There will be NO more language changes. The only issue left is the mapping.

Hello Council President Rice and Councilmember Riemer,
Thank you for the clarification regarding the action that was taken on Tuesday regarding ZTA 13-04.
I was confused when I heard that the effective date of the ZTA was October 30, 2014 and there was time for considering final wording and use conditions.
Thank you again. J

It is my understanding that the existing proposed language stands. That language includes a restriction on the size of any buildings for educational purposes to 10% of the footprint of farm buildings on the property. I don't believe there are any further changes in language that are contemplated. If that is not right please let me know.

Subject: Thank You for Including Agriculture Education and Agriculture Tourism

Hello County Council members,
I want to thank you for including Agriculture Education and Agriculture Tourism as part of the Zoning Rewrite ZTA 13-04 as requested by the agricultural community.
This new use can provide opportunities to promote agriculture education to the general public and to the next generation of farmers in Montgomery County.
I look forward to the work session next Tuesday March 11, 2014 at 1:30 pm to discuss the Farming at Metro's Edge-FAME Report recommendations which includes looking for more ways to promote agriculture education.
It would be helpful if we could see the final wording and use conditions that Jeff was asked to draft.
Thank you again and let me know if you have any questions.
J
