#### **3. MFD Exclusions and Waivers**

The Director, Office of Procurement, may determine that a contractor has or has not satisfied the MFD requirements. The determination to waive the MFD requirements is based on the rationale that subcontracting cannot be achieved for a variety of business-related reasons. On the following pages, a number corresponding to the reason for waiver given below (1 to 6) is used in the summary table of FY25 waivers.

The prospective contractor may request a waiver. The contractor must explain to the Director why the goal has not been achieved. This explanation must demonstrate that the prime contractor's failure to meet the goal is for reasons beyond the contractor's control. Waivers are granted for one of the following reasons:

1. The contract is to an individual contractor, including Recreational Instructors, Doctors, Nurses, etc., where subcontracting is impractical.
2. MFD firms listed on the subcontracting plan hold certifications not accepted by Montgomery County, or are not CVRS registered, or have a pending certification.
3. Manufacturers or their certified distributors for certain products that are not available for contracting non-professional services.
4. Proprietary services or products owned and controlled by the prime contractor.
5. Economically impracticable.
6. Vendor claims that they have in-house capacity to perform the services.
