Natural Resources Article Section 5-406(d) provides: A county or municipality may not issue a building permit to an applicant for any clearing, construction, or development that will result in the trimming, cutting, removal, or injury of a roadside tree until the applicant first obtains a permit in accordance with this section.

The building permit for which I am applying involves one of the following (please select ONLY one):

☐ ALL interior work

☐ Residential Fence Permit (located in backyard)

I understand that I may not park vehicles or store and/or stage construction materials within the critical root zone of any roadside tree(s).

(To determine the critical root zone of a tree: Measure the diameter of the tree from 4 1/2 feet from the ground. Multiply that number by 1.5 and convert to feet. E.g. Tree is 10” x 1.5 = 15”; convert to FEET. The critical root zone of this tree is 15 FEET)
