

**FY27 Montgomery County Council - FY27 Budget hearing on Natural Grass Field at  
North Potomac Community Center (P722701) NPCC Field**

I am opposed to converting the current turf field at Nancy Dracek Rec Center to grass. Since there are no other over-70 soccer programs in the entire Maryland-DC-Northern Virginia area, I will be forced to stop playing soccer after over 40 years, since a grass field will eliminate all over-70 soccer. As importantly, I previously supported an effort in my prior town to replace a grass field with turf, and we found that field usage tripled with a turf field.
