, Maryland Emergency Management Agency, and Dennis Ave Bridge M-0194 Replacement (No. 501701).

PROJECT DESCRIPTION

This project provides for revitalizing commercial areas throughout Montgomery County with a focus on older commercial properties. The objective is to provide support to small businesses and to encourage private investment. Improvements will include gateway signage, pedestrian lighting, connectivity, streetscape elements, plant material installation, acquisition of long term facade and center signage easements, and other amenities. The Department of Housing and Community Affairs (DHCA) will begin the project with a focus on commercial areas proximate to residential improvement projects currently underway in DHCA's Focused Neighborhood Assistance program, which will serve as a complement to existing redevelopment efforts that are already in progress. This program will provide a comprehensive approach and balance residential and commercial revitalization activities in these aging communities. This program is not limited to the initially identified commercial areas and may also be expanded to other communities in the County.

LOCATION

The project focus will initially include five commercial areas identified by DHCA, located in the Glenmont and Layhill Shopping Centers, Montgomery Village, Hillandale, and the Wheaton Central Business District. Three of the targeted areas, Wheaton, Montgomery Village and a portion of Hillandale were also selected in part due to their location in Montgomery County's Opportunity Zones. However, this program may expand to other commercial areas throughout the County for additional implementation flexibility.

ESTIMATED SCHEDULE

Schedule change to reflect accelerated implementation of a facade easement project in FY22.

COST CHANGE

Cost change due to the transfer of funding to the White Oak Commercial Area Improvements and Revitalization project and addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

As older commercial areas throughout the County continue to age, it is important for the County to provide technical and financial assistance to assure those aging properties are improved to meet today's commercial standards and demands. The Countywide Facade Easement Program will require participants to maintain their properties for a negotiated term, with the intent to leverage investment provided by the public sector to encourage private property and business owners to make physical improvements to their buildings. The objective is to provide more attractive and aesthetically pleasing commercial environments that are safe shopping areas for residents and to generate a greater impact on the older commercial areas throughout the County.

OTHER

DHCA will review various M-NCPPC master and sector plans to evaluate and identify specific commercial areas to participate in the program.

FISCAL NOTE

Some areas may be eligible for the Federal Community Development Block Grant funding. \$500,000 in State Aid has been transferred to the White Oak Commercial Area Improvements and Revitalization project.

DISCLOSURES

Expenditures will continue indefinitely. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Office of the County Executive, Regional Services Centers, Office of the County Attorney, Department of Permitting Services, Office of Procurement, the Maryland-National Capital Park and Planning Commission, Maryland Department of the Environment, and Montgomery County Economic Development Corporation.

PROJECT DESCRIPTION

This project provides funds for Department of Housing and Community Affairs (DHCA) facility planning studies for a variety of projects for possible inclusion in the Capital Improvement Program (CIP). In addition, facility planning serves as a transition stage for a project between the master plan or conceptual stage and its inclusion as a stand-alone project in the CIP. Prior to the establishment of a stand-alone project, DHCA will develop a Program of Requirements (POR) that outlines the general and specific features required in the project. Selected projects range in type from: land and building acquisition; conversion of surplus schools/ school sites or County-owned land into housing resources; design and construction of street improvements, sidewalks, and other infrastructure improvements in neighborhoods; and small commercial area revitalization that include streetscaping and circulation along with Central Business District (CBD) revitalization. Facility planning is a decision-making process to determine the purpose and need of a candidate project through a rigorous investigation of the following critical project elements: community revitalization needs; economic, social, environmental, and historic impacts; public participation; non-County funding sources; and detailed project cost estimates. Depending upon the results of a facility planning analysis of purpose and need, a project may or may not proceed to construction. For a full description of the facility planning process, see the CIP Planning Section.

COST CHANGE

Cost increase due to addition of FY29 and FY30 expenditures to this ongoing project.

PROJECT JUSTIFICATION

There is a continuing need for development of accurate cost estimates and an exploration of alternatives for proposed projects. Facility planning costs for all projects which ultimately become stand-alone Project Description Forms (PDFs) are included here. These costs will not be reflected in the resulting individual project. Future individual CIP projects, which result from facility planning, will each reflect reduced planning and design costs.

OTHER

The proposals studied under this program will involve the Office of Management and Budget staff, consultants, community groups, and related program area staff, to ensure that completed studies show full costs, program requirements, and have community support.

FISCAL NOTE

The cumulative appropriation for the Community Development Block Grant funding was previously overstated. Technical adjustments were made in the biennial FY21-26 CIP to align expenditures with the actual funding available.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project will provide funding to implement the Department of Housing and Community Affairs' (DHCA) Countywide Facade Easement Program for commercial properties in the White Oak area. This funding will comprehensively address the physical deterioration of an older commercial strip that is in need of updating to meet current market demands. All improvements must meet the requirements and criteria of the DHCA's existing Countywide Facade Easement program. The percentage of private investment will be determined based on the project's scope. Private funding is not expected to exceed a third of the total cost to complete the project.

LOCATION

The proposed project is east of New Hampshire Avenue and on the south side of Lockwood Drive, and includes properties located at 11177-11417 Lockwood Drive, Silver Spring, Maryland 20904.

ESTIMATED SCHEDULE

The project expects to begin facility planning and implementation in FY25 and to complete in FY28.

PROJECT JUSTIFICATION

This project will provide an incentive for business owners to invest in improving their property's exterior, including exterior facade and site improvements. Property owners will be required to contribute to the rehabilitation of their buildings. DHCA will review the Maryland National Capital Park and Planning Commission (M-NCPPC) sector plan for the White Oak community as a guide for implementing this project.

FISCAL NOTE

Shift \$500,000 in State funding from the Countywide Facade Easement project to this project.

DISCLOSURES

The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Office of the County Executive, Regional Services Centers, Office of the County Attorney, Department of Transportation, Department of Permitting Services, Office of Procurement, the Maryland National Capital Park and Planning Commission, Maryland Department of the Environment, Montgomery County Economic Development Corporation, Maryland Department of Housing and Community Development (DHCD) and Montgomery Housing Partnership (MHP).

PROJECT DESCRIPTION

This project provides funding for acquisition and/or renovation of properties for the purpose of preserving or increasing the County's affordable housing inventory. The County may purchase properties or assist not-for-profit, tenant, or for-profit entities, or Housing Opportunities Commission with bridge financing to purchase and renovate properties. The monies may be used to purchase properties that are offered to the County under the Right of First Refusal Law or otherwise available for purchase. A portion of the units in these properties must serve households with incomes that are at or below incomes eligible for the Moderately Priced Dwelling Unit (MPDU) program. A priority should be given to rental housing.

COST CHANGE

Cost change reflects an increase in current revenue in FY25 to leverage resources from impact investors to produce and preserve additional affordable units.

PROJECT JUSTIFICATION

To implement Section 25B, Housing Policy, and Section 53A, Tenant Displacement (Right of First Refusal), of the Montgomery County Code. Opportunities to purchase property utilizing the County's Right of First Refusal arise without advance notice and cannot be planned in advance. Properties may be acquired by the County, non-profit developers, HOC or other entities that agree to develop or redevelop property for affordable housing.

OTHER

Resale or control period restrictions to ensure long-term affordability should be a part of projects funded with these monies.

FISCAL NOTE

Debt service will be financed by the Montgomery Housing Initiative (MHI) Fund. In addition to the appropriation shown above, future loan repayments are expected and will be used to finance future housing activities in this project. FY22 supplemental appropriation in Loan Repayment Proceeds for the amount of \$14,749,992.

In FY24, \$7.980 million in Loan Repayment Proceeds were transferred to the Nonprofit Preservation Fund. In FY25, \$5 million in Loan Repayment Proceeds will be shifted to the Nonprofit Preservation Fund.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Housing Opportunities Commission, non-profit housing providers, and private sector developers.

Cumulative Appropriation	20,000		
Expenditure / Encumbrances	9,456		
Unencumbered Balance	10,544		

PROJECT DESCRIPTION

This project provides funding to address the urgent challenge of preservation and development of affordable housing in areas at risk of rent escalation to higher market rents, including the Purple Line Corridor and other County transit corridors. The funds will be used to provide seed money to establish a public-private preservation commitment of funds which will proactively leverage public and private capital to support affordable housing developers in preserving and producing targeted affordable housing. The County commitment of funds will allow establishing parameters of a contractual agreement with a fund manager, such as a Community Development Financial Institution (CDFI), which would coordinate commitment of private capital to align with the County's funds and support acquisitions of properties to create long-term affordability. The County's project funds would be dedicated as available to acquisition transactions in combination with the private capital under predetermined terms, with County lending based on approval of each transaction. The approved funds are expected to support financing activity within six months of allocation, based on time needed to identify partners, develop investment guidelines, and document responsibilities. The funds will be used to assist affordable housing developers purchasing properties offered for sale, and potentially to purchase property from the County which it acquires under the Right of First Refusal law. A portion of the units in these properties must serve households with incomes that are at or below incomes eligible for the

Moderately Priced Dwelling Unit (MPDU) program. Loan terms will primarily be short term (up to 36 months) in duration. Funds are expected to revolve based on refinancing or redevelopment financing.

COST CHANGE

Cost increase due to the addition of anticipated loan repayment proceeds in FY26 and FY27.

PROJECT JUSTIFICATION

The County has a severe shortage of affordable housing and needs to maximize and leverage private investment in the preservation and creation of dedicated affordable housing. The fund structure will establish predetermined underwriting parameters and qualifications for rapidly purchasing targeted properties. The fund structure will allow time for implementing a range of longer-term actions addressing specific property opportunities from rental agreements to redevelopment. The expectation is that these funds will leverage approximately \$4 for every \$1 of County funding. Opportunities to purchase property utilizing the County's Right of First Refusal could arise without advance notice and would not be planned in advance. Other targeted acquisitions would benefit from access to a dedicated source of ready funding. Properties may be acquired by the County, the Housing Opportunities Commission, non-profit developers or other entities that agree to maintain affordability, or develop/redevelop a property for affordable housing.

OTHER

Resale or control period restrictions to ensure long-term affordability should be a part of projects funded with these monies.

FISCAL NOTE

FY21 approved supplemental for \$8,000,000. Future loan repayments are expected and will be used to finance future housing activities in this project.

COORDINATION

Montgomery County Revenue Authority, Housing Opportunities Commission, non-profit housing providers, private sector developers, and financing institutions.

Expenditure / Encumbrances	-		
Unencumbered Balance	35,000		

PROJECT DESCRIPTION

This project provides funding to preserve existing affordable housing in developments at risk of rent escalation to higher market rents. The fund is expected to reach \$20 million in FY24, with the goal of up to \$50 million in the revolving fund. The Nonprofit Preservation Fund (NPF) CIP will be used to provide capital lending to nonprofit entities to support acquisitions and preservation to ensure continued affordability of the County's existing affordable housing stock.

To qualify for capital lending, entities must be a 501(c)(3) with experience in affordable housing development or be the local housing authority. Loans will be for specific properties, which must:

- have been constructed at least 20 years ago;
- have other necessary capital identified for the acquisition, unless this requirement is conditionally waived for 90 days;
- restrict rental increases on the affordable units to no more than the Voluntary Rent Guidelines (VRG) issued by the Department of Housing & Community Affairs (DHCA);
- agree to a minimum 30-year affordability restriction; and
- achieve at least 20 percent of units at 50 percent of Area Median Income (AMI) or below and 10 percent of units at MPDU level or below within three (3) years of acquisition.

Lending applications will be considered on a rolling basis and are subject to available funds. HOC shall conduct underwriting for each loan and will connect applicants to potential investors for individual projects. DHCA will administer the Fund and will review and approve or reject loan recommendations. County priorities will be taken into consideration during the review of applications.

While HOC is eligible for loans from the Fund, HOC cannot be awarded more than 25 percent of the fund at any given time. Loans will include an origination fee of 1 percent, except for HOC projects, which would not include an origination fee. The maximum loan term is for seven (7) years, which may be extended to a total of ten (10) years in certain instances.

COST CHANGE

Cost change is due to the addition of \$49.99 million funded with an initial transfer of \$19.999 million per Council Resolution 20-239, FY24 Executive transfers and shifts of loan repayments from the Preservation of Naturally Occurring Affordable Housing Fund and the Affordable Housing Acquisition and Preservation projects totaling \$30 million.

PROJECT JUSTIFICATION

The County has over 25,900 unrestricted housing units affordable to households earning under 65 percent of area median income; however, the 2020 Planning Department Preservation Study identified the risk of losing between 7,000 to 11,000 affordable housing units due to expected rent increases.

The Nonprofit Preservation Fund will support efforts by the County's nonprofit development partners to preserve these at-risk properties and will provide much needed additional capital to preserve and create affordable housing units.

OTHER

Resale or control period restrictions will be included to ensure long-term affordability for activities funded with this project.

FISCAL NOTE

The Council may direct up to \$20 million in loan repayments associated with the Preservation of Naturally Occurring Affordable Housing Fund (P762201) project that is received in FY24 to this CIP project. FY24 supplemental in Current Revenue: General for the amount of \$1,000.

FY24 transfers of \$7.020 million in loan repayments from the Preservation of Naturally Occurring Affordable Housing Fund and \$7.980 million of loan repayments in FY24 from the Affordable Housing Acquisition and Preservation projects. FY25 shift of \$15 million from the Preservation of Naturally Occurring Affordable Housing Fund (\$10 million) and the Affordable Housing Acquisition and Preservation (\$5 million) projects.

COORDINATION

Department of Housing and Community Affairs, Housing Opportunities Commission, and nonprofit housing providers and developers.

PROJECT DESCRIPTION

This project provides funding to preserve current naturally occurring affordable housing (NOAH) in areas at risk of rent escalation to higher market rents, including the Purple Line Corridor and other County transit corridors. The Fund will be used to provide capital to support acquisitions and preservation to ensure continued affordability of currently naturally occurring affordable housing. Price pressures in housing, particularly housing near transit corridors, have increased and will likely continue to increase due to housing demand.

The dedication of funding will increase the capacity of the County to assist affordable housing developers in acquisition of naturally occurring affordable housing. By focusing on the NOAH property market, this project will complement the County's existing funds for affordable housing.

PROJECT JUSTIFICATION

The County has over 25,000 unrestricted housing units affordable to households earning under 65% of area median income; however, the 2000 Planning Department Preservation Study identified the risk of losing between 7,000 to 11,000 affordable housing units due to expected rent increases. As an example, the Purple Line Corridor Coalition analysis identified 6,500 affordable housing units within one mile of a Purple Line station where rents are expected to increase due to transit proximity. The dedication of County resources in the NOAH fund will support a focused effort to preserve these at-risk properties and will provide much needed additional capital to preserve and create affordable housing units.

OTHER

Resale or control period restrictions to ensure long-term affordability should be a part of projects funded with these monies.

FISCAL NOTE

FY22 supplemental in Current Revenue: General for the amount of \$40,000,000.

FY23 supplemental in Loan Repayment Proceeds for the amount of \$30,200,000.

The project is expected to be closed out contingent upon the passage of changes in the Right of First Refusal (ROFR) Law. In FY24, \$7.020 million in loan repayments were transferred to the Nonprofit Preservation Fund. In FY25 a shift of \$10 million in loan repayments will be made to the Nonprofit Preservation Fund. Any additional loan repayment proceeds will be transferred to other CIP Housing projects. To avoid duplication, this project will eventually be closed.

COORDINATION

Housing Opportunities Commission, non-profit housing providers, and private sector developers.

PROJECT DESCRIPTION

This project will provide financial and technical support for neighborhoods with Homeowner and Condominium associations, also known as Common Ownership Communities (COCs). All participating COCs must be duly registered, and their respective Board of Directors must have a current and valid certificate of completion for the required Community Governance Fundamentals training.

PROJECT JUSTIFICATION

A vast amount of the housing stock in Common Ownership Communities are now 30 years or older; this is a point where issues associated with aging infrastructure are more prominent and often require immediate attention. In addition, many older multifamily and single-family properties located in the COCs of Montgomery County have become mired in financial instability and adverse economic conditions. As a result, condominium and homeowner associations are forced to defer regular maintenance if members are unable or

unwilling to pay their monthly assessments. These loans are expected to help COCs address improvements including replacement of outdated and inefficient streetlights; community wide exterior home improvements; community wide replacement of condemned balconies; underground and surface stormwater issues; repairs to sidewalks, pathways and parking lots; improvements to courtyards; community signage; other common area improvements and structural issues associated with lack of maintenance. This program will require the condominium or homeowner's association to invest a minimum of 20 percent of the total construction costs.

COORDINATION

Office of the County Executive, Regional Services Centers, Office of the County Attorney, Department of Permitting Services, Office of Procurement, the Maryland-National Capital Park and Planning Commission, Maryland Department of the Environment, and Montgomery County Economic Development Corporation.

PROJECT DESCRIPTION

This project serves to identify the uses of Housing Opportunities Commission (HOC) bonds for housing construction and permanent mortgage financing. In addition, the County guarantee on these HOC revenue bonds may provide coinsurance with appropriate Federal, State, and private insurers on HOC revenue bonds and notes issued to finance new or existing residential units. These bonds will be backed by the revenues of the developments; by the pledge of subsidy funds if appropriate; and by the full faith and credit of Montgomery County. All developments financed under this approach will be self-supporting. They are included in the Capital Improvements Program (CIP) in order to provide the legal authorization of ultimate County backing of specific projects. This project reflects a total authorization of \$50 million. Control over specific projects that are given County backing is maintained by implementation procedures developed in accordance with local legislation. The legislation provides for specific approval by the County Council, except for certain stated uses for which County Executive approval is permitted, subject to action by the County Council at its discretion.

PROJECT JUSTIFICATION

Relevant legislation and reports include Code of Maryland as amended by State legislation providing for County backing of HOC

bonds; Opportunity Housing legislation; report of the Task Force on Moderate Income Rental; and other studies. In the opinion of County bond counsel, inclusion in the CIP is required even though no County funds will be required.

OTHER

The County General Plan refinement stands in compliance with the General Plan requirement of the Maryland Economic Growth, Resource Protection, and Planning Act. County Master Plans must be in compliance with the General Plan.

FISCAL NOTE

The project has financed the development of housing units at The Oaks at Four Corners (120 units), Magruder's Discovery (134 Section 8 units), Spring Gardens (83 units), Chevy Chase Lake South (68 units), Fairfax Courts (18 units), Montgomery Arms Apartments (132 units), The Metropolitan (308 units), Amherst Square (100 units), and Pooks Hill Courtyard (50 units). In FY95, HOC repaid the Magruder's Discovery bond (\$5.7 million) and financed The Metropolitan (\$33.9 million). During FY97, HOC repaid the \$4.1 million bond for The Oaks at Four Corners. In FY98, the bonds that were used to finance The Metropolitan were repaid using bonds guaranteed under the FHA Risk-Sharing program. Subsequently, in FY99, Pooks Hill's Courtyard (50 units) and Landings Edge (100 units), were financed using \$12.9 million in County G.O. bonds. In FY07, HOC Issued \$36.35 Million in Taxable Bond Anticipation Notes to fund the construction of MetroPointe. In 2008, HOC issued \$33.05 million in Fixed-Rate Tax-Exempt Short-Term Notes, which were expected to be redeemed and replaced with Long-Term Variable Bonds in 2009. However, continued dislocation in the Financial Markets necessitated the issuance of another Short-Term Financing. In FY10, HOC issued \$32.3 million in 2 Year Fixed-Rate County Backed Notes which matured on January 1, 2012. Effective December 20, 2011, HOC issued \$33.585 million of Variable-Rate Tax-Exempt Multifamily Housing Development Bonds to, among other things, refinance the FY10 Tax-Exempt Notes guaranteed by the County's General Obligation Pledge. On January 3, 2012, the two-year notes issued in FY10 were repaid thereby releasing the County's General Obligation pledge. The mortgages on the property are insured by FHA pursuant to its Risk Sharing Agreement with HOC. The remaining G.O. Bond capacity as of June 30, 2023 is \$47,081,699, and the outstanding balance is \$2,918,301.

COORDINATION

Department of Finance and Department of Housing and Community Affairs.

Unencumbered Balance	12,507		

PROJECT DESCRIPTION

This is a revolving loan fund which authorizes the Housing Opportunities Commission (HOC) to use up to \$12.5 million at any one time for: (a) interim financing, including cost of acquisition and finishing by HOC, of Moderately Priced Dwelling Units (MPDUs) as permitted in Chapter 25A of the Montgomery County Code, provided that the unit is used in tandem with a Federal, State, or local subsidy program and is developed to provide housing to low- and-moderate-income households; and (b) planning, acquisition, and improvement of sites and/or existing properties for low and-moderate-income, single, or multifamily housing facilities, which are to be owned and operated by HOC or its designees. Sites may be land-banked in anticipation of future development when adequate public facilities become available. Upon receipt of permanent financing, monies are returned to the fund for reuse. No MPDU may be held by the fund for more than 24 months. The 24-month maximum holding period may be extended in unusual situations for a limited time upon determination by the Director of the Department of Housing and Community Affairs that such an extension would best support purposes of this program. HOC may determine that a County lump sum subsidy is required to secure independent financing or meet Federal, State, or local program guidelines for itself or its designees. Such write-downs from County funds shall be made only for projects serving households whose incomes do not exceed the following limits: 1/3 units - 80 percent of Washington Metropolitan Area

Median income; 1/3 units - 80 percent of County Median income; and 1/3 units uncontrolled. In the event that a subsidy is undertaken, then in its next CIP submission, HOC shall include a PDF describing the subsidized program and shall request an appropriation sufficient to fully repay this fund.

PROJECT JUSTIFICATION

HOC is continually evaluating transactions that will require interim funding from the revolving fund. These transactions include redevelopment activities of older HOC properties that require significant capital infusion to improve their physical conditions or to redevelop and/or reposition them in their respective market areas. In addition, HOC continues to seek new development opportunities, as well as, the acquisition of existing multifamily developments through the conventional real estate sales market that may require interim financing to facilitate the transaction. The County's right of first refusal law was changed to include all multifamily properties of more than five units. The change in law provides HOC with greater acquisition opportunities to preserve affordability and greater need for gap and bridge financing. HOC sets aside revolving funds to capitalize on opportunities to acquire and preserve rental units as they are offered under the current law.

OTHER

The County General Plan Refinement stands in compliance with the General Plan requirement of the Maryland Economic Growth, Resource Protection, and Planning Act. County Master Plans must be in compliance with the General Plan. Beginning in FY01, as a contribution to affordable housing, HOC was given relief on past due interest payments and is no longer required to pay interest on funding for this project.

FISCAL NOTE

Outstanding draws as of June 30, 2023 totaled \$12,339,437. In FY23, a repayment of \$101,563 was made for Holiday Park, leaving \$101,563 outstanding. A repayment of \$96,000 was made for 880 Bonifant Street, leaving \$4,208,000 outstanding. The remaining outstanding balance consists of Ambassador (\$1,588,816) and Avondale (\$6,441,058). The available balance as of June 30, 2023 totaled \$197,563. HOC anticipates continued utilization of the revolving fund for MPDU acquisition as well as for the acquisition, development and improvement of real property that expands or stabilizes affordable housing in the County.

PROJECT DESCRIPTION

The Opportunity Housing Development Fund (OHDF) is a revolving loan fund from which Housing Opportunities Commission (HOC) is authorized to use up to \$4.5 million at any one time. The project provides funds to temporarily cover project planning, site improvements, building construction loan guarantees, construction financing, short-term financing (including second trusts), insurance for permanent financing, notes and bonds, and associated professional and financing fees for housing developments undertaken by HOC or its designees. Since a separate fund is established for site acquisition and Moderately Priced Dwelling Units (MPDU) acquisition, land, and MPDUs shall not be acquired from the OHDF (with the exception of MPDUs acquired under the last resort provision of the MPDU Ordinance). This fund is to be repaid when permanent financing is obtained or when other sources of financing are made available from HOC housing developments. If sufficient funds are not available in the MPDU/Property Acquisition Fund, this fund can also be used, upon County approval, for the acquisition of sites and/or existing properties for low and moderate-income, single, or multi-family housing facilities, which are to be owned and operated by HOC or its designees.

PROJECT JUSTIFICATION

This project assures availability of short-term financing and front-end costs at favorable interest rates for projects determined by HOC and the County to be in support of the County Housing Assistance Plan and housing policy. The fund permits existing and new properties to be reviewed and insured and, in other ways, secures prompt decisions when time demands require them.

OTHER

The County General Plan Refinement stands in compliance with the General Plan requirement of the Maryland Economic Growth, Resource Protection, and Planning Act. County Master Plans must be in compliance with the General Plan. Beginning in FY01, as a contribution to affordable housing, HOC was given relief on past due interest payments and is no longer required to pay interest on funding for this project.

FISCAL NOTE

The available balance at the beginning of FY23 was \$3,441,058. No repayment was made in FY23 on the outstanding balance of \$1,058,942 (the draw made for Avondale in FY22). Therefore, the available balance as of June 30, 2023 totaled \$3,441,058. Repayments totaling \$1,058,942 are projected in FY24, representing the repayment for Avondale[LV1]. HOC anticipates continued utilization of the balance of the OHDF revolving fund for the continued pre-development and acquisition for expanding affordable housing in the County.

Cumulative Appropriation	12,375		
Expenditure / Encumbrances	-		
Unencumbered Balance	12,375		

PROJECT DESCRIPTION

Typical improvements include, but are not limited to, replacement of roofs, windows and doors; improvements to unit interiors such as kitchen and bathroom modernization; replacement of major mechanical, electrical, plumbing systems and equipment; appliance replacement; life-safety improvements; site improvements such as fencing, site lighting, landscaping, and sidewalk and parking lot replacement. In the FY15-20 Capital Improvements Program, this project was expanded to allow these funds to be used for deeply subsidized HOC owned unit improvements on public housing units, pre- and post-conversion.

COST CHANGE

Addition of funding for FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

These properties are original MPDUs that are owned by HOC and are subject to Commission imposed or financing restrictions, or are subject to extended use restrictive covenants in accordance with the Low Income Housing Tax Credit (LIHTC) program, which requires continued affordability. Given the age of the properties, they now need comprehensive renovation but lack the net operating income to generate sufficient proceeds to retire the existing debt and fund the vital renovations. Montgomery County has a higher property standard than the Federal government. In addition, neighbors in the communities with the units expect the properties to be well maintained. Many of these units are scattered throughout the County in communities governed by Home Owner Associations (HOAs), and some have higher standards than the County code. Additional funding is necessary if HOC units are to be maintained at levels consistent with community norms and standards. To stay true to its mandate to provide decent, safe, and sanitary housing to low- and moderate-income residents in Montgomery County and to ensure that its properties and communities are maintained at a level consistent with community norms, HOC will use a combination of its own funds and County funds to make capital improvements to this housing stock.

FISCAL NOTE

The Commission's portfolio includes hundreds of income-restricted scattered site units throughout the County, most approximately 30 years of age. Many of these units were acquired into Low Income Housing Tax Credit limited partnerships more than 15 years ago and are subject to continued affordability restrictions under the LIHTC program. All units in the limited partnerships have now been contributed to HOC making HOC the sole owner of these units. Finally, other units are simply older Moderately Priced Dwelling Units (MPDUs) that continue to be restricted to households of low- and moderate-income. With significant debt remaining on those units, the net operating income from these affordably priced units cannot support both the repayment of that debt and the additional proceeds needed to complete a comprehensive scope of renovation, which includes new windows, roof replacement, installation of energy-efficient heating and air conditioning systems, electrical and plumbing repairs, new flooring, new lighting, new cabinetry, installation of energy-efficient appliances, and new bathrooms.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

Sewer Line Upgrade: HOC's original 2017 Sewer and Storm Line improvement plans were approved by WSSC Water for Elizabeth Square and included the replacement of the 10-inch sewer line with 12-inch line. The sewer line to be replaced was on the west portion of the Washington Metropolitan Area Transit Authority ("WMATA") and CSX tracks and did not go under the tracks. The current proposed Purple Line Development sewer line replacement conflicted with the approved HOC sewer plan from 2017. The Purple Line was required to design an alternate route under the tracks. The Purple Line Plan ("PLP") was approved by WSSC Water for this alternative route and is a 10-inch line replacement. WSSC Water will no longer accept the HOC 2017 plans and is now requiring HOC to install at minimum a 15-inch sewer line along the alternate route to meet the capacity of the Elizabeth Square and the proposed HOC Headquarters building at Fenwick Lane and Second Avenue. They have instructed HOC to work with the PLP to ensure the revised plans are in effect before The Leggett, formerly known as Elizabeth House III, and the Silver Spring Recreation and Aquatic Center (SSRAC) project building obtain final occupancy permit.

Temporary Storm Line Installation: The current approved contract documents indicate that the new Capital Crescent Trail (located in between Elizabeth House and CSX/Washington Metropolitan Area Transit Authority (WMATA) tracks), including the associated retaining wall, trail and storm systems will be completed by the Maryland Transportation Authority (MTA)/Purple Line. The HOC project will eventually connect into these Capital Crescent Trail

storm systems in order to achieve final inspections. However, MTA/Purple Line is not scheduled to install these Capital Crescent Trail storm systems until after the HOC project completion date. As a result, HOC must install a temporary 15-inch storm line to accommodate the Elizabeth House III and Silver Spring Recreation and Aquatic Center (SSRAC) project until MTA/Purple Line is completed.

LOCATION

1315 Apple Avenue, Silver Spring MD. 20910

ESTIMATED SCHEDULE

The original target was to finalize the sewer upgrades by March 2023, ensuring alignment with The Leggett's final occupancy certification. Delays encountered by WMATA caused a shift in this timeline, affecting both The Leggett and the SSRAC's final occupancy permits. On May 8, 2023, HOC was informed by WSSC Water about the successful installation and testing of the necessary sewer line upgrades for The Leggett.

COST CHANGE

On April 5, 2023, MTA presented an offer of \$995,000, a reduction from the earlier \$1.157M, as a settlement for the HOC's incremental expenses concerning the sewer line enhancements. This agreement came across as reasonable, especially considering unforeseen field issues, challenges with contractors, alterations by WSSC Water, and the prevailing market conditions. The final pricing will result in a savings of \$230,000 in current revenue released from the County obligation.

PROJECT JUSTIFICATION

The need to upgrade from the 10-inch sewer line to a minimum 15-inch line was necessitated by insufficient flow capacity to accommodate Elizabeth Square, the SCRRAC, and the HOC office building. Originally, the MTA was responsible for the storm work as part of the Purple Line project. However, due to delays from the MTA, HOC faced challenges in meeting its projected occupancy timeline for both The Leggett (previously Elizabeth House III) and SCRRAC. Therefore, it became imperative for HOC to expedite the sewer and storm line upgrades to ensure the timely receipt of final certificates of occupancy for both developments.

FISCAL NOTE

The total estimated projected costs for installing the upgraded sewer line and temporary storm line was reduced from an initial estimate of \$1,225,000 to \$995,000 via settlement with MTA

PROJECT DESCRIPTION

This project funds the replacement of the current runway lighting system at the Airpark property with LED lighting, which will provide increased visibility and will comply with Federal Aviation Administration (FAA) standards.

LOCATION

7940 Airpark Road, Gaithersburg, Maryland

COST CHANGE

Cost increase due to inflation, a revised design, and the timing of FAA funding.

PROJECT JUSTIFICATION

This project is a continuation of the Airport Layout Plan (ALP), which was developed in conjunction with the FAA in 2002. The ALP identifies the projects and plans the sequencing for continued airport improvement. A supplemental environmental assessment for this purchase was completed in 2017. This project includes the purchase of land adjacent to the Airpark which is necessary to maintain Federal safety standards for airport operations. Federal funds for the Airpark are approved by the FAA through the Airport Capital Improvement Plan (ACIP). FAA priorities for funding airport projects include promoting safety and security; preserving existing infrastructure; mitigating noise or environmental impacts; fulfilling compliance, and providing capacity. Federal funding and requirements will dictate the final timeline for the purchase.

COORDINATION

Federal Aviation Administration and Maryland Aviation Administration.

PROJECT DESCRIPTION

The project is to build a 3,600 square feet hangar, which the Revenue Authority will own, on the North End portion of the Airpark property. This hangar is part of the current Airport Layout Plan and has undergone a Federal Aviation Administration Environmental Review. The funding for the project is part of the Bipartisan Infrastructure Bill.

LOCATION

7940 Airpark Rd, Gaithersburg, MD 20879

PROJECT JUSTIFICATION

Due to a recent environmental assessment from the FAA and talks with the Revenue Authority Airport Consultant, the FAA has identified a need to build a new hanger on the North End portion of the Airpark property. The project is primarily funded by the FAA, with a small contribution from the Revenue Authority. The Revenue Authority will lose this funding if they do not start the project before December 2025.

PROJECT DESCRIPTION

This project funds the replacement of the full irrigation system for the golf course.

LOCATION

6724 Needwood Road, Derwood, MD

COST CHANGE

The irrigation system cost is increasing in projected cost due to inflation.

PROJECT JUSTIFICATION

The Authority is created to construct, improve, equip, furnish, maintain, acquire, operate, and finance projects to be devoted wholly or partially for public uses, good or general welfare. This project supports the long term sustainability of the County's golf course system currently operated by the MCRA.

PROJECT DESCRIPTION

Federal and State laws require MCPS to provide program accessibility for all of its activities and to consider various forms of accessibility improvements at existing facilities on a continuing basis. While MCPS provides program accessibility in a manner consistent with current laws, a significant number of existing facilities not scheduled for a capital project in the current six-year CIP are at least partially inaccessible for a variety of disabling conditions. Some combination of elevators, wheelchair lifts, restroom modifications, and other site-specific improvements are required at many of these facilities. Since disabilities of eligible individuals must be considered on a case-by-case basis, additional modifications such as automatic door openers, access ramps, and curb cuts may be required on an ad hoc basis even in facilities previously considered accessible. The increased mainstreaming of special education students has contributed to modifications to existing facilities. Certain ADA modifications results in significant cost avoidance, since transportation may have to be provided for individuals to other venues or programs. On September 15, 2010, the Department of Justice approved revisions to Title II of the Americans with Disabilities Act (ADA), that will require local and state government agencies to comply with these revisions. An FY 2021 appropriation was approved to address the findings of a comprehensive accessibility evaluation of all MCPS schools conducted by an independent engineering firm over the past two years to assess facilities and collect data. Summarized tables of the data collected can be found on the Department of Facilities Management website. An FY

2022 appropriation was approved to continue this level of effort project. An FY 2023 appropriation was requested to continue this level of effort project; however, additional funding was requested in the first two years of the six-year plan to address the findings of the self-evaluation process required of state and local agencies to comply with the requirements of Title II of the Americans with Disabilities Act (ADA) and applicable state regulations contained in the accessibility and related chapters of the Maryland Building Code. The appropriation request also will fund a new Facilities ADA Compliance Manager to manage the program, plan improvements, and the coordination of the projects. Due to fiscal constraints, the County Council, in the adopted FY2023-2028 CIP reduced expenditures in FY23 and FY24, therefore, the number of ADA projects will be reduced to align with approved expenditures. An FY 2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved to continue this level of effort project and also for the planning, design and construction of accessibility modifications to remove existing barriers at Burning Tree ES. As part of the County Council approved FY2025-2030 CIP, additional expenditures were included in the out-years to reflect a level of effort funding through the six-year CIP.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

Comprehensive asbestos management services for all facilities in the school system ensure compliance with the existing Federal Asbestos Hazard Emergency Response Act (AHERA). MCPS has produced major cost savings for asbestos abatement by an innovative plan with an in-house team of licensed abatement technicians for its numerous small abatement projects and required semi-annual inspections. Cost containment measures, a more competitive bidding environment, and development of a comprehensive data base and management plan also have contributed to significant expenditure reductions. This project is based on the approved management plan for all facilities in the system. Actual abatement and the subsequent restoration of facilities are funded through this project. An FY 2021 appropriation was approved to continue asbestos abatement projects at facilities throughout the school system. An FY 2022 appropriation was approved to continue this level of effort project. An FY 2023 appropriation was approved to continue asbestos abatement at various facilities throughout the school system. An FY 2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved to continue this level of effort asbestos abatement project at facilities throughout the school system.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project will provide facility modifications to support program offerings at schools that are not scheduled for capital improvements in the six-year CIP. These limited modifications to instruction and support spaces are needed to provide adequate space for new or expanded programs, administrative support space for schools, and changes to meet requirements for special education services. An FY 2023 appropriation was requested for modifications to schools due to special education program changes and relocations; science and multipurpose laboratory upgrades at secondary schools; and space modifications for program requirements at the secondary level. In addition, the appropriation will provide funding for overutilized schools where existing spaces require modifications to provide additional classroom space. Due to fiscal constraints, the County Council, in the adopted FY2023-2028 CIP, decreased the FY2023 and FY2024 expenditures, therefore, the number of projects will be reduced to align with the approved expenditures. An FY 2024 appropriation and amendment to the FY 2023-2028 CIP was approved to continue this level of effort project and also to provide funding to implement the new *Blueprint for Maryland's Future* through modifications to existing facilities to provide classroom spaces;

to modify existing facilities to provide inclusive student restrooms; and, to modify existing facilities due to special education program changes and relocations. As part of the County Council approved FY2025-2030 CIP, additional expenditures were included in the out-years to reflect a level of effort funding through the six-year CIP. An FY 2025 appropriation was approved to address program and special education modifications, as well as to implement the *Blueprint for Maryland's Future* through modifications to existing facilities to accommodate pre-kindergarten students.

PROJECT DESCRIPTION

Funds included in this project will begin the planning and design to address needed facility renovations at the Carver Educational Services Center (CESC) to create a county Welcome Center for parents, students, and the community. An evaluation, during the planning and design phase, will determine what functions and services could be located at CESC. Functions and services to be considered include the International Admissions and Enrollment Office, Employee and Retiree Services Center, and the Background Screening Office. Once the design is complete, additional funds will be requested in a future CIP for implementation. An FY 2025 appropriation was approved to begin the planning and design phase of this project.

PROJECT DESCRIPTION

This project funds positions essential for implementation of the multi-year capital improvements program. Personnel provide project administration, in-house design, and engineering services in the Department of Facilities Management and the Division of Construction. An FY 2021 appropriation was approved to continue this level of effort project for salaries of current staff, legal fees and other non-reimbursable costs for MCPS real estate issues. An FY 2022 appropriation was approved to continue this level of effort project. An FY 2023 appropriation was approved for salaries of current staff, legal fees and other non-reimbursable costs for MCPS real estate issues. An FY 2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved to continue this project and provide funds for salaries of current staff, legal fees and other non-reimbursable costs for MCPS real estate issues. The approved FY 2025-2030 CIP reflects a level of effort increase for this project, which has not been increased for a number of years.

