

MONTGOMERY COUNTY COUNCIL
ROCKVILLE, MARYLAND

OFFICE OF THE COUNCIL PRESIDENT

May 6, 2024

D. Lee Currey, Director
Water and Science Administration
Maryland Department of the Environment
1800 Washington Boulevard
Baltimore, MD 21230

Dear Mr. Currey,

Please find enclosed two copies of Resolution 20-482, approved by the Montgomery County Council on April 23, 2024. The Council actions reflected in the resolution involved 11 category change requests and include two approvals, one conditional approval, seven denials and one deferral.

An electronic copy of Resolution 20-482 is available at the Council website at: https://apps.montgomerycountymd.gov/cellims/DownloadFilePage?FileName=12173_1_25617_Resolution_20-482_Adopted_20240423.pdf

If you have any questions regarding the enclosed documents, please contact Keith Levchenko of Council Staff at (240) 777-7944 or at: keith.levchenko@montgomerycountymd.gov.

Thank you for your attention to this matter.

Sincerely,

Andrew Friedson
Council President

AF:kl
Enclosure

cc: Rebecca L. Flora, AICP, Secretary, Maryland Department of Planning
Nicolai Francis-Lau, Maryland Department of the Environment

Resolution No.: 20-482
Introduced: January 30, 2024
Adopted: April 23, 2024

**COUNTY COUNCIL
FOR MONTGOMERY COUNTY, MARYLAND**

Lead Sponsor: County Council

SUBJECT: Amendments to the Comprehensive Water Supply and Sewerage Systems Plan

Background

1. Section 9-501 et seq. of the Environmental Article of the Maryland Code requires the governing body of each County to adopt and submit to the State Department of the Environment a comprehensive County Plan, and from time to time amend or revise that Plan for the provision of adequate water supply systems and sewerage systems throughout the County.
2. Section 9-507 of the Environmental Article of the Maryland Code provides that the Maryland Department of the Environment (MDE) has 60 days to review a county governing body's action to amend the County's Water and Sewer Plan. Upon notice to the County, MDE may extend that review period for another 45 days, if necessary. At the conclusion of this review, MDE must either approve or reject the Council's action on each of these amendments, or the action is confirmed by default. Any action approved or taken by this resolution is not final until that action is approved by MDE or the period for final MDE action has expired.
3. In accordance with the State law on December 30, 1969, by Resolution No. 6-2563, the County Council adopted a Comprehensive Ten-Year Water Supply and Sewerage Systems Plan which was approved by the State Department of the Environment.
4. The County Council has from time to time amended the Plan.
5. On January 22, 2024, the County Council received recommendations from the County Executive on seven Water and Sewer Plan amendments.
6. Recommendations on these amendments were solicited from the Maryland-National Capital Park and Planning Commission, Washington Suburban Sanitary Commission Staff, and affected municipalities.

7. A public hearing was held on March 5, 2024. The County Council notified affected State and local agencies of the public hearing on January 25, 2024. The County Council published a public notice for the hearing in The Daily Record on February 2, 2024.
8. The County Council's Transportation and Environment Committee held a worksession on the request on March 11, 2024.
9. The County Council held a worksession on April 2, 2024.

Action

The County Council for Montgomery County, Maryland approves the following actions on amendments to the Ten-Year Comprehensive Water Supply and Sewerage Systems Plan as shown in the attachments to this resolution.

This is a correct copy of Council action.

Sara R. Tenenbaum
Clerk of the Council

**Montgomery County Comprehensive Water Supply and Sewerage Systems Plan
December 2022 Amendment Transmittal: Water/Sewer Category Map Amendments**

Montgomery County uses water and sewer service area categories, in part, to identify those properties that should use public water and/or sewer service versus those that should use onsite systems, usually wells and/or septic systems. Categories W-1 and S-1 identify properties approved for public service and that have access to public system mains. Categories W-3 and S-3 identify properties approved for public service but need new main extensions in order to receive public service. Categories W-4 and S-4, and W-4 and S-5 identify properties that currently should use onsite systems but are proposed for public service in the future. Categories W-6 and S-6 identify properties that should use on-site systems, where public service is not planned for at least the next ten years. (See page 5 for additional information.)

