Dear Council People,

DO NOT approve additional lockdown for Montgomery County. Stop spreading fear and killing families and businesses.

It's obvious to everyone that the number of CASES will increase with additional testing. We're not as stupid as you act like we are. The first lockdown was to squash the initial spread.

We now know how to TREAT people with the disease. The hospitals are NOT over-run. STOP the fear. This is AMERICA.

Since I live in the unrepresented upcounty area of Clarksburg, I'm fairly certain my email will fall on deaf ears – but we still want you to know how little we think of you and your self-serving, feckless leadership.

Good day.

Tim DeArros
