To Montgomery County Council Public Hearing March 29, 2022:

Re: Casa Ruben Inc. Pediatric Mobile Medical Vehicle

To all my Montgomery County representatives, I strongly support Montgomery Council approving funding for Casa Ruben, Inc. The Foundation and Montgomery County would create a public-private initiative to use a mobile medical clinic to serve children and youth who are uninsured, underinsured, and have insufficient resources for health care and immunizations.

I am President of the PTA at Wheaton Woods E.S. of Montgomery County, at each meeting of parents, some mothers of the children that they took to be attended by Rubén Clinic, expressed their gratitude to me for having provided them with this resource of medical attention to children without insurance.

Therefore, I reiterate my full support for Casa Rubén, because I am sure that it is and will be our second home for medical care for all low-income immigrant families.

Sincerely,

Silvia Rocabado