PROJECT DESCRIPTION

Early childhood programs in MCPS are targeted to children and families affected by poverty, including children with disabilities, and provides them with additional time to acquire literacy, mathematics, and social/emotional skills for success in school and later learning in life. These programs provide opportunities for children to build school-readiness skills by increasing social interactions, building oral language skills, and fostering vocabulary development. In MCPS, 65 elementary schools have locally funded Prekindergarten and/or federally funded Head Start classes. MCPS has two regional early childhood centers, one at the MacDonald Knolls Early Childhood Center in Silver Spring, serving 100 Prekindergarten students and the other at the Up-county Early Childhood Center, temporarily housed at the Emory Grove holding facility in Gaithersburg, serving 80 Prekindergarten students. This project will provide funding for MCPS to construct a stand alone building for the Up-county center, as well as begin planning to further expand early childhood centers throughout the county. An FY 2023 appropriation was approved for planning funds. An FY 2024 appropriation was approved for construction funds to build the stand alone Upcounty Center. An FY 2025 appropriation was approved for construction cost increases to construct a stand alone facility, as well as to address facility modifications at the former Parkside ES, as well as the existing

Burtonsville ES, once that school is relocated to its new facility and site. All three of these facilities will serve as early childhood centers in the future once construction and facility modifications are complete.

Emergency Replacement of Major Building Components

PROJECT DESCRIPTION

This project will provide funds for the emergency replacement of major building components throughout the school system. These funds will allow projects that are in other countywide systemic projects, such as HVAC Replacement, to maintain their schedules when emergency replacements arise. An FY 2023 appropriation was approved for this project. An FY 2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved for emergency replacement of building components systemwide. As part of the County Council approved FY2025-2030 CIP, additional expenditures were included in the out-years to reflect a level of effort funding through the six-year CIP.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

The facility planning process provides preliminary programs of requirements (PORs), cost estimates, and budget documentation for selected projects. This project serves as the transition stage from the conceptual stage to inclusion of a stand-alone project in the CIP. There is a continuing need for the development of accurate cost estimates and an exploration of alternatives for proposed projects. Implementation of the facility planning process results in realistic cost estimates, fewer and less significant cost overruns, fewer project delays, and improved life-cycle costing of projects. In the past, this project was funded solely by current revenue; however, as a result of new environmental regulation changes, design of site development concept plans must be done during the facility planning phase in order to obtain necessary site permits in time for the construction phase. Therefore, the funding sources shown on this PDF reflect the appropriate portions for both current revenue and GO bonds. An FY 2022 appropriation was approved for the pre-planning of capital projects included in the amended FY 2021-2026 CIP. An FY 2023 appropriation was approved to conduct feasibility studies for 9 elementary schools--Belmont, Cold Spring, Damascus, DuFief, Oakland Terrace, Sherwood, Twinbrook, Whetstone, and Woodfield and 3 middle schools--Banneker, Gaithersburg, and White Oak to determine the scope and cost of these future Major Capital projects. In addition, the appropriation will fund the pre-planning of capital projects included in the FY 2023-2028 CIP. An FY 2025

appropriation was approved to fund the pre-planning of capital projects included in the FY 2025-2030 CIP. Also, the appropriation will fund anticipated consultants necessary to conduct approved studies.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project addresses sprinklers, escape windows, exit signs, fire alarm devices, exit stairs, and hood and fire suppression systems to comply with annual Fire Marshal inspections. An FY 2020 appropriation was approved to continue this level of effort project. An FY 2021 appropriation was approved to continue this project to address code compliance issues systemwide. An FY 2022 appropriation was approved to continue this level of effort project to maintain life safety code compliance and life-cycle replacement of equipment systemwide. An FY 2023 appropriation was approved to continue this level of effort project and to maintain life safety code compliance through equipment replacement such as fire alarm systems that will be over 20 years old and will have exceeded their anticipated life-cycle. An FY 2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved to continue this level of effort project to maintain life safety code compliance and life-cycle replacement of equipment systemwide. The increase in expenditures in the first two years of the approved CIP will allow for the purchase and implementation of bi-directional amplifiers (BDAs) in order to support two-way communication and amplify signals to improve building communication coverage. As part of the County Council approved FY2025-2030 CIP, additional expenditures were included in the out-years to reflect a level of effort funding through the six-year CIP.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

That State of Maryland has established a Healthy School Facility Fund program to provide grants to schools systems for capital projects to improve the health of school facilities. Projects eligible for these funds will improve the conditions related to air conditioning, heating, indoor air quality, mold remediation, temperature regulations, plumbing, roofs and windows. Matching funds from the school system is required for approval. In addition, the work-years reflected in this project are shifted from the HVAC Replacement project to align the coordination of work performed. An FY 2025 appropriation was approved to address various schools throughout the system through this program.

OTHER

FY 2025 -- Salaries and Wages: \$283K, Fringe Benefits: \$123K, Workyears: 3 FY2026-2030 -- Salaries and Wages: \$1.5M, Fringe Benefits: \$613K, Workyears: 15

FISCAL NOTE

State Aid will be appropriated when awarded.

DISCLOSURES

Expenditures will continue indefinitely. MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

Unencumbered Balance	166,021	Total Partial Closeout	64,581

PROJECT DESCRIPTION

This project provides for the systematic replacement of heating, ventilating, air conditioning, automated temperature controls, and plumbing systems for MCPS facilities. This replacement approach is based on indoor environmental quality (IEQ), energy performance, and maintenance data. Qualifying systems and/or components are selected based on the above criteria and are prioritized within the CIP through a rating system formula. MCPS is participating in interagency planning and review to share successful and cost effective approaches. The Indoor Air Quality and Energy Conservation projects are now merged with this project to better reflect the coordination of work performed. The work-years reflected in this project are from that merger. An FY 2023 appropriation was approved for mechanical systems upgrades and/or replacements at various schools throughout the county. However, the County Council, in the adopted FY2023-2028 CIP decreased expenditures in FY2023, therefore, the number of projects to be completed were reduced to align with the approved expenditures. Implementation of this program will also be based on implications of construction

cost increases and supply chain interruptions. An FY 2024 appropriation and amendment to the FY 2023-2028 CIP was requested to address the backlog of HVAC projects and provide additional funding due to the impact on construction costs as a result of the COVID-19 pandemic. An FY2023 supplemental appropriation of \$25 million was approved to accelerate a portion of the FY2024 request to be able to order materials earlier due to supply chain interruptions. As part of the FY2025-230 CIP, work-years previously shown in this project have been shifted to the Healthy Schools project to align with the work performed. As part of the County Council approved FY2025-2030 CIP, additional expenditures were included in the out-years to reflect a level of effort funding through the six-year CIP. An FY 2025 appropriation was approved to address the backlog of HVAC projects and provide mechanical systems upgrades and/or replacement for facilities throughout the school system. The appropriation will also fund replacement of automatic temperature controls at schools throughout the county.

OTHER

Master Plan for School Facilities, Department of Environmental Protection, Department of Health and Human Services, American Lung Association, County Government, Interagency Committee--Energy and Utilities Management, MCPS Resource Conservation Plan, County Code 8-14a

FISCAL NOTE

Reflects MCPS correction for funding allocations prior to FY19. FY20 supplemental in State Aid for \$367,850 from the Maryland's Healthy Schools Facility Fund. FY21 supplemental in Recordation Tax for the amount of \$3,000,000 to enhance the HVAC systems and improve indoor air quality to support COVID-19 recovery planning. FY23 State Aid award for \$19.250 million for multiple years. FY23 supplemental in G.O. Bonds and State Aid for the amount of \$25,000,000 to accelerate FY24 appropriation. The cost of the project and cumulative appropriation were reduced by \$14.698 million due to FY21 & FY22 reversions. Additional reversions from FY23 had no impact in the cost of the project.

DISCLOSURES

Expenditures will continue indefinitely. MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project addresses vehicular and pedestrian access to schools. It may involve the widening of a street or roadway, obtaining rights-of-way for school access or exit, or changing or adding entrance/exits at various schools. These problems may arise at schools where there are no construction projects or DOT road projects that could fund the necessary changes. An FY 2023 appropriation was approved to continue this project to address access, circulation, and vehicular and pedestrian traffic issues at various schools, as well as support the county's bicycle initiative through available funds in this project. An FY 2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved to continue this level of effort project to address access, circulation, and vehicular and pedestrian traffic issues at various schools in the county. As part of the County Council approved FY2025-2030 CIP, additional expenditures were included in the out-years to reflect a level of effort funding through the six-year CIP.

FISCAL NOTE

State Reimbursement: not eligible

PROJECT DESCRIPTION

MCPS contracted with an external entity to conduct full facility assessments of all schools during the spring and summer of 2018. This provided an important baseline of facility condition information across all school facilities to inform decision making about capital projects, systemic replacements, and other work needed to address facility infrastructure challenges. The Key Facility Indicator (KFI) data was compiled into a public facing website in the spring of 2019. As part of the amended FY 2019-2024 CIP, the superintendent identified the first set of schools to be included in the Major Capital Project project. At the elementary level, the first set of schools identified are Burnt Mills, South Lake, Woodlin, and Stonegate elementary schools. An FY 2021 appropriation was requested to begin the architectural planning and design for these first four projects. Burnt Mills, South Lake and Woodlin elementary schools have scheduled completion dates of August 2023 and Stonegate Elementary School has a scheduled completion date of January 2024. However, due to fiscal constraints, the County Council, in the adopted FY2021-2026 CIP, approved the completion dates for South

Lake, Woodlin, and Stonegate elementary schools one year beyond the Board of Education's request, but maintained the planning funds. South Lake and Woodlin elementary schools had scheduled completion dates of August 2024 and Stonegate had a scheduled completion date of January 2025. An FY 2022 appropriation and amendment to the FY 2021-2026 CIP was approved to accelerate the completion dates of the four elementary school major capital projects to August 2023. The requested completion dates aligned with the Board of Education's request in the FY 2021-2026 CIP. Based on the request to accelerate the completion dates, an FY 2022 appropriation was approved for construction funds for all of the four elementary major capital projects. An FY 2022 supplemental appropriation and transfer of funds of \$33.941 million in total for four elementary schools (Burnt Mills, South Lake, Stonegate, and Woodlin) was approved, in September 2021, for increases in construction costs. An FY 2022 supplemental appropriation of \$16.725 million in total for four elementary schools (Burnt Mills, South Lake, Stonegate, and Woodlin) was approved, in December 2021, to maximize state aid. An FY 2023 appropriation was approved for Burnt Mills, Stonegate, and Woodlin elementary schools to complete these projects. The approved appropriation also will fund architectural planning and design for Piney Branch ES, the next school identified for a major capital project. Construction funds will be considered in a future CIP, and therefore, the completion date for the Piney Branch ES project is to be determined. Due to construction delays and challenges, the approved FY2023-2028 amended CIP includes a six-month delay for Woodlin ES, now with a completion date of January 2024. As part of the approved FY2025-2030 CIP, the Piney Branch ES project is postponed until the Takoma Park Minor Master Plan Amendment process is complete. FY25 funding includes continued planning funds for Piney Branch ES. In addition, the approved CIP includes planning funds and placeholder construction funds for the following elementary schools--Cold Spring, Damascus, Twinbrook and Whetstone. An FY 2025 appropriation was approved to begin the planning and design for these four elementary school projects. However, due to fiscal constraints, as part of the County Council's approved FY 2025-2030 CIP, the placeholder construction expenditures were shifted to the out-years of the CIP. Once planning is complete and the scope and the cost of the project are determined, construction funds, along with a completion date, will be considered in a future CIP.

FISCAL NOTE

South Lake ES - Major Capital Project: FY21 supplemental in G.O. Bonds for the amount of \$5,853,000 to accelerate completion date to 2023.

FY22 Supplemental for \$16,725,000 in GO Bonds for Burnt Mills ES (\$5.2 million); South Lake ES (\$2.057 million); Stonegate ES (\$3.528 million); and Woodlin ES (\$5.940 million).

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

MCPS contracted with an external entity to conduct full facility assessments of all schools during the spring and summer of 2018. This provided an important baseline of facility condition information across all school facilities to inform decision making about capital projects, systemic replacements, and other work needed to address facility infrastructure challenges. The Key Facility Indicator (KFI) data was compiled into a public facing website in the spring of 2019. At the secondary level, the first set of schools identified were Neelsville MS; and, Poolesville, Damascus, Thomas S. Wootton, and Col. Zadok Magruder high schools. An FY 2023 appropriation was approved to complete the projects at Poolesville HS and Neelsville MS, for planning funds for Damascus HS, and funding for site modifications at Thomas S. Wootton HS. In addition, the FY 2023 appropriation will fund the architectural planning and design for Eastern MS. Construction funds will be considered in a future CIP for Eastern MS, therefore, this project has a TBD completion date.

Due to fiscal constraints, the County Council, in the adopted FY2023-2028 CIP, delayed the major capital projects for Thomas S. Wootton and Col. Zadok Magruder high schools by two years. Therefore, the new completion date for these two projects is August 2029. An FY 2023 supplemental appropriation in the amount of \$12 million was approved for Neelsville MS due to increases in construction costs. An FY 2024 appropriation and amendment to the FY2023-2028 CIP was approved for additional funds for the Poolesville HS project due to the impact on construction costs as a result of the Covid-19 health pandemic. In addition, an FY 2024 appropriation was approved for construction funds for the Damascus HS project. As part of the Board of Education's Requested FY2025-2030 CIP, the construction timeline for Damascus HS was extended one-year, with a completion date of August 2027. In addition, as part of the FY2025-2030 CIP, construction funds were included for the Eastern MS project, with a completion date of August 2028. An FY 2025 appropriation was requested for construction cost increases for Damascus HS and planning funds for Wootton and Magruder high schools. Due to fiscal constraints, as well as the inclusion of expenditures in the outyears of the CIP for some countywide projects to reflect level of effort funding, the County Council approved FY 2025-2030 CIP shifted construction funding for the Damascus, Magruder, and Wootton high school projects and the Eastern MS project. These expenditure shifts also resulted in "to be determined" completion dates. With respect to Wootton HS, the ADA site modifications will remain on schedule. Appropriations for planning and construction funds will be considered in a future CIP based on the approved expenditure schedules.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

Many school sites, especially at the elementary school level, face site constraints and limitations due to school overutilization, the need to place relocatable classrooms on paved play and field areas, as well as site size and other conditions. Funds included in this project will allow MCPS to more fully integrate outdoor play areas into maintenance practices and create solutions when individual schools present challenges to a conventional approach. Initial funding was approved to develop a pilot program to evaluate the outdoor program/play areas of MCPS schools, establish improved maintenance practices for these sites, and identify potential solutions to provide adequate and appropriate outdoor program/play areas, particularly at elementary schools with severely compromised sites. This project has been transform into a level of effort project to address this ongoing need. An FY 2023 appropriation was approved to continue this level of effort project, however, the County Council, in the adopted FY2023-2028 CIP, decreased expenditures in FY23, therefore, the number of projects to be completed were reduced to align with the approved expenditures. An FY2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved to continue this level of effort project and address outdoor program/play areas at various schools throughout the county.

PROJECT DESCRIPTION

This project funds a comprehensive and ongoing plan to replace key facility and site components based on an inventory of their age and conditions. A comprehensive inventory of all such components has been assembled so that replacements can be anticipated and accomplished in a planned and orderly manner. Facility components included in this project are code corrections, physical education facility/field improvements, school facility exterior resurfacing, partitions, doors, lighting, media center security gates, bleachers, communication systems, and flooring. An FY 2022 appropriation and amendment to the FY2021-2026 CIP was approved to continue this level of effort project and reinstate the expenditures removed from FY 2022 in the adopted FY2021-2026 CIP. An FY 2023 appropriation was approved to continue this project to address building systems, school facility exterior resurfacing, partitions, doors, lighting, bleachers, communication systems, and flooring; however, the County Council, in the adopted FY2023-2028 CIP, decreased

expenditures in FY23 and FY24, therefore, the number of projects to be completed will be reduced to align with the approved expenditures. An FY 2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved to continue this level of effort project to replace many building systems and components at various schools throughout the county. A list of summer PLAR projects can be found in Appendix K of the FY 2025 Educational Facilities Master Plan.

FISCAL NOTE

Reflects MCPS correction for funding allocations prior to FY19. FY20 supplemental for \$96,000 in Qualified Zone Academy Funds. FY21 supplemental in Aging Schools Program for the amount of \$602,651. FY21 supplemental in Qualified Zone Academy Funds for the amount of \$216,204. FY22 supplemental in Aging Schools Program for the amount of \$602,651. FY23 Supplemental in Aging Schools Program for the amount of \$602,651 (Res. #19-1397). FY24 supplemental in Aging Schools Program for the amount of \$602,651. FY24 supplemental in State Aid for the amount of \$392,083.

DISCLOSURES

Expenditures will continue indefinitely. MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

MCPS utilizes relocatable classrooms on an interim basis to accommodate student enrollment in overutilized facilities. Units around 15-20 years old require general renovation if they are to continue in use as educational spaces. An FY 2021 supplemental appropriation was approved for \$5 million to accelerate the FY 2022 appropriation request to provide relocatable classroom placement for the 2021-2022 school year. An FY 2022 supplemental appropriation was approved to accelerate the FY 2023 appropriation request to provide relocatable classroom placement for the 2022-2023 school year. An FY 2022 supplemental appropriation of \$3 million was approved to implement the Wellness Program Initiative and provide Wellness spaces at high schools in Montgomery County that currently do not have a Wellness Center. An FY2023 supplemental appropriation was approved to accelerate the FY2024 appropriation for the placement of relocatable classrooms for the 2023-2024 school year to address enrollment growth and overutilization at schools throughout the county, to address increases in construction costs, as well as to implement the new *Blueprint for Maryland's Future* for schools that are currently overutilized. An FY 2025 appropriation was approved for the placement of relocatable classrooms for the 2024-2025 school year as a result of overutilization at schools throughout the county, as well as to fund

the placement of relocatable classrooms for pre-kindergarten as a result of the *Blueprint for Maryland's Future*. As part of the County Council approved FY2025-2030 CIP, additional expenditures were included in the out-years to reflect a level of effort funding through the six-year CIP.

FISCAL NOTE

FY18 supplemental appropriation was approved for \$5.0 million in Current Revenue: General to accelerate the FY2019 request to enter into contracts to allow for the placement of relocatable classrooms by the start of the 2018-2019 school year. Funding switch in FY19 and in FY20 to reduce Current Revenue: General and increase Recordation Tax. FY23 supplemental in Current Revenue: General for the amount of \$7,500,000 to amend the project and to accelerate FY24 appropriation. FY24 supplemental in Current Revenue: General for the amount of \$5,000,000.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project will provide needed modifications to specific areas of restroom facilities. A study was conducted in FY 2004 to evaluate restrooms for all schools that were built or renovated before 1985. Ratings were based upon visual inspections of the existing materials and fixtures as of August 1, 2003. Ratings also were based on conversations with the building services managers, principals, vice principals, and staffs about the existing conditions of the restroom facilities. The numeric rating for each school was based on an evaluation method using a preset number scale for the assessment of the existing plumbing fixtures, accessories, and room finish materials. In FY 2010, a second round of assessments were completed, which included a total of 110 schools, including holding facilities. BY FY 2018 all 110 schools assessed were completed. An FY 2019 appropriation was approved for the next phase of this project. An FY 2022 appropriation was approved to continue this level of effort project. An FY 2023 appropriation was approved to address restroom facilities throughout the school system including plumbing fixtures, accessories, and room finish materials. An FY2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was approved to continue this project and address restroom facilities throughout the school system. In addition, the appropriation will fund modifications to provide single-user restrooms at various schools throughout the county.

PROJECT DESCRIPTION

The increasing age of buildings has created a backlog of work to replace roofs on their expected 20 year life cycle. Roofs are replaced when schools are not in session, and are scheduled during the summer. This is an annual request, funded since FY 1976. An FY 2022 appropriation and amendment to the FY 2021-2026 CIP was approved to continue this level of effort project for partial and full roof replacement projects at various schools throughout the county. The approved amendment for FY 2022 reinstates the expenditures that were removed as part of the adopted FY 2021-2026 CIP. An FY 2023 appropriation was approved to continue this level of effort project for partial and full roof replacement projects at 3 high schools and 9 elementary schools. An FY2024 appropriation was approved to continue this level of effort project for partial and full roof replacement projects at various schools throughout the county. An FY 2025 appropriation was approved to continue this level of effort project.

FISCAL NOTE

Reflects MCPS correction for funding allocations prior to FY19. FY23 State aid award for \$10.275 million for multiple years. The cost

of this project and the cumulative appropriation were reduced by \$2.9 million due to FY21 & FY22 reversions in State Aid. FY23 reversions had no impact in the cost of this project.

DISCLOSURES

Expenditures will continue indefinitely. MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project addresses four aspects of security throughout Montgomery County Public Schools, and will serve to protect not only the student and community population, but also the extensive investment in educational facilities, equipment, and supplies in buildings. An FY 2020 supplemental appropriation of \$1.772 million was approved from the State as part of the School Safety Grant program. An FY 2020 appropriation and amendment to the adopted FY2019-2024 CIP was approved to address technology upgrades to various existing security systems, as well as provide secure entrance vestibules and guided building access for schools that currently do not have these features. An FY 2021 appropriation was approved to continue the work in this project. An FY 2022 appropriation was approved to continue to provide secure entrance vestibules and guided building access for schools that currently don't have these features. An FY 2023 appropriation was approved to complete the secure entrance vestibules and guided building access projects, as well as to continue to replace/upgrade and install security technology at various schools throughout the county. An FY2024 appropriation and amendment to the FY 2023-2028 CIP was approved to continue this level of effort project and to update electronic school access and install new and/or update security technology at schools throughout the county. An FY 2025 appropriation was

approved to continue this level of effort project and provide new or replacement interior/exterior cameras as well as new and updated indoor/outdoor protective measures at various schools throughout the county.

FISCAL NOTE

State Reimbursement: not eligible. FY20 state grant in the amount of \$1,772,000 from the State of Maryland School Safety Grant Program. Additional FY20 state grant in the amount of \$1,462,000 from the State of Maryland School Safety Grant Program - round II.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project will provide funds to meet the State of Maryland requirements that all industrial sites be surveyed and a plan developed to mitigate stormwater runoff. Work under this project includes concrete curbing to channel rainwater, oil/grit separators to filter stormwater for quality control, modifications to retention systems, the installation of a surface pond for stormwater management quality control at the Randolph Bus and Maintenance Depot, and other items to improve stormwater management systems at other depot sites. This project is reviewed by the interagency committee for capital programs that affect other county agencies to develop the most cost effective method to comply with state regulation. This project also will address pollution prevention measures that were formally addressed in the County Water Quality PDF. Federal and State laws require MCPS to upgrade and maintain stormwater pollution prevention measures at schools and support facilities. The State of Maryland, Department of the Environment, through the renewal of Montgomery County's National Pollutant Discharge Elimination System (NPDES) Permit, has included MCPS as a co-permittee under its revised current Municipal Separate Storm Sewer System MS4 permit, subject to certain pollution prevention

regulations and reporting requirements not required in the past. As a co-permittee, MCPS will be required to develop a system-wide plan for complying with MS4 permit requirements. The plan could include infrastructure improvements that reduce the potential for pollution to enter into the stormwater system and area streams. A portion of the plan also will include surveying and documenting, in a GIS mapping system, the stormwater systems at various facilities. An FY 2022 appropriation was approved to continue this level of effort project. An FY 2023 appropriation was approved to address stormwater runoff at various MCPS facilities throughout the school system. An FY2024 appropriation and amendment to the FY 2023-2028 CIP was approved to continue this level of effort project and to provide funding to upgrade/replace water fixtures throughout the school system to comply with the *Safe School Drinking Water Act* legislation. An FY 2025 appropriation was approved to continue this level of effort project.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

Maryland State law (Annotated Code of Maryland, *Education Article*, §5-312.1-School district energy policies) encourages school systems such as MCPS to set targets to reduce greenhouse gas emissions. The Montgomery County Climate Action Plan, released in June 2021, is a multi-year plan that includes many new requirements for construction, including electrification and restrictions on the use of natural gas. This project will provide funds to implement a variety of new capital projects to improve energy and utility use efficiency, reduce greenhouse gas emissions, improve resiliency, and align with other sustainability priorities for MCPS. An FY 2023 appropriation was approved to begin the evaluation of and provide funding for various sustainability features including: upgrades to automated building automation systems, building retrofits to improve energy efficiency, solar panel installations, renovating greenhouses, and support towards integrating sustainability features into academics. Due to fiscal constraints the amended FY23-FY28 CIP reflects a reduction in approved FY24 expenditures from \$7.5 million to \$5.0 million. The County Council approved additional expenditures in the outyears of the 2025-2030 CIP to reflect a level of effort funding. An FY 2025 appropriation was approved to continue this project and fund various sustainability features at schools and also focus on photovoltaic installations to align with the county's climate action goals.

FISCAL NOTE

FY24 supplemental for \$151,003 in State Aid.

DISCLOSURES

Expenditures will continue indefinitely. MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The Technology Modernization (Tech Mod) project is a key component of the Montgomery County Public School strategic technology plan, Educational Technology for 21st Century Learning. This plan builds upon the following four goals: students will use technology to become actively engaged in learning, schools will address the digital divide through equitable access to technology, staff will improve technology skills through professional development, and staff will use technology to improve productivity and results. An FY 2019 appropriation was approved to continue this project and the technology modernization program to our schools throughout the system. However, due to fiscal constraints, the County Council approved a reduction of \$3.622 million in FY 2019 from the Board of Education's request. An FY 2020 appropriation was approved to continue this project; however, due to fiscal constraints, the County Council shifted expenditures from FY 2021 and FY 2022 to FY 2023 and FY 2024. An FY 2021 appropriation was approved to continue this project and provide technology modernization to schools throughout the system. However, due to fiscal constraints, the County Council, in the adopted FY2021-2026 CIP, reduced the FY2021 and FY2022 expenditures for this project

with respect the Board of Education's request. An FY 2022 appropriation was approved to continue this level of effort project and provide technology modernization to schools throughout the system. An FY 2023 appropriation was approved to continue this level of effort project and provide technology modernization to schools systemwide. An FY2024 appropriation was approved to continue this level of effort project. An FY 2025 appropriation was requested to continue this project and provide technology modernization to schools throughout the system, as well as to provide funding for the Mid-Atlantic Innovation Center (MAIC) space. The County Council, as part of the adopted FY2025-2030 CIP, removed all funding for the MAIC space, and increased expenditures in the out-years of the CIP to reflect a level of effort funding for this project.

FISCAL NOTE

FY19 and FY20 funding switch between Recordation Tax and Current Revenue General for \$10,296,000 and \$6,280,000 respectively. FY21 reduction in requested Current Revenue: General for \$3.616 million and in FY22 for \$1.0 million with assumption in FY21 there will be \$1.2 million in Federal E-Rate. FY21 supplemental for \$1,815,267 under Federal E-Rate Reimbursement. FY23 supplemental in Federal Aid for the amount of \$2,077,854.96. FY23 supplemental in Current Revenue for the amount of \$750,000 from MCPS fund balance. FY23 supplemental in Federal Aid for the amount of \$623,758.

COORDINATION

FY 2025 -- Salaries and Wages: \$5M, Fringe Benefits: \$893K, Workyears: 36.5 FY 2026-2030 -- Salaries and Wages \$24M, Fringe Benefits \$5M, Workyears: 182.5.

PROJECT DESCRIPTION

Projections indicated enrollment would exceed capacity for some of the elementary schools in the Bethesda-Chevy Chase and Walter Johnson clusters. Planning expenditures for a new elementary school were programmed in the out-years of the approved FY 2021-2026 CIP. An FY 2025 appropriation was requested to begin the planning for this new elementary school. Due to an overall decline in the elementary school enrollment in these two clusters, the expenditures were shifted to the outyears of the CIP. Once the planning funds are appropriated and the scope and cost of this project is determined, construction funding and a completion date will be considered.

PROJECT DESCRIPTION

Projections indicate that student enrollment at Burtonsville Elementary School will exceed capacity by the end of the six-year planning period. An FY 2023 appropriation was requested for planning funds to begin this project. Due to fiscal constraints, the County Council delayed the completion date for this project by two years, but maintained a portion of the planning funds. As part of the adopted FY2023-2028 CIP, an additional \$3.0 million from the county executive's Prevailing Wage and Built to Learn Act PDFs was included in this project to maximize state aid. An FY 2024 appropriation and an amendment to the FY2023-2028 CIP was approved to construct a new Burtonsville ES at another location instead of building an addition at the existing school at the current location. An FY 2025 appropriation was approved for construction cost increases and for the balance of funding for this project. As a result of the relocation of Burtonsville ES, the completion date was accelerated one year, therefore, the scheduled completion date is August 2026.

FISCAL NOTE

State Aid projected under the IAC Capital Improvement Program or the Built To Learn Act for school construction program

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

In order to address the overutilization at the high school level in the Downcounty Consortium and at Walter Johnson High School, the Board of Education's approved FY 2019-2024 CIP included three capital projects to address the overutilization in these areas. The approved CIP includes an expansion of Northwood High School, the reopening of Charles W. Woodward High School, and an addition at John F. Kennedy High School. The expansion of Northwood High School would increase the capacity to a 2,700 student capacity. The expansion of approximately 1,200 seats will require not only additional classrooms, but also reconfiguration of existing spaces and upgrades to building systems to accommodate the new student population. On March 25, 2019, the Board of Education approved that the Northwood High School project would be constructed with students off-site and that Northwood High School would operate at

the Charles W. Woodward High School site as a temporary holding facility during the construction period. Therefore, based on the Board's approval, the Woodward facility would be used as a holding center for two years following initial construction of the new Charles W. Woodward High School facility, starting in August 2023. The addition/facility upgrades for Northwood High School were scheduled to be completed August 2025. At that time, the Woodward High School facility would be reopened as a new high school. An FY 2021 appropriation was approved for construction funds. An FY 2022 appropriation was approved to continue this project. An FY 2022 supplemental appropriation and transfer of funds of \$4 million from the current revitalization/expansion project to this project was approved to address construction cost increases. An FY 2023 appropriation was requested for construction cost increases and construction funds to complete this project. While the increase in expenditures were approved, due to fiscal constraints, the County Council, as part of the adopted FY2023-2028 CIP, delayed this project one year. Therefore, Northwood High School will be relocated to the Charles W. Woodward High School site in August 2024, for two years. An FY 2024 appropriation and amendment to the FY 2023-2028 CIP was approved for additional funds due to the impact on construction costs as a result of the Covid-19 pandemic. Due to the continued effects of Covid-19 pandemic on construction cost increases, the budget for this project is insufficient to complete the construction scope as originally intended. Therefore, to move forward with the construction and remain on schedule, the Board of Education approved, as part of the FY2025-2030 CIP, a Phase III for this project which will include the construction of the auditorium. Funding to construct the auditorium will be considered in the next CIP budget cycle. As part of the Board of Education's Requested FY25-30 CIP, the construction schedule for the Northwood HS capital project is extended one-year, with a completion date of August 2027. Since Woodward HS is the holding facility for Northwood HS, the completion date for the reopening of Woodward HS is now August 2027.

FISCAL NOTE

State Aid approved under the County's allocation of the Built To Learn Act school construction program.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

High schools in the mid-county region will continue to be over capacity through the six-year planning period. Therefore, the Board of Education's requested FY 2019-2024 CIP included funding for a new high school in the mid-county region located on the Crown site in the City of Gaithersburg. An FY 2019 appropriation was requested to begin planning this new high school. Due to fiscal constraints, the County Council approved a one-year delay for this project. During the County Council's review of the FY 2019-2024 Amended CIP, the Council approved including the following language in this project to keep two clusters from going into housing moratoria in FY 2020: "Based on the Board of Education's proposed yearly spending in this project, the Council anticipates that Crown HS will open in September 2024. The new school will relieve overcrowding by at least 150 students at Quince Orchard HS and by at least 120 students at Richard Montgomery HS." An FY 2020 appropriation was approved for planning funds. Due to fiscal constraints, the County Council, in the adopted FY2021-2026 CIP delayed this project one year. An FY 2023 appropriation was requested to provide additional funding for this project to address increases in construction costs and for construction funds. While the County Council

approved the additional expenditures for this project as requested by the Board of Education, due to fiscal constraints, the County Council delayed this project by one year in the adopted FY2023-2028 CIP. An FY 2024 appropriation was approved for construction funds and an amendment to the FY 2023-2028 CIP was approved for additional funds due to the impact on the construction industry as a result of the Covid-19 pandemic. Due to the continued effects of Covid-19 pandemic on construction cost increases, the budget for this project is insufficient to complete the construction scope as originally intended. Therefore, to move forward with the construction and remain on schedule, the Board of Education approved, as part of the FY2025-2030 CIP, a Phase II for this project which will include the construction of the auditorium. In order to save additional design costs, \$5 million was transferred to this project to build out the shell, the outside structure, of the auditorium as part of Phase I. Funding to construct the fit-out of the auditorium, Phase II, will be considered in the next CIP budget cycle. An FY 2025 appropriation was approved for the balance of funding. This new high school is scheduled to be completed August 2027.

FISCAL NOTE

State Aid projected under the IAC Capital Improvement Program and/or the Built To Learn Act for school construction program.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

Projections indicate that student enrollment at Greencastle Elementary School will exceed capacity by the end of the six-year planning period. As part of the FY2023-2028 CIP, an additional \$2.5 million from the county executive's Prevailing Wage and Built to Learn Act PDFs was included in this project to maximize state aid. An FY 2023 appropriation was approved for planning funds. An FY 2024 appropriation was approved for construction funds and an amendment to the FY 2023-2028 CIP was approved for additional funds due to the impact on the construction industry as a result of the Covid-19 pandemic. This addition project is scheduled to be completed August 2025.

FISCAL NOTE

State Aid projected under the IAC Capital Improvement Program or the Built To Learn Act for school construction program.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

Enrollment projections indicate that Highland View Elementary School will continue to exceed capacity through the six-year planning period. This is a small elementary school and is projected to be 139% overutilized by the end of the six-year period. Currently, there are six relocatable classrooms on-site, and it will be a challenge to place additional relocatable classrooms if needed in the future. A feasibility study for a classroom addition was conducted in FY 2010. An FY 2020 appropriation was approved to begin the architectural design for this addition project. As part of the *Board of Education's Requested FY 2022 Capital Budget and Amendments to the FY 2021-2026 CIP*, funds were reallocated from the Silver Spring International Middle School addition project to this project to construct the addition at Highland View Elementary School with a completion date of August 2025. The FY 2022 approved appropriation reflects the previously appropriated funds from the Silver Spring International Middle School addition project. The County Council, as part of the adopted FY2023-2028 CIP, delayed the construction expenditures for this project by two years. Therefore, this addition project is scheduled to be completed August 2027.

FISCAL NOTE

State Aid projected under the IAC Capital Improvement Program or the Built To Learn Act for school construction program.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

Projections indicate that enrollment at JoAnn Leleck Elementary School at Broad Acres will exceed capacity throughout the six-year planning period. Due to site limitations, it would be difficult to expand the facility to meet the enrollment growth needs. Therefore, to address the space deficit, feasibility studies were conducted during the 2016-2017 school year at Cresthaven and Roscoe Nix elementary schools (paired schools), to determine if these schools can be expanded to address the space deficits at JoAnn Leleck Elementary School at Broad Acres. The Board of Education's requested FY 2019-2024 CIP included funding for additions at both Cresthaven and Roscoe Nix elementary schools to address the overutilization at JoAnn Leleck Elementary School at Broad Acres. An FY 2019 appropriation was requested to begin planning this addition. The project was scheduled to be completed September 2021. However, due to fiscal constraints, the County Council approved a one-year delay for these two projects. An FY 2020 appropriation was approved for planning funds and an FY 2021 appropriation was approved for construction funds for both projects. These projects were scheduled to be completed September 2022. As a result of the continued enrollment growth at JoAnn Leleck Elementary School

at Broad Acres and the scope and cost of the additions at both Cresthaven and Roscoe Nix elementary schools, the *Board of Education's Requested FY 2022 Capital Budget and Amendments to the FY 2021-2026 CIP*, removed all expenditures from this project and reallocated those funds for a new Grades 3-5 elementary school for JoAnn Leleck Elementary School at Broad Acres. The FY 2022 appropriation for this project reflects the previously approved appropriation from the two addition projects. An FY 2023 appropriation was approved to address construction cost increases for this project. An FY 2024 appropriation and amendment to the FY2023-2028 CIP was approved for additional funding due to the impact on the construction industry as a result of the Covid-19 pandemic. An FY 2025 appropriation was approved to provide additional funds for this project to construct a replacement school on the same site. Due to the change in scope for this project, the construction timeline for this project is extended one year. Therefore, the scheduled completion date for this project is August 2026.

FISCAL NOTE

State Aid projected under the IAC Capital Improvement Program or the Built To Learn Act for school construction program.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

In order to address the overutilization at the high school level in the Downcounty Consortium and at Walter Johnson High School, the Board of Education's approved FY 2019-2024 CIP included three capital projects to address the overutilization in these areas. The approved CIP includes an expansion of Northwood High School, the reopening of Charles W. Woodward High School, and an addition at John F. Kennedy High School. The expansion of Northwood High school would increase the capacity to a 2,700 student capacity. The expansion of approximately 1,200 seats will require not only additional classrooms, but also reconfiguration of existing spaces and upgrades to building systems to accommodate the new student population. Therefore, an FY 2019 appropriation was approved to begin planning for this expansion and facility upgrade. On March 25, 2019, the Board of Education approved that this project would be constructed with students off-site and that Northwood High School operate at the Charles W. Woodward High School as a

temporary holding facility during the construction period. Therefore, based on the Board's approval, this addition and facility upgrade was scheduled to be completed September 2025. Additional funding is included in the requested FY 2021-2026 CIP for this construction project. An FY 2022 appropriation was approved to begin the site work for this project. An FY 2023 appropriation was requested for construction funds and to address increases in construction costs. Due to fiscal constraints, the County Council, as part of the adopted FY2023-2028 CIP, delayed this project one year. Therefore, the school will be relocated to the Charles W. Woodward High School in August 2024, for two years. An FY 2024 appropriation was approved for construction funds and an amendment to the FY 2023-2028 CIP was approved for additional funds due to the impact on the construction industry as a result of the Covid-19 pandemic. As part of the Board of Education's Requested FY25-30 CIP, the construction schedule for this project is extended one year. An FY 2025 appropriation was requested for the balance of funding for this project. However, to address cost increases and the need to enter into a construction contract prior to July 1, 2024, an FY2024 supplemental appropriation was requested by the Board and approved by the County Council to accelerate the FY2025 appropriation of \$4.56 million and \$5 million to provide additional construction funds for this project. As a result of the one-year construction extension, this project is scheduled to be completed August 2027.

