

We are planning a wedding at the end of the month in a venue that presently allows 50 people that usually has the capacity for 150 people. We are very serious about masks, social distancing and doing everything to minimize chance of getting sick. We feel this can be done with the present restrictions at this roomy venue. We would prefer to keep the wedding that was planned in Montgomery County. Plans included to keep the gathering as safe and healthy as possible. This creates a hardship for our family with little notice to redirect. Please reconsider the # of people at gatherings all ready scheduled or allow more time for families to change direction for this life event.

Sincerely yours,

Roberta Kaplan
