REPLACEMENT OF PARK VALLEY ROAD BRIDGE NO. MPK-03 OVER SLIGO CREEK

Arthur Holmes, Jr., Director, Department of Transportation

PUBLIC INFORMATION MEETING #2

Meeting Date and Location

Wednesday, June 12, 2013, 7:00-9:00 PM
East Silver Spring Elementary School, Cafeteria
631 Silver Spring Avenue, Silver Spring, MD 20910

The Montgomery County Department of Transportation (MCDOT) invites you to attend public informational meeting #2 to learn about the update of the Replacement of Park Valley Road Bridge No. MPK-03 over Sligo Creek.

On December 11, 2012, MCDOT Division of Transportation Engineering (DTE) hosted public information meeting #1 to present project scope, anticipated schedule, project funding, preliminary design and traffic maintenance, and to obtain community input. 10 citizen were in attendance, and 25 written comments in response to the public meeting were received. Accordingly, the DTE has evaluated the public comments, coordinated with the community and developed modifications of the design to address the public comments.

PURPOSE OF PUBLIC INFORMATION MEETING #2

The purpose of public information meeting #2 is to present the proposed modifications of the scope and design, the update of the project schedule and funding, and to obtain community input.

PROJECT BACKGROUND

The existing Park Valley Road Bridge, built in 1931, is composed of an approximately 30'-0" single span, simply supported concrete beam bridge with a reinforced concrete deck, stone parapets, stone-façade abutments, and asphalt wearing surface. This bridge supports a

20'-0" wide roadway with a 5'-1" wide sidewalk on the south side.

The bridge is defined as structurally deficient due to the poor condition of the deck and abutments with spalled concrete and exposed reinforcement. The bridge has a weight restriction of 30,000 lbs for both single unit truck and combination unit truck due to its poor structural condition.

PUBLIC COMMENTS FORM

Arthur Holmes, Jr., Director, Department of Transportation

We Welcome Your Feedback!

Public input is the key to the success of a transportation project, as it allows the Montgomery County Department of Transportation (MCDOT) to understand the concerns of the community.