FISCAL NOTE

State Aid approved under the IAC Capital Improvement Program or the Built To Learn Act for school construction program. FY24 supplemental to fund \$5,000,000 in cost increases with acceleration of FY25 appropriation of G.O. Bonds for the amount of \$1,159,000, and State Aid for the amount of \$8,401,000.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

Projections indicate that enrollment at Silver Spring International Middle School is increasing and will exceed capacity throughout the six-year planning period. In addition to the enrollment growth, the gymnasiums and locker rooms are located in a separate building, down a steep hill, which impacts the accessibility and administration of the physical education program at the school. Also, the

construction of the Purple Line will impact the school site and outdoor programmatic spaces that will need to be addressed. Therefore, the Board of Education's requested FY 2019-2024 CIP included funding for an addition at this school. An FY 2019 appropriation was approved to begin the planning for this project. An FY 2020 appropriation was approved for construction funds. This addition project not only will affect the middle school, but also the Sligo Creek Elementary School, since both are on the same site. After considering a number of factors including the cost and operational considerations for this project, the requested FY 2021-2026 CIP includes a one-year delay of this project to allow the school system and the school community an opportunity to explore additional options to address the capacity needs at both schools, as well as the programmatic needs at the middle school. This project, with the one-year delay, is scheduled to be completed September 2023. After careful consideration regarding the scope of this project, the fiscal challenges facing the county and state, and the substantial budget for the approved project, the *Board of Education's Requested FY 2022 Capital Budget and Amendments to the FY 2021-2026 CIP* includes a reduction of scope and cost of this addition project and to reevaluate the scope of the project to specifically address the programmatic and safety needs of the school as it relates to the location and administration of the physical education program, as well as the overall safety of the school community with the construction of the new Purple Line. With the approved change in scope, the completion date for this project was August 2024. In addition, the County Council approved the Board of Education's requested Amended CIP that included the reallocation of funds (\$16 million) from this project to the Highland View Elementary School addition project. As part of the FY2023-2028 CIP, an additional \$4.0 million from the county executive's Prevailing Wage and Built to Learn Act PDFs was included in this project to maximize state aid. Due to fiscal constraints, the County Council, in the adopted FY2023-2028 CIP, delayed this project one year. An FY2023 appropriation was approved for the additional funding for this project. An FY 2024 appropriation was approved for construction funds and an amendment to the FY 2023-2028 CIP was approved for additional funds due to the impact on the construction industry as a result of the Covid-19 pandemic. The scheduled completion date for this project is August 2025.

FISCAL NOTE

This project is not eligible for State Aid.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

In September 2018, the Spanish Immersion Program located at Rolling Terrace Elementary School was relocated to William T. Page Elementary School. Projections indicate that enrollment will exceed capacity by 92 seats or more by the end of the six-year period. An FY 2021 appropriation was requested to begin the architectural planning and design for this addition project. The FY 2021 planning appropriation was approved by the County Council, however, due to fiscal constraints, the construction expenditures were approved one year beyond the Board of Education's request. An FY 2022 appropriation and amendment to the FY 2021-2026 CIP is requested to accelerate the construction of this addition project to the completion date requested by the Board of Education in the FY 2021-2026 CIP. The FY 2022 appropriation was approved for construction funds. As part of the FY2023-2028 CIP, an additional \$4.554 million from the county executive's Prevailing Wage and Built to Learn Act PDFs was included in this project to maximize state aid. An FY 2023 appropriation was approved to complete this project. This addition is scheduled to be completed August 2023.

FISCAL NOTE

State Aid approved from the County's allocation of the Built To Learn Act school construction program.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project reflects the potential margin of error in State Aid assumptions considered in various school construction projects for FY25-30 in traditional State Aid and State Aid for local school systems with significant enrollment growth or relocatable classrooms (EGRC), and in the Built To Learn program with offsetting amount of General Obligation bonds. Once actual State Aid is known for specific projects within the assumption, the amount of the reduction shown in this PDF is zeroed out. This project also reflects the assumption of future forward funding by the County with expenditures in State Aid reimbursements in the following years.

DISCLOSURES

MCPS asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project provides funding for modifications to College facilities to comply with the accessibility provisions of the Americans with Disability Act (ADA) of 1990. Typical modifications include: paths of travel, entrance doors, stairs, corridors, ramps, toilet facilities, drinking fountains, parking, curb cuts, elevators, areas of refuge, public phones, signage, emergency notification and alarm systems, and other accessibility modifications to meet comfort, security, and safety requirements for people with disabilities. This project addresses access deficiencies in all College facilities. Project implementation is in accordance with ADA guidelines and the College's annual work program. The College has conducted a series of facility audits to determine ADA compliance and scope of required modification work, including estimated costs. Readily achievable modifications are implemented as part of the College's regular maintenance work.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 and FY30.

PROJECT JUSTIFICATION

The ADA requirements mandate a comprehensive effort to provide accessible programs and barrier free facilities to disabled persons. The deadline for compliance with the requirement to make the College's programs accessible was January 26, 1995; however, the law allows for additional time to comply if available resources are limited for structural and building modifications. Based on the College's annual work program and available funding for ADA modifications, the College anticipates that the project will continue beyond the current six-year CIP. Relevant studies include the Montgomery College 2025 Strategic Plan, Collegewide Facilities Condition Assessment Update (1/23) and the Collegewide Facilities Master Plan Update (Pending 2023).

OTHER

FY25 Appropriation: \$75,000 (G.O. Bonds). FY26 Appropriation: \$75,000 (G.O. Bonds). The following fund transfer has been made from this project: \$7,000 to Planning, Design & Construction project (No. P906605) (BOT Resol. #01-153 - 10/15/01).

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

This project is coordinated with the scheduled building renovations, and the planned construction of new buildings, on the Rockville, Germantown and Takoma Park/Silver Spring Campuses.

PROJECT DESCRIPTION

This project provides funding for the capital renewal and major renovation of College facilities for new and changing College academic programs and student service operations. The major focus of this project is to support programmatic changes to College facilities and operations by allowing the College to continue an on-going building modernization effort where State aid is lacking. With this project, the College will selectively focus State aid requests on high cost projects utilizing these County funds to support an on-going renovation effort on each campus. In conjunction with programmatic improvements and modifications, this project will replace aging building systems, such as heating, air conditioning, electrical, plumbing, etc., provide furniture, fixtures, and equipment; and update facilities to current building codes and regulations.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 and FY30.

PROJECT JUSTIFICATION

Starting FY2009, the County approved funding several renovation projects from the Capital Renewal project. These renovation projects were less likely to receive funding from the State, and as a result five projects at that time were merged into the Capital Renewal project. In November 2007, the College updated a comprehensive building system/equipment assessment, including site utilities and improvements, that identified deficiencies, prioritized replacements and upgrades, and provides the framework for implementing a systematic capital renewal program to complement on-going preventive maintenance efforts. The College continues to have a significant backlog of major building systems and equipment renovations and/or replacements due to the age of the Campuses and deferral of major equipment replacement. Key components of the HVAC, mechanical and electrical systems are outdated, energy inefficient, and costly to continue to repair. The renovation and/or replacement of major building systems, building components and equipment, and site improvements will significantly extend the useful life of the College's buildings and correct safety and environmental problems. The Collegewide Facilities Condition Assessment identified a \$104 million deferred maintenance backlog over the next five years, for the three campuses. The total deferred maintenance backlog totals \$345 million. If additional financial resources are not directed at this problem, College facilities will continue to deteriorate leading to higher cost renovations or building replacements. Related studies include the Montgomery College Strategic Plan (7/23), Collegewide Facilities Condition Assessment (1/23), and Collegewide Facilities Master Plan (Pending 2023), and Collegewide Utilities Master Plan (6/22).

OTHER

FY25 Appropriation: \$2,000,000 (G.O. Bonds). FY26 Appropriation: \$2,000,000 (G.O. Bonds).

A fund transfer was made from this project: \$2,100,000 to the TPSS Math and Science Center project (#P0076607) (BOT Resol. #23-06-093, and #23-06-094, 06/21/23).

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project provides for the design and construction of new and renovation and expansion of existing central heating and cooling plants on the College's three campuses as recommended in the College's campus utilities master plan (12/12, and 2/13). The plan for a campus central plant, and distribution systems was included in the campus facilities master plan update (6/18). The project includes installation of boilers and chillers with associated equipment, the provision of natural gas service, and the construction of a hot water and chilled water distribution piping system to new and existing campus buildings.

COST CHANGE

Increase due to addition of FY29 and FY30.

PROJECT JUSTIFICATION

This project implements the recommendations of the campus utilities master plan (6/22) and campus facilities master plan (Pending 2023). The campus' existing heating and cooling equipment is typically 20-30 years old and beyond its useful economic life. Due to the age of the equipment and increasing maintenance problems and costs, each campus is experiencing a significant increase in mechanical system problems and heating/cooling outages. Based on a life cycle cost analysis, the installation of a central heating/cooling plant offers significant equipment replacement, energy and maintenance savings to the College.

Collegewide Utilities Master Plan (6/22), Montgomery College Strategic Plan (7/23), Collegewide Facilities Master Plan (Pending 2023), Facilities Condition Assessment (1/23).

OTHER

FY25 Appropriation: \$1,000,000; (\$1,000,000 (G.O. Bonds) and \$0 (State Aid)). FY26 Appropriation: \$1,500,000; (\$1,000,000 (G.O. Bonds), and \$500,000 (State Aid)). The need to provide new systems for heating and cooling campus buildings was articulated in the utilities master plan and satisfying this requirement is critical to new building construction and the planned renovation of the existing campus buildings.

DISCLOSURES

Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project provides funding for the renovation of the libraries on two of Montgomery College's campuses, specifically the Rockville Macklin Tower Building, and the Takoma Park/Silver Spring Resource Center. An architecture firm has developed conceptual designs for the two campus libraries, and has identified improvements required to support organizational and service changes, and to modernize the libraries. The main library floors will be hubs of academic life at Montgomery College: dynamic spaces that will be student-centered, technology and service-driven, and will foster innovation. The upper floors will provide students with comfortable and quiet study spaces and smaller, curated collections to support their academic and career goals. Additional goals of this project is to meet the variety of student needs including group study, individual study, and silent study.

LOCATION

Takoma Park/Silver Spring and Rockville Campuses

ESTIMATED SCHEDULE

A part1/part 2 document was completed in FY21 for the Takoma Park/Silver Spring library renovation. Design will start in FY22, construction will begin in FY23, and continue in FY24, with completion in FY24. The Rockville library project design will begin in FY24, and construction, and FFE will be requested in FY25 and FY26.

COST CHANGE

State aid escalation of 5 percent approved for FY25 as well as a \$650,00 transfer to cover cost increases prior to FY25.

PROJECT JUSTIFICATION

The Takoma Park/Silver Spring Resource Center was constructed in 1978, and is 45 years old. The Rockville Macklin Tower Building was constructed in 1971 and is 52 years old. These two buildings are outdated, space and service configuration is insufficient, employee workspaces are inadequate to promote collaboration with colleagues, as well as, support student success. In FY16, the Montgomery College Libraries had nearly 670,000 visitors, and ethnographic studies have shown that libraries are one of the places at Montgomery College where students can escape from work and family obligations to get homework and studying done. In addition, Montgomery College's libraries provide students access to technology to be successful in their coursework. In FY16, the Montgomery College library's computers, laptops, and tablets were used approximately 200,000 times by nearly 18,000 unique users. Providing computers, laptops, tablets, software, scanners, internet, and accessible software programs improves college affordability for students who wouldn't otherwise be able to afford those tools. The Montgomery College Libraries increasingly support educational excellence by embedding librarians and information literacy into classes with 7,600 students taught. Other relevant studies and plans include the Libraries Master Plan (2015), Montgomery College Libraries' Ethnographic Studies 2013-2016 (2016), Collegewide Facilities Master Plan (Pending 2023), Libraries Planning Study (6/17), and Libraries Planning Study Germantown Addendum (9/17), and Montgomery College Strategic Plan (7/23).

OTHER

FY25 Appropriation: Total \$2,000,000 (\$1,000,000 (GO Bonds); and \$1,000,000 (State Aid)). FY26 Appropriation: Total \$21,570,000 (\$10,785,000 (GO Bonds); and \$10,785,000 (State Aid)).

A fund transfer was made to this project: \$650,000 from the Planning, Design and Construction project (#P906605)(BOT Resol. #23-06-093, 06/21/23).

FISCAL NOTE

\$650,000 transferred from Planning, Design, and Construction project (906605) to Collegewide Library Renovations project (661901) in the FY21-26 CIP (BOT Resolution:21-06-069 adopted on 6/21/2021).

DISCLOSURES

Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project provides funding for the renovation of physical education buildings, specifically the Germantown Physical Education building and the Rockville Physical Education Center. The College completed a facilities condition assessment of these buildings in January 2023 that evaluated all building systems and related equipment and identified major repair and/or replacement requirements. In addition, this project will fund sports turf, and a reconfiguration of the Germantown baseball field to support the College's athletic program. This project also funds title IX improvements.

LOCATION

Collegewide

ESTIMATED SCHEDULE

This project is an ongoing effort and expenditures are expected beyond the six-year period.

COST CHANGE

Decreases to scope reduction in FY25 - FY28 net the addition of FY30.

PROJECT JUSTIFICATION

The Germantown Physical Education building was constructed in 1980, and is 43 years old. The Rockville Physical Education Center was constructed in 1966, and is 57 years old. These buildings are experiencing a progressive deterioration of building systems and major pieces of building equipment. It has now reached the point that addressing the problem of a deteriorating building infrastructure is beyond the scope of a maintenance effort and that building repairs are no longer adequate or cost effective. Key components of the HVAC, mechanical and electrical systems are outdated, energy inefficient, and costly to continue to repair. The refurbishment and/or replacement of major building systems and related equipment will significantly extend the useful life of the building and correct safety and environmental problems. The College completed a building condition assessment in 2013 that provides a detailed evaluation of building deficiencies and initial cost estimates for major repairs, equipment replacements, and related improvements. Related studies include: Montgomery College Strategic Plan (7/23), Collegewide Facilities Master Plan (Pending 2023), and the Collegewide Facilities Condition Assessment (1/23).

PROJECT DESCRIPTION

This project is for initial planning, studies, programming, facilities master plan updates, land acquisition, design and construction of a new fourth campus in the East County. The project will be a full campus, and will be an anchor institution for the educational, social, cultural, and economic needs of the growing East County community. It will be the long-term location for the East County Education Center, which will include credit, noncredit, and industry certification preparation courses, business training, workforce development and continuing education services, a Truth, Racial Healing, and Transformation Center, counseling/advising services, a Community Engagement Center, and enrichment courses. This project will proceed in phases and will be a model of sustainability and will provide the full scope of services offered at existing Montgomery College campuses. Land acquisition, design and construction will be funded after initial planning is completed.

LOCATION

The fourth campus will be located in a site to be determined in the East County.

COST CHANGE

Increase due to addition of funding for East Campus design and construction.

PROJECT JUSTIFICATION

The East County has experienced a significant increase in its richly diverse population. County Government has identified a lack of public resources in the area. The College undertook a study of the feasibility of locating in the East County. The study was finalized in September 2021 and concluded that the East County has significant needs and challenges. The Study recommends that the College establish an education center and pursue a fourth Campus in the East County. The new campus will be an anchor that will enrich the community and empower students to change their lives with tailored programs, courses, services and facilities. Improved access to higher education will afford higher earning capacity, address local, regional and national demand for workforce in existing and emerging fields, and provide quality of life services for the community. Contemplated programs include language skills, continuing education, enrichment courses, and recreational and cultural opportunities. Program areas identified in the Study include early childhood education, health sciences, engineering, technology, a commercial kitchen incubator, green technologies, English language opportunities, fine arts, and physical education/holistic wellness, along with over-arching college readiness programs. Program areas are preliminary and will be further developed.

OTHER

FY25 Appropriation: \$500,000 (Current Revenue: General). FY26 Appropriation: \$10,000,000 (\$5,000,000 Contributions (Fund Balance), and \$5,000,000 (State Aid)).

FISCAL NOTE

The source of FY26 contributions is College Fund Balance.

DISCLOSURES

Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Board of Trustees, Montgomery County Government, Maryland-National Capital Park and Planning Commission, Maryland Department of General Services, Maryland Higher Education Commission, Maryland Board of Public Works, Middle States Commission on Higher Education, Maryland Department of Budget and Management, and the Maryland General Assembly.

PROJECT DESCRIPTION

This project provides funding for the modernization and/or replacement of existing elevators on all three campuses.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 and FY30.

PROJECT JUSTIFICATION

Many elevator systems at the College are inefficient, outdated and beyond continued economic repair. While the College's maintenance

program has kept elevators operational, spare parts are not readily available from maintenance providers for many of the older pieces of elevator equipment. This results in extended down time, high maintenance costs, higher energy consumption, and the lack of current car safety devices. This project will modernize elevators to improve overall performance, safety, reliability and energy conservation, and to achieve code compliance. Furthermore, some buildings lack elevators or have elevators of inadequate size requiring the installation of new elevators to increase accessibility and capacity. Related studies include the Montgomery College Strategic Plan (7/23), Collegewide Facilities Condition Assessment (1/23), a Collegewide Elevator Study (4/05), the Collegewide Facilities Master Plan (Pending 2023), and the Takoma Park/Silver Spring Elevator Update (9/09).

OTHER

FY25 Appropriation: \$54,000 (G.O. Bonds). FY26 Appropriation: \$200,000 (G.O. Bonds).

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

This project is coordinated with the scheduled building renovations on the Rockville, Takoma Park/Silver Spring and Germantown Campuses., Phase 4 - Takoma Park/Silver Spring Elevator Study, Site Improvements: College (CIP No. P076601)

PROJECT DESCRIPTION

This project provides funding to (1) continue development of a Collegewide energy management program, (2) implement life-cycle cost effective energy conservation measures based upon energy audits, and (3) review new building/renovation designs for compliance with Montgomery County Code, Ch. 8 Building Energy Performance Standards. Typical project activities include retrofits and modifications of lighting, controls, and HVAC equipment; building envelope modifications; solar energy retrofits; computer equipment for equipment control and energy-use monitoring; HVAC system evaluation/balancing studies; long-range energy/utility planning studies; central plant design plans (Germantown, Rockville, Takoma Park/Silver Spring); and waste management studies. Typical payback on lighting, controls, HVAC and solar energy modifications is five to six years. This project includes two staff positions for a utility analyst, and mechanical engineer, which is in response to increased workload associated with the energy and utility functions, but also the design reviews of major projects, planned lifecycle asset replacements, and capital renewals, as well as complying with laws.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 and FY30.

PROJECT JUSTIFICATION

As mandated by Ch. 8 of the County Code and supported by the College, County Council, the Interagency Committee on Energy & Utility Management (ICEUM), and the Citizens Energy Conservation Advisory Committee (ECAC), an energy cost reduction program has been developed. This program consists of energy audits performed by College staff to identify life cycle cost effective retrofits, including a lighting retrofit program, LEED certification, etc.

OTHER

FY25 Appropriation: Total - \$300,000; \$184,000 (G.O. Bonds), and \$116,000 (Current Revenue: General). FY26 Appropriation: Total - \$300,000; \$184,000 (G.O. Bonds), and \$116,000 (Current Revenue: General). The following fund transfers have been made from this project: \$21,420 to Central Plant Distribution System project (#P886676) (BOT Resolution #90-102, 6/18/90); \$70,000 to Fine Arts Renovation (#P906601) (BOT Resolution #94-114, 9/19/94), \$7,000 to Planning, Design & Construction project (#P906605) (BOT Resolution #01-153, 10/15/01), and \$200,000 to Germantown Bioscience Education Center Project (#P056603)(BOT Resol. #12-06-036, 6/11/12). Beginning in FY98, the portion of this project funded by County Current Revenues migrated to the College's Operating Budget. It is anticipated that migration of this portion of the project will promote a desirable consistency with County budgeting practices and encourage greater competition in an environment of scarce resources. Reflecting the migration of this portion of the project, the College's Operating Budget includes funds for this effort. New construction and building renovation projects under review during FY19-20 include planning for new buildings on the Rockville and Takoma Park/Silver Spring campuses. Campus utilities master plans are currently being updated to conform to the approved Collegewide Facilities Master Plan Update (2/23).

DISCLOSURES

Expenditures will continue indefinitely. Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

This project is coordinated with the scheduled building renovations, and the planned construction of new buildings, on the Rockville, Germantown, and Takoma Park/Silver Spring Campuses., ICEUM & ECAC, Montgomery College (7/23), Facility Planning: College (CIP No. P886686), Planned Lifecycle Asset Replacement: College (CIP No. P926659), Roof Replacement: College (CIP No. P876664)

PROJECT DESCRIPTION

This project provides funding for campus master plans, and facility planning studies for projects being considered for possible inclusion in the CIP. In addition, facility planning serves as a transition stage for a project between the master plan or conceptual stage, and its inclusion as a stand-alone project, or subproject, in the CIP. Prior to the establishment of a stand-alone project, the College develops a Facility Program/Program of Requirements (POR) that outlines the general facility purpose and need and specific features required on the project. Facility planning is a decision-making process to determine the purpose and need of a candidate project through a rigorous investigation of the following critical project elements: usage forecasts; academic requirements; investigation of non-County sources of funding; and detailed project cost estimates. This project provides for project planning and preliminary design, and allows for the development of a program of requirements in advance of the full programming of a project in the CIP, including the preparation of Part I and II documentation to meet State requirements. Depending upon the results of a facility planning determination of purpose and need, a project may or may not proceed to construction.

COST CHANGE

Increase due to addition of FY29 and FY30.

PROJECT JUSTIFICATION

There is a continuing need for the development of accurate cost estimates and an exploration of alternatives for proposed projects. Facility planning costs for all projects which ultimately become stand-alone PDFs are included here. These costs will not be reflected in the resulting individual project. Future individual CIP projects which result from facility planning may each reflect reduced planning and design costs. Relevant studies include the Montgomery College Strategic Plan (7/23), Collegewide Facilities Condition Assessment Update (1/23), and the Collegewide Facilities Master Plan (Pending 2023). The East County Feasibility study was completed June 2021.

OTHER

FY25 Appropriation: \$270,000 (Current Revenue: General). FY26 Appropriation: \$270,000 (Current Revenue: General). The following fund transfers have been made from this project: \$25,000 to the Information Technology: College project (CIP No. P856509) (BOT Resol. #91-56 - 5/20/91); \$7,000 to Planning, Design & Construction (CIP No. P906605) (BOT Resol. #01-153 - 10/15/01); \$25,000 to Planning, Design and Construction (CIP No. P804064) (BOT Resol. #02-62 - 6/17/02). The following fund transfers has been made to this project: \$28,000 from the South Silver Spring Property Acquisition (CIP No. P016602) (BOT Resol. # 03-28 - 4/21/03); \$600,000 from the Planning, Design, and Construction project (CIP No. P906605) (BOT Resol. #22-06-103, 6/22/22). By County Council Resol. No. 12-6333, the cumulative project appropriation was reduced by \$187,500 in FY92. By County Council Resolution No. 16-1261, the cumulative appropriation was reduced by \$171,000 (Current Revenue: General) as part of the FY10 savings plan.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

Collegewide Facilities Master Plan Update (Annual Update) FY25- Germantown Student Affairs & Science Building Renovation and addition- Phase 2 (Part I/Part II). FY26- Takoma Park/Silver Spring P1/P2 Building Renovations, Part I/Part II. FY27- TPSS Academic & Wellness Center.

PROJECT DESCRIPTION

This project provides for the realignment/renovation of space in the Science and Applied Studies building (65,015 GSF) on the Germantown Campus in accordance with the College's Facilities Master Plan and the building educational space specifications. The renovated building will house open class labs, classrooms, offices and support space related to the physics, engineering, and mathematics departments. The Science and Applied Studies Renovation will occur in two phases. The first phase involves the renovation of the second floor, and a 29,330 GSF building addition, to support the Physics, Engineering, and Mathematics disciplines. There will be vacant space in a portion of the building when various departments move to the Bioscience Education Center, which makes it necessary to renovate this building to support new disciplines. The current building layout is inappropriate for the Physics, Engineering, and Mathematics departments, which makes it necessary to renovate laboratory spaces, classrooms, and faculty and staff offices. This building also has outdated laboratory equipment, which does not properly support the new functions, and technological changes in teaching methods. Programmatic changes are necessary to prepare this building for these uses. The second phase of this

project will deal with the renovation of the first floor. Overall growth at the Germantown Campus in combination with the transition to lab instruction for mathematics and engineering expansion has created the demand for additional academic space. Renovation for these disciplines co-locates them near the Bioscience Education Center, creating good programmatic synergy on the campus. Renovation of this facility is contingent on completion of the Bioscience Education Center. Based on student interest, enrollment trends, existing and projected County and State workforce needs, and the teaching and learning strategies, including the final report of the Governor's Science Technology Engineering Mathematics Task Force, Investing in STEM to Secure Maryland's Future, the Germantown Campus will be well positioned to meet the needs of its students and the region. Design funding for this project was appropriated in FY13, and construction funding was appropriated in FY16. During FY21, this building was renamed to the Dr. DeRionne P. Pollard Student Affairs and Science Building.

LOCATION

Germantown Campus

ESTIMATED SCHEDULE

Project construction was completed for the fall 2021 semester.

COST CHANGE

Project pending closeout

PROJECT JUSTIFICATION

Under the application of the State space guidelines, the enrollment growth on the Germantown Campus has resulted in a significant instructional space deficit. The Germantown Campus has a 2028 projected instructional space deficit of 69,081 NASF and a total space deficit anticipated to be 149,079 NASF. In addition, this project will position the College to address workforce shortages in the Science, Technology, Engineering, and Mathematics fields. This project will impact local and Maryland workforce shortages through educating students to fill technical jobs. Relevant studies include the Montgomery College 2025 Strategic Plan, Collegewide Facilities Master Plan Update (6/18), the Renovation/Addition to Sciences & Applied Studies Building at Montgomery College Germantown Campus, Part 1, Part 2 (3/11), and the Collegewide Facilities Master Plan Update (6/18).

OTHER

Funding Sources: G.O. Bonds and State Aid. Project expenditures assume that a portion of Information Technology (IT) equipment costs may be funded through the Information Technology (No. P856509) project. The construction costs in the expenditure schedule (\$30,840,000) include: site improvement costs (\$2,390,000), building construction costs (\$28,450,000). The building construction cost per gross square foot equals \$438 (\$28,450,000/65,015). The following fund transfer has been made to this project: \$115,000 from the Computer Science Alterations project (P046602) (BOT Resol.#17-11-121 , 11/13/17). The FY19 budget reallocates \$76,000 (G.O.bonds) from the Computer Science Alterations project (P046602) and adds \$191,000 in State matching funds to cover additional costs associated with unforeseen conditions. (The College's Board of Trustees previously transferred \$115,000 in G.O. Bonds from Computer Science Alterations to this project [BOT Resol.#17-11-121, 11/13/17], making the total shift from Computer Science Alterations \$191,000 in County G.O. Bonds.)

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Facility Planning: College (No. P886686), Bioscience Education Center (No. P056603), Energy Conservation: College (No. P816611), and PLAR: College (No. P926659)

PROJECT DESCRIPTION

This project funds the demolition of the north side of the Student Affairs and Science Building, and will rebuild it from 2 stories to three stories, which will be a net gain of 18,000 gross square feet to the building. The existing first floor programmatic functions are devoted mostly to Student Services, which will move to the new Germantown Student Services Center. The building is currently undergoing a two phase renovation and addition to convert and reconfigure the building to house the Department of Physics, Engineering and Math along with the Math, Physics and Engineering Learning (MAPEL) Center. Overall growth at the Germantown Campus in combination with the transition to lab instruction for mathematics and engineering expansion has created the demand for additional academic space. Based on student interest, enrollment trends, existing and projected County and State workforce needs, and the teaching and learning strategies, including the final report of The Governor's Science Technology Engineering Mathematics Task Force, Investing in STEM to Secure Maryland's Future, the Germantown Campus will be well positioned to meet the needs of its students and the region.

LOCATION

Germantown Campus

PROJECT JUSTIFICATION

Under the application of the State space guidelines, the enrollment growth on the Germantown Campus has resulted in a significant instructional space deficit. The Germantown Campus has a 2032 projected instructional space deficit of 29,417 net assignable square feet (NASF) and a total space deficit anticipated to be 16,937 NASF. In addition, this project will position the College to address workforce shortages in the Science, Technology, Engineering, and Mathematics fields. This project will impact local and Maryland workforce shortages through educating students to fill technical jobs. Relevant studies include the Montgomery College Strategic Plan (7/23), Collegewide Facilities Master Plan (Pending 2023), and the Renovation/Addition to Sciences & Applied Studies Building at Montgomery College Germantown Campus, Part 1, Part 2 (3/11).

DISCLOSURES

Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

PROJECT DESCRIPTION

This project provides funds for the design and construction of a new student services center (approximately 153,000 gross square feet) to support both study and student services as outlined in the Germantown Campus Facilities Master Plan, 2013-2023 (2/16). This project provides a comprehensive one-stop shop and brings together the bookstore and Mailroom from the Humanities and Social Sciences Building; Admissions, Student Life and Security from the Science and Applied Studies Building, creating much more space for study and student development. This building will also house the Provost's Office, media and academic computing support functions, a library, and bookstore.

LOCATION

Germantown Campus

COST CHANGE

State allowable cost escalation of 5 percent included.

PROJECT JUSTIFICATION

Supported in this facility are the media resources and academic computing functions, including the computer training lab. The advantage for students is the concentration of support resources in a single location. For the campus, space is made available in other buildings that will allow more growth in office and instructional space before another academic building is needed on campus. Under the application of State space guidelines, the enrollment growth on the Germantown campus has resulted in a significant space deficit. The Germantown campus has a Fall 2022 space surplus of 28,856 net assignable square feet (NASF), and a 2032 projected space deficit of 16,934 NASF. Relevant studies include the Montgomery College Strategic Plan (7/23), and Collegewide Facilities Master Plan Update (Pending 2023).

OTHER

FY25 Appropriation: \$0; FY26 Appropriation: \$115,374,000 (\$57,687,000 (GO Bonds), and \$57,687,000 (State Aid)). The construction costs in the expenditure schedule (\$115,374,000) include: site improvement costs (\$10,232,000), building construction costs (\$105,142,000). The building construction cost per gross square foot equals \$687 (\$105,142,000/153,000).

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project provides for the design, development, installation/construction, and support of College Information Technology (IT) systems including enterprise-wide data, voice, and video applications; cybersecurity; cloud-based software services; and other related

software applications used for administrative and academic support; and the replacement/upgrade of IT equipment to meet student and employee requirements. The project includes planning, installation, and furnishing of audio/visual and computing technology in classrooms, labs, and offices throughout three campuses and multiple workforce development centers. These systems support and enhance the College's mission, its instructional programs, and student services including counseling, admissions, registration, etc. They also meet administrative computing requirements for finance, human resources, institutional advancement, workforce development and continuing education, and are implemented in accordance with the collegewide college strategic plan . The Office of Information Technology (OIT) with input from the college community determines and recommends the hardware, software, and services to be purchased. Four technical staff positions are funded by this project.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 & FY30. Annual project cost increase due to escalation.

PROJECT JUSTIFICATION

To meet current and projected needs, and to remain current with changing technical standards and expectations for data, video, and voice communications, the College plans and installs IT, telecommunications, audio/visual, and instructional systems at each campus, the central administration building, and all remote instructional sites. The new systems allow replacement of legacy systems for data and video applications; provide for updated networking capabilities; provide necessary security and monitoring capabilities; establish learning centers in classrooms, labs, and for distributed instruction; and allow expanded opportunities for linking with external information technology services. State-of-the-market hardware and software capabilities and cloud services are required to attract and serve students, faculty and staff, as well as to serve the business community by upgrading work force technology skills and providing a base for continued economic development in the county. Information technology directly enables the College's mission and is used to facilitate student success; to effectively and efficiently operate the College; and to support the College's growth, development, and community initiatives.

OTHER

FY25 Appropriation: \$9,250,000 (\$500,000 Current Revenue: General; \$8,750,000 Contributions (Fund Balance)). FY26 Appropriation: \$9,250,000 (\$8,500,000 Current Revenue: General; \$750,000 Contributions (Fund Balance)). The following fund transfers have been made from this project: \$1,300,000 to the Takoma Park Campus Expansion project (CIP No. P996662) (BOT Resol. #07-01-005, 1/16/2007); \$300,000 to the Student Learning Support Systems project (CIP No. P076617); and \$2,500,000 to the Network Operating Center project (#P076618)(BOT Resol. #12-06-037, 6/11/12). The following fund transfers have been made to this project: \$111,000 from the Planning, Design and Construction project (CIP No. P906605), and \$25,000 from the Facilities Planning: College project (CIP No. P886886) to this project (BOT Resol. #91-56, 5/20/1991); the project appropriation was reduced by \$559,000 in FY92. The FY18 Savings Plan reduced FY18 funding and expenditures by \$1,900,000 in Current Revenue: General. FY19 reduction of \$723,000 is due to County affordability constraints.

FISCAL NOTE

Source of FY25 Contributions is College Fund Balance.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

MC Strategic Plan (7/23), Academic Master Plan 2016-2021, Collegewide Facilities Master Plan (Pending 2023), Information Technology Master Plan, Student Affairs Master Plan 2018-2022, and campus building renovation projects. Expenditures are made in alignment with the priorities and guidelines establish by these documents.

PROJECT DESCRIPTION

This project provides funding for new and replacement instructional furniture and equipment to support academic programs, improve classroom and lab functionality, and upgrade equipment to meet instructional requirements. New and replacement furniture and equipment will be provided in classroom, laboratory, and/or instructional support settings. General instructional furniture includes such items as tables, chairs, stools, laboratory cabinetry, white boards, and other display boards, that typically occur in classrooms, labs, and instructional support spaces. Instructional equipment, for example, may include microscopes, autoclaves, weight equipment, pottery kilns, and other types of equipment used for teaching, experimentation, and/or research.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 and FY30.

PROJECT JUSTIFICATION

Instructional furniture and equipment necessary for classes and labs typically has a replacement cycle of 10 years or more depending upon level of usage. Existing furniture and equipment across the College is often outdated or inadequate, necessitating a major replacement effort. In addition, new instructional endeavors may also require the purchase of furniture and equipment to support the academic program. New and replacement instructional furniture and equipment is necessary to support the academic success of students and provide faculty with the tools for student learning. Relevant studies include the Montgomery College Strategic Plan (7/23), and Montgomery College Academic Master Plan 2016-2021.

OTHER

FY25 Appropriation: \$270,000 (Current Revenue: General). FY26 Appropriation: \$270,000 (Current Revenue: General).

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project supports the ongoing installation and maintenance of the information technology (IT) network infrastructure throughout all Montgomery College facilities, as well as on-premise server operations for applications not suitable for cloud computing. The network-related infrastructure includes cable distribution systems (conduit, fiber optics, wiring); equipment such as routers, switches, wireless access points, firewalls, intrusion detection and prevention devices; network management systems, specialized technology tools, monitoring systems, and diagnostic equipment; and remote access technologies. Also included are telephone systems, emergency

notification systems, building management systems, and video security systems.

The scope of the project includes the associated electrical, environmental, and backup systems needed to ensure the reliable operation of all equipment. On-premise server operations are supported through the maintenance of a primary data center on the Takoma Park/Silver Spring (TP/SS) campus, and a backup data center on the Rockville campus. Associated with the TP/SS data center is the College's Network Operating Center (NOC), where staff maintain server and network equipment and provide 24/7 monitoring of all College IT systems and services to ensure proper functioning and performance. This includes instructional and administrative applications and all network and Internet-related services used in support of both credit and non-credit programs. This project funds six positions.

Note: The Network Operating Center/Datacenter project's (P076618) FY19 and beyond funding requests and work years have been added to this project. In addition, the project name has changed from Network Infrastructure Support Systems to Network Infrastructure and Server Operations.

COST CHANGE

Increase due to addition of FY29 and FY30. Annual project cost increase due to escalation.

PROJECT JUSTIFICATION

The College networks used for all forms of data, voice, video, and machine communication must be maintained and upgraded continuously to ensure no College location is without the necessary technology capabilities and support. This requires planned replacement and upgrades as technology evolves. As faculty continue to develop more learning programs and methods to meet the increased expectations of students, the technology needs also evolve and change. Without meeting the expectations and requirements developed in the various College strategic and master planning documents, the College will fall behind in its ability to provide needed technology at the appropriate time. State-of-the-market hardware and software capabilities and cloud services are required to attract and serve students, faculty and staff, as well as to serve the business community by upgrading work force technology skills and providing a base for continued economic development in the county. Information technology directly enables the College's mission and is used to facilitate student success; to effectively and efficiently operate the College; and to support the College's growth, development, and community initiatives.

OTHER

FY25 Appropriation: \$4,100,000 (\$3,800,000 Current Revenue: General; \$300,000 Contributions (Fund Balance)). FY26 Appropriation: \$4,100,000 (\$3,800,000 Current Revenue: General; \$300,000 Contributions (Fund Balance)). The following fund transfers/reductions have occurred with this project: By County Council Resolution No. 16-1261, the cumulative appropriation was reduced by \$533,000 (Current Revenue: General) as part of the FY10 savings plan; \$800,000 to the Network Operating Center project (#P076618)(BOT Resol. #12-06-037,6/11/12). FY19 reduction of \$400,000 due to County affordability constraints.

FISCAL NOTE

Source of FY25 and FY26 Contributions is College Fund Balance.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

MC Strategic Plan (7/23), Academic Master Plan 2016-2021, Collegewide Facilities Master Plan (Pending 2023), Information Technology Master Plan, Student Affairs Master Plan 2018-2021, and campus building renovation projects. Expenditures are made in alignment with the priorities and guidelines establish by these documents.

PROJECT DESCRIPTION

This project provides funding for a comprehensive lifecycle renewal and replacement program to protect the investment in College facilities and equipment and to meet current safety and environmental requirements. Funding also provides for project management contract services. This collegewide project is targeted at deteriorating facilities and deferred maintenance of major building systems. This project includes: (1) HVAC system renovation/replacement; (2) major mechanical/plumbing equipment renovation/replacement; (3) interior and exterior lighting system renovation/replacements; (4) electrical service/switchgear renovation/replacement; (5) building structural and exterior envelope refurbishment; (6) asbestos removals not tied to building renovations; (7) major carpet replacement; (8) underground petroleum tank upgrades; and (9) site utility, and site infrastructure replacement/ improvements. Note: The Life Safety Systems project, (CIP No. P046601), has been merged into this project. This project also provides design and construction funding for the correction of life safety and fire code deficiencies identified in the Collegewide Facilities Condition Audit. The scope of this project includes the installation and/or replacement of fire alarm systems, fire sprinkler systems, smoke control systems, emergency power systems, emergency lighting systems, public address systems, and similar equipment and operations.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 and FY30, net of a \$1,650,000 transfer to the Planning, Design, and Construction project.

PROJECT JUSTIFICATION

In November 2007 (December 2013 update), the College updated a comprehensive building system/equipment assessment, including site utilities and improvements, that identified deficiencies, prioritized replacements and upgrades, and provided the framework for implementing a systematic capital renewal program to complement on-going preventive maintenance efforts. The College continues to have a significant backlog of major building systems and equipment renovations and/or replacements due to the age of the Campuses and deferral of major equipment replacement. Key components of the HVAC, mechanical and electrical systems are outdated, energy inefficient, and costly to continue to repair. The renovation and/or replacement of major building systems, building components and equipment, and site improvements will significantly extend the useful life of the College's buildings and correct safety and environmental problems. The Collegewide Facilities Condition Assessment Update (1/23) identified a \$104 million deferred maintenance backlog over 5 years, for the three campuses, and a total backlog of \$345 million. If additional financial resources are not directed at this problem, facilities will continue to deteriorate leading to higher cost renovations or building replacements. The Collegewide Facilities Condition Audit identified various life safety concerns on all three campuses. This project allows the College to address the concerns, replacing and/or installing appropriate life safety or fire code measures, and ensuring compliance with applicable life safety, fire, and building codes. Other relevant plans and studies include the Montgomery College Strategic Plan (7/23), Collegewide Facilities Master Plan (Pending 2023), and the County Council Report of the Infrastructure Maintenance Task Force (3/16).

