

DHHS - \$450,000 for Pediatric Mobile Medical Vehicle; and
Amendment to Designation of Entities for Non-Competitive Contract
Award Status: Casa Ruben, Inc.

With approval of this funding, Casa Ruben, Inc., the Foundation and Montgomery County will be able to create a public-private initiative to use a mobile medical clinic to connect uninsured, under-insured, and under-resourced children and youth (ages 0-21 years) to healthcare and increase the number of children and youth who receive vaccinations needed for overall health and to enroll in school. This is vitally important for those underserved residents of Montgomery County.
