PROJECT DESCRIPTION

This project schedules renovation, protection, modernization, conversion, and/or replacement of aging, unsafe, or obsolete local park facilities and features. The park system contains over 300 local parks and many different types of facilities, many of which are over 40 years old. There are six subprojects, organized by categories of infrastructure, within this project, and each has a prioritized list of candidate projects, but projects may change or be grouped as needs arise or economies-of-scale can be achieved. Subprojects: Boundary Markings, Minor Renovations, Park Building Renovations, Play Equipment, Resurfacing Parking Lots and Paths, and Court Renovations. Improvements may include, but are not limited to, renovating and/or converting existing amenities, modernizing facilities, improving infrastructure, etc.

PROJECT JUSTIFICATION

Renovations scheduled in this project are based on ongoing infrastructure assessments, as well as requests from park operations. Failure to proactively renovate or replace aging park facilities and features before the end of their useful life results in decreased levels of service to park users, potential safety risks, and an overall increase in capital costs as repairs become emergencies.