OTHER

FY25 Appropriation: \$4,000,000 (G.O. Bonds). FY26 Appropriation: \$4,000,000 (G.O. Bonds). The following fund transfers have been made from this project: \$47,685 to Takoma Park Child Care Center (CIP No. P946657) (BOT Resol. #93-106, #94-26 & #941-28); \$185,000 to Rockville Surge Building (CIP No. P966665) (BOT Resol. #11-2291 - 1/21/97); \$7,000 to Planning, Design & Construction (CIP No. P906605) (BOT Resol. #01-153); \$91,175 to the Art Building Renovation Project (CIP No. P906608) (BOT Resol. #06-09-106 - 9/18/06); \$250,000 to the Takoma Park Expansion Project (CIP No. P996662) (BOT Resol. #07-01-005 - 1/16/07); and \$1,400,000 to the Roof Replacement Project (#P876664)(BOT Resol. #19-041,05/13/19). The following fund transfers have been made into this project: \$15,000 from Central Plant Distribution System (CIP No. P886676) (BOT Resol. #98-82 - 6/15/98), \$25,000 from Clean Air Act (CIP No. P956643) (BOT Resol. #98-82 - 6/15/98), \$24,000 from the Rockville Campus Science Center Project (CIP No. P036600) (BOT Resol. #15-03-025 - 03/23/15); and \$1,861,000 in G.O. Bonds from Science West Building Renovation (#P076622). Beginning in FY98, the portion of this project funded by County Current Revenues migrated to the College's Operating Budget. Reflecting the migration of this portion of the project, the College's Operating Budget includes funds for this effort. The following fund transfer has been made from this project: \$67,000 to the Commons Building Renovation Project (CIP No. P056601) (BOT Resolution #10-08-057, 07/31/10); \$1,650,000 to the Planning Design, and Construction Project (#P096605)(BOT Resol. 24-09-008, 9/18/23). In FY19, \$1,861,000 in G.O. Bonds were transferred from the Science West Building Renovation project (#P076622). In FY20, \$31,000 was transferred from the Macklin Towers Alteration project (P036603) to the Planned Lifecycle Asset Replacement project (BOT Resol.# 20-06-065, 6/22/20).

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

This project is coordinated with Utility Master Plans and building renovations on the Rockville, Germantown, and Takoma Park/Silver Spring Campuses; and the following projects:, Capital Renewal: College (CIP No. P096600), Elevator Modernization: College (CIP No. P046600), Energy Conservation: College (CIP No. P816611), Facility Planning: College (CIP No. P886686), Roof Replacement: College (CIP No. P876664).

Unencumbered Balance	2,370		

PROJECT DESCRIPTION

This project provides for sixteen full time positions in the Division of Facilities and Security Office. These positions plan, design, manage and implement the College's capital program which extends beyond the current six years. These sixteen positions are broken down into 3 categories: Project Management Staff; Design Staff; and Construction Staff. The positions categorized as Project Management Staff are Project Managers (7), and Project Support Staff (1). The Project Managers are responsible for budget development, program planning, and project management through to completion. The Project Support Staff supports the goals of the Project Managers. The positions categorized as Design Staff are Architect (2), Engineer (1), GIS Coordinator (1), and Architectural

Drafter/Designer (1). The final category is Construction Staff, which consists of a Construction Services Supervisor (1) , and Construction Trades Workers (2), who are responsible for completing small, in-house construction projects.

COST CHANGE

Increase due to addition of FY29, and FY30, net of a \$1 million transfer to the Takoma Park/Silver Spring Math and Science Center project.

PROJECT JUSTIFICATION

The above staff supports the increased work load associated with the College's CIP and complements the existing staff expertise. The College's CIP has increased substantially since the mid-1980s and the then existing staff could no longer support the additional projects.

OTHER

FY25 Appropriation: \$1,900,000; \$1,172,000 (G.O. Bonds) and \$728,000 (Current Revenue: General). FY26 Appropriation: \$1,900,000; \$1,172,000 (G.O. Bonds) and \$728,000 (Current Revenue: General). The following fund transfers have been made from this project: \$111,000 to Information Technology (#P856509) (BOT Resol. #91-56; \$400,000 to the Takoma Park Expansion project (#996662) (BOT Resol. #07-01-005, 1/16/07); \$650,000 to the Collegewide Library Renovation project (#661901) (BOT Resol. #21-06-069, 6/21/21). The following fund transfer has been made into this project: \$28,000 (\$7,000 each) from ADA Compliance (#P936660), Energy Conservation (#P816611), Facility Planning (#P886686), PLAR (#P926659) (BOT Resol. #01-153), and \$150,000 from the Takoma Park Campus Expansion (#P996662) (BOT Resol. #11-06-078, 06-20-11), \$700,000 from the Bioscience Education Center project (#P056603) (BOT Resol. #16-04-051, 4/18/16), \$650,000 to the Collegewide Library Renovation project(#P661901) (BOT Resol. #21-06-069, 6/21/21), \$600,000 to the Facilities Planning (#P886686) (BOT Resol. #22-06-103, 6/22/22), \$650,000 to the CW Library Renovation project (#P661901) and \$1,000,000 to the TPSS Math and Science Center project(#P076607) (BOT Resol. #23-06-093, and #23-06-094, 06/21/23), and \$1,650,000 from the Planned Lifecycle and Replacement Project (#P926659) (BOT Resol. #24-09-008, 09/18/23).

In addition, \$280,000 in G.O. Bonds was reallocated from the Science West Building Renovation project (#P076622) by Council action in FY19. During FY87-89, certain personnel costs were charged to individual capital projects. As some staff work is required on every capital project, separately identifying staff funding is an efficient and cost effective method of management for the College and provides a clear presentation of staff costs.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project provides funds for the construction of a new student services center (129,367 gross square feet) to support student administrative services as outlined in the Rockville Campus Facilities Master Plan, 2013-2023 (2/16). This project brings together student and administrative services to support the concept of one stop shopping services for students. Specifically, it will include the following campus related functions and activities: Admissions and Registration, Financial Aid, Cashier, Dean of Student Development, Career Transfer Center, Assessment, Counseling, Disabled Student Services (DSS), and Trio program plus support services such as a training facility, storage, resource library and waiting areas. In addition, this building will house the Office of Safety and Security and a new parking department. This project also includes funding for a central plant located in the Student Services Center and funding for a road extension/site improvements related to the building.

LOCATION

ESTIMATED SCHEDULE

Project construction was completed fall 2021. Minor components still in progress.

COST CHANGE

Project pending closeout.

PROJECT JUSTIFICATION

Currently, these intake functions are fragmented and are insufficiently accommodated: Student Development is located in the Counseling & Advising Building; the assessment program is located in Campus Center; Admissions, Registration and Financial Aid are located in the Student Services Building. Bringing these functions under one roof will be of great benefit to students by increasing the efficiency of the intake operations. Relevant studies include the Montgomery College 2025 Strategic Plan, Collegewide Facilities Condition Assessment (12/13), the Collegewide Facilities Master Plan Update (6/18), and the Rockville Student Services Center Part 1/Part 2 (5/11).

OTHER

Funding Sources: G.O. Bonds, and State Aid. Relocation costs and design fees above approximately 7% of estimated construction costs may not be eligible for State reimbursement. The building construction cost per gross square foot equals \$341 (\$44,159,000/129,367).

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Facility Planning: College (CIP #P886686).

Cumulative Appropriation	-		
Expenditure / Encumbrances	-		
Unencumbered Balance	-		

PROJECT DESCRIPTION

The project is for the comprehensive renovation and expansion of the Theatre Arts Building at the Rockville Campus to address current facility problems and programmatic needs. The entire building (21,967 NASF/35,032 GSF) will be renovated, and a building addition of 8,800 NASF /22,480 GSF is planned. It will include the complete interior renovation and reconfiguration of each floor, including modernization and upgrades to building systems and equipment serving these floors. The purpose of the TA Building Renovation/Addition is two-fold. It has been developed to support and advance the mission and strategic initiatives of the College and be in alignment with the recommendations of the most recent campus facilities master plan, updated in February of 2022. In addition, this project is intended to address the specific facilities needs to support the Theatre Arts curriculum and program.

LOCATION

ESTIMATED SCHEDULE

The design will be completed over a two-year period beginning in FY26.

COST CHANGE

State allowable cost escalation of 5 percent included.

PROJECT JUSTIFICATION

The Theatre Arts Building is a 35,032 GSF two-story structure, including a small basement space, constructed in 1966 and renovated in 1995, it houses a theatrical performance auditorium, as well as supporting offices, classrooms, laboratories and other performance-support spaces. The entry sequence into the building is confusing, while the internal circulation is inefficient and disruptive. The building envelope does not meet current performance standards, while finishes and systems inside the building have generally outlived their useful lives. The Rockville Campus has a space surplus of 91,228 NASF, & a 2032 projected space deficit of 250,649 NASF. Relevant studies include the Montgomery College Strategic Plan (7/28), and Collegewide Facilities Master Plan (Pending 2023).

OTHER

This project, 662502, replaces project 662401, which was submitted by the College. Funding will be split 50/50 between the County and the State of Maryland.

FISCAL NOTE

Source of FY26 Contributions is College Fund Balance.

DISCLOSURES

Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project provides for the replacement/major repair of roofs and entrance canopies on buildings at all three campuses, including the addition of roof insulation as part of the replacement work. Project costs are based on comprehensive roof surveys of all College buildings completed in 2008. An update to this survey was completed in FY18.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 and FY30 as well as cost increases for planned work in FY26 - FY30.

PROJECT JUSTIFICATION

The College has implemented a roof replacement/renovation program to respond to the aging of building roofs. The program provides for the periodic evaluation of roofs on a four year cycle. The current roof replacement/major repair schedule delineates specific building projects.. Roofs requiring major renovation are generally ten years or older in age. In the initial replacement cycle, approximately 33% of the construction cost is for the addition of roof insulation on each building. Added insulation results in an average five year payback due to reduced energy costs and lower replacement costs of mechanical equipment retrofits in building renovations. This project is coordinated with the College's building renovation program and with the replacement of major roof-top building equipment. Related studies include the Montgomery College Strategic Plan (7/23), Collegewide Roof Surveys Update (2018), a Collegewide Facilities Condition Assessment (1/23) and the Collegewide Master Plan (Pending 2023).

OTHER

FY25 Appropriation: \$1,840,000 (G.O. Bonds). FY26 Appropriation: \$1,563,000 (G.O. Bonds). By County Council Resolution #12-663, the cumulative project appropriation was reduced by \$65,000 in FY92. In addition, the State share was reduced by \$65,000 in FY92. FY87-FY91, and FY93 project funding was 100% current revenue. FY92 funding was current revenue and State aid. No appropriations were made to this project in FY94 and FY95. In FY96, funding was changed to G.O Bonds and State aid. State aid applies only to roof replacement design and construction. Roof surveys are 100% County G.O. Bond funded. In FY19, \$813,000 in G.O. Bonds was reallocated from the Bioscience Education Center project (#P056603) and \$937,000 in G.O. Bonds were reallocated from the Science West Building Renovation project (#P076622). In FY19, \$813,000 in G.O. Bonds reallocated from the Germantown Bioscience Education Center project (#P056603) and \$937,000 reallocated from Science West Building Renovation (#P076622). The following fund transfer has been made into this project: \$1,400,000 from the Planned Asset Replacement project (#P926659)(BOT Res. #19-05-041,5/13/19); The following fund transfers have been made to this project: \$1,400,000 from Site Improvements (#076601) (BOT Resol. #22-09-004, 9/20/21).

DISCLOSURES

Expenditures will continue indefinitely. Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Energy Conservation (CIP No. P816611), Planned Lifecycle Asset Replacement: College (CIP No. P926659), FY24 - Germantown High Technology Building, FY25- R-Macklin Tower Building (Terrace only). PROJECT DESCRIPTION

This project funds the repair, maintenance and improvements of the College's site infrastructure. This may include, but is not limited to: roadways, parking lots, walkways, site lighting, external site signage and site communications infrastructure. The Stormwater Management project, #076602, was added to the scope of this project in FY2009. This project also provides for the rehabilitation and structural maintenance of storm water management facilities on the College's campuses. This includes, but is not limited to: dam or spillway repairs, pond dredging, storm drain system repairs/replacement, and storm water management studies to determine best practice solutions. This project also funds the repair, maintenance and improvement of the College's outdoor athletic facilities. This may include, but is not limited to: athletic field lighting, reconfiguration and upgrade; the repair/replacement of bleachers; turf renovation including regrading, sodding and irrigation/drainage management; repair/replacement of running tracks and tennis courts; and the repair/replacement of backstops, player protection fencing and benches. ** Note: In FY11, the Outdoor Athletics Facilities: College project (CIP No. 076600) was merged into this project.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 and FY30.

PROJECT JUSTIFICATION

In December 2004, the County Council initiated an Infrastructure Maintenance Task Force which gathered information on the maintenance needs of County agencies. The first objective was to identify the direst needs of agencies for additional funding; while the long-term goal was to initiate an ongoing, regular process to update and improve the inventory and analysis of infrastructure maintenance needs. As the College had already completed a facilities assessment, adequate information was available for buildings and a process was already underway to address these needs. However, less attention had been given to site issues. An outcome of this task force was to create projects to address these site needs. Related studies include the Montgomery College Strategic Plan (7/23), Collegewide Facilities Condition Assessment (1/23), the Collegewide Master Plan (Pending 2023), and the County Council Report of the Infrastructure Maintenance Task Force (3/16).

OTHER

FY25 Appropriation: \$610,000 (G.O. Bonds). FY26 Appropriation: \$800,000 (G.O. Bonds). The following fund transfer has been made to this project: \$1,400,000 from the Science East Building renovation (P076623)(BOT Resol. #: 15-09-77, 9/21/15). The following fund transfer has been made from this project: \$1,400,000 to Roof Replacements (#876664)(BOT Resol. #22-09-004, 9/21/21).

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

This project is coordinated with Utility Master Plans and building renovations on the Rockville, Germantown, and Takoma Park Silver Spring Campuses., Capital Renewal: College (CIP No. P096600), Elevator Modernization: College (CIP No. P056608)

PROJECT DESCRIPTION

This project includes the installation, upgrading, and replacement of technology systems used to support teaching, learning and advising, to assess student outcomes, and to improve the effectiveness of College services to students. This includes technology to support students with disabilities, technology-based communication and collaboration systems, systems to provide students with access to electronic course materials, library resources, and other applications used by and for students and faculty, including both hardware, software and cloud services. The project funds four technical project and planning analyst positions to manage and support multiple academic support systems.

LOCATION

Collegewide

COST CHANGE

Increase due to addition of FY29 and FY30. Total project increase due to escalation.

PROJECT JUSTIFICATION

It is essential that appropriate systems are in place to enhance learning as well as collaboration and communication. Increased attention to student retention and success has created a growing need to assess the effectiveness of the services and support provided to students and the impact on student success. Leveraging technology is fundamental to enabling student success. State-of-the-market hardware and software capabilities and cloud services are required to attract and serve students, faculty and staff, as well as to serve the business community by upgrading work force technology skills and providing a base for continued economic development in the county. Information technology directly enables the College's mission and is used to facilitate student success; to effectively and efficiently operate the College; and to support the College's growth, development, and community initiatives.

OTHER

FY25 Appropriation: \$1,700,000 (\$1,400,000 Current Revenue: General; \$300,000 Contributions (Fund Balance)). FY26 Appropriation: (\$1,400,000 Current Revenue: General; \$300,000 Contributions (Fund Balance)). The following fund reductions/transfers have occurred with this project: By County Council Resolution No. 16-1261, the cumulative appropriation was reduced by \$1,000,000 (Current Revenue: General) as part of the FY10 savings plan; and \$300,000 was transferred from the Information Technology project (#P856509) to this project in FY11. FY19 reduction of \$400,000 due to County affordability constraints.

FISCAL NOTE

Source of FY25 Contributions is College Fund Balance.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

MC Strategic Plan (7/23), Academic Master Plan 2016-2021, Collegewide Facilities Master Plan(Pending 2023), Information Technology Master Plan, Student Affairs Master Plan 2018-2021, and campus building renovation projects. Expenditures are made in alignment with the priorities and guidelines establish by these documents.

PROJECT DESCRIPTION

This project provides funding for the design and construction of a new academic building (108,000 gross square feet) supporting science programs, such as biology, chemistry, computer science and cybersecurity, engineering, geology, physics, and the mathematics department, as described in the Collegewide Facilities Master Plan, 2013-2023 (2/16). The new math and science building will replace the Science South and Falcon Hall buildings, which will be demolished, and the new building will be constructed on this site. During FY18, the building was renamed to the Catherine and Isiah Leggett Math and Science Building.

ESTIMATED SCHEDULE

Construction started in November 2019 and is expected to conclude in Spring 2024.

COST CHANGE

A fund transfer was made to this project, as noted under the "Other" section.

PROJECT JUSTIFICATION

Under the application of the State space guidelines, the enrollment growth on the Takoma Park/Silver Spring Campus has resulted in a significant instructional space deficit. The Takoma Park/Silver Spring Campus has a Fall 2018 laboratory space deficit of 67,128 NASF and a total space deficit of 731 NASF. The 2028 projected laboratory space deficit is 60,069 NASF and the total space deficit is anticipated to be 74,034 NASF. The construction of the math & science building will address this deficit as well as replace Science South and Falcon Hall, which are in exceedingly poor condition (as identified in the Collegewide Facilities Condition Assessment, 12/13). Relevant studies include the Montgomery College Strategic Plan, Collegewide Facilities Condition Assessment (1/23), and the Collegewide Facilities Master Plan (Pending 2023).

OTHER

Funding sources: GO Bonds, and State Aid. Relocation costs and design fees above approximately 7% of estimated construction costs may not be eligible for State reimbursement.

In FY22 as part of the County Council FY23 Capital Budget approval, funds of \$2,900,000 were transferred from the Rockville Student Services Center project (P076604). The additional funds are needed to support increased escalation costs. A fund transfer was made to this project \$1,000,000 from Planning, Design, and Construction(#P906605), and \$2,100,000 from Capital Renewal(#P096600) (BOT Resol. #23-06-093, and #23-06-094, 06/21/23).

DISCLOSURES

A pedestrian impact analysis has been completed for this project. Montgomery College asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project funds parkland acquisitions that serve county residents on a neighborhood or community basis. The acquisitions funded under this project include local, neighborhood, neighborhood conservation area, and community-use urban parks. This project also includes funds for land surveys, appraisals, settlement expenses, site restoration, and other related acquisition costs. Acquisitions can include new parkland or additions to existing parks, and are pursued when they become available, if sufficient funds exist. To the extent possible, the Commission acquires parkland through dedication at the time of subdivision; however, to meet all parkland needs, this method must be supplemented by a direct land purchase program.

ESTIMATED SCHEDULE

Pending Closeout.

PROJECT JUSTIFICATION

2017 Park, Recreation, and Open Space (PROS) Plan, approved by the Montgomery County Planning Board, other adopted area master plans, and functional master plans guide the local parkland acquisition program. This PDF provides latitude to acquire properties consistent with master plans and Commission policies.

OTHER

Project includes one-time costs to secure properties, e.g. removing attractive nuisances, posting properties, cleaning up sites, etc.

FISCAL NOTE

FY21, shifted \$1.5m/yr in Program Open Space to Legacy Urban Space (P872104). \$400k of FY21 State Aid for Willett Branch Bond Bill transferred to Legacy Urban Space (P872104) in FY22. FY19 Special Appr. of \$117k Program Open Space reflecting actual revenues from the State. Prior year partial capitalization of expenditures through FY16 totaled \$25,963,000. FY13 Supplemental Appr. of \$600k in Program Open Space. FY12 Supplemental Appr. of \$1.059m Land Sale Proceeds.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

Expenditure / Encumbrances	-		
Unencumbered Balance	17,798		

PROJECT DESCRIPTION

The Advance Land Acquisition Revolving Fund (ALARF) was established in the Commission's FY72-FY77 Capital Improvements Program pursuant to Land Use Article Section 18-401 of the Annotated Code of the State of Maryland to enable the Commission to acquire rights-of-way and other property needed for future public projects. ALARF is considered part of the Commission's operating budget, and this CIP project is used to provide a snapshot of current Revolving Fund balances in land and available funds. The corpus of the revolving fund includes the original \$7 million bond issue in FY71, a \$5 million bond issue in FY90, a \$2.2 million bond issue in FY95, a \$2 million bond issue in FY05, plus reimbursements in excess of costs, accumulated interest, and any surplus of Advance Land Acquisition (ALA) tax revenue over debt service.

Before acquisition of a specific parcel, the Montgomery County Planning Board will submit an authorization request to the Montgomery County Council for approval by formal resolution. M-NCPPC must seek County Council approval to change the use of ALARF-acquired property. It is the intent of the County Council that land acquisition costs for ALARF-acquired properties will ultimately be appropriated in a specific project PDF or acquisition PDF so that ALARF can be reimbursed and continue to revolve. In the event that the County Council does not require that ALARF be reimbursed, the cost of the land acquisition related to the non-park development project shall be disclosed in the PDF text. If ALARF-acquired properties are not needed for the public use for which they

were purchased and/or are used for park and recreation purposes as part of the Commission's Parks system, the Commission is not obligated to replenish ALARF.

COST CHANGE

Cost change is tied to the annual contribution from the Debt Service Fund, as approved in the operating budget.

PROJECT JUSTIFICATION

Some of the acquisitions in this project may help meet 2022 Park, Recreation and Open Space (PROS) Plan objectives. This project enables the Commission to acquire private property in lieu of allowing development that would adversely affect a planned public use of the property. All properties acquired with ALARF must first be shown on adopted area master plans as needed for future public use. Properties included for acquisition in a current capital budget of any public agency are not eligible for acquisition under this project.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$19,337,000. As of the end of FY23, the value of ALARF-acquired land being held for transfer is \$10,176,991. At the end of FY23, the available balance in the ALARF Revolving Fund is \$3,739,943. The amount approved for expenditure from the Revolving Fund by the M-NCPPC Adopted Budget for Fiscal Year 2024 is \$5,840,404.

PROJECT DESCRIPTION

The Bethesda Downtown Plan creates a new approach to providing funds for parks that are critical to livable and healthy communities for the residents of Bethesda and the county. With an increasing population of residents and workers in the Bethesda Downtown Plan area, parks and open spaces have become "outdoor living rooms" and de facto backyards that play an increasingly important role in promoting healthy living, social interaction, and equity. The Bethesda Overlay Zone requires a Park Impact Payment for portions of certain development approvals within the Downtown Plan boundary. Park Impact Payments submitted to the M-NCPPC as a condition of Planning Board development approvals will be placed into this project for appropriation and expenditure. Bethesda PIP funds may be used for acquisition of parkland, site cleanup and interim improvements, renovation/modification of existing parks, and development of new facilities and new parks within the Bethesda Downtown Plan boundary. PIP funds that will be used for full planning, design, and construction of Bethesda parks will be allocated to the appropriate development PDF within the CIP. PIP funds will be allocated based on the park priorities in the Bethesda Downtown Sector Plan, availability of land for acquisition, site improvement needs, and the Parks Departments' design and construction schedule.

COST CHANGE

The budget increase of \$6.5 million in FY25 and FY26 reflects anticipated future contributions from developers.

PROJECT JUSTIFICATION

The Bethesda Overlay Zone (ZTA 16-20; adopted 7/18/2017, effective date 8/7/2017) was created to implement the innovative zoning and community development recommendations in the Bethesda Downtown Plan (2017). This project will serve to hold, appropriate and expend Park Impact Payments made to the M-NCPPC per the requirements of the zoning ordinance.

OTHER

Appropriations for payments received above the approved capital budget will be requested through supplemental appropriations or future CIP approvals.

FISCAL NOTE

Through the end of FY23, the Montgomery County Planning Board has approved Site Plans with a total PIP of \$21,701,254, and \$14,563,927 in PIPs have been received/collected by the Commission. An additional \$2,500,000 in PIP funds are appropriated in the Bethesda Lots 10-24 Parks PDF 872372, for a total PIP appropriation through FY24 of \$18,000,000. Project expenditures will not be incurred or encumbered prior to the receipt of funds.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

The Legacy Open Space initiative identifies open space lands that should be acquired and interpreted because of exceptional natural or cultural value to current and future generations of Montgomery County residents. The project funds acquisition (in-fee and easement) of open-space lands of countywide significance. Priorities are updated during each CIP cycle but remain flexible to allow the Montgomery County Planning Board to address development threats, opportunity acquisitions, and joint funding opportunities. The County Council encourages the Commission to seek supplemental appropriations if approved CIP funding is insufficient. Non-County funding sources are expected to contribute significantly to the Legacy Open Space program. Contributions will appear in the PDF Expenditure and Funding Schedules only if the contribution is spent by the County or M-NCPPC. Donations of land or

non-County funded payments that go directly to property owners are not included. The combination of these non-County and County funds have resulted in the successful protection of over 5,400 acres of open space in the County, including over 3,850 acres of new parkland.

COST CHANGE

Addition of FY29-30, and Beyond Six Year costs adjusted to maintain the historical project balance of \$100 million.

PROJECT JUSTIFICATION

The Vision 2030 Strategic Plan for Parks and Recreation in Montgomery County (2010) and the 2017 Park, Recreation and Open Space (PROS) Plan recommend placing priority on conservation of natural open spaces, protection of heritage resources, providing critical urban open spaces, and expanded interpretive activities in parks. Legacy Open Space: Open Space Conservation in the 21st Century, approved by the Montgomery County Planning Board in October 1999. Legacy Open Space Functional Master Plan adopted by the County Council in July 2001.

FISCAL NOTE

Reduction in FY22 Current Revenue: General from non-recommended reductions, and G.O. Bonds were reduced in FY23-25 and slipped to FY26 for fiscal capacity. FY18 reduction of \$100k in Current Revenue to reflect the FY18 Savings Plan. Modifications reflect Resolution 19-322 that was approved December 10, 2019, after the Department's CIP submission in November 2019. The resolution provided a transfer of funds to the Acquisition: Non-Local Parks CIP project related to the acquisition of park land in Wheaton. \$695K of M-NCPPC Bonds in FY25 to FY24 shifted to Legacy Urban Space.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The Energized Public Spaces Functional Master Plan (EPS Plan) is a countywide plan to provide public spaces within walking distance in the county's most densely populated areas. With rising populations in mixed use and higher density residential neighborhoods, parks and open space serve as "outdoor living rooms" that play a critical role in promoting livable and healthy communities, social interaction, and equity for residents of all ages and incomes. The EPS methodology provides data driven analysis that measures and prioritizes the park amenities needed to support contemplative, active recreation, and social gathering activities. The EPS Plan identifies multiple strategies to fill identified public space deficits with park activation programs, alternative providers, public-private partnerships, repurposing and improving access to existing public parkland, and acquisition of new parkland. This PDF provides the funding to acquire parkland to fill needs identified in the EPS Study Area using State of Maryland Program Open Space grants. Acquisitions will be prioritized based on multiple factors, including providing service to lower income and racially diverse areas, addressing the largest public space deficits, seizing on opportunity acquisitions, and locations of highest population growth and associated park needs. Sites within the EPS Study Area that are identified for park acquisition in other sector, master or functional plans also may be acquired with this PDF. The County Council encourages the Commission to seek supplemental appropriations if approved CIP funding is

insufficient.

COST CHANGE

The overall project remains at \$150 million, with additional expenditures in FY29-30 due to increased efforts to manage the high acquisition costs in urban areas.

PROJECT JUSTIFICATION

Designing Public Spaces - Energized Public Spaces Design Guidelines, 2019; Energized Public Spaces Functional Master Plan, 2018; Park, Recreation and Open Space (PROS) Plan, 2022; Vision 2030 Strategic Plan for Parks and Recreation, 2011; Legacy Open Space Functional Master Plan, 2001

FISCAL NOTE

FY22 transfer of \$400k of FY21 State Aid from Acquisition: Local Parks (P767828) for the Willett Branch Greenway bond bill. In FY22, added \$550k State Aid for a FY22 bond bill for the Willett Branch Greenway. In FY24, added \$2.7 million of Program Open Space funding. FY25 transfer \$696K M-NCPPC Bonds from Legacy Open Space. Shift of M-NCPPC Bonds from Legacy Open Space to Legacy Urban Space to support POS-funded acquisitions in Legacy Urban Space and the addition of FY29 and FY30. \$1.2M has been shifted in Program Open Space from FY25 to the Beyond 6 years due to reduced POS funding to maintain the total project cost at \$150M. Contingent upon future availability of POS funding.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The central portion of Montgomery County continues to experience population and economic growth. The 2010 White Flint Sector Plan, the 2017 Rock Spring Sector Plan, the 2018 White Flint 2 Sector Plan, and the 2018 Grosvenor-Strathmore Metro Area Minor Master Plan support this growth by creating livable communities that offer a range of benefits such as walkable neighborhoods and access to community facilities including parks. Specifically, these Plans focus on creating new parks with central gathering spaces and active recreational amenities to support the quality of life. The dedication of land for a school and/or park site is one of the top priority public amenities to be provided by all development projects within these Plan areas. In lieu of dedication, the Planning Board may accept substantive contributions toward acquisition of new land to meet these master plan recommendations. Any Park Benefit Payments (PBPs) submitted to the M-NCPPC as a condition of Planning Board development approvals within these Plan areas will be placed into this Project for appropriation and expenditure. The Park Benefit Payments will be used for acquisition of new parkland and the development of park facilities on newly acquired land to serve the White Flint, Grosvenor-Strathmore, and Rock Spring areas. These funds are intended to create new park resources, so will not be used not for the renovation/modification of existing parks. Funds that are allocated for planning, design, and construction of parks will be transferred to the appropriate development PDF within the CIP. Expenditures will be based on the park priorities within each of the Master/Sector Plan areas, availability of land for acquisition, site improvement needs, and the Parks Departments' design and construction schedule.

PROJECT JUSTIFICATION

Chapters 50 (Subdivision Regulations) and 59 (Zoning Ordinance) of the Montgomery County Code require development/redevelopment to demonstrate substantial conformance with the Master or Sector Plan for approval. When site conditions preclude dedication of land needed for a school and/or park site, this Project will provide an alternative path for developments to achieve plan conformance while also implementing the vision for vibrant communities with ample public parks and associated amenities. This Project will serve to hold, appropriate and expend any Park Benefit Payments that are made to the M-NCPPC through the regulatory application review process under Chapters 50 and 59 to serve the park needs of any of these four Master/Sector Plan areas.

OTHER

Appropriations for payments received above the approved capital budget will be requested through supplemental appropriations or future CIP approvals.

FISCAL NOTE

M-NCPPC has received the first Mid-County PBP payment of \$11,829.04. This payment was the first installment of a Planning Board-approved PBP of \$209,525.76. Appropriations for payments received above the approved capital budget will be requested through supplemental appropriations or future CIP approvals. Project expenditures will not be incurred or encumbered prior to the receipt of funds.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project funds parkland acquisitions that serve residents in all areas of the County and in all park types. This project covers the cost of land plus acquisition expenses such as land surveys, appraisals, settlement expenses, and other acquisition-related costs. The project also funds expenses to make new parkland safe and secure upon acquisition, e.g. removing attractive nuisances, demolitions, interim improvements, posting properties, securing structures, cleaning up sites, etc. Acquisitions can include new parks or additions to existing parks. To the extent possible, the Commission acquires parkland through dedication at the time of subdivision; however, to meet all parkland needs in a growing and changing County, this method must be supplemented by a direct land purchase program.

COST CHANGE

Increase due to the addition of two fiscal years to this ongoing project, partially offset by a reduction in Program Open Space funding.

PROJECT JUSTIFICATION

2022 Park, Recreation, and Open Space (PROS) Plan, approved by the Montgomery County Planning Board, adopted area master plans, and functional master plans guide the parkland acquisition program. This PDF provides latitude to acquire properties consistent with master plans and Commission policies.

FISCAL NOTE

\$853K provided from Program Open Space in FY24. Reduced Program Open Space funding in FY25 by \$500k to account for the lower POS Allocation received from State.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The 2022 Silver Spring Downtown and Adjacent Communities (SSDAC) Plan established a vision for a diverse, distinctive and successful downtown and includes recommendations to support a healthy community through a connected network of open space and public parks. Adequate public open space is critical to meeting the goal of making Silver Spring a better place to live, work and play. While Silver Spring has a reasonable amount of open space, many of these spaces are small and do not enhance the public realm. Instead of creating more "postage stamp" spaces that don't provide the needed open space and amenities for a growing urban center, the SSDAC Plan suggests channeling resources to create new and improve existing public parks. Specifically, the Plan recommends that for certain development projects required to provide public open space on a site not recommended for new public space in the Sector Plan, the applicants contribute funds to support new and existing public parks in lieu of on-site open space.

Any Silver Spring Park Benefit Payments (PBPs) submitted to the M-NCPPC as a condition of Planning Board development approvals will be placed into this Project for appropriation and expenditure. The Park Benefit Payments will be used for acquisition of new parkland and the development of park facilities on new and existing parks to serve the SSDAC area. Funds that are allocated for planning, design, and construction of parks will be transferred to the appropriate development PDF within the CIP. Expenditures will be based on the park priorities in the Plan, availability of land for acquisition, site improvement needs, and the Parks Departments'

design and construction schedule.

PROJECT JUSTIFICATION

Chapters 50 (Subdivision Regulations) and 59 (Zoning Ordinance) of the Montgomery County Code require development/redevelopment to demonstrate substantial conformance with the Master or Sector Plan for approval. When site conditions preclude dedication of land needed for parks and open space, this Project will provide an alternative path for developments to achieve plan conformance while also implementing the vision for vibrant communities with ample public parks and associated amenities. This Project will serve to hold, appropriate and expend any Park Benefit Payments that are made to the M-NCPPC through the regulatory application review process under Chapters 50 and 59 to serve the park needs within the Silver Spring DAC boundary.

FISCAL NOTE

Project expenditures will not be incurred or encumbered prior to the receipt of funds.

PROJECT DESCRIPTION

This program provides for an on-going comprehensive effort to ensure that all parks and park facilities are built, renovated, and maintained in compliance with Title II of the Americans with Disabilities Act (ADA) and the 2010 ADA Standards for Accessible Design. This program includes the correction of deficiencies identified by the United States Department of Justice (DOJ) during its Project Civic Access assessment of various park facilities, the results of a comprehensive self-evaluation process, as well as efforts to comply with the revisions to Title II of the ADA, which went into effect on March 15, 2011, and other opportunities to improve accessibility. Improvements may include, but are not limited to, barrier removal, grading, pavements, site amenities, drainage improvements, building modifications, signage, etc. and are often combined with other projects.

COST CHANGE

Increase due to the addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

Montgomery County was selected by the DOJ for a Project Civic Access (PCA) review in 2006. The PCA is a proactive, ongoing initiative of the Disability Rights Section of the DOJ Civil Rights Division to ensure ADA compliance in local and state governments throughout the country. Montgomery County and M-NCPPC entered into a Settlement Agreement with DOJ on August 16, 2011, that required the County and M-NCPPC to remediate specific issues identified by DOJ within a negotiated timeline, conduct a comprehensive self-evaluation, and develop a Transition Plan for barrier removal, including efforts to comply with the updated Title II requirements. All self-evaluations were completed ahead of schedule and the Final Transition Plan submitted in August 2016 and subsequently accepted by DOJ. The Final Transition Plan provides a summary of all barriers found, a strategy and timeline for their removal, as well as planning level cost estimates. The Final Transition Plan identified approximately 13,600 barriers with a projected planning level cost estimate of \$31 million for barrier removal system-wide, although actual costs are expected to be significantly higher based upon work completed to date.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$1,934,000.

DISCLOSURES

Expenditures will continue indefinitely.

OTHER

\$50,000 Current Revenue is budgeted for required ADA retrofits to leased properties that cannot be funded with general obligation bonds.

FISCAL NOTE

FY21 and FY22, reduction of \$50,000 each year for fiscal capacity; FY19 Special Appropriation of \$100k in State Aid. FY18 Appr. for \$100k Bond Bill for MLK Recreational Park. FY18 reduction of \$10k in Current Revenue for fiscal capacity. FY18 reduction of \$49k in Current Revenue to reflect the FY18 Savings Plan. Prior year partial capitalization of expenditures through FY16 totaled \$3,648,000.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

PROJECT DESCRIPTION

This project addresses countywide ballfield needs by funding ballfield-related improvements on parkland, school sites, and other public sites. Improvements may include, but are not limited to, ballfield lighting, irrigation, drainage improvements, bleachers, fencing, backstops, soil improvements, turf and infield establishment/renovation, reconfigurations, conversions between field types, program support elements, field upgrades, grading, pavements, accessibility improvements, site amenities, etc. and are often combined with other projects.

COST CHANGE

Increase due to the addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

2012 Parks, Recreation and Open Space (PROS) Plan. Montgomery County users of parks and recreation facilities identified a serious shortage of ballfields throughout the County. The Ballfield Work Group Reports, Phases 1 and 2, 1999.

FISCAL NOTE

Addition of \$225k FY22 State Aid, FY22 Bond Bill for Damascus Recreational Park athletic fields. In FY21 and FY22, \$300k in CUPF Current Revenues was swapped with \$300k in G.O. Bonds. FY21 reduction of \$500k in G.O. Bonds for affordability. FY20 \$250k in CUPF Current Revenues approved for renovations of non-synthetic turf school fields and \$174k in Current Revenue - General approved to renovate the White Oak Recreation Center ballfield. FY19 funding source for MCPS ballfield improvement switched from Intergovernmental to Current Revenue: CUPF. FY17-19 \$1m in Community Use of Public Facilities (CUPF) operating funds transferred in to renovate MCPS ballfields. Prior year partial capitalization of expenditures through FY16 totaled \$15,642,000. FY15-16 transfer out \$250k GO Bonds to Urban Park Elements P871540. FY14 transfer in \$40K GO bonds from Pollution Prevention P078701. At least \$300,000 of the annual GO bond funding, and all CUPF funding is intended for school field renovation.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

In January 1999, the Planning Board established a Work Group comprised of major sport user groups, public agencies and the Countywide Recreation Advisory Board to address the acute shortages of ballfields in the County.

PROJECT DESCRIPTION

The 2017 Bethesda Downtown Plan (BDP) recommends many new parks and public use spaces to create a livable and healthy community for the residents of Bethesda and the entire County. The intersection of two major park recommendations with a significant development project has created the opportunity to implement several key BDP recommendations in one project that will result in a revitalized Farm Woman's Market Civic Green plus two significant sections of the Eastern Greenway parks. This PDF is intended to fund a portion of the public park elements of this collaborative project involving multiple government and private development entities.

This PDF is funded by the M-NCPPC, the Town of Chevy Chase, and the State of Maryland. The M-NCPPC will assign PDF funds to the development applicant in exchange for the concurrent design, permitting, construction, and delivery of two innovative, high quality urban parks with a full complement of park amenities on a portion of Lot 24 and all of Lot 10, consistent with the approved Sketch Plan #320190030 by the development applicant. Some PDF funds will be allocated for a portion of the costs to underground

utilities, as well. Subject to review and approval by the M-NCPPC's Montgomery Parks, the two new parks will be designed to create exciting and meaningful civic spaces linked to the existing Elm Street Park to create a cohesive whole and provide safe pedestrian circulation among the parks and the Farm Women's Market site. Per the Planning Board's Sketch Plan approval (MCPB Resolution 19-123, Condition B.8), the park on Lot 24 will be designed and constructed integral with the underlying parking structure to ensure constructability of park amenities for long-term operation and maintenance, including adequate utilities, design loading capacity, and soil profiles to support amenity footings. The Lot 24 park will include amenities that support active and social uses such as shade trees, landscaping, and open lawns; sport courts, play equipment, shade structures, hardscapes and water features; performance and seating areas; and other site furnishings and urban park elements. Lot 10 park construction will begin upon opening of the Lot 24 garage and will include complementary amenities such as a multi-generational playground with a splash park, dog park, outdoor gym area, and other active facilities.

