Re: Public Health Order
Montgomery County Board of Health

Dear Honorable Members of the Montgomery County Council:

The current restrictions on indoor gatherings remain too limiting when you consider that a restaurant is allowed to serve food without guests wearing masks for up to 50% of normal capacity. While a hotel ballroom that could potentially host 450 guests for a dinner cannot serve food to more than 25 people in one space. We are not only losing business at the hotel because of these restrictions, but the county is losing business as clients cancel events and move them to less restrictive neighboring counties.

We support restrictions and following the guidelines, but common sense guidelines need to be considered to allow venues to host gatherings relative to their square footage and size.

Respectfully,

Bethany Titman
