Poolesville New Town Hall

Experience: Prior to founding Architectural Concepts Group, Inc., Mr. Clapp was the vice president of a mid-sized architectural/engineering firm, in charge of construction document preparation and project supervision during construction. He founded Architectural Concepts Group, Inc. in 1981. Under his leadership the company has provided design and consulting services for commercial and residential new construction, additions, renovations and historic preservations for more than forty-one years.

The Main Cup Restaurant, Middletown, MD

Principal Architect for extensive structural renovations for conversion of the historic Middletown Main's Ice Cream building to a restaurant/coffee shop with outside terrace and separate second floor tenant space. Original fixtures of the building were preserved wherever possible as features for the coffee shop and the original façade closely restored to preserve the existing downtown Middletown streetscape.

**Bennett Creek Animal Hospital,
Clarksburg, MD.**

Dr. Jeff Walcoff is founder and owner of Bennett Creek Animal Hospital, and was very active in the design and layout of the facility creating an efficient operation from the standpoint of utilization of space, staff, animal care and boarding. Architectural Concepts Group, Inc. has provided design services for Dr Walcoff at practice in Frederick County, an emergency veterinary clinic also in Frederick as well as the Bennett Creek facility and the current design for expansion of the facility.

**Hartz Building Interior & Exterior Renovations,
Frederick, MD.**

Renovation and change of use of 108,000 sq ft manufacturing facility to office and warehouse space. Project services included: field measuring and drafting existing structure, researching existing permit history and zoning regulations, meeting with local authorities as required, performing code analysis including 2006 IBC, 2006 N.F.P.A 101 Life Safety, 2006 Fire Prevention and ADA accessibility, preliminary through final design, construction documents, permit processing and construction administration on as-required basis.