Montgomery Parks uses a variety of tools to inform park design, including public meetings, data collection, market research and other forms of in-person and virtual engagement and will engage residents from surrounding communities in a design process for these parks that will include a charrette and other forms of outreach.

While the Parks Department carefully weighs neighborhood input, it must be considered in context with the priorities and needs of all County residents. Final design for the two parks will be approved through the M-NCPPC Park Construction Permit. Once constructed, the M-NCPPC will receive title to the Lot 24 park through a condominium unit interest deed from the development entity and to the Lot 10 park by in-fee conveyance from the County. The timing and conditions for park development, milestone payments to the development applicant, and transfer of the park properties will be defined in a set of legal agreements to be negotiated subsequent to approval of this public contribution to the project.

LOCATION

Bethesda, Maryland

ESTIMATED SCHEDULE

Depending on the development approval process, the current proposed plan has preliminary design completion in FY25 with a construction completion in FY28.

PROJECT JUSTIFICATION

The 2017 Bethesda Downtown Plan (BDP) recommends the creation of linear public parks on the edge of the Downtown called the Eastern Greenway. The BDP specifically recommends that PLD surface lots should be converted into public parks as much as feasible to create the Eastern Greenway while preserving public parking in underground garages. This PDF will work in coordination with the County Farm Women's Market Parking Garage (#502316) to provide public funding to a collaborative development project to meet key policy goals of the BDP, including underground public parking and new public parks to serve the growing Bethesda community and the County.

FISCAL NOTE

The following funding plan is contingent upon executed agreements with the developer and the Town of Chevy Chase as well as Council approval of related property disposition actions.

M-NCPPC is providing \$2.5 Million in Bethesda Park Impact Payments (PIPs) and \$2.5 Million in State grants. The Town of Chevy Chase is providing Intergovernmental funding of \$4.432 Million, consisting of \$3.432 Million in Town funds and \$1.0 Million in State

grants. \$600,000 of Bethesda PIP funds will be used to cover a portion of M-NCPPC's planning, design, and supervision costs. \$8.117 Million is the funding level determined by the development applicant as sufficient to fully implement both parks as outlined in the Sketch Plan Resolution and this PDF. The project also includes \$715,000 in FY24 for a portion of the costs related to underground utilities. The schedule for disbursements to the development applicant will be established via development and funding agreements. Cost estimates for the Lot 10 & 24 parks are based on the approved Sketch Plan and will be updated as design is finalized.

This project is linked to the Department of Transportation's \$10,293,000 Farm Women's Market Parking Garage (P502316) project which will fund the costs to purchase an underground garage to replace Lots 10 and 24 when they are redeveloped for housing and urban parks, as well as some costs related to underground utilities. Funding partners for that project include the County, the developer, and the Town of Chevy Chase.

FY23 supplemental in Contributions: Bethesda Park Impact Payments for the amount of \$2,000,000, Intergovernmental for the amount of \$4,432,000, State Aid for the amount of \$2,500,000.

DISCLOSURES

M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project implements multiple phases of the 2004 Brookside Gardens Master Plan. Upcoming projects include planning and design for renovations to the Conservatory and the surrounding grounds and gardens, renovation of the Rose Garden, and accessibility improvements to the core Formal Gardens. This project includes renovation, protection, modernization, conversion, and/or replacement of aging, unsafe, or obsolete infrastructure, facilities, and features within Brookside Gardens and additional future phases of master plan work.

ESTIMATED SCHEDULE

Planning for renovations to the conservatory and surrounding grounds and gardens, the rose garden, and accessibility improvements: FY24-25. Renovation and modernization work will continue indefinitely.

PROJECT JUSTIFICATION

Visitor Survey (1995). Brookside Gardens Master Plan (2004), including data from several focus groups held during the planning process and public testimony at planning board hearings. Renovations address critical maintenance needs for the 50-year-old facility that is one of M-NCPPC's most popular destinations and a regional tourist attraction. Brookside Gardens Master Plan approved by Montgomery County Planning Board, March 3, 2005. These renovations are also required to ensure that this unique facility in Montgomery Parks portfolio is in compliance with Title II of the Americans with Disabilities Act (ADA).

FISCAL NOTE

A FY22 contribution of \$250k for the Rose Garden renewal project was added. FY15 transfer in of \$451k of Current Revenue and GO Bonds from SGDA P058755 and Trails Hard Surface Design and Construction P768673. FY14 transfer in of \$460k GO bonds from Black Hill Trail P058701, Montrose Trail P038707, and Rock Creek Sewer P098701. \$1.2m of Program Open Space for Greenhouse Project. Additional private donations of \$1.374m were raised for the greenhouse, public artwork, a gatehouse, site furnishings and other improvements.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Friends of Brookside Gardens, Montgomery County Department of Environmental Protection, Small Grants/Donor Assisted Capital Improvements, PDF 058755, Montgomery Parks Foundation, Wheaton Regional Park Improvements PDF 871904.

PROJECT DESCRIPTION

This PDF funds development of local park projects in conjunction with public agencies or the private sector. It allows M-NCPPC to participate more efficiently in sequence with private developments. The PDF may fund improvements on park property, school sites, other public sites or private properties. This project supports design, plan review, permitting, construction, construction management, and related activities associated with capital investments that may result from Planning Board approved public-private partnerships.

COST CHANGE

Increase due to the addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

2012 Parks, Recreation and Open Space (PROS) Plan identified needed recreational facilities, e.g. ballfields, tennis and multi-use courts, playgrounds and infrastructure. Also, area master plans; Planning Board approved subdivisions and site plans.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$1,858,000.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project funds modifications of existing park buildings and facilities to modernize equipment, produce energy, control and utility costs. Work includes, but is not limited to, identifying, planning, implementing, and monitoring effective energy conservation measures at various park facilities. Emphasis is placed upon positive and proven measures to remedy heat losses and gains through modifications to building envelope systems and through improvement and retrofit of building support systems. Improvements may also include modification of electrical/mechanical/HVAC systems and equipment and their associated control and distribution systems, as well as lighting upgrades, utility supply upgrades, PV systems, and other energy conservation initiatives.

COST CHANGE

Increase due to the addition of FY29 and FY30 to this ongoing project.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$531,000.

DISCLOSURES

Expenditures will continue indefinitely.

Expenditure / Encumbrances	10,536		
Unencumbered Balance	4,726		

PROJECT DESCRIPTION

This project funds renovations or new construction at M-NCPPC-owned Enterprise facilities that operate in a manner similar to private business enterprises. Enterprise facilities include: Black Hill boats, Lake Needwood boats, Little Bennett campground, South Germantown Mini-golf and Splash Playground, Cabin John Ice Rink, Wheaton Ice Arena, Wheaton Sports Pavilion, Pauline Betz Addie Tennis facility, Wheaton Indoor Tennis, Cabin John Train, Wheaton Train and Carousel, Ovid Hazen Wells Carousel, Brookside Gardens, South Germantown Driving Range, Rockwood Manor and Seneca Lodge Event Centers. The project supports planning, design, and construction-related activities, with an emphasis on renovation of existing Enterprise facilities. Work includes, but is not limited to, minor renovations, equipment upgrades, fire suppression system installations, roof replacements, lighting improvements, site work, infrastructure improvements, associated support facilities, etc.

COST CHANGE

Change in cost due to increase of scope of work. Includes various improvements to Little Bennet Campground and ice rink refrigeration systems at Cabin John and Wheaton Ice Arenas.

PROJECT JUSTIFICATION

Infrastructure Inventory and Assessment of Park Components, 2008.

FISCAL NOTE

Ridge Road Ice Rink project was delayed beyond FY26 for affordability. Prior year partial capitalization of expenditures through FY16 totaled \$2,907,000.

M-NCPPC's Enterprise Facilities provide recreational and cultural activities that operate in a manner similar to private business enterprises. User fees replenish the enterprise fund that sustains all revenue-generating facilities in the parks system.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

The Legacy Open Space initiative identifies open space lands that should be acquired and interpreted because of exceptional natural or cultural value to current and future generations of Montgomery County residents. The project funds acquisition (in-fee and easement) of open-space lands of countywide significance. Priorities are updated during each CIP cycle but remain flexible to allow the Montgomery County Planning Board to address development threats, opportunity acquisitions, and joint funding opportunities. The County Council encourages the Commission to seek supplemental appropriations if approved CIP funding is insufficient. Non-County funding sources are expected to contribute significantly to the Legacy Open Space program. Contributions will appear in the PDF Expenditure and Funding Schedules only if the contribution is spent by the County or M-NCPPC. Donations of land or non-County funded payments that go directly to property owners are not included. The combination of these non-County and County funds have resulted in the successful protection of over 5,400 acres of open space in the County, including over 3,850 acres of new parkland.

COST CHANGE

Increase due to the addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

The Vision 2030 Strategic Plan for Parks and Recreation in Montgomery County (2010) and the 2017 Park, Recreation and Open Space (PROS) Plan recommend placing priority on conservation of natural open spaces, protection of heritage resources, providing critical urban open spaces, and expanded interpretive activities in parks. Legacy Open Space: Open Space Conservation in the 21st Century, approved by the Montgomery County Planning Board in October 1999. Legacy Open Space Functional Master Plan adopted by the County Council in July 2001.

FISCAL NOTE

Reduction in FY22 Current Revenue: General from non-recommended reductions, and G.O. Bonds were reduced in FY23-25 and slipped to FY26 for fiscal capacity. FY18 reduction of \$100k in Current Revenue to reflect the FY18 Savings Plan. Modifications reflect Resolution 19-322 that was approved December 10, 2019, after the Department's CIP submission in November 2019. The resolution provided a transfer of funds to the Acquisition: Non-Local Parks CIP project related to the acquisition of park land in Wheaton. M-NCPPC Bonds from FY25 forward transferred to Legacy Urban Space PDF.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

PROJECT DESCRIPTION

This project funds preparation of master plans, concept plans, and design plans; archaeological, engineering and environmental studies; topographic, natural resource, and forest conservation surveys; utility and infrastructure assessments; traffic studies; feasibility studies, etc. for development and renovation of non-local parks. Work includes, but is not limited to, public outreach, needs assessments, usage and trend analysis, schematic drawings, detailing, computations, agency coordination, cost estimating, and design. This project also supports planning activities associated with public-private partnerships, loan/grant applications, and park impact/restoration analysis related to external projects.

COST CHANGE

Increase due to the addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

2017 Parks, Recreation and Open Space (PROS) Plan, Countywide Park Trails Plan, approved by the Planning Board in July 1998;

individual area and park master plans.

FISCAL NOTE

Reduction in FY22 Current Revenue: General, \$50k, for fiscal capacity. FY18 reduction of \$170k in Current Revenue to reflect the FY18 Savings Plan. Prior year partial capitalization of expenditures through FY16 totaled \$5,904,000. In FY13 Current Revenue reduced \$50,000 for fiscal capacity.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project provides a new park at 2205 Kansas Avenue in the Lyttonsville neighborhood of Silver Spring. The park will serve as a rest stop with amenities along the Capital Crescent Trail and the Purple Line light rail, while providing environmental benefits and highlighting the unique character and history of Greater Lyttonsville. The park is located on a 0.71-acre parcel of land currently owned by the Maryland Transit Administration, which is currently serving as a staging area for construction of the Purple Line and will be transferred to the M-NCPPC upon completion of the Purple Line. The approved facility plan for this new park creates a series of terraced spaces to transition topographic grades and offer a variety of experiences that will engage all age groups. Features of this park include a Bridge Memorial that incorporates elements of the historic Talbot Avenue Bridge to commemorate the bridge and unique history of Lyttonsville, an informal amphitheater, multi-purpose lawn, terraces for gathering and picnicking, historic interpretive elements, shaded contemplative spaces with play opportunities, accessible paths and ramps, a landscape buffer along the southern property line, site furnishings and amenities, stormwater management, and sustainable landscaping.

ESTIMATED SCHEDULE

Design FY27, Construction FY28-29.

PROJECT JUSTIFICATION

Greater Lyttonsville Sector Plan adopted May 2017, Greater Lyttonsville Sector Plan Design Guidelines approved March 2019, Bicycle Master Plan adopted December 2018, Parks, Recreation and Open Space (PROS) Plan approved 2022. A park facility plan was approved by the Montgomery County Planning Board on September 7, 2023. This park will provide a vital community hub, cultural destination, and a rest stop along the Capital Crescent Trail.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress.

COORDINATION

Maryland Transit Administration, Montgomery County Department of Transportation, Montgomery County Department of Permitting Services.

Appropriation FY 26 Request	500	Last FY's Cost Estimate	7,392
Cumulative Appropriation	5,392		
Expenditure / Encumbrances	2,580		
Unencumbered Balance	2,812		

PROJECT DESCRIPTION

This project funds design and construction of new park facilities and amenities. Improvements may include, but are not limited to, picnic shelters, seating, courts, hardscape, activation support features, parking, landscaping, walkways, exercise equipment, recreational and site amenities, retaining walls, dog exercise areas, park management support elements, utilities, site work, buildings and other park structures, signage, etc. and are often combined with other projects.

COST CHANGE

The increase is due to the addition of increased State Aid funding for Centerway Local Park in FY25, along with the inclusion of expenditures for FY29 and FY30 into this ongoing project.

PROJECT JUSTIFICATION

2022 Parks, Recreation and Open Space (PROS) Plan. The 2005 Land Preservation, Parks and Recreation Plan. Individual Area Master Plans. Community requests.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$2,345,000. The fiscal note has been updated to reflect the addition of \$150,000 in State Aid funding, attributed to a \$1,150,000 increase in State Bond Bills through the legislative Bond Initiatives program.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project funds design and construction of new park facilities and amenities. Improvements may include, but are not limited to, picnic shelters, seating, courts, hardscape, activation support features, parking, landscaping, walkways, exercise equipment, recreational and site amenities, retaining walls, dog exercise areas, park management support elements, utilities, site work, buildings and other park structures, signage, etc. and are often combined with other projects.

COST CHANGE

The increase is due to the addition of \$500,000 in State Aid funding for Fairland Recreational Park in FY25, along with the inclusion of expenditures for FY29 and FY30 into this ongoing project.

PROJECT JUSTIFICATION

2022 Parks, Recreation, and Open Space (PROS) Plan. 2005 Land Preservation, Park and Recreation Plan. Individual park master plans.

FISCAL NOTE

FY20 Supplemental Appropriation of \$250k in State Aid for Black Hill Regional Park: SEED Classroom. July 2020, reduced GO Bonds \$80k for affordability, FY21 Savings Plan. FY19 Special Appropriation of \$180k in G.O. Bonds for Maydale Nature Center. Addition of a Bond Bill (\$75,000) in FY18 for Maydale Nature Center. Added \$250k in FY17 for Maydale Nature Center. In FY13, supplemental appropriation added \$200,000 in State Aid funding. Prior year partial capitalization of expenditures through FY16 total \$2,703,000. In FY20, transferred \$250k in State Aid to the Black Hill Regional Park SEED Classroom (P872101). Added \$500,000 in State Aid funding for Fairland Recreational Park, attributed to a \$1,150,000 increase in State Bond Bills through the legislative Bond Initiatives program.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

The athletic area at Northwest Branch Recreational Park is located on Norbeck Road, between Layhill and Norwood Roads. Existing facilities include: 1 adult-sized baseball field, 3 adult-sized multi-purpose rectangular fields, 1 football field, 225-space parking lot, and trails. This project funds the design and construction of additional park facilities to be completed in phases. Future phases may include playground, picnic shelter, maintenance facilities, additional parking, lighting, fencing, trails, irrigation, restroom building, landscape, hardscape, etc.

ESTIMATED SCHEDULE

Phase 2 design and construction will be Beyond Six Years.

COST CHANGE

Cost change increase due to the phased development of the park.

PROJECT JUSTIFICATION

2012 Parks, Recreation and Open Space (PROS) Plan, Land Preservation, Parks and Recreation Plan, 2005; Cloverly Master Plan, 1997; ICC Record of Decision, Attachment D: The ICC Mitigation Package, 2006

DISCLOSURES

A pedestrian impact analysis has been completed for this project.

COORDINATION

Maryland State Highway Administration, Montgomery County Revenue Authority, Montgomery County Department of Environmental Protection, Montgomery County Department of Permitting Services.

PROJECT DESCRIPTION

This project expands the active recreation area in Ovid Hazen Wells Recreational Park and relocates the Ovid Hazen Wells Carousel from Wheaton Regional Park. The expansion of the active recreation area as recommended in the 2014 Ovid Hazen Wells Recreational Park Master Plan Update will occur in two phases. This project currently funds the design and construction of Phase I, which includes the carousel roundhouse, carousel relocation, skate park, amphitheater, accessory building (with ticketing and restrooms), parking, trails, stormwater management, utilities, additional playground equipment, and landscaping. The future Phase 2 will include an adventure playground, water play area, dog park, community green, additional picnic shelters, teen adventure play (climbing/fitness tower and fitness equipment with running track), athletic field improvements, additional parking, maintenance building, trails, open meadows, and landscaping.

ESTIMATED SCHEDULE

Construction is ongoing in FY24 -FY26.

PROJECT JUSTIFICATION

The Park Facility Plan for the active recreation area was approved by the Montgomery County Planning Board on September 24, 2015. The program of requirements for this project was recommended in the Ovid Hazen Wells Recreational Park Master Plan Update, approved by the Montgomery County Planning Board on November 20, 2014.

FISCAL NOTE

FY21 Savings Plan slipped \$100k from FY21 to FY24 due to affordability. FY20 Supplemental Appropriation of \$200k in State Aid. FY21 reduction of \$100k in G.O. Bonds and switched \$2.9 million in G.O. Bonds with Program Open Space. FY21 Reduced Spending Plan shifted \$100k GO Bonds from FY21 to FY24. Slippage in FY22 shifted \$1 million from FY22 to FY23-25. M-NCPPC was awarded a FY24 State Bond Bill for \$300k and FY24 Program Open Space funding of \$1 million.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Maryland State Highway Administration, Montgomery County Revenue Authority, Montgomery County Department of Environmental Protection, Montgomery County Department of Permitting Services.

PROJECT DESCRIPTION

This project funds design and construction of renovations, modifications, and modernizations of local parks, with projects generally between \$1 to \$4 M. These renovation projects are typically complex and/or extensive, and may require planning, public outreach, and Planning Board approval where POS funds are used. Improvements may include, but are not limited to, renovating and/or converting existing amenities, adding new park elements and features, modernizing facilities, improving infrastructure, etc., and are often combined with other projects.

COST CHANGE

The increased funding represents allocation of Park Bonds, Program Open Space funding, and Federal Aid to allow project implementation for two new Land and Water Conservation Fund grant awards to implement projects at Long Branch Wayne Park and

Long Branch Local Park, and the addition of FY29 and FY30 to this ongoing project. State Aid funding was added in FY25 for Stonehedge Local Park, partially offset by a reduction in POS funding.

PROJECT JUSTIFICATION

This project responds to the challenge of maintaining an aging park system while meeting increasing demands from a growing population, escalating costs, and tightening fiscal conditions. The traditional method of large-scale renovations utilizing facility planning and stand-alone CIP projects is not a one-size-fits-all approach to delivering a modern park system at a reasonable cost. This provides the agency an additional tool that streamlines the park development process with smaller scale projects, allowing the agency to be more responsive to life-cycles of infrastructure and meeting goals and objectives of the PROS 2017 plan and individual master plans.

OTHER

The goal of this project is to fund 2-3 renovation projects each year.

FISCAL NOTE

A total of \$650k of FY24 State Aid was provided for the following: Dalewood Playground (\$250k), Stonehedge Local Park (\$150k); and Long Branch Parks Initiative (\$250k). A total of \$2,000 of Federal Aid was provided for implementation of projects in Long Branch Wayne Park and Long Branch Local Park. The fiscal note has been updated to reflect the addition of \$350,000 in State Aid funding in FY25 for Stonebridge Local Park, attributed to a \$1,150,000 increase in State Bond Bills through the legislative Bond Initiatives program. POS funding reduced by -\$170,000 due to the reduction of final POS Allocation received from the State.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

M-NCPPC Planning Department; Montgomery County Departments of Transportation, Permitting Services, Environmental Protection; Regional Services Centers and Urban Districts.

PROJECT DESCRIPTION

This project schedules renovation, protection, modernization, conversion, restoration, and/or replacement of aging, unsafe, or obsolete local park facilities and features. The park system contains hundreds of local parks and many different types of facilities, many of which are over 40 years old. Improvements may include, but are not limited to, renovating and/or converting existing amenities, restorations, modernizing facilities, improving infrastructure, etc.

COST CHANGE

Level of effort increase reflect construction cost to rehabilitate aging infrastructure. Also cost increase is due to addition of two fiscal years to this ongoing project and the combination of all PLAR local subprojects into the main PLAR Local Parks PDF (P967754). Added increase in FY25 due to addition of State Aid funding.

PROJECT JUSTIFICATION

Renovations scheduled in this project are based on ongoing infrastructure assessments, as well as requests from park operations. Failure to proactively renovate or replace aging park facilities and features before the end of their useful life results in decreased levels of service to park users, potential safety risks, and an overall increase in capital costs as repairs become emergencies.

FISCAL NOTE

M-NCPPC was awarded \$1,195,000 of FY24 State Bond Bills for the following: Minor Renovations - Maplewood Alta Vista Park (\$500k), Wheaton Forest Local Park (\$195k); Play Equipment - Greenwood Local Park (\$250k), McKnew Local Park (\$250k). The fiscal note has been updated to reflect the addition of \$150,000 in State Aid funding for Merrimac Playground, attributed to a \$1,150,000 increase in State Bond Bills.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project schedules renovation, protection, modernization, conversion, restoration, and/or replacement of aging, unsafe, or obsolete non-local park facilities and features. The park system contains hundreds of non-local parks and many different types of facilities, many of which are over 40 years old. Improvements may include, but are not limited to, renovating and/or converting existing amenities, restoration, modernizing facilities, improving infrastructure, etc.

Any realignment of the remaining two lanes between Dorset and Arlington on Little Falls Parkway must be reviewed by Council before funds may be utilized for this purpose. No funds may be utilized for the implementation of a linear park in this section of Little Falls Parkway.

COST CHANGE

Level of effort increase reflect construction cost to rehabilitate aging infrastructure. Also increase cost is due to addition of two fiscal years to this ongoing project and the combination of all PLAR local subprojects into the main PLAR Local Parks PDF (P967754).
Reduces current revenue for fiscal capacity.

PROJECT JUSTIFICATION

Renovations scheduled in this project are based on ongoing infrastructure assessments, as well as requests from park operations. Failure to proactively renovate or replace aging park facilities and features before the end of their useful life results in decreased levels of service to park users, potential safety risks, and an overall increase in capital costs as repairs become emergencies.

FISCAL NOTE

M-NCPPC was awarded \$450k of in FY24 State Bond Bills for the following projects: Court Renovations - Fairland Local Park (\$250k), Muddy Branch Stream Valley Park (\$200k) and \$500k of FY24 Federal Aid for Minor Renovations - Upgrade Long Branch Pedestrian Bridge at Prospect along the Long Branch Stream Valley.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project schedules renovation, protection, modernization, conversion, and/or replacement of aging, unsafe, or obsolete local park facilities and features. The park system contains over 300 local parks and many different types of facilities, many of which are over 40 years old. There are six subprojects, organized by categories of infrastructure, within this project, and each has a prioritized list of candidate projects, but projects may change or be grouped as needs arise or economies-of-scale can be achieved. Subprojects: Boundary Markings, Minor Renovations, Park Building Renovations, Play Equipment, Resurfacing Parking Lots and Paths, and Court Renovations. Improvements may include, but are not limited to, renovating and/or converting existing amenities, modernizing facilities, improving infrastructure, etc.

PROJECT JUSTIFICATION

Renovations scheduled in this project are based on ongoing infrastructure assessments, as well as requests from park operations. Failure to proactively renovate or replace aging park facilities and features before the end of their useful life results in decreased levels of service to park users, potential safety risks, and an overall increase in capital costs as repairs become emergencies.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$37,611,000. FY20 Supplemental Appropriation of \$250k in State Aid for Centerway LP. MNCPPC was awarded two State Bond Bills in FY18 of \$50k for Good Hope LP and \$125k for Stewartown LP. State Bond Bill in FY15 of \$75k for West Fairland LP. FY15 transferred in \$560k P&P Bonds from North Four Corners LP, #078706. In FY10, \$285k was transferred in from Broadacres Local Park PDF 058702. In FY09, \$74k was transferred in from PLAR Athletic Field Renovation PDF 998700. In FY09, the Town of Chevy Chase donated \$30k for Playground Improvements at Leland Local Park. FY21 State Aid of \$350k added for improvements at Longbranch-Garland Neighborhood Park and State Aid of \$200k for play equipment at Olney Family Neighborhood Park and State Aid of \$200k for play equipment at Olney Family Neighborhood Park. FY22 bond bill added \$150,000 for Fox Chapel Neighborhood Park. M-NCPPC was awarded \$1,195,000 of FY24 State Bond Bills for the following: Minor Renovations - Maplewood Alta Vista Park (\$500k), Wheaton Forest Local Park (\$195k); Play Equipment - Greenwood Local Park (\$250k), McKnew Local Park (\$250k).

FISCAL NOTE

FY22 bond bills added \$150,000 for South Germantown Recreational Park and \$200,000 for Long Branch/Domer Ave Signature Bridge. July 2020, reduced GO Bonds \$383k for affordability in the FY21 Reduced Spending Plan. FY22 reduction of \$135k for affordability, which was offset by the addition of \$350,000 in FY22 bond bill. Prior year partial capitalization of expenditures through FY16 totaled \$27,551,000. In FY14 transferred out \$49k of GO Bonds to Cost Sharing NL, #761682. In FY12, transferred out \$48k to Restoration of Historic Structures #808494. In FY11, \$60k was transferred in from Brookside Gardens, PDF #848704. In FY10, \$373k GO Bonds transferred in from Lake Needwood Dam Remediation #078710 and \$2k from Rickman Horse Farm Park #008722. FY09, \$141k current revenue transferred out to Wheaton Tennis Bubble Renovation #078708. FY18 current revenue reduced \$530k to reflect the FY18 Savings Plan. M-NCPPC was awarded \$450k of in FY24 State Bond Bills for the following projects: Court Renovations - Fairland Local Park (\$250k), Muddy Branch Stream Valley Park (\$200k) and \$500k of FY24 Federal Aid for Minor Renovations - Upgrade Long Branch Pedestrian Bridge at Prospect along the Long Branch Stream Valley.

Cumulative Appropriation	10,539		
Expenditure / Encumbrances	6,992		
Unencumbered Balance	3,547		

PROJECT DESCRIPTION

This project provides design and construction of water quality improvements, best management practices and environmental enhancements throughout the park system. This work may include stormwater retrofits, outfall restorations, riparian enhancements, stream restorations, native plantings, non-native invasive plant removals, impervious removals, etc. Improvements may include, but are

not limited to, drainage improvements, grading, site work, plantings, signage, structural maintenance, dam/breach removal, infrastructure improvements, etc. and are often combined with other projects. M-NCPPC owns 12 maintenance yards and over 60 farm ponds, lakes, constructed wetlands, irrigation ponds, recreational ponds, nature ponds, and dams that do not qualify for funding through the County's Water Quality Protection Charge.

COST CHANGE

Increase due to the addition of two fiscal years to this ongoing project. In addition, Current WQP and WQP Bonds replaced the use of Long-Term Financing in FY24-26, excess Long -Term Financing was removed, and the expenditure schedule was revised to closely match actual expenditures.

PROJECT JUSTIFICATION

The NPDES General Discharge Permit for Stormwater Associated with Industrial Facilities, Permit No. 02 SW issued by the Maryland Department of the Environment (MDE), requires implementation of Stormwater Pollution Prevention Plans (SWPPP) at each maintenance yard. The MDE Dam Safety Program requires regular aesthetic maintenance, tri-annual inspection, and periodic rehabilitation of all pond facilities to maintain their function and structural integrity. NPDES Municipal Separate Storm Sewer System (MS4) Permit.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$6,029,000. In FY16 received an additional \$600k from SHA for ICC Mitigation. State Bond Bill of \$50k received in 2015 for West Fairland Local Park. FY14 transferred in FY14, \$40k GO bonds from Ballfield Improvements, #008720. In FY13, transferred in \$200k GO Bonds from Lake Needwood Modifications #098708. In FY18, County Council approved a FY18 Special Appropriation totaling \$100,000 in Current Revenue. Water Quality Current Revenue replaces G.O. Bonds in FY19. Maryland Department of the Environment (MDE) Water Quality Revolving Loan Funds (Long Term Financing) backed by WQPC replace G.O. Bonds in FY20 and beyond. FY18 reduction of \$55,000 in Current Revenue reflecting the FY18 Savings Plan. Reduction, \$50k in FY22 and FY21 Current Revenue: General for fiscal capacity. In FY24 -26, Current Revenue WQP and WQP Bonds replaced Long-Term Financing and Long-Term Financing was removed.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Montgomery County Department of Permitting Services (MCDPS), Montgomery County Department of Environmental Protection (MCDEP), Maryland Department of the Environment, Washington Suburban Sanitary Commission (WSSC), Montgomery County Department of Transportation, State Highway Administration (SHA)

PROJECT DESCRIPTION

Funded in FY22 by a Maryland Local Parks and Playgrounds grant earmarked by the State of Maryland for the "Pepco Powerline Trail project," this project will design, construct, and equip portions of the ultimate 13-mile paved and natural surface trail within the Pepco powerline corridor that connects South Germantown Recreational Park to Cabin John Regional Park as well as community and park connectors along the corridor. Improvements include grading, paving, trail signage, Vision Zero road crossings, Stormwater Management (SWM), drainage improvements, bridges, boardwalks, environmental restoration, amenities (i.e. drinking fountains, benches, trailheads), etc. along priority segments between Muddy Branch SVP and Cabin John Regional Park. While this project will only build a portion of the paved trail section, preliminary engineering will be completed for full buildout. Trail design will use Americans with Disabilities Act (ADA) Outdoor Recreation Guidelines and American Association of State Highway and Transportation standards while protecting natural resources.

PROJECT JUSTIFICATION

Thrive Montgomery 2050 envisions a world-class trail network that is integrated into transportation planning and connecting residents

to jobs and centers of activity. The 2015 Pepco/Exelon merger agreement granted access to transmission line property for recreational and transportation use by the public. This northwest to southeast corridor connects existing natural surface stream valley park trails and contributes to east-west trail connectivity which is rare in the county. Trails, connectors, improvements, signage, trailheads, and amenities increase trail usage for recreation and promote walking and biking as alternatives to vehicular transportation. In park user surveys, hiking and biking on trails is the most frequent recreation activity reported. Biking and walking paths top respondents' lists of desired facilities or greatest facility shortages. This project also implements goals and objectives of the 2017 Park, Recreation and Open Space (PROS) Plan and the 2016 Countywide Park Trails Plan. M-NCPPC was awarded a FY24 State Bond Bill of \$1,700,000.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project provides design and construction of renovation, adaptation, stabilization, restoration, interpretation, and modernization of a wide range of historical buildings, structures, and sites on parkland. Improvements may include, but are not limited to, kitchen and restroom upgrades, floor replacements, roof repair, structural stabilization, ADA access, drainage improvements, HVAC improvements, building envelope upgrades, site amenities, infrastructure improvements, site work, signage, etc. and are often combined with other projects. Projects may involve leases, public/private partnerships, and/or occupation by staff and/or tenants.

COST CHANGE

Increase is due to the addition of FY29 and FY30 funding for this level of effort project.

PROJECT JUSTIFICATION

The Cultural Resources Asset Inventory prioritization list. 2012 Land Preservation, Parks and Recreation Plan, approved by the Planning Board. Area master plans and the County's Historic Preservation Ordinance, Chapter 24-A. From Artifact to Attraction: A Strategic Plan for Cultural Resources in Parks.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$8,048,000. FY14 transfer in of \$30,000 GO bonds from Matthew Henson Trail #500400. MNCPPC received two State Bond Bill grants of \$50k each for Seneca (Poole) Store in 2011 and 2014. FY18 current revenue reduced \$45k to reflect the FY18 Savings Plan. Reductions in FY21 and FY22 of \$50k in Current Revenue: General each for affordability. FY22 reduction of \$50k in Current Revenue: General for affordability.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

Phase 2 is ongoing in FY24-FY26 and will include full irrigation, additional parking, additional landscaping, loop trail, site amenities, and a second field.

ESTIMATED SCHEDULE

Phase 2 design ongoing. Construction to begin in FY24.

PROJECT JUSTIFICATION

The site selection and concept plan for this project was approved by the Montgomery County Planning Board on July 30, 2015. The 2012 Park Recreation and Open Space (PROS) plan estimated a need for four dedicated cricket fields in Montgomery County by the year 2022.

FISCAL NOTE

In FY22, \$250k slipped from FY24 to FY25 for fiscal capacity. The fiscal note has been updated to reflect a (\$1,530,000) reduction in FY25 Program Open Space funding to account for the lower POS Allocation received from State. POS funds were shifted one year to accommodate the reduction in FY25.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project authorizes expenditures for new or existing projects that receive support from non-County government funding sources, e.g. grants, donations, gifts, fund raising projects, and sponsorships. No funds can be expended from this project unless at least 80 percent of the total cost of the project, or the change to an existing project is provided from a non-County government funding source. The funds provided can be expended within this project provided: 1. The capital cost is less than \$100,000; or 2. The capital cost is at least \$100,000, but the project: (a) does not have an Operating Budget Impact (OBI) in excess of 10 percent of the capital cost; and (b) vehicle trips generated by the project do not exceed 25 vehicle trips during the peak one-hour period in the vicinity of the project. The Department must notify the County Council of any grants or donations for projects having a capital cost of at least \$100,000. The Department must submit a PDF for approval by the County Council for all other projects in accordance with the County Council policy on non-County funded capital projects, approved on February 22, 2000.

COST CHANGE

Increase due to the addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

Montgomery County Department of Park and Planning Policy and Guidelines on Donations and Public/Private Partnerships, adopted 2003.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$2,165,000. FY15 transfer of \$151,000 in County Current Revenue to Brookside Gardens Master Plan #078702. In FY20, increased appropriation for contributions by \$800,000. FY18 current revenue reduced \$100k to reflect the FY18 Savings Plan. FY19 Special Appropriation of \$1M in Contributions. In FY22, the FY20 column and appropriation was reduced by \$1,299,000 to more closely align with actual contributions under this program; and a \$50,000 reduction in FY22 Current Revenue: General for fiscal capacity. In addition, the FY20 column was adjusted to more closely reflect actual donations to this project.

DISCLOSURES

Expenditures will continue indefinitely.

Expenditure / Encumbrances	6,961		
Unencumbered Balance	5,288		

PROJECT DESCRIPTION

This project provides design and construction of water quality improvements, best management practices, and environmental enhancements throughout the park system. This work may include stormwater retrofits, outfall restorations, riparian enhancements, stream restorations, native plantings, non-native invasive plant removals, impervious removals, etc. Improvements may include, but are not limited to, drainage improvements, grading, site work, plantings, signage, structural maintenance, dam breach/removal, infrastructure and utility protection, etc. and are often combined with other projects.

COST CHANGE

Increase due to the addition of two fiscal years to this ongoing project and an increase in overall project scope.

PROJECT JUSTIFICATION

The project meets Montgomery County's water quality goals, Chapter 19, Article IV of the Montgomery County Code: to protect, maintain, and restore high quality chemical, physical, and biological conditions in the waters of the State in the County. This project is also supported by the Countywide Stream Protection Strategy, Comprehensive Watershed Inventories, and Parks' Phase II NPDES MS4 Permit commitments.

OTHER

The Montgomery Parks Department of the Maryland-National Capital Park and Planning Commission (M-NCPPC) and the Montgomery County Department of Environmental Protection (DEP) have agreed that M-NCPPC will serve as the lead agency for implementing stream restoration projects including long term monitoring and maintenance, that are located wholly or mostly on parkland, and will implement the following additional stream restoration projects in the FY 19-24 CIP through this project; Clearspring Manor, Glenallan, Stoneybrook (Beach Drive to Montrose Avenue), and Grosvenor (Beach Drive to Rockville Pike). Previously, DEP had begun design work on these streams segments which are located predominantly on parkland. In FY18, DEP will provide all design work for these projects to M-NCPPC for design completion, permitting, and construction. M-NCPPC has agreed that all MS4 credits generated from these projects will be credited to the County's future MS4 permit and M-NCPPC must deliver the restored impervious acres no later than Dec. 31, 2023. M-NCPPC will provide appropriate updates at key project milestones to ensure that impervious acreage credits are achieved in the timeframe required, in addition to providing the long-term monitoring and maintenance required for the County to maintain the impervious acreage credit. These projects are currently estimated to have a combined cost of \$2.4M, providing approximately 44 acres of credit. M-NCPPC will utilize its resources for completing design/permitting. M-NCPPC will provide updated schedule and cost information on all projects within FY19 for construction funding allocation from this project beginning in FY20, based on MDE's Water Quality Revolving Loan Fund (WQRLF) cycle timeframes. M-NCPPC and DEP will immediately begin working on an MOU detailing how projects completed by Parks, funded with WQPF dollars, with MS4 credits going to the DEP will be handled. M-NCPPC will document all MS4 credits created through these projects in accordance with MDE requirements to obtain State approval for the Permit credits. M-NCPPC will continue to identify future stream restoration projects throughout the Stream Valley Park system through inter-agency collaboration that provide ecological benefit, infrastructure protection, MS4 credits, and other watershed benefits for future implementation. M-NCPPC recognizes that stream restoration projects with relatively small segments on Park property may be selected by the County's contractor. If selected by the County's contractor and approved by DEP with concurrence from Parks, the County's contractor will need to obtain a Park Permit and comply with all M-NCPPC requirements.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$12,854,000. FY13 transfer in of \$129K GO Bonds from Lake Needwood Modifications #098708. Water Quality Current Revenue replaces G.O. Bonds in FY19. Maryland Department of the Environment (MDE) Water Quality Revolving Loan Funds (Long Term Financing) replaces G.O. Bonds in FY20 and beyond. In FY20, \$800,000 in Current Revenue: Water Quality Protection Fund replaces Long Term Financing, and in FY21, \$1,500,000 in Current Revenue: Water Quality Protection Fund replaces Long Term Financing. In addition, \$600,000 in Long Term Financing is slipped from FY20 to FY21. In FY21, received \$600k in Contributions for the Cabin John Watershed. FY22 appropriation request is \$600,000 less than FY22 expenditures to correct excess appropriation received in FY21 (\$600,000 Long Term Financing that was slipped from FY20 to FY21 was already appropriated in FY20). FY23, replaced \$700k Long-Term Financing with Current Revenue: Water Quality Protection to address delay of loan application while the County and M-NCPPC were negotiating a Memorandum of Understanding to meet loan application and processing of MDE. Additionally, for FY23-28 \$250k Current Revenue: Water Quality Protection replaces Long-Term Financing. In FY24-26, Current WQP and WQP Bonds replaced the use of Long-Term Financing, and excess Long -Term Financing was removed.

