#### **OPINION**

Zoning Text Amendment (ZTA) 11-07, sponsored by Councilmember Floreen, was introduced on November 8, 2011.

ZTA 11-07 would allow for an increased size of allowable antennas. Currently, antennas 6 feet high or disks with diameters of 6 feet across are allowed for telecommunications facilities. ZTA 11-07 would change 6 feet to 8 feet for both the antenna height and the diameter of a disk.

The Planning Board and Planning Staff recommended the approval of ZTA 11-07. In their opinion, the proposed increase in antenna size will have no impact on existing procedures and little or no visual impact.

The Council held a public hearing on January 17, 2012. No speakers testified at the public hearing. The text amendment was referred to the Planning, Housing, and Economic Development Committee for review and recommendation.

The Planning, Housing, and Economic Development Committee held a worksession to review the amendment on January 30, 2012. The Committee (3-0) recommended approval of ZTA 11-07 as introduced.

The District Council reviewed Zoning Text Amendment No. 11-07 at a worksession held on February 7, 2012 and agreed with the recommendations of the Planning, Housing, and Economic Development Committee.

For these reasons, and because to approve this amendment will assist in the coordinated, comprehensive, adjusted and systematic development of the Maryland-Washington Regional District located in Montgomery County, Zoning Text Amendment No. 11-07 will be approved as introduced.
