Unencumbered Balance	5,996		

PROJECT DESCRIPTION

This project provides for planning, design, permitting, and construction of a parking garage and other improvements at the Burtonsville Park and Ride Lot in support of Flash service on the US 29 corridor and to facilitate reactivation or redevelopment of the adjacent commercial property. The County is partnering with a private developer who will design and construct a shared parking garage. The shared garage will include approximately 250 parking spaces for the park and ride which will be funded by the County. The Burtonsville Station is the northernmost FLASH station in Montgomery County and is well-situated for park-and-ride access with direct ramps to US 29 and strong east-west connections via MD 198. With this strategic location, the park-and-ride can serve residents of Montgomery, Prince George's and Howard Counties, increasing transit ridership and lowering traffic demands on US 29 through

Montgomery County. Expansion of this park-and-ride is needed to accommodate future ridership at this station and is part of longer-term plans to extend Flash service into Howard County and to provide all-day service in Burtonsville. The location can also serve as a hub for interconnecting local services to nearby communities like Cloverly, Ashton, Laurel and Maple Lawn. Expansion of public parking capacity at this location may also facilitate a more compelling development vision for County, State and privately owned properties in this part of Burtonsville. The redevelopment will reserve space for an additional parking garage to be constructed by the County at a later date.

ESTIMATED SCHEDULE

The Department of General Services issued a request for proposals for development of the site in FY21 and executed a developer agreement. Design and permitting of the garage will start in FY24. Construction will start in FY26 and be completed in FY27.

PROJECT JUSTIFICATION

It is estimated that by 2040 there will be a need for 1,000 park-and-ride spaces at the Burtonsville Park-and-Ride to serve the Flash service and the current capacity of the park-and-ride lot is only 475 spaces. This parking also serves Metrobus and MTA bus services and supports County employee commuting. The park and ride lot has strong access to US 29, but access from Old Columbia Pike and Maryland 198 relies upon connections through the adjacent commercial development. The Burtonsville Crossing Shopping Center is immediately adjacent to the park-and-ride lot and the rear of the center faces the Flash station. The Burtonsville Crossing Shopping Center has struggled to retain and attract tenants since the opening of the Burtonsville Town Center, directly across Old Columbia Pike, and the completion of the Burtonsville overpass on US 29. Due to low occupancy, the shopping center has become a source of community concern. Reconfiguration of the park-and-ride lot and its access routes, may be an important element of reactivating or redeveloping the Burtonsville Crossing Shopping Center and better integrating development on the approximately 36 acres of land between Old Columbia Pike, US 29, MD 198 and the Pepco transmission lines.

FISCAL NOTE

State aid reflects State grants for capital projects in Montgomery County programmed or preauthorized during the 2020, 2021, and 2023 State General Assembly Sessions.

DISCLOSURES

A pedestrian impact analysis will be performed during design or is in progress. The County Executive asserts that this project conforms to the requirement of relevant local plans, as required by the Maryland Economic Growth, Resource Protection and Planning Act.

COORDINATION

Department of General Services, Department of Transportation, Office of Intergovernmental Relations, Office of the County Executive, Community Engagement Cluster.
