

Dear Council members.

I IMPLORE you to reject absolutely and finally the notion of requiring citizens of our county to show vaccination credentials before going about their normal lives.

I am an RN of 34 years experience, 20 of which is in clinical research and drug safety.

Many people choose not take these COVID shots for a number of reasons including:  
Religious Beliefs

(All products have been tested on aborted fetus cell lines or contain them),

Doubts about the safety of these products

20.000 deaths and 1 million adverse events associated with COVID vaccines as of 01/07/22. This according to the US government's Vaccine reporting system.

See attached table on page 2.

Doubts surrounding their efficacy.

(Currently, these shots provide only a temporary boost in immunity).

Existing medical conditions

Certain medical conditions may well preclude a person from taking these products.

Let us remember. These products are EXPERIMENTAL!

Above all else, a vaccine pass requirement would only sow division at a time when unity is needed more than ever.

Certainly, economic harm could only ensue as people stay away from businesses.  
IF this passes, I will not be the only one to leave this county where I have resided for over 20 years.

My skills, my assets and my efforts will go where they are valued and appreciated.

To vote for this so called pass would only be to reinstate the yellow star, the lepers bell and the segregated water fountain.

NO, NO, NO.

Respectfully,

Anthony McConnell. R.N.
