

## **Remaining Agricultural Items to consider for the Zoning Rewrite Process**

We need to consider the recommendations of the DED-ZTA for permitting both ag and hort uses in the RDT zone-Expanded definitions-Ag Processing, Horticultural Nursery, Landscape Contractor (See Attached letter dated April 19, 2012 From the Montgomery County Commission on Health)

How do we protect/continue the operations in use today as Accessory Use to the farm? Examples include: Agricultural Processing, Grain Elevator, Milk Plant, Production of Mulch and compost, Nursery Horticultural,

We need to include the proposed-new Definitions Ag Education and Agri-Tourism;

We need to resolve the issue surrounding the Agricultural Reserve-Zone and the Intent statement;

How can we include uses like Agricultural Processing that will be permitted as L/C which is equivalent to the existing P/SE;

How can we remove the prohibition of Footnote 48 for uses on TDR easement properties that complement agriculture uses-Examples Bed and Breakfast use, Farm Machinery Service, Sales, and Storage and Solar;

We must address the Definitions of new farm uses that are not consistent with the legal definition of agriculture-Examples Crop Farm, Livestock Farm, Urban Farm, Animal Husbandry;

How can we make sure that Ag uses remain permitted by right in the residential zones?
