**Discussion Item:** Revised T-Mobile applications – 201205-02, 201205-06, 201206-09

As reported that this may happen at the June meeting, Michael Bortz, has now advised us that instead of just replacing three antennas with new ones, T-Mobile has decided to replace six antennas new ones at the locations listed below for applications 201205-02 and 06. T-Mobile has not filed for permits on any of the applications. They are all MCPS sites. There is nothing about the changes that warrants revising our recommendation for those applications.

For application 201206-09, where T-Mobile was planning on changing antennas at PEPCO tower locations, there will now be no changes at all.
