

As a parent of a HS Senior, the mental anguish with regard to missing milestones from “the best years of their life” is becoming unbearable for these young people. MOCO seems to be behind the rest of the state and country when it comes to allowing small activities of normalcy. PLEASE allow spectators at sporting events. I’ve NEVER seen individuals without masks on in other counties that have allowed limited spectators, I think we are mature enough in MOCO to handle this without public harm.