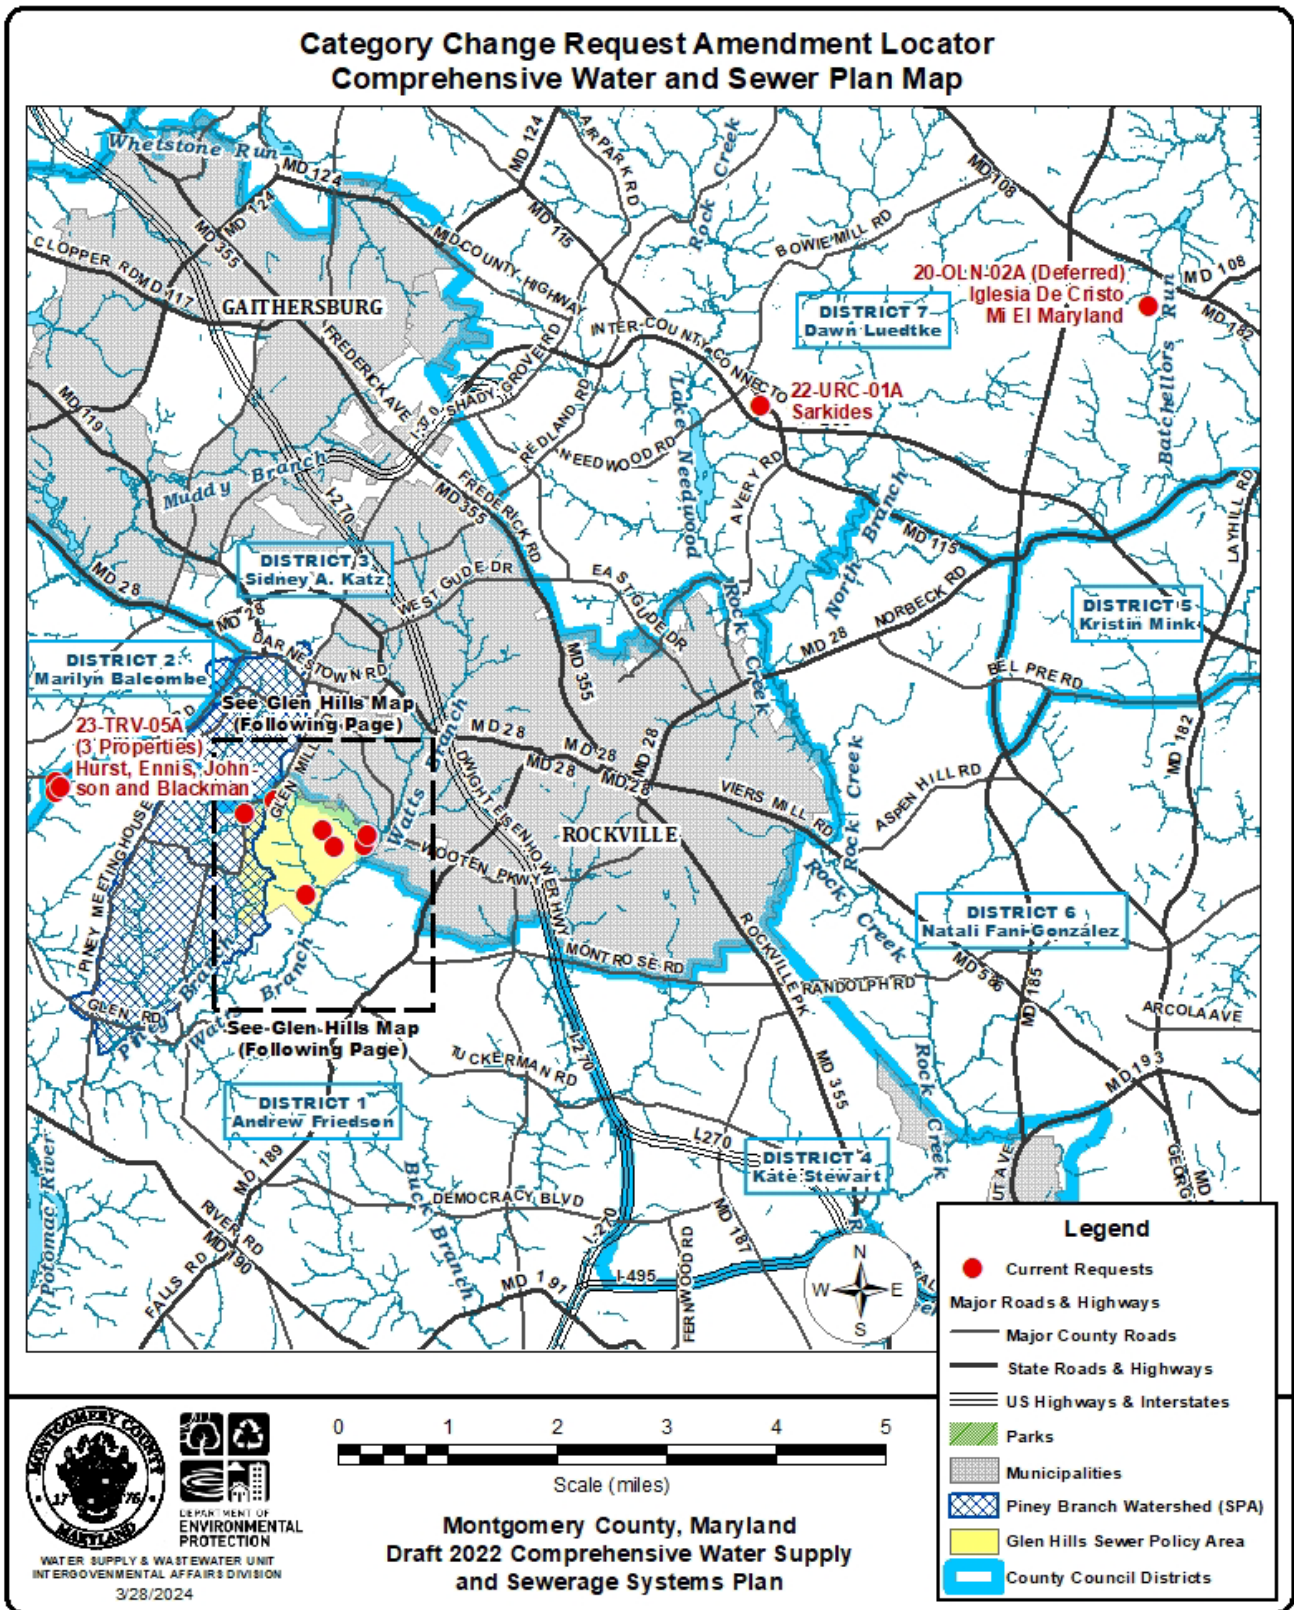

Property owners file category change map amendment requests seeking to change the service areas for their property from one category to another, often based on anticipated development plans. The following charts present the County Council's actions on a water/sewer category map amendment request filed with DEP and transmitted by the County Executive to the Council for consideration on December 29, 2022.

Water & Sewer Service Area Categories Summary

Category Definition and General Description	Category Definition and General Description
<p style="text-align: center;">W-1 and S-1</p> <p>Properties approved for and generally with existing access to community (public) service. This may include properties which have not yet connected to existing community service.</p>	<p style="text-align: center;">W-5 and S-5</p> <p>Properties planned for future public service, but which may use private, on-site systems (wells and septic systems) on a permanent basis. • Areas where improvements to or construction of new community systems are planned for the seven- through ten-year period.</p>
<p style="text-align: center;">W-3 and S-3</p> <p>Properties planned and approved for community (public) service, but <u>without</u> existing access to public service. • Public service will generally be provided within two years as development and requests for community service are planned and scheduled.</p>	<p style="text-align: center;">W-6 and S-6</p> <p>Properties that will use private, on-site systems (wells and septic systems), where community (public) service is not planned. • Category 6 includes areas that are planned or staged for community service beyond the scope of the plan's ten-year planning period, and areas that are not ever expected for community service on the basis of adopted plans.</p>
<p style="text-align: center;">W-4 and S-4</p> <p>Properties planned for future public service, but which need to use private, on-site systems (wells and septic systems) in the interim. • Areas where improvements to or construction of new community systems will be programmed for the three- through six-year period. B</p>	<p>Note: Although the majority of properties in the county have the same water category as sewer category (i.e. W-3 and S-3, or W-5 and S-5), this is not always the case. The County does not always assign water and sewer categories in tandem, due to differences in service policies or to actual service availability. For example, a particular property could have service area categories W-1 and S-6. Therefore, it is important to know both the water <i>and</i> sewer service area categories for a property. Montgomery County does not use categories W-2 and S-2 in its Plan.</p>

