

**Marc A. Marzullo, PE**

<b>EXPERTISE</b>	Civil/Structural Engineering
<b>EDUCATION</b>	MS/1978/Civil Engineering/Lehigh University BS/1976/Civil Engineering/University of Massachusetts
<b>REGISTRATION</b>	Professional Engineer – Maryland 12913

**SUMMARY**

Mr. Marzullo is the former President of Entrex Communication Services, Inc. where he was responsible for business development, overall business operations, and was principal-in-charge for select communication projects. He was responsible for providing professional engineering services for the design of over 2500 communication sites for wireless cellular, wireless internet, satellite radio, and paging sites and engineering services to wireless service providers in ten markets nationwide. Mr. Marzullo previously served as Vice President and Managing Principal of URS Corporation's Washington, DC telecommunication business from 1995 to 2000. While at URS, Mr. Marzullo developed a new business practice group for URS with more than fifty-five employees that provided architectural/engineering, construction management and general contracting services to the wireless communications market. Prior to that, he served as associate and Senior Structural Engineer at Smislova, Kehnemui & Associates, as associate and senior structural engineer at KCE Structural Engineers, PC and a structural engineer at Bechtel Power Corporation where he was responsible for structural design of commercial, institutional, municipal buildings and infrastructure and fossil and nuclear power plant project.

Mr. Marzullo is currently working as a part-time employee at Entrex Communication Services, Inc. where he provides engineering and consulting services for specific tower development projects.
