

## **Welcome to Wheaton Revitalization News!**

**Wheaton Revitalization News** is an email distribution list that will provide frequent updates to the surrounding community on the Wheaton Revitalization project. The purpose of this distribution list is to provide you with project updates and construction activities. For additional information on the Wheaton Revitalization Project please visit <http://www.wheatonproject.com>

### **Look Ahead - Week of June 18 to June 24**

Significant site activities during the week of June 18 to June 24 continue to mobilize the Contractor's forces and initial set-up of on-site field offices. Additionally, preliminary items of work such as administrative submittals, field environmental controls, traffic controls, pedestrian controls, and signage will continue. Demolition of the asphalt parking lot, started earlier this week, will continue as well. No other major work activities are planned.

The Contractor held its preconstruction meeting with the Department of Permitting Services (DPS) concerning establishment of Sediment & Erosion controls and will continue the establishment of Sediment & Erosion Controls site-wide throughout the week of June 18.

The precast concrete traffic barrier along Reddie Drive and Triangle Lane were mobilized and placed early this week and will be adjusted and secured during the week of June 18. The placement of fencing will continue.

### **Mobilization**

- The Contractor and the Montgomery County Department of Transportation (MCDOT) both continue to mobilize to the site.
- The Contractor continues with establishment of its Field Office (trailers) in the northern portion of Lot 13 and is awaiting the connection of permanent Pepco power which is expected within the next week or so.

- MCDOT continues to establish its Construction Field Office in the administration area of Wheaton Regional Service Center (RSC) on Reddie Drive. MCDOT will occupy this location until later this summer when the demolition of the Regional Service Center takes place.

### **Sediment and Erosion Controls**

- The Contractor continues to install Sediment and Erosion Controls including placement of the Super Silt Fence around the perimeter of the site and establishing a Sediment Control Device near the center of the site for use during the Geothermal drilling operation. This work will continue throughout the week of June 18.

### **Traffic Controls**

- The Contractor will continue establishing Traffic Controls in accordance with the approved plan including adjustment and anchoring the precast concrete barriers placed early this week along Reddie Drive and Triangle Lane.

### **Pedestrian Controls**

- The sidewalk along the north side of Reddie Drive west of Triangle Lane was closed to Pedestrian Traffic on Sunday, June 11. Pedestrian traffic is now detoured (by signs) across Reddie Drive and along the south side of Reddie Drive.
- Field adjustments to crosswalks is underway.
- Fence will be erected the Precast Concrete Barriers once they are adjusted and anchored.

### **Site Demolition**

- Asphalt demolition within Parking Lot 13 and at other nearby locations commenced and will continue throughout the upcoming week.

### **Project Signage**

- MCDOT will continue to examine opportunities to improve project signage including signage to promote business in the Wheaton Triangle particularly immediately adjacent to the project site.
