

Veirs Mill Bus Rapid Transit

To Whom it May Concern,

I am writing to express my utmost support for the inclusion of money in Montgomery County's budget to fund the final design and construction of. The Bus Rapid Transit line along Veirs Mill Rd. BRT on Veirs Mill Rd will serve as a much needed east west connection and provide redundancy to Metro's red line. It will also provide a great service to one of Montgomery County's most diverse corridors and hopefully kickstart other much needed improvements as envisioned in the Veirs Mill Corridor Plan, including bike and pedestrian safety measures. Montgomery county cannot continue to grow and prosper through automobile oriented development. The county must continue making investments in our public transportation infrastructure. Thank you.

Sincerely,

Mike Stein
Rockville, MD