• See Attachment B for mapping of approved, conditionally approved, and deferred category change amendments.

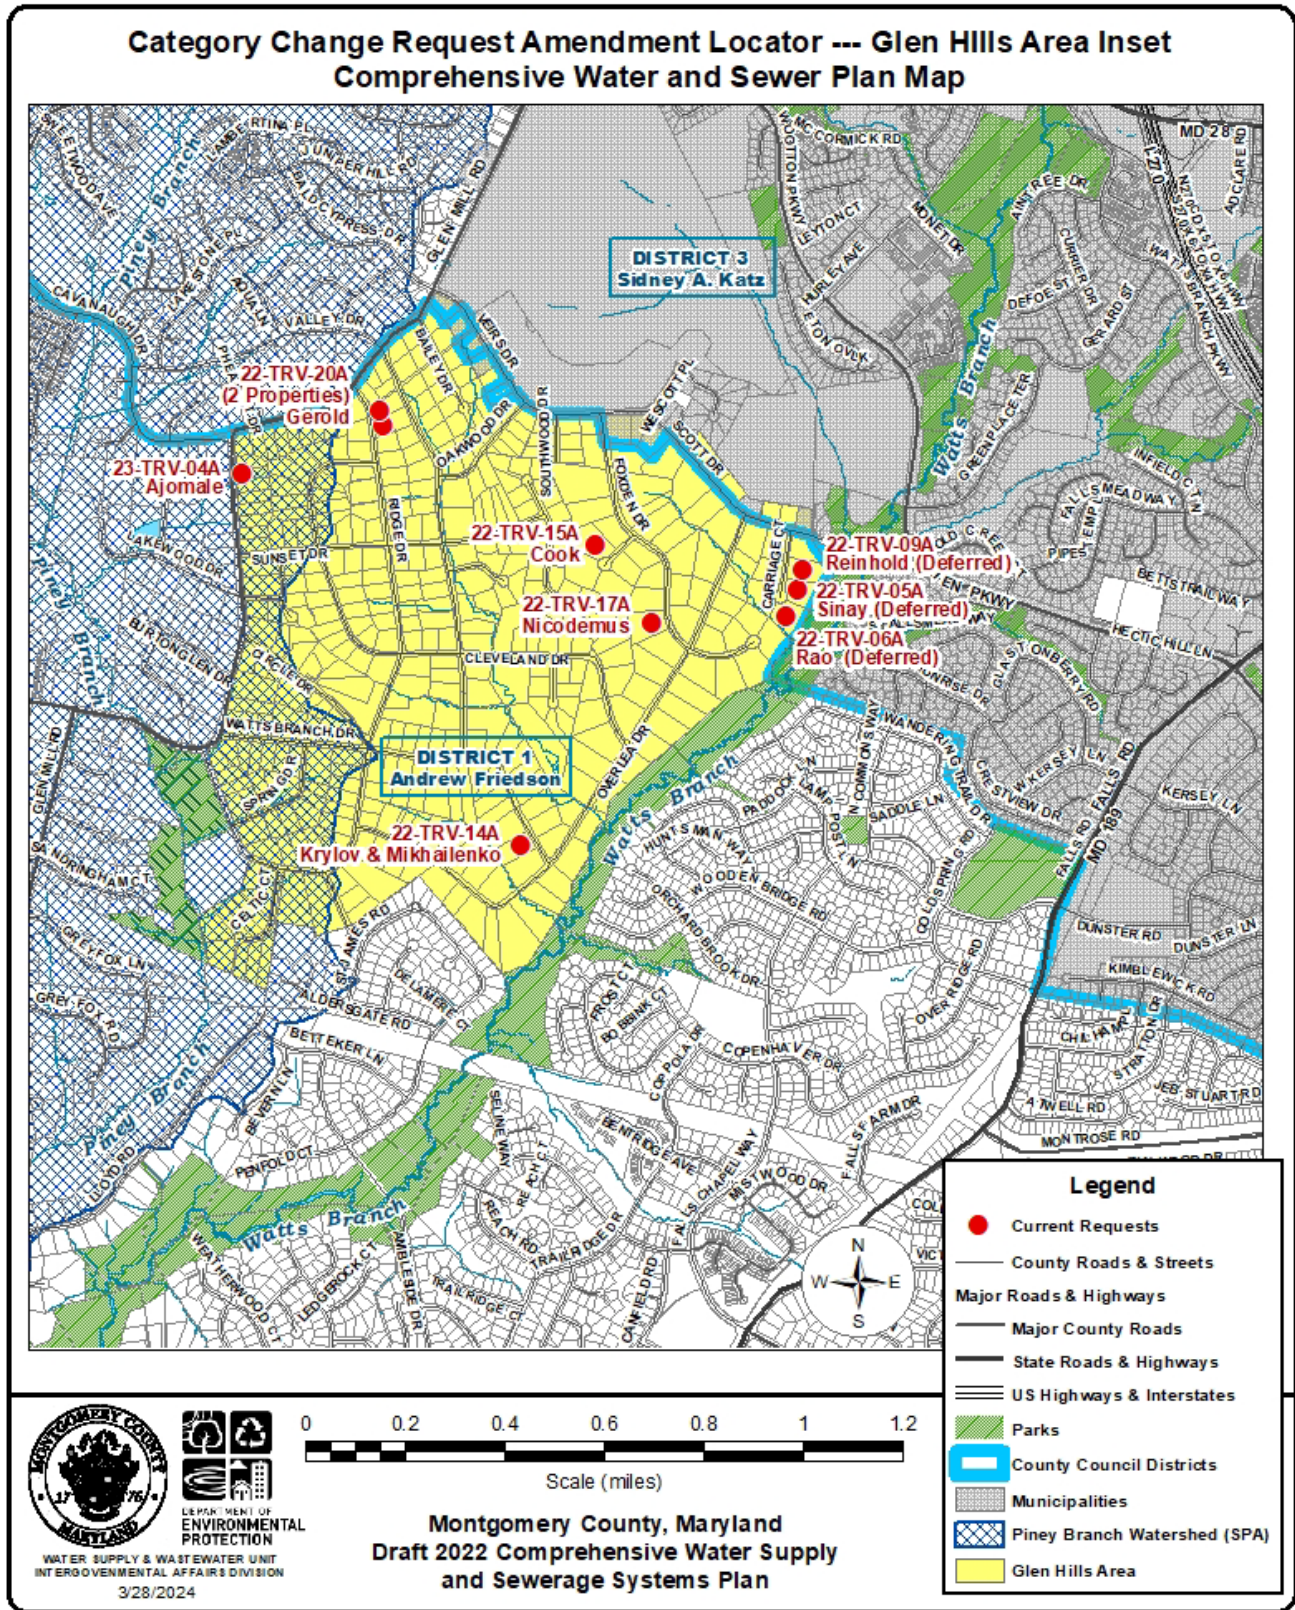

**Montgomery County Comprehensive Water Supply and Sewerage Systems Plan
December 2022 Amendment Transmittal: Water/Sewer Category Map Amendments**

Description: A map showing the locations of water and/or sewer category change requests within the general Rockville and Potomac areas. Four of the current requests are within the Glen Hills study area. The map also shows related County Council districts.

• See Attachment B for mapping of approved, conditionally approved, and deferred category change amendments.
