Board members will have the opportunity to expand on the work they do in their respective communities and how they serve to bring community issues to the Board. The dialogue that follows with the meeting participants is intended to identify, expand, and affirm issues of importance to Silver Spring. The community will have the opportunity to bring these issues (new, old, and on-going) to the Advisory Board's attention so the Board can better accomplish its mission of advising the County Executive and County Council.
