

MoCo Football not playing yet indoor ice hockey is playing and the council allowed a resident from Elicott City speak on behalf of ice hockey for Montgomery County.

Also, it took a private lawyer to address the council?

The taxpayers of this county elected each official. Your job is represent us.

Please update your June 2020 guidance to current Federal and State guidance and allow High School Football players to play their Junior and Senior year.

Think about the impact the Council has shown the football community when all other sports communities are playing.

It is saying that football players do not matter.

Be fair and equitable please.

A very concerned and distraught parent and taxpayer.
