Good morning, I wanted to take the time to express my support of Zoning Text Amendment (ZTA) 23-09, Farming - Incidental Outdoor Stays, and stress the expansive benefits local farms provide to urban/suburban communities and the importance of diversified economic streams to the survivability of the small farm. I believe this is crucial in giving the farmers and farming-interested people the opportunities to create great relationships and connections that will help farmers continue to give us the highest quality products for themselves and other people to continue thrive off of. This could heavily impact your own children and future children. If farms like these do not have these opportunities which help keep the farm alive. Your family could suffer from not having the best quality goods available. I know that's not what I want for my family. Thanks for your time.