DISCLOSURES

Expenditures will continue indefinitely.

PROJECT DESCRIPTION

This project provides design and construction of improvements to the hard surface trail system and connectors on parkland. Improvements may include, but are not limited to, pavements, site amenities (i.e. drinking fountains, benches, bike racks, bike repair stations, trailheads, etc.), safety improvements, skills facilities, rehabilitations, bridges and boardwalks, barriers, accessibility and drainage improvements, grading, site work, signage, etc. and are often combined with other projects.

COST CHANGE

Cost change due to the addition of FY29 and FY30 to this ongoing project, additional funding required to match federal grants and ongoing work associated with this program.

PROJECT JUSTIFICATION

Connectors, safety improvements, signage, and amenities increase trail usage for recreation and promote walking and biking as alternatives to vehicular transportation. In park user surveys, hiking and biking on trails is the most frequent recreation activity reported. Biking and walking paths top respondents' lists of desired facilities or greatest facility shortages. 2016 Countywide Park Trails Plan, 2017 Park, Recreation, and Open Space Plan.

FISCAL NOTE

The fiscal note has been updated to reflect the addition of \$3.5M in Federal funds attributed to the Streets for All (SSA4A) grant, as well as \$750K in GO Bonds in FY25.

DISCLOSURES

Expenditures will continue indefinitely.

COORDINATION

PROJECT DESCRIPTION

This project provides design and construction of renovation, reconfiguration, and modernization of the hard surface trail system and connectors on parkland. Improvements may include, but are not limited to, pavements, bridges and boardwalks, site amenities (i.e. drinking fountains, benches, bike racks, bike repair stations, trailheads, etc.), safety improvements, connections, restorations, barriers, accessibility and drainage improvements, grading, site work, signage, etc. and are often combined with other projects.

COST CHANGE

Cost change due to the addition of FY29 and FY30 to this ongoing project, and additional funding required to match federal grants to renovate existing trails and the ongoing work associated with this trail program.

PROJECT JUSTIFICATION

Scheduled maintenance and renovation promotes safety and reduces long-term maintenance costs. In park user surveys, hiking and biking on trails is the most frequent recreation activity reported. Biking and walking paths top respondents' lists of desired facilities or greatest facility shortages. 2016 Countywide Park Trails Plan, 2017 Park, Recreation, and Open Space Plan.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$5,284,000. FY22 added \$350k State Aid for Wheaton Regional Park Bond Bill (\$200k) and Randolph Hills Local Park (\$150k). \$500k of Federal Aid was provided in FY24 and will be used to rehabilitate approximately three miles of trails, seven miles of walking paths, and two miles of roadway in the South Germantown Recreational Park. The fiscal note has been updated to reflect the addition of \$500K in Federal funds attributed to the Safe Streets 4 All (SS4A) grant as well as \$1.5M in GO Bonds in FY25.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project provides design and construction for creation, renovation, reconfiguration, and modernization of the natural surface trail system on parkland. Improvements may include, but are not limited to, pavements, bridges and boardwalks, site amenities (i.e. drinking fountains, benches, bike racks, bike repair stations, overlooks, trailheads, etc.), safety improvements, connections, restorations, skills facilities, barriers, signage, ADA access and drainage improvements, grading, wood chips, soil mixtures, gravel/stone, site work, signage, etc. and are often combined with other projects. The projects will create and improve natural surface trails, and it will also help support natural resource-based recreation uses such as bicycling, hiking, running, horseback riding, bird watching, nature photography, wildlife viewing, kayaking, rowing, canoeing, and fishing, etc. Natural surface trails will utilize Americans with Disabilities Act (ADA) guidelines for Outdoor Recreation, but access may be limited due to site constraints.

COST CHANGE

Change due to increased project scope and addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

Improvements address only the highest priority needs for each trail and presume some volunteer assistance for hand labor. Projects in Rock Creek, Rachel Carson, Little Bennett, and Black Hill implement park master plans. This CIP Project implements the natural surface recreational trail component of the Countywide Park Trails Plan and trail recommendations in area master plans. 2016 Countywide Park Trails Plan, 2017 Park, Recreation, and Open Space Plan.

FISCAL NOTE

Prior year partial capitalization of expenditures through FY16 totaled \$3,331,000. MNCPPC was awarded a State Bond Bill of \$105k in FY18 for Western Piedmont Trail Connector. FY14 transfer out of \$45,000 GO Bonds to Montrose Trail, #038707. FY18 current revenue reduced \$30k to reflect the FY18 Savings Plan. In FY21, added Contributions for trail improvements near the Cabin John Watershed. GO bonds are intended to be used for bridge construction. The fiscal note has been updated to reflect a \$200K increase in Current Revenue: General Funds from \$300K to \$500K for this ongoing program.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

PROJECT DESCRIPTION

This project funds design and construction of various park elements in local and non-local parks within the Energized Public Spaces Study Area throughout the county. Projects may create new amenities, renovate amenities, restore sites, or convert existing amenities. Amenities and work may include, but are not limited to dog parks, community gardens, skateboard facilities, water features, lighting, outdoor games, picnic shelters, public art, seating, exercise and play equipment, courts, activation support features, civic greens, accessibility and drainage improvements, signage, landscaping, hardscapes, walkways, site and recreation amenities, retaining walls, park management support elements, utilities, site work, park structures, etc. and are often combined with other projects. Any realignment of the remaining two lanes between Dorset and Arlington on Little Falls Parkway must be reviewed by Council before funds may be utilized for this purpose. No funds may be utilized for the implementation of a linear park in this section of Little Falls Parkway.

COST CHANGE

Increase due to the addition of FY29 and FY30 to this ongoing project.

PROJECT JUSTIFICATION

Vision 2030 recommended the following guiding principles for meeting future park and recreation needs in the County, which are reflected in the approved PROS 2017 plan service delivery strategy: balance renovation and conversion of older parks and facilities with new construction; respond to changing priorities by redefining existing land and facilities to provide different kinds of services; and deliver services to areas of highest need. This project will deliver amenities to urban parks which are in the areas of highest need. Approved plans and studies, including the 2018 Energized Public Spaces (EPS) Functional Master Plan, the 2019 Energized Public Spaces Design Guidelines, and the 2019 Site Suitability Study for Dog Parks.

OTHER

The goal of this level-of-effort project is to fund one urban park element per year to meet the high needs of urban areas. Funding for Norwood Park in FY23 will be used for other needs. An alternative location for a dog park to serve Downtown Bethesda is being sought.

FISCAL NOTE

FY20 Supplemental Appropriation of \$200k in State Aid for Columbia LP. Prior year partial capitalization of expenditures through FY16 totalled \$250,000.

DISCLOSURES

Expenditures will continue indefinitely. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

M-NCPPC Planning Department; Montgomery County Departments of Transportation, Permitting Services, Environmental Protection; Regional Services Center and Urban Districts.

PROJECT DESCRIPTION

This project funds design and construction of various safety improvements and traffic calming for trail intersections and along park roads throughout the park system. Projects may include signage, signalization, reconfiguration, realignment, pavement marking, raised crosswalks, lighting, traffic calming measures, grading, drainage, pavement rehabilitation, etc. Improvements may include, but are not limited to, pavements, site amenities, barriers, restorations, accessibility and drainage improvements, grading, site work, signage, etc. and are often combined with other projects. Any realignment of the remaining two lanes between Dorset and Arlington on Little Falls Parkway must be reviewed by Council before funds may be utilized for this purpose. No funds may be utilized for the implementation of a linear park in this section of Little Falls Parkway.

COST CHANGE

Change due to the addition of FY29 and FY30 to this ongoing project, and additional funding required to match federal grant and

ongoing work associated with Vision Zero safety improvements.

PROJECT JUSTIFICATION

Expedited Bill 33-13, Effective 12-03-2014

DISCLOSURES

PROJECT DESCRIPTION

Warner Circle Special Park (WCSP), located in the heart of the Kensington Historic District, was the home of Brainard Warner, the founder of the Town of Kensington and a significant figure in the development of Montgomery County. This 4.5-acre park was acquired through the Legacy Open Space program to preserve historic structures and valuable public open space in a down county location. This PDF funds (1) repair work to stabilize the manor house and carriage house in preparation for adaptive reuse and (2) improvements to the parkland surrounding the historic structures to create an attractive and functional park. Park improvements funded by this project to date include: demolished nursing home wings and restored associated parkland; addressed deferred maintenance of significant trees and landscaping; re-created the historic loop road; and stabilized the main house by reconstructing historic exterior walls, repairing damaged porches and roof areas, and rebuilding the rear stone terrace.

After a lengthy search for an appropriate adaptive reuse, the historic structures are proposed to be sold to a residential developer specializing in historic structures via a condominium regime that would retain the park in public ownership save for an approximate

6-foot buffer around the buildings. The disposition and conversion of the buildings into private residences will be governed by an existing Maryland Historical Trust preservation easement, Historic Preservation Commission review, and other binding legal contracts to ensure the preservation of the historic resources and appropriate integration of the private units into a well-used and well-loved public park, including full public access to the park grounds and some public access to the historic buildings and terraces for special events. If disposition of the buildings for residential conversion does not proceed, public private partnerships or other tools to achieve appropriate adaptive reuse will be pursued. This PDF will continue to fund improvements to the public amenities on this significant historic park.

ESTIMATED SCHEDULE

Phase I completed in FY14. Structural stabilization complete in 2017. Negotiations are ongoing with potential unsolicited partner.

PROJECT JUSTIFICATION

Montgomery County Master Plan for Historic Preservation (1979); Kensington Historic District listed in 1986; From Artifact to Attraction: A Strategic Plan for Cultural Resources in Parks (2006); National Register of Historic Places: Kensington Historic District (1980); Vision for Kensington: A Long-Range Preservation Plan (1992); Legacy Open Space Functional Master Plan (2001); Facility Plan approved by Planning Board (2011)

FISCAL NOTE

In 2004, 2006, 2010, 2011 and 2015 a total of \$725,000 in state bond bills was awarded to M-NCPPC for this project. State Board of Public Works has approved consent that Parks, via County approval, may dispose of two buildings while retaining ownership of all ground and has forgiven loan repayment, affirming that all bonds were used for permanent historic preservation improvements to the property.

DISCLOSURES

A pedestrian impact analysis has been completed for this project. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Restoration of Historic Structures, PDF# 808494, Maryland Historical Trust, Town of Kensington, Montgomery County Historic Preservation Commission. Parks has committed to a great deal of community outreach on this project as well as research into uses that can be accommodated by the building code. Agreeing on an appropriate and necessary use for this building is essential at this time to prevent further vandalism and the unnecessarily rapid deterioration that accompanies vacant structures.

PROJECT DESCRIPTION

This project provides planning, design and construction for the renovation, conversion, modernization, and/or replacement of aging, unsafe, or obsolete park amenities and infrastructure throughout Wheaton Regional Park, including new facilities. Projects include the Adventure Sports Park, bicycle and pedestrian improvements, entrance enhancements, wayfinding, parking lot renovations/expansions, community gardens, dog park facilities, court renovations and conversions, restroom building improvements, active recreational facilities, picnic shelter areas, site and recreational amenities, activation of the Shorefield House and Henderson Avenue areas, environmental restorations, maintenance facilities, natural and cultural interpretation facilities and signage, hardscapes, landscapes, structures, lighting, trails, bridges, etc. Improvements may include, but are not limited to, renovating and/or converting existing amenities, restoring and/or modernizing facilities, improving infrastructure, etc. and may be combined with other projects. Projects will be added based on the Wheaton Master Plan update and ongoing needs assessments.

ESTIMATED SCHEDULE

Design FY23. Construction to begin in FY24.

COST CHANGE

Cost increase is due the addition of FY29 and FY30, as well as the estimated costs of the ongoing work to implement the various projects associated with the Wheaton Regional Park Master Plan.

PROJECT JUSTIFICATION

This project is within the recommendations of the Wheaton Regional Park Master Plan, VISION 2030: Strategic Plan for Parks and Recreation in Montgomery County, Maryland, 2017 Park, Recreation and Open Space (PROS) Plan as well as ADA Transition Plan that was submitted to the Department of Justice (DOJ).

FISCAL NOTE

\$2.5 million of Program Open Space funding was provided in FY24. \$1.7 millions of GO Bond was also provided in FY25.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. M-NCPPC asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

Summary: These four projects, with an estimated total cost of \$946.2 million, provide funding for the upgrade, expansion, and enhancement of wastewater treatment and solids handling facilities at the regional Blue Plains Wastewater Treatment Plant, located in the District of Columbia. Whereas typical WSSC Water projects encompass planning, design, construction, and start-up for a single project, with defined starting and ending dates, the Blue Plains projects are comprised of many sub-projects and are “open-ended.” As the Blue Plains Facility Plans move forward and new sub-projects are approved, the costs of these new sub-projects are added to the appropriate existing Blue Plains project. The expenditures displayed represent WSSC Water’s calculated share. There are four main funding divisions: liquid treatment train (S-22.06); biosolids management (S-22.07); plant-wide projects (S-22.09); and, pipelines & appurtenances (S-22.11).

Cost Impact: These four Blue Plains projects, which comprise one of the largest groups of expenditures in the CIP, represent 14.4% of the Six-Year WSSC Water combined program. The figures shown above are derived from the latest available spending projections provided by the District of Columbia Water and Sewer Authority (DCWASA). Spending at the DCWASA staff-proposed rate in future years may challenge the WSSC Water’s ability to stay within County-established spending affordability limits. It is, therefore, recommended that the coordination of development and approval of the DCWASA’s and WSSC Water’s CIPs be sustained in order that the economic development and environmental objectives of the region be met, without causing a rapid increase in WSSC Water customers’ bills.

D. Description & Justification

DESCRIPTION

This project provides funding for WSSC Water's share of Blue Plains plant-wide projects for which construction began after June 30, 1993. There are 28 DC Water capital program projects covered by the WSSC Water capital project. Current projects with significant spending in FY'25 include: electrical system upgrades (TZ); floodwall construction (JF); plant-site drainage improvements (OE); plant-wide program management (AL); plant-wide steel pipe painting (EI); chemical system/building upgrades (PF); and other miscellaneous projects. Starting in FY'26 will be electrical monitoring (IC). Starting in FY'28 are implementation of solar power at Blue Plains phase 2 (XP) and control system replacement (GW).

BENEFIT

Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees; Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life

JUSTIFICATION

This is a continuation of DC Water's upgrading of the Blue Plains Wastewater Treatment Plant. Blue Plains Inter-Municipal Agreement of 2012; DCWASA Master Plan (1998); Blue Plains Facilities Master Plan (2016); and DC Water's preliminary FY'24-FY'33 Capital Improvements Program.

COST CHANGE

The schedule and expenditure projections were updated to reflect the latest estimates available from DC Water for the constituent Blue Plains joint-use projects as of May 2023.

OTHER

The project scope has remained the same. Project costs are derived from the DC Water Capital Budget 10-year forecast of spending and DC Water's latest project management data, and reflect DC Water's cost estimates and expenditure schedules available at the time this document was prepared. Given the open-ended nature of the Blue Plains projects, this PDF does not fully reflect the total project costs. These projects are, in fact, expected to continue indefinitely. As new sub-projects are added to the Blue Plains facility plans, the associated costs will be added to this project. The funding schedule also indicates the calculated Rockville share of the cost.

D. Description & Justification

DESCRIPTION

This project provides funding for WSSC Water's share of Blue Plains-associated projects which are generally situated "outside the fence" of the treatment plant. There are 30 projects from the DC Water capital program under this project. Major projects in FY'25 include: rehabilitation of various portions of the Potomac Interceptor (LZ); reactivation of the Anacostia FM/GS (PJ); on-going construction of the Potomac River Tunnel (CZ); renovations to the central office facility (COF) and central maintenance facility (CMF) at Blue Plains (HJ and HK); and various on-going rehabilitation projects on major sewers including the AFM, RCMI, Oxon Run and influent sewers to Blue Plains (RC and RD).

BENEFIT

Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees; Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life; Environmental Sustainability: This project supports WSSC Water's commitment to protect the natural environment of Prince George's and Montgomery Counties

JUSTIFICATION

This is a continuation of DC Water's upgrading of the Blue Plains-associated projects outside the fence. Blue Plains Inter-Municipal Agreement of 2012; DCWASA Master Plan (1998); Technical Memorandum No. 1, Multi-Jurisdictional Use Facilities Capital Cost Allocation (June 2013); and DC Water's preliminary FY'24-FY33 Capital Improvements Program.

COST CHANGE

The schedule and expenditure projections were updated to reflect the latest estimates available from DC Water for the constituent Blue Plains joint-use projects as of May 2023.

OTHER

The project scope has remained the same. Project costs are derived from the DC Water Capital Budget 10-year forecast of spending and DC Water's latest project management data, and reflect DC Water's cost estimates and expenditure schedules available at the time this document was prepared. Given the open-ended nature of the Blue Plains projects, this PDF does not fully reflect the total project costs. These projects are, in fact, expected to continue indefinitely. As new sub-projects are added to the Blue Plains facility plans, the associated costs will be added to this project. The funding schedule also indicates the calculated Rockville share of the cost, which varies by project based on the City's relative share of WSSC Water's flow as derived in the Multi-Jurisdiction Use Facilities Study.

DC Water Contribution	5,972	225	525	5,222	2,513	2,205	504				

D. Description & Justification

DESCRIPTION

This project provides for the replacement of transformers, switch gear, and MCC-A with redesign of 13.8kv switch gear in two IPA enclosures and 4.16KV switch gear in one IPA enclosure at the Anacostia #2 Wastewater Pump Station (WWPS). The Anacostia #2 WWPS is WSSC Water's largest and most critical WWPS with an average flow of 50 to 60 MGD, and storm peaks up to 260 MGD instantaneous flow. This WWPS receives wastewater from a large portion of WSSC Water's service area and delivers it to the Blue Plains Advanced Wastewater Treatment Plant in Washington, DC. Secondly, this project involves replacement of five existing bar screens and associated electrical upgrades and implementing NFPA 820 requirements for the pump station. Thirdly, the coarse screening of Beaver Dam S.A. flows will be evaluated and rehabilitated. Fourthly, this project includes replacement of the pump station's roof.

BENEFIT

Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life; System Capacity: This project will enhance existing infrastructure by building additional capacity in order to meet existing and/or future demand; Employee Safety: This project includes components that help protect the health and safety of employees

JUSTIFICATION

The majority of the electrical equipment, excluding all 4.16kv MCCs and the unit substation, were installed with the original construction in the late 1970s and is beyond its useful life. In addition, several equipment parts are becoming increasingly difficult to find since the equipment is obsolete. Failure of any of the above critical components could cause serious issues in providing reliable power to the pump station. This replacement, rehabilitation, and upgrade work was recommended by various business case evaluations undertaken as part of WSSC Water's Asset Management Program.

COST CHANGE

The schedule and expenditure projections were revised based upon updated engineer's estimates.

OTHER

The project scope has remained the same. The schedule and expenditure projections shown in Block B above are a mix of preliminary design and planning level estimates and are expected to change based upon site conditions and design constraints. DC Water will contribute a share of the electrical upgrades and bar screens project costs, which is indicated on the funding schedule shown in Block C above.

D. Description & Justification

DESCRIPTION

This project will develop a comprehensive program for the engineering, design, construction, maintenance, monitoring, and verification necessary to add sustainable energy equipment and systems to produce biogas and electricity at Piscataway WRRF. It will provide a reduction in operations, maintenance, chemicals, biosolids transportation, and biosolids disposal costs. It will also enhance existing operating conditions and reliability while continuing to meet all permit requirements, and ensure a continued commitment to environmental stewardship at WSSC Water sites. The scope of work includes, but is not limited to, the addition of anaerobic digestion equipment; thermal hydrolysis pretreatment equipment; gas cleaning, storage, and upgrade systems; tanks; piping; valves; pumps; biosolids pre- and post-dewatering; cake receiving and blending; cake storage; effluent disinfection systems; instrumentation; flow metering; power measurement; and combined heat and power generation systems.

BENEFIT

Environmental Sustainability: This project supports WSSC Water's commitment to protect the natural environment of Prince George's and Montgomery Counties; **Financial Efficiency:** This project is expected to increase revenues, decrease expenses, or both; **Innovation:** This project utilizes new ideas, methods, and/or research to streamline processes, enhance services, and reduce costs

JUSTIFICATION

In March 2009, WSSC Water received approval for a federal Department of Energy grant of \$570,900 for the feasibility study/conceptual design phase. On June 16, 2010, WSSC Water awarded the study contract to AECOM Technical Services, Inc., of Laurel, Maryland. The study was completed in December 2011, and the Thermal Hydrolysis/Mesophilic Anaerobic Digestion/Combined Heat & Power facility was recommended to be constructed and was presented to WSSC Water in April 2012.

The EPA is urging wastewater utilities to utilize this commercially available technology (anaerobic digestion) to produce power at a cost below retail electricity, displace purchased fuels for thermal needs, produce renewable fuel for green power programs, enhance power reliability for the wastewater treatment plant to prevent sanitary sewer overflows, reduce biosolids production and improve the health of the Chesapeake Bay, and reduce greenhouse gas (GHG) and other air pollutants. In April 2009, the EPA announced that greenhouse gases contributed to air pollution that may endanger public health or welfare, and began proceedings to regulate CO2 under the Clean Air Act. In June 2014, the EPA announced a proposed rule to reduce carbon emissions from power plants by 30% by 2030, compared to the levels in 2005. Based on AECOM's feasibility study work as of May 2011, a regional/centralized plant design based on a Thermal Hydrolysis/Mesophilic Anaerobic Digestion/Combined Heat & Power (TH/MAD/CHP) process supplemented by restaurant grease fuel was recommended.

The environmental benefits are estimated as follows: recover approximately 2 MW of renewable energy from wastewater biomass; reduce greenhouse gas production; reduce biosolids output; reduce lime demand; maintain permitted nutrient load limits to the Chesapeake Bay; reduce 5 million gallons/year of grease discharge to sewers; and produce pathogen-free Class A Biosolids.

The economic benefits include recovery of more than \$1.5 million of renewable energy costs/year; reduction of biosolids disposal costs; reduction of chemical costs; hedge against rising costs of power fuel and chemicals.

Plans & Studies: Appel Consultants, Urban Waste Grease Resource Assessment-NREL (November 1998); Environmental Protection Agency (EPA), Opportunities For and Benefits Of Combined Heat and Power at Wastewater Treatment Facilities (December 2006); Brown & Caldwell, Anaerobic Digestion and Electric Generation Options for WSSC (November 2007); Metcalf & Eddy, WSSC Sludge Digestion Study for Piscataway and Seneca (December 2007); Black & Veatch, WSSC Digester Scope and Analysis (December 2007); JMT, Prince George's County Septage (FOG) Discharge Facility Study (February

2008); JMT, Western Research Institute (WRI) Biogas Feasibility Study Scope of Work - WSSC (April 2008); JMT, Montgomery County Septage (FOG) Discharge Facility Study (January 2010); Facility Plan for the Rock Creek Wastewater Treatment Plant (January 2010); AECOM Technical Services, Inc., Anaerobic Digestion/Combined Heat & Power Study (December 2011, Executive Summary Revised May 2013); HDR Inc. Design Development Report (March 2017).

COST CHANGE

Not applicable.

OTHER

The project scope has remained the same. WSSC Water has a defined scope and estimated capital cost, and is able to proceed with the detailed design and construction of the anaerobic digestion, biomass, and combined heat and power generation system facilities for treating all biosolids from WSSC Water's Damascus, Seneca, Parkway, Western Branch, and Piscataway WRRFs. The Montgomery and Prince George's County Councils were briefed and approved the project by resolution on November 25, 2014 and September 9, 2014, respectively. In June 2017 WSSC Water was approved for a \$3 million grant through the Maryland Department of the Environment's (MDE) Energy Water Infrastructure Program (EWIP). WSSC Water will continue to apply for other available funding sources. WSSC Water retained the following consulting services: in 2015 - Hawkins, Delafield and Wood - procurement; Raftelis Financial Consultants - financial; in 2016 - HDR Engineering, Inc. for program management and construction management for the Bioenergy project. In September 2017 WSSC Water issued a Request for Proposals (RFP) to two design-build entities for a progressive design-build delivery of the Bioenergy project. Transporting biosolids from Western Branch WRRF to Piscataway was included in the FY'19 program update. A portion of this project will be financed by low interest loans and grant funding through MDE's Water Infrastructure Financing Administration's Water Quality Revolving Loan Fund Program. In June 2018 WSSC Water awarded a Progressive Design-Build Contract to PC Construction for the Bioenergy project. In FY'19 the Solids Screenings at Four Remote WRRFs, Contract No. CD6630A19, was incorporated. The construction phase of biosolids screens at three remote facilities, Western Branch, Parkway and Damascus was substantially completed in mid FY'23. In January 2020, the Maryland Energy Administration notified WSSC Water of approval of grant funding up to \$351,750 for Combined Heat & Power. WSSC Water has also applied for grants from SMECO, a local power utility. In December 2020 Phase 1 of the Bioenergy project was completed. A Gas Supply and Delivery Contract with Washington Gas Light for natural gas delivery to and from the Piscataway WRRF in the amount of \$8,510,000 was negotiated and executed on May 10, 2021. The construction phase of the Gas Supply and Delivery Contract was substantially completed in April 2023. In April 2023, the project received approval for \$2,500,000 in additional grant funding through MDE.

------------	---------	--	--------	---------	--------	--------	--------	--------	--------	--------

D. Description & Justification

DESCRIPTION
 The Trunk Sewer Reconstruction Program provides for the inspection, evaluation, planning, design, and construction required for the rehabilitation of sewer mains and their associated manholes in environmentally sensitive areas (ESAs). This includes both trunk sewers 15-inches in diameter and greater, along with associated smaller diameter pipe less than 15-inches in diameter. The smaller diameter pipe is included due to its location within the ESA. The program also includes planning, design, and construction for the prioritized replacement of force mains.

BENEFIT
 Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees; Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life; Environmental Sustainability: This project supports WSSC Water's commitment to protect the natural environment of Prince George's and Montgomery Counties

JUSTIFICATION
 Under the terms of the Consent Decree the WSSC Trunk Sewer Inspection Program inspected all required sewers in 21 basins by December 2010 and completed Sewer System Evaluation Surveys (SSES) for 9 basins. WSSC Water shall conduct rainfall, groundwater, and flow monitoring to determine Inflow/Infiltration (I/I) rates and identify areas of limited capacity through collection system modeling. Where appropriate, WSSC Water shall use additional means to identify sources of I/I, including CCTV, smoke, and/or dye testing. All the Trunk Sewer Inspections, SSES work, and other related collection system evaluations are complete. Due to the delay in receiving permits, as well as Right-of-Entry permissions and subcontractor availability, trunk sewer reconstruction work has been delayed. All USACE and MDE permits have been received. WSSC Sanitary Sewer Overflow Consent Decree (December 7, 2005). Second Amendment to WSSC Sanitary Sewer Overflow Consent Decree (December 4, 2015).

COST CHANGE

Program costs reflect the latest schedule and expenditure estimates based upon the recommendations from the Buried Wastewater Assets System Asset Management Plan.

OTHER

The project scope has remained the same. Reconstruction work will include: reduction of I/I; replacement of substandard sewer segments; in situ lining of sewer segments; pipeline and manhole protection; rebuilding of manholes; and correction of structural defects and poor alignment. The reconstruction work in each sewer basin will be prioritized to most effectively prevent SSOs and backups. A Second Amendment to the Consent Decree extending WSSC Water's deadline to FY'22 was agreed to by the U.S. Environmental Protection Agency, U.S. Department of Justice, and Maryland Department of the Environment and was entered by the U.S. District Court. All construction contracts for ESA work have been awarded and the approved amounts have been utilized in the current budget projections. As actual construction progresses the projections may be updated. Most of the upfront costs are associated with the construction of access roads and by-pass pumping. After completion of a majority of the Priority 1 construction activities associated with the Consent Decree, Phase 2 work (Priority 2 & 3 plus any newly identified Priority 1) is programmed at roughly eight miles per year beginning in FY'25. Future land costs are included in project S-203.00.

COORDINATION

Coordinating Agencies: Maryland Department of Natural Resources; Maryland Department of the Environment; Maryland Historical Trust; Maryland State Highway Administration; Maryland-National Capital Park & Planning Commission; Montgomery County Department of Public Works and Transportation;

D. Description & Justification

DESCRIPTION

This project provides a consolidated estimate of funding for the acquisition of land and rights-of-way for sewer projects and programs. Expenditures are programmed based upon anticipated schedules and are required for the completion of those specific projects. These costs do not include purchases which have already been completed.

BENEFIT

Financial Efficiency: This project is expected to increase revenues, decrease expenses, or both

JUSTIFICATION

Consolidation of expenditures for land and rights-of-way acquisitions provides flexibility in expending funds in a specific fiscal year and permits WSSC Water to respond to the uncertainty of project-specific implementation schedules. Other considerations include the accommodation of unpredictable delays which impact the timing of a planned purchase, unanticipated rights-of-way requirements due to minor alignment changes identified late in the design phase, and the need to assure WSSC Water an equitable negotiation position by avoiding project-specific cost displays prior to contacting property owners.

Acquisition needs are determined by WSSC Water and are based upon facility planning efforts, alignment studies, field surveys, realignments required by other agencies, or requirements identified within the Development Services Process.

COST CHANGE

Not applicable.

OTHER

The project scope has remained the same. The schedule and expenditure projections shown in Block B above are estimates only and may change based upon actual negotiations. When purchases are complete, the actual cost will be displayed in the expenditure schedule on the appropriate project.

D. Description & Justification

DESCRIPTION

This project provides for the planning, design, and construction of the modifications to the Arcola Wastewater Pumping Station and replacement of the Arcola Force Main. The rehabilitation will replace both pumps, maintaining the pumping station's 0.17 MGD capacity. The existing 1,300 linear feet of 4-inch force main will be replaced. In addition, replacement of all electrical and mechanical components, piping assets, and the HVAC system are included.

BENEFIT

Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life

JUSTIFICATION

The existing pumping station and force main were constructed in 1961 and have reached the end of their useful lives. Replacement of the existing force main is in accordance with an initiative to prioritize replacing force mains that have reached their anticipated life expectancy. This upgrade work was recommended as part of WSSC Water's Asset Management Program (CNPV #183).

COST CHANGE

Not applicable.

OTHER

The project scope has remained the same. The schedule and expenditure projections shown in Block B above are preliminary planning level estimates and are expected to change based upon site conditions and design constraints. Planning work for the replacement and upgrade began in FY'21 under ESP S-616.01, Arcola Force Main Replacement and WWPS Upgrade.

D. Description & Justification

DESCRIPTION

This project provides for the planning, design, and construction of a 0.12 MGD wastewater pumping station and 3,521 linear feet of force main. The relocated wastewater pumping station and force main will provide service to the existing and future Ashton Service Area.

BENEFIT

Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life; System Capacity: This project will enhance existing infrastructure by building additional capacity in order to meet existing and/or future demand

JUSTIFICATION

The existing pumping station was originally installed in 1977 and has reached the end of its useful life. The station does not meet current standards and is in jeopardy from encroaching streambank erosion. Replacement of the existing force main is in accordance with an initiative to prioritize replacing force mains that have reached their anticipated life expectancy. This upgrade work was recommended as part of WSSC Water's Asset Management Program (CNPV #191).

COST CHANGE

Not applicable.

OTHER

The project scope has remained the same. The schedule and expenditure projections shown in Block B above are preliminary planning level estimates and are expected to change based upon site conditions and design constraints. Planning work began in FY'21 under ESP S-625.02, Sam Rice Manor WWPS Rehabilitation. Future land costs are included in project S-203.00.

D. Description & Justification

DESCRIPTION

This project provides for the planning, design, and construction of approximately 12,390 feet of 15-inch diameter or larger sewer mains to serve the Johns Hopkins Medical Research Park and vicinity. This work will extend service to the new development and replace existing sewer mains downstream of the development.

BENEFIT

Economic Development: This growth project supports the economic development goals of the Counties

JUSTIFICATION

Johns Hopkins Medical Research Park Hydraulic Planning Analysis (February 2022).

COST CHANGE

Not applicable.

OTHER

The project scope has remained the same. The schedule and expenditure projections shown in Block B above are based upon information provided by the developer. The estimated completion date is developer dependent. No WSSC Water rate supported debt will be used for this project.

SDC	3,096	197	155	2,744	1,323	1,242	179				

D. Description & Justification

DESCRIPTION
 This project provides for the planning, design, and construction of a 0.416 MGD wastewater pumping station (WWPS), approximately 2,100 linear feet of gravity sewer, and 2,100 linear feet of force main (FM). The new WWPS and associated FM and gravity sewer will provide service to the existing and future Damascus Town Center service area.

BENEFIT
 Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life; System Capacity: This project will enhance existing infrastructure by building additional capacity in order to meet existing and/or future demand; Environmental Sustainability: This project supports WSSC Water's commitment to protect the natural environment of Prince George's and Montgomery Counties

JUSTIFICATION
 The existing pumping station, which is over 45 years old, was originally built as a privately owned facility and did not conform to WSSC Water standards. The pumping station was taken over by WSSC Water in the late 1970s. It has reached the end of its useful life and replacement parts are obsolete. Additionally, the capacity of the pumping station must be increased to accommodate the future service area in accordance with the Maryland-National Capital Park & Planning Commission Damascus Master Plan. The pumping station replacement was recommended by the Damascus Town Center WWPS Business Case Evaluation, Black & Veatch (September 2017) undertaken as part of WSSC Water's Asset Management Program.

COST CHANGE
 Not applicable.

OTHER
 The project scope has remained the same. The schedule and expenditure projections shown in Block B above are preliminary design level estimates and are expected to change based upon site conditions and design constraints. Planning work began in FY'18 under ESP S-602.01, Damascus Town Center WWPS Replacement.

D. Description & Justification

DESCRIPTION

This project provides for the planning, design, and construction of a 1.3 MGD wastewater pumping station, 7,500 linear feet of force main, and 900 linear feet of gravity sewer. The relocated wastewater pumping station and force main will provide service to the existing and future Spring Gardens service area.

BENEFIT

Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life; System Capacity: This project will enhance existing infrastructure by building additional capacity in order to meet existing and/or future demand; Environmental Sustainability: This project supports WSSC Water's commitment to protect the natural environment of Prince George's and Montgomery Counties

JUSTIFICATION

The existing pumping station and force main are over 45 years old and have reached the end of their useful lives. Additionally, the existing capacity of the pumping station must be increased to accommodate build-out of the service area and therefore it must be replaced with a new facility rated at 1.3 MGD. This replacement work was recommended by various business case evaluations undertaken as part of WSSC Water's Asset Management Program.

COST CHANGE

Not applicable.

OTHER

The project scope has remained the same. The schedule and expenditure projections shown in Block B above are preliminary planning level estimates and are expected to change based upon site conditions and design constraints. Planning work began in FY'18 under ESP S-602.26, Spring Gardens WWPS Replacement. Future land costs are included in project S-203.00.

Summary: This group of projects represents operational improvements to the Potomac Water Filtration Plant (WFP) in Montgomery County. The Potomac WFP Submerged Channel Intake project (W-73.30) will provide an additional barrier against drinking water contamination, enhance reliability, and reduce treatment costs by drawing water from a location with a cleaner, more stable water quality. The Potomac WFP Main Zone Pipeline project (W-73.32) provides an 84-inch diameter redundancy main from the Main Zone pumping station to the 96-inch diameter and 66-inch diameter main wye connections on River Road, upgrades to the High Zone pumping station, and replacement of the existing 78-inch and 48-inch PCCP discharge mains. The Potomac WFP Consent Decree Program project (W-73.33) provides for the planning, design, and construction required for the implementation of Short-Term Operational and Long-Term Capital Improvements at the Potomac Water Filtration Plant (WFP) to allow WSSC Water to meet the new discharge limitations identified in the Consent Decree.

Cost Impact: Due to budgetary constraints, the Potomac WFP Submerged Channel Intake project (W-73.30) has been deferred to beyond six years. Expenditure projections for the Potomac WFP Main Zone Pipeline (W-73.32) were increased to reflect inflation. Estimates for the Potomac WFP Consent Decree Program (W-73.33) were updated to reflect actual bids.

------------	---------	-------	--------	-----	-----	-----	-------	-------	--------	--------

D. Description & Justification

DESCRIPTION

This project includes planning, which involves community outreach and coordination with elected officials, design, and construction of a submerged channel intake to provide an additional barrier against drinking water contamination (particularly Giardia cysts and Cryptosporidium oocysts), as well as to enhance reliability and reduce treatment costs by drawing water from a location with cleaner, more stable water quality.

BENEFIT

Water Quality: This project supports WSSC Water's mission to provide safe, clean water by improving the quality and/or safety of drinking water; System Reliability: This project will improve service reliability through fewer and shorter service interruptions; Financial Efficiency: This project is expected to increase revenues, decrease expenses, or both

JUSTIFICATION

The project provides for a more reliable supply by eliminating the current problems associated with ice and vegetation blocking the existing bank withdrawal. This project is consistent with the industry's recommended multiple barrier approach.

Technical Memorandum No. 2 Water Quality Needs Assessment, O'Brien & Gere Engineers, Inc. (November 2001); Draft Source Water Assessment Study, Maryland Department of the Environment (April 2003); Potomac WFP Facility Plan, O'Brien & Gere Engineers, Inc. (September 2002); Draft Feasibility Study Report, Black & Veatch (November 2013).

COST CHANGE

Cost increase due to inflation.

OTHER

The project scope has remained the same. Significant outreach activities occurred as part of the planning phase of this project. The National Environmental Policy Act (NEPA) process was concluded in January 2018 when the National Park Service (NPS) approved the Environmental Assessment and transmitted its record of decision and the Finding of No Significant Impact. Future land costs are included in project W-202.00. Both Councils will review the results of the planning work and the updated costs and benefits of the project and must approve continuing the project before design and construction proceed.

D. Description & Justification

DESCRIPTION

This project provides for the planning, design, and construction of redundant finished water discharge mains, water pumping station upgrades, and other process improvements at the Potomac Water Filtration Plant (WFP) to ensure a safe and reliable water supply. This work includes the following: two new 54-inch discharge pipes from the Main Zone and High Zone pumping stations that will feed into a new 84-inch discharge main that runs to the 96-inch and 66-inch main wye connections on River Road; the addition of two new pumps in the High Zone pumping station to serve the Main Zone; a new 66-inch suction pipe to serve the new pumps in the High Zone pumping station; other modifications to the High Zone pumping station, including surge protection modifications and electrical upgrades; and replacement of the existing 78-inch and 48-inch PCCP discharge mains, which are nearing the end of their useful lives, after the new 84-inch redundant discharge main is in place.

