

# Who Do You Think Should Run the County Police Department?

The Police Chief or Police Union Leaders?

**That's What Question B on the November Ballot Is All About.**

Under "effects bargaining," Police Chief Tom Manger has to bargain everything about running his department with Police Union leaders. That makes no sense. No other Police Union in the State has such a law. Neither does any other County union. That's why the County Council and the County Executive unanimously repealed "effects bargaining" – without affecting the continued right of the Union to bargain wages, hours, working conditions, benefits, and safety issues.
