

Support for An Increased Restorative Justice Budget

As a former teacher, VISTA volunteer staff and person of faith I feel it is very important to support Restorative Justice programs in our county's schools. I am a resident of Montgomery county and my grandchildren attend BCC High School.

You know the arguments for and successes of Restorative Justice programs. Please do not cut funding, rather figure out a way to increase the funding so more students have a chance to be kept out of our prison system.

Thank you.
