- Default (400)
- Auction (289)
- Real-estate Owned (185)
- Existing Parks

Please note that this address-level data was provided by RealtyTrac to the Maryland Department of Housing and Community Development (DHCD). The data was then "geocoded" to locate each foreclosure event for use with mapping software. The totals reported from address-level data will not always match DHCD's reported totals at the zipcode, county, or other levels of geography. Additionally, RealtyTrac data is derived from circuit court records and may not include all foreclosure events taking place.