BENEFIT

System Reliability: This project will improve service reliability through fewer and shorter service interruptions; Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life

JUSTIFICATION

The primary purpose of this project is to provide redundancy to facilitate extended shutdowns for periodic maintenance, inspections, and repairs and to mitigate the risk to plant operations due to failure of any one of the finished water mains. The existing 78-inch PCCP main, which was installed in 1967, is the primary feed to the 96-inch Montgomery County Main Zone pipeline and the 66-inch River Road pipeline. The existing 48-inch PCCP main, which was installed in 1962, serves as only a partial backup to the 78-inch line, since it is not adequately sized to meet the current summer season demands. Furthermore, the existing mains are nearing the end of their useful lives and the 78-inch main alone cannot meet the projected 2040 maximum day demands of 210 MGD. The 78-inch main and the 48-inch main together could convey 210 MGD; however, relying on both pipes to meet future demands would decrease the redundancy and reliability of WSSC Water's system. The redundancy, process improvement, and rehabilitation/replacement work recommended by the Potomac WFP Main Zone Redundancy Business Case Evaluation (CDM Smith, October 2021), undertaken as part of WSSC Water's Asset Management Program, provides value to the customer by minimizing the risk of failure and ensuring a safe and reliable supply of up to 210 MGD of water in order to meet the current and future needs of the WSSD.

COST CHANGE

Not applicable.

OTHER

The project scope has remained the same. The schedule and expenditure projections shown in Block B above are order of magnitude estimates and are expected to change based upon site conditions and design constraints. The schedule may change with the construction of the 78-inch and 48-inch replacement pipes after FY'28, once the 84-inch discharge main is in place.

D. Description & Justification

DESCRIPTION
 The Potomac WFP Consent Decree Program provides for the planning, design, and construction required for the implementation of Short-Term Operational and Long-Term Capital Improvements at the Potomac Water Filtration Plant (WFP) to allow WSSC Water to meet the new discharge limitations identified in the Consent Decree.

BENEFIT
 Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees;
 Environmental Sustainability: This project supports WSSC Water's commitment to protect the natural environment of Prince George's and Montgomery Counties

JUSTIFICATION
 The Consent Decree (CD) was Entered by the U.S. District Court of Maryland on April 15, 2016. Under the terms of the CD WSSC Water is required to "undertake short-term operational changes and capital improvements at the Potomac WFP that will enable WSSC Water to reduce significantly the pounds per day of solids discharged to the River" (CD Section II. Paragraph 6.i); and to plan, design, and implement long-term "upgrades to the existing Plant or to design and construct a new plant to achieve the effluent limits, conditions, and waste load allocations established by the Maryland Department of the Environment (the Department) and/or in this Consent Decree, and incorporated in a new discharge permit to be issued by the Department" (CD Section II. Paragraph 6.ii). The CD required WSSC Water to submit a Draft Audit Report and Draft Long-Term Upgrade Plan to the Citizens and the Department by November 15, 2016, and final reports to the Citizens and the Department by January 1, 2017. The Final Audit and Long-Term Upgrade Plan Reports were submitted to the Citizens and the Department on December 29, 2016. The Department reviews the Audit Report and selects recommended improvements in operations, monitoring, and waste tracking, along with select capital projects that can be completed no later than April 1, 2020 and that are necessary to achieve the goals identified in CD Section IV. Paragraph 24. Additionally, the work required to implement the Long-Term Capital Improvements Project(s) shall be fully implemented in accordance with the schedule set forth in the Long-Term Upgrade Plan. WSSC Water shall be subject to a lump-sum stipulated penalty in accordance with the CD for failure to implement the Long-Term Capital Improvement Project(s) by January 1, 2026.

COST CHANGE

The schedule and expenditure projections were revised based upon actual bids.

OTHER

The project scope has remained the same. The schedule and expenditure projections shown in Block B above are based on actual bids and include \$1,000,000 for Supplemental Environmental Projects included under CD Section IX. Paragraph 50. WSSC Water Green Bonds will be utilized to fund a portion of this project. The reduction in suspended solids discharged into the Potomac River will address the following International Capital Market Association (ICMA) Green Bond Principles 2016 categories: Pollution prevention/control; and Terrestrial and aquatic biodiversity conservation.

D. Description & Justification

DESCRIPTION

The purpose of this program is to plan, inspect, design, and rehabilitate or replace large diameter water transmission mains and large system valves that have reached the end of their useful life. Condition assessment and/or corrosion monitoring is performed on metallic pipelines, including ductile iron, cast iron, and steel, to identify lengths of pipe requiring replacement or rehabilitation and cathodic protection. The PCCP Inspection and Condition Assessment and Monitoring Program identifies individual pipe segments that require repair or replacement to assure the continued safe and reliable operation of the pipeline. The program also identifies extended lengths of pipe that require the replacement of an increased number of pipe segments in varying stages of deterioration that are most cost effectively accomplished by the replacement or rehabilitation of long segments of the pipeline or the entire pipeline. Rehabilitation or replacement of these mains provides value to the customer by minimizing the risk of failure and ensuring a safe and reliable water supply. The program includes installation of Acoustic Fiber Optic Monitoring equipment in order to accomplish these goals in PCCP mains.

*EXPENDITURES FOR LARGE DIAMETER WATER PIPE REHABILITATION ARE EXPECTED TO CONTINUE INDEFINITELY.

BENEFIT

Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life; System Reliability: This project will improve service reliability through fewer and shorter service interruptions; Environmental Sustainability: This project supports WSSC Water's commitment to protect the natural environment of Prince George's and Montgomery Counties

JUSTIFICATION

WSSC Water has approximately 1,031 miles of large diameter water main ranging from 16-inches to 96-inches in diameter. This includes 335 miles of cast iron, 326 miles of ductile iron, 35 miles of steel, and 335 miles of PCCP. Internal inspection and condition assessment is performed on PCCP pipelines 36-inches and larger in diameter. Of the 335 miles of PCCP, 140 miles are 36-inch diameter and larger. The inspection program includes internal visual and sounding, sonic/ultrasonic testing, and electromagnetic testing to establish the condition of each pipe section and determine if maintenance repairs, rehabilitation, or replacement are needed.

The planning and design phase evaluates the alignment, hydraulic capacity, and project coordination, among other factors, in an effort to re-engineer these pipelines to meet today's design standards. The design effort includes the preparation of bid ready contract documents including all needed rights-of-way acquisitions and regulatory permits. The constructed system is inspected and an as-built plan is produced to serve as the renewed asset record.

In July 2013, WSSC Water's Acoustic Fiber Optic monitoring system identified breaking wires in a 54-inch diameter PCCP water transmission main in the Forestville area of Prince George's County. Upon attempting to close nearby valves to isolate the failing pipe for repair, WSSC Water crews encountered an inoperable valve with a broken gear, requiring the crew to drop back to the next available valve. This dropping-back to another valve would block one of the major water mains serving Prince George's County, significantly enlarging the shutdown area and reduce our capacity to supply water to over 100,000 residents. In order to minimize the risk associated with inoperable large valves and possible water outages, the large valve inspection and repair program was initiated to systematically inspect, exercise, repair, or replace any of the nearly 1,500 large diameter valves and vaults located throughout the system.

Utility Wide Master Plan (December 2007); 30 Year Infrastructure Plan (2007); FY'25 Water Network Asset Management Plan (May 2023).

D. Description & Justification

<p>DESCRIPTION</p> <p>This project provides for the planning, design, and construction of water and sewer pipe relocations necessitated by the State of Maryland's plans to expand I-495 and I-270.</p> <p>BENEFIT</p> <p>Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees</p> <p>JUSTIFICATION</p> <p>In September 2017, the Maryland Department of Transportation (MDOT) State Highway Administration (SHA) announced a proposed highway improvement project to widen I-495 and I-270 in Montgomery and Prince George's Counties. January 2020, the Maryland Board of Public Works set a condition that the process start with Phase 1 of the project, which focuses on I-495 from the George Washington Memorial Parkway in Virginia to I-270 in Maryland and on I-270 from I-495 to I-70. February 2020, MDOT SHA issued a request for qualifications for preliminary development activities for Phase 1. July 2020, the Federal Highway Administration (FHWA) and MDOT SHA completed the draft environmental impact statement (DEIS). December 2020, a request for proposals was issued by MDOT and the Maryland Transportation Authority (MDTA) for a Phase 1 developer. January 2021, MDOT SHA recommended that Alternative 9 be identified as the preferred alternative in the DEIS. February 2021, MDOT and MDTA announced the selection of Accelerate Maryland Partners, LLC to lead the predevelopment work on Phase 1. May 2021, Alternative 9: Phase 1 South was announced as the new recommended preferred alternative by FHWA and MDOT SHA. This alternative focuses on adding two high occupancy toll (HOT) managed lanes in each direction for I-495 from the George Washington Memorial Parkway in Virginia to east of MD 187 in Maryland, for I-270 from I-495 to I-370, and on the I-270 eastern spur from east of MD 187 to I-270. This alternative includes the construction of a new American Legion Bridge.</p> <p>The preliminary plans indicate that the proposed MDOT SHA project will impact water and sewer assets owned by WSSC Water that are located in the I-495 and I-270 corridors within the WSSD. The impacted pipes range from 6 to 96-inches in diameter. WSSC Water has an existing memorandum of understanding (MOU) agreement with MDOT SHA to review and coordinate potential impacts to existing WSSC Water infrastructure to accommodate MDOT SHA highway improvement projects. Negotiations on a Framework Agreement to ensure this project poses no financial impact to ratepayers are underway.</p> <p>COST CHANGE</p> <p>Not applicable.</p> <p>OTHER</p> <p>The project scope has remained the same. The schedule and expenditure projections shown in Block B above are order of magnitude estimates based upon Alternative 9: Phase 1 South and are expected to change based upon site conditions and design constraints. The estimated completion date is developer dependent. No WSSC Water rate supported debt will be used for this project.</p> <p>COORDINATION</p> <p>Coordinating Agencies: Maryland State Department of Transportation; Maryland State Highway Administration; Maryland-National Capital Park & Planning Commission; Montgomery County Government; Prince George's County Government</p> <p>Coordinating Projects: Not Applicable</p>

D. Description & Justification

DESCRIPTION

This project includes planning, preliminary engineering, community outreach, and coordination with elected officials for a regional raw water supply reservoir and raw water conveyance system to serve the long-range water supply needs of the Washington metropolitan region. A new regional reservoir is needed to mitigate against drought and contamination events in the Potomac River which could curtail or halt withdrawal from the river for days to months. This project will include the performance of a business case to evaluate conveyance alternatives and provide a recommendation for subsequent preliminary design.

BENEFIT

System Reliability: This project will improve service reliability through fewer and shorter service interruptions

JUSTIFICATION

Justification for the project is based in part on multiple independent studies. A study conducted by the Metropolitan Washington Council of Governments (COG) in 2016 concluded that the Washington metropolitan region needed, among other capital projects and initiatives, an off-river raw water storage reservoir to provide the necessary resiliency for water quantity and quality in the region in the event of a contamination in the Potomac River. A separate study conducted by the Interstate Commission for the Potomac River Basin (ICPRB) in 2017 concluded that the region needed additional off-river raw water reservoir capacity as part of the regional water supply system to ensure adequate water supply to the region in the event of a drought. A value planning evaluation for the proposed project was conducted by the USACE in 2020. In the USACE 2022 "Report to Congress on Future Water Resources Development," this project was included under the title "Securing a Secondary Water Source for the Nation's Capital" as one of 21 projects that meet the requirements of Section 7001 of WRDA. WRDA 2022 was passed by Congress and signed into law in December 2022. Currently efforts are underway to solicit members of Congress to approve of the appropriations. This is a step toward possible federal funding for the feasibility study.

COST CHANGE

Not applicable.

OTHER

This project will be contingent upon receipt of federal grant funding and the execution of other relevant cost sharing agreements between WSSC Water and other ICPRB CO-OP Operations Committee members. Placement of the proposed work in the CIP will enable WSSC Water to solicit funding opportunities in a timely fashion.

COORDINATION

Coordinating Agencies: Federal and State Grant Agencies; Interstate Commission on the Potomac River Basin; Local Community Civic Associations; Maryland Department of the Environment; Maryland-National Capital Park & Planning Commission; Montgomery County Department of Environmental Protection; Montgomery County Government; National Park Service; Prince George's County Government; Prince George's County Department of Permitting Inspection and Enforcement; U.S. Army Corps of Engineers; Washington Metropolitan Council of Governments

D. Description & Justification

DESCRIPTION

This project provides a consolidated estimate of funding for the acquisition of land and rights-of-way for water projects and programs and for easement and land acquisitions for watershed protection. Expenditures are programmed based upon anticipated schedules and are required for the completion of those specific projects. These costs do not include purchases which have already been completed.

BENEFIT

Financial Efficiency: This project is expected to increase revenues, decrease expenses, or both

JUSTIFICATION

Consolidation of expenditures for land and rights-of-way acquisitions provides flexibility in expending funds in a specific fiscal year and permits WSSC Water to respond to the uncertainty of project-specific implementation schedules. Other considerations include the accommodation of unpredictable delays which impact the timing of a planned purchase, unanticipated rights-of-way requirements due to minor alignment changes identified late in the design phase, and the need to assure WSSC Water an equitable negotiation position by avoiding project-specific cost displays prior to contacting property owners.

Acquisition needs are determined by WSSC Water and are based upon facility planning efforts, alignment studies, field surveys, realignments required by other agencies, or requirements identified within the Development Services Process.

COST CHANGE

Not applicable.

OTHER

The project scope has remained the same. The schedule and expenditure projections shown in Block B above are estimates only and may change based upon actual negotiations. When purchases are complete, the actual cost will be displayed in the expenditure schedule on the appropriate project.

D. Description & Justification

<p>DESCRIPTION</p> <p>This project provides for the planning, design, and construction required for the replacement of 7,015 feet of 4-inch to 20-inch diameter water main along Cherry Hill Road, Gracefield Road, and Powder Mill Road to serve three planned projects in the White Oak area: Washington Adventist Hospital, VIVA Global LifeSci Village, and Food & Drug Administration White Oak Master Plan.</p> <p>BENEFIT</p> <p>Economic Development: This growth project supports the economic development goals of the Counties; System Capacity: This project will enhance existing infrastructure by building additional capacity in order to meet existing and/or future demand; System Reliability: This project will improve service reliability through fewer and shorter service interruptions</p> <p>JUSTIFICATION</p> <p>The existing mains in these areas will be upsized to provide adequate capacity to serve domestic and fire flow needs for the three new developments. The mains will also provide additional looping and redundancy to the 495A Pressure Zone.</p> <p>MWCOG Round 8.0 growth forecasts; WSSC Memorandum dated November 21, 2017; Capital Needs Process Validation #122 submitted December 4, 2017.</p> <p>COST CHANGE</p> <p>The schedule and expenditure projections were revised based upon updated engineer's estimates.</p> <p>OTHER</p> <p>The project scope has been revised to remove 635 feet of pipe that was constructed under another project. The schedule and expenditure projections shown in Block B above are preliminary design level estimates and are expected to change based upon site conditions and design constraints. No WSSC Water rate supported debt will be used for this project.</p> <p>COORDINATION</p> <p>Coordinating Agencies: Maryland Department of the Environment; Maryland State Highway Administration; Montgomery County Government; Prince George's County Government</p> <p>Coordinating Projects: W - 000113.21 - Viva White Oak Water Main</p>

Budget Summary Schedules

EXPENDITURES BY AGENCY

This chart compares total expenditures for the FY23-28 Amended CIP, including the Biennial amendments approved by the County Council as of May 2023, with total expenditures for the County Council's Approved CIP for FY25-30. The data is sorted by implementing agency and by program for MCG programs. Percent change between the six-year periods and percentage of each agency's budget to the whole are also compared. This chart also compares WSSC Water expenditures as approved by the County Council as of May 2023 for FY24-29 with expenditures as approved for FY25-30. The total CIP based on the latest six-year period as approved by the County Council is compared to the total CIP as approved in the upcoming six-year period.

EXPENDITURES TAX AND NON-TAX SUPPORTED

This chart compares total expenditures for the FY23-28 Amended CIP, including the Biennial amendments approved by the County Council as of May 2023 with total expenditures for the County Council's Approved CIP for FY25-30. The chart separates tax supported and non-tax supported expenditures, and then sorts by implementing agency and by program for MCG programs. Percent change between the six-year periods and percentage of each agency's budget to the whole are also compared. This chart also compares WSSC Water expenditures as approved by the County Council as of May 2023 for FY24-29 with expenditures as approved for FY25-30. The total CIP based on the latest six-year period as approved by the County Council is compared to the total CIP as approved in the upcoming six-year period.

FUNDING BY MAJOR CATEGORIES

This chart compares total funding for the FY23-28 Amended CIP, including the Biennial amendments approved by the County Council as of May 2023 with total funding for the County Council's Approved CIP for FY25-30. The major funding sources are listed separately, and the smaller sources are grouped together within the "Other" category. Percent change between the six-year periods and percentage of each funding source to the whole are also compared. This chart also compares total funding for WSSC Water as approved by the County Council for FY24-29 with the approved FY25-30 CIP. The total CIP based on the latest six-year period as approved by the County Council is compared to the total CIP as approved in the upcoming six-year period.

GENERAL OBLIGATION BOND ADJUSTMENT CHART

This chart compares the General Obligation bonds available for programming, with approved programmed bond funded expenditures for the FY25-30 six-year program. Amounts in the line labeled "Less Set Aside: Future Projects" indicate the amount available for possible future expenditures not yet programmed in individual projects. Zeros in the line labeled "Available or (Gap) to be Solved" indicate a balanced capital budget and Capital Improvements Program.

GENERAL OBLIGATION BOND - PROGRAMMING ADJUSTMENT UNSPENT PRIOR YEARS CHART

This chart displays the amount of unspent prior year's General Obligation (GO) Bond funded expenditures (slippage) by category and project. The total amount of slippage from this chart is included on the GO Bond Adjustment Chart.

TAX SUPPORTED CURRENT REVENUES ADJUSTMENT CHART

This chart compares the tax supported current revenues available for programming, with approved programmed current revenue funded expenditures for the FY25-30 six-year program. Zeros in the line labeled "Available or (Gap) to be Solved" indicate a balanced capital budget and Capital Improvements Program.

PARK AND PLANNING BOND ADJUSTMENT CHART

This chart compares the Park and Planning bonds available for programming, with approved programmed bond funded expenditures for the FY25-30 six-year program. Amounts in the line labeled "Less Set Aside: Future Projects" indicate the amount available for possible future expenditures not yet programmed in individual projects. Zeros in the line labeled "Available or (Gap) to be Solved" indicate a balanced capital budget and Capital Improvements Program.

FISCAL SUMMARY SCHEDULES

These schedules include data for the following County Agencies: Montgomery County Government, Montgomery County Public Schools (MCPS), Montgomery College, the Maryland-National Capital Park and Planning Commission (M-NCPPC), the Housing Opportunities Commission (HOC), and the Montgomery County Revenue Authority. The six-year total on these schedules includes the County's Capital Budget for FY25, and the approved Capital Improvements Program for FY25-30.

SCHEDULE CIP 200, ALL AGENCY EXPENDITURES

This schedule presents each year and six-year total expenditure information in aggregate form, organized by agency. Total approved CIP spending for each agency is summarized here. Data are presented for the following County agencies: Montgomery County Government, the Housing Opportunities Commission (HOC), the Maryland-National Capital Park and Planning Commission (M-NCPPC), Montgomery College, Montgomery County Public Schools (MCPS), and the Montgomery County Revenue Authority. Estimated figures for the current year, aggregated figures for all prior years, and totals are also displayed.

SCHEDULE CIP 220, EXPENDITURE SUMMARY BY CATEGORY AND SUB-CATEGORY

This schedule presents each year and six-year total expenditure information, as well as Budget Year Appropriation figures in summary form, organized by category and sub-category within each category. Data are presented for the following categories: Conservation of Natural Resources, Culture and Recreation, General Government, Health and Human Services, Community Development and Housing, HOC, M-NCPPC, Montgomery College, MCPS, Public Safety, Revenue Authority, Recycling and Resource Management, and Transportation. Estimated figures for the current year, aggregated figures for all prior years, and totals are also displayed.

SCHEDULE CIP 230, EXPENDITURE DETAIL BY CATEGORY, SUB-CATEGORY, AND PROJECT

This schedule displays each year and six-year total expenditure information for each project as well as budget year appropriation figures in detail, organized by category and sub-category within each category. Data are presented for the following categories: Conservation of Natural Resources, Culture and Recreation, General Government, Health and Human Services, Community Development and Housing, HOC, M-NCPPC, Montgomery College, MCPS, Public Safety, Revenue Authority, Recycling and Resource Management, and Transportation. Estimated figures for the current year, aggregated figures for all prior years, and totals are also displayed.

SCHEDULE CIP 210, ALL AGENCY FUNDING SUMMARY

This schedule presents each year and six-year total funding information, in summary form, organized by funding source. Total funding from all sources which support the Capital Improvements Program is summarized here. Estimated figures for the current year, aggregated figures for all prior years, and totals are also displayed.

SCHEDULE CIP 260P2, DETAIL BY REVENUE SOURCE, DEPARTMENT/AGENCY, AND PROJECT

This schedule displays each year and six-year total funding information for each project funded by each funding source. Projects are sorted by implementing department or agency within each funding source listing. Note that a project with multiple funding sources will appear on multiple sheets within this schedule. Estimated figures for the current year, aggregated figures for all prior years, and totals are also displayed.

NEW PROJECTS

This schedule displays new projects approved within the County's Capital Budget, and the approved Capital Improvements Program. Data is organized by category and sub-category within each category.

Capital Budget/Appropriation Resolution
Montgomery County Government

Resolution No: 20-517
Introduced: May 23, 2024
Adopted: May 23, 2024

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of the FY 2025-2030 Capital Improvements Program, and Approval of and Appropriation for the FY 2025 Capital Budget of the Montgomery County Government

Background

1. Section 302 of the County Charter requires the County Executive to send to the County Council by January 15 in each even-numbered calendar year a 6-year Capital Improvements Program (CIP), which the Executive did on January 16, 2024 for the 6-year period FY 2025-2030. (January 15 fell on a holiday.) Section 302 requires the affirmative vote of at least 6 Councilmembers to approve or modify the Executive’s Recommended CIP.
2. Section 303 of the Charter requires the Executive to send to the Council by January 15 in each year a recommended Capital Budget, which the Executive did on January 16, 2024 for FY 2025. (January 15 fell on a holiday.)
3. As required by Section 304 of the Charter, the Council held public hearings on the Capital Budget for FY 2025 and on the Recommended CIP for FY 2025-2030 on February 6 and 7, 2024.

Action

The County Council for Montgomery County, Maryland approves the following resolution:

1. For FY 2025, the Council approves the Capital Budget for the Montgomery County Government and appropriates the amounts by project shown in the attached Part I.
2. Except as explicitly provided otherwise in this resolution, the Council reappropriates the appropriations made in prior years for all capital projects:
 - (a) in the same amounts and for the same purposes specified in the Approved CIP for FY 2025-2030; and
 - (b) to the extent that those appropriations are not expended or encumbered.
3. The Council appropriates for Park Acquisitions and Legacy Open Space:

P872301 Park Acquisitions-County Current Revenue-General

\$250,000

P018710	Legacy Open Space-County Current Revenue-General	\$115,000
P018710	Legacy Open Space-County G.O. Bonds (\$100,000 of G.O. Bonds appropriation is for Personnel Costs)	\$559,000

The County will contribute the following amounts for non-local park projects:

County G.O. Bonds	\$13,430,000
County Current Revenue-General	\$5,785,000

4. Except for the projects identified under the attached Part II of this resolution, the Council approves the projects for the County Government FY 2025 Capital Budget and FY 2025-2030 Capital Improvements Program as submitted by the County Executive on January 16, 2024. The Council approves the projects identified under Part II, as modified under Part II.
5. The Council approves the close out of the projects under the attached Part III of this resolution.
6. The Council approves the ten percent transferability basis for the level of effort projects under the attached Part IV of this resolution.
7. For FY 2025, when the County Government decides that it will apply for a grant or respond to a granting agency on how it would spend a formula-awarded grant, the Chief Administrative Officer or his designee must notify the Council's Executive Director in writing of the name and purpose of the grant, the amount being requested or the formula-driven award amount, the name of the agency the application is directed to, the term of the grant, and the name of the department or departments that seek to receive the grant award. This requirement applies when any of the following conditions are met:
 - (a) the application is for a new grant of more than \$200,000 or for a formula-driven award of more than \$200,000 for a new program;
 - (b) the grant or award would require the appropriation of new tax-supported funds in the current or any future fiscal year; or
 - (c) the grant application or proposal to spend formula-driven funds will create a new position in County Government.

Upon request, the Chief Administrative Officer or the Chief Administrative Officer's designee must send a copy of the grant application or description of the proposed use of a formula-driven award to the Executive Director of the Office of the County Council within 3 working days after submitting it to the funding agency.

8. In FY 2025, this resolution appropriates \$97,000,000 to the Affordable Housing Acquisition and Preservation project (P760100). In addition, the Council appropriates any loan repayments associated with the Affordable Housing Acquisition and Preservation project that are received in FY 2024 or FY 2025 to this CIP project to be used for affordable housing. The Council also approves amending the FY 2025 expenditure and funding schedule to reflect additional loan repayments.

9. If a sign recognizing the contribution of any Federal, State, or local government or agency is displayed at any project for which funds are appropriated in this resolution, as a condition of spending County funds the sign must also expressly recognize the contribution of the County and the County's taxpayers.
10. Under County Code Section 10A-5, the Office of Management and Budget is not required to analyze the feasibility of providing childcare facilities in the following capital projects:

- Facility Planning Parking: Bethesda
- Facility Planning Parking: Silver Spring
- Facility Planning Parking: Wheaton
- Future County Transit Depots
- County Facility Refresh Project (Non-library)
- Alternate Emergency Communications Center
- Glen Echo Fire Station #11
- Montgomery Village Fire Station #39
- Hillandale Volunteer Fire Station #24 Renovation/Replacement (Colesville)

For the following projects, the assessment of feasibility of providing childcare will be conducted once the facility planning results in a clearer understanding of the intended project scope:

- 4th District Police Station
- Poolesville Community Facility
- Countywide Space Strategy

Level-of-Effort projects administered by County departments are not required to be analyzed for the feasibility of providing childcare facilities.

11. Under County Code Section 25B-7, the Office of Management and Budget is not required to analyze the feasibility of including a significant amount of affordable housing in the following capital projects:

- Facility Planning Parking: Bethesda
- Facility Planning Parking: Silver Spring
- Facility Planning Parking: Wheaton
- Future County Transit Depots
- County Facility Refresh Project (Non-library)
- Alternate Emergency Communications Center
- Glen Echo Fire Station #11
- Montgomery Village Fire Station #39
- Hillandale Volunteer Fire Station #24 Renovation/Replacement (Colesville)

For the following projects, the assessment of feasibility of providing affordable housing will be conducted once the facility planning results in a clearer understanding of the intended project scope:

- 4th District Police Station
- Poolesville Community Facility

Countywide Space Strategy

Level-of-Effort projects administered by County departments are not required to be analyzed for the feasibility of providing affordable housing.

This is a correct copy of Council action.

Sara R. Tenenbaum
Clerk of the Council

**PART I: FY25 Capital Budget for
Montgomery County Government**

The appropriations for FY25 in this Part are made to implement the projects in the Capital Improvements Program for FY25 - FY30.

Project Name (Project Number)	FY25 Appropriation	Cumulative Appropriation	Total Appropriation
Americans with Disabilities Act (ADA): Compliance (P361107)	3,900,000	47,120,000	51,020,000
Asbestos Abatement: MCG (P508728)	120,000	1,194,000	1,314,000
Building Envelope Repair (P361501)	2,900,000	14,015,000	16,915,000
Council Office Building Renovations (P010100)	971,000	49,744,000	50,715,000
Elevator Modernization (P509923)	1,000,000	19,554,000	20,554,000
Energy Conservation: MCG (P507834)	450,000	4,868,000	5,318,000
Environmental Compliance: MCG (P500918)	1,400,000	21,703,000	23,103,000
Facilities Site Selection: MCG (P500152)	25,000	675,000	700,000
Facility Planning: MCG (P508768)	310,000	10,736,000	11,046,000
HVAC/Elec Replacement: MCG (P508941)	2,950,000	34,907,000	37,857,000

Noyes Library for Young Children Rehabilitation and Renovation (P711704)	84,000	4,507,000	4,591,000
Cost Sharing: MCG (P720601)	6,750,000	47,975,000	54,725,000
Kennedy Shriver Aquatic Center Building Envelope Improvement (P721503)	1,620,000	31,458,000	33,078,000
Martin Luther King, Jr. Indoor Swim Center Renovation (P721902)	422,000	13,472,000	13,894,000
Public Arts Trust (P729658)	408,000	2,773,000	3,181,000
Recreation Facilities Playground Replacement (P722504)	1,400,000	0	1,400,000
Recreation Facilities Refurbishment (P722105)	(2,624,000)	6,167,000	3,543,000
Recreation Facilities Refurbishment - Indoor Pools (P722506)	1,201,000	0	1,201,000
Recreation Facilities Refurbishment-Centers (P722507)	765,000	0	765,000
Recreation Facilities Refurbishment-Outdoor Pools (P722505)	112,000	0	112,000
Swimming Pools Slide Replacement (P722101)	1,960,000	3,089,000	5,049,000
Wall Park Garage and Park Improvements (P721801)	(5,506,000)	6,612,000	1,106,000
Wheaton Arts and Cultural Center (P722106)	23,650,000	2,025,000	25,675,000

**PART I: FY25 Capital Budget for
Montgomery County Government**

The appropriations for FY25 in this Part are made to implement the projects in the Capital Improvements Program for FY25 - FY30.

Project Name (Project Number)	FY25 Appropriation	Cumulative Appropriation	Total Appropriation
Ag Land Pres Easements (P788911)	1,085,000	21,018,000	22,103,000
Facility Planning: Storm Drains (P508180)	518,000	8,046,000	8,564,000
Outfall Repairs (P509948)	2,028,000	10,829,000	12,857,000
River Falls Storm Drain Improvements (P502511)	1,254,000	0	1,254,000
Storm Drain Culvert Replacement (P501470)	1,836,000	19,900,000	21,736,000
Storm Drain General (P500320)	4,385,000	22,790,000	27,175,000
Anacostia Streams Restoration (P802502)	832,000	0	832,000
Comprehensive Flood Management Plan (P802202)	2,139,000	3,200,000	5,339,000
Facility Planning: Stormwater Management (P809319)	1,713,000	18,769,000	20,482,000
General Repair of BMPs and Stream Assets (P802506)	1,279,000	0	1,279,000
Implementation of the Comprehensive Flood Management Plan (P802507)	3,000,000	0	3,000,000
Stormwater Management Facility Major Structural Repair (P800700)	2,327,000	43,044,000	45,371,000
Stormwater Management Retrofit: Countywide (P808726)	(1,012,000)	102,530,000	101,518,000
Countywide Facade Easement Program (P762102)	672,000	1,671,000	2,343,000
Facility Planning: HCD (P769375)	125,000	3,655,000	3,780,000
White Oak Commercial Area Improvements and Revitalization (P762501)	575,000	0	575,000
Affordable Housing Acquisition and Preservation (P760100)*	97,000,000	359,654,000	456,654,000
Nonprofit Preservation Fund (P762301)	15,000,000	35,000,000	50,000,000
Revitalization for Troubled and Distressed Common Ownership Communities (P762504)	1,230,000	0	1,230,000
Gude Landfill Remediation (P801801)	17,293,000	44,453,000	61,746,000
New Organics Processing Facility (P802508)	2,000,000	0	2,000,000
Oaks Landfill Leachate Pretreatment Plant Retrofitting (P802505)	3,890,000	0	3,890,000
Total - Montgomery County Government	400,522,000	3,554,747,000	3,955,269,000

* In addition to the appropriation shown for this project, any actual revolving loan repayments received from the prior year are appropriated.

PART II: Approved Projects

The Council approves the projects for the County Government FY 2025 Capital Budget and FY 2025-2030 Capital Improvements Program as recommended by the County Executive on January 16, 2024, except for those projects included in PART II, which are approved as attached.

Project Number	Project Name
P361107	Americans with Disabilities Act (ADA): Compliance
P010100	Council Office Building Renovations
P507834	Energy Conservation: MCG
P508768	Facility Planning: MCG
P360903	MCPS Bus Depot and Maintenance Relocation
P500727	Red Brick Courthouse Structural Repairs
P362311	Burtonsville Crossing Shopping Center
P789057	Life Sciences and Technology Centers
P362505	County Fleet Electric Vehicle Charging Stations
P852501	ABS Conveyor System Upgrade
P852502	ABS Delivery Trucks Purchase
P852101	ABS Retail Store Refresh
P362309	State Aid for MCPS Playgrounds
P421100	Justice Center
P451504	Apparatus Replacement Program
P450300	Clarksburg Fire Station
P452503	Fire Station Refurbishment
P451502	White Flint Fire Station 23
P362401	Judicial Security Improvements
P509753	Bridge Renovation
P502102	Glen Road Bridge
P502513	Seven Locks Road Culvert Replacement
P500914	Residential and Rural Road Rehabilitation
P500511	Resurfacing: Residential/Rural Roads
P500700	Street Tree Preservation
P502412	AccelerateMC Regional Infrastructure Accelerator
P500929	Bethesda Metro Station South Entrance
P501915	Boyds Transit Center
P502005	Bus Rapid Transit: MD 355 Central
P501318	Bus Rapid Transit: System Development
P501913	Bus Rapid Transit: Veirs Mill Road
P507658	Bus Stop Improvements
P502408	Hydrogen Fuel Cell Buses and Fueling Site
P501801	Intelligent Transit System
P502402	New Transit Maintenance Depot

PART II: Approved Projects

The Council approves the projects for the County Government FY 2025 Capital Budget and FY 2025-2030 Capital Improvements Program as recommended by the County Executive on January 16, 2024, except for those projects included in PART II, which are approved as attached.

Project Number	Project Name
P500821	Ride On Bus Fleet
P502409	Bethesda Parking Security Camera Surveillance System
P502316	Farm Women's Market Parking Garage
P508255	Parking Bethesda Facility Renovations
P508250	Parking Silver Spring Facility Renovations
P502410	Silver Spring Parking Security Camera Surveillance System
P502411	Wheaton Parking Security Camera Surveillance System
P507596	Bikeway Program Minor Projects
P502108	Bowie Mill Road Bikeway
P502109	Dale Drive Shared Use Path and Safety Improvements
P500905	Falls Road Bikeway and Pedestrian Facility
P501110	Metropolitan Branch Trail
P500500	Burtonsville Access Road
P501404	MCG Reconciliation PDF
P502310	North High Street Extended
P501507	Observation Drive Extended
P501307	Seminary Road Intersection Improvement
P502311	Summit Avenue Extension
P500704	Traffic Signal System Modernization
P802201	Full Upgrade of Existing Recycling Center Complex
P802508	New Organics Processing Facility
P601901	Child Care Renovations
P602504	Early Care and Education Facility Fund
P640902	High School Wellness Center and Expanded Wellness Services
P640400	School Based Health and Linkages to Learning Centers
P711502	Library Refurbishment Level of Effort
P720601	Cost Sharing: MCG
P722301	Holiday Park Net Zero Initiative
P722504	Recreation Facilities Playground Replacement
P722506	Recreation Facilities Refurbishment - Indoor Pools
P722507	Recreation Facilities Refurbishment-Centers
P722505	Recreation Facilities Refurbishment-Outdoor Pools
P722106	Wheaton Arts and Cultural Center
P762102	Countywide Facade Easement Program
P762501	White Oak Commercial Area Improvements and Revitalization

PART II: Approved Projects

The Council approves the projects for the County Government FY 2025 Capital Budget and FY 2025-2030 Capital Improvements Program as recommended by the County Executive on January 16, 2024, except for those projects included in PART II, which are approved as attached.

Project Number	Project Name
P760100	Affordable Housing Acquisition and Preservation

PART III: Capital Improvements Projects To Be Closed Out

The following capital projects are closed out effective 30-Jun-2024, and the appropriation for each project is decreased by the amount of the project's unencumbered balance.

Project Number	Project Name
P361302	Energy Systems Modernization
P362201	260 East Jefferson Street Acquisition
P361901	Heavy Equipment Replacement
P420900	Pre-Release Center Dietary Facilities Improvements
P501551	Parking Lot Districts Service Facility
P501111	Silver Spring Lot 3 Parking Garage
P802101	Transfer Station Fire Detection and Suppression System

PART IV: Ten Percent Transferability Basis for Level of Effort Projects (in \$000s)

Up to 10% of the Cumulative Appropriation [A] less Prior Year Thru Actual Expenditures [B] for the on-going projects displayed below is eligible for transfer into other projects within the same category effective as of July 1st, 2024

Project Name (Project Number)	Cumulative Appropriation as of July 1 [A]	Prior Year Thru Expenditure [B]	Cumulative Appropriation Basis for Transferability Purposes
Americans with Disabilities Act (ADA): Compliance (P361107)	51,020	35,781	15,239
Asbestos Abatement: MCG (P508728) *	1,314	1,049	265
Building Envelope Repair (P361501)	16,915	9,357	7,558

Capital Budget/Appropriation Resolution
Montgomery County Public Schools

Resolution No.:	<u>20-518</u>
Introduced:	<u>May 23, 2024</u>
Adopted:	<u>May 23, 2024</u>

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of the FY 2025-2030 Capital Improvements Program and Approval of and Appropriation for the FY 2025 Capital Budget of the Montgomery County Public School System

Background

1. As required by the Education Article, Sections 5-101 and 5-102 of the Maryland Code, the Board of Education sent to the County Executive and County Council an FY 2025 Capital Budget for the Montgomery County Public School System. As required by Section 5-306, the Board of Education sent to the Executive a 6-year Capital Improvements Program (CIP).
2. Section 302 of the County Charter requires the County Executive to send to the County Council by January 15 (or the next business day if it falls on a weekend/holiday) in each even-numbered calendar year a 6-year Capital Improvements Program (CIP), which the Executive did on January 16, 2024 for the 6-year period FY 2025-2030. Section 302 requires the affirmative vote of at least 6 Councilmembers to approve or modify the Executive's Recommended CIP. After the Council approves a CIP, Section 302 permits the Council to amend it at any time with the affirmative vote of at least 6 Councilmembers.
3. Section 303 of the Charter requires the Executive to send to the Council by January 15 (or the next business day if it falls on a weekend/holiday) in each year a Recommended Capital Budget, which the Executive did on January 16, 2024.
4. As required by Section 304 of the Charter, the Council held public hearings on the Capital Budget for FY 2025 and on the Recommended CIP for FY 2025-2030 on February 6 and 7, 2024.

Action

The County Council for Montgomery County, Maryland approves the following resolution:

1. For FY 2025, the Council approves the Capital Budget for the Montgomery County Public School System and appropriates the amounts by project which are shown in Part I.
2. The Council reappropriates the appropriations for prior years for all capital projects:
 - a) except as specifically reflected elsewhere in this resolution;
 - b) in the amounts and for the purposes specified in the Approved CIP for FY 2025-2030; and
 - c) to the extent that those appropriations are not expended or encumbered.
3. The Council approves the projects in the Board of Education Requested FY 2025 Capital Budget and the FY 2025-2030 Capital Improvements Program, with the exceptions that are attached in Part II. These projects are approved as modified.
4. The Council approves the close out of the projects in Part III.
5. If a sign recognizing the contribution of any federal, state, or local government or agency is displayed at any project for which funds are appropriated in this resolution, as a condition of spending those funds each sign must also expressly recognize the contribution of the County and the County's taxpayers.

