MEMORANDUM

December 3, 2015

TO:

Public Safety Committee

FROM:

Susan J. Farag, Legislative Analyst

SUBJECT:

Update: Crime Statistics

Today the Committee will receive an update on current crime statistics in the County. Those expected to brief the Committee include:

Chief Thomas Manager, Montgomery County Police Department (MCPD) Assistant Chief Darryl McSwain, MCPD Captain Tom Didone, MCPD

OVERVIEW

The Committee was last briefed on crime statistics in March 2015. At that time, data showed an overall crime increase of 6.3% from 2013 to 2014. This represented the first annual increase in several years. Prior to 2014, total crimes had decreased by about 19%. While crime did increase in 2014, it still was the second lowest crime rate for the County over the past 10 years, and 2013 had been the lowest of all.

CRIME DATA AND TRENDS FOR 2015, YEAR-TO-DATE

MCPD's PowerPoint presentation has been included on © 1-28, and contains detailed information about the latest trends. Based on current data that the Police Department has provided, total Part I crimes are down slightly (-1.2%) compared to the same time period in 2014. Part I crimes are the more serious offenses that occur regularly, and are more likely to be reported to law enforcement. Within the Part I crime categories, however, there have been some significant increases. The number of homicides has increased from 16 in the first three quarters of 2014 to 24 so far this year. Rape has increased from 121 to 236. Robbery has increased slightly from 548 to 557, and aggravated assault has increased from 757 to 866. The one significant decrease is burglary, which dropped from 2,151 to 1,703 so far this year. *Has the*

Police Department identified any underlying reason for the increases in homicides and rapes? Are these domestic in nature? What can the reduction in burglaries be attributed to?

Part I Crime Trends by District: The following charge shows trends in Part I offenses through November 23, 2015 compared to the same time period last year (see ©13-18 for District Maps).

Police District	Through 11/23/2014	Through 11/23/2015	Percentage Change
1D Rockville	1,892	1,850	-2.2%
2D Bethesda	2,834	2,654	-6.4%
3D Silver Spring	3,745	3,370	-10%
4D Wheaton	2,894	2,886	-0.3%
5D Germantown	1,716	1,892	10.3%
6D Gaithersburg	2,452	2,732	11.4%

Closure Rates: MCPD advises that tits closure rates in 2105 are higher than the 2014 average closure rate in metropolitan counties. It currently reports a 79.2% closure rate on homicides, 80.5% on rapes, 42.4% on robberies, 65.7% on aggravated assaults, and 29.7% on burglaries. The Committee may wish to ask how closure rates compare to prior years within the department and whether the addition of detective positions over the past several years has helped increase closure rates.

Mental Health-Related Calls for Service: Calls for service that involve some type of mental health issue have been steadily increasing since 2011 (see © 21-22). The number of calls has increased 12.4% from 2014 to 2015 (year-to-date).

Recovered Firearms: The Police Department advises it has recovered 2,597 guns between 2012 and 2014. It has recovered 733 of them this year. The chart on © 26 illustrates the nature of the reasons for recovery. The primary reason is domestic violence, which accounted for 162 cases this year. MCPD indicates that it has flagged four Montgomery County residents to prevent them from purchasing firearms. Without these flags, these individuals would pass the background check and legally be able to buy firearms. The Committee may wish to ask what leads to flagging an individual's record for this purpose.

Gang Activity: There have been several recent media reports regarding gang activity in Montgomery County and the greater Washington, DC area. The chart on ©23 identifies gang activity throughout the County. The Committee may wish to ask if this represents an increase or decrease in the number of gang-related incidents. Are there any trends in the types of crimes being committed?

Public Safety Update Montgomery County

December 7, 2015

Montgomery County, YTD 2015

- ➤ Homicide: Increase of 50.0% (16 v 24)
- > Rape: Increase of 95.0% (121 v 236)
- > Robbery: Increase of 1.6% (548 v 557)
- Aggravated Assault: Increase of 14.4%(757 v 866)
- Burglary: Decrease of 20.7%(2,151 v 1,703)

TOTAL FIREARMS RECOVERED, 2012-2014

The Department recovered 2,597 guns between 2012 – 2014.

FIREARMS, YTD 2015

750 firearms recovered YTD (11/23/15).

268 of those firearms were recovered from someone over the age of 50.

FIREARMS, YTD 2015

The primary reasons for recovery are domestic violence, followed by investigation and health-safety.

FACTS ABOUT RECOVERED FIREARMS

- Of the 1054 guns recovered in 2014, the Firearms Investigations Unit (FIU) recovered 44% (467).
- Nine of the top ten source dealers of recovered firearms are Maryland gun dealers. Eight of these dealers are located in Montgomery County (one in Anne Arundel and one in California).
- FIU flagged 4 Montgomery County residents, along with the MSP and NICS, to prevent them from purchasing firearms. Without these flags, they would pass the background check and legally be able to purchase firearms.
