RESPONSE: EMERGENCY ASSISTANCE & DEMAND
COVID-19 RENTAL RELIEF UPDATE: WEEK OF MAR 7-13

APPLICATIONS BY WEEK (ENDED 12/31)

11,056 total applications (excluding 3,852 duplicate applications in grey)

APPLICANT CHARACTERISTICS

- 52% matched with landlord application
- 53% unemployed past 90 days
- 29% needed to care for self/others
- 23% self-reported receiving an eviction notice
- Median household income: $21,072

APPLICANT HOUSEHOLD CHARACTERISTICS

Household size

- 35% size 1
- 23% size 2
- 18% size 3
- 13% size 4
- 11% size 5+

Percent of Area Median Income

- 60% 0%
- 21% 1-30%
- 10% 31-50%
- 4% 51-80%
- 4% 80%+

Application portal closed on 12/31/21.
APPLICATION PROCESSING

Denials are primarily due to applicants not having arrears/mortgage assistance requests, exceeding income requirements, not demonstrating county residency, and include non-responsive and fraudulent requests.

ALL-TIME TOTALS

The current round of funding adds to two previous rounds of COVID-19 assistance. In total, the Emergency Rental Assistance Program has approved:

- $73.7M in payments
- 10,038 households
COVID-19 RENTAL RELIEF UPDATE: WEEK OF MAR 7-13

HEATMAP OF RECIPIENT HOUSEHOLDS

RECIPIENT RACE/ETHNICITY

• Average client payment: $10.1K
• 64% of payments arrears; 36% prospective
• 46% of awarded households are in high-need areas as defined by the Homeless Prevention Index
**COVID-19 RENTAL RELIEF UPDATE: WEEK OF MAR 7–13**

**ERAP1 EXPENDITURES**

Award*  
$59.5M

Current spending and encumbered  
$59.5M

* Total ERAP1 includes direct and state funding.

**ERAP2 EXPENDITURES**

Award  
$34.1M

Current spending and encumbered  
$1.8M

Note: Spending and percentages may shift as payments are reconciled.

As of 1.31.2022

• **936** residents scheduled for eviction after July 19
• **45%** of households with writ have applied for emergency rental assistance
• Context: **fewer than 8%** of writs typically result in eviction

NOTE: Records on writs for eviction can include commercial tenants as well as multiple notices for a single household. The stats above attempt to capture unique residential households only, but it is not always possible to make such distinctions.
NOTE: Up to March 7, total occupancy does not include MCCH-affiliated hotels providing shelter to those who are in quarantine or isolation.
1,239 calls last week for DHHS services

- Nearly 41% of last week’s DHHS service calls were regarding public assistance programs
  - Most questions regarding public assistance are referred to the Office of Eligibility and Support Services, which in February fielded 2,054 direct calls and 1,734 referrals from MC311
- 10% of DHHS calls to MC311 were about the COVID Rental Relief Program
MC311 WEEKLY CALL VOLUME: DHHS

PUBLIC HEALTH

287 calls last week for Public Health
22% related to COVID-19

SERVICES TO END & PREVENT HOMELESSNESS

260 calls last week for SEPH
49% related to COVID-19
Based on CDC’s new community level indicators, Montgomery County’s community level is **LOW**.

- Fewer than 200 cases per 100k in the past seven days
- Fewer than 10 new COVID-19 admissions per 100k in the past seven days
- Less than 10% of staffed inpatient beds occupied by COVID-19 patients on average in the past seven days

**CASES AS OF 3/15/22**

- 32 cases per 100k in the past seven days

**HOSPITALIZATIONS & BED USE AS OF 3/12/22***

- 3 admissions per 100k in the past 7 days
- 3.2% of inpatient beds occupied by COVID-19 patients

*The CDC metric for percent of inpatient beds occupied by COVID-19 patients differs from the percent reflected on Montgomery County’s surveillance dashboard due to data delays and differences in how the CDC groups hospital services areas. DHHS and CountyStat are working to align the two metrics. Case rate and hospital admissions may be delayed on CDC site relative to county dashboard.*
There are 29 hospitalized COVID-19 patients as of 3/14. Both acute care (14) and ICU (2) bed usage has declined.

1.9% of hospital beds in the community are occupied by patients with a COVID diagnosis (as of 3/14).

13 patients are currently hospitalized at the alternate care site. These patients are transfers from other hospitals and may come from other jurisdictions.

For real-time updates, visit the COVID-19 Surveillance Dashboard: [https://www.montgomerycountymd.gov/covid19/data/](https://www.montgomerycountymd.gov/covid19/data/)
COVID-19 DEATHS

Monthly COVID-19 Deaths
Updated 3/14/22

Montgomery County  Maryland

VSA revised death data on May 27, 2021 to include COVID-19 deaths not previously counted.

