

To whom it may concern:

Hello, my name is David Vidals and I am 19 years old. I am one of Dr. Peralta's patients. I came to Casa Ruben Inc. because she was a highly recommended pediatrician. I learned that once you are 18 years old it is harder to find a doctor since my pediatrician no longer accepted my age group. The office was able to accommodate me, and I had routine visit. She spoke to me in Spanish and English and I felt comfortable since in my household also speaks both languages. None of my past doctors spoke Spanish, only a few nurses which made it difficult for my mom at that time. I know for new parents they will appreciate her speaking in their language and they can better understand how to treat their children. During my visit, she asked my questions about my health that I felt comfortable answering and learned about me as a person and patient. She listened attentively to my responses and provided me with detailed answers and gave me clarity to understanding my health concerns. She is a kind person and knows how to treat her patients with care which I admired.

Sincerely,

A handwritten signature in black ink that reads "David Vidals". The signature is written in a cursive style with a long horizontal line extending from the end of the name.

David Vidals
