

While you talk about affordable housing and overlook the real estate tax burden you place on Senior citizens.

With the current real estate credits, I will need be 100 before I am eligible.

I am currently applying for part time jobs with the County to become eligible for z first responder real estate tax credit.

I have no children in MCPS, and still, I have to watch the school ask for and get budget increases.

Taxation without consideration makes housing unaffordable for Montgomery County Seniors. Please consider this dilemma.

Thank you for your consideration.

Kind regards,

Cynthia A Karst
