

Hearing Topic: Pass Bill 4-26. Stop the subterranean "hum" from sites like 100 Park Ave. No more mansions of cards at our expense. Quiet for our homes.

The Mission: Testimony for the Feb 24th Rockville/Montgomery County Council hearing.

The Theme: "The Triangle of Terror" vs. "The Golden Dome of Potomac."

The Argument: Subterranean data units act as "industrial subwoofers," sending vibrations through bedrock into our brains. We are the "Canaries in the Coal Mine."

The Demands:

1 Amend ZTA 26-01 to include Infrasound/dBC limits.

2 Use Bill 4-26 to trigger an immediate moratorium.

3 Stop the inequality—protect us like they protect Potomac.