This is a correct copy of Council action.

Sara R. Tenenbaum
Clerk of the Council

**PART I: FY25 Capital Budget for
Montgomery County Public Schools**

The appropriations for FY25 in this Part are made to implement the projects in the Capital Improvements Program for FY25 - FY30. When the total appropriation for a project includes State funds, the total appropriation for the project is contingent on the availability of funds from the State.

Project Name (Project Number)	FY25 Appropriation	Cumulative Appropriation	Total Appropriation

Capital Budget/Appropriation Resolution
Montgomery College

Resolution No: 20-519

Introduced: May 23, 2024

Adopted: May 23, 2024

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of the FY 2025-2030 Capital Improvements Program, and Approval of and Appropriation for the FY 2025 Capital Budget of Montgomery College

Background

1. As required by the Education Article, Section 16-301 of the Maryland Code, the Montgomery College Board of Trustees sent to the County Executive and County Council an FY 2025 Capital Budget for Montgomery College. The Board of Trustees also requested the FY 2025-2030 Capital Improvements Program (CIP).
2. Section 302 of the County Charter requires the Executive to send to the County Council by January 15 (or the next business day if it falls on a weekend/holiday) in each even-numbered calendar year a 6-year CIP, which the Executive did on January 16, 2024 for the 6-year period FY 2025-2030. Section 302 requires the affirmative vote of at least 6 Councilmembers to approve or modify the Executive's Recommended CIP. After the Council approves a CIP, Section 302 permits the Council to amend it at any time with the affirmative vote of at least 6 Councilmembers.
3. Section 303 of the Charter requires the Executive to send to the Council by January 15 (or the next business day if it falls on a weekend/holiday) in each year a recommended Capital Budget, which the Executive did on January 16, 2024 for FY 2025. The Executive also sent to the Council his recommendations on the FY 2025-2030 CIP.
4. As required by Section 304 of the Charter, the Council held public hearings on the Capital Budget for FY 2025 and the FY 2025-2030 CIP on February 6 and 7, 2024.

Action

The County Council for Montgomery County, Maryland approves the following resolution:

1. For FY 2025, the Council approves the Capital Budget for Montgomery College and appropriates the amounts by project, which are shown in Part I. The amounts reflected in the column labeled "FY 2025 Appropriation" represent the change in total appropriation for a specific project; the total appropriation as of FY 2025 is reflected in the column labeled "Total Appropriation". The expenditure of funds for each item in the Capital Budget must comply with all restrictions and requirements in the project description form for that item, as the form is contained in the Approved CIP as amended by the resolution, and as the CIP is amended by the Council under Charter Section 302 after this resolution is adopted.
2. The Council reappropriates the appropriations made in prior years for all capital projects:
 - a) except as specifically reflected elsewhere in this resolution;
 - b) in the amounts and for the purposes specified in the Approved CIP for FY 2025-2030; and
 - c) to the extent that those appropriations are not expended or encumbered.
3. The Council approves the projects shown in Part II for the FY 2025-2030 Capital Improvements Program as presented in the Board of Trustee's requested FY 2025 Capital Budget and FY 2025-2030 Capital Improvements Program, dated November 21, 2023, with the exceptions which are attached in Part II. Those projects are approved as modified.
4. The Council approves the close out of projects in Part III.
5. Any revenue which exceeds the amount estimated to be received from revenue sources other than County bonds must reduce the amount of bonds to be sold by the amount of the excess.
6. If a sign recognizing the contribution of any Federal, State, or local government or agency is displayed at any project for which funds are appropriated in this resolution, as a condition of spending those funds each sign must also expressly recognize the contribution of the County and the County's taxpayers.

This is a correct copy of Council action.

Sara R. Tenenbaum
Clerk of the Council

**PART I: FY25 Capital Budget for
Montgomery College**

The appropriations for FY25 in this Part are made to implement the projects in the Capital Improvements Program for FY25 - FY30.

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of the FY 2025-2030 Capital Improvements Program, and Approval of and Appropriation for the FY 2025 Capital Budget of the Maryland-National Capital Park and Planning Commission

Background

1. As required by the Land Use Article, Section 18-104 of the Maryland Code, the Maryland-National Capital Park and Planning Commission sent to the County Executive an FY 2025-2030 Capital Improvements Program and an FY 2025 Capital Budget.
2. Section 302 of the County Charter requires the Executive to send to the County Council by January 15 (or the next business day if it falls on a weekend/holiday) in each even-numbered calendar year a 6-year Capital Improvements Program (CIP), which the Executive did on January 16, 2024, for the 6-year period FY 2025-2030. Section 302 requires the affirmative vote of at least 6 Councilmembers to approve or modify the Executive's Recommended CIP. After the Council approves a CIP, Section 302 permits the Council to amend it at any time with the affirmative vote of at least 6 Councilmembers.
3. Section 303 of the Charter requires the Executive to send to the Council by January 15 (or the next business day if it falls on a weekend/holiday) in each year a Recommended Capital Budget, which the Executive did on January 16, 2024, for FY 2025.
4. As required by Section 304 of the County Charter, notice of a public hearing was given, and three public hearings were held on the Capital Budget for FY 2025 and on the Recommended CIP for FY 2025-2030. Two hearings were held on February 6 and one hearing was held on February 7, 2024.

Action

The County Council for Montgomery County, Maryland approves the following resolution for the Maryland-National Capital Park and Planning Commission:

1. For FY 2025, the Council approves the Capital Budget and appropriates the amounts by project shown in Part I.
2. The Council reappropriates the appropriations made in prior years for all capital projects:
 - a) except as specifically reflected elsewhere in this resolution;
 - b) in the amounts and for the purposes specified in the Approved CIP for FY 2025-2030; and
 - c) to the extent that those appropriations are not expended or encumbered.
3. The County appropriation for Park Acquisitions and Legacy Open Space includes:

P872301	Park Acquisitions - County Current Revenue-General	\$250,000
P018710	Legacy Open Space - County Current Revenue-General	\$115,000
P018710	Legacy Open Space - County G.O. Bonds	\$559,000
	(\$100,000 of G.O. Bonds appropriation is for Personnel Costs)	

The County will contribute the following amounts for non-local park projects:

County G.O. Bonds	\$13,430,000
County Current Revenue-General	\$ 5,785,000

4. The Council approves the projects for the Maryland-National Capital Park and Planning Commission FY 2025 Capital Budget and the FY 2025-2030 Capital Improvements Program as attached in Part II.
5. The Council approves the close-out of the projects in Part III.
6. The Council approves the ten percent transferability basis for the level of effort projects in Part IV.
7. If a sign recognizing the contribution of any federal, state, or local government or agency is displayed at any project for which funds are appropriated in this resolution, as a condition of spending those funds each sign must also expressly recognize the contribution of the County and the County's taxpayers.

This is a correct copy of Council action.

Capital Budget/Authorization Resolution
Montgomery County Revenue Authority

Resolution No.:	<u>20-521</u>
Introduced:	<u>May 23, 2024</u>
Adopted:	<u>May 23, 2024</u>

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Authorizations for the FY 2025-2030 Capital Budget of the Montgomery County Revenue Authority

Background

1. As required by Section 42-13 of the County Code, the Montgomery County Revenue Authority sent to the County Executive a 6-year Capital Improvements Program (CIP).
2. Section 302 of the County Charter requires the Executive to send to the County Council by January 15 (or the next business day if it falls on a weekend/holiday) in each even-numbered calendar year a 6-year CIP, which the Executive did on January 16, 2024, for the 6-year period FY 2025-2030. Section 303 of the Charter requires the Executive to send to the Council by January 15 (or the next business day if it falls on a weekend/holiday) in each year a recommended Capital Budget, which the Executive did on January 16, 2024, for FY 2025.
3. As required by Section 304 of the County Charter, the Council held public hearings on February 6 and February 7, 2024, on the FY 2025-2030 Capital Improvement Program and the FY 2025 Capital Budget.
4. Chapter 601 of the 1992 Laws of Maryland provides that no provision of the County Charter or other County law regarding the duties, powers, or organization of the Revenue Authority will apply unless the County expressly provides by law that the Charter provision or law applies to the Revenue Authority.
5. Section 42-13(a)(3) of the County Code expressly requires the Executive to include the Authority's 6-year program in the comprehensive 6-year program submitted to the Council under Section 302 of the County Charter.
6. Section 42-13(a)(4) of the County Code expressly authorizes the Council to amend the Authority's 6-year program.
7. The Council has no amendments in the Authority's FY 2025-2030 Capital Improvements Program as proposed by the County Executive.

Action

The County Council for Montgomery County, Maryland approves the following resolution for the Montgomery County Revenue Authority to confirm the Authority's FY 2025-2030 Capital Improvements Program under Section 42-13 of the County Code:

1. For FY 2025, the Council approves the projects in Part I.
2. The Council reauthorizes the authorizations made in prior years for all capital projects:
 - a) except as specifically reflected elsewhere in this resolution;
 - b) in the amounts and for the purposes specified in the approved CIP for FY 2025-2030; and
 - c) to the extent that those authorizations are not expended or encumbered.
3. The Council approves the close out of the projects in Part III.
4. If a sign recognizing the contribution of any Federal, State, or local government or agency is displayed at any project for which funds are appropriated in this resolution, as a condition of spending those funds each sign must also expressly recognize the contribution of the County and the County's taxpayers.

This is a correct copy of Council action.

Sara R. Tenenbaum
Clerk of the Council

PART I: FY25 Capital Budget for Revenue Authority

The approved projects for FY 2025 in this Part are made to implement the projects in the Capital Improvements Program for FY 2025-2030.

Project Number	Project Name
392301	Falls Road Golf Course Improvements
392501	Hampshire Greens Golf Course Improvements
392308	Montgomery County Airpark - Rehabilitate Runway Lighting
392309	Montgomery County Airpark - Road Relocation
391901	Montgomery County Airpark Land Acquisition – Merchant Tire Property
392502	Montgomery County Airpark – North End Hangar
392306	Needwood Golf Course
392302	Poolesville Golf Course
392304	Rattlewood Golf Course

PART II: Approved Projects

The Council approves the projects for the Revenue Authority FY 2025 Capital Budget and FY 2025-2030 Capital Improvements Program as requested by the Revenue Authority, except for those projects included in PART II, which are approved as attached.

Project Number

Project Name

PART III: Capital Improvements Projects To Be Closed Out

The following capital projects are closed out effective 30-Jun-2024.

Project Number	Project Name
P391801	Crossvines Poolesville Economic Development Project
P392307	Little Bennett Golf Course
P391902	Montgomery County Airpark Land Acquisition - Leet-Melbrook Property
P392303	Montgomery County Revenue Authority Office Relocation

Capital Budget/Appropriation Resolution
Housing Opportunities Commission

Resolution No.:	<u>20-522</u>
Introduced:	<u>May 23, 2024</u>
Adopted:	<u>May 23, 2024</u>

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of FY 2025-2030 Capital Improvements Program of the Housing Opportunities Commission, and Approval of and Appropriation for the FY 2025 Capital Budget

Background

1. In a spirit of cooperation, the Housing Opportunities Commission sent to the County Executive a 6-year Capital Improvements Program (CIP) for the Housing Opportunities Commission.
2. Section 302 of the County Charter requires the Executive to send to the County Council by January 15 (or the next business day if it falls on a weekend/holiday) in each even-numbered calendar year a 6-year CIP, which the Executive did on January 16, 2024, for the 6-year period FY 2025-2030. Section 302 requires the affirmative vote of at least 6 Councilmembers to approve or modify the Executive's Recommended CIP. After the Council approves a CIP, Section 302 permits the Council to amend it at any time with the affirmative vote of at least 6 Councilmembers.
3. Section 303 of the Charter requires the Executive to send to the Council by January 15 (or the next business day if it falls on a weekend/holiday) in each year a recommended Capital Budget, which the Executive did on January 16, 2024, for FY 2025.
4. As required by Section 304 of the County Charter, the Council held public hearings on the FY 2025-2030 Capital Improvements Program and the FY 2025 Capital Budget.

Action

The County Council for Montgomery County, Maryland approves the following resolution for the Housing Opportunities Commission:

1. For FY 2025, the Council approves the projects and authorizes the amounts by project, which are shown in Part I.
2. The Council reauthorizes the authorizations made in prior years for all capital projects:
 - a) except as specifically reflected elsewhere in this resolution;
 - b) in the amounts and for the purposes specified in the approved CIP for FY 2025-2030; and
 - c) to the extent that those authorizations are not expended or encumbered.
3. The Council approves the projects for the Housing Opportunities Commission (HOC) FY 2025 Capital Budget and FY 2025-2030 Capital Improvements Program as requested by the Housing Opportunities Commission (HOC), except for those projects included in Part II, which are approved as attached.
4. The Council approves the close out of the projects in Part III.
5. If a sign recognizing the contribution of any Federal, State, or local government or agency is displayed at any project for which funds are appropriated in this resolution, as a condition of spending those funds each sign must also expressly recognize the contribution of the County and the County's taxpayers.

This is a correct copy of Council action.

Sara R. Tenenbaum
Clerk of the Council

**PART I: FY25 Capital Budget for
Housing Opportunities Commission**

The appropriations for FY25 in this Part are made to implement the projects in the Capital Improvements Program for FY25 - FY30.

Project Name (Project Number)	FY25 Appropriation	Cumulative Appropriation	Total Appropriation
Supplemental Funds for Deeply Subsidized HOC Owned Units Improvements (P091501)	1,250,000	12,375,000	13,625,000
WSSC Sewer and Storm Line Improvements at Elizabeth Square (P092301)	(230,000)	1,225,000	995,000
Total - Housing Opportunities Commission	1,020,000	13,600,000	14,620,000

PART II: Approved Projects

The Council approves the projects for the Housing Opportunities Commission (HOC) FY 2025 Capital Budget and FY 2025-2030 Capital Improvements Program as requested by the Housing Opportunities Commission (HOC), except for those projects included in PART II, which are approved as attached.

Project Number**Project Name**

P092301

WSSC Sewer and Storm Line Improvements at Elizabeth Square

PART III: Capital Improvements Projects To Be Closed Out

The following capital projects are closed out effective 30-Jun-2024, and the appropriation for each project is decreased by the amount of the project's unencumbered balance.

Project Name

No Projects Closeout (on Part III)

Aggregate Capital Budget for County
General Obligation Bonds
Spending Affordability Guidelines

#7 - Aggregate Capital Budget for County bonds – Does not require 8 affirmative votes

Resolution No.:	<u>20-523</u>
Introduced:	<u>May 23, 2024</u>
Adopted:	<u>May 23, 2024</u>

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of the FY 2025 Aggregate Capital Budget for County General Obligation Bonds

Background

1. Section 305 of the County Charter requires the affirmative vote of at least eight Councilmembers to approve an aggregate capital budget if that budget exceeds the adopted spending affordability guidelines then in effect.
2. Section 20-56 of the County Code requires the Council to set guidelines for the County general obligation bonds by resolution no later than the first Tuesday in October in each odd-numbered calendar year. This section also permits the Council to revise the guidelines to reflect a significant change in conditions by the first Tuesday in February.
3. On September 26, 2023, the Council adopted guidelines for the County general obligation bonds allowing no more than \$280 million to be planned for expenditure in FY 2025, no more than \$280 million to be planned for expenditure in FY 2026, and no more than \$1,680 million to be planned for expenditure during the 6-year period from FY 2025 through FY 2030.
4. On February 6, 2024, the Council confirmed the guidelines for the County general obligation bonds set on September 26, 2023.

Action

The County Council for Montgomery County, Maryland approves the following resolution:

The Council estimates that the amount of County general obligation bonds planned for expenditure does not exceed the guidelines adopted on September 26, 2023 and confirmed on February 6, 2024. Eight affirmative votes are not required for the approval of the aggregate capital budget because the guidelines in effect are not exceeded.

This is a correct copy of Council action.

Aggregate Capital Budget Resolution for M-NCPPC Spending Affordability Guidelines

#8 - Aggregate Capital Budget for Park & Planning bonds – Does not require 8 affirmative votes

Resolution No.: 20-524
Introduced: May 23, 2024
Adopted: May 23, 2024

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of the FY 2025 Aggregate Capital Budget for Maryland-National Capital Park and Planning Commission Bonds

Background

1. Section 305 of the County Charter requires the affirmative vote of at least eight Councilmembers to approve an aggregate capital budget if that budget exceeds the adopted spending affordability guidelines then in effect.
2. Section 20-56 of the County Code requires the Council to set guidelines for the Maryland-National Capital Park and Planning Commission bonds by resolution no later than the first Tuesday in October in each odd-numbered calendar year. This section also permits the Council to revise the guidelines to reflect a significant change in conditions by the first Tuesday in February.
3. On September 26, 2023, the Council adopted guidelines for the Maryland-National Capital Park and Planning Commission bonds allowing no more than \$8.0 million to be planned for expenditure in FY 2025, no more than \$8.0 million to be planned for expenditure in FY 2026, and no more than \$48.0 million to be planned for expenditure during the 6-year period from FY 2025 through FY 2030.
4. On February 6, 2024, the Council confirmed the guidelines for the Maryland-National Capital Park and Planning Commission bonds set on September 26, 2023.

Action

The County Council for Montgomery County, Maryland approves the following resolution:

The Council estimates that the amount of Maryland-National Capital Park and Planning Commission bonds planned for expenditure does not exceed the guidelines adopted on September 26, 2023, and confirmed on February 6, 2024. Eight affirmative votes are not required for the approval of the aggregate capital budget because the guidelines in effect are not exceeded.

This is a correct copy of Council action.

FY25 State Participation

Resolution No.:	<u>20-525</u>
Introduced:	<u>May 23, 2024</u>
Adopted:	<u>May 23, 2024</u>

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of the FY 2025 State Participation Projects

Background

1. The Maryland Economic Growth, Resource Protection, and Planning Act requires local governments to review local construction projects that involve the use of State funds, grants, loans, loan guarantees, or insurance for consistency with local plans.
2. Resolution 12-919, adopted December 1, 1992, requires the County Council to make a final determination of consistency and approve a list of State participation projects for which findings have been made.

Action

The County Council for Montgomery County, Maryland approves the following resolution:

For FY 2025, the Council affirms consistency with local plans for all construction projects in the attached list, which involve State funds and are covered by local plans.

This is a correct copy of Council action.

Capital Improvements Programs for the WSSC Water

Resolution No:	<u>20-532</u>
Introduced:	<u>May 23, 2024</u>
Adopted:	<u>May 23, 2024</u>

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of the FY 2025-2030 Capital Improvements Program for the Washington Suburban Sanitary Commission

Background

1. As required by Section 23-304 of the Public Utilities Article of the Maryland Code, before October 1 of each year, the Washington Suburban Sanitary Commission (Commission) must prepare and submit to the County Executive and County Council of Montgomery County a 6-year Capital Improvements Program (CIP) for water and sewer facilities.
2. On September 28, 2023, the Commission transmitted its Proposed FY 2025-2030 CIP and Information Only projects.
3. On January 16, 2024, the County Executive transmitted to the Council his recommendations regarding the Commission's Proposed FY 2025-2030 CIP and Information Only projects.
4. On February 21, 2024, the Commission approved the transmittal of a mid-cycle update to the Proposed FY 2025-2030 CIP and Information Only projects.
5. Section 23-306 of the Public Utilities Article of the Maryland Code authorizes the Council to approve, disapprove, or modify the Commission's CIP.
6. Section 23-305 of the Public Utilities Article of the Maryland Code requires that before final action on the Commission's CIP is taken, public hearings must be held on the Program. The Council held public hearings on the Commission's FY 2025-2030 CIP and Information Only projects on February 6 and 7, 2024.
7. The Council considered the recommendations of the Executive and the Montgomery County Planning Board regarding the Commission's FY 2025-2030 CIP and Information Only projects and reviewed the project description forms.
8. The Council recognizes that the information and documentation contained in the Commission's FY 2025-2030 CIP are an integral part of the Comprehensive Water Supply and

Sewerage Systems Plan which must be submitted to the State Department of the Environment in accordance with Section 9-501 *et seq.* of the Environment Article of the Maryland Code.

9. On May 9, 2024, the Montgomery County and Prince George's County Councils jointly reviewed and approved the Commission's Proposed FY 2025-2030 CIP and Information Only projects with changes.

Action

The County Council for Montgomery County, Maryland approves the following resolution for the Washington Suburban Sanitary Commission:

1. The Council approves the Washington Suburban Sanitary Commission's Proposed FY 2025-2030 CIP and Information Only projects as transmitted on September 28, 2023, except those projects which are approved as modified by the Montgomery and Prince George's County Councils. Amended project description forms are attached to this resolution and are identified by the following project numbers:

W-73.30
S-1.01
A-110.00
S-22.06
S-22.07
S-22.09
S-22.11

2. The Council approves the close out of the projects in Part I.

This is a correct copy of Council action.

Sara R. Tenenbaum
Clerk of the Council

------------	---------	-------	--	--------	-----	-----	-----	-------	-------	--------	--------

D. Description & Justification

DESCRIPTION
 This project includes planning, which involves community outreach and coordination with elected officials, design, and construction of a submerged channel intake to provide an additional barrier against drinking water contamination (particularly Giardia cysts and Cryptosporidium oocysts), as well as to enhance reliability and reduce treatment costs by drawing water from a location with cleaner, more stable water quality.

BENEFIT
 Water Quality: This project supports WSSC Water's mission to provide safe, clean water by improving the quality and/or safety of drinking water; System Reliability: This project will improve service reliability through fewer and shorter service interruptions; Financial Efficiency: This project is expected to increase revenues, decrease expenses, or both

JUSTIFICATION
 The project provides for a more reliable supply by eliminating the current problems associated with ice and vegetation blocking the existing bank withdrawal. This project is consistent with the industry's recommended multiple barrier approach.

Technical Memorandum No. 2 Water Quality Needs Assessment, O'Brien & Gere Engineers, Inc. (November 2001); Draft Source Water Assessment Study, Maryland Department of the Environment (April 2003); Potomac WFP Facility Plan, O'Brien & Gere Engineers, Inc. (September 2002); Draft Feasibility Study Report, Black & Veatch (November 2013).

COST CHANGE
 Cost increase due to inflation.

OTHER
 The project scope has remained the same. Significant outreach activities occurred as part of the planning phase of this project. The National Environmental Policy Act (NEPA) process was concluded in January 2018 when the National Park Service (NPS) approved the Environmental Assessment and transmitted its record of decision and the Finding of No Significant Impact. Future land costs are included in project W-202.00. Both Councils will review the results of the planning work and the updated costs and benefits of the project and must approve continuing the project before design and construction proceed.

D. Description & Justification

DESCRIPTION
 This program provides for comprehensive sewer system rehabilitation in residential areas of sewer mains less than 15-inches in diameter and sewer house connections, addressing infiltration and inflow control, and exposed pipe problems. This program does not include any major capital projects (e.g. CIP size relief or replacement sewers). These are funded separately in the CIP.

*EXPENDITURES FOR SEWER RECONSTRUCTION ARE EXPECTED TO CONTINUE INDEFINITELY.

BENEFIT
 Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees; Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life; Environmental Sustainability: This project supports WSSC Water's commitment to protect the natural environment of Prince George's and Montgomery Counties

JUSTIFICATION
 The projected work units and expenditure levels for FY'26 are as follows: 25 miles of main and lateral design & construction - \$36.02M; sewer house connection renewals - \$9.62M; enhanced grouting - \$2.6; emergency repairs - \$2.3M. Note: The specific mix and type of sewer reconstruction may vary in any given year depending on identified system defects. Projections are based on historical experience with regards to timing of design and construction work and availability of authorized contractors.

Comprehensive Basin Studies, Sewer System Evaluation Surveys, Line Blockage Assessments, field surveys, closed-circuit TV inspections, and/or other activities investigating specific portions of the collection system. Annual Buried Wastewater Assets System Asset Management Plan. FY'25 Enterprise Asset Management Plan (May 2023).

COST CHANGE
 Program costs reflect the latest schedule and expenditure estimates based upon the current plan for the completion of Phase 2 (Priority 2 and Priority 3) Consent Decree work and the recommendations from the Buried Wastewater Assets System Asset Management Plan.

OTHER
 The project scope has remained the same. The schedule and expenditure projections shown in Block B above reflect the terms of the Sanitary Sewer Overflow Consent Decree between WSSC Water, Maryland Department of the Environment (MDE), and the EPA, entered into on December 7, 2005. WSSC Water has applied for low interest loans and grant funding through MDE's Water Infrastructure Financing Administration's Water Quality Revolving Loan Fund Program and grant funding from MDE's Bay Restoration Fund for portions of this program. The sewer reconstruction program was established in 1979. Some expenditures for grouting repairs are included in the Operating Budget. The following work accomplishments through FY'22 summarize the magnitude of this reconstruction effort: sewer main reconstruction, 570 miles; and sewer house connection renewals, 24,088. It is anticipated that sewer reconstruction activity will be a perpetual element of future work programs.

D. Description & Justification

DESCRIPTION
 Other Capital Programs (OCP) includes miscellaneous capital projects, programs, and expenditures for common, non-CIP, enterprise-wide activities such as relocations, new water and sewer house connections, purchase and installation of water meters, purchase of generators, PFAs Pilot, Facility Planning Study, paving, and general construction of local lines.

*EXPENDITURES FOR OTHER CAPITAL PROGRAMS ARE EXPECTED TO CONTINUE INDEFINITELY.

BENEFIT
 Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life

JUSTIFICATION
 The OCP does not include proposed "major projects" which, by law, must be programmed in WSSC Water's Six-Year Capital Improvements Program (CIP) or projects to serve new development.

COST CHANGE
 Not applicable.

OTHER
 The OCP summarizes capital expenditures and allocated costs that are not already included in the CIP or in other Information Only projects. Expenditures for the budget year are estimated during the annual CIP update cycle each summer for the Proposed CIP document. The estimates will be revised and updated during the annual budget update cycle each fall for the Proposed Operating & Capital Budget document. Future years are Order of Magnitude estimates and are expected to change with each update cycle.

D. Description & Justification

DESCRIPTION

This project provides funding for WSSC Water's share of Blue Plains liquid process train projects for which construction began after June 30, 1993. This project is comprised of 24 projects that have been identified and prioritized by DC Water in their capital program. Projects with significant spending in FY'26 include: upgrades to the grit, screening, and primary treatment systems (BQ); upgrading effluent filters (IY); replacing/upgrading the primary clarifier mechanical components (J2); improvements to the headworks influent structures (BC); nitrification reactors/sedimentation upgrades (PE); liquid process rehabilitation (RN); and liquid processing PM (A2); and a rehab of the nitrification/sedimentation process - 20 year rebuild (LF).

BENEFIT

Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees;
Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life

JUSTIFICATION

This is a continuation of the DC Water's upgrading of the Blue Plains Wastewater Treatment Plant. Blue Plains Inter-Municipal Agreement of 2012; DCWASA Master Plan (1998); Blue Plains Facilities Master Plan (2016); DC Water's preliminary FY'25 - FY'34 Capital Improvements Program.

COST CHANGE

The schedule and expenditure projections were updated to reflect the latest estimates available from DC Water for the constituent Blue Plains joint-use projects as of April 2024.

OTHER

The project scope has remained the same. Project costs are derived from the DC Water Capital Budget 10-year forecast of spending and DC Water's latest project management data, and fully reflect DC Water's cost estimates and expenditure schedules available at the time this document was prepared. Given the open-ended nature of the Blue Plains projects, this PDF does not fully reflect the total project costs. These projects are, in fact, expected to continue indefinitely. As new sub-projects are added to the Blue Plains facility plans, the associated costs will be added to this project. The funding schedule also indicates the calculated Rockville share of the cost.

D. Description & Justification

DESCRIPTION

This project provides funding for WSSC Water's share of the Blue Plains biosolids processes for which construction began after June 30, 1993. There are 12 projects from the DC Water capital program that are covered by the WSSC Water capital project. The projects that make up the majority of the FY'26 anticipated spending include: biosolids blending development center (I3); additional centrifuges for pre-digestion dewatering (LD); and implementation of an RNG initiative to power municipal buses (TL). Starting in FY'28 are planned upgrades to the DAF facility (XY), rehabilitate the dewatered sludge loading facility (XD); and biosolids process rehabilitation (RM);

BENEFIT

Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees; Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life

JUSTIFICATION

This project is needed to implement, upgrade, expand and rehabilitate various facilities that provide treatment and management of the Class A biosolids program for Blue Plains. Blue Plains Inter-Municipal Agreement of 2012; DCWASA Master Plan (1998); EPMC IV Facility Plan, CH2MHILL (2001); Biosolids Management at DCWASA Blue Plains Wastewater Treatment Plant Phase II - Design and Cost Considerations for Treatment Alternatives Report (December 2007); Blue Plains Facilities Master Plan (2016); and DC Water's preliminary FY'25 - FY'34 Capital Improvements Program.

D. Description & Justification

<p>DESCRIPTION</p> <p>This project provides funding for WSSC Water's share of Blue Plains plant-wide projects for which construction began after June 30, 1993. There are 26 DC Water capital program projects covered by the WSSC Water capital project. Current projects with significant spending in FY'26 include: electrical system upgrades (TZ); floodwall construction (JF); plant-wide program management (AL); chemical system/building upgrades (PF); and other miscellaneous projects including roof replacements (OQ) and emergency repairs and rehab (V1, V2, V3). Other projects with significant spending over the 6-yr period include electrical monitoring (IC) in FY'27; implementation of solar power at Blue Plains phase 2 (XP) and control system replacement (GW) in FY'28.</p> <p>BENEFIT</p> <p>Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees; Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life</p> <p>JUSTIFICATION</p> <p>This is a continuation of DC Water's upgrading of the Blue Plains Wastewater Treatment Plant. D. Description & Justification

DESCRIPTION
 This project provides funding for WSSC Water's share of Blue Plains-associated projects which are generally situated "outside the fence" of the treatment plant. There are 22 projects from the DC Water capital program under this project. Major projects in FY'26 include: rehabilitation of various portions of the Potomac Interceptor (LZ); on-going construction of the Potomac River Tunnel (CZ); renovations to the central office facility (COF) and central maintenance facility (CMF) at Blue Plains (HJ and HK); and various upgrades to sewer pumping stations (RS, RT and RU). Other projects with significant spending over the 6-year period include on-going rehabilitation projects on major sewers including the AFM, RCMI, Oxon Run and influent sewers to Blue Plains (RC and RD).

BENEFIT
 Regulatory & Other Agreements: This project is required to meet regulatory requirements, multi-jurisdictional agreements, and/or consent decrees; Infrastructure Reinvestment: This project replaces existing infrastructure that has exceeded its useful life; Environmental Sustainability: This project supports WSSC Water's commitment to protect the natural environment of Prince George's and Montgomery Counties

JUSTIFICATION
 This is a continuation of DC Water's upgrading of the Blue Plains-associated projects outside the fence. Blue Plains Inter-Municipal Agreement of 2012; DCWASA Master Plan (1998); Technical Memorandum No. 1, Multi-Jurisdictional Use Facilities Capital Cost Allocation (June 2013); and DC Water's preliminary FY'25 - FY34 Capital Improvements Program.

COST CHANGE
 The schedule and expenditure projections were updated to reflect the latest estimates available from DC Water for the constituent Blue Plains joint-use projects as of April 2024

OTHER
 The project scope has remained the same. Project costs are derived from the DC Water Capital Budget 10-year forecast of spending and DC Water's latest project management data, and reflect DC Water's cost estimates and expenditure schedules available at the time this document was prepared. Given the open-ended nature of the Blue Plains projects, this PDF does not fully reflect the total project costs. These projects are, in fact, expected to continue indefinitely. As new sub-projects are added to the Blue Plains facility plans, the associated costs will be added to this project. The funding schedule also indicates the calculated Rockville share of the cost, which varies by project based on the City's relative share of WSSC Water's flow as derived in the Multi-Jurisdiction Use Facilities Study.

PART I: Washington Suburban Sanitary Commission Capital Projects To Be Closed Out

The Washington Suburban Sanitary Commission has authorized the close out of the following capital projects

Project Number	Project Name
P103802	Septage Discharge Facility Planning & Implement.
P173802	Clarksburg Wastewater Pumping Station
P173804	Milestone Center Sewer Main
P063806	Shady Grove Station Sewer Augmentation

Capital and Operating Budget for the WSSC Water

#17 – Washington Suburban Sanitary Commission - Capital and Operating Budgets

Resolution No.: 20-533
Introduced: May 23, 2024
Adopted: May 23, 2024

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Approval of the FY 2025 Capital and Operating Budgets for the Washington Suburban Sanitary Commission

Background

1. Section 17-202 of the Public Utilities Article of the Maryland Code requires the Washington Suburban Sanitary Commission (Commission) each year to submit proposed capital and operating budgets to the County Executives of Montgomery and Prince George's Counties for their recommendations. The Executives in turn transmit the budgets to the respective County Councils for amendment and approval. Both Councils may recommend rates for water consumption and sewer use charges and ad valorem tax levies as the Councils deem necessary.

2. The Montgomery County Council on October 24, 2023, by Resolution No. 20-310 recommended the following spending control limits for the Commission's FY 2025 Water and Sewer Capital and Operating Budgets:

Water and Sewer Rate Increase	8.5%
New Water and Sewer Debt	\$390,262,000
Water and Sewer Debt Service	\$361,968,000
Water and Sewer Operating Fund Expenditures	\$1,014,059,000

3. The Prince George's County Council on October 24, 2023 by Resolution No. CR-102-2023 recommended the following limits for the Commission's FY 2025 Water and Sewer Capital and Operating Budgets:

Water and Sewer Rate Increase	8.5%
New Water and Sewer Debt	\$390,262,000
Water and Sewer Debt Service	\$361,968,000
Water and Sewer Operating Fund Expenditures	\$1,014,059,000

4. In accordance with Section 17-202 of the Public Utilities Article of the Maryland Code, on March 1, 2024, the Commission submitted to the Executives of Montgomery and Prince George's Counties its Proposed FY 2025 Budget, which included an FY 2025 Total Operating Budget of \$1,019,802,600 (including \$5,743,700 in operating debt service from the General Bond Debt Service Fund) and an FY 2025 Capital Budget of \$791,267,600 as well as the record of the public hearings held by the Commission on the Proposed 2025 Budget.

The Commission's Water and Sewer portions of the FY 2025 Capital and Operating budgets assume the following:

An Overall 8.5 percent Water and Sewer Revenue Enhancement including:

Water and Sewer Rate Increase	2.4%
Fixed Fee increases	65%
New Water and Sewer Debt	\$390,262,000
Water and Sewer Debt Service	\$361,968,000
Water and Sewer Operating Fund Expenditures	\$1,014,058,900

5. The Executives of Montgomery and Prince George's Counties transmitted to the respective Councils their recommendations on the Commission's proposed budgets.
6. The Montgomery County Council advertised and held public hearings on the Commission's proposed Capital Improvements Program on February 6, and 7, 2024, and on the proposed Operating Budget and Capital Budget on April 8, 9, and 10, 2024.
7. The Montgomery County Council recommended approval of the Commission's FY 2025 Operating and Capital Budgets. The Council recommended approval of the Commission's FY 2025 Total Operating Budget at \$1,019,802,600 (including \$5,743,700 in operating debt service from the General Bond Debt Service Fund) and a combined water/sewer volumetric rate increase of 2.4% with fixed fee increases of 65%, which is equivalent to an overall 8.5% revenue increase. The Council recommended approval of the Commission's FY 2025 Capital Budget at \$791,267,600. This recommendation was transmitted to the Prince George's County Council by letter dated May 6, 2024.
8. The Prince George's County Council advertised and held a public hearing on the Commission's Proposed Operating and Capital Budgets on April 16, 2024.
9. The Prince George's County Council recommended approval of the Commission's FY 2025 Operating and Capital Budgets. The Council recommended approval of the Commission's FY 2025 Total Operating Budget at \$1,019,802,600 (the same as the Montgomery County Council recommendation) and a combined water/sewer volumetric rate increase of 2.4% (the same as the Montgomery County Council recommendation). The Council recommended approval of the Commission's FY 2025 Capital Budget at \$791,267,600 (the same as the Montgomery County Council recommendation). This recommendation was transmitted to the Montgomery County Council by letter dated May 7, 2024.

- On May 9, 2024, the Montgomery County and Prince George's County Councils jointly reviewed the Commission's FY 2025 Operating and Capital Budgets and approved the budgets at the two Councils' recommended levels.

Action

The County Council for Montgomery County, Maryland approves the following resolution:

- The following amounts and workyears are approved for the budget of the Washington Suburban Sanitary Commission for the fiscal year beginning July 1, 2024 and ending June 30, 2025.

	Operating	Capital	
Salaries and Wages	\$ 158,995,900	\$ 32,120,300	\$ 191,116,200
Heat, Light & Power	27,290,700	302,400	27,593,100
Regional Sewage Disposal	76,908,000	--	76,908,000
Contract Work	--	512,237,200	512,237,200
Consulting Engineers	--	83,704,600	83,704,600
All Other Items	391,159,000	162,903,100	554,062,100
Debt Service	365,449,000	--	365,449,000

Total	\$1,019,802,600	\$791,267,600	\$1,811,070,200
--------------	------------------------	----------------------	------------------------

Workyears Authorized: 1,963

- The Capital Budget includes the first year of the FY 2025-2030 Capital Improvements Program as detailed in Appendix A (Water) and Appendix B (Sewer), which are attached and incorporated.
- In adopting the Commission's FY 2025 Operating Budget, the Counties and the Commission recognize that although total operating debt service, including General Bond Debt Service, is \$365,449,000 and equals 35.8% of the total operating budget, water and sewer operating debt service, the portion of debt service supported by water and sewer rate revenues, is \$361,968,000 or 35.7% of the water and sewer operating budget.
- The Montgomery County Council recommends that the Commission establish water consumption and sewer use rates and charges as detailed in Appendix C, effective July 1, 2024.
- The Montgomery County Council recommends that the Commission establish the account maintenance fee for all customers as detailed in Appendix D, effective July 1, 2024.
- The Montgomery County Council recommends that the Commission establish the infrastructure investment fee for all customers as detailed in Appendix E, effective July 1, 2024.

7. The Commission may adopt certain miscellaneous fees and charges as detailed in Appendix F, effective July 1, 2024, and the Commission may delegate to the General Manager the authority to adopt any new fees and charges that may be needed between that date and adoption of the FY 2026 Budget.
8. Any supplement to the Commission's Approved FY 2025 Budget must be submitted in accordance with §17-202 of the Public Utilities Article of the Maryland Code.
9. The Commission must acknowledge the recommendations of the respective County governing bodies regarding certain policies, procedures, and practices, and must:
 - (a) obtain the approval of both Councils before increasing total operating expenditures above \$1,019,802,600;
 - (b) obtain the approval of both Councils before transferring any funds from any approved expenditure category in the operating or capital budget which exceeds 5% of the approved amount. This transfer authority does not apply to the amount approved for debt service; and
 - (c) furnish monthly status reports to each Council and Executive on the fiscal and budgetary activities of the Commission under the approved operating and capital budgets, starting with the end of the first quarter of the fiscal year. These reports must be submitted not later than 45 days after the last day of each month.

This is a correct copy of Council action.

Sara R. Tenenbaum
Clerk of the Council
