

Re: conversion of soccer field at NPCC to a grass field. I have played soccer in montgomery county leagues for fifty years, and the field at NPCC is the best field you have ever offered. If converted to grass it will need to be cut and lined every week. Most of the county's grass field are not in great shape, they wear quickly. On grass we can not play in the rain, and the field is closed for the winter. Thank you.
