

My name is Eric, I am a born and raised Montgomery County resident, and I support Bill 35-25. It is my belief this is a simple question – should the authorities need to go through proper channels to coordinate their activities? The answer is yes. I expect law enforcement, of any kind, to obtain the required warrants or permissions before taking action. Our local police should simply not be assisting ICE on a volunteer basis, as if they were deputized as border patrol agents. If there is a legitimate safety concern in Montgomery County, then ICE can follow the exact same procedures to obtaining police assistance that any other government authority would have to go through.