NOTE: Monthly totals are based on the date death was reported, which may not be the same as the date on which the death occurred.
HOSPITALIZATIONS & DEATHS BY VACCINATION STATUS

NOTE: Hospitalization rates for the boosted population are not available.
COVID-19 VACCINATIONS: TOTALS FROM CDC

TOTAL VACCINATIONS (AS OF 3/14/22)

• ≥95%1 of total population received at least ONE DOSE [N=1,059,199]

• 86%2 of total population received at least TWO DOSES (fully vaccinated) [N=902,197]

• 53% of fully vaccinated population received a BOOSTER/ADDITIONAL DOSE [N=476,264]

1. The CDC caps percentages at 95% to account for margins of error in data entry and population estimates.
2. On 1/19 the CDC revised its method for counting vaccines administered at Bureau of Prisons and at Department of Defense facilities to better align vaccine counts with residential county of recipient instead of county where vaccine was administered. This revision has decreased the vaccine county for Montgomery County.

NOTE: The CDC vaccination count includes Montgomery County residents who received their shots in Maryland or outside the state. It also includes vaccinations administered in some federal entities within Montgomery County.

VACCINATIONS BY AGE GROUP

Chart reflects percent of total age group population that received doses. Percentage estimates are reflected as ranges for ages 12-17 and ages 5-11 due to higher margins of error.

• 56% of the fully vaccinated 12+ population received a BOOSTER/ADDITIONAL DOSE [N=476,132]

• 76% of the fully vaccinated 65+ population received a BOOSTER/ADDITIONAL DOSE [N=126,036]
Charts below show most recent full weeks of data, up to March 6, 2022.

**VACCINATIONS BY TYPE**

- **ADDITIONAL DOSE**
- **SECOND**
- **FIRST & SINGLE**

**ADDITIONAL DOSES BY AGE GROUP**

An additional dose is the third dose identified for individuals first administered Pfizer or Moderna, and the second dose identified for individuals first administered J&J. Doses are counted without regard to date. Total counts are estimations and not precise due to entry errors and missing doses for Marylanders who received any of their doses out of state.

Unlike the CDC vaccination data, data from Maryland Health Department only include Montgomery County residents who were vaccinated in Maryland. Totals do not include vaccinations administered at federal entities within the county to non-residents.
Across the highlighted tracts above, 30% of the population is White non-Hispanic, 27% is Black non-Hispanic, 24% is Hispanic, and 15% is Asian/Pacific Islander.
COVID-19 VACCINATIONS: PEDIATRIC VACCINATIONS

FIRST DOSES BY RACE/ETHNICITY

Charts read: 26% of 5-11 population are Hispanic, and 21% of vaccinated 5-11 population are Hispanic. <1% of vaccinated children identify as Native American; they are included in the "Other" category. Approximately 3% of pediatric records do not contain race/ethnicity information.

FIRST-DOSE VACCINATION RATES BY ZIP CODE

Vaccination rates among residents ages 5-14 are used as a proxy for pediatric vaccination rates in the map below due to the availability of population estimates only for certain age categories. Zip codes with fewer than 100 residents ages 5-14 are excluded.

PEDIATRIC VACCINE PROVIDERS

Pediatric vaccinations are distributed evenly between Montgomery County DHHS (in partnership with MCPS, physicians and medical clinics, and pharmacies and grocery stores.)
COUNTY GOVT COORDINATED TESTING & VACCINATIONS

**DHHS-ADMINISTERED TESTING:** 1,828 TESTS ADMINISTERED LAST WEEK

- **DHHS-ADMINISTERED VACCINATIONS:** 657 DOSES ADMINISTERED LAST WEEK

Data are subject to retroactive changes.
2,144,000 rapid tests have been acquired by the County

- More than 1.6M kits have been distributed
- 847,866 kits and 1,011,327 masks have been distributed at libraries
  - Test kits and masks are now available during all hours that libraries are open.
- 490,280 rapid test kits have been provided to MCPS
- 135,082 test kits & 229,963 masks distributed to childcare, private schools, and community non-profits
- 48,090 rapid test kits and 124,446 N95 masks have been distributed through municipalities
This report aggregates data from several sources, some of which are publicly available. Nearly all data are subject to retroactive changes.

- Rental assistance data is generated by DHHS each Sunday prior to the publication of this report.
- Data on evictions are provided by the Montgomery County Sheriff’s Office each Monday for the week prior.
- Data on shelter occupancy are collected by DHHS weekly.
- MC311 data are downloaded weekly from DataMontgomery.
- Unemployment data are downloaded monthly from FRED.
- Case data and positivity rate are provided by Maryland Department of Health. Real-time data can be found on the Montgomery County COVID-19 Surveillance Dashboard.
- Data on COVID-19 deaths are available through the Maryland Department of Health dashboard and ArcGIS platform.
- Data on hospitalizations and deaths by vaccination status are available on the DHHS COVID-19 website.
- Vaccine data are downloaded from the CDC website each Tuesday morning. More detailed vaccine data are provided by the Maryland Department of Health Immunet database.
- Data on county government coordinated testing and vaccinations are collected by DHHS daily.
