To Montgomery County Council Public Hearing March 29, 2022:

Re: Casa Ruben Inc. Pediatric Mobile Medical Vehicle

My name is Yenssy Gonzalez. I write in support of Casa Ruben and Dr. Ligia Peralta. The Foundation and Montgomery County would create a public-private initiative to use a mobile medical clinic to connect uninsured, under-insured, and under-resourced children and youth (ages 0-21 years) to healthcare and vaccinations.

I have witnessed Dr. Peralta's community work and her commitment to help those most in need to provide access to the best possible health care available to them.

Sincerely,

Yenssy Gonzalez
