

## WHITE GROUND ROAD TAR & CHIP PROJECT

Boys, MD

### PURPOSE

This newsletter is to inform you of the upcoming Tar & Chip of White Ground Road from Darnestown Road to Clopper Road. Please see the reverse side of this newsletter for the project map. This project will consist of full width Tar & Chip from Route 28 to Route 117 followed by Fog Seal application to eliminate dust and preserve the Tar & Chip. This pavement management preservation project employs long term strategies to improve roadway conditions.

### IMPACTS

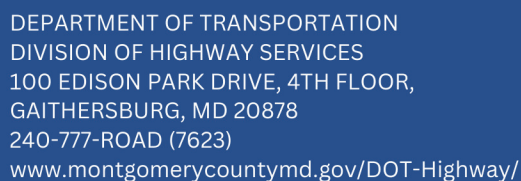

No parking signs may be posted in advance of resurfacing on your street and flaggers will maintain traffic flow. You will have access to your driveway and street throughout the duration of the project. Please walk or drive carefully through the work zone and obey all posted signage. We thank you for your cooperation and patience as we work to improve the County infrastructure for residents and users.

### SCHEDULE

This project is scheduled to take place in August and will take roughly 16 days to complete, weather and other conditions permitting. Work hours will be between 7:00 AM and 5:00 PM, Monday through Friday.
