Crash Date: Friday, October 24, 2022

Crash Time: Approximately 9:22 AM

Local case number 220046592

Review Date: November 1, 2022

M. L. Paylor; 11-3-2022

Location and Site Description:

Randolph Road near Hammonton Place is classified as a Major Highway. It is six lane divided closed section roadway. The current crash location is at the median break along Randolph Road at the intersection with Hammonton Place. The intersection is unsignalized and left turn lanes are provided for both the eastbound and westbound directions. There is a WMATA/Ride On bus stop on both sides of Randolph Road at the intersection.

Description of Crash:

Preliminary investigation indicates that a vehicle traveling west on Randolph Road at Hammonton Place crossed the median opening and struck a vehicle travelling in the eastbound direction. The driver of the vehicle traveling in the eastbound direction suffered fatal injuries.

Observations:

A field investigation was conducted at the crash location and noted left turns lanes are provided for both directions travel along Randolph Road at the intersection. Pavement markings along Randolph Road near the crash location are in good condition. There are 45 mph speed limit signs along the eastbound Randolph Road approximately 600' from the crash site. Along the westbound direction the 45 mph speed limit signs are posted approximately 1000' from the crash site. Cross street signs with advance street name plates are posted along both Randolph Road approaches to Hammonton Place. Keep right signs with object markers are posted in both direction along Randolph Road at the nose of the Hammonton Place median breaks.
